BEFORE THE HON'BLE NATIONAL GREEN TRIBUNAL
WESTERN ZONE BENCH, PUNE

EXECUTION APPLICATION NO.06/2025 (WZ) IN ORIGINAL APPLICATION NO.174/2024(WZ)

Dr. Kalyani Mandke ... Applicant

v/s

State of Maharashtra & Ors. ... Respondents

Additional Affidavit on behalf of Respondent No.3 Maharashtra Pollution Control Board

I, Manchak Jadhav, Aged Adult, Occupation: Service, the Incharge Regional Officer of the Maharashtra Pollution Control Board at Pune, having my office address at 3rd Floor, Jog Centre, Wakdewadi, Pune – 411003, do hereby state on solemn affirmation as under –

(1) I say and submit that in compliance of the order dated 25/8/2025 passed by the Hon'ble NGT Respondent Board has taken following steps:

(i) The Respondent Board has carried out Real Time Noise Monitoring during Ganapati festival-2025 in Pune city across 200 pandals and 15 traffic junctions.

(ii) In order to create public awareness by publicly displaying real-time noise level results at the respective pandals and traffic junctions with a warning message:

GOVERNMENT OF INDIA NOTARY MANGALA N. WAKHARE PUNE CITY MAHARASHTRA REG.NO.15781 EXPIRY DT: 05/12/2029

"Noise Level more than Noise Limits as per the Standards are injurious to health."

(iii) MPCB is assisting local authorities i.e. Pune Police Department and Pune Municipal Corporation (PMC), in formulating strategies for better noise management during future public events.

(2) I say and submit that 11-day monitoring of noise levels at 200 Ganesh pandals in Pune from 6 pm (18:00 hrs.) to 12 am (24:00 hrs.) (i.e., 6 hours) revealed significant fluctuations in sound intensity across different days and locations.

(3) I say and submit that the study recorded the highest decibel level of 97.8 dB(A) at Akhil Bibawewadi Gaon & Parisar Mitra Mandal on 27th August, indicating extreme noise levels on the opening days of the festival. The lowest observed level was 56.7 dB(A) at Sant Tukaram Paduka Maharaj Mandal, FC Road, on 28th August, showing that some pandals maintained relatively moderate sound levels. Among the monitored days, noise levels consistently exceeded 90 dB(A) during peak festival dates such as 31st August 1st September, and 6th September. The noisiest location was near Bund Garden and Bibawewadi areas, which repeatedly recorded levels above the permissible limits. The findings highlight that while certain pandals complied with noise regulations, several exceeded standards, especially during the last day. As per Noise Pollution (Regulation and Control)

Rules, 2000, the Ambient Air Quality Standards in respect of noise is as under: -

Commercial Area		Residential Area	
Day Time	**Night Time**	**Day Time**	**Night Time**
65 dB(A)	55 dB(A)	55 dB(A)	45 dB(A)

(4) I say and submit that Traffic noise also seems a major source and cause of the increase in the ambient noise level. This emphasis the urgent need for stricter enforcement, continuous real-time monitoring, and public awareness initiatives to ensure a more eco-friendly and responsible celebration of the Ganesh festival. The noise monitoring study conducted during the Ganesh Festival across 15 traffic junctions in Pune revealed significant variations in sound levels during both day time and night time. The highest daytime noise was recorded at Jedhe Chowk [105 dB(A)] on 6th September 2025, followed by Sonya Maruti Chowk [103 dB(A)], while at night, Tilak Chowk reached 95.0 dB(A) and Sonya Maruti Chowk 92.9 dB(A) on the same day. The lowest daytime noise was observed at Kasturi Circle [66.3 dB(A)] on 28th August, whereas the quietest night time level was noted at main gate of SPPU Pune University [60.5 dB(A)] on 6th September.

(5) I say and submit that a trend of rising noise levels was evident towards the final days of the festival, with many locations such as Jedhe Chowk, Sonya Maruti Chowk, Tilak Chowk, Jijamata Chowk, and Sant Kabir Chowk showing sharp increases of 10–20 dB(A) compared to the initial days. Overall, Jedhe Chowk, Sonya Maruti, and Tilak Chowk emerged as the noisiest junctions, consistently ranging between 90–105 dB(A), which is far above the permissible limits, while Kasturi Circle and SPPU remained relatively quieter. The findings highlight the alarming Ambient Noise levels in Pune, Ganesh Festival – 2025 rise in noise levels pollution during festive celebrations, posing serious risks to public health and community well-being. The data indicate that both day time and night time noise levels were significantly elevated on 6th September, which coincided with immersion day activities. These elevated noise levels, especially those exceeding 90 dB(A), present a potential risk to public health, as prolonged exposure to such levels can lead to auditory damage and increased stress levels. The elevated noise levels were directly linked to the widespread use of traditional instruments such as dhols, coupled with amplified music during the processions on the final day of the festival (6th September). This clearly reflects a pattern of heightened noise on visarjan days, highlighting the persistent challenge of keeping sound levels within permissible limits despite ongoing regulatory measures.

(6) I say and submit that Respondent Board has submitted the Real-Time Ambient Noise Level Monitoring Report for the Ganesh Festival – 2025 to the Police Department vide email dated 14/10/2025. A copy of the real time ambient noise level monitoring Ganesh festival – 2025 Report attached as **Annexure - I**

(7) I say and submit that Respondent No. 5- Police Department, Pune has submitted copies of the FIRs filed against the violators, including the names of the concerned Ganesh Mandals involved in noise pollution. The Respondent Board is in the process of filing the respective cases. Once copies of all FIRs are received from the Police Department, the Respondent Board will file the criminal cases against the violators u/s 15 of the Environment (Protection) Act,1986 read with the Noise Pollution (Regulation and Control) Rules, 2000 before the Chief Judicial Magistrate-Pune and publish the list of violators on the MPCB's website.

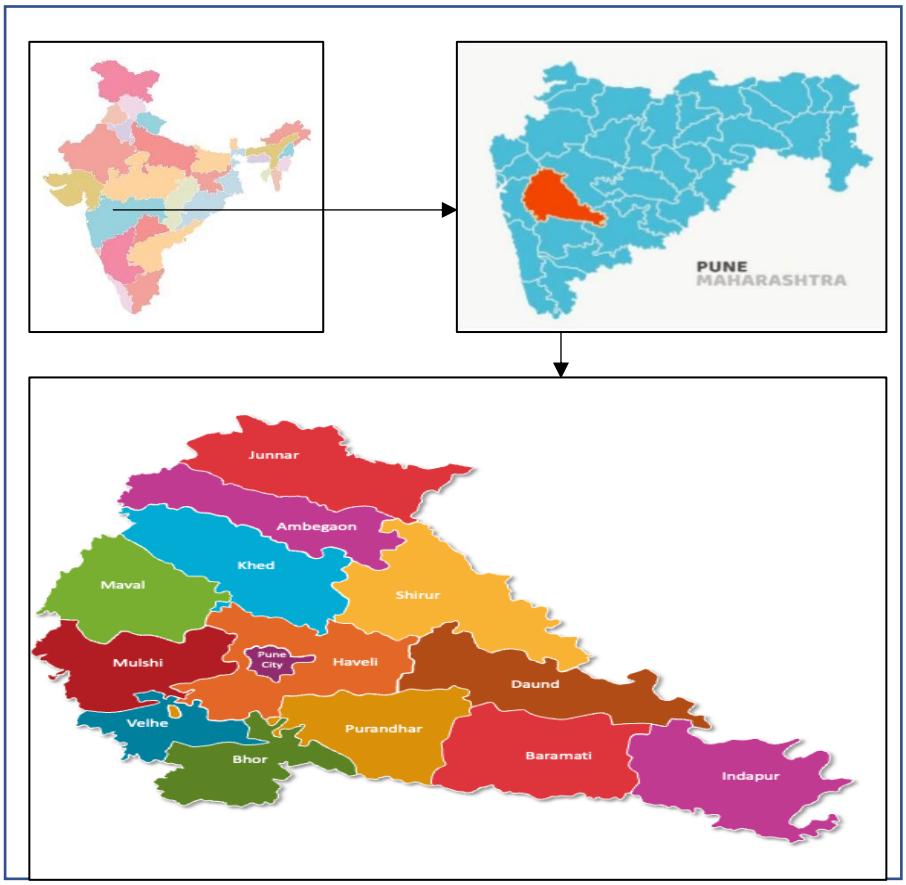

Solemnly affirmed on this 28th day of October, 2025 at Pune

BEFORE ME
MANGALA N. WAKHARE

REAL TIME AMBIENT NOISE LEVEL MONITORING GANESH FESTIVAL – 2025 FOR PUNE CITY ALONG WITH THE DISPLAY AND WARNING MESSAGE FROM 27/09/2025 to 06/09/2025

Maharashtra Pollution Control Board

महाराष्ट्र प्रदूषण नियंत्रण मंडळ

Kalpataru Point, 3rd Floor, Sion (East), Mumbai-400022
website: www.mpcb.gov.in

FOREWORD

The Ganpati Festival in Pune is celebrated with vibrant processions, traditional music, and community gatherings. However, these festivities also result in a significant rise in noise levels, particularly during idol immersion processions. Noise levels during the festival often exceed the permissible limits, creating environmental and public health concerns due to prolonged exposure to high decibel levels.

In response to these issues, the Hon'ble National Green Tribunal (NGT), through its order dated 30.08.2024 in OA No. 174 of 2024 (WZ) (Dr. Kalyani Mandke vs. State of Maharashtra & Others), directed comprehensive noise monitoring across Pune during the Ganesh Festival from August 27 to September 6, 2025. Acting upon this directive, the Maharashtra Pollution Control Board (MPCB) engaged M/s Mahabal Enviro Engineers Pvt. Ltd. in collaboration with the MPCB Regional Office, Pune, to carry out the monitoring exercise.

This report presents the findings of systematic monitoring undertaken at 200 pandals and 15 traffic junctions, with a focus on noise distribution across key festival dates—August 28, August 31, September 2, and September 6, 2025. The results consistently indicated that noise levels exceeded prescribed thresholds. On peak festival days such as 31st August, 1st September, and 6th September, sound levels frequently crossed 90 dB.

At traffic junctions, noise levels showed significant variations during day and night. The highest daytime levels were recorded at Jedhe Chowk (105.0 dB) and Sonya Maruti (103.0 dB) on 6th September 2025. During night-time, Tilak Chowk registered 95.0 dB, followed by Sonya Maruti (92.9 dB) on the same day. These peaks were primarily linked to large processions, amplified music, and the use of traditional instruments.

The comparative analysis of data against previous years suggests that stricter enforcement of noise regulations and improved public awareness have contributed to variations in observed levels. The study highlights the need for further strengthening of regulatory measures to effectively manage noise pollution during large-scale festivities in Pune.

The fieldwork for this study was carried out by Mahabal Enviro Engineers Pvt. Ltd. with active support from the Pune Regional Office of MPCB. The Air Pollution Control Division of the Board undertook planning, coordination, and report preparation. Special acknowledgement is extended to Shri. Ravindra Andhale and Shri. Prakash Jadhav for their valuable contributions.

September 2025

(Dr. Avinash Dhakne, I.A.S)

ACRONYMS AND TERMS

CPCB	Central Pollution Control Board
dB	Decibel

SLM	Sound Level Meter
SPL	Sound Pressure Level
SRO	Sub-Regional Officer
WHO	World Health Organization

DEFINITIONS

A-Weighting
A-weighting" is the frequency weighting characteristic as specified in IEC 123 or IEC 179 and is intended to approximate the relative sensitivity of the normal human ear to different frequencies (pitches) of sound.

A-weighted Sound Pressure Level
The "A-weighted sound pressure level" is the sound pressure level modified by the application of the A-weighting. It is measured in dBA and denoted as dBA.

Decibel
The "decibel" is a dimensionless measure of sound level or sound pressure level; see sound pressure level. It is denoted as dB.

Equivalent Continuous Sound Level
Equivalent continuous sound level, denoted as Leq, is defined as the steady sound pressure level that, over a given period of time, has the same total energy as the actual fluctuating noise.

Fast Response
"Fast response" is a dynamic characteristic setting of a sound level meter meeting the applicable specifications.

Sound
"Sound" is an oscillation in pressure, stress, particle displacement, or particle velocity, in a medium with internal forces (e.g. elastic, viscous), or the superposition of such propagated oscillations, which may cause an auditory sensation.

Sound Level Meter
A "Sound Level Meter" is an instrument that is sensitive to and calibrated for the measurement of sound.

Sound Pressure Level
The "Sound Pressure Level" is twenty times the logarithm to the base 10 of the ratio of the effective pressure (p) of a sound to the reference pressure (Pr) of 20 μPa. Thus, the sound pressure level in dB = 20 log10 P/Pr.

ACKNOWLEDGMENT

We extend our heartfelt gratitude to all those who contributed to the success of this study. Our sincere thanks to the **Hon'ble National Green Tribunal (NGT) and Western Zone Bench**, who initiated this vital effort to address noise pollution during the Ganesh Festival. Their commitment to enforcing environmental regulations and promoting public health has been instrumental in guiding this research.

We greatly appreciate the invaluable support and unwavering dedication of the **Maharashtra Pollution Control Board (MPCB)** officers. Their spirit was exemplified by the **Regional Officer (RO), Sub-Regional Officer (SRO),** and **Field Officers (FO)** of the Pune Regional Office, who visited every location multiple times regardless of the time of day, traffic, or weather.

Additionally, we thank the **Pune Police Department** for their collaboration and the volunteer students from various colleges whose efforts were essential to the smooth execution of our monitoring activities.

A special acknowledgement is extended to the faculty and staff of the colleges. Their commitment to this noble cause and scientific inquiry, demonstrated by their promptness in allowing students to participate in this study on such short notice, has been instrumental in advancing our understanding of noise pollution during the Ganesh Festival.

Thank you all for your invaluable contributions.

1 INTRODUCTION

1.1 Background

Noise pollution, particularly in urban centres like Pune, has become a growing concern for environmental and public health authorities. Festivals, while essential to the cultural fabric of the city, often lead to elevated noise levels that can cause both short-term disturbances and long-term health risks. In response to escalating complaints from citizens and environmental activists regarding noise pollution during public events, the Hon'ble NGT has initiated measures to ensure stricter monitoring and enforcement of noise regulations.

The Ganesh Festival, one of the most celebrated festivals in Maharashtra, draws massive participation, with thousands of pandals erected throughout Pune City. These pandals host a variety of religious and cultural activities, including processions, music performances, and religious ceremonies. The festival is marked by worshipping the idol of Lord Ganesha in individual homes and community pandals, which are also known as marquees or fabricated structures. Celebrated annually on the birthday of Lord Ganesha, according to the Hindu calendar, the festival typically occurs during the monsoon season in August or September and lasts for 11 days. During this time, the idol is worshipped daily and ultimately bid adieu through ceremonial immersion in ponds, lakes, rivers or the sea on different days, usually after $1^{1/2}$ days, 3rd day, 5th day, 7th day or the 11th day.

These immersion processions often feature small music bands or vehicles playing loud devotional songs, and community idols are accompanied by musical bands, loudspeakers, and DJs. This creates a vibrant atmosphere, with participants of all ages filling the streets, dancing and singing to the rhythms of drums and cymbals. However, the reality is that this festival generates significant noise pollution that affects the surrounding communities.

To address these concerns, the NGT issued an order on 30th August 2024, mandating comprehensive noise monitoring across Pune during the Ganesh Festival. The monitoring was conducted from 27th August to 6th September 2025 (11 days)at 200 key pandals and 15 Traffic Junctions in collaboration with the MPCB and Pune Police Department, focusing on the peak hours of celebration from 6 PM to midnight each day and 24 hrs respectively.

This initiative aimed to assess the compliance of pandal organizers with the noise pollution standards set forth in the Noise Pollution (Regulation and Control) Rules, 2000, ensuring the protection of public health and well-being during the festival. The findings from this monitoring exercise are crucial for understanding the extent of noise pollution and will help guide future policies to manage noise levels during such large-scale events.

1.2 Pune City Description

Pune is the second-largest city in Maharashtra and one of India's fastest-growing urban centers. Pune is situated at approximately 18° 32" north latitude and 73° 51" east longitude. The city's total area is 15.642 km^2. It is renowned for its educational institutions, industrial growth, and a rich historical and cultural heritage. With a population exceeding 7 million, Pune is a bustling city that balances modern urbanization with deep-rooted traditions.

The Ganesh Festival, one of the city's most important cultural events, is celebrated with enormous enthusiasm. Every year, thousands of pandals are set up across the city, hosting idol installations, rituals, and public gatherings. While the festival strengthens community ties and showcases the cultural spirit of the city, it also brings challenges, especially in terms of noise pollution.

1.3 About Noise Pollution

Noise pollution is defined as unwanted or harmful sound that disrupts the normal acoustic environment. It is one of the most pervasive environmental issues, particularly in urban areas. The WHO identifies noise levels above 65 decibels (dB) as potentially harmful to human health, with prolonged exposure to levels exceeding 85 dB posing a significant risk of hearing damage and other health issues.

In the context of festivals like Ganesh Chaturthi, noise pollution arises from a variety of sources, including:

- Loudspeakers used for music and announcements.
- Musical instruments such as drums and cymbals played during processions.
- Firecrackers, which contribute to sudden spikes in noise levels.

Elevated noise levels have several detrimental environmental and health impacts. Prolonged exposure to loud sounds can result in permanent hearing damage, while excessive noise, particularly at night, disrupts sleep patterns, leading to insomnia and chronic fatigue. Constant noise also heightens stress, anxiety, and irritability, contributing to mental health issues. Additionally, it is linked to cardiovascular problems such as hypertension and heart attacks. High noise levels interfere with communication, making it harder for individuals to focus and reducing overall workplace productivity.

