Sundaram-Clayton Limited

November 16, 2020

To
Central Pollution Control Board
Regional Directorate
No.77, South Avenue Road
Ambattur Industrial Estate
Chennai – 85

Dear Sir / Madam,

Sub: Discussion with TNPCB & CPCB on 09.11.2020 on disposal of paper waste - reg
This has reference to the phone call received from District Environmental Engineer office, Tamil Nadu Pollution Board, Ambattur to come for a clarification/ discussion about the unauthorised disposal of garbage found near Coom, Chennai during joint inspection conducted by TNPCB and CPCB official on 9th November 2020.

We met the above officials at their office to understand the issue, wherein we were informed by the DEE, TNPCB and CPCB official that during their inspection they found some paper wastes in the banks of Coom river bed and on scrutiny they found few torn papers bearing Sundaram-Clayton Limited (SCL) Plants were also found and hence they called us to enquire and advised us to revert to them with appropriate information.

In connection with the above, we hereby submit our response as follows for your kind perusal:

- a. SCL has obtained all the required environmental clearances from TNPCB for its operations. We also obtained necessary hazardous waste authorisation for generation, collection, storage and also disposal hazardous and non-hazardous wastes. The company meticulously adheres to all guidelines.
- b. A small quantity of non-hazardous waste (garbage) such as used scraped papers, dry leaves, scrap woods and also dusts in the roads inside the factory premises are collected, stored and disposed periodically to Corporation Garbage Yard at Ambattur by the garbage collection trucks of Greater Chennai Corporation(Annexure I)
- c. In the event of non-availability of Greater Chennai Corporation vehicle, we utilise the servicing of one M/s G Baskaran Lorry Service to collect the garbage (non-hazardous) consist of dry leaves, dust, scrapped papers and dispose them in the designated corporation garbage disposal yards (Annexure II). The vehicle used for

MTH Road

Phone:044-2625 8212

Sundaram-Clayton Limited

- the purpose is TATA 407 mini truck and normally driven by the owner cum driver whose name is Mr Daniel. His driving licence no is TN02 20130012591.
- d. Based on the discussion with your good selves, we have called Mr Daniel, owner cum driver of M/s.G.Baskaran Lorry Service on this issue and enquired him about the facts, where he stated that he normally collects and transports the non-hazardous waste from the company premises by his van TATA 407 (Reg no: TN10 F1450) and disposes it in Municipal Solid Waste Yard, Nungambakkam without any deviation all the time. He further stated that he was infected by COVID 19 in the month of June'20 and got admitted in a private hospital for treatment for 15 days and was advised by the Doctor to take rest for 3 months since he had co-morbid conditions like diabetics and lung infection. Since the collection and disposal of non-hazardous wastes and debris was his only livelihood for his family and due to his health condition his earnings were completely affected since lockdown in March 2020 and the family was in dire financial straits, his family decided to resume the activity with some call-on drivers till Mr Daniel becomes medically fit to resume work.
- e. Accordingly, they would hire some call on drivers on daily basis and deploy them for the garbage collection activities as and when they get the calls to sustain their living and also meet his medical expenditure since this is the only source of their livelihood. These drivers were engaged for 7 trips during 10th to 17th September to clear the garbage from our Plant with the clear instruction by Mr Daniel and family members to collect and dispose it in the Municipal Solid Waste Yard, Nungambakkam. He presume that there is a possibility of the call on driver breached his instruction and unloading it elsewhere. Though Mr Daniel tried to reach the call on driver over their phone numbers to ascertain the facts, they are not traceable as they hailed from outside Chennai.
- f. In spite of his health condition and also due to non-availability reliable driver, he has resumed work from 18th September 2020. Mr Daniel has admitted that there is a possibility of his call on driver breaching his instructions and disposing the paper wastes elsewhere and given it in writing that such mistake will not be repeated by him in future and requested to condone the mistake considering his health condition and family situation. He has also assured that he will abide by the rule and regulation without fail in his letter addressed to the company, which is enclosed in Annexure IV for your perusal along with his medical record as proof for his illness

and non-availability during the course of time where the non-adherence could have been committed by his drivers.

Under the above circumstances, in order to avoid such incident in future, we propose to initiate the following action on our side:

1. Introducing periodical and surprise checking of disposal of non-hazardous waste collected from our plant.
2. Discussing with agency with whom Greater Chennai Corporation has entered into agreement for maintenance of Municipal Solid Waste Yard, Nungambakkam and trying to explore the possibility of getting acknowledgement for each trip.

We request you to consider the above submissions and drop any proceedings in this regard. We assure you that we will remain committed to comply with all statutory regulations related to environment protection and improvement.

Thanking you

Yours Faithfully

R Gopalakrishnan
Vice President (Personnel)

Annexure:

- I. Waste collection by Greater Chennai Corporation.
- II. Trip sheets of M/s. G Baskaran Lorry Service for the period from 10th to 17th September 2020.
- III. Invoice of M/s. G Baskaran Lorry Service for the period from 10th to 17th September 2020.
- IV. Shri. Daniel's statement.

NAME : Mr. DANIEL

[45 Yrs / M]

DATE : 24.06.2020

REF. BY: Dr. JOSEPH ARNOLD.,

ID.NO: ASK2009402

HRCT – CHEST

Technique: The multi slice NECT imaging of the thorax was performed with 2.5mm collimation along with HRCT.

Findings:

Multiple subpleural areas of ground glass opacities with crazy-paving pattern seen in both lungs, more in the right lung.

The trachea, its bifurcation and the major bronchi show normal configuration. There is no intraluminal mass or extraluminal compression is noted.

No evidence of active airspace consolidation, cavitation or bronchiectasis.

There is no demonstrable mediastinal or hilar lymphadenopathy.

There is no evidence of pleural effusion.

The major vascular structures show normal opacification. There is no appreciable mediastinal or hilar mass. There is no appreciable cardiac silhouette abnormality.

The bony chest wall and the muscles of the thoracic cage do not show any abnormality.

CT severity scoring:

Right upper lobe	-	4
Right middle lobe	-	3
Right lower lobe	-	5
Left upper lobe	-	1
Left lower lobe	-	2
TOTAL	:	15

IMPRESSION :

➤ *Suggestive of COVID 19 pneumonia.*

➤ *CT severity score is 15/25.*

Kindly correlate clinically

Dr. S. RAM KUMAR, MD (RD), DNB.,
Consultant Radiologist
