Government of India
Ministry of Environment, Forest and Climate Change
Impact Assessment Division

Indira ParyavaranBhawan
Jor Bagh Road, Aliganj
New Delhi – 110003
sujit.baju@gov.in

Date: 7th July, 2021**Office Memorandum**

Subject: Standard Operating Procedure (SoP) for Identification and handling of violation cases under EIA Notification 2006 in compliance to order of Hon'ble National Green Tribunal in O.A. No.34/2020 WZ - Regarding.

The Ministry had issued a notification number S.O.804(E), dated the 14th March, 2017 detailing the process for grant of Terms of Reference and Environmental Clearance in respect of projects or activities which have started the work on site and/or expanded the production beyond the limit of Prior EC or changed the product mix without obtaining Prior EC under the EIA Notification, 2006.

2. This Notification was applicable for six months from the date of publication i.e. 14.03.2017 to 13.09.2017 and further based on court direction from 14.03.2018 to 13.04.2018.

3. Hon'ble NGT in Original Application No. 287 of 2020 in the matter of Dastak N.G.O. Vs Synochem Organics Pvt. Ltd. &Ors. and in applications pertaining to same subject matter in Original Application No. 298 of 2020 in Vineet Nagar Vs. Central Ground Water Authority &Ors., vide order dated 03.06.2021 held that "(...) **for past violations, the concerned authorities are free to take appropriate action in accordance with polluter pays principle, following due process**".

4. Further, the Hon'ble National Green Tribunal in O.A No. 34/2020 WZ in the matter of Tanaji B. Gambhire vs. Chief Secretary, Government of Maharashtra and ors., vide order dated 24.05.2021 has directed that "**...a proper SoP be laid down for grant of EC in such cases so as to address the gaps in binding law and practice being currently followed. The MoEF may also consider circulating such SoP to all SEIAAs in the country**".

5. Therefore, in compliance to the directions of the Hon'ble NGT a Standard Operating Procedure (SoP) for dealing with violation cases is required to be drawn. The Ministry is also seized of different categories of 'violation' cases which have been

pending for want of an approved structural/procedural framework based on 'Polluter Pays Principle' and 'Principle of Proportionality'. It is undoubtedly important that action under statutory provisions is taken against the defaulters/violators and a decision on the closure of the project or activity or otherwise is taken expeditiously.

6. In the light of the above directions of the Hon'ble Tribunal and the issues involved, the matter has accordingly been examined in detail in the Ministry. A detailed SoP has accordingly been framed and is outlined herein. The SoP is also guided by the observations / decisions of the Hon'ble Courts wherein principles of proportionality and polluters pay have been outlined.

7. Relevant Court Cases on the issue: It is noted that while deciding issues related to violations of the Environment Protection Act, 1986 on account of running the project/activity without prior environmental clearance or in excess of capacity allowed in such clearances, **the Hon'ble courts have, inter-alia, deliberated on various facets involving 'violation' cases and have enunciated principles of 'Proportionality' and 'Polluter Pays'** in various decisions viz. Industrial Council for Enviro-Legal Action Vs Union of India (the Bichhri village industrial pollution case) (1996 SCC [3] 212); Alembic Pharmaceuticals Ltd. Vs Rohit Prajapati & Ors. (C.A. No. 1526 of 2016, order dated 1.4.2020) and Hindustan Copper Limited Vs Union of India in (W.P. (C) No. 2364 of 2014, order dated 28.11.2014). The salient extracts of the judgements are as under:

Issue 1: Proposal for grant of Environmental Clearance in violation cases – to be considered on merits:

i. Hon'ble High Court of Jharkhand in the matter of Hindustan Copper Limited Vs Union of India in W.P. (C) No. 2364 of 2014, vide order dated 28.11.2014

Held: "(...) action for alleged violation would be an independent and separate proceeding and therefore, consideration of proposal for environment clearance cannot await initiation of action against the project proponent."

*"(...) the proposal of the petitioner company for **environmental clearance must be examined on its merits, independent of any proposed action for the alleged violation of the environmental laws.**"*

ii. Hon'ble Madras High Court in the matter of Puducherry Environment Protection Association Vs The Union of India in W.P. No. 11189 of 2017, vide order dated 13.10.2017

Held "27. The question is whether an establishment contributing to the economy of the country and providing livelihood to hundreds of people should be closed down only because of failure to obtain prior environmental clearance, even though the establishment may not otherwise be violating

SA

*pollution laws or the pollution, if any, can conveniently and effectively be checked. **The answer necessarily has to be in the negative.***

“29. It is reiterated that protection of environment and prevention of environmental pollution and degradation are non-negotiable. At the same time, the Court cannot altogether ignore the economy of the Nation and the need to protect the livelihood of hundreds of employees employed in projects, which as stated above, otherwise comply with or can be made to comply with norms.”

Issue 2: Environmental Clearance – Prospective & not ex-post facto:

Hon’ble Supreme Court in the matter of Common Cause Vs Union of India in W.P. (C) No. 114 of 2014, vide order dated 2.8.2017

*Held: “(...) an EC will come into force **not earlier than the date of its grant.**”*

Issue 3: ‘Principles of Proportionality’ – to be applied:

Hon’ble Supreme Court in the matter of Alembic Pharmaceuticals Ltd. Vs Rohit Prajapati & Ors. in C.A. No. 1526 of 2016, vide order dated 1.4.2020

*Held: “(...) **this Court must take a balanced approach** which holds the industries to account for having operated without environmental clearances in the past without ordering a closure of operations. The directions of the NGT for the revocation of the ECs and for closure of the units do not accord **with the principle of proportionality**”*

**Issue 4: ‘Polluter pays’ principle &
&**

Issue 5: Costs for remedial measures implicit in Sections 3 & 5 of Environment (Protection) Act, 1986.

Hon’ble Supreme Court in the matter of Indian Council for Enviro- Legal Action Vs Union of India (the Bichhri village industrial pollution case) in (1996 SCC [3] 212)

Held:

*a) The Central Government is empowered to take all measures and issue all such directions as are called for the above purpose. The said powers will **include giving directions ...** and also the power to **impose the cost of remedial measures** on the offending industry and utilize the amount so recovered for carrying out remedial measures.....*

SA

b) **Levy of costs required for carrying out remedial measures is implicit in Sections 3 and 5** which are couched in very wide and expansive language. Sections 3 and 5 of the Environment (Protection) Act, 1986, apart from other provisions of Water and Air Acts, empower the Government to make all such directions and take all such measures as are necessary or expedient for protecting and promoting the 'environment', which expression has been defined in very wide and expansive terms in Section 2 (a) of the Environment (Protection) Act. This power includes the power to prohibit an activity, close an industry, direct to carry out remedial measures, and wherever necessary impose the cost of remedial measures upon the offending industry.

c) The question of liability of the respondents to defray the costs of remedial measures can also be looked into from accepted universally sound principle, viz., the "**Polluter Pays**" Principle. "The polluter pays principle demands that the financial costs of preventing or remedying damage caused by pollution should lie with the undertakings which cause the pollution, or produce the goods which cause the pollution".

8. Legal provisions:

i. The Environment (Protection) Act, 1986 mandates the Central Government to take all measures as it deems necessary or expedient for the purpose of protecting and improving the quality of the environment and preventing, controlling and abating environmental pollution (reference sub-section (1) of Section 3 of Environment (Protection) Act, 1986). Further, clause (xiv) of sub-section (2) of Section 3 of the Environment (Protection) Act, 1986 specifies that the measures stipulated under sub-section (1) of Section 3 of the Environment (Protection) Act 1986 includes 'such other matters as the Central Government deems necessary or expedient for the purpose of securing effective implementation of the provisions of this Act'.

ii. Further, notwithstanding anything contained in any other law but subject to the provisions of the Environment Protection Act, 1986, Section 5 of the Environment (Protection) Act, 1986, provides that the Central Government may, in the exercise of powers and performance of Central Government functions under the said Act, issue directions in writing to any person, officer or any authority and such person, officer or authority shall be bound to comply with such directions.

