**RESPONDENTS**

**ACTION TAKEN REPORT ON BEHALF OF DELHI JAL BOARD IN  
COMPLIANCE TO ORDER DATED 28.05.2025**

**MOST RESPECTFULLY SHOWETH:**

1. That the present affidavit is being filed on behalf of the Delhi Jal Board (DJB) in compliance with the directions issued by the Hon'ble National Green Tribunal ("NGT" or "Hon'ble Tribunal") vide order dated 28.05.2025 in O.A. No. 639/2022.

2. That the Hon'ble Tribunal, in its order dated 28.05.2025 was pleased to make the following pertinent observations and directions (reproduced from Paras 30 to 33 of the order):

*"30. However, it may be observed here that in the above said reports filed by the Member Secretary, DPCC and DJB it has been mentioned that 4,033 borewells were found not traceable or closed. The clubbing of all these borewells under the same head "not traceable or closed" is vague and requires clarification. In fact, DJB had submitted a report identifying the borewells and if the borewells are not traceable, DJB will have to clarify the reasons as to how the borewells which were identified by it have become untraceable. So far as the borewells which are stated to have been closed, DJB will also have to separately verify the place where and the manner in which the borewells have been closed.*

*31. Appropriate action may be taken in this regard and further separate action taken reports may be filed with respect to illegal borewells which are untraceable and illegal borewells which have been closed. Action taken reports may be filed at least one week before the next date of hearing fixed.*

*32. We also reiterate, as we have already mentioned in the orders passed in the case, that recharge and conservation*

*of ground water is of utmost importance. While there will be no objection to grant of permission for borewells for valid/exceptional reasons, remedial measures for recharge of groundwater have to be taken to prevent depletion of groundwater. Subject to appropriate replenishment, permission for borewell may be given by the authorities for valid reasons.*

*33. Although notification no. F8(348)/EA/Env/09/1041-1061 dated 18.05.2010 has been issued and, in compliance with directions given by this Tribunal in O.A. No. 685/2019 titled as Rakesh Kumar Vs. Government of NCT of Delhi & Ors., SOP titled as "Regulation of extraction of ground water, closure, prohibition of illegal activities relating to use of borewells/tubewells" has been issued, but we find that in cases which are coming up before this Tribunal, the concerned officers do not take prompt action and there is inaction or undue and unreasonable delay in taking of appropriate remedial action on the part of the concerned officers. Any such inaction or undue and unreasonable delay on the part of concerned officers \*\*facilitates only the violator and causes damage to environment which is virtually irreversible and cannot be appropriately remediated."*

3. That in compliance with the Hon'ble Tribunal's directions contained in paragraphs 30 and 31 of the order dated 28.05.2025, the answering Respondent (DJB) has undertaken a thorough verification and clarification exercise regarding the 4,033 illegal borewells earlier reported as "not traceable or closed." In particular, the Hon'ble Tribunal found that categorizing all 4,033 borewells under one vague head was unsatisfactory and directed DJB to clarify how identified borewells became untraceable and to verify the place and manner of closure of those stated to be closed. Accordingly, letters dated 26.06.2025 (from the Executive Engineer (Rainwater Harvesting)) and 14.07.2025 (from the Chief Engineer (Ground Water)) were issued to all concerned Chief Engineers (Maintenance), directing them to investigate and report

- I. the reasons why previously identified illegal borewells could not be traced (if untraceable), and
- II. the precise location and manner in which illegal borewells have been sealed/closed (if reported as closed).

The DJB was further mindful of the Tribunal's direction to treat untraceable and closed borewells as separate categories for reporting purposes, as stated in paragraph 31 of the order. In compliance, verified lists were compiled from each field unit, providing district-wise details of the illegal borewells and clarifying whether each borewell was untraceable or closed, along with the specific reasons or mode of closure in each case.

4. That upon completion of the aforesaid verification exercise, it has now been ascertained and respectfully submitted as follows with regard to the 4,033 illegal borewells initially reported as "untraceable/closed":
- i. 3,875 illegal borewells were found to have been closed by the residents themselves and no longer exist at the site. In these cases, the borewell structures have been dismantled or filled up voluntarily, prior to or during the investigation.
  - ii. 153 illegal borewells were found untraceable primarily due to incorrect or incomplete address/details of the premises (for example, wrong addresses, names of occupants, or non-functional contact numbers had been provided, rendering on-site verification impossible).
  - iii. 5 illegal borewells were discovered to have since obtained valid approval from the District Level Advisory Committee (DLAC). These borewells, though initially flagged as illegal, have been regularized through proper permissions.

**The district-wise compiled abstract of all 4,033 illegal borewells (categorized as untraceable or closed) is annexed herewith as Annexure P/1.**

5. That the compiled abstract, prepared revenue district-wise, clearly delineates the numbers of illegal borewells categorized as "untraceable," "closed," and those subsequently approved by the DLAC. This abstract provides a consolidated statistical representation of the compliance exercise undertaken by DJB, thereby giving a

transparent district-wise account of the total 4,033 borewells reported.

