In the matter of:
News item titled
“Encroachments in Tungareshwar
driving away wild animals”
published in The Hindustan Times
dated 27.4.2024

**AFFIDAVIT ON BEHALF OF RESPONDENTS Nos. 1 AND 2
(i.e. Principal Chief Conservator of Forests and HoFF and Chief Wildlife
Warden)**

I, Ms. Karishma Kawade, Assistant Conservator of Forests (North), Yeur, Sanjay Gandhi National Park Division (SGNP), with my office located at Yeur, Thane, do hereby solemnly affirm and state as follows:

1] I have been duly authorized by Respondents Nos. 1 and 2 to file this affidavit in this *suo motu* proceeding. The Tungareshwar Wildlife Sanctuary (TWLS) also falls under the management and control of the Chief Conservator of Forests and Director, SGNP. This affidavit is confined solely to the area of TWLS, as the article pertains specifically to TWLS and not the surrounding areas.

2] I have read the news article titled "*Encroachments in Tungareshwar driving away wild animals,*" published in The Hindustan Times on 27.4.2024. I respectfully state that the article contains several inaccuracies and misunderstandings, which I will address here. Unfortunately, neither the reporter nor the editor of The Hindustan Times contacted the management of TWLS, including myself or senior officers, such as the Chief Conservator of Forests, SGNP, or the Deputy Director (North), SGNP, based at Yeur, Thane, who oversee TWLS. This lack of verification has led to some incorrect claims being made in the article.

3] I would like to clarify that there are some encroachments by tribal communities within TWLS for agriculture and housing purposes. These communities have submitted claims for Individual Forest Rights (IFR) and Community Forest Rights (CFR) under the provisions of the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006. The details of these claims are Provided as **Annexure – I**.

4] I submit that within the boundaries of Tungareshwar Wildlife Sanctuary (TWLS), a segment of forest land has been encroached upon by the Shri Balayogi Sadanandbaba Ashram for which interim protection is given by Supreme Court in I.A. 19010/2019 of W.P 202/1995T. N. Godavarman Vs Union of India & Others. I categorically deny the assertion that any waterholes, including the "four major watering holes" referenced in the article, have been closed due to encroachments within the sanctuary. Additionally, there has been no recent survey conducted by the Forest Department or any other authority, as claimed in the article.

4] I would like to clarify that the villages of Kaman, Chinchoti, Sativali, Pelhar, and Mandvi are not located within any area notified as Wildlife Sanctuary under Section 35 of the Wildlife Protection Act, 1972, as part of the TWLS. These villages are long-established revenue settlements that existed well before TWLS was notified in 2004, and it is common for human activities to take place in such areas. The article, along with the claims made by Mr. Mckenzie Dabre (referred to as an activist), does not name any specific "chemical industry" that has encroached upon the forest of TWLS.

5] I submit that the claim that the Tungreshwar and Pelhar Rivers have been completely or partially destroyed inside TWLS is an exaggeration.

6] I submit that the claim that wild animals are disappearing from the sanctuary or wandering into nearby villages in search of food is sensationalized and inaccurate. Additionally, there is no species known as the "golden fox" in and around the TWLS. While Golden Jackals (*Canis aureus*) do inhabit the mangroves, these mangroves are located on the western and southwestern sides of Vasai, divided by the Western Railway Line into Vasai East and Vasai West. TWLS is situated in the mountainous terrain of Vasai East and has no connection to the mangroves along the coastline of Vasai.

7] I submit that monkeys have become common in urban areas due to people feeding them for religious reasons. This has resulted in monkeys regularly entering residential areas in the Vasai and Virar Municipal Corporation areas. The frequent feeding of monkeys has diminished their natural fear of humans, leading them to rely on people as an easy source of food. This behavior is not unique to our region, as similar patterns are observed in major cities such as Shimla, New Delhi, and Mumbai. The presence of monkeys in these areas is

primarily due to the availability of food, including garbage, and not due to a loss of forest cover.

8] I submit that while it is true that a leopard strayed from Tungreshwar Wildlife Sanctuary (TWLS) and was successfully rescued and released back into its natural habitat, I would like to emphasize that leopards (*Panthera pardus*) are highly stealthy and adaptable animals. They are known to venture into urban areas, including parts of Mumbai, Thane, and other major cities.

9] I submit that the authorities of TWLS have not issued any notices to anyone, as there have been no incidents of debris being dumped are reported in any waterholes within the sanctuary. Additionally, no fatalities have resulted from landslides in TWLS. Furthermore, no instances of eviction of tribal communities from TWLS, as claimed, have been reported to any law enforcement authorities.

10] I say and submit that the area of the Tungreshwar Mahadeo Temple is not part of TWLS.

AFFIDAVIT

I, Ms. Karishma Kawade, Assistant Conservator of Forests (North), Sanjay Gandhi National Park Division, with my office at Yeur, Thane, do hereby solemnly affirm and state on behalf of Respondents Nos. 1 and 2 that the statements made in the foregoing affidavit are true and correct to the best of my knowledge.
