**HUMBLE STATUS REPORT FILED BY THE DISTRICT  
COLLECTOR, MADURAI**

I, Dr. Aneesh Sekhar, IAS, S/o Soma Sekharan Nair, Hindu, aged about 35 years, residing at No. 4, Collector's Bungalow, New Natham Road, Madurai do hereby solemnly affirm and sincerely state as follows:

1. I respectfully submit that I am the District Collector, Madurai District and as ordered by this Honorable Tribunal dated 15.03.2022 as: *"The District Collector is also directed to file a report as to whether any buildings were constructed encroaching into the water body, as alleged in the application and whether construction debris and other waste generated*

  
DISTRICT REVENUE OFFICER  
MADURAI

  
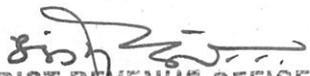

DISTRICT COLLECTOR  
MADURAI

:2:

*in the medical college was dumped into the water body, and if so, what is the nature of action taken from their side in this regard. Whenever inspection is done, they are directed to give notice to the project proponent, so that the inspection can be done in their presence.”, I am filing the status report as ordered above by this Honorable National Green Tribunal, Southern Zone, Chennai.*

2. I respectfully submit that as ordered above, I have instructed the District Revenue Officer, Madurai, the Revenue Divisional Officer, Melur Division, Madurai, Tahsildar, Madurai South and the Environmental Engineer, Tamil Nadu Pollution Control Board along with Survey and revenue staff to visit M/s Velammal Medical College, Hospital and Research Centre, Cinthamani village. Notice about their inspection was intimated to the Project Proponent, M/s Velammal Medical College, Hospital and Research Centre and they were also present during the joint inspection made on 14.09.2022.

3. I respectfully state that the Officials deputed have given a detailed report by stating that the Medical College, Hospital and Research Centre is located in an extent of about 113 acres of land covering 274 survey numbers of Anuppanadi village in S.Nos. 61/1, 2 etc. The details of the lands owned by the Project Proponent are enclosed. Entire lands were classified in the revenue records as 'ryot' 'wet lands'. It was told that they obtained 'No Objection' from the Competent Authority while seeking for lay out approval in terms of G.O. Ms. No.79 Housing and Urban Development Department dated 04.05.2017 and obtained approval of the lay out from the Local Planning Authority. But as on date it was found that entire field was converted as buildings to run Medical College,

Hospital and Research Centre and encompassed with compound wall all around.

4. I respectfully state that a channel flows abutting the compound wall on the southern side in S.Nos.89, 111, 112 etc. taking water from River Vaigai and flowing into Panaiyur Kanmoi located in S.No. 23 of Panaiyur village. It is noticed that there is no encroachment in the said water course. In-fact a safe distance of 4' were let of from the boundary of the compound wall. From a cursory glance over the FMB of the lands covered under construction, it is seen that there are some details passing through the above patta fields. Though as per CSO 30 read with RSO 26 (15), detail and channel flowing through patta lands are 'poromboke lands' for all practical purposes. It was ascertained from the representative of the Project Proponent who was present during the inspection that small odais taking water through agricultural fields were located in their patta lands prior to their purchase and since entire landscape has been covered with building with no patta field, the above water outlets no longer required were closed while construction of buildings for the Medical College Hospital and Research Centre was taken up.

5. I respectfully submit that the Project Proponent himself has provided for sewage water treatment plant - I of 400 KLD capacity to treat the sewage and effluents generated from the complex after disinfection. Treated sewage is also utilized for gardening purpose after disinfection

within the Hospital Campus. It was informed to the inspection team that the Project Proponent has entered into an agreement with Common Bio Medical Waste Treatment and Disposal facility, M/s Ramky Energy and environment Private Limited, Undurni Kidakulam village, Tiruchuli Taluk, Virudhunagar District for the disposal of the Bio Medical waste. The common Bio Medical Waste Treatment and disposal Facility collects the segregated Bio Medical Waste in colour coded bags provided with QR coding system from the Hospital in Global Positioning System fitted vehicle to its facility for necessary treatment and disposal. The District Environmental Engineer who was also present during the inspection confirmed this and added that the disposal of the sewage and bio medical waste from the Unit are being monitored continuously by them and hence the alarm sounded by the Petitioner that the debris and other wastes generated in the medical college was dumped into the water body was found to be false and exaggerated.

