O.A. No. 924 of 2019

**5<sup>th</sup> interim report of the Joint Committee in the matter of O. A. No. 924/2019; Neeraj Goyal vs State of Punjab**

1. In above regard, it is intimated the Hon'ble National Green Tribunal (NGT) has taken cognizance of a complaint made by Sh. Neeraj Goyal regarding air pollution caused by burning of plastic, rubber and insulated copper coils attached with the scrap at Mandi Gobindgarh, District Fatehgarh Sahib, Punjab". Accordingly, a Committee was constituted in O.A no. 924/2019 vide order dated 1/11/2019, comprising of Officials from Central Pollution Control Board (CPCB), Punjab Pollution Control Board (PPCB) and Municipal Council, Mandi Gobindgarh to look into the matter, take appropriate action in accordance with law and furnish a factual and action taken report in the matter.
2. The PPCB being nodal agency submitted 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> & 4<sup>th</sup> Interim reports on 14.03.2020, 14.5.2020, 14.7.2020 and 26.9.2020 respectively before Hon'ble NGT.
3. After considering the 4<sup>th</sup> interim report filed by the PPCB, the Hon'ble NGT has passed the orders dated 1/10/2020, the relevant part of which is reproduced as under:

*"Serious steps are required to be taken for upholding the rule of law and protection of environment and public health. Let further meaningful action be taken and a compliance report filed before the next date. In the context of directions to shift rolling mills from coal to PNG, we direct the State PCB to ensure that if, such shifting does not take place, the non-compliant units be closed till compliance. This should apply not only to rolling mills but also to other similarly placed industries operating on coal. Wherever there is noncompliance, the State PCB may take coercive measures, including closure, recovery of compensations and initiating prosecution, following due process of law. The Tribunal, vide order dated 06.03.2019 in O.A No.*

*Neeraj Goyal*

20/2017 (WZ), Babubhai Ramubhai Saini v. Gujarat Pollution Control Board & Ors., considered identical situation at Morbi in Gujarat and directed GPCB to close all coal gasifiers industries and units operating with the help of coal gasifiers without prejudice to such units switching over to non coal gasifiers or PNG or technology consistent with the above report.

Further, Punjab State PCB may complete the study on assessment of carrying capacity of the region as per the schedule and prepare an action plan for improvement of environment. There has to be proper management of hazardous waste generated by the industries, providing raw material in the form of scrap, for further processing. The entire mechanism should have proper manifest system. As per information provided by CPCB in OA No. 1038/2018, News item published in "The Asian Age" Authored by Sanjay Kaw Titled "CPCB to rank industrial units on pollution levels", order dated 10.07.2019, the Comprehensive Environmental Pollution Index (CEPI) with respect to air is 23.7 at Gobindgarh which does not appear to be correct in view of pollution level, as shown by the report. CPCB may re-verify this index considering entire industrial development in the region and rectify its index.

- Import of hazardous waste needs to be strictly regulated as per laws, to avoid import of such waste illegally.
- Illegal dismantling units may be closed and only authorized and complying units be allowed to operate.
- Non-recyclable waste be disposed properly.
- Ground water extraction may be regulated in accordance with order passed by this Tribunal on 20.07.2020 in OA No. 176/2015 Shailesh Singh v. Hotel Holiday Regency, Moradabad & Ors. "

4. That in compliance to the orders dated 1.10.2020 of the Hon'ble Tribunal, PPCB has carried out following activities to control air pollution in the area of Mandi Gobindgarh from the period 1/9/2020 to 20/12/2020;

- a) With regard to conversion of rolling mills from coal to PNG, it is submitted that there are 190 no. of rolling mills operating in Mandi Gobindgarh area, which are using pulverized coal as fuel in their re-heating furnace. The Board has already issued directions u/s 31-A of the Air (Prevention & Control of Pollution) Act, 1981 to all the rolling mills to shift from coal to PNG by 31/12/2020 through Public Notice dated 7/8/2020 & 16/10/2020 in the leading newspapers. Presently, 31 no. of industries have successfully converted their re-heating furnace from coal to PNG and in addition to this 100 no. of more industries have made agreement with PNG provider and are in the process of shifting from coal to PNG. The latest report of all the rolling mills w.r.t. PNG status is attached herewith as **Annexure-1**.
- b) With regard to the study on assessment of carrying capacity, it is submitted that expert members of IIT, Delhi have been engaged by the Board to calculate carrying capacity of all the nine non-attainment cities including Mandi Gobindgarh. The data required for calculating carrying capacity of Mandi Gobindgarh has already been provided to the expert members and the matter was taken up with IIT, Delhi and it is informed that the source apportionment study will be submitted in the last week of December, 2020. After the receipt of the report of the said study, an action plan will be prepared based on the recommendations of the report for the improvement of environment.
- c) With regard to import of hazardous waste, it is submitted that the same is regulated as per law and a mechanism is in place. Non-recyclable hazardous waste is being scientifically disposed off at a designated place namely TSDF, Nimbua, Dera Bassi Distt. SAS Nagar. The APCD dust of Induction furnace units is being recycled