1.4 Global Facts and Figures on Noise Pollution

Noise pollution is a global concern, particularly in densely populated cities. Some key global statistics related to noise pollution include:

According to the WHO, around 1.1 billion people worldwide are at risk of hearing loss due to unsafe noise levels in both recreational and environmental

settings. In the European Union, noise pollution affects approximately 100 million people, with 20% of the population regularly exposed to levels that pose a significant risk to health. A report by the European Environment Agency (EEA) revealed that urban areas with more than 55 dB(A) of noise are linked to an increase in health problems like heart disease, cognitive impairment, and stress-related illnesses. In India, major cities such as Mumbai, Delhi, and Kolkata experience average noise levels of 85-90 dB(A) during festivals and other public gatherings, far exceeding the safe limits prescribed by the Noise Pollution (Regulation and Control) Rules, 2000.

Many countries, including India, have implemented legal frameworks to regulate noise pollution. In India, the Noise Pollution (Regulation and Control) Rules, 2000 set permissible limits of 55 dB(A) for residential areas during the day and 45 dB(A) at night. However, enforcement during festivals remains a challenge due to the cultural significance of these events.

2 MEASURING SOUND LEVELS

One crucial parameter in assessing the impact of acoustic (sound) waves on human exposure is the sound pressure level, typically expressed in units of microPascals (μPa) or Pascals (Pa). The range of sound pressure levels that the human ear can perceive spans from a hearing threshold of 20 μPa to a pain threshold of 20 Pa, resulting in an enormous 1:10,000,000 scale. However, this vast scale is not practically useful for everyday purposes. To address this, a logarithmic scale known as decibels (dB) was introduced, aligning with the physiological and psychological sensations of human hearing.

In theory, a sound level meter has a flat response, meaning it measures sound consistently across different frequencies. In contrast, the human ear responds differently to various frequencies. To bridge this gap, a weighting system or filter can be applied to the sound level meter's measurements, making it respond more closely to how the human ear perceives sound. The most commonly used weighting is known as 'A' weighting, and readings are typically reported in units of dBA.

A noise assessment serves several important purposes, including: A noise assessment may be completed for the following reasons: (1) to determine if an environmental nuisance has been caused (2) to verify if a noise standard has been contravened by the emission of noise. It is crucial to ensure that the correct noise descriptor is used in the assessment.

The choice of noise descriptor depends on the specific context and the objectives of the assessment. For instance, assessing noise in a residential neighbourhood may require different descriptors and standards than evaluating noise in an industrial setting. By accurately selecting the appropriate noise descriptor, the assessment can effectively address the specific concerns and

objectives at hand, whether they involve nuisance mitigation or compliance with noise regulations.

Time-varying noise: LAeq, T is used to quantify the noise where the Lp varies over time. In most situations, the LAeq is the most appropriate descriptor used to investigate environmental noise complaints.

Steady noise: In cases where constant noise is present the LA90 can be used as an equivalent to LAeq. This generally has the advantage of removing extraneous ambient effects from the measurement.

Short duration/non-steady noise: Impact, impulse, and transient noise is measured with LAmax. This noise descriptor is also used to assess sleep disturbance and awakening criteria as per WHO, 1999 and 2009.

3 OBJECTIVES

- To measure and document real-time noise levels at 200 key registered Ganpati Pandals across Pune during the peak celebration hours (1800 hrs to 2400 hrs) from 28th August 2025 to 6th September 2025.
- To measure noise levels at major traffic junctions along the Ganpati Visarjan procession routes on 28th , 31st August 2nd and 6th September, with 24-hour continuous monitoring.
- To assess compliance with the permissible noise level limits set by the Noise Pollution (Regulation and Control) Rules, 2000, as mandated by the National Green Tribunal (NGT) in its order dated 30th August 2024.
- To create public awareness by publicly display real-time noise level results at the respective pandals and traffic junctions with a warning message: "Noise Level more than Noise Limits as per the Standards are injurious to health."
- To identify noise pollution hotspots where noise levels exceeded permissible limits, providing insights into areas requiring stricter enforcement and monitoring.
- To assist local authorities, including the MPCB, Pune Police Department, and Pune Municipal Corporation (PMC), in formulating strategies for better noise management during future public events.

4 METHODOLOGY

The methodology employed for the ambient noise monitoring study during the Ganesh Festival 2025 in Pune City is outlined below:

4.1 Study Area and Noise Monitoring Locations

The study was conducted at 200 Ganpati Pandals and 15 major traffic junctions across Pune City. Detailed list of all the monitored 200 Pandals along with its Latitude and longitude is attached as **Annexure I** and the detailed list of all 15 Traffic junctions along with its Latitude and longitude is attached as **Annexure II**.

The pandals were selected based on their location, crowd density, and historical significance, ensuring comprehensive coverage of the festival's noise impact. The major traffic junctions were chosen based on their proximity to Ganpati Visarjan procession routes, where significant traffic congestion and noise are expected during intermittent monitoring on 28th August 31st August 2nd September, and 6th September 2025.

To meet the objectives of the Hon'ble NGT order, we promptly focused on monitoring the main pandals, specifically those larger than 16x16 feet. A comprehensive list of pandals in Pune city was compiled. Additionally, we consulted with the police department to cover their jurisdictional areas, which included five peramandals across different city regions. Based on both the municipal corporation and police department lists, we shortlisted 200 larger pandals that exceeded the 16x16 area requirement.

The next challenge involved physically visiting each of the shortlisted 200 pandals. We found that some were operational while others were not. For those that were not in operation, we consulted with the MPCB RO, Shri. Babasaheb Kukade Ji and the concerned SRO Shri. Kartikey Langote Ji to identify and select nearby operational pandals as replacements.

Traffic junctions were selected based on crowd density during the visarjan days, specifically on the 28th, 31st August 2nd and 6th September. We identified 10 major junctions throughout the city, with an additional five junctions identified in the extended areas, including Baner, Aundh, University, Chatursunghi, and Malewadi.

The noise monitoring locations were identified in collaboration with the MPCB, the Pune Police Department, ensuring that areas with high noise pollution risks were monitored effectively. These sites were strategically chosen to capture variations in noise levels at both festival-related sites (pandals) and traffic-heavy areas (junctions).

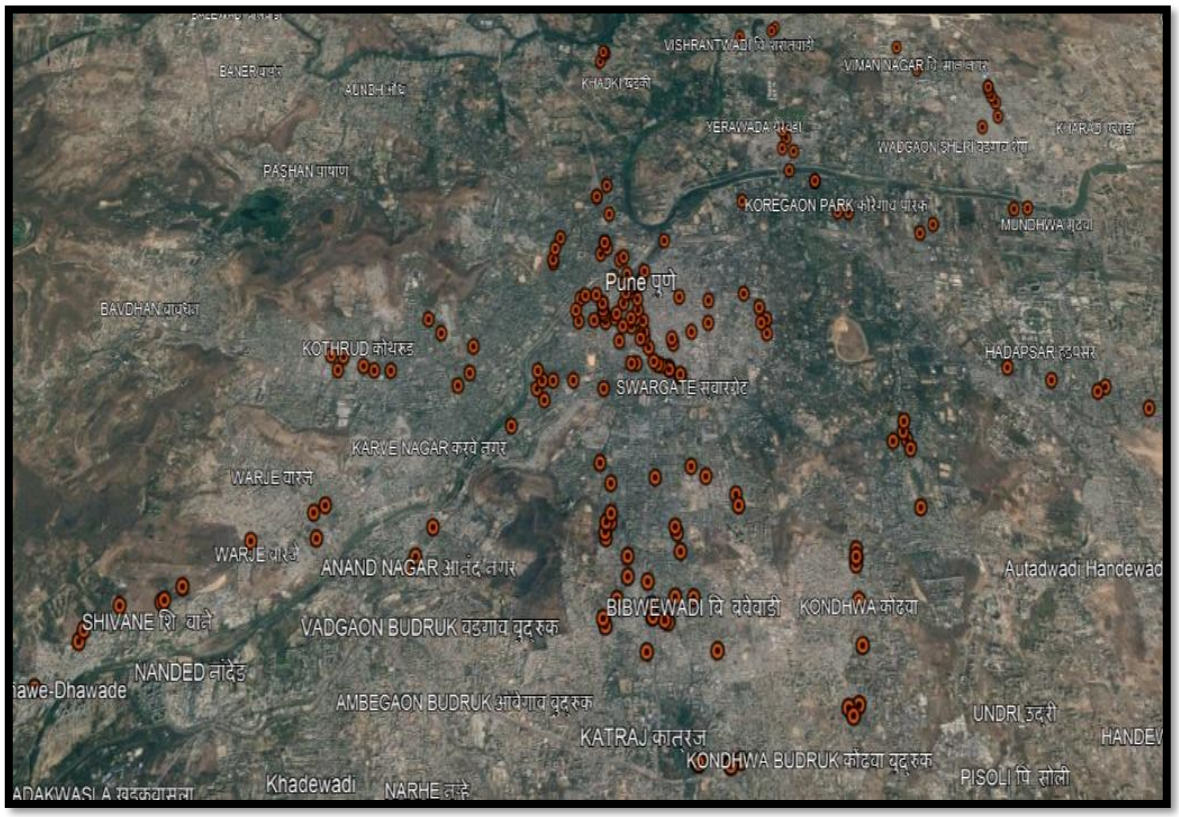

Figure 4.1a: Pandals under Study (200 Noise Monitoring Locations) in Pune

(*Source: Google Earth Pro*)

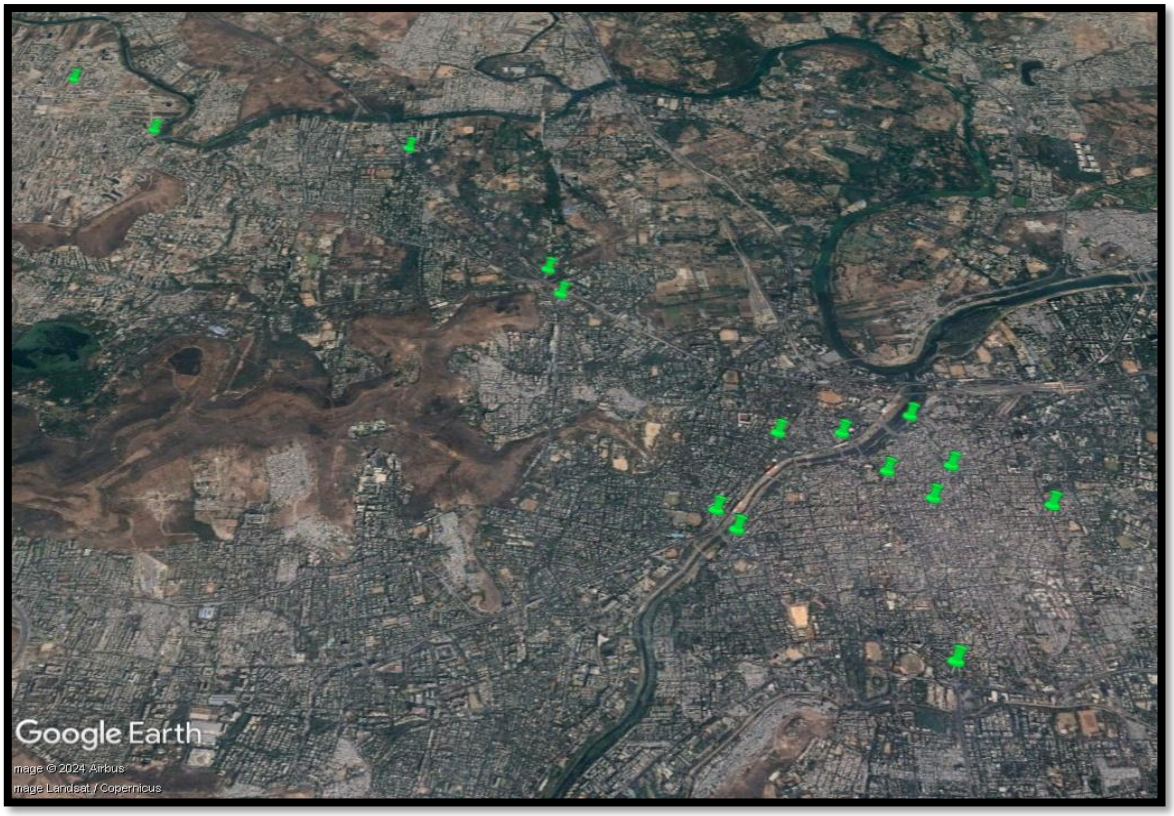

Figure 4.1b: Traffic Junctions under Study (15 Noise Monitoring Locations) in Pune (*Source: Google Earth Pro*)

4.2 Equipment and Procedure

Sound Level Meters (SLMs) were installed at each monitoring site, with all instruments pre-calibrated to ensure measurement accuracy. Noise levels were recorded in dB(A) in accordance with the Noise Pollution (Regulation and Control) Rules, 2000. The monitoring was carried out using Type-II SLMs compliant with IEC 61672 standards. All SLMs were calibrated in a NABL-accredited laboratory and further field-calibrated before and after each monitoring session using a Sound Calibrator (Make: CEM; Model: ND9), with calibration points at 94 dB and 114 dB at 1 kHz. The sound level meters were equipped with portable printer (Model: SBM-BM-01-1). The SLMs were positioned outside the pandals, where continuous music and large gatherings of devotees were present. Measurements were taken using the A-weighted FAST filter, with each SLM mounted on a tripod at a height of 1.5 meters to ensure optimal readings. A windball was attached to minimize wind interference. Monitoring was conducted at 200 pandals daily from 6 PM to midnight over an 11-day period, and at 15 major traffic junctions for continuous 24-hour monitoring on specified days.

- Hourly Leq and 6-hourly Leq data were recorded for the pandals in line with the MPCB's prescribed datasheet format.
- At the major traffic junctions, daytime Leq (06:00 to 22:00 hrs) and night time Leq (22:00 to 06:00 hrs) were calculated for each 24-hour monitoring period, ensuring a comprehensive assessment of noise levels over time.

The MPCB-provided datasheets were used to systematically record and analyse the noise levels. These datasheets captured the following parameters:

- Hourly Leq (equivalent continuous sound level) for the 6-hourly monitoring at pandals.
- 6-hourly Leq data for cumulative noise levels during each day's monitoring at pandals.
- Daytime Leq and Night-time Leq for the 24-hour monitoring at traffic junctions, as required for assessing both day and nighttime noise levels.

The noise data collected was analyzed to determine compliance with the permissible noise levels set under the Noise Pollution (Regulation and Control) Rules, 2000 (attached as Annexure III). The findings from these analyses provide insights into the patterns of noise pollution during the Ganesh Festival and the specific noise impacts of traffic junctions during the Visarjan processions.

Data was logged at one-second intervals, with the SLM recording the sound pressure level (SPL) in decibels (dB).

From these recorded readings, the equivalent steady sound pressure level of a noise energy-averaged over time is calculated as Leq using the following equation:

$$L_{eq,T} = 10\log\left(1/n\sum_{i=1}^{n}10^{\frac{L_i}{10}}\right)$$

Where,

Li = noise level in dB
n = number of observations at an equally spaced time interval
T = Time

5 RESULTS AND DISCUSSION

The results of the noise monitoring study conducted during the Ganpati festival from 27th August to 6th September 2025. The study was carried out at/near 200 Ganpati pandals continuously for 11days of the Ganpati festival. Simultaneously, a 24-hr noise monitoring study was conducted at 15 major traffic junctions, on the Visarjan days, i.e. 28th, 31st August and 02nd September, 06th September. The monitoring was carried out from 18:00 hours to 24:00 hours daily, and the findings are compared with the 10dB above the CPCB standards as prescribed under the Noise Pollution (Regulation and Control) Rules, 2000.

According to the CPCB guidelines, the noise limits for residential zones and commercial zones are:

- Residential areas: 55 dB(A) during the day, 45 dB(A) at night.
- Commercial areas: 65 dB(A) during the day, 55 dB(A) at night.

The study findings are as follows:

A. Traffic Junction Monitoring:

During the Ganpati festival, monitoring was carried out at 15 major traffic junctions in Pune on Visarjan days (28th August 31st August and 02nd September, 06th September).

Out of the 15 junctions, the highest decibels were consistently recorded at Tilak Chowk Junction across all four days of monitoring. The noise levels at this location reached critical levels due to high traffic, dhol processions, loudspeakers, and DJs contributing to excessive sound.

The highest recorded noise level at the junctions occurred on the last day of the Ganpati festival (6th September), when Visarjan processions were at their peak. Decibel levels reached over 100 dB(A), far exceeding the permissible limits

by over 30 to 40 dB(A), primarily due to dhols, music systems, and DJs being used during the final immersion processions.