**The said compiled abstract is annexed herewith and marked as Annexure P/2**

6. That in compliance with the Hon'ble Tribunal's direction in paragraph 32 of the order dated 28.05.2025, the answering Respondent submits that it fully acknowledges and upholds the *paramount importance of groundwater recharge and conservation*. The Hon'ble Tribunal has reiterated that while granting permission for borewells may be permissible for valid or exceptional reasons, adequate remedial measures for groundwater recharge must be taken to prevent depletion. In view of this mandate, the DJB ensures that any permission or "No Objection Certificate" (NOC) for the installation and operation of a borewell is granted strictly on merits by the competent authority, i.e., the District Level Advisory Committee (DLAC). All applications for groundwater extraction are scrutinized in light of the Central Ground Water Board (CGWB) assessments: proposals in areas categorized as "safe" or "semi-critical" (in terms of groundwater status) are given preference, whereas applications in "critical" or "over-exploited" areas are either discouraged or allowed only upon demonstrating genuine necessity and compliance with stringent conditions. Most importantly, every permission/NOC is granted subject to the mandatory condition that the applicant installs and maintains a functional Rainwater Harvesting (RWH) system at the site, to actively replenish the groundwater. This requirement is a core remedial measure to offset extraction, directly addressing the Tribunal's concern

about replenishment. The DJB has issued a detailed Advisory enumerating General Compliance Conditions for issuance of NOCs for groundwater extraction, which includes the RWH obligation and other safeguards. This Advisory is already in the public domain and communicated to all stakeholders to ensure broad awareness and compliance. **A true copy of the DJB Advisory/General Compliance Conditions for grant of NOC for groundwater extraction in Delhi is annexed herewith as Annexure P/3.**

7. The DJB respectfully submits that by these measures—strict scrutiny of borewell permissions and compulsory recharge mechanisms—it is diligently aligning with the Hon'ble Tribunal's observations in para 32, to prevent unchecked depletion of groundwater.
8. That in compliance with the Hon'ble Tribunal's direction in paragraph 33 of the order, the answering Respondent states that the relevant regulatory framework for groundwater extraction has been circulated and is being strictly enforced, and decisive steps are being taken to avoid any laxity or delay on part of the officials concerned. The Hon'ble Tribunal, in para 33, noted that although the Government of NCT of Delhi had issued Notification No. F.8(348)/EA/Env/09/1041-1061 dated 18.05.2010 and, pursuant to orders of this Tribunal in O.A. No. 685/2019 (*Rakesh Kumar vs. GNCTD & Ors.*), put in place a comprehensive Standard Operating Procedure (SOP) titled "Regulation of extraction of ground water, closure, prohibition of illegal activities relating to use of borewells/tubewells," there remained a concern that field officers were not taking prompt action, resulting in undue and

unreasonable delays which benefit violators and cause irreversible environmental harm. The DJB has taken serious note of these observations. It is submitted that the aforesaid Notification of 18.05.2010 and the SOP have been widely circulated to all concerned departments and officers for strict compliance. All officers, especially those at the field level, have been expressly directed to take prompt and proactive action against any instance of illegal borewell/tubewell operation or unauthorized groundwater extraction, in accordance with the law and the SOP, without any inaction or undue delay. The DJB has impressed upon its officials that any lapse, inaction or unreasonable delay in addressing illegal borewells will invite strict accountability, as it *"facilitates only the violator and causes damage to the environment"* (in the Hon'ble Tribunal's words). By reinforcing these instructions and ensuring vigilant enforcement of the existing rules and SOP, the DJB seeks to fully comply with the letter and spirit of the Hon'ble Tribunal's directive in para 33 of the order. The answering Respondent remains committed to preventing environmental harm by promptly shutting down illegal borewells and penalizing violations as per law.

9. That the present Action Taken Report-cum-Compliance Affidavit is being submitted for the kind consideration and perusal of this Hon'ble Tribunal in light of its order dated 28.05.2025. The DJB humbly prays that the steps detailed herein be taken on record as compliance of the directions of the Hon'ble Tribunal. It is further undertaken that the Delhi Jal Board shall remain duty-bound to comply with any further

directions or orders passed by this Hon'ble Tribunal in the present matter or related matters, and will continue to take all necessary actions to ensure the protection and conservation of groundwater in NCT of Delhi.

CIRCULAR

**Subject: Advisory / General compliance conditions for seeking No Objection Certificate (NOC) for ground water extraction in Delhi.**

To have uniformity in regulation of ground water development and management by all departments in Delhi for seeking No Objection Certificate (NOC) for ground water extraction, the following is the Advisory:

- I. Installation of digital water flow meter (conforming to BIS/ IS standards) having telemetry system in the abstraction structure(s) shall be mandatory for all users seeking No Objection Certificate and intimation regarding their installation shall be communicated to the DJB within 30 days of grant of No Objection Certificate.
- II. Proponents shall mandatorily get the water flow meter calibrated on from an authorized agency once in a year.
- III. Proponents shall install roof top rainwater harvesting & recharge systems in the project area. Photograph along with exact coordinates of the same shall be submitted to DJB.
- IV. Proponents shall pay Ground Water Abstraction/ Restoration Charges based on quantum of ground water extraction as applicable.
- V. Construction of purpose-built observation wells (piezometers) for ground water level monitoring shall be mandatory. Water level data shall be made available to DJB.
- VI. Proponents shall monitor the quality of ground water from the abstraction structure(s) once a year. Water samples from bore wells/ tube wells / dug wells shall be collected during April/May every year and analyzed in NABL accredited laboratories for basic parameters (cations and anions), heavy metals, pesticides/organic compounds etc. Water quality data shall be made available to DJB.
- VII. Wherever feasible, the requirement of water for greenbelt (horticulture) shall be met from recycled/ treated waste water.

- VIII. In case of change of ownership, new owner will have to apply for incorporation of necessary changes in the No Objection Certificate with documentary proof within 60 days of taking over possession of the premises.
- IX. The applicant shall also follow any new conditions that may be imposed in future by the DJB/ Environment Department/CGWA/ Advisory Committee.
- X. The Authority has the right to withdraw permission at any time in the vent of violation of any of the conditions for grant of permission.
- XI. Photograph along with geo-tagging of bore wells/ tube wells installed at site shall be submitted to the DJB within 30 days of grant of No Objection Certificate.

This issue with the approval of the Competent Authority.
