**ORDER**

**M.A. No. 69/2019**

This misc. application has been filed by Zila Ghaziabad Ent Nirmata Samiti with the prayer that applicant association may be directed to operate their brick kilns in the existing fixed Chimney Bull's Trench Kiln (FCBTK) technology which uses mustard husk as fuel.

This misc. application has been filed in the original application no. 718/2017. The said original application was filed by the applicant-Anil Kumar raising the grievance that Central Pollution Control Board should shut down all the brick kilns operating in State of UP, State of Uttarakhand, State of Punjab and State of Haryana, during the month from December to February due to health problem being caused as a result of operation of brick kilns.

While considering the original application on 22.01.2019, we had taken note of the directions issued by CPCB on 27.06.2017. The said directions were issued under section 18(1) (b) of the Air (Prevention of Control of Pollution) Act, 1981 for preventing and control of pollution of different types of brick kilns operated. The directions had been sent to all State Pollution Control Boards.

The applicant has in this misc. application submitted that the technology being used by the association is a better one and it does not cause any health problem. It has also been submitted that the technology suggested by the applicant has been considered by the CPCB and some information with regard to the said technology has been mentioned in their letter dated 01.03.2019 and sought approval of MoEF & CC so as to allow CPCB to modify its earlier direction.

In view of the aforesaid, we direct the CPCB to look into and expeditiously decide the issue in respect of the

technology suggested by the applicant herein and in case it is found technically appropriate, approval of MoEF & CC be taken at the earliest.

With the aforesaid directions, misc. application no. 69/2019 stands disposed of, with no order as to cost.