B. Noise Monitoring at 200 Ganpati pandals:

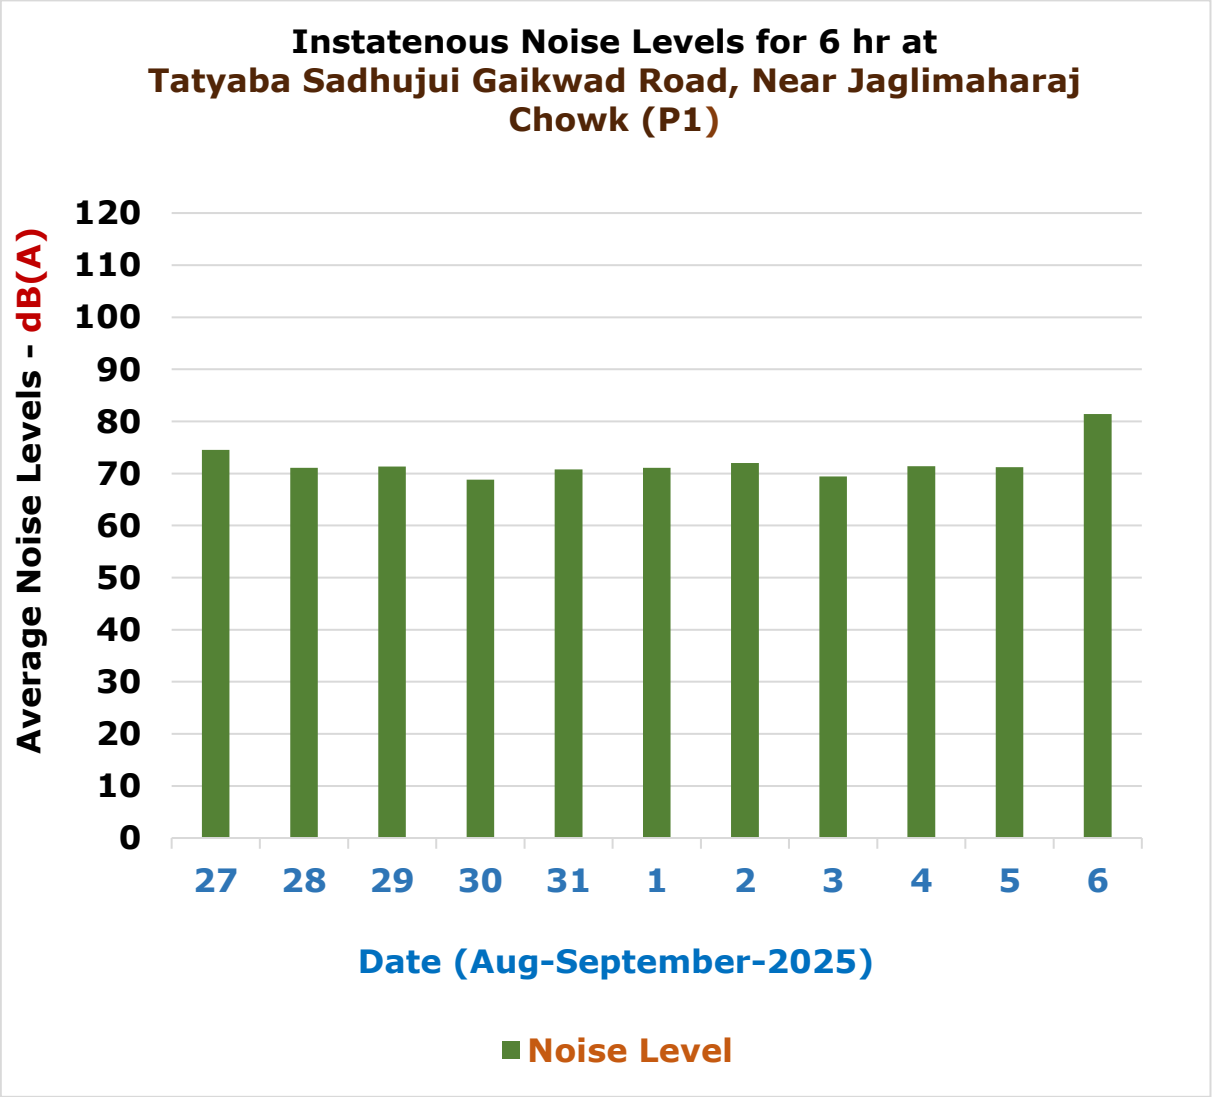

All the Ganpati pandals were located either in the Commercial or in the residential Zones. Noise monitoring in commercial and residential zones showed a similar trend of exceedance of permissible limits by more than 10 dB(A):

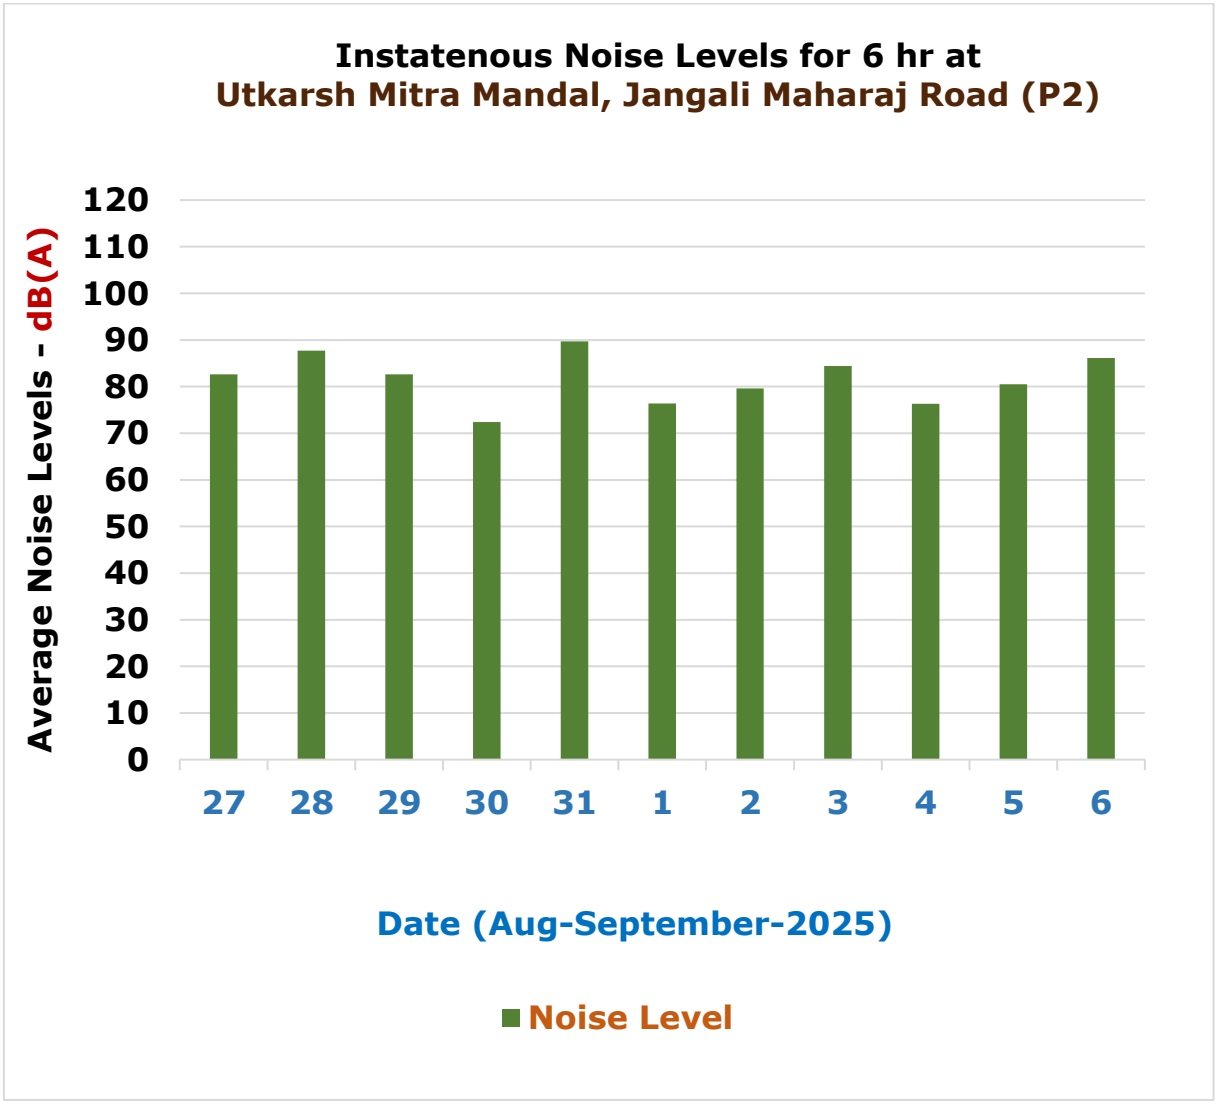

- The highest Leq was observed at Pavasha Ganapati Waraje on the first day of monitoring, recording 97.8 dBA, exceeding the permissible limit for residential zones by over 40 dB(A).
- The lowest Leq during the 11-day period was observed at Hanuman Vayam Mandal on the 5th day, with 65.1dBA, which still exceeds the CPCB standard for residential zones by approximately 10.1dB(A).
- Noise levels at commercial locations consistently exceeded the 65 dB(A) daytime limit and the 55 dB(A) night limit by at least 10 to 20 dB(A) during the festival.
- Residential zones located near major Ganpati pandals or processions experienced Leq values between 70 dB(A) and 85 dB(A), significantly breaching the noise regulations, especially during nighttime hours.

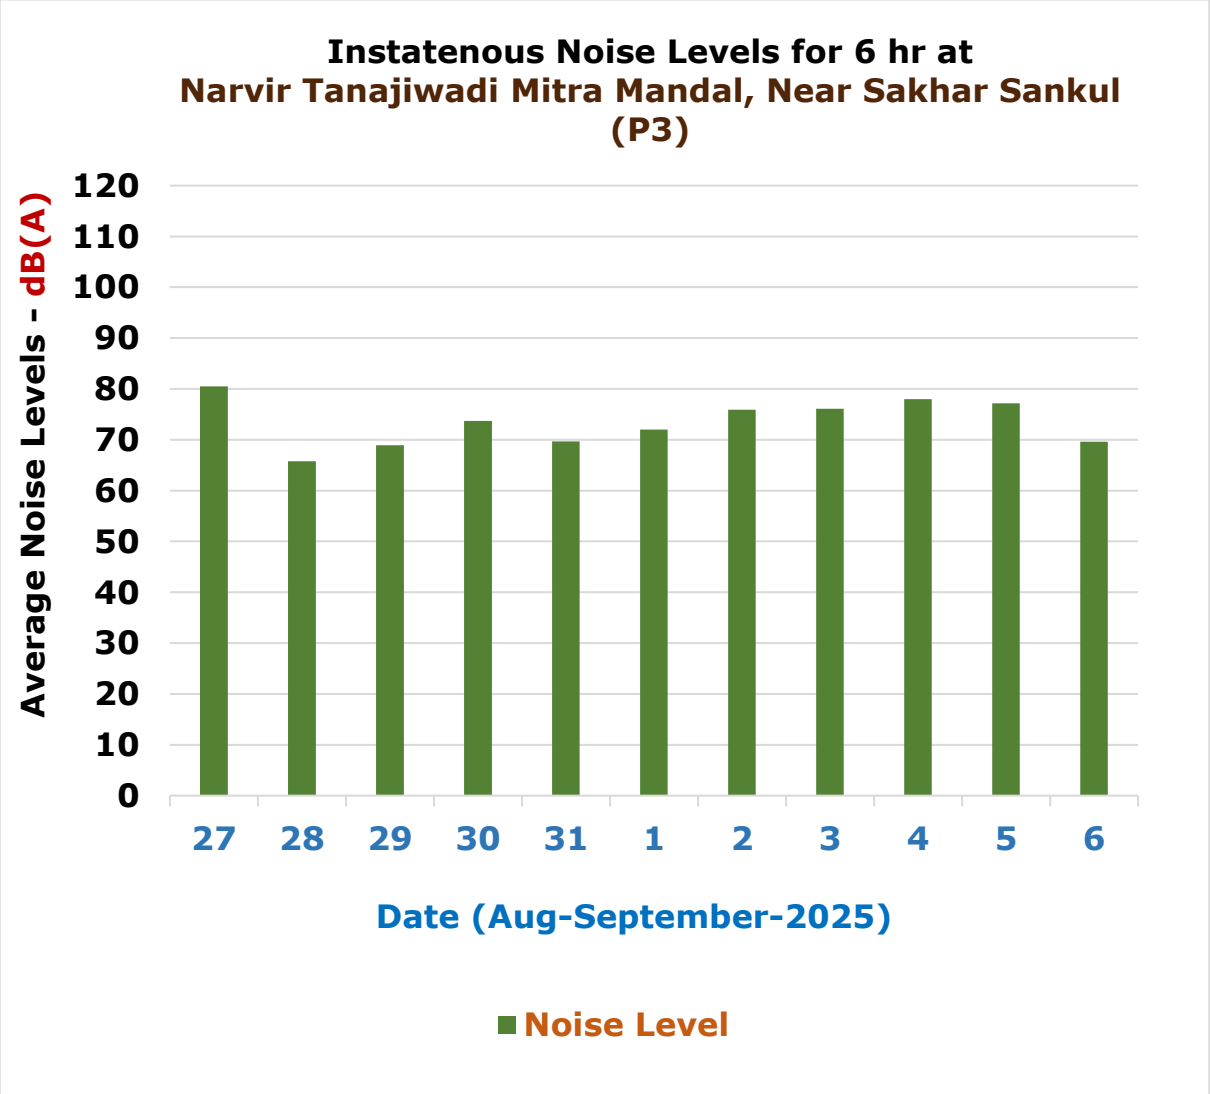

C. Visarjan Day (6th September) Findings:

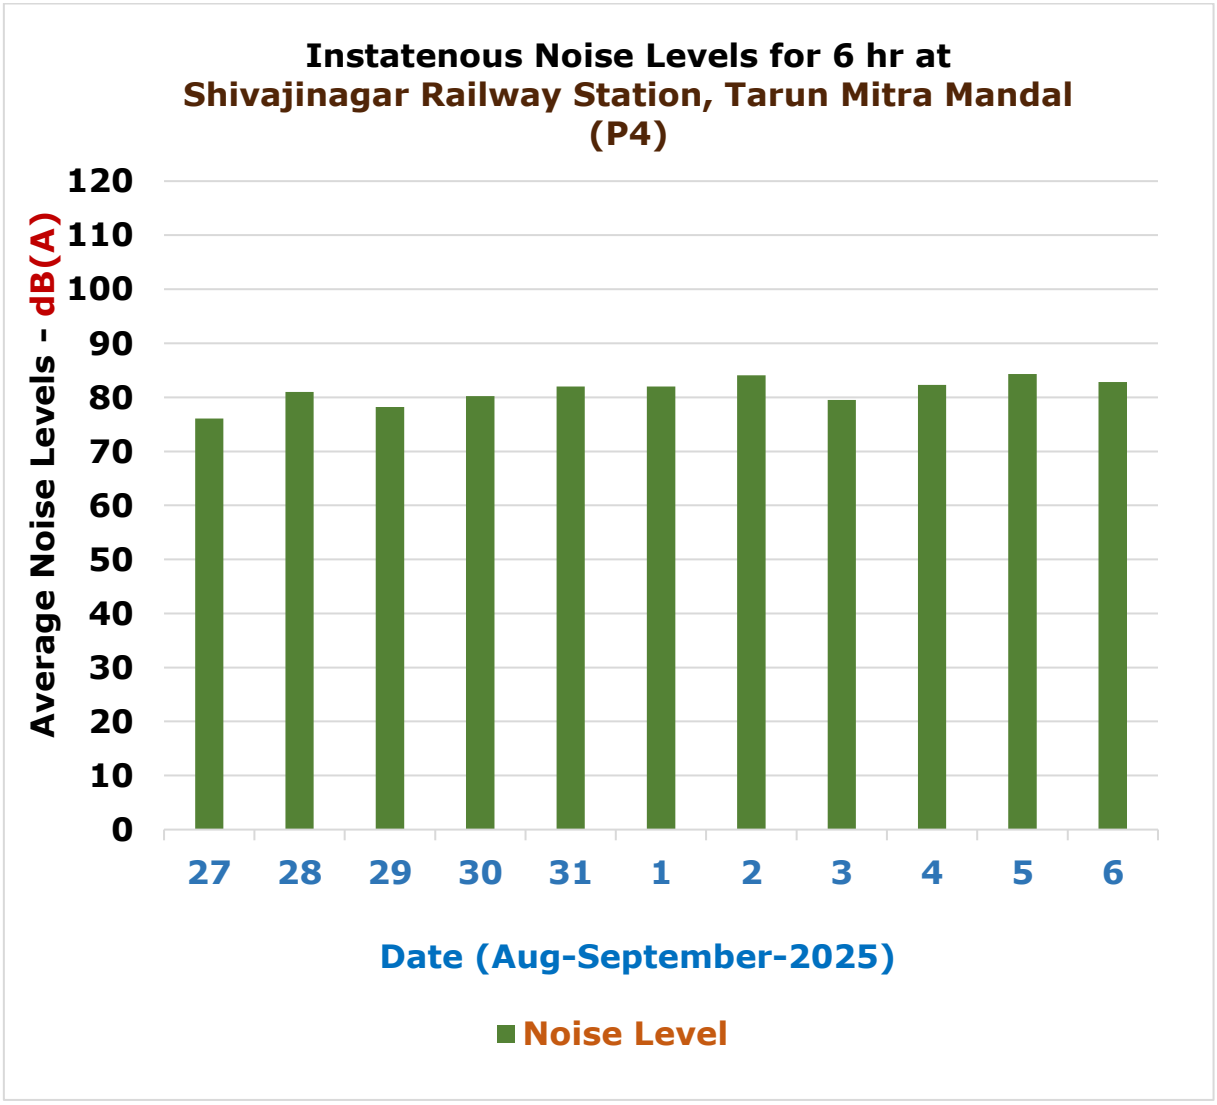

The 11th day of monitoring, Visarjan Day on 6th September 2025, recorded the highest decibel levels citywide, especially in commercial zones and traffic junctions. Procession routes leading to immersion points saw noise levels that exceeded the CPCB standards due to the cumulative impact of dhols, music systems, loudspeakers, and DJs.

6 CONCLUSIONS

The study conducted during the 2025 Ganpati festival in Pune city involved systematic noise level monitoring across 200 pandals and 15 traffic junctions, revealing critical insights into urban noise pollution during large-scale public events. The 11-day monitoring of noise levels at 200 Ganesh pandals in Pune from 6 pm (18:00) to 12 am (24:00) (i.e., 6 hours) revealed significant fluctuations in sound intensity across different days and locations. The study recorded the highest decibel level of 97.8 dB at *Akhil Bibawewadi Gaon & Parisar Mitra Mandal* on 27th August, indicating extreme noise levels on the opening days of the festival. The lowest observed level was 56.7 dB at *Sant Tukaram Paduka Maharaj Mandal, FC Road,* on 28th August, showing that some pandals maintained relatively moderate sound levels. Among the monitored days, noise levels consistently exceeded 90 dB during peak festival dates such as 31st August, 1st September, and 6th September, suggesting a pattern of intensification towards the final stages of celebration. Overall, the noisiest location was near Bund Garden and Bibawewadi areas, which repeatedly recorded levels above the permissible limits.