9. Definition of Violation and Non-compliance:

The Standard Operating Procedure (SoP) considers 'Violation' & 'Non-compliance' from the following perspective:

i. "Violation" means cases where projects have either started the construction work or installation or excavation, whichever is earlier, on site or have expanded the production capacity and / or project area beyond the limit specified in the Environmental Clearance (Prior-EC) without obtaining Prior-EC or change of scope without prior approval from the Ministry.

ii. "Non-compliance" means non-compliance of terms and conditions prescribed by the Regulatory Authority in the Prior Environment Clearance accorded to the project.

10. Standard Operating Procedure – Guiding Principles:

i. Without prejudice to any other consequences, **action has to be initiated under section 15 read with section 19** of The Environment (Protection) Act, 1986 **against all violations.**

ii. Projects not allowable/permissible, for grant of EC, as per extant regulations: **To be demolished.**

iii. Projects allowable/permissible, if prior EC had been taken as per extant regulations: **To be closed until EC is granted (if no prior EC has been taken) or to revert to permitted production level (in case prior EC has been granted).**

iv. **Polluter pays:** Violators to pay for violation period - proportionate to the scale of project and extent of commercial transaction.

v. Setting up a mechanism for reporting of violation to the regulatory authority(ies).

11. SOP for dealing with the violation cases:

Step 1: Closure or Revision

Sl no.	Status of EC	Actions
1	If no prior EC has been taken	Order to close its operation
2.	If prior EC is available for existing/old unit	Order to revert the activity/production to permissible limits.
3.	If prior EC was not required for earlier production level but is now required	Restrict the activity/production to the extent to which prior EC was not required.

Step 2: Action under Environment (Projection) Act, 1986

Action under section 15 read with section 19 of the Environment (Protection) Act, 1986 shall be initiated against the violators.

SA

Step: 3: Appraisal under EIA Notification, 2006

The permissibility of the project shall be examined from the perspective of whether such activity/project was at all eligible for the grant of prior EC.

A. If not permissible:

i. The project shall be **ordered for the demolition/closure after issuing show cause notice and providing an opportunity of hearing.**

*Ex. If a red industry is functioning in a CRZ-I area which means that the activity was, in the first place, not permitted at the time of commencement of project. Therefore, the activity is not permissible and therefore it shall be **closed & demolished.***

ii. Respective regulatory authorities shall issue directions under section 5 of the Environment (Protection) Act, 1986 for such closure & demolition of the project/activity.

B. If permissible:

i. As per extant regulations at the time of scoping, if it is viewed that the project activity is otherwise permissible, Terms of Reference (TOR) shall be issued with directions to complete the impact assessment studies & submit Environmental Impact Assessment (EIA) report & Environmental Management Plan (EMP) in a time bound manner.

ii. Such cases of violation shall be subject to appropriate

(a) Damage Assessment

(b) Remedial Plan and

(c) Community Augmentation Plan by the Central level Sectoral Expert Appraisal Committees or State/Union Territory Level Expert Appraisal Committees, as the case may be.

iii. The Competent Authority shall issue directions to the project proponent, under section 5 of the Environment (Protection) Act, 1986 on case to case basis mandating payment of such amount (as may be determined based on Polluters Pay principle) and undertaking activities relating to Remedial Plan and Community Augmentation Plan (to restore environmental damage caused including its social aspects).

iv. Upon submission of the EIA & EMP report, the project shall be appraised by the Central Sectoral Expert Appraisal Committees or the State/Union Territory Level Expert Appraisal Committees, as the case may be, as if it was a new proposal. If, on examination of the EIA/EMP report, the project is considered permissible for operation as per extant regulations, the requisite Environmental Clearance shall be issued **which shall be effective from the date of issue.**

v. However, during appraisal after examination if it is found that even though the project may **be permissible but not environmentally sustainable in its present**

form/configuration/features then the project shall be directed to be **modified so that the project would be environmentally sustainable.**

vi. If, however, it is not considered appropriate to issue EC, the project shall be directed to be **demolished/ closed. If such proposal is a case of expansion, the project shall be directed to revert back to the extent of activity for which EC had been granted earlier or to revert back to the extent of activity for which EC was not required (as the case may be).**

vii. Central Sectoral Expert Appraisal Committees or the State/Union Territory Level Expert Appraisal Committees, as the case may be, may insist upon public hearing to be conducted for such categories of projects for which the EIA Notification 2006, as amended from time to time, requires the public hearing to be conducted.

viii. The project proponent will be required to **submit a bank guarantee equivalent to the amount of Remediation Plan and Natural & Community Resource Augmentation Plan with Central / the State Pollution Control Board (depending on whether it is appraised at Ministry or by SEIAA).** The quantification of such liability will be recommended by Expert Appraisal Committee and finalized by Regulatory Authority. The bank guarantee shall be deposited prior to the grant of environmental clearance and **will be released after successful implementation of the Remediation plan and Natural & Community Resource Augmentation Plan.**

Note - The activities, as per above clauses, shall be undertaken simultaneously wherever feasible. Environmental Clearance, if granted, to such projects or activities, after due appraisal of EIA/EMP report, **shall be effective only from the date of issuance of such clearance** and shall be subject to compliance of obligations towards Damage Assessment, Remedial Plan & Community Augmentation Plan, etc. finalized in each case.

12. Penalty provisions for Violation cases and applications:

a. For new projects:

- i. **Where operation has not commenced:** 1% of the total project cost incurred up to the date of filing of application along with EIA/EMP report; [Ex: Rs.1 lakh for project cost of Rs.1 Cr]
- ii. **Where operations have commenced without EC:** 1% of the total project cost incurred up to the date of filing of application along with EIA/EMP report **PLUS** 0.25% of the total turnover during the period of violation. [Ex: For Rs.100 Cr project cost and Rs.100 Cr total turnover, the penalty shall be Rs.1 Cr + Rs. 0.25 Cr = Rs.1.25 Cr]

SA

b. **For expansion projects:**

- i. **Where operation/production with expanded capacity has not commenced:**
1% of the project cost, attributable to the expansion, incurred up to the date of filing of application along with EIA/EMP report.
- ii. **Where operation/ production with expanded capacity have commenced:**
1% of the project cost (attributable to the expansion activity) incurred upto the date of filing of application along with EIA/EMP report PLUS 0.25% of the total turnover (attributable to the expanded activity/capacity) involved during the period of violation.

12.1. Without prejudice to obligation as per (a) & (b) above, where the project or activity is considered for appraisal as above & the project proponent fails to provide required information or requisite documents or complete the requisite study for the purpose of EIA/EMP reports or does not furnish such reports within such period, as specified by the appraisal committee, without reasonable cause, it shall be inferred that the project proponent is not serious enough and the project or activity shall be directed to be demolished / closed.

12.2. The percentage rates, as above, shall be halved if the project proponent *suo-moto* reports such violations without such violations coming to the knowledge of the Government either on inquiry or complaint.

12.3. The penalty, as above, shall be in addition to liability for carrying out various remedial measures which shall be worked out based on the damage assessment for quantifying the environmental damage caused due to unauthorized project activity [as per Step 3 enumerated above].

13. Identification of Violation cases:

With a view to protecting the environment and to expeditiously bring violators into a regulatory regime so as to prevent & control environment damage caused by such violation & to determine whether operation of such projects is permissible and to take action stipulated under Section 15 of the Environment (Protection) Act, 1986 for contravention of the provisions of the said Act, Rules, orders and directions, it is expedient to also identify the cases of violation, examine and appraise such projects so as to refrain them from causing further environmental damage and also to compensate for causing damage to the environment. Therefore, in exercise of the powers conferred under Section 5 of the Environment (Protection) Act, 1986, the Central Government hereby directs that:-

- i. State Pollution Control Boards & Union Territory Pollution Control Committees, before grant or renewal of Consents under Water(Prevention & Control of Pollution) Act, 1974 & Air (Prevention& Control of Pollution) Act, 1981, shall ensure that the project proponents applies for or possess valid Prior

Environmental Clearance in terms of extant EIA Notification and shall not grant or renew CTO (Consent to Operate) unless Environment Clearance (if applicable) has been obtained.

