Subject: Complaint regarding dust pollution due to wrongful dumping of over burden by Singh Natural Outsourcing Company in BCCL's open cast Khaira Mines located at Karkend in Dhanbad district.

==== Forwarded message =====

For the last several days, due to wrongful dumping of Coal Over burden stone in Khaira Opencast by Karkend based Singh Natural Outsourcing Company, life has become difficult for all of us, huge amount of dust is continuously blowing from this mine towards our village, due to which the people of the village are facing serious health problems (cough, difficulty in breathing I am facing discomfort, burning sensation in eyes. Also, due to this dust, our homes, neighbourhood, field crops and trees are also getting affected due to the dust. Many times the villagers demanded water sprinkling and dust control from the company, but till now no effective steps have been taken. This is a deliberate violation of Section 280 of the Indian Judicial Code and is also a violation of Article 21, the fundamental right given by the Constitution to breathe in a clean environment.