The findings highlight that while certain pandals complied with noise regulations, several exceeded standards, especially during the last day. Traffic noise also seems a major source and cause of the increase in the ambient noise level. This emphasises the urgent need for stricter enforcement, continuous real-time monitoring, and public awareness initiatives to ensure a more eco-friendly and responsible celebration of the Ganesh festival.

The noise monitoring study conducted during the Ganesh Festival across 15 traffic junctions in Pune revealed significant variations in sound levels during both day and night. The highest daytime noise was recorded at Jedhe Chowk (105.0 dB) on 6th September 2025, followed by Sonya Maruti (103.0 dB), while at night, Tilak Chowk reached 95.0 dB and Sonya Maruti 92.9 dB on the same day. The lowest daytime noise was observed at Kasturi Circle (66.3 dB) on 28th August, whereas the quietest nighttime level was noted at SPPU Pune University (60.5 dB) on 6th September. A clear trend of rising noise levels was evident towards the final days of the festival, with many locations such as Jedhe Chowk, Sonya Maruti, Tilak Chowk, Jijamata Chowk, and Sant Kabir Chowk showing sharp increases of 10–20 dB compared to the initial days. Overall, Jedhe Chowk, Sonya Maruti, and Tilak Chowk emerged as the noisiest junctions, consistently crossing 90–105 dB, which is far above the permissible limits, while Kasturi Circle and SPPU remained relatively quieter. The findings highlight the alarming

rise in noise pollution during festive celebrations, posing serious risks to public health and community well-being.

The data indicate that both day and night noise levels were significantly elevated on 6th September, which coincided with immersion day activities. These elevated noise levels, especially those exceeding 90 dB, present a potential risk to public health, as prolonged exposure to such levels can lead to auditory damage and increased stress levels.

The elevated noise levels were directly linked to the widespread use of traditional instruments such as dhols, coupled with amplified music during the processions on the final day of the festival (6th September). This clearly reflects a pattern of heightened noise on visarjan days, highlighting the persistent challenge of keeping sound levels within permissible limits despite ongoing regulatory measures.

7 RECOMMENDATIONS BASED ON THE STUDY

1. Identification of hotspots and support long-term research initiatives to study the impacts of noise pollution on public health and the environment, which can inform future policies and regulations.

2. Provide clear, enforceable guidelines for pandal organizers in line with the Noise Pollution (Regulation and Control) Rules, 2000, covering permissible noise levels, equipment, and timings.

3. Designate quiet zones around sensitive areas such as hospitals, schools, and residential neighbourhoods, with stricter limits during festival periods.

4. Strengthen enforcement mechanisms and ensure regular patrols, backed by fines for non-compliance, to improve adherence to regulations.

5. Promote public awareness campaigns to encourage community participation in noise reduction and to foster eco-friendly celebration practices.

6. Blank noise monitoring must be done at least two times at the marked pandal's location to determine the existing noise level before the Ganesh festival.

7. Noise mapping has to be carried out in the entire Pune city to understand the correct and existing noise level in industrial areas, commercial areas, residential areas, and the city's silent zones.

मंडळांच्या आवाजाची नोंद

अभ्यासकांबरोबरच तीनशे विद्यार्थ्यांची टीम तैनात

म. टा. प्रतिनिधी, पुणे

गणेशोत्सवातील ध्वनिप्रदूषण रोखण्यासाठी महाराष्ट्र प्रदूषण नियंत्रण मंडळाची (एमपीसीबी) अभ्यासकांच्या पथकाने बुधवारी, पहिल्या दिवसापासूनच 'आवाजा'च्या नोंदी घेण्यास सुरुवात केली आहे. मध्यवर्ती पुण्यासह उपनगरांत निवडलेल्या दोनशे गणेश मंडळांचे अकरा दिवस, तर पंधरा महत्त्वाच्या वर्दळीच्या चौकांमध्ये चार दिवस एमपीसीबीतर्फे आवाजाची मोजणी करण्यात येणार आहे. यासाठी अभ्यासकांबरोबरच तीनशे विद्यार्थ्यांची टीम तैनात करण्यात आली आहे. एवढे नव्हे, तर उत्सवानंतर अकरा दिवसांतील ध्वनिप्रदूषणाचा आढावा घेणारा अहवाल, ध्वनिमर्यादेचे उल्लंघन करणाऱ्या मंडळांची यादी ऑक्टोबरमध्ये हरित न्यायाधिकरणासमोर सादर करण्यात येणार आहे.

गणेशोत्सवात दर वर्षी वाढत असलेल्या ध्वनिप्रदूषणाविरोधात दाखल झालेल्या याचिकेनंतर राष्ट्रीय हरित न्यायाधिकरणाकडे एमपीसीबी आणि पोलिसांनी उत्सवामध्ये ठिकठिकाणी फिरून मंडळांच्या आवाजाची पातळी मोजावी; तसेच गणेश मंडळांना त्यांच्या मांडव परिसरात ध्वनिप्रदूषणाबाबत जनजागृती करण्याचे आदेश दिले आहेत. त्यानुसार एपीसीबीने स्वारगेट, शिवाजीनगर, मध्यवर्ती पेठा, एरंडवणे, कोथरूड, सिंहगड रस्ता, सहकारनगर, बिबवेवाडी, कात्रज, खडकी, येरवडा, विश्रांतवाडी यांसह विविध भागांत दोनशे गणेश मंडळे निश्चित केली आहेत. याशिवाय वर्दळीचे चौकही निवडण्यात आले आहेत. या भागांतील मोजणीसाठी एका खासगी संस्थेची नियुक्ती केली आहे. हे पथक ध्वनीमोजणीच्या यंत्रातून रोज सायंकाळनंतर गणेश मंडळांच्या परिसरातील आवाजाच्या पातळीच्या नोंदी घेणार आहेत. याशिवाय एमपीसीबतर्फे ध्वनिप्रदूणाबाबत जनजागृतीसाठी विविध महाविद्यालयांमधील तीनशे विद्यार्थ्यांना प्रशिक्षण देण्यात आले आहे. हे विद्यार्थीही संध्याकाळनंतर विविध भागांत जागृती करणार आहेत. ध्वनिप्रदूषणामुळे मानवी आरोग्यावर, पर्यावरणावर होणाऱ्या दुष्परिणामांची माहिती सांगणार आहेत. काही गणेश मंडळांच्या आवारात ध्वनिमर्यादेचे फलकही लावण्यात आले आहेत. यावर केंद्रीय प्रदूषण नियंत्रण मंडळाने निश्चित केलेली आवाजाची पातळी आणि सद्यस्थितीतील आवाज याचा आलेख दाखविला आहे.

दरम्यान, एमपीसीबीने गेल्या वर्षीही मध्यवर्ती पुण्यासह उपनगरांतील २०० मंडळांच्या आवारात आवाजाची मोजणी आणि जनजागृती केली होती. तर पोलिसांनी ध्वनिमर्यादेचे उल्लंघन करणाऱ्या १२४ गणेश मंडळांवर गुन्हे दाखल केले होते, असा अहवाल एमपीसीबी आणि पोलिसांनी नुकताच राष्ट्रीय हरित न्यायाधिकरणाला सादर केला आहे.

महाराष्ट्र प्रदूषण नियंत्रण मंडळाकडून शहरातील अनेक मंडळांच्या परिसरात आवाजाची पातळी मोजली जात आहे.

> गणेशोत्सवादरम्यान होणारे प्रदूषण रोखण्यासाठी जनजागृती, प्रत्यक्ष आवाजाची मोजणी आणि उल्लंघन करणाऱ्या मंडळांची यादी तयार करणे अशा तीन पातळ्यांवर महाराष्ट्र प्रदूषण नियंत्रण मंडळ काम करणार आहे. मध्यवर्ती पुण्यासह उपनगरांतील दोनशे ठिकाणी अकरा दिवस ही मोजणी सुरू राहणार असून, पहिल्याच दिवशी आमच्या पथकांनी नोंदी घेण्यास सुरुवात केली आहे. गुरुवारी पाऊस असतानाही आमच्या पथकाने ठिकठिकाणी नोंदी घेतल्या आहेत. मंडळांच्या आवारातच माहितीपर फलकही लावण्यात आले आहेत.
>
> – कार्तिकेय लंगोटे,
> उपप्रादेशिक अधिकारी,
> महाराष्ट्र प्रदूषण नियंत्रण मंडळ

'आव्वाज' रात्री बारानंतरच अधिक

आवाजावर अंकुश

ध्वनिप्रदूषणाची मर्यादा	(सकाळी ६ ते १०)	(रात्री १० ते ६)
औद्योगिक क्षेत्र	७५	७०
व्यावसायिक क्षेत्र	६५	५५
निवासी क्षेत्र	५५	४५
शांतता क्षेत्र	५०	४०

आवाज कमी करण्यासाठी कसली कंबर

'महाराष्ट्र प्रदूषण नियंत्रण मंडळा'ने शहराच्या कोणत्या भागात किती आवाजाची पातळी असावी, याचे निकष निश्चित केलेले आहेत. रुग्णालय, शैक्षणिक संस्थांसारखे शांतता क्षेत्र असो, की व्यावसायिक क्षेत्र वर्षभर येथील आवाजाची पातळी निकषांच्या पुढेच नोंदवली जाते. उत्सवामध्ये काही भागात निश्चित मर्यादेच्या दुप्पटही आवाज नोंदवला गेल्यानेच एमपीसीबीने आवाज कमी करण्यासाठी कंबर कसली आहे.

MPCB to keep tabs on noise levels across city during Ganeshotsav

TNN | Aug 26, 2025, 05.14 AM IST

Pune: With the city preparing for Ganesh festival, the Maharashtra Pollution Control Board (MPCB) will deploy teams in nearly 200 busy junctions in Pune and Pimpri Chinchwad to keep a check on noise levels on all the days of the festivities.

Monitoring will be done from 7am to 7am on these days, with the upper limit fixed at the Central Pollution Control Board (CPCB) standards decided earlier. Any violations will be flagged to the police. Last year's data shows why the watch is crucial — areas like Shivajinagar, Shaniwar Peth, Laxmi Road and Mahatma Phule Mandai, among others, recorded over 80-90 decibels on several occasions, much higher than the permissible limit.

Officials said the focus this year is on ensuring noise levels during processions stay within the limits so that celebrations don't turn into a health hazard for residents. The monitoring points also include fixed locations where noise levels are being monitored since many years: Shivajinagar, Laxmi road ,Shaniwar peth, Yerawada, Hadapsar, MG road, Karve Road, Swargate, among others.

An MPCB official said, "Noise levels will be tracked at approximately 200 locations this year, similar to last year. Certain points such as Shivajinagar, Karve Road, Swargate, Shaniwar Peth, Laxmi Road, Kothrud, Hadapsar, Koregaon Park, Khadki, MG Road, University Road Chowk, Aundh Parihar Chowk and Vishrantwadi are fixed sites

ps://timesofindia.indiatimes.com/city/pune/mpcb-to-keep-tabs-on-noise-levels-across-city-during-ganeshotsav/articleshowprint/123511854.cms 1/2

4/25, 11:05 AM MPCB to keep tabs on noise levels across city during Ganeshotsav - Times of India

that are always monitored during Ganeshotsav. But following the directions issued last year, the monitoring exercise now covers around 200 locations across Pune."

He added that last year, the National Green Tribunal (NGT) directed the MPCB to carry out real-time monitoring at all pandals throughout the 10-day festival, especially on immersion day. The board was also asked to display decibel levels on digital boards at major junctions, put up awareness banners, and share daily readings near pandals. "This year, too, the monitoring will be done in coordination with consultants, PMC and the police, using sound level meters," he said.

The official clarified that unlike last year when a flat cap of 80 decibels was imposed, noise limits are now being followed as per CPCB standards.

The CPCB has prescribed different noise limits for various zones: 75 decibels (dB) during the day and 70 decibels at night in industrial areas; 65 dB (day) and 55 dB (night) in commercial areas; 55 dB (day) and 45 dB (night) in residential areas. The strictest norms apply to silent zones such as hospitals, schools and courts, where the limit is 50 dB during the day and 40 dB at night.

Another MPCB official said, "Any mandal found flouting the prescribed noise norms will face police action. The penal provisions include fines as well as imprisonment of up to one year."

Pune Ganesh Visarjan 2025: Noise Monitoring By MPCB Reveals Mixed Trends Pune Travel Guide

Share This News

Pune, September 7, 2025 — The Maharashtra Pollution Control Board (MPCB) has released preliminary findings from its noise monitoring drive across 200 Ganesh pandals in Pune, showing mixed trends in this year's festival. While several locations reported a decline in sound levels compared to 2024, others exceeded permissible limits.

The monitoring, conducted between August 27 and September 2, highlighted both improvements and areas of concern. For instance, at Tatyaba Sadhujui Gaikwad Road near Jaglimaharaj Chowk in Shivajinagar, the average noise level (Leq) dropped from 74.5 dB on August 27 to 71.1 dB the following day. In contrast, Utkarsh Mitra Mandal on Jangali Maharaj Road recorded 87.7 dB on August 28, while Akhil Yashwantrao Chavan Nagar Mitra Mandal in Sahakarnagar reported a peak of 93.4 dB on September 1.

1. Safety

Read the following safety information carefully before attempting to operate or service the meter.
Use the meter only as specified in this manual; otherwise, the protection provided by the meter may be impaired.

◆ **Environment conditions:**

Altitude up to 2000 meters
RH ≤ 95% (Non-Condensation)
Operating Temperature:
-10~50℃

◆ **Maintenance**

Repairs or servicing not covered in this manual should only be performed by qualified personnel.
Wipe the unit with a dry soft cloth. Do not use abrasives or solvents on this instrument.

◆ **Safety Symbol**

CE Comply with EMC standards.

2. General description

This Sound Level Meter is designed to meet the measurement requirements of Safety Engineers, Health, Industrial safety offices and sound quality control in various environments like construction, factories, schools, offices, road traffic, household, public places like railway stations, airport, bus station, mall, etc.

- Comply with IEC61672-1 Type II standard
  - Maximum / Minimum record
  - Over range indication

- Under range indication

- Time, data transmission display
- 'A', 'C' or 'Z' Weighting
- Selectable response time: FAST / SLOW
- Analog AC/DC outputs for connection to frequency analyzer or X-Y shaft recorder
- PC real-time monitoring, recording and memory
- 4-digits LCD display with a resolution of 0.1dB
- Sampling time: 2 times/second

3. Specifications

Applied standard	IEC61672-1:2003 Type I
Accuracy	±1.4dB
Frequency range	31.5 Hz ~ 12.5 kHz
Dynamic range	50dB
Measuring level range	Low: 32dB ~ 100dB
	Med: 50dB ~ 120dB
	High: 72dB ~ 140dB
	Auto: 30dB ~ 140dB
Frequency weighting	'A', 'C'or 'Z'
Time weighting:	FAST 125ms; SLOW (1s), PEAK, IMPULSE
Microphone	½" inch electret condenser microphone
Display	4-digits LCD display with a resolution of 0.1dB
Sampling time	2 times/sec
Measurements	Sound Pressure Level (SPL), Min, Max,

Protocol for Ambient Level Noise Monitoring

$$L_{pressure} = 10.\log\left[10^{(Lp/10)} - 10^{(LpBackground/10)}\right]$$

CENTRAL POLLUTION CONTROL BOARD

PARIVESH BHAVAN, EAST ARJUN NAGAR, DELHI-110032

Protocol for Ambient Level Noise Monitoring

1.0 Purpose:

This protocol presents the protocol for Ambient Noise monitoring to be carried out on routine basis or to address the public complaints. The objective is to monitor the noise level at a particular site or as described in the complaints. The data generated by the method shall also evaluate with prescribed noise level standards.

2.0 Introduction

The unit of noise is decibel, one-tenth of a bell and denotes as d(B), however the monitoring unit is considered as dB(A) Leq denotes the time weighted average 'A' of the level of sound in decibels on **scale A** and it has been found related to **human hearing.** Thus in, dB(A)Leq, denotes the frequency weighting in the measurement of noise and corresponds to frequency response characteristics of the human ear. The unit of frequency is hertz (Hz) and is defined as the number of compressions and rarefactions per unit time (sec.). Human hearing is sensitive to frequencies in the range of about 20-20,000 Hz (the audio frequency range).

Sound pressure is used as the fundamental measure of sound (amplitude) as it is measurable directly by any standard instruments. The weakest sound pressure disturbance that can be detected by an "average" person at 1,000Hz has been found to be 20 $\mu N/m^2$ and the largest 10^7 $\mu N/m^2$. Because of such a wide range, the use of a linear pressure scale has been found to be non-scientific. It has been found convenient to employ sound pressure level, a quality, which is proportional to the logarithm of sound pressure. By this, the sound pressure range of interest is compressed between 0 to 130 dB.

3.0 Site Selection Criteria:

Site of an area shall be selected such that it meets the land use pattern as prescribed in the standard e.g. Industrial, Commercial, Residential & Silence Zone.

(A) General:

1. The station should be located at the ambient level i.e. away from the direct source, away from any vibration and any obstruction.
2. Categorize the area with land use pattern.

(B) Specific :

Always use tripod stand at above the ground level of 1 to 1.5 m for areas. Hand held monitoring should be avoided.

(C) Case Specific Locations:

- DG Sets up to 800 kW at about 1 m distances from all sides. DG Sets more than 800 kW at about 1 m distance of acoustic enclosure.