- ii. The Central Pollution Control Board, all State Pollution Control Boards and all Union Territory Pollution Control Committees shall identify cases of violation under their respective jurisdiction, report such cases to the Ministry or State/Union Territory Level Environmental Impact Assessment Authority, as the case may be and also revoke CTO, if granted to the unit after giving an opportunity of being heard.
- iii. The Central Pollution Control Board, all State Pollution Control Boards and all Union Territory Pollution Control Committees shall expeditiously examine the references, received from public and other bodies, relating to violations and take necessary steps as per (ii) above.

14. This is issued with the approval of the Competent Authority.

 (Dr. Sujit Kumar Bajpayee)

REPORTABLE

IN THE SUPREME COURT OF INDIA
CIVIL APPELLATE JURISDICTION
CIVIL APPEAL NOS. 7576-7577 OF 2021
[Arising out of SLP (C.) Nos. 11226-11227 of 2020]

Electrosteel Steels LimitedPetitioner (s)

Versus

Union of India and Ors. Etc.Respondent (s)

J U D G M E N T

Indira Banerjee, J.

Leave granted.

2. These Appeals are against an order dated 16th September 2020 passed by a Single Bench of the High Court of Jharkhand in W.P. (C) No.1873 of 2018 and W.P. (C) No. 4850 of 2018, discontinuing the interim orders earlier passed by the High Court, allowing the Appellant to operate its unit under the supervisory regulatory control of the Respondent - Jharkhand State Pollution Control Board, hereinafter referred to as "JSPCB", which had been in force for over two years.

3. The Appellant owns and runs a 1.5 MTPA integrated steel plant in Bokaro District in Jharkhand. The said steel plant in Bokaro, which

employs 3,000 regular employees and 7000 contractual employees, produced steel worth Rs.4,200 crores in the financial year 2019-20.

4. The Appellant claims that about 30,000 persons other than those actually employed by the steel plant as regular or contractual employees depend on the steel plant for their livelihood.

5. Corporate Insolvency Resolution Process (CIRP) had commenced against the Appellant under the Insolvency and Bankruptcy Code 2016. As successful Resolution Applicant, Vedanta Ltd. took over the Appellant on or about 4th June 2018 upon payment of Rs.5,320 crores for discharge of its debts.

6. Pollution and consequential deterioration of environment has been assuming alarming proportions, and has become a cause of universal concern. Fumes, smoke, emission of green house gases by use of motors and machines and operation of mills, factories and plants cause environmental degradation.

7. Under the aegis of the United Nations discussions and deliberations have been held to protect and improve environment and prevent pollution.

8. In 1972, the United Nations Conference on the Human Environment was convened in Stockholm to work out ways and means to protect and improve the environment. In course of deliberations, it was felt that there was need to enact law to tackle environmental pollution. India

participated in the conference and strongly voiced environmental concerns.

9. The Environment (Protection) Act, 1986, hereinafter referred to as "*the 1986 Act*", has been enacted as a consequence of decisions taken at the United Nations Conference on the Human Environment held in Stockholm in June, 1972.

10. The statement of objects and reasons for enactment of the 1986 Act declares that the Act has been prompted by concern over environment, that has grown the world over, since the sixties.

11. Sub-Section (1) of Section 3 of the 1986 Act empowers the Central Government to take all such measures as it might deem necessary or expedient for the purpose of protecting and improving the quality of the environment and preventing, controlling and abating environmental pollution.

12. Sub-section (2) of Section 3 of the 1986 Act enables the Central Government to take, *inter alia*, the following measures:

"(i) co-ordination of actions by the State Governments, officers and other authorities—

(a) under this Act, or the rules made thereunder; or

(b) under any other law for the time being in force which is relatable to the objects of this Act;

(ii) planning and execution of a nation-wide programme for the prevention, control and abatement of environmental pollution;

(iii) laying down standards for the quality of environment in its various aspects;

(iv) laying down standards for emission or discharge of

environmental pollutants from various sources whatsoever:

Provided that different standards for emission or discharge may be laid down under this clause from different sources having regard to the quality or composition of the emission or discharge of environmental pollutants from such sources;

(v) restriction of areas in which any industries, operations or processes or class of industries, operations or processes shall not be carried out or shall be carried out subject to certain safeguards;

(vi) laying down procedures and safeguards for the prevention of accidents which may cause environmental pollution and remedial measures for such accidents;

(vii) laying down procedures and safeguards for the handling of hazardous substances;

(viii) examination of such manufacturing processes, materials and substances as are likely to cause environmental pollution;

(ix) carrying out and sponsoring investigations and research relating to problems of environmental pollution;

(x) inspection of any premises, plant, equipment, machinery, manufacturing or other processes, materials or substances and giving, by order, of such directions to such authorities, officers or persons as it may consider necessary to take steps for the prevention, control and abatement of environmental pollution;

(xi) establishment or recognition of environmental laboratories and institutes to carry out the functions entrusted to such environmental laboratories and institutes under this Act;

(xii) collection and dissemination of information in respect of matters relating to environmental pollution;

(xiii) preparation of manuals, codes or guides relating to the prevention, control and abatement of environmental pollution;

(xiv) such other matters as the Central Government deems necessary or expedient for the purpose of securing the effective implementation of the provisions of this Act."

13. Sub-section (3) of Section 3 of the 1986 Act provides as follows:

“The Central Government may, if it considers it necessary or expedient so to do for the purposes of this Act, by order, published in the Official Gazette, constitute an authority or authorities by such name or names as may be specified in the order for the purpose of exercising and performing such of the powers and functions (including the power to issue directions under Section 5) of the Central Government under this Act and for taking measures with respect to such of the matters referred to in sub-section (2) as may be mentioned in the order and subject to the supervision and control of the Central Government and the provisions of such order, such authority or authorities may exercise the powers or perform the functions or take the measures so mentioned in the order as if such authority or authorities had been empowered by this Act to exercise those powers or perform those functions or take such measures.”

14. Subject to the provisions of the 1986 Act, the Central Government has power under sub-section (1) of section 3 to take all such measures as it deems necessary or expedient for the purpose of protecting and improving the quality of the environment and preventing, controlling and abating environmental pollution.

15. Section 5 of the 1986 Act provides that notwithstanding anything contained in any other law, but subject to the provisions of the 1986 Act, the Central Government may, in exercise of its powers and performance of its functions under the 1986 Act, issue directions in writing to any person, officer or any authority and such person, officer or authority shall be bound to comply with such directions.

16. In exercise of powers conferred by Sub-Section (1) and clause (v) of sub-section (2) of Section 3 of the 1986 Act read with Rule 5(3)(d) of the Environment (Protection) Rules, 1986 the Central Government issued the Environmental Impact Assessment Notification dated 27th January 1994 directing that on and from the date of publication of the said notification in the Official Gazette, expansion or modernisation of any activity or a new project listed in Schedule I of the Notification shall not be undertaken in any part of India, unless it has been accorded Environmental Clearance (EC) by the Central Government in accordance with the procedure specified in the Notification.

17. Under Clause (2)(I) of the said Notification, any person who desires to undertake any new project listed in Schedule I is required to submit an application to the Secretary, Ministry of Environment and Forests (MoEF), New Delhi in the pro forma specified in Schedule II, accompanied by a project report which is to include the EIA (Environmental Impact Assessment) Report /Environment Management Plan (EMP) prepared in accordance with the guidelines issued by MoEF. Another Environmental Impact Notification was issued in 2006, for grant of Terms and Environmental Clearance *inter alia* for projects which had started work on site.

18. The EIA Report submitted with the application of the project proponent is to be evaluated and assessed by the Impact Assessment Agency (IAA), that is MoEF, and if deemed necessary, it may consult a Committee of Experts constituted in the manner prescribed in Schedule III. The Committee of Experts shall have full right of entry and inspection of the site. The Impact Assessment Agency is to prepare a set of recommendations based on technical assessment of documents and data, furnished by the project proponent, supplemented by data collected during visits to sites, interaction with the affected population and environmental groups, if necessary. The summary of the reports, the recommendations and the conditions, subject to which EC is given shall, subject to public interest, be made available to the parties concerned or environmental groups on request. The IAA may solicit comments of the public within the specified period by arranging public hearings for that purpose. The public shall, subject to public interest, be provided access, to the summary of the EIA Report/Environment Management Plan (EMP). The clearance granted for commencement of the construction or operation of the plant, is to be valid for five years. Clause IV of the Environmental Impact Assessment Notification provides for the monitoring of the implementation of the conditions of EC and/or the recommendations and conditions laid down by IAA.