by M/s Madhav Alloys Recycling unit at Amlah, Distt. Fatehgarh Sahib

- d) Non-recyclable waste is also being managed as per Hazardous & Other Wastes (Management & Transboundary Movement) Rules, 2016 as already explained in sub para-c above.
- e) 184 number of units were inspected by PPCB for the period from 1/9/2020 to 20/12/2020 till date, out of 184 units, 160 units were found in compliance of various Pollution Control Laws i.e. the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981 and the Hazardous and Other Wastes Management Rules, 2016. A list of 160 units is enclosed herewith as **Annexure-2**. Show cause notices were issued, opportunity of hearing were given for making compliance to remaining 24 no. of units. The list of 24 units is enclosed as **Annexure-3**. Action was taken against the units found with major violations i.e. Environmental compensation amounting to Rs. 10,62,500/- was imposed upon 10 units and was also recovered by the Board. The list of 10 units upon which EC was imposed/recovered in the period of 1/9/2020 to 20/12/2020 is enclosed herewith as **Annexure-4**. Further, directions for closure u/s 31-A of the Air (Prevention & Control of Pollution) Act, 1981 were issued to 8 no. units, a list of which is attached as **Annexure-5**.
- f) In order to contain the cause of air pollution arising from the burning of scrap, the Board vide Office Order no. 475 dated 21/8/2020 has cancelled all the one time authorizations granted before 31/1/2019 for import of iron and steel scrap and amended the procedure for obtaining one-time authorization under rule-13 to import other waste listed in part-D of Schedule-III, on behalf of actual users. Copy of Office Order is enclosed herewith as

**Annexure-6.** Now, no burning activity of scrap is carried out in the area as verified during the inspections carried out in the odd hours. Also, no complaint is being received in this office regarding any burning activity.

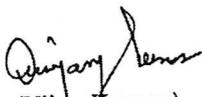

- g) Apart from the industrial pollution, the generating of road dust due to heavy vehicular movement becomes air borne and contributes to major part of air pollution in Mandi Gobindgarh area. In order to control the same, interlocking tiles have been provided on the entry / exit points of the industry/ vehicular movement area and entry exit points of weigh bridges as per directions issued by Punjab Pollution Control Board. However, major and slip roads in the area of Mandi Gobindgarh, which are in bad shape contributes towards the cause of dust emissions due to heavy vehicular movement and parking. The major and link roads are required to be overhauled by Municipal authorities.
- h) With regard to regulate the extraction of ground water, the Board is imposing condition in all the consent letters issued to the industries to obtain the permission of ground water authority.

**Prayer:**

Interim report is being filed in compliance of orders dated 1.10.2020 of this Hon'ble Tribunal and final report will be filed in the month of February, 2021 in accordance with the directions of the Hon'ble Tribunal.

The report is hereby submitted for kind perusal and appropriate orders of the Hon'ble Tribunal.

No. SEE(HQ-2)/2020/ 475

Dated: 21-8-20

### OFFICE ORDER

The Government of India, Ministry of Environment and Forests (MoEF & CC) vide notification dated 04.04.2016 notified the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016. Under the provisions laid down under Rule 13, the importer, who is a trader, importing other wastes listed in Part-D of Schedule -III, on behalf of actual user(s), shall have to obtain onetime authorization from the State Pollution Control Board.

Considering the frequent complaints received due to establishment of godowns for storage of scrap in residential areas, adopting procedures being followed by MoEF&CC while granting such authorizations for import and in line with the State Govt. policies of ease of doing business, the Board in its 184<sup>th</sup> meeting held on 22.07.2020 has decided to revise the procedure and documentations for obtaining one-time authorization from the Board under Rule 13 by a trader, who intend to import other wastes listed in Part-D of Schedule -III, on behalf of actual user(s) as under:

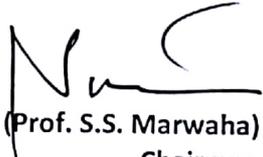

1. One-time authorization shall be granted for a specified quantity of waste (e.g. 500 MT) and not in terms of per month (e.g. 500 TPM). As & when this specified quantity of waste is imported then the onetime authorization shall come to an end.
2. The validity for this onetime authorization shall be for a period of 18 months or till the specified quantity of waste for which authorization granted is imported, whichever is earlier.
3. All one time authorizations earlier granted before 31.01.2019 shall deemed to have been cancelled. Authorization granted after 31.01.2019 shall be considered as expired after the completion of 18 months from the date of issue of such authorization. A public notice in this regard shall be given in the leading newspapers and the Customs Authorities shall also be apprised accordingly.
4. In case of failure to comply with the conditions of the authorization, the Board may suspend or cancel such authorization after affording an opportunity of hearing to the holder of the authorization and after recording the reasons thereof.
5. To avoid the multiple fee structure, revised processing fee suitable to the new procedure shall be as under:
  - a) Rs. 50 per Metric Ton (MT) with minimum fee of Rs. 2500/-.
  - b) Payable to concerned Environment Engineer of the Regional Office in whose jurisdiction, the godown is located.
  - c) In case of resubmission of application on account of refusal / cancellation / change of actual user, the trader has to deposit fresh processing fee.
  - d) In case of returning of application due to incompletions, no additional fee will be charged.

6. The trader shall have to obtain suitability certificate of the area for allowing the establishment of their godown (s) for storing scrap / waste from the following concerned authorities:
  - a) Concerned Municipal Authority: In case the godown is located within the Municipal Limits.
  - b) Concerned District Town Planner: In case the godown is located outside the Municipal Limits.
7. The revised documentation for obtaining onetime authorization by the trader on the behalf of actual user(s) as required under Part-D of Schedule-III of Hazardous and other waste (Management and Transboundary) Rules, 2016 is placed as per **Annexure-A**.
8. The format for issuance of one-time authorization is placed as **Annexure-B**.

Further, in order to facilitate the traders, concerned Environmental Engineer of the Regional Office shall be the competent officer to grant / cancel this one-time authorization for import under Hazardous and other Waste (Management & Transboundary Movement) Rules, 2016.

This order issues in the supersession of all the earlier office orders issued in the matter of grant of one-time authorization.

This order will come into force with immediate effect.

  
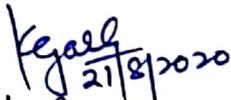

(Prof. S.S. Marwaha)  
Chairman
