

From,  
Sri Y.Ananda Kumari,Msc.,(Ag)  
Joint Director of Agriculture ,  
SPR Nellore District.

To,  
The Hon'ble National Green Tribunal  
Chennai.  
The Revenue Divisional Officer, Gudur

Sir,

Sub: Aquaculture- Chittamur, Kota Mandals -Soil samples collected – On the implementation of the orders of the Hon'ble National Green Tribunal issued in OA No.114 of 2020 to OA No.122 of 2020 Dt:31-1-2022 - analysis report received and same is herewith submitted-Reg.

\*\*\*\*\*

With reference to the subject matter I submit that soil test were conducted in Pittivanipalli, Ranganadapuram and Padartivarikandirga villages of Chittamur Mandal and Kota village of Kota Mandal which was enclosed herewith and as per the lab reports it has been elicited that with regards to the PH ie., Potential of Hydrogen value in Chittamur Mandal maximum is 8.3 and hence it has been confirmed that there is no harm has been noticed in the soil regarding yielding and when comes to EC ie., Electrical Conductivity it has been noted as normal as per the soil test results and therefore it is submitted that with the above results there will not be any harm to the paddy fields or for crop yields in the said villages.

It is further submitted that as per the soil tests results which was conducted at present and also conducted earlier it has been concluded and confirmed that there is no yield loss to the paddy fields in the said village ie., Pittivanipalli, Ranganadapuram and Padartivarikandirga Villages of Chittamur Mandal by this it has been evaluated that there is no loss to the paddy fields because of the shrimp cultures and also no damage had been caused to the paddy fields because of this shrimp cultures.

With regards to Kota Village of Kota Mandal it is submitted that the PH value maximum noted as 8.5 and when comes to EC it has been noted as normal by this it is also confirmed that there is no harm to the paddy fields or for crop yields in the said Kota Village of Kota Mandal.

Regarding the objections raised by the Sri Ravindra Reddy for the lands situated in Sy.No.641/2, 643/1 and 645/2 of Kota Village of Kota Mandal, it is submitted that there is no paddy crop raised in the said fields for the past 7 years and hence the question of damage caused to the said fields because of the shrimp culture does not arise as since there is no paddy crop in the said fields for the past 7 years and the further submitted that the shrimp culture which is near to the said fields is at a distance above 100mtrs and because of which there is no damage to the said fields.

It is further submitted that as per crop cutting experiments results pertaining to Pittivanipalli village the average yield is 2931 kgs per acre, in Ranganadapuram is 2822 kgs per acre and Padartivarikandirga village is 2960 kgs per acre of Chittamur Mandal for the year 2019-2020 and when comes to Kota village of Kota Mandal as per the crop cutting experiments results for the year 2019-2020 it is 3396 Kgs per acre and when comes to the 2020-2021 the yield also above normal yields therefore as per the above results the paddy yield in said villages is good which is equal to the other villages in the said mandals which is having only paddy harvesting.

Hence this is submitted for favour of kind information.

Thanking you sir,

Yours faithfully,

  
Joint Director of Agriculture  
SPR Nellore