19. A minor amendment was made to the said Environmental Impact Assessment Notification dated 27th January 1994, by a Notification dated 10th April 1997, which prescribes a detailed procedure for public hearing.

20. By a notification being S.O. 327(E), dated 10th April 2001, published in the Gazette of India, Extra., Pt.II, Sec.3(ii), dated 12th April 2001, the Central Government has delegated the powers vested in it under Section 5 of the 1986 Act, to the Chairpersons of the respective State Pollution Control Boards/Committees to issue directions to any industry or any local or other authority for the violations of the standards and rules relating to biomedical waste, hazardous chemicals, industrial solid waste and municipal solid waste including plastic waste notified under the Environment (Protection) Act, 1986 subject to the condition that the Central Government may revoke such delegation of powers or may itself invoke the provisions of Section 5 of the said Act, if in the opinion of the Central Government such a course of action is necessary in the public interest.
21. On or about 8th January 2007, the Appellant applied to the Ministry of Environment, Forest and Climate Change, Government of India, hereinafter referred to as "MoEF&CC" for grant of EC to establish 3 MTPA integrated steel plant at Mauza South Parbatpur of Chandankiyari Block of Bokaro District.
22. In its application, the Appellant stated that 1350 acres of land were required for establishing the said plant at the Mauza South Parbatpur of Chandankiyari Block of Bokaro District and that no forest land was involved in the project.

23. By a letter No. F.No.J-11011/137/2006-1A-II (i) dated 21st February 2008, the Appellant was granted EC. After obtaining EC, the Appellant applied to the JSPCB, for grant of 'Consent to Establish' (CTE) under the Air (Prevention and Control of Pollution) Act, 1981, hereinafter referred to as the Air Pollution Act, and Water (Prevention and Control of Pollution) Act 1974, hereinafter referred to as the Water Pollution Act.

24. On 5th May 2008, the JSPCB granted CTE to the Appellant to establish the 3 MTPA integrated steel plant at Mauza South Parbatpur of Chandankiyari Block of Bokaro District. The CTE was granted on the basis of the EC granted by the MoEF&CC.

25. The CTE was extended from time to time till 4th May 2011. Even though CTE was granted to the Appellant to establish a steel plant at Mauza South Parbatpur of Chandankiyari Block of Bokaro District, the Appellant established steel plant in Mauza Bhagabandh in the Chas Block in Bokaro District, 5.3 Kms away from the site for which EC and CTE had been granted.

26. A Circular No.J-11013/41/2006-1A.2(i) dated 22nd January, 2010 was issued by the Ministry of Environment and Forest (MoEF) of the Government of India which provided as follows:

"Instances have come to the notice of this Ministry wherein the project proponents have changed the project site after the said project has been granted environmental clearance or after the public hearing has been held. The project proponents have approached this Ministry to revalidate the environmental clearance so granted without undergoing afresh the procedure prescribed for obtaining environmental clearance. The matter has been considered in the ministry. The change in project site would lead to change in project affected people as well as the

change in study area and the impact zone. As such the Environment Impact Assessment Report and Public Hearing conducted for a particular location cannot be taken valid for the changed location.

Accordingly, it has been decided that any shift in project site location after holding of public hearing will be deemed to be a new proposal and will be appraised afresh as per the procedure prescribed under EIA Notification 2006 provided the respective Expert Appraisal Committee is satisfied that the shift is so minor as to have no change in EIA/EMP, duly recorded in the minutes and prior approval of advisor (In-charge)/SEIAA for Category 'A'/Category 'B' projects respectively is obtained for not holding the public hearing for the changed location afresh.

This issues with the approval of the Competent Authority.”

27. By a communication being Reference No.1142 dated 4th May 2010, the District DFO (District Forest Officer) Bokaro requested JSPCB to take action against the Appellant for setting up its integrated steel plant on forest land in Mauza Bhagabandh of Chas Block of Bokaro District, in violation of the Forest Conservation Act 1980 and Indian Forest Act 1927. The DFO, Bokaro reported encroachment of 220.88 acres of notified forest land by the Appellant to JSPCB.

28. It appears that cases had been initiated against the officials of the Appellant under the Indian Forest Act, 1927, Forest Conservation Act, 1980 and the Bihar Public Land Encroachment Act, 1955 which have been quashed by the Jharkhand High Court, by an order dated 25th January 2011.

29. On or about 23rd September 2010 the Appellant applied for Consent to Operate (CTO) under the Air Pollution Act and the Water Pollution Act for its 350 m³ blast furnace. Later on 9th September 2011, the Appellant applied for CTO in respect of its entire plant.

30. By a letter dated 2nd December 2011, addressed to the Appellant, the MoEF confirmed that the lay out of the Appellant's 3 MTPA Integrated Steel Plant was well within the Environment Impact Area and that the affected people had the opportunity to participate in a public hearing.

31. By letter dated 18th May 2012, the JSPCB reported encroachment by the Appellant upon forest land and alleged violation by the Appellant of the Forest Conservation Act, 1980 to the MoEF&CC, New Delhi. The MoEF&CC was also informed of the unauthorized shifting of the integrated steel plant from Mauza South Parbatpur of Chandankiyari Block of Bokaro District to Mauza Bhagabandh of Chas Block of Bokaro District in violation of the conditions of Environment Clearance granted by the MoEC&CC.

32. Pursuant to the report of JSPCB, MoEF&CC issued a Show Cause Notice dated 6th June 2012 to the Appellant under Section 5 of the 1986 Act. The Appellant submitted its reply to the Show Cause Notice on 20th June 2012.

33. On 10th September 2012, the Appellant once again applied to JSPCB for CTO for one year under the Water Pollution Act and Air Pollution Act. According to the Appellant, several reminders were sent to MoEF&CC requesting MoEF&CC to intimate JSPCB of the outcome of the Show Cause

Notice issued to the Appellant. However, JSPCB has not been informed of the decision of MoEF&CC.

34. The Appellant filed a Writ Petition being W.P. No.2247/2012 in the Jharkhand High Court for orders on JSPCB to grant the Appellant CTO. The said writ petition was disposed of by an order dated 5th November 2012, the operative part whereof is set out hereinbelow:-

“Respondent 1& 2 to consider the petitioner’s application and as assured by them, if so required, give an opportunity of hearing to the petitioners and after taking into consideration the facts and provisions of law and the related decisions, shall dispose of the petitioner’s application within five weeks from the date of receipt/production of a copy of this order.”

35. On or about 27th November 2013, the application of the Appellant for CTO was rejected on the ground that the Appellant had shifted the site of its steel Plant and had encroached upon forest land in violation of the Forest Conservation Act, 1980. The operative part of the order dated 27th November 2013 reads:-

“at this stage subject to final outcome of the decision of MoEF&CC, New Delhi with respect to show cause notice dated 6.6.2012, we dispose the application for CTO in exercise of power conferred u/s 21(4) of Air (Prevention and Control of Pollution) Act, 1981 & u/s 25(4) of Water (Prevention and Control of Pollution) Act, 1974 by “refusing” the CTO to the unit for the reason aforesaid.”

36. The Appellant filed an application for contempt being Contempt Case (C) No.939 of 2013 in W.P.(C) No.2247 of 2012 in the Jharkhand High Court. Pursuant to an order dated 29th November 2013 in the Contempt Petition, the JSPCB disposed of the applications for grant of CTO to the Appellant.

37. By a letter dated 17th April 2013, the MoEF&CC had called for a status report from the State of Jharkhand in respect of forest land encroached by the Appellant. The Forest Department submitted a report to the MoEF&CC on 13th May, 2014.

38. Thereafter, by a letter dated 20th October 2014, the MoEF&CC, New Delhi directed the Department of Forest, Environment and Climate Change, Government of Jharkhand to take action against the Appellant for violating the provisions of Indian Forest Act, 1927 and Forest Conservation Act, 1980. In compliance with the aforesaid order, JSPCB directed the Appellant to close down its plant under Section 31(A) of the Air Pollution Act and Section 33(A) of Water Pollution Act.