Concerned State PCBs / PCCs may regulate the norms with minimum reduction of 25 dB(A) to see the effectiveness of the enclosure.

- Petrol and Kerosene Gensets Sound power level is measured in anechoic room so as to have segregated noise level.
- Fire crackers 4 m from the bursting point, there shouldn't be reflecting surface around 15m radius.
- Vehicle 0.5m from the exhaust point.

(D) Positioning of the instrument:

- Microphone must be placed 1.2 -1.5m above the ground level.
- In dry conditions with a wind speed of less than 5 m/s.
- Isolate the instrument from strong vibration and shock.

4.0 Selection of Noise level meter:

Noise measurements will be made with a Type 1 integrating sound level meter with free-field microphone which meets the Accuracy of noise measurement as per IEC 804 (BS 6698) Grade I or ANSI Type I or equivalent IEC 61672-1(2002-05) Class-I.

5.0 Calibration:

Make sure that the instrument is properly calibrated. Measurements should be accepted as valid only if the calibration level from before and after the noise measurement agrees to within 1.0 dB. The sound level meter and calibrator will hold a current calibration certificate traceable to national standards.

Start the calibrator and put on 1 KHz frequency calibration on two values 94 dB and 114 dB. If instrument is shows more than ± 0.3 dB differences adjust the calibration. Calibration is done O.K. now instrument is ready for monitoring.

6.0 Monitoring time:

The monitoring should be carried out minimum 75% of the prescribed Day time (06.00 am to 22.00 pm) and Night time (22.00 pm to 06.00 am).The exercise has to be carried out for 6 to 8 hrs. in the said time frame of day & night. It is always preferable to have large number of data sets thus 1sec sampling frequency is recommended.

7.0 Monitoring Parameters:

Leq, L_{10}, L_{90}, L_{50}, L_{max}, L_{min}, (with 1 sec sampling period at all locations).

8.0 Monitoring Protocol:

The following criteria will be observed when undertaking the noise monitoring:

a) During ambient noise monitoring sound comes from more than one direction, it is important to choose a microphone and mounting which gives the best possible Omni directional characteristics;

b) The noise measurement equipment will be supervised continuously during the monitoring period and notes will be made of the date, time and prevailing weather conditions;
c) Immediately prior to and following each noise measurement session the accuracy of the noise level meter shall be checked using an acoustic calibrator generating a known sound pressure level at a known frequency.
d) Noise measurements should not be made in fog and rain;
e) A wind shield will be used at all times to prevent interference of reflecting noise;
f) As far as is practicable, the pause facility on the noise measurement equipment will be used to exclude extraneous noise (e.g. low flying aircraft and road traffic passing in front of the microphone) so that the results recorded are representative of the site noise. If possible for extraneous noise/other source background noise can be eliminated from final reading by using the following formula:

$$L_{pressure} = 10.\log [10^{(Lp/10)} - 10^{(LpBackground/10)}]$$

10.0 Monitoring records:

(i) The date, time, location and duration of the measurement;
(ii) All predominant noise sources will be noted, which may include extraneous noise such as road traffic, aero-planes and other activity;
(iii) Weather conditions will be recorded including wind speed and approximate direction, cloud cover, rain and ground frost;

11.0 Monitoring data submission:

The particulars of the measurements recorded by the noise level meter shall be furnished in the monitoring data sheet, as at **Annexure I.** A typical flow chart may be adopted for uniformity in the monitoring.

12.0 Monitoring Inferences:

The monitoring inferences should be drawn on the basis of final data sheet viz. compliance to the specified standard, violation of standard, average Leq, noise intensity L_{50}, L_{90} etc. and suggest corrective action.

Annexure-I

Data sheet for Ambient Noise Monitoring

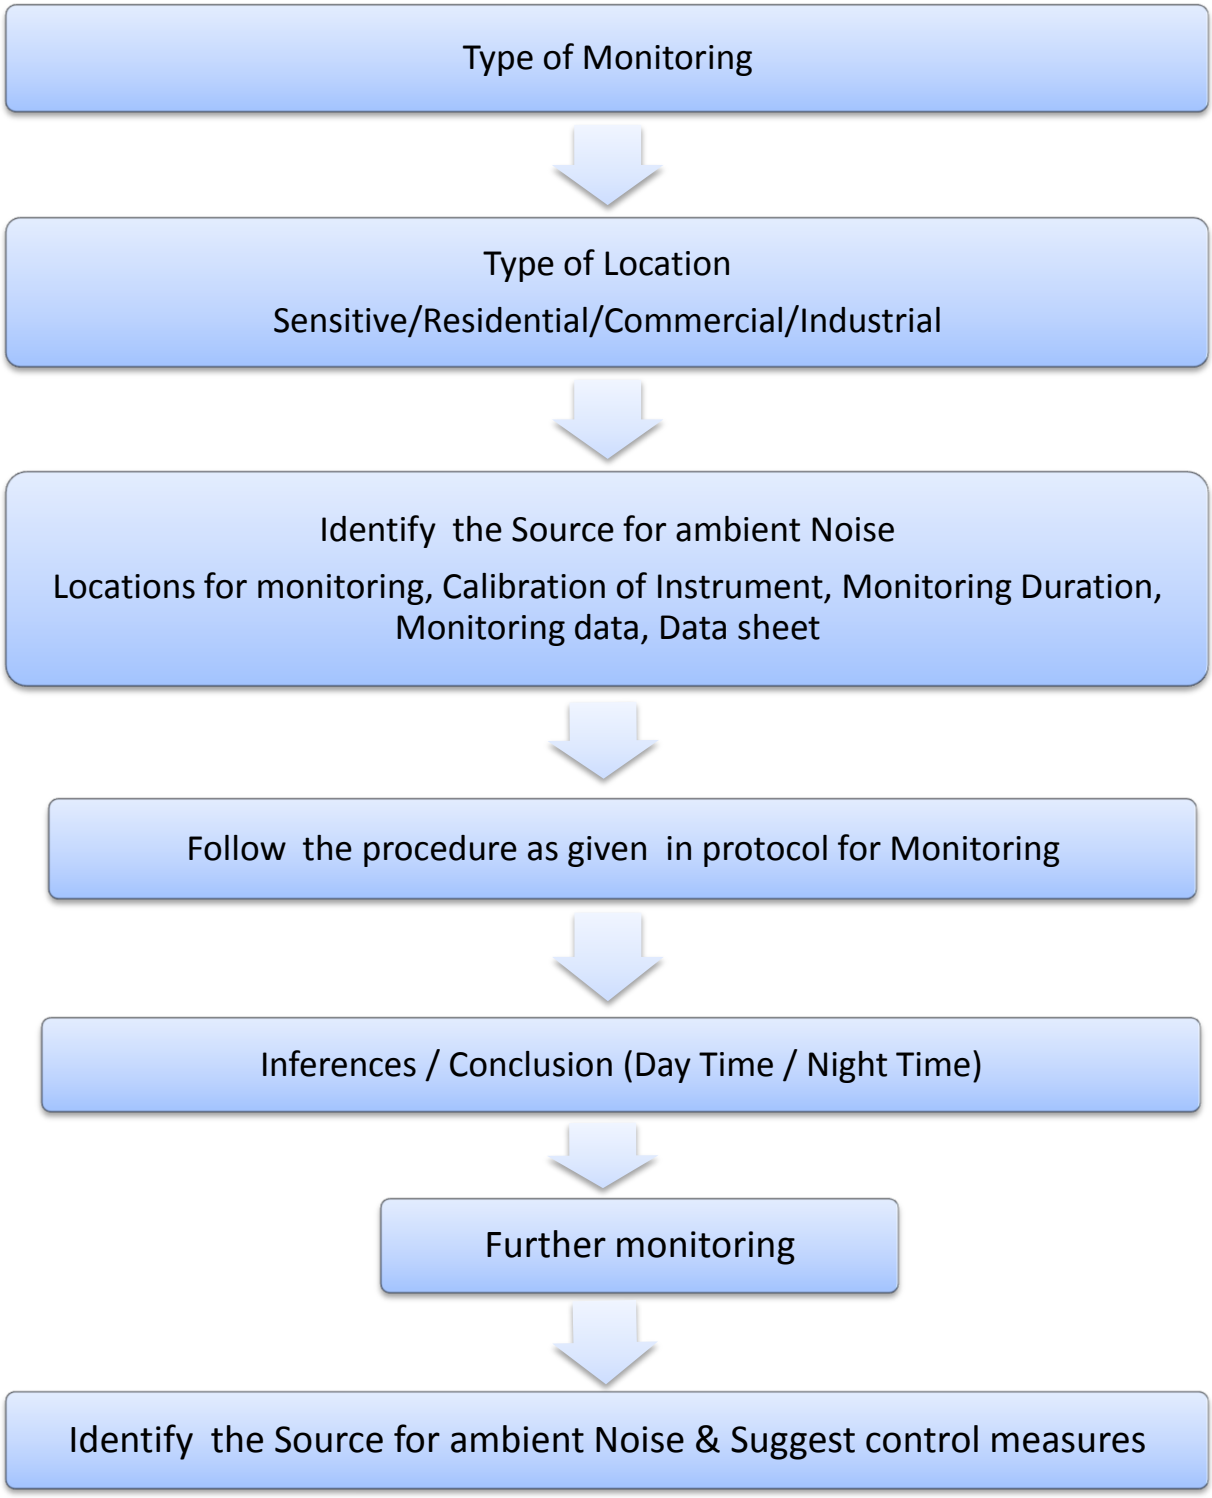

Description of Location:		**Date:**
Noise Level Meter		
Make	:	
Model	:	
Serial No.	:	

Calibration Result of Noise Level Meter		
Calibration	94 dB at 1000 Hz	114 dB at 1000 Hz
Initial		
Final		
Sampling Rate		

S. No.	Time duration	File No.	Sound Parameters (dBA)					
			Leq	L_{10}	L_{50}	L_{90}	L_{min}	L_{max}
1								
2								
3								
4								
5								
6 … …								
Average L equivalent dB(A)								
Monitoring team & signature								

Notes: (1) The method for calculation of average Leq: To convert average of dB(A), each value is to be divided by 10, followed by antilog and finally calculate arithmetic mean. The final value is converted in logarithm followed by multiplication with 10. (2) monitoring must be carried for 75% of the prescribed day time and night time for legal compliance, (3) L_{max} and L_{min} are toe reported hourly basis and (4) L_{50} & L_{90} also recorded to understand the intensity of the noise for further course of action.

Manual Ambient Noise Monitoring Flow Chart

	Leq, Sound Exposure Level (SEL)
Max Hold	MAX
Min Hold	MIN
HOLD/PAUSE	Hold the readings Displays SPL, Min SPL, Max SPL etc.
RUN	“RUN” records instantaneous readings and convert them to Leq
Alarm function	“OVER” is when input is more than upper limit of range.
	“UNDER” is when input is less than lower limit of range.
Analog output	AC/DC outputs from earphone outlet AC=1Vrms , DC=10mV/dB
Memory	Instrument has built in memory, record the data instantaneously and sends to the printer
Data recording:	Meter memory **2,62,100 readings** 1,31,000 readings 65,500 readings PC monitors and records in real- time, each 15,000 readings will be saved one time automatically.
Auto power off	Meter automatically shuts down after approximately 15 minutes inactivity.
Power supply	One rechargeable 9V battery
Battery life	at least 30 hours
Operating conditions	-10~50℃; 5%RH ~ 95%RH

Storage conditions	−20℃ ~ 60℃; 5%RH ~ 95%RH
Dimension (L*W*H)	252 * 66 *33 mm
Weight:	262g

Note: In the Recording mode, the instrument can't be shut down directly. Direct Power OFF in recording mode may result in data errors.

4. Meter description

① **Windscreen microphone cover**

② **Metal Rod**

③ **LCD display**

④ **Frequency weighting A/C selection key**

⑤ **Backlight ON/OFF key**

⑥ **HOLD key**

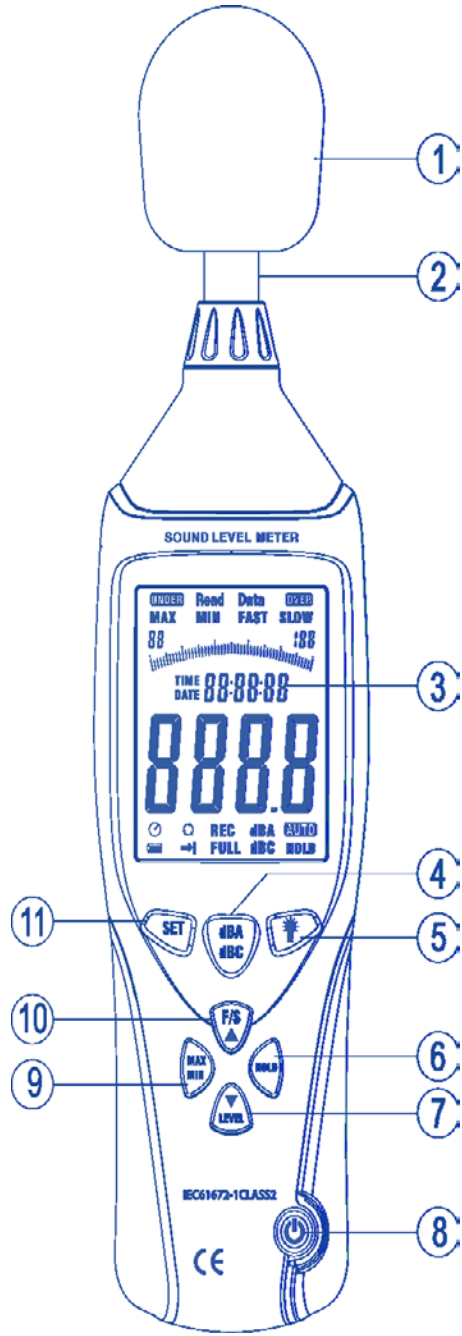

⑦ **Range selection key**

⑧ **Power ON/OFF key**

⑨ **MAX/MIN key**

⑩ **Response time selection key**

⑪ **SET key**

⑫ **Potentiometer calibration**

⑬ **AC/DC sign al output earphone outlet**

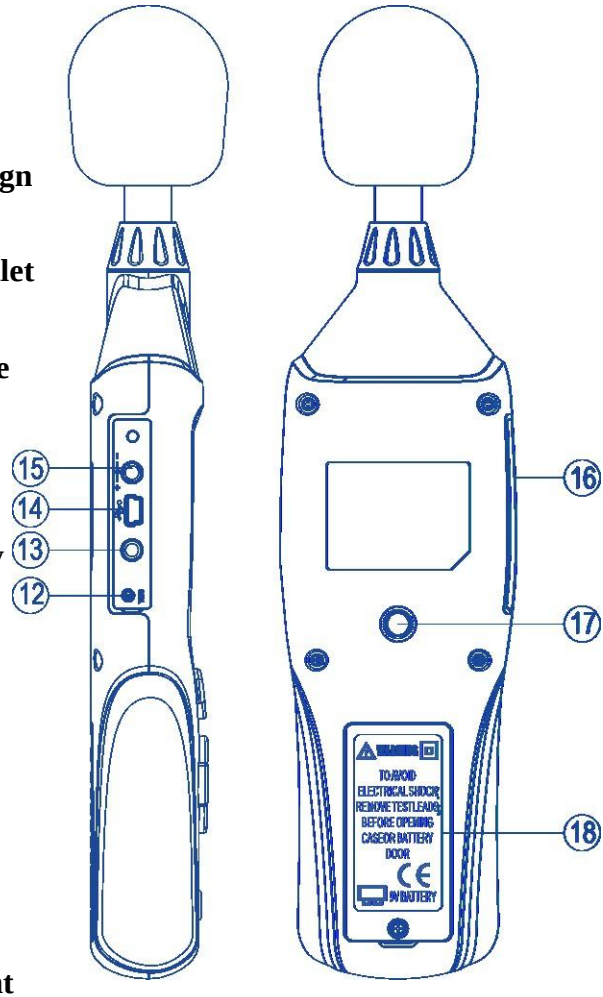

⑭ **USB interface**

⑮ **External DC 9V power supply terminal**

⑯ **Dust-proof cover**

⑰ **Tripod nut**

⑱ **Battery Compartment**

5. LCD display description

Icon	Function
LCD	4 digits
MAX	Maximum data hold
MIN	Minimum data hold
OVER	Input value is more than upper limit of range.
UNDER	Input value is less than lower limit of range.
FAST	Fast response
SLOW	Slow response
dBA	A frequency weighting (the noise that human ear can hear)
dBC	C frequency weighting (response to machine monitor)
30 ~140	Range display
TIME	Display current time (Hour-Minute-Second)
DATE	Display current date (Year-Month-Day)
AUTO	Auto level range selection
HOLD	Data hold function
RUN	Data recording
Full	Memory is up to limitation
	Auto power off
	Low battery indication
	Real-time communication icon: it flashes when the meter is connected with PC to achieve data transmission.

MINISTRY OF ENVIRONMENT & FORESTS

The Noise Pollution (Regulation and Control) Rules, 2000;

(As amended till 10/08/2017 vide S.O. 2555(E))

S.O.123 (E).- Whereas the increasing ambient noise levels in public places from various sources, inter-alia, industrial activity, construction activity, *(fire crackers, sound producing instruments)*[1], generator sets, loud speakers, public address systems, music systems, vehicular horns and other mechanical devices have deleterious effects on human health and the psychological well being of the people, it is considered necessary to regulate and control noise producing and generating sources with the objective of maintaining the ambient air quality standards in respect of noise;

Whereas a draft of Noise Pollution (Control and Regulation) Rules, 1999 was published under the notification of the Government of India in the Ministry of Environment and Forests vide number S.O. 528 (E) dated the 28th June, 1999 inviting objections and suggestions from all the persons likely to be affected thereby, before the expiry of the period of sixty days from the date on which the copies of the Gazette containing the said notification are made available to the public-,

And whereas copies of the said Gazette were made available to the public on the 1st day of July, 1999.

