The site inspection was done in the presence of Mr. Shashi Kumar Singh, Supervisor of M/s Chevrox Construction, Mob.-7488367053. After inspection, the following facts were found:-

Observation

Updated status of construction of cemented drain for water drainage by Zila Parishad Saran.

M/s Chevrox Construction has completed around 2.2 km pipeline work from Prabhunath Nagar Guest Marriage Hall to Sadha Dhala Over Bridge, in which 3 OPS (Online Pumping Station) and 1 IPS (Intermediate Pumping Station) have been installed. The unit representative informed that under this project, pipelines of 200 and 400 mm diameter have been laid underground, through which domestic effluent of Prabhunath Nagar will be connected to the newly constructed 32 MLD STP. He informed that my company's work is only from Prabhunath Nagar to Sadha Dhala Over Bridge. Further work will be done by BUIDCO.

Updated status of connecting the existing drain to the STP Plant under construction by Chhapra Municipal Corporation.

The Municipal Corporation is constructing a drain to carry domestic wastewater to the STP within the city. The drain after Sadha Dhaala Over Bridge is to be constructed by the Municipal Corporation, in which the construction work has not been completed yet at some places.

During the inspection, Shri Satyendra Yadav (STP Incharge) GO-7781988228 was talked to. He said that construction of Outer Drain Network in Prabhunath Nagar is not a part of their project. The construction work of STP has been completed and is ready for operation. Necessary action can be taken in the light of the above facts.