39. By a Memo No.521 dated 6th February 2015, the Department of Forest, Environment and Climate Change, Government of Jharkhand directed the DGP, Jharkhand, Ranchi and the Deputy Commissioner, Bokaro to take action against the Appellant in the light of the letter dated 20th October, 2014 of the MoEF&CC, Government of India and to submit an action taken report.

40. The aforesaid order of JSPCB was challenged by the Appellant by filing a Writ Petition being WP(C) No.2033 of 2015 in the Jharkhand High Court. By an order dated 5th February 2016 the High Court set aside the order of the JSPCB holding that the same had been passed in violation of principles of natural justice. The High Court however, held that JSPCB

would be at liberty to pass an order in accordance with law after giving the Appellant an opportunity of hearing.

41. Thereafter, a show cause notice dated 25th April 2016, was issued to the Appellant. The Appellant replied to the show cause notice on 28th September 2016, contending that the Appellant had not set up its plant on any forest land and that all pollution control measures had been taken. However, the Principal Chief Conservator of Forests (PCCF), Jharkhand had by a communication No.2966 dated 8th August 2016 informed JSPCB that the Appellant had encroached forest land. Thereafter JSPCB once again called upon the Appellant to show cause in the light of information provided by the PCCF, Jharkhand. The Appellant by a letter dated 28th September 2016 reiterated that there was no forest land in the plant premises.

42. JSPCB passed an order No.B-319 dated 13th February 2017 disposing of the show cause notice in the light of the direction dated 5th February 2016 of the Jharkhand High Court and the applications for CTO. JSPCB granted CTO to the Appellant which was valid till 31st December, 2017.

43. The MoEF&CC and the State Environment Impact Assessment Authorities had, in the meanwhile been receiving proposals under the Environment Impact Assessment Notification, 2006 for grant of Terms of Reference and Environmental Clearance for projects which had started the work on site, expanded the production beyond the limit of

environmental clearance or changed the product mix without obtaining prior environmental clearance.

44. The MoEF&CC deemed it necessary that all entities not complying with the environmental regulation under Environment Impact Assessment Notification, 2006, be brought to comply with the environmental laws in expedient manner, for the purpose of protecting and improving the quality of the environment and reducing environmental pollution.

45. The MoEF&CC deemed it necessary to bring such projects and activities in compliance with the environmental laws at the earliest point of time, rather than leaving them unregulated and unchecked, which would be more damaging to the environment.

46. In furtherance of this objective, the Government of India deemed it essential to establish a process for appraisal of cases of violation of norms, and prescribing such adequate environmental safeguards that would deter violation of the provisions of Environment Impact Assessment Notification, 2006 and ensure that damage to environment was adequately compensated for.

47. In ***Indian Council for Enviro-Legal Action and Ors. v. Union of India and Ors.***¹, the Supreme Court analyzed relevant provisions of environmental laws and concluded that damages might be recovered under the provisions of the 1986 Act, inter alia, to implement measures that were necessary or expedient for protecting and promoting the

1. (1996) 3 SCC 212

environment. This Court affirmed that the power of the Central Government under Section 3 of the 1986 Act was wide and included the power to prohibit an activity, close an industry, direct to carry out remedial measures, and wherever necessary impose the cost of remedial measures upon the offending industry. The question of liability of the respondents to defray the costs of remedial measures could also be looked into from the principle “polluter pays.”

48. In exercise of power under Section 3(1) and Section 3(2)(v) of the 1986 Act read with Rule 5(3)(d) of the Environment (Protection) Rules, 1986, the Central Government has issued a Notification being S.O. 804(E) dated 14th March 2017 which provides for grant of ex post facto EC for project proponents who have commenced, continued or completed a project without obtaining EC under the 1986 Act or the EIA notification issued under it.

49. Paragraphs 3, 4 and 5 of the said notification, read as follows :

“(3) In cases of violation, action will be taken against the project proponent by the respective State or State Pollution Control Board under the provisions of section 19 of the Environment (Protection) Act, 1986 and further, no consent to operate or occupancy certificate will be issued till the project is granted the environmental clearance.

(4) The cases of violation will be appraised by respective sector Expert Appraisal Committees constituted under sub-section (3) of Section 3 of the Environment (Protection) Act, 1986 with a view to assess that the project has been constructed at a site which under prevailing laws is permissible and expansion has been done which can be run sustainably under compliance of environmental norms with adequate environmental safeguards; and in case, where the finding of the Expert Appraisal Committee is negative, closure of the project will be recommended along with other actions under the law.

(5) In case, where the findings of the Expert Appraisal Committee on point at sub-para(4) above are affirmative, the projects under this category will be prescribed the appropriate Terms of Reference for undertaking Environment Impact Assessment and preparation of Environment Management Plan. Further, the Expert Appraisal Committee will prescribe a specific Terms of Reference for the project on assessment of ecological damage, remediation plan and natural and community resource augmentation plan and it shall be prepared as an independent chapter in the environment impact assessment report by the accredited consultants. The collection and analysis of data for assessment of ecological damage, preparation of remediation plan and natural and community resource augmentation plan shall be done by an environmental laboratory duly notified under Environment (Protection) Act, 1986, or a environmental laboratory accredited by National Accreditation Board for Testing and Calibration Laboratories or a laboratory of a Council of Scientific and Industrial Research institution working in the field of environment."

50. On or about 24th August 2017, the Appellant applied for CTO for five years. On 13th November 2017, JSPCB issued a Show Cause Notice to the Appellant pointing out alleged contraventions of the conditions of Consent to Operate (CTO) earlier granted to the Appellant. The Appellant was called upon to show cause whether conditions of the CTO had been contravened while the application of the Appellant for CTO for five year was pending.

51. On 23rd November 2017, the Appellant submitted its online reply to the Show Cause Notice showing compliance of the conditions of the CTO.

52. By a communication No.2105 dated 18th December 2017 JSPCB requested MoEF&CC to inform JSPCB of the decision on the show cause notice issued to the Appellant under Section 5 of the 1986 Act for

revocation of the EC for non compliance of the conditions for grant of EC for the integrated plant at Parbatpur, Jharkhand.

53. Aggrieved by the failure of JSPCB to issue/renew the CTO to the Appellant, pursuant to its application made on 24th August 2017, the Appellant filed a writ petition being W.P.(C) No. 1873 of 2018 in the Jharkhand High Court on or about 12th April 2018 seeking directions on the JSPCB to issue CTO to the Appellant.

54. By an order dated 16th July 2018, the High Court directed the JSPCB to take a final decision on the application of renewal/grant of CTO filed by the Appellant on 24th August 2017 within the time stipulated in the said order.

55. The High Court further passed an interim order directing that the Appellant be allowed to operate its unit under the supervisory and regulatory control of the JSPCB, who might carry out periodical check as to adherence by the Appellant of pollution control laws.

56. JSPCB passed an order dated 21st August, 2018, rejecting at that stage the request of the Appellant for CTO, subject to the decision of MoEF&CC on the show cause notice issued to the appellant. The operative part of the said order is set out hereinbelow:

“at this stage subject to final outcome of the decision of MoEF&CC, New Delhi with respect to show cause notice dated 6.6.2012, we dispose the application for CTO in exercise of power conferred u/s 21(4) of Air (Prevention and Control of Pollution) Act, 1981 & u/s 25(4) of Water (Prevention and Control of pollution) Act, 1974 by “refusing” the CTO to the unit for the reason aforesaid.”

57. The Appellant, thereafter approached the High Court with a prayer for amendment of Writ Petition No.1873 of 2018. By an order dated 25th August 2018, the High Court allowed the application for amendment of the Writ Petition and directed the respondent to file their response to the amended writ petition. The High Court further directed:-

“10. So far as interim relief is concerned, this court finds that the order passed by the respondent-Jharkhand State Pollution Control Board dated 23.08.2018 appears to be directly dependent on the final decision which is yet to be taken by the Ministry of Environment, Forest & Climate Change on the show cause issued to the petitioner as back as in the year 2012. As per the submission made by the counsel appearing on behalf of Union of India, they are shortly going to take a final decision in the matter after hearing the petitioner. Accordingly the operation, implementation and execution of the order dated 23.08.2018 passed by Jharkhand State Pollution Control Board is hereby stayed till 27.09.2018 and the interim order dated 16.07.2018 is hereby extended till 27.09.2018.