And whereas the objections and suggestions received from the public in respect of the said draft rules have been duly considered by the Central Government-,

Now therefore, In exercise of the powers conferred by clause (ii) of sub-section (2) of section 3, sub-section (1) and clause (b) of sub-section (2) of section 6 and section 25 of the Environment (Protection) Act, 1986 (29 of 1986) read with rule 5 of the Environment (Protection) Rules, 1986, the Central Government hereby makes the following rules for the regulation and control of noise producing and generating sources, namely:

The Noise Pollution (Regulation and Control) Rules, 2000

1. Short title and commencement.

(1) These rules may be called the Noise Pollution (Regulation and Control) Rules, 2000.

(2) They shall come into force on the date of their publication in the Official Gazette.

2. Definitions.- In these rules, unless the context otherwise requires,

(a) "Act" means the Environment (Protection) Act, 1986 (29 of 1986);

(b) "area/zone" means all areas which fall in either of the four categories given in the Schedule annexed to these rules;

---

1. In the said rules, in the opening para/portion after the words 'construction activity" additional words as at **(1)** above have been inserted vide **S.O.50 dated 11/01/2010.**

[(c) "authority" means and includes any authority or officer authorised by the Central Government, or as the case may be, the State Government in accordance with the laws in force and includes a District Magistrate, Police Commissioner, or any other officer not below the rank of the Deputy Superintendent of Police designated for the maintenance of the ambient air quality standards in respect of noise under any law for the time being in force;][2]

[(d) "court" means a governmental body consisting of one or more judges who sit to adjudicate disputes and administer justice and includes any court of law presided over by a judge, judges or a magistrate and acting as a tribunal in civil, taxation and criminal cases;

(e) "educational institution" means a school, seminary, college, university, professional academies, training institutes or other educational establishment, not necessarily a chartered institution and includes not only buildings, but also all grounds necessary for the accomplishment of the full scope of educational instruction, including those things essential to mental, moral and physical development;

(f) "hospital" means an institution for the reception and care of sick, wounded, infirm or aged persons, and includes government or private hospitals, nursing homes and clinics;][3]

[(g) "person" shall include any company or association or body of individuals, whether incorporated or not;][4]

(h) "State Government" in relation to a Union territory means the Administrator thereof appointed under article 239 of the Constitution.

[(i) *"public place" means any place to which the public have access, whether as of right or not, and includes auditorium, hotels, public waiting rooms, convention centres, public offices, shopping malls, cinema halls, educational institutions, libraries, open grounds and the like which are visited by general public; and*

(j) "night time" means the period between 10.00 p.m. and 6.00 a.m.][6]

3. <u>Ambient air quality standards in respect of noise for different areas/zones.</u>

(1) The ambient air quality standards in respect of noise for different areas/zones shall be such as specified in the Schedule annexed to these rules.

(2) The State Government (shall categorize)[5] the areas into industrial, commercial, residential or silence areas/zones for the purpose of implementation of noise standards for different areas.

---

2. In rule 2 for clause "*(c) "authority" means any authority or officer authorized by the Central Government, or as the case may be, the State Government in accordance with the laws in force and includes a District Magistrate, Police Commissioner, or any other officer designated for the maintenance of the ambient air quality standards in respect of noise under any law for the time being in force;"* has been substituted with a new clause as at **(2)** above vide **S.O.1046 (E) dated 22/11/2000.**

3. In rule 2, after Clause (c) new clause (d) (e) & (f) have been inserted as at **(3)** above vide **S.O.1046 dated 22/11/2000.**

4. In rule 2, clause (d) & (e) have been re-numbered as clauses (g) and (h) respectively and for (g) as so renumbered "*(g) "person" in relation to any factory or premises means a person or occupier or his agent, who has control over the affairs of the factory or premises;"* has been substituted as at **(4)** above **vide S.O. 1046 (E) dated 22/11/2000.**

5. In sub-rule (2) of rule 3 of the said rules, for the words "may categorize", the words "shall categorize" has been substituted as at **(5)** above vide **S.O.1046 dated 22/11/2000**

6. In the said rules, in rule 2, after clause (h), the following clauses (i) & (j) have been inserted as at **(6)** above vide **S.O. 50 dated 11/01/2010.**

(3) The State Government shall take measures for abatement of noise including noise emanating from vehicular movements, *(blowing of horns, bursting of sound emitting fire crackers, use of loud speakers or public address system and sound producing instruments*)[9] and ensure that the existing noise levels do not exceed the ambient air quality standards specified under these rules.

(4) All development authorities, local bodies and other concerned authorities while planning developmental activity or carrying out functions relating to town and country planning shall take into consideration all aspects of noise pollution as a parameter of quality of life to avoid noise menace and to achieve the objective of maintaining the ambient air quality standards in respect of noise.

(5) An area comprising not less than 100 metres around hospitals, educational institutions and courts may be declared (by the State Government)[14] as silence area/zone for the purpose of these rules.

{Provided that, an area shall not fall under silence area or zone category, unless notified by the State Government in accordance with sub-rule(2).}[14]

4. Responsibility as to enforcement of noise pollution control measures.

(1) The noise levels in any area/zone shall not exceed the ambient air quality standards in respect of noise as specified in the Schedule.

(2) The authority shall be responsible for the enforcement of noise pollution control measures and the due compliance of the ambient air quality standards in respect of noise.

[(3) The respective State Pollution Control Boards or Pollution Control Committees in consultation with the Central Pollution Control Board shall collect, compile and publish technical and statistical data relating to noise pollution and measures devised for its effective prevention, control and abatement.][8]

5. Restrictions on the use of loud speakers/public address system *(and sound producing instruments)*.[10]

(1) A loud speaker or a public address system shall not be used except after obtaining written permission from the authority.

[(2) A loud speaker or a public address system or any sound producing instrument or a musical instrument or a sound amplifier shall not be used at night time except in closed premises for communication within, like auditoria, conference rooms, community halls or during a public emergency.][11]

[(3) Notwithstanding anything contained in sub-rule (2), the State Government may subject to such terms and conditions as are necessary to reduce noise pollution, permit use of loud speakers or public address systems and the like during night hours (between 10.00 p.m. to 12.00 midnight) on or during any cultural, religious or festive occasion of a limited duration not exceeding fifteen days in all during a calender year and the concerned State Government or District Authority in respect of its jurisdiction as authorized by the concerned State Government shall generally specify in advance, the number and particulars of the days on which such exemption should be operative.

Explanation.- For the purposes of this sub-rule, the expressions-

(i) *"festive occasion" shall include any National function or State function as notified by the Central Government or State Government; and*

(ii) "National function or State function" shall include"-

(A) Republic Day;
(B) Independence Day;
(C) State Day; or
(D) such other day as notified by the Central Government or the State Government.][15]

---

7. In rule 5 after sub-rule (2) new rule 3 has been inserted as at **(7)** above vide **S.O. 1088 (E) dated 11/10/2002.**

8. In rule 4 after sub-rule (2) new sub-rule (3) has been inserted as at **(8)** above vide **S.O. 1569 (E) dated 19/09/2006.**

9. In the said rules, in rule 3, in sub-rule (3) after the words "noise emanating from vehicular movements, the additional words as at **(9)** above have been inserted vide **S.O. 50 dated 11/01/2010.**

10. In rule 5, for heading after the words "public address system" new words has been inserted as at (**10)** vide **S.O.50 dated 11/01/2010.**

11. In rule 5, sub-rule (2) has been substituted by new sub-rule as at **(11)** above vide **S.O. 50 dated 11/01/2010.**

12. In rule 5, in sub-rule (3) for the words "public address systems during night hours" has been substituted by new words as at **(12)** above vide **S.O. 50 dated 11/01/2010.**

13. In rule 5, in sub-rule (3) after the words "a limited duration……a calendar year" new sentence has been added as at **(13)** above vide **S.O. 50 dated 11/01/2010.**

14. In rule 3, in sub-rule (5) after the words "may be declared" the words "by the State Government" shall be inserted and there after new proviso is inserted as at (a) above vide **S.O. 2555 dated 10/08/2017.**

15. In rule 5, for the existing sub-rule *"(3) Not withstanding anything contained in sub-rule (2), the State Government may subject to such items and conditions as are necessary to reduce noise pollution permit use of loudspeakers or (public address system and the like during night hours)*[12] *(between 10.00 p.m. to 12.00 midnight) on or during any cultural or religious festive occasion of a limited duration not exceeding fifteen days in all during a calendar year.]*[7] **(***The concerned State Government shall generally specify in advance, the number and particulars of the days on which such exemption would be operative)*[13]*."* a new para is inserted as at (b) above vide **S.O. 2555 dated 10/08/2017.**

[*(4) The noise level at the boundary of the public place, where loudspeaker or public address system or any other noise source is being used shall not exceed 10 dB (A) above the ambient noise standards for the area or 75 dB (A) whichever is lower;*

(5) The peripheral noise level of a privately owned sound system or a sound producing instrument shall not, at the boundary of the private place, exceed by more than 5dB (A) the ambient noise standards specified for the area on which it is used.][16]

[5A. <u>Restrictions on the use of horns, sound emitting construction equipments and bursting of fire crackers.</u>

(1) No horn shall be used in silence zones or during night time in residential areas except during a public emergency.

(2) Sound emitting fire crackers shall not be burst in silence zone or during night time.

(3) *Sound emitting construction equipments shall not be used or operated during night time in residential areas and silence zones.]*[17]

6. <u>Consequences of any violation in silence zone/area.</u>

Whoever, in any place covered under the silence zone/area commits any of the following offence, he shall be liable for penalty under the provisions of the Act:

(i) whoever, plays any music or uses any sound amplifiers,

(ii) whoever, beats a drum or tom-tom or blows a horn either musical or pressure, or trumpet or beats or sounds any instrument, or

(iii) whoever, exhibits any mimetic, musical or other performances of a nature to attract crowds.

[*(iv) whoever, bursts sound emitting fire crackers; or*

(v) whoever, uses a loud speaker or a public address system.][18]

7. <u>Complaints to be made to the authority.</u>

(1) A person may, if the noise level exceeds the ambient noise standards by 10 dB(A) or more given in the corresponding columns against any area/zone *(or, if there is a violation of any provision of these rules regarding restrictions imposed during night time,)*[19] make a complaint to the authority.

(2) The authority shall act on the complaint and take action against the violator in accordance with the provisions of these rules and any other law in force.

---

16. In rule 5, after sub-rule (3) new sub-rules (4) & (5) have been inserted as at **(16)** above vide **S.O. 50 dated 11/01/2010.**
17. In the said rules, after rule 5, new rule 5A has been inserted as at **(17)** above vide **S.O.50 dated 11/01/2010.**
18. In the said rules, in rule 6, after the clause (iii) new clauses (iv) & (v), as at **(18)** above have been inserted vide **S.O. 50 dated 11/01/2010.**
19. In the said rules, in rule 7 in sub-rule (1), after the words "in corresponding columns…… & ending with……area/zone", new sentence as at **(19)** above has been inserted vide **S.O.50 dated 11/01/2010.**

8. <u>Power to prohibit etc. continuance of music sound or noise</u>.

(1) If the authority is satisfied from the report of an officer in-charge of a police station or other information received by him (including from the complainant)[20] that it is necessary to do so in order to prevent annoyance, disturbance, discomfort or injury or risk of annoyance, disturbance, discomfort or injury to the public or to any person who dwell or occupy property on the vicinity, he may, by a written order issue such directions as he may consider necessary to any person for preventing, prohibiting, controlling or regulating:

(a) the incidence or continuance in or upon any premises of -

(i) any vocal or instrumental music,

(ii) sounds caused by playing, beating, clashing, blowing or use in any manner whatsoever of any instrument including loudspeakers, *(public address systems, horn, construction equipment, appliance or apparatus)*[22] or contrivance which is capable of producing or re-producing sound, or

[*(iii) sound caused by bursting of sound emitting fire crackers, or*][23]

(b) the carrying on in or upon, any premises of any trade, avocation or operation or process resulting in or attended with noise.

(2) The authority empowered under sub-rule (1) may, either on its own motion, or on the application of any person aggrieved by an order made under sub-rule (1), either rescind, modify or alter any such order:

Provided that before any such application is disposed of, the said authority shall afford to the applicant (and to the original complainant, as the case may be)[21] an opportunity of appearing before it either in person or by a person representing him and showing cause against the order and shall, if it rejects any such application either wholly or in part, record its reasons for such rejection.

---

20. In rule 8, in sub-rule (1) after the words *"received by him"* the words *" including from the complainant"* has been inserted as at **(18)** above vide **S.O. 1569 (E) dated 19/09/2006**

21. In rule 8, in sub-rule (2) in the proviso, after the words *"afford to the applicant"*, the words *"and to the original complainant, as the case may be",* has been inserted as at **(19)** above vide **S.O. 1569 (E) dated 19/09/2006**

22. In the said rules, in rule 8, in sub-rule (1), in clause (a)in sub-clause (ii), for the words, "public address systems, appliance or apparatus" new words have been substituted as at **(20)** above vide **S.O. 50 dated 11/01/2010.**

23. In the said rules, in rule 8, in sub-rule (1), in clause (a)after sub-clause (ii) new sub-clause (iii) as at **(21)** above has been inserted vide **S.O. 50 dated 11/01/2010.**

SCHEDULE
(see rule 3(l) and 4(l)

Ambient Air Quality Standards in respect of Noise

Area Code	Category of Area/Zone	Limits in dB(A) Leq *	
		Day Time	NightTime
(A)	Industrial area	75	70
(B)	Commercial area	65	55
(C)	Residential area	55	45
(D)	Silence Zone	50	40

Note:-

1. Day time shall mean from 6.00 a.m. to 10.00 p.m.

2. Night time shall mean from 10.00 p.m. to 6.00 a.m.

3. Mixed categories of areas may be declared as one of the four above mentioned categories by the competent authority.

*dB(A) Leq denotes the time weighted average of the level of sound in decibels on scale A which is relatable to human hearing.

A "decibel" is a unit in which noise is measured.

"A", in dB(A) Leq, denotes the frequency weighting in the measurement of noise and corresponds to frequency response characteristics of the human ear.

Leq : It is an energy mean of the noise level, over a specified period.

---

24. In the schedule to the said rules, for the note 3 and the entries thereto. *"Silence zone is defined as an area comprising not less than 100 metres around hospitals, educational institutions and courts. The silence zones are zones which are declared as such by the competent authority."* has been substituted as at **(22)** above vide **S.O. 1046 (E) dated 22/11/2000.**

25. In the schedule to the said rules, in the note, paragraph *("3. Silence zone is an area comprising not less than 100 meters around hospitals, educational institutions and courts, religious places or any other area which is declared as such by the competent authority ")[22]"* has been omitted as may be seen above vide **S.O. 2555 (E) dated 10/08/2017.**

****

Note: **The Principal rules were published in the Gazette of India vide Notification number S.O. 123(E) dated 14 February, 2000 and subsequently amended vide**

1) S.O.1046(E) dated 22/11/2000;

2) S.O.1088(E) dated 11/10/2002;

3) S.O.1569(E) dated 19/09/2006;

4) S.O.50(E) dated 11/01/2010;

5) S.O.2555(E) dated 10/08/2017;

Pronounced on : 30.08.2024

==========

JUDGMENT

1. This Original Application has been filed with the prayers that a direction be issued to the respondents to implement adequate noise control and monitoring measures during Ganesh festival to mitigate noise pollution in Pune city, including implementation of CPCB Compensation Regime; the District Collector, Pune be directed not to issue permission for over 1 pair of loud-speakers system per Ganesh Mandal/Ganesh Devotee group and not to issue permission in favour of established violators of the Noise Rules, 2000 and cancel permission if it is already issued to the violators; a direction may be issued to respondent No.4-PMC to cancel the license granted on temporary basis for the pandals to be set up for Ganesh Mandals, if found to be in violation of Noise Rules, 2000 and a direction may be issued to respondent No.3 – MPCB to release noise monitoring data collected and compiled during noise monitoring undertaken during Ganesh festivals from 2021 to 2023.

2. Looking to the urgency of the matter because Ganesh festival is going to commence from 07.09.2024, we had issued notices only to respondent No.2 – District Collector, Pune and respondent No.3 – MPCB, who have put in their appearance through their respective counsel and who have submitted their reply-affidavits and we are dispensing notices to be issued to respondent No.1 – Secretary, Environment Department, State of Maharashtra, respondent No.4 – Pune Municipal Corporation and respondent No.5 – Commissioner of Police, Pune City.

3. The facts of the case are that the applicant has described the decibel levels provided in Schedule appended to the Noise (Prevention and Control of Pollution) Rules, 2000 (hereinafter referred to as “Noise Rules, 2000), as follows :

Zone	Limits in db(A)	
	Day-Time	Night-Time
Industrial area	75	70
Commercial area	65	55
Residential area	55	45
Silence Zone	50	40

4. It is stated in the application that above limits of decibel levels have been violated routinely by various private loud speakers/music systems, which comprise of multi-speaker set-ups installed during Ganesh festival. The respondent authorities have repeatedly failed in regulating such speaker systems and ensuring that the mandated noise levels are enforced. The chart, which has been provided by the applicant under paragraph 9 of the application, would show that during the years 2018-2020, there was complete absence of regulation of noise pollution in Pune city during Ganesh festival and that the authorities are unable to ensure compliance of the provisions of Rule 3(3) and Rule 4(2) of the Noise Rules, 2000, which are quoted herein-below:

> *"3(3) The State Government shall take measures for abatement of noise including noise emanating from vehicular movements, blowing of horns, bursting of sound emitting fire crackers, use of loud speakers of public address system and sound producing instruments and ensure that the existing noise levels do not exceed the ambient air quality standards specified under these rules.*
>
> *4(2) The authority shall be responsible for the enforcement of noise pollution control measures and the due compliance of the ambient air quality standards in respect of noise."*

5. Further it is submitted by the applicant that College of Engineering, Pune (COEP) has conducted an independent study by

the name “COEP Sound Level Report 2023” dated 29.08.2024, wherein it is observed that in 2023, Ganesh festivals celebrations have registered an average sound level of 105.2 decibels on the final day of Ganesh festival at Laxmi Road, Pune. Noise levels in different parts of the city have been noted in paragraph No. 14, all exceeding permissible limits of decibel levels.

