						87.69624 E 21.66225 N	Yes	N.A.	CRZ-II

Note:

- 1) The hotel lies on the landward side of the Mandarmani Beach Road.
- 2) IESVM has received two documents (i) a 145-page .pdf document containing scanned copies of 'stamped and signed 1 page Declaration sheet' for each individual hotels/resorts/homestay having details of 140 hotels/resorts/homestays in total with duplicates in page no. 35,36 and 113,114, along with 'blank/no data' at page nos. 116, 128 and 129 (ii) MS-excel sheet having coordinates of 139 such hotels/resorts/homestays. Due to discrepancies observed between the two sets of data provided, the 'stamped and signed Declaration sheet' has been considered for the CRZ observations based on CZMP-2011 on scale 1:25000.
- 3) In case of any overwriting / illegible data in the 'stamped and signed Declaration' sheet, corresponding coordinates were referenced from the provided MS-excel sheet.

Disclaimer:

- a) Administrative boundaries for CZMP based on CRZ Notification 2011 on scale 1:25000 have been derived from mouza boundaries based on P.S. maps (scale 1" = 1 mile). However, administrative boundaries for local level CZMP maps are to be derived from cadastral maps on scale 1:3960 or the nearest scale 1:4000. Accordingly, the CRZ map on scale 1:25000 will be identical to approved CZMP 2011 and therefore indicative, however, CRZ maps on scale 1:4000 will have more refined CRZ categorization based on more accurate administrative boundaries which is evident while re-aligning the mouza boundaries according to cadastral maps.
- b) **The indicative CRZ status will be applicable only for the given point location as provided and will not be valid for the premise or area under operation by any entity or establishment.**
- c) Geographic coordinates as provided by applicant/private parties are considered to be true and final and no field verification has been carried out by IESVM.

- 2) IESWM has received two documents (i) a 145-page pdf document containing scanned copies of 'stamped and signed 1 page Declaration sheet' for each individual hotels/resorts/homestay having details of 140 hotels/resorts/homestays in total with duplicates in page no. 35,36 and 113,114, along with 'blank/no data' at page nos. 116, 128 and 129 (ii) MS-excel sheet having coordinates of 139 such hotels/resorts/homestays. Due to discrepancies observed between the two sets of data provided, the 'stamped and signed Declaration sheet' has been considered for the CRZ observations based on CZMP-2011 on scale 1:25000.
- 3) In case of any overwriting / illegible data in the 'stamped and signed Declaration' sheet, corresponding coordinates were referenced from the provided MS-excel sheet.

Disclaimer:

- a) Administrative boundaries for CZMP based on CRZ Notification 2011 on scale 1:25000 have been derived from mouza boundaries based on P. S. maps (scale 1" = 1 mile). However, administrative boundaries for local level CZMP maps are to be derived from cadastral maps on scale 1:3960 or the nearest scale 1:4000. Accordingly, the CRZ map on scale 1:25000 will be identical to approved CZMP 2011 and therefore indicative, however, CRZ maps on scale 1:4000 will have more refined CRZ categorization based on more accurate administrative boundaries which is evident while re-aligning the mouza boundaries according to cadastral maps.
- b) *The indicative CRZ status will be applicable only for the given point location as provided and will not be valid for the premise or area under operation by any entity or establishment.*
- c) Geographic coordinates as provided by applicant/private parties are considered to be true and final and no field verification has been carried out by IESWM.

- a) Administrative boundaries for CZMP based on CRZ Notification 2011 on scale 1:25000 have been derived from mouza boundaries based on P.S. maps (scale 1" = 1 mile). However, administrative boundaries for local level CZMP maps are to be derived from cadastral maps on scale 1:3960 or the nearest scale 1:4000. Accordingly, the CRZ map on scale 1:25000 will be identical to approved CZMP 2011 and therefore indicative, however, CRZ maps on scale 1:4000 will have more refined CRZ categorization based on more accurate administrative boundaries which is evident while re-aligning the mouza boundaries according to cadastral maps.

- a) Administrative boundaries for CZMP based on CRZ Notification 2011 on scale 1:25000 have been derived from mouza boundaries based on P. S. maps (scale 1" = 1 mile). However, administrative boundaries for local level CZMP maps are to be derived from cadastral maps on scale 1:3960 or the nearest scale 1:4000. Accordingly, the CRZ map on scale 1:25000 will be identical to approved CZMP 2011 and therefore indicative, however, CRZ maps on scale 1:4000 will have more refined CRZ categorization based on more accurate administrative boundaries which is evident while re-aligning the mouza boundaries according to cadastral maps.
- b) **The indicative CRZ status will be applicable only for the given point location as provided and will not be valid for the premise or area under operation by any entity or establishment.**