11. So far as decision of the Ministry of Environment, Forest & Climate Change are concerned, considering the fact that the unit of the petitioner is running unit and large number of employees are working in this unit of the petitioner, this court consider it appropriate that the issue regarding the environmental clearance of the petitioner should be decided at the earliest.

12. It is further observed that it is open to the petitioner to approach the Union of India with their proposal/ application for regularization of the alleged violation, without prejudice to their rights (including right, title, interest, possession and nature of property of the petitioner) and advance submissions before the respondent authority of Union of India pursuant to the show cause notice issued to them dated 6.6.2012 and the appropriate authority may, if possible, simultaneously consider the aforesaid application of the petitioner for regularization along with the show cause reply of the petitioner such that entire dispute is decided and the petitioner may also have a clarity about the fate of its unit. The decision which is to be taken by the Union of India be brought on record by either of the parties by filing supplementary affidavit latest by 25.09.2018.

13. I.A. No. 7610 of 2018 and I.A No. 7613 OF 2018 are hereby disposed of.

14.It is made clear that this court has not gone into the merits of the claim of the petitioner and it will be open to the respondent no 3 to take decision as per law.”

58. By the aforesaid order dated 25th August 2018, the High Court directed MoEF to take a decision on the application of the Appellant for EC as also a decision regarding violation by the Appellant of the provisions of EC by encroachment upon forest land by shifting the location of the plant.

59. On 31st August 2018, MoEF&CC issued a show cause notice No. F.No. J-11011/137/2006-1A Pt.II (i) dated 31st August 2018 to the Appellant for violating the provisions of the EC by shifting the location of its plant and encroaching upon forest land.

60. The Respondent No.1 was also accorded personal hearing on 10th September 2018. On 12th September 2018 Mr. Gyanesh Bharti who presided over the personal hearing was transferred from MoEF&CC.

61. On 20th September 2018 the Respondent No.1 issued an order bearing No.F.No.J-11011/137/2006-IA.II(I) revoking the EC of the Appellant on the ground that the Appellant had encroached upon 220 acres of forest land and had shifted the location of its plant from Parbatpur to Bhagabandh, violating the conditions stipulated in the EC.

62. The Appellant filed Writ petition being W.P. (C) No.4850 of 2018 in the Jharkhand High Court challenging the revocation of the EC granted to the Appellant.

63. On 27th September 2018 the High Court passed an interim order staying the operation, implementation and execution of the impugned order dated 20th September 2018. The Court prima facie found that the impugned order, passed in violation of principles of natural justice, had serious repercussions on the unit of the Appellant which was a running unit, and had caused prejudice to the Appellant.

64. On 4th October 2018, the Appellant applied for ex post facto Forest Clearance (FC) without prejudice to its rights and contentions. On 27th November 2019 the Appellant applied for a “revised” EC without prejudice to its rights and contentions. In the meanwhile, the Interim order passed by the High Court on 27th September 2018 was extended from time to time. Such extensions were granted on 10.10.2018, 5.11.2018, 11.12.2018, 8.1.2019, 23.1.2019, 16.5.2019, 25.7.2019 and 17.10.2019.

65. On 17th December 2019, MoEF&CC passed an order according ex post facto in principle approval for the forest diversion/clearance proposal of the Appellant. The operative part of the said order reads:-

“After careful examination of the proposal of the State Government and on the basis of the recommendations of the Forest Advisory Committee and approval of the same by the competent authority of the MoEF&CC, New Delhi, the Central Government hereby accords ex-post facto ‘in-principle’ approval under Section -2 of the Forest (Conservation) Act, 1980 for diversion of 184.23 ha of forest land (174.39 ha encroached (ex-post facto) and 9.84 ha virgin land) in favour of M/s Electrosteel Steels Limited in the State of Jharkhand subject to fulfilment of following conditions:-

(i) Legal status of the diverted forest land shall remain unchanged;...”

66. By an order dated 26th February 2020, the Jharkhand High Court directed that the pendency of W.P. (C) No. 4850 of 2018 and W.P. (C) No.1873 of 2018 would not come in the way of consideration by the MoEF&CC of grant or refusal of restoration of EC and it would be open to the Ministry to take appropriate decision in accordance with law. The interim orders in force were extended.

67. Thereafter by a letter dated 2nd March 2020, the Appellant requested MoEF&CC to consider the application of the Appellant for revised EC. In the meanwhile, the interim orders passed by the High Court were further extended. The interim orders were extended by orders passed on 26.2.2020, 7.4.2020 and 29.5.2020.

68. The Writ Petition was called for hearing on 19th June 2020 whereupon it was submitted on behalf of the Respondent No.1 that the revised EC application of the Appellant would be placed before the Expert Appraisal Committee (EAC) for consideration on merit and Violation Committee would decide on the action to be taken against the Appellant for violation of Environment (Protection) Act, 1986.

69. On 6th August 2020 and 7th August 2020, the case of the Appellant was placed before the EAC at its 35th meeting. The Appellant was invited to present its proposal online before the Committee.

70. After detailed deliberation, the EAC appraised the proposal on merits and recommended issuance of Standard Terms of Reference along with Specific Terms of Reference for undertaking Environmental Impact Assessment (EIA) and preparation of Environment Management Plan (EMP). The EAC noted that the plant was a running unit and the EC was subject to the conditions imposed in the Terms of Reference.

71. On 4th September 2020, the Jharkhand High Court extended the interim orders till 8th September 2020 while awaiting response from the Respondents. On 8th September 2020, the High Court reserved orders on the extension of interim orders dated 16th July 2018 and 27th September 2018 while listing the writ petitions for final hearing on 16th September 2020.

72. On 15th September 2020, the Respondent No.1 filed an affidavit stating that it had no objection to extension of the interim orders considering that the steel plant employed a large workforce. At the hearing on 16th September 2020 JSPCB also consented to extension of the interim order. However, the High Court passed the impugned order dated 16th September 2021 dis-continuing the earlier interim orders on, *inter alia*, the following grounds:

- (i) The Expert Appraisal Committee of the MoEF&CC had, after detailed deliberations, found that the Appellant had been in violation of the EIA Notification 2006 and general condition no. (ii) of the EC dated 21.02.2008.
- (ii) The MoEF&CC had while issuing ToR for grant of EC recommended action against the Appellant under Section 19 of

the 1986 Act for past violations. Extension of the interim orders would amount to staying action.

- (iii) In ***Alembic Pharmaceuticals Ltd. v. Rohit Prajapati and Others²***, this Court had deprecated ex post facto Ecs but passed certain directions in exercise of powers under Article 142 of the Constitution.

73. By an Office Memorandum, being F.No. 22-21/2020-1A III, dated 7th July 2021, the MoEF&CC issued Standard Operating Procedure (SOP) for Identification and Handing of violation cases under EIA Notification 2006.

74. The said Office Memorandum, *inter alia*, reads:

“The Ministry had issued a notification number S.O.804(E), dated the 14th March, 2017 detailing the process for grant of Terms of Reference and Environmental Clearance in respect of projects or activities which have started the work on site and/ or expanded the production beyond the limit of Prior EC or changed the product mix without obtaining Prior EC under the EIA Notification, 2006.

2. This Notification was applicable for six months from the date of publication i.e. 14.03.2017 to 13.09.2017 and further based on court direction from 14.03.2018 to 13.04.2018.

3. Hon'ble NGT in Original Application No. 287 of 2020 in the matter of Dastak N.G.O. Vs Synochem Organics Pvt. Ltd. &Ors. and in applications pertaining to same subject matter in Original Application No. 298 of 2020 in Vineet Nagar Vs. Central Ground Water Authority &Ors., vide order dated 03.06.2021 held that “(...) for past violations, the concerned authorities are

free to take appropriate action in accordance with polluter pays principle, following due process”.