6. It is further mentioned in the application that it is noticed that massive walls of loud-speakers are installed along roadsides and at road intersections by private Mandals and Ganesh Devotee groups, permissions for which are granted by the District Collector, Pune under Rule 5 of the Noise Rules, 2000. Besides that, various private loud-speakers are operated by Ganesh Mandals and Ganesh Devotee groups, including residential societies and they are routinely flouting the mandated ambient noise levels with impunity every year and yet, the authorities are continuing to accord permissions to use multiple loud speakers under Rule 5, which amounts to violation of the orders of the Hon’ble High Court of Bombay. Reliance is place by the applicant on the Judgment dated 16.08.2016 delivered by the Hon’ble High Court of Bombay in ***Public Interest Litigation (PIL) No.173 of 2010 (Dr. Mahesh Vijay Bedekar V. State of Maharashtra and Ors.)***, wherein following directions have been issued:

> *“i) All interim directions issued by this Court from time to time in Public Interest Litigation No.173 of 2010 and other Petitions in the group which are not inconsistent with this final judgment and order shall continue to operate notwithstanding disposal of these Petitions. We make it clear that as copies of the judgment which was dictated in open Court may not be available immediately considering length of the judgment, all concerned shall continue to be bound by all the interim directions which have not been specifically modified and therefore, all the authorities shall ensure that the said directions are complied with during the religious festival which are likely to be celebrated shortly;*
>
> *ii) All concerned authorities shall ensure that a loudspeaker or a public address system shall not be used except after obtaining written permission from the authority contemplated by the Noise Pollution Rules in accordance with SubRule (1) of Rule*

5 in addition to the license required to be obtained under the Rules, if any, framed under the Maharashtra Police Act of 1951;

iii) Appropriate redress mechanism shall be created by all concerned in all Municipal areas for receiving complaints in accordance with Rule 7 of the Noise Pollution Rules and also for reporting breach of other Rules in the Noise Pollution Rules. For the reasons which we have recorded above, the authority under the Noise Pollution Rules, the Police Officers and the licensing authorities under the said Act of 1951 are under an obligation to entertain every complaint alleging the breach of the Noise Pollution Rules including even anonymous complaints. Therefore, toll free number shall be provided by the State Government in every town or city having Municipal Corporation or Municipal Council to enable the authorities to receive complaints about the breaches of Rules in addition to usual and conventional modes. A facility shall be also made available to submit complaint by email, by SMS and by Whatsapp message. A register shall be maintained of the complaints received on toll free number as well as by all other modes and a complaint number shall be provided to the complainants. The complaints register shall also incorporate actions taken on the basis of the complaints. Moreover, action taken report shall be displayed on the website of the District Collector/ Municipal Corporations. The complaints shall be also received on Telephone No.100. The State government shall comply with these directions within two months from today;

iv) On receiving information as provided in Sub-Rule (1) of Rule 8 of the Noise Pollution Rules, the authority concerned shall immediately apply its mind on the question of passing an order under SubRule (1) of Rule 8. The authority will have to also consider of immediately issuing an order of suspension of license/permission granted to use loudspeaker or public address system. Immediately, on receipt of a complaint in any form, Appropriate police officer shall be deputed to the concerned site with a necessary machine/equipment to test whether noise level exceeds the ambient noise standards. Even if Police receive a complaint, such officer shall be accordingly deputed. The officer shall immediately report to the authority to enable the authority to take action. If the police officer notices that public address system or loudspeaker is being used without license/permission, he shall forthwith ensure that the use of the loudspeaker or public address system is stopped. If the officer finds that the loudspeaker or public address system is used by the license holder during night hours on any day which is not specified in Sub-Rule (3) of Rule 5 of Noise Pollution Rules, the officer concerned shall immediately ensure that the use of loudspeaker or public address system is stopped. The police officer shall forthwith stop use of loudspeakers and public address systems in silence zones;

v) The State Government shall notify the names and addresses and all particulars such as contact numbers of the authorities under the Noise Pollution Rules and the Rules framed under the said Act of 1951 within the limits of all the Municipal

Corporations and Municipal Councils. Wide publicity shall be given to the said particulars in local newspapers, on local cable networks and on the website of the District Collector as well as the concerned Municipal Corporations. The same shall be displayed on the notice Boards of all the Ward Offices. We grant time of two months to the State to give such publicity;

vi) Wide publicity shall be given to the grievance redress mechanism in the manner provided in clause (iv) above before every major festival religious or otherwise;

vii) In addition to the mechanism as provided above, a citizen shall be entitled to lodge oral complaint about the breach of Noise Pollution Rules or Loud Speaker Rules framed in exercise of powers under Section 33 of the said Act of 1951 on telephone number 100. Immediate action shall be taken by the Police on the basis of such oral complaints. The State Government shall direct that the identity of complainants shall not be disclosed to the wrong doers or any other person even if the identity could be established from the telephone number from which complaint is received. We make it clear that anonymous complaints shall be entertained on the telephone number 100. On receiving complaints, a police officer shall immediately visit the spot and shall forthwith stop illegal use of public address system or loudspeaker or a musical instrument; viii) On receiving complaint in any form about the breach of Noise Pollution Rules, the Police Officer visiting the site shall record noise level by use of requisite meter which shall be recorded in a panchanama. Adequate number of Machines/equipment to measure noise level shall be always made available by the State. At present total 1853 meters shall be immediately provided. The meters shall be maintained properly and sufficient funds shall be allocated for repairs/maintenance of meters;

ix) Well in advance before the commencement of festivals such as Ganesh Utsav, Navratri and Dahi Handi, the Police Commissioners /District Magistrates/ Municipal Commissioners shall convene a meeting of all major organizations holding such functions and appraise them of the provisions of law and the consequences of breach of the provisions of law. Even the local political leaders shall be invited to attend the meetings along with members of Mohalla Committee, if any. The meetings shall be to impress upon everyone to abide by the Noise Pollution Rules and the relevant provisions of statutes concerning regulation of construction of temporary booths/pandals on streets;

x) We direct that the authorities under the Noise Pollution Rules and the authorities under the Rules relating to grant of licenses framed under the said Act of 1951 shall verify before the grant of license/ permission to use loudspeakers or public address systems whether the applicant has made any breach of any Rules or license conditions when similar license/ permission was earlier granted to such Applicant during particular festival at a particular place earlier. If it is found that the applicant has made any breach of any Rules or license conditions when license

was granted earlier, the authority shall be entitled to refuse the license/ permission;

xi) The State Government shall issue a direction to the authorities under the Noise Pollution Rules that they shall take all possible steps to ensure due compliance with the Noise Pollution Rules. The directions of this Court shall be communicated to all such authorities and all police stations within Municipal Corporation/Council limits. Compliance with these directions shall be made by the State Government within two months;

xii) We direct that the discretionary powers under the section 234 of the said Act of 1949 and Section 317 of the said Act of 1888 to grant permission to erect temporary booths or similar structures on streets(including footpaths/footways) for holding of festivals/ceremonies shall be exercised by the Commissioners subject to the law laid down by this Court in this Judgment and Order. We also direct the Municipal Corporations to take immediate action of demolition in respect of the temporary booths/ structures erected on public streets without obtaining the requisite permissions. Such action shall be taken even before the religious festivals/functions commence. We also direct that whenever such permissions are granted, a condition shall be incorporated therein of prominently displaying a copy of permission and the material particulars of such permission on the temporary booths or structures covered by Section 234 of the said Act of 1949 and Section 317 of the said Act of 1888. Any booth or pandal which does not display such permission shall be demolished/removed; xiii) While exercising the power under section 234 of the said Act of 1949 and Section 317 of the said Act of 1888, the Commissioners of the Municipal Corporations shall be bound to ensure that the fundamental right of citizens to have roads and footpaths and/or footways in a reasonable condition and free of obstructions which is guaranteed by Article 21 of the Constitution is not violated;

xiv) We direct the District Collectors of all the Districts in the State to constitute a team of Revenue Officers not below the rank of Tahsildars for each Municipal Corporation area. The members of the team shall regularly visit the areas within the limits of the Municipal Corporations for a period of 7 days before the date of commencement of the major religious festivals and during the festivals to ascertain whether any temporary booths/structures have been erected on public streets and footpaths/footways without obtaining permission of the Municipal Commissioners. Any such structure which does not display the the permission and material details thereof shall be deemed to be illegal. The members of the team shall be under an obligation to immediately bring to the notice of the concerned Municipal officers/designated officers, the temporary booths erected on streets and footpaths or footways without obtaining permission of the Commissioners or in breach of the conditions in permissions. The Municipal Authorities shall forthwith take action of removal on the basis of such information. Even the Municipal Corporations shall constitute a team of Officers who will carry out the same task

which is entrusted to the Revenue Officers as above. These directions shall be implemented immediately;

xv) We direct all the Municipal Corporations to create a grievance redress mechanism for receiving complaints as regards illegal pandals or booths erected on streets on par with the grievance redress mechanism ordered to be created for dealing with complaints regarding breach of the Noise Pollution Rules. The grievance redress mechanism shall be created for receiving complaints by all possible modes. The Municipal Corporations shall nominate officers in each Wards who shall be responsible for dealing with the complaints. Compliance with these directions shall be made within one month;

xvi) If any such illegal activities involve public nuisance covered

by section 133 of the Code of Criminal Procedure, 1973, necessary action shall be taken in accordance with law by all the concerned authorities;

xvii) We make it clear that this Judgment and Order as well as the earlier orders shall apply to festivals/ceremonies of all the religions and sects. This Judgment and Order shall apply to the places of worship of all the religions;

xviii) We direct the State Government to issue directions to all the District Collectors and Municipal Corporations in the light of the law laid down by this Court in this Judgment and Order. Compliance shall be made within a period of two months from today;

xix) In the event, the Municipal Commissioners or the Municipal

Staff or the members of the team constituted by the Collectors need police help and protection for the implementation of this Judgment and Order or the implementation of the provisions of law, on an application being made by them, all concerned local police station shall forthwith provide adequate police protection to them;

xx) Before every major religious or cultural festivals, the State and the Municipal Corporations shall give adequate publicity to the grievance redress mechanism available for filing Complaints regarding the breach of the Noise Pollution Rules and illegal pandals and booths on streets and footways. Adequate publicity shall be given to the availability of the grievance redress mechanism with all the particulars in leading daily news papers as well as on television channels. Detailed notices shall be put up as

regards availability of the said mechanism in all police stations within the Corporation limits and in Ward Offices of the Municipal Corporations and in the offices of the Revenue Officers such as Divisional Commissioner, Collector, Additional Collector, Deputy Collector, Tahasildar etc.;

xxi) Whenever a complaint is received by the authority as regards violation of the Noise Pollution Rules, the same shall be forwarded to the Commissioner and/or the Superintendent of Police as the case may be with a view to enable the said

authority to take action under section 38 of the Maharashtra Police Act, 1951;

xxii) In case of any complaint received by the authority as regards noncompliance with the Noise Pollution Rules or breach of the Noise Pollution Rules, the concerned authority shall set criminal law in motion by taking recourse to clause (b) of Section 19 of the Environment Protection Act. If non-violation or breach is of a very serious nature, the authority shall bring the same to the notice of the District Collector or the Regional Officers of the Maharashtra Pollution Control Board who have been authorized by the Central Government under clause (a) of Section 19 of the Environment Protection Act so that criminal law can be set in motion by the said authorities. Needless to add that when such request is made by the authority under the Noise Pollution Rules, the Collector or the Regional Officers of the Maharashtra Pollution Control Board, as the case may be, shall take immediate steps to set criminal law in motion in accordance with law under clause (a) of Section 19 of the Environment Protection Act;

xxiii) As soon as a complaint is received by the Officer Incharge of Police Station regarding noncompliance of the violation of the Noise Pollution Rules, he shall immediately forward the same to the authority under the said Rules. On receiving a report from the Officer incharge of Police Station or on receiving a complaint or receiving information in any other manner, if rule 8 is attracted, the authority shall ensure that immediate order is passed under Rule 8;

xxiv) We direct the State Government to take action against the authorities constituted under the Noise Pollution Rules in the event of their failure to take prompt action as contemplated by Sub-Rule (2) of Rule 7 and Rule 8 of the Noise Pollution Rules as the failure on their part results in to violation of fundamental rights under Article 21 of the Constitution of India. The Municipal Corporation shall take action against the officers who fail to take immediate action of demolition of illegal booths/ pandals on streets. Allowing construction of illegal pandals/ booths on streets also violates the fundamental right of the citizens under Article 21 of the Constitution of India;

xxv) We direct the State Government to issue a direction to all the Planning Authorities requiring compliance with Sub-Rule (4) of Rule 3 while preparing development plans under the provisions of the Maharashtra Regional and Town Planning Act, 1966. As held earlier, under Sub-Rule (4) of Rule 3, all the Development Authorities and local authorities while planning development activity such as preparation of development plan shall take into consideration all aspects of noise pollution as a parameter of quality of life to avoid noise menace and to achieve the objective of maintaining the standards in respect of noise. Needless to add that while sanctioning a development plan and sanctioning a regional plan, the State Government will have to comply with Sub-Rule (4) of Rule 3 of the Noise Pollution Rules;

xxvi) In the light of the mandatory requirement of Sub-Rule (4) of Rule 3, the State Government shall consider of undertaking

exercise of noise mapping in all major cities in the State as availability of data obtained by noise mapping will help all the concerned authorities to discharge their duties under SubRule (4) of Rule 3. We direct the State Government to take appropriate decision on this aspect within a period of two months from the date on which an authenticated copy of the Judgment and Order is produced by the Petitioners or parties to the Petition in the office of the Principal Secretary of the Environment Department of the State Government. While considering this issue, the State Government shall consider the material placed in support of Public Interest Litigation No.85 of 2007;

xxvii) All concerned authorities while considering the applications for grant of permission to erect helipads shall take into consideration, the statements made in the Affidavits filed in Public Interest Litigation No.85 of 2007 by on behalf of the Ministry of Environment and Forest of the Government of India;

xxviii) The State Government shall take all measures in terms of Sub-Rule (3) of Rule 3 of Noise Pollution Rules including measures for abatement of noise including the noise emanating from the vehicular movement and noise emanating from construction activities. The measures proposed to be taken by the State Government in terms of Sub-Rule (3) of Rule 3 shall be placed on record by the State Government by filing Affidavit within a period of three months from today;

xxix) As pointed out earlier, while granting permissions for erection of pandals/temporary booths, a condition shall be imposed that loudspeakers or public address systems shall not be used without obtaining permission under Sub-Rule (1) Rule 5 of the Noise Pollution Rules. A further condition shall be imposed that hoardings, advertisement/banners/flexes etc shall not be displayed on the booths or in the vicinity of booths without obtaining express permission and no digging shall be made on streets, footpath or footway without obtaining a specific permission. A condition shall be also imposed of complying with the Noise Pollution Rules by specifying the prescribed noise levels as laid down in the Schedule;

xxx) As directed by the Apex Court, we direct the State Government to conduct public awareness programmes inviting attention to the members of the public to the Noise Pollution Rules and especially the adverse effects of the noise pollution not only on the human beings but on all living beings. As directed by the Apex Court, the State Government shall issue necessary directions, for holding such public awareness programmes especially in schools and colleges throughout the State so that students are educated on the adverse impact of sound pollution. Such public awareness programmes shall be conducted by the State for the benefit of the members of the public by taking cooperation of television channels, social media, FM channels etc. Such awareness programmes for the benefit of the citizens shall be frequently conducted especially before commencement of major religious and cultural festivals;

xxxi) The notification dated 31st July, 2013 issued by the State Government under Sub-Rule (3) of Rule 5 of the Noise

Pollution Rules is partly illegal as held in Clause (iv) of paragraph 93 above;

xxxii) The Commissioner of Police, Pune shall ensure that all the relevant complaints made by the Petitioner in PIL 161 of 2015 the copies of which are on record of the Petition are dealt with and action taken is communicated to her in writing in one month;

xxxiii) The Applicants in Notice of Motion No.118 of 2010 shall make appropriate representation to the Railways about their grievances which shall be decided in accordance with law within a period of one month from the date on which the representation is made;

xxxiv) All Petitions and Applications/Notices of Motion stand disposed of in terms of the above directions. The reliefs which are not specifically granted shall be deemed to have been refused;

xxxv) Contempt notice issued in Public Interest litigation No.173 of 2010 shall remain pending which shall be placed on board for hearing on 4th October 2016 under the caption of "directions";

xxxvi) For the purposes of considering the implementation of the directions issued by this Court as regards festivals to be held in August and September 2016, the disposed of Petitions shall be listed on 4th October 2016 under the caption of "directions";

xxxvii) For complying with rest of the directions the time of three months has been granted, the Petitions shall be listed on 2nd December 2016 under the caption of "directions".

