

**BEFORE THE NATIONAL GREEN TRIBUNAL (SZ) CHENNAI**

**Application No. 06 of 2023**

**BETWEEN:**

**SRI. PARAMESH. V**

**.....Applicant**

**AND**

**THE DEPUTY COMMISSIONER  
AND OTHERS**

**.....Respondents**

**Memo**

The undersigned counsel herewith submits that, as per the order of the Hon'ble Tribunal dated 31/1/2023, for the submission of the aerial view photographs of the present project with the affected areas on encroachment of water bodies. The applicant and his counsel visited the project location on 31/01/2023 and observed that due to encroachment of the water body the free flow of the water (~~is~~ *Festively* drain) is completely blocked and the water is entering the graveyard causing severe damage to the surrounding environment. It is pertinent to state that the graveyard is filled with water and during the raining season the graveyard will be inundate in water. The adjacent survey No. 37,38,39 and 40 of the project site is being filled with mud, debris, sand and other fillers raising the level of the land from the existing level to approximately 4 feet height by closing the existing water body. The photographs of the project with the affected area is hereby produced with the explanation,  
*in the interest of justice & equity.*