4. Further, the Hon'ble National Green Tribunal in O.A No. 34/2020 WZ in the matter of Tanaji B. Gambhire vs. Chief Secretary, Government of Maharashtra and ors., vide order dated 24.05.2021 has directed that “ **... a proper SoP be laid down for grant of EC in such cases so as to address the gaps in binding law and practice being currently followed. The MoEF may also consider circulating such SoP to all SEIAAs in the country**”.

5. Therefore, in compliance to the directions of the Hon'ble NGT a Standard Operating Procedure (SoP) for dealing with violation cases is required to be drawn. The Ministry is also seized of different categories of 'violation' cases which have been pending for want of an approved structural/procedural framework based on 'Polluter Pays Principle' and 'Principle of Proportionality'. It is undoubtedly important that action under statutory provisions is taken against the defaulters/violators and a decision on the closure of the project or activity or otherwise is taken expeditiously.

6. In the list of the above directions of the Hon'ble Tribunal and the issues involved, the matter has accordingly been examined in detail in the Ministry. A detailed SoP has accordingly been framed and is outlined herein. The SoP is also guided by the observations/decisions of the Hon'ble Courts wherein principles of proportionality and polluters pay have been outlined.”

75. The Standard Operating Procedure formulated by the said Office Memorandum dated 7th July 2021 refers to and gives effect to various judicial pronouncements including the judgment of this Court in ***Alembic Pharmaceuticals*** (supra).

76. In terms of the Standard Operating Procedure, the proposal for grant of EC in cases of violation are to be considered on merits, with prospective effect, applying principles of proportionality and the principle that the polluter pays and is liable for costs of remedial measures.

77. By an interim order passed on 15th July 2021 in WP(MD) 11757 of 2021 in ***Fatima vs. Union of India***, the Madurai Bench of Madras High Court has stayed the operation of the Standard Operating Procedure.

78. By an order dated 25th August 2021, MoEF&CC rejected the application of the Appellant for the time being. The application has, in effect, been kept in abeyance.

79. The MoEF apparently did not take any decision on the application of the Appellant for EC, since the Standard Operating Procedure issued by it has been stayed by the Madurai Bench of Madras High Court, by the said order dated 15th July 2021, citing the judgment of this Court in ***Alembic Pharmaceuticals*** (supra).

80. The Appellant has filed an application being I.A No.125221 of 2021 in this appeal seeking directions on the Respondent No.1 to process the Appellant's application dated 5th August 2020 for revised EC.

81. There can be no doubt that the need to comply with the requirement to obtain Environment Clearance is non-negotiable. A project can be set up or allowed to expand subject to compliance of the requisite norms. Environmental clearance is granted on condition of the suitability of the site to set up the project from the environmental angle, and existence of necessary infrastructural facilities and equipment for compliance of environmental norms. To protect future generations, it is imperative that pollution laws be strictly enforced. Under no circumstances, can industries which pollute be allowed to operate unchecked and degrade the environment.

82. The question is whether an establishment contributing to the economy of the country and providing livelihood to hundreds of people should be closed down for the technical irregularity of shifting its site without prior environmental clearance, without opportunity to the establishment to regularize its operation by obtaining the requisite clearances and permissions, even though the establishment may not otherwise be violating pollution laws, or the pollution, if any, can conveniently and effectively be checked. The answer has to be in the negative.

83. The Central Government is well within the scope of its powers under Section 3 of the 1986 Act to issue directions to control and/or prevent pollution including directions for prior Environmental Clearance before a project is commenced. Such prior Environmental Clearance is necessarily granted upon examining the impact of the project on the

environment. Ex-Post facto Environmental Clearance should not ordinarily be granted, and certainly not for the asking. At the same time ex post facto clearances and/or approvals and/or removal of technical irregularities in terms of Notifications under the 1986 Act cannot be declined with pedantic rigidity, oblivious of the consequences of stopping the operation of a running steel plant.

84. The 1986 Act does not prohibit ex post facto Environmental Clearance. Some relaxations and even grant of ex post facto EC in accordance with law, in strict compliance with Rules, Regulations Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with, or can be made to comply with environment norms, is in over view not impermissible. The Court cannot be oblivious to the economy or the need to protect the livelihood of hundreds of employees and others employed in the project and others dependent on the project, if such projects comply with environmental norms.

85. As held by a three Judge Bench of this Court in *Lafarge Umiam Mining Private Limited v. Union of India*³ (“Lafarge”) reported in (2011) 7 SCC 338:

“119. The time has come for us to apply the constitutional “doctrine of proportionality” to the matters concerning environment as a part of the process of judicial review in contradistinction to merit review. It cannot be gainsaid that utilization of the environment and its natural resources has to be in a way that is consistent with principles of sustainable development and intergenerational equity, but balancing of these equities may entail policy choices. In the circumstances, barring

3. (2011) 7 SCC 338

exceptions, decisions relating to utilization of natural resources have to be tested on the anvil of the well- recognized principles of judicial review. Have all the relevant factors been taken into account? Have any extraneous factors influenced the decision? Is the decision strictly in accordance with the legislative policy underlying the law (if any) that governs the field? Is the decision consistent with the principles of sustainable development in the sense that has the decision-maker taken into account the said principle and, on the basis of relevant considerations, arrived at a balanced decision? Thus, the Court should review the decision-making process to ensure that the decision of MoEF is fair and fully informed, based on the correct principles, and free from any bias or restraint. Once this is ensured, then the doctrine of "margin of appreciation" in favour of the decision-maker would come into play."

86. In ***Alembic Pharmaceuticals*** (supra) this Court observed:-

"27. The concept of an ex post facto EC is in derogation of the fundamental principles of environmental jurisprudence and is an anathema to the EIA notification dated 27 January 1994. It is, as the judgment in Common Cause holds, detrimental to the environment and could lead to irreparable degradation. The reason why a retrospective EC or an ex post facto clearance is alien to environmental jurisprudence is that before the issuance of an EC, the statutory notification warrants a careful application of mind, besides a study into the likely consequences of a proposed activity on the environment. An EC can be issued only after various stages of the decision-making process have been completed. Requirements such as conducting a public hearing, screening, scoping and appraisal are components of the decision-making process which ensure that the likely impacts of the industrial activity or the expansion of an existing industrial activity are considered in the decision-making calculus. Allowing for an ex post facto clearance would essentially condone the operation of industrial activities without the grant of an EC. In the absence of an EC, there would be no conditions that would safeguard the environment. Moreover, if the EC was to be ultimately refused, irreparable harm would have been caused to the environment. In either view of the matter, environment law cannot countenance the notion of an ex post facto clearance. This would be contrary to both the precautionary principle as well as the need for sustainable development.

87. In **Alembic Pharmaceuticals** (supra), this Court deprecated ex-post facto clearances, but this Court did not pass orders for closure of the three industries concerned, on consideration of the consequences of their closure. This court proceeded to observe and held:-

44. The issue which must now concern the Court is the consequence which will emanate from the failure of the three industries to obtain their ECs until 14 May 2003 in the case of Alembic Pharmaceuticals Limited, 17 July 2003 in the case of United Phosphorous Limited, and 23 December 2002 in the case of Unique Chemicals Limited. The functioning of the factories of all three industries without a valid EC would have had an adverse impact on the environment, ecology and biodiversity in the area where they are located. The Comprehensive Environmental Pollution Index⁴ report issued by the Central Pollution Control Board for 2009-2010 describes the environmental quality at 88 locations across the country. Ankleshwar in the State of Gujarat, where the three industries are located showed critical levels of pollution⁵. In the Interim Assessment of CEPI for 2011, the report indicates similar critical figures⁶ of pollution in the Ankleshwar area. The CEPI scores for 2013⁷ and 2018⁸ were also significantly high. This is an indication that industrial units have been operating in an unregulated manner and in defiance of the law. Some of the environmental damage caused by the operation of the industrial units would be irreversible. However, to the extent possible some of the damage can be corrected by undertaking measures to protect and conserve the environment.