7. According to the applicant, the directions of the Hon'ble High Court of Bombay, quoted above, have not been complied with so far, which is resulting in serious damage to the hearing and mental agony due to the loud sound created during Ganesh festival celebrations. The applicant has pleaded adherence to the 'Precautionary Principle' in the matter of regulating use of loud speakers during Ganesh festival and has prayed that there is requirement to evolve a protocol for effective control of noise pollution. The details are also given in paragraph No. 32 of the application that the Central Pollution Control Board (CPCB) has laid down Noise Pollution Compensation Regime, relevant extracts of which are as follows:

"Table 1: Enlistment of Violation of Noise Rules and their respective Scale of Compensation

Sr. No.	Violation of Noise Rules	Compensation (in Rupees) to be paid by defaulter		Action to be taken by designated authority
1.	USE OF LOUD SPEAKERS/PUBLIC ADDRESS SYSTEM1 (Clause 5(1)-5(2), 6(i,ii,iii and v)1-5	₹ 10,000		Seizure
4(1)	Violation by Individual/Household	Residential /Commercial/Mixed Zone Silence Zone	Silence Zone	
		1,000	3,000	
4(2)	Violation during Possession	10,000	20,000	Fine to be paid by organizer
	a. Public Rallies b. Barat during marriage Religious event			
4(3)	First Violation within a fixed Premises: a. Function organized by RWA b. Marriage Function c. Public Function d.Institution Function e. Banquet Hall F. Open ground Functions	20,000		Fine to be paid by Organizer and Owner of the place.
4(4)	Second Violation within a fixed Premises: a. Function organized by RWA b. Marriage Function c. Public Function d.Institution Function e. Banquet Hall Open ground Function	40,000		
4(5)	More than Two Violation within a fixed Premises: a. Function organized by RWA b. Marriage Function c. Public Function d.Institution Function e. Banquet Hall Open ground function	1,00,000 and action under EP Act.		Sealing of Premises

"

8. Citing the above, it is submitted by the applicant that the violators must be penalized through imposition of fine as well as seizure of loud speaker systems by the respondents in accordance with the above guidelines/compensation regime, which is not happening as of now. Hence the above prayers are made by the applicant.

9. This matter was first taken up by us on 21.08.2024 when the notices were directed to be issued only to respondent No.2- Office of District Collector Pune and respondent No.3-MPCB to apprise us as to what precautionary measures had been taken at their end to see that the noise level is under control.

10. From the side of respondent No.2- District Collector Pune, no detailed written reply has been filed, but the same has been submitted in the form of letter dated 29.08.2024 addressed to the register of this Tribunal, wherein it is recorded that the District Collector Pune has passed the order dated 14.02.2024, allowing time period for use of sound system from 06 AM to 12 PM (two hours exemption) for the upcoming Ganesh festival for 6 days including immersions day (details of days are 12.09.2024 to 17.09.2024) with certain terms and conditions regarding implementation of Noise Rules, 2000 and thereby fixed the responsibility on the local bodies, Police Department and MPCB to ensure that the said exemption in time period must be followed.

11. From the side of respondent No.3-MPCB through their affidavit dated 28.08.2024, a reference is made of ***PIL No.173 of 2010*** filed by ***Mahesh Bedekar against State of Maharashtra and Ors*** (Supra) before the Hon'ble High Court of Judicature at Bombay and from the Judgment dated 16.08.2016 delivered therein, paragraph Nos. 47, 68, 89 and 94(xxii) have been cited. It is further mentioned in the said affidavit that in para 47 of the said Judgment, it is

recorded that in view of the Government Notification No. S.O. 394(E) issued by the Government of India, the Chairman or the Member Secretary or the regional officer of Maharashtra Pollution Control Board have been authorized in terms of Clause (a) of Section 19 to file complaints. If such officers file complaints, they are not required to give notice of sixty days as provided in Clause (b) of Section 19. In the said Notification, even the Collector is authorized under Clause (a) of Section 19 to set the Criminal Law in motion. It is further stated that Para 68 of the said Judgment provides that the Noise Pollution Rules provide to ensure that as soon as a complaint is received from the Police Officer or otherwise regarding any major violation of the Noise Rules, immediate information thereof shall be provided to the Officers of the MPCB or the District Collector, who have been authorized under Clause (a) of Section 19 to take action. As soon as such information is received, the said Authority will take immediate steps to make a complaint contemplated under Section 19 of the Environment (Protection) Act 1986 ("EP Act", for short) and that it is not necessary for such Authority to follow the requirement of giving sixty days' notice Under Section 19.

12. It is further stated in the said affidavit that Para 89 of the said Judgment records that under Section 38 of the Maharashtra Police Act the power is conferred on the Commissioner of Police (CP) and Superintendent of Police (SP) to order prevention of music sound or noise. On receiving a complaint regarding such nuisance, the officer in charge of the concerned Police Station would immediately report to the CP or the SP to enable the said Authority to take immediate action under Section 38 of the Maharashtra Police Act.

13. Further it is stated that in the affidavit of respondent No.3 that it has been recorded in Para No.94(xxii) of the said Judgment that if any complaint is received by the Authority regarding non-compliance

of Noise Rules or breach thereof, the said Authority shall set Criminal Law into force under Clause (b) of Section 19 of the EP Act.

14. It is further mentioned in the affidavit of the answering respondent that it (MPCB), in exercise of its powers under Section 15 of the Air (Prevention and Control of Pollution) Act, 1981 and other enabling provisions under the EP Act, has authorized the Sub Regional Officers of the Board to exercise the powers of the Regional Officers under the Noise Rules, 2000.

15. Further it is mentioned in the said affidavit that in compliance with the orders of the Hon'ble High Court and on the basis of noise monitoring done and Panchnama drawn by the concerned Police Officers, the answering respondent is filling criminal cases against the violators before various Courts under Section 15 of the EP Act read with the provisions of Noise Rules, 2000.

16. The above affidavit of respondent No.3-MPCB would show only the procedure which is meant to be adopted when violation of Noise Rules, 2000 is reported and how the cognizance would be taken as criminal case, has been described in this affidavit and nothing beyond that. Not even details have been given therein as to how many cases have been registered at their end and how many out of them have been proceeded with. For want of these statistics we cannot appreciate any concrete measures to have been taken by respondent No.3-MPCB to comply the Noise Rules, 2000. We find the reply by way of above affidavit submitted by respondent No.3-MPCB to be inadequate to meet out the reliefs claimed in the present Original Application.

17. From the side of the applicant few suggestions have also been extended in the form of written note submitted on 28.08.2024, wherein it is suggested as follows:

(i) *"The Authorities may permit a maximum of 2 nos. of speakers with 80-100 Watts Power to each Ganesh Mandal or use of loud-speakers in public places.*

(ii) *Additional speakers should only be permitted in exceptional circumstances and the monitoring of such speakers must be in a series with a 20-feet distance between each speaker.*

(iii) *The MPCB must ensure close monitoring and control of Speaker Bass Levels.*

(iv) *Ganesh Mandals and other users of loud-speakers in public places must be directed to ensure that a 15-minute break is taken after every hour of music played.*

(v) *The authorities should ensure a restriction of two Dhol-Tasha Units Per Mandal.*

(vi) *The Authorities must ensure limitation of 25 players per Dhol-Tasha Unit.*

(vii) *Additional regulation of Dhol Tasha must be ensured due to harmful low frequency vibration generated by such instruments."*

18. We have heard the arguments of learned counsel for the parties who are present before us today and perused the record and gone through the Judgment of the Hon'ble High Court of Bombay in PIL 173 of 2010 (supra) which has been relied upon by the applicant.

19. We find that the Hon'ble High Court of Bombay in its Judgment in PIL 173 of 2010, referred to above, has extensively dealt with the Noise Pollution issue in generic terms and all the directions which have been issued therein and have been quoted by us above in paragraph No. 6 of this Judgment, would still be relevant and compliance thereof must have been ensured by all concerned by now, but it is being stated by the applicant that none of these directions have been fully complied with till date, which has resulted in huge noise pollution and causing the people to turn deaf and also in other ailments.

20. Besides repeating the directions issued by the Hon'ble High Court of Bombay in PIL 173 of 2010 we deem it appropriate that we would be issuing separate directions on case specific basis.

21. We have tried to take assistance in respect of Scientific reasons from the renowned websites to ascertain as to how much wattage loud speakers should be allowed to be used and what should be the distance between the speakers, etc. We have tried to give reasons therefor in following manner:

As per https://www.toa.eu/service/soundcheck/calculations-with-loudspeakers -

"Sound pressure level at a defined power

If the sound pressure level is stated in dB, this information can be used in calculations. For instance, a loudspeaker datasheet provides us with information for the characteristic sound pressure level (1 W/1 m): 95 dB. This means that at 1 watt of power, the loudspeaker generates a sound pressure level of 95 dB at a distance of 1 meter. The following table indicates by how many decibels the sound pressure level of the loudspeakers increases at a given power.

Power (W)	1	2	5	6	10	15	20	30	50	100
Increase in the sound pressure level (dB)	0	3	7	8	10	12	13	15	17	20

The table shows that at 6 watts, you need to add 8 dB to the 95 dB. Consequently, at 6 watts of power we obtain 103 dB SPL at a distance of 1 metre. There is also a mathematical formula for this calculation that yields the same result.

p1 = pn + 10 x log (P)

p1: Sound pressure level (dB) pn: Characteristic sound pressure level (dB) P: supplied power (W)

Each doubling of power gives us an additional 3 dB of SPL.

Sound pressure level at a defined distance

If you would like to calculate the sound pressure level produced by the loudspeaker not at a distance of 1 meter, but at e.g. 6 meters, there is a table/formula for this purpose as well.

Distance (m)	1	2	3	4	5	10	20	50	100
Decrease (dB SPL)	0	6	9.5	12	14	20	26	34	40

Based on the same example, we will have to subtract an amount, corresponding to the distance, from the calculated figure of 103 dB. The reduction resulting from a distance of 5 metres from the loudspeakers is 14 dB – which corresponds to a sound pressure level of 89 dB. The formula for the calculation is as follows:

$p = p1 - 20 \times \log (d)$

p: Sound pressure level at a defined distance (dB characteristic sound pressure)

d: Distance (m)

p1: Sound pressure level at a distance of 1 m

With each doubling in distance, the sound pressure level drops by 6 dB SPL

Sound pressure level at a given power and distance from the loudspeaker

The formulas for sound pressure at a defined power and at a defi ned distance are combined. The sound pressure level at a given power and distance is calculated as follows:

$p = pn + 10 \times \log (P) - 20 \times \log (d)$

p: Sound pressure level (dB SPL) pn: Characteristic sound pressure level of the loudspeaker (dB)

d: Distance from the loudspeaker (m) (m) P: supplied power (W)

Example: We want to install a loudspeaker in a room. The greatest distance to the audience is 8 m. The loudspeaker has a characteristic sound pressure level of 90 dB 1 W/1 m and an input power of 30 watts. How high is the sound pressure level at the maximum distance?

Sound pressure level

$= 90 \text{ dB} + 10 \times \log (30) - 20 \times \log (8)$

$= 90 \text{ dB} + 15 \text{ dB} - 18 \text{ dB}$

$= 87 \text{ dB}$

If you use the values from the two tables provided above (the distance

is composed of 4 m x 2m = 8 m, physical multiplication turns into addition of the decibel values) this yields:

Sound pressure level
= 90 dB + 15 dB (at 30 watts) - 12 dB (at 4 m) - 6 dB (at 2 m)
= 87 dB"

22. If more than one speaker is used then resultant noise level will be calculated as (https://www.wkcgroup.com/tools-room/logarithmic-addition-sound-pressure-levels/) –

"Logarithmic Addition of Sound Levels

In order to determine the resultant sound pressure level (SPL) of multiple sources the SPLs must be added logarithmically. This calculation assumes that the SPL of each source running in isolation is known at a given measurement point.

The total sound pressure level can be calculated using the following formula:

SPL Total = 10·LOG10[10SPL1/10 + 10SPL2/10 + 10SPL3/10 ... + 10SPLN/10] (dB)

Where SPL1 to SPLN are the separate sound pressure levels, and N is the total number of separate noise levels."

23. We also attempted to find out Sound Power Level of popular speakers used in India from https://rajmusical.com/ahuja-srx-50dx-50-watts-pa-speaker-system.html wherein we found following specifications for a 50 W speaker –

"The Ahuja SRX-50DX is a 50-watt PA speaker system with the following specifications:

- Input power: 50 W max
- Power taps: 30/20/10 W at 100 V
- Configuration: One way
- Frequency response: 55–16,000 Hz
- Low frequency speaker: 2 x 8 in, Ø0.75 in voice coil
- SPL at (1 W/1 m): 96 dB
- Max. rated SPL: 113 dB
- Nominal impedance: 16 Ω / 333/500/1 kΩ
- Port: Sealed enclosure

- Input connectors: Two terminal strips in parallel“
- Dimensions: W325 × H585 × D240 mm or W325 × H605 × D240 mm”

For other models SPL is –

Ahuja Public Address Speaker system.

Modal No	Wattage	Max. Rated Sound Pressure Level (SPL)	Frequency
SRX-50 XT	50W	113 dB	• 55-16000 Hz
SRX-50 OX	50W	113 dB	53-16000 Hz
SRX-120 DXM	100W	117 dB	53-20000 Hz
SRX-250 DXN	200W	123 dB	53-2000Hz
SRX-220	200W	-	50-20000 Hz
SRX-200	200W	120 dB	50-20110 Hz
SRX-510	400W	127 dB	50-20000 Hz
SRX-500	400W	127 dB'	50-2000Hz
SRX-440	400W	126 dB	50-2000Hz

24. Based on above technical information, this Tribunal has worked out that typically for a 100 W speaker noise levels at various distances will be as follows –

Noise level reduction with Distance					
p = p1 - 20 x log (d) p: Sound pressure level at a defined distance (dB characteristic sound pressure), d: Distance (m) p1: Sound pressure level at a distance of 1 m					
Wattage	p1	Distance, m	Log D	Noise Level Reduction, dB	Resultant Noise Level, dB
100	117	5	0.69897	14	103
100	117	10	1	20	97
100	117	15	1.176091	24	93
100	117	20	1.30103	26	91
100	117	25	1.39794	28	89
100	117	30	1.477121	30	87
100	117	35	1.544068	31	86

100	117	40	1.60206	32	85
100	117	45	1.653213	33	84
100	117	50	1.69897	34	83
100	117	55	1.740363	35	82
100	117	60	1.778151	36	81
100	117	65	1.812913	36	81
100	117	70	1.845098	37	80
100	117	75	1.875061	38	79
100	117	80	1.90309	38	79
100	117	85	1.929419	39	78
100	117	90	1.954243	39	78
100	117	95	1.977724	40	77
100	117	100	2	40	77

25. We are of the view that if single 100 W speaker is installed in a pendal then also noise level upto 85 dB will be there till distance of 40 m which is over 120 ft from the loudspeaker. The effect of installing 2 speakers of 50 W each will be almost the same as installing single speaker of 100 W as can be seen from Table below –

Noise Level Addition

TotalSPL = 10·LOG[10^SPL1/10 + 10^SPL2/10] (dB)

Speaker No.	Wattage, P	SPL	AntiLog SPL	Total AntiLog	T SPL, dB
1	50	113	1.995E+11		
2	50	113	1.995E+11	3.99052E+11	116

26. We are, therefore, of the view that total capacity of loud speakers in a pendal should be limited to 100 W unless pendal size is more than 40 m in length.

27. After having considered the submissions of the applicant and the directions of the Hon'ble High Court of Bombay in its Judgment delivered in PIL No.173 of 2010 (supra), we are of the opinion that certain additional directions need to be issued by us and accordingly we issue the same as follows, which

shall be immediately implemented/followed for Ganesh festival in Pune this year onwards:

(I) MPCB shall carry out real time noise monitoring at minimum 3 locations in/near each Ganapati Pendal. MPCB shall ensure that noise levels of previous day both in numbers as also in graph alongwith applicable noise level limit are prominently displayed with name of Ganesh Mandal in each pendal at minimum 2 locations clearly visible to public. The said display will also have warning message "Noise Levels More than Noise Limits Are Injurious to Health". MPCB shall bear expenses of monitoring and display arrangements.

(II) During Visarjan processions MPCB shall carry out real time noise monitoring at major traffic junctions in consultation with Police Department, and also install digital display system of appropriate size and at appropriate location displaying real time noise levels along with applicable noise level limit during Visarjan processions. The said display will also have warning message "Noise Levels More Than Noise Limits Are Injurious to Health". MPCB shall bear expenses of monitoring and display arrangements.

(III) Police department in consultation with MPCB shall decide Total Capacity of loud speakers (say maximum 100 W) allowed in the case of each Ganesh Mandal based on location, considering nearness to school/hospital/residential complexes. Ganesh Mandal will state number and capacity of individual speakers proposed to be installed so as to remain within total permitted capacity while seeking permission from the authorities. Police department in consultation with MPCB will have discretion of relaxing the total capacity limit based on location and size of Ganesh Pendal.

(IV) Police department to ensure that the total number of Dhol+Tasha+Zanj members in each troupe during Visarjan Procession shall not exceed 30 in number.

(V) In the case of violation of above directions, Police shall seize loudspeakers/sound system/ Dhol/Tasha/Zanj units.

(VI) Police Department shall notify that use of Toll (metallic high noise making unit) & DJ in Visarjan procession is prohibited. In the case

of violation, Police shall proceed in accordance with law against the defaulter/s.

(VII) In the case of violation of Noise Rules, Police shall set criminal law into motion.

(VIII) Within seven days of Visarjan day, MPCB shall publish the names of the violators of Noise Rules, 2000, in two local newspapers and also shall upload details of such cases on its website to ensure that such information is accessible to public use for 90 days.

(IX) It will be appropriate for respondent No.2-MPCB to give wide publicity of these directions as also harmful effect of high noise levels in advance before commencement of forthcoming Ganesh festival in Pune through newspaper/banners/posters etc so that the directions are adhered to by all concerned without pleading ignorance.

28. With above directions, we dispose of this Original Application.

29. If any of the parties to this Original Application, who have not been heard in this matter, has grievance in respect of this Judgment, it will be at liberty to approach this Tribunal for redressal of its grievance.

30. No order as to costs.

Dinesh Kumar Singh, JM
