DATED 01 /11/2025
NEW DELHI

THROUGH

PUJA KALRA
ADVOCATE FOR THE RESPONDENT/MCD
Standing Counsel MCD
Chamber No. 430, Block-I,
Delhi High Court, New DELHI.
MOB:- 9312839323
EMAIL:- pujakalara09@gmail.com

As per the direction dated 09.01.2025 by the DCF it was directed that the 1000 trees to be planted as compensatory plantation as penalty. There has been compliance on the part of MCD. Regarding compensatory plantation of 1000 trees, Horticulture Department has completed the plantation of 1063 trees and submitted the complete report to DCF on 30.10.2025 (Present Photographs of Plantation enclosed herewith as **Annexure-A and** Plantation report is annexe as **Annexure-B**). Earlier report of 511 tree plantation was submitted to DCF North, Alipur on 23 April 2025 (Copy is annexe as **Annexure-C**). As the monsoon season is very favourable, Plantation has been extended till October for better survival of the saplings. Hence Horticulture Department has not violated any direction given by the DCF North. The Horticulture Department of MCD has completed the plantation without admitting any violation. It was undertaken to demonstrate the MCDs commitment to Environmental Conservation not as acceptance of alleged illegality. It is pertinent to mention here that an objection to the DCF has also been raised by the Horticulture Department Keshavpuram Zone MCD on 24.01.25, in response to the Illegal pruning mentioned in Order of DCF North. (Copy of objection is annexe as **Annexure-D**). MCD remains committed to environmental conservation and not as acceptance of alleged infraction. Horticulture Department Keshavpuram Zone MCD (Ward 58-59) has already planted 1754 trees and 2219 shrubs as part of the plantation drive for promoting greenery to curb pollution.

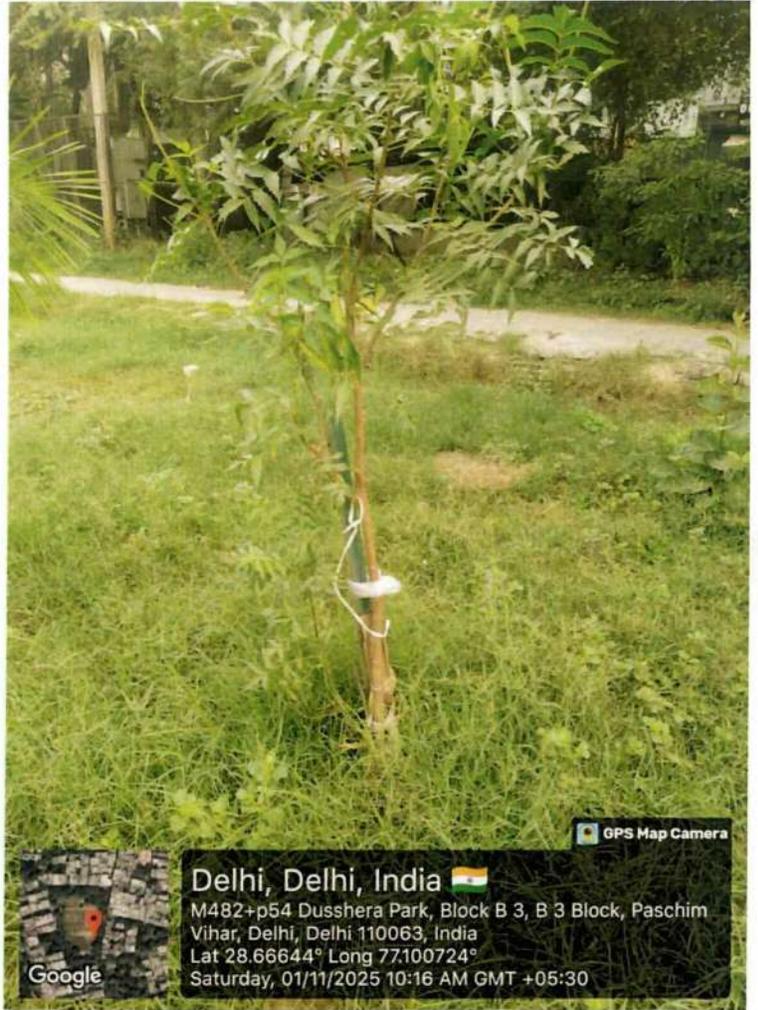

As mentioned in the Joint committee report at page no. 232 Report of Horticulture department Keshavpuram Zone is as under: Out of 40 trees, all the 37 trees are healthy and growing efficiently. The pruning was done in good faith to ensure public safety and tree health without any violation. Most of these trees were of Ficus species, such as *Ficus benjamina*, *Ficus religiosa*, which are fast growing with dense foliage and rapid shoot growth Thus they outgrows their space quickly with heavy

canopy which requires heavy pruning for better canopy management and to avoid any obstruction to road, footpath, Nearby buildings, lights and electricity cables. Pruning was done to maintain the balance of the trees and to increase the visibility. At present all the trees are alive and healthy and growing well Hence no violation of Sec 8 (1) DPTA. The 3 no. Of trees which were died/ dried due to natural abiotic stress of extreme heat during 2024 being the major factor. (Present Photographs of all the 37 trees which are alive, healthy and growing well are annexed as **Annexure-E Colly**)

The intention of marginal increase of girth in pruning was not intentional. The action was bona-fide and horticulturally justified. The intention was to extend the life of tree and not to destroy it and same was done in good faith to ensure public safety and tree health. The answering respondent MCD in future undertakes to strictly comply with the term and condition of the permission granted by forest department GNCTD in true letter in sprit.