Therefore, for the foregoing reasons, it is most humbly prayed that this Honorable Court may be pleased to accept this status report and pass such other or further orders as this Honorable Court may deem it fit, proper and appropriate in the circumstances and thus render justice.

Dated at Madurai, this the 14<sup>th</sup> day of September, 2022.

## INSPECTION REPORT

As instructed by the Collector, Madurai, I, along with the Revenue Divisional Officer, Melur Division, Tahsildar, Madurai South Taluk and the District Environmental Engineer, Tamil Nadu Pollution Control Board, Madurai inspected M/s Velammal Medical College, Hospital and Research Centre as per the orders of the Honorable Green Tribunal, Southern Zone, Chennai in Original Application No. 08 of 2021 (SZ) and IA No. 56 of 2022 dated 15.03.2022 which inter-alia ordered as follows:-

*“The District Collector is also directed to file a report as to whether any buildings were constructed encroaching into the water body, as alleged in the application and whether construction debris and other waste generated in the medical college was dumped into the water body, and if so, what is the nature of action taken from their side in this regard. Whenever inspection is done, they are directed to give notice to the project proponent, so that the inspection can be done in their presence.”,*

2. As already informed, the Public Relations Officer, Project Proponent was present at the time of inspection to-day i.e 14.09.2022 at 10.30 AM. Revenue records were perused. It is seen that the Medical College, Hospital and Research Centre is located in an extent of about 113 acres of land in S.Nos. 61/1, 2 etc. covering 274 survey numbers of Anuppanadi village. The details of the lands owned by the Project Proponent are enclosed along with this inspection report. Entire lands were classified in the revenue records as ‘ryot’ ‘wet lands’. It was told by the Public Relations Officer during the inspection that they obtained ‘No Objection’ from the Competent Authority while seeking for lay out approval in terms of G.O. Ms. No.79 Housing and Urban

:2:

Development Department dated 04.05.2017 and obtained approval of the layout from the Local Planning Authority. But as on date it was found that entire fields were converted as buildings to run Medical College, Hospital and Research Centre and encompassed with compound wall all around.

4. It is seen that a channel flows abutting the compound wall on the southern side in S.Nos. 89, 111, 112 etc. taking water from River Vaigai and flowing into Panaiyur Kanmoi located in S.No. 23 of Panaiyur village. It is noticed that there are no encroachments in the said water course. In-fact a safe distance of 4' was let of from the boundary of the compound wall. From a cursory glance of the FMBs of the lands covered under construction, it is seen that there are some details passing through the above patta fields. Though as per CSO 30 read with RSO 26 (15), detail and channel flowing through patta lands are 'poromboke lands' for all practical purposes, it was ascertained from the representative of the Project Proponent that small water outlets taking water through agricultural fields were located in their patta lands prior to their purchase and since entire landscape has been covered with building with no patta field, the above water outlets, no longer required were closed while construction of buildings for the Medical College Hospital and Research Centre was taken up.

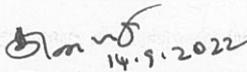

5. It is further seen that the Project Proponent himself have provided sewage water treatment plant - I of 400 KLD capacity and sewage treatment-II of 100 KLD capacity. Trade effluent generated from the hospital is treated in sewage Treatment Plant-I after disinfection. The treated sewage is partly recycled to process (Utilized for Heating, Ventilation and Air Conditioning) and the remaining is utilized for gardening purpose within the Hospital Campus. It was informed to the inspection team that the Project Proponent has entered into an agreement with Common Bio Medical Waste Treatment and Disposal

:3:

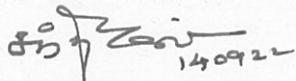

facility, M/s Ramky Energy and environment Private Limited, Undurumi Kidakulam village, Tiruchuli Taluk, Virudhunagar District for the disposal of the Bio Medical waste. The common Bio Medical Waste Treatment and disposal Facility collects the segregated Bio Medical Waste in colour coded bags provided with QR coding system from the Hospital in Global Positioning System fitted vehicle to its facility for necessary treatment and disposal. The District Environmental Engineer who was also present during the inspection confirmed this and added that the disposal of the sewage and bio medical waste from the Unit are being monitored continuously by them and hence the alarm sounded by the Petitioner that the debris and other wastes generated in the medical college was dumped into the water body appears to be exaggerated.

Our inspection revealed that there are no encroachments in the water body abutting the premises and that the wastages are not let into the water body as alleged in the petition.

Submitted.
