Additional Joint Committee Report in view of order dated 22.08.2024

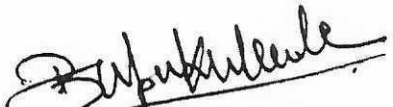

**Point No.2—Market value of the mined stone by the Project Proponent--**

Reply-

It is submitted that, the PP has excavated total 139059.289 brass minor minerals as per drone survey. The total market value as per DSR rate issued by PWD for the year 2022-23 for Rubble stone is calculated as 653/- Rs. per brass. Till the last permission, the PP has paid total royalty of Rs.5, 30,00,000/- for 1,25,000 brass minor minerals. Remaining excavated material without royalty is appears to be 14,059/- brass by the PP.

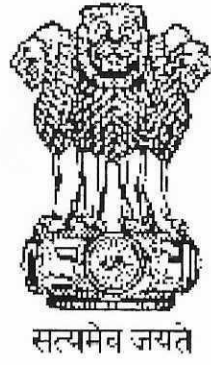

After calculating the above figure, it is cleared that the PP has excavated 14,059/- brass minerals without paying royalty. Hence to recover the remaining royalty amount, the DMO office Pune issued notice on 14/01/2025 thereby asked the PP to pay the royalty amount. Hereto annexed and marked is the copy of DSLR report and copy of notice colly.

Hence this report