45. Even though it is not possible to individually determine the exact extent of the damage caused to the environment by the three industries, several circumstances must weigh with the Court in determining the appropriate measure of restitution. First, it is not in dispute that all the three industries did obtain ECs, though this was several years after the EIA notification of 1994 and the commencement of production. Second, subsequent to the grant of the ECs, the manufacturing units of all the three

4. "CEPI"

5. CEPI score - 88.50

6. CEPI score - 85.75

7. CEPI score - 80.93

8. CEPI score - 80.21

*industries have also obtained ECs for an expansion of capacity from time to time. Third, the MoEF had issued a circular on 5 November 1998 permitting applications for ECs to be filed by 31 March 1999, which was extended subsequently to 30 June 2001. On 14 May 2002, the deadline was extended until 31 March 2003 subject to a deposit commensurate to the investment made. The circulars issued by the MoEF extending time for obtaining ECs came to the notice of this Court in Goa Foundation (I) v. Union of India⁹. Fourth, though in the context of the facts of the case, this Court in Lafarge Umiam Mining Private Limited v. Union of India¹⁰ ("Lafarge") has upheld the decision to grant ex post facto clearances with respect to limestone mining projects in the State of Meghalaya. In **Lafarge**, the Court dealt with the question of whether ex post facto clearances stood vitiated by alleged suppression of the nature of the land by the project proponent and whether there was non-application of mind by the MoEF while granting the clearances. While upholding the ex post facto clearances, the Court held that the native tribals were involved in the decision-making process and that the MoEF had adopted a due diligence approach in reassuring itself through reports regarding the environmental impact of the project. "*

(Emphasis supplied)

46. After advertng to the decision in **Lafarge**, another Bench of three learned judges of this Court in *Electrotherm (India) Limited v. Patel Vipulkumar Ramjibhai*¹¹, dealt with the issue of whether an EC granted for expansion to the appellant without holding a public hearing was valid in law. Justice Uday Umesh Lalit speaking for the Bench held thus:

"19...the decision-making process in doing away with or in granting exemption from public consultation/public hearing, was not based on correct principles and as such the decision was invalid and improper."

47. The Court while deciding the consequence of granting an EC without public hearing did not direct closure of the appellant's unit and instead held thus:

"20. At the same time, we cannot lose sight of the fact that in pursuance of environmental clearance dated 27-1-2010, the expansion of the project has been undertaken

9. (2005) 11 SCC 559

10. (2011) 7 SCC 338

11. (2016) 9 SCC 300

*and as reported by CPCB in its affidavit filed on 7-7-2014, most of the recommendations made by CPCB are complied with. In our considered view, the interest of justice would be subserved if that part of the decision exempting public consultation/public hearing is set aside and the matter is relegated back to the authorities concerned to effectuate public consultation/public hearing. **However, since the expansion has been undertaken and the industry has been functioning, we do not deem it appropriate to order closure of the entire plant as directed by the High Court.** If the public consultation/public hearing results in a negative mandate against the expansion of the project, the authorities would do well to direct and ensure scaling down of the activities to the level that was permitted by environmental clearance dated 20-2-2008. If public consultation/public hearing reflects in favour of the expansion of the project, environmental clearance dated 27-1-2010 would hold good and be fully operative. **In other words, at this length of time when the expansion has already been undertaken, in the peculiar facts of this case and in order to meet ends of justice, we deem it appropriate to change the nature of requirement of public consultation/public hearing from pre-decisional to post-decisional. The public consultation/public hearing shall be organised by the authorities concerned in three months from today.**"*

(Emphasis supplied)

48. Guided by the precepts that emerge from the above decisions, this Court has taken note of the fact that though the three industries operated without an EC for several years after the EIA notification of 1994, each of them had subsequently received ECs including amended ECs for expansion of existing capacities. These ECs have been operational since 14 May 2003 (in the case of Alembic Pharmaceuticals Limited), 17 July 2003 (in the case of United Phosphorous Limited), and 23 December 2002 (in the case of Unique Chemicals Limited). In addition, all the three units have made infrastructural investments and employed significant numbers of workers in their industrial units.

49. *In this backdrop, this Court must take a balanced approach which holds the industries to account for having operated without environmental clearances in the past without ordering a closure of operations. The directions of the NGT for the revocation of the ECs and for closure of the units do not accord with the principle of proportionality. At the same time, the Court cannot be oblivious to the environmental degradation caused by all three industries units that operated without valid ECs. The three industries have evaded the legally binding regime of obtaining ECs. They cannot escape the liability incurred on account of such noncompliance. Penalties must be imposed for the disobedience with a binding legal regime. The breach by the industries cannot be left unattended by legal consequences. The amount should be used for the purpose of restitution and restoration of the environment. Instead and in place of the directions issued by the NGT, we are of the view that it would be in the interests of justice to direct the three industries to deposit compensation quantified at Rs. 10 crores each. The amount shall be deposited with GPCB and it shall be duly utilised for restoration and remedial measures to improve the quality of the environment in the industrial area in which the industries operate. Though we have come to the conclusion, for the reasons indicated, that the direction for the revocation of the ECs and the closure of the industries was not warranted, we have issued the order for payment of compensation as a facet of preserving the environment in accordance with the precautionary principle. These directions are issued under Article 142 of the Constitution. Alembic Pharmaceuticals Limited, United Phosphorous Limited and Unique Chemicals Limited shall deposit the amount of compensation with GPCB within a period of four months from the date of receipt of the certified copy of this judgment. This deposit shall be in addition to the amount directed by the NGT. Subject to the deposit of the aforesaid amount and for the reasons indicated, we allow the appeals and set aside the impugned judgment of the NGT dated 8 January 2016 in so far as it directed the revocation of the ECs and closure of the industries as well as the order in review dated 17 May 2016."*

87. The Notification being SO 804(E) dated 14th March, 2017 was not an issue in *Alembic Pharmaceuticals (supra)*. This Court was examining the propriety and/or legality of a 2002 circular which was inconsistent with the EIA Notification dated 27th January, 1994, which was statutory. Ex post facto environmental clearance should not however be granted routinely, but in exceptional circumstances taking into account all relevant environmental factors. Where the adverse consequences of ex post facto approval outweigh the consequences of regularization of operation of an industry by grant of ex post facto approval and the industry or establishment concerned otherwise conforms to the requisite pollution norms, ex post facto approval should be given in accordance with law, in strict conformity with the applicable Rules, Regulations and/or Notifications. Ex post facto approval should not be withheld only as a penal measure. The deviant industry may be penalised by an imposition of heavy penalty on the principle of 'polluter pays' and the cost of restoration of environment may be recovered from it.

88. We are of the view that the High Court erred in passing the impugned order, vacating interim orders which had been in force for two years. The impugned order is not in conformity with the principle of proportionality. This is not a case where the steel plant was started without environmental clearance or consent of JSPCB. The Appellant had applied for and obtained environmental clearance to set up an integrated steel plant (3MTPA) on 1350 acres of land at Mauza South Parbatpur, as observed above. Environmental Clearance had been granted on 21st

February 2008 and Consent to Operate had been granted by JSPCB on 5th May 2008.

89. The Appellant established its steel plant in Mauza Bhagaband, 5.3 kms away from the site for which EC and CTE had been granted. It is the contention of the Appellant that the shift is minor and makes no change in the EIA/EMP on the basis of which EC has been granted. The shift did not require fresh public hearing in terms of the Circular dated 22nd January 2010 of the MoEF.

90. As aforesaid, by a letter dated 2.12.2011 addressed to the Appellant, the MoEF confirmed that the steel plant of the Appellant was within the Environment Impact Area and the affected people had the opportunity to air their views in a public hearing. The question is whether the Petitioner was required to obtain fresh prior clearance for shifting or was covered by the exemption under the said Notification dated 22nd January 2010.

91. The Appellant has all along asserted that no part of the premises of the integrated steel plant is in any forest. As such there was no violation of the Indian Forest Act, 1927 or the Forest Conservation Act, 1980. The MoEF had also confirmed that the steel plant in question was well within the Environment Impact Area and the affected people had the opportunity in a public hearing. Be that as it may, whether the shifting of the site has really made any difference from the environmental impact angle requires consideration by the appropriate authority/forum.

92. In any case, the Appellant has duly applied for ex post facto forest clearance approval without prejudice to its rights and contentions that its steel plant is not on forest land and also applied for revised EC. On 17th December 2019, MoEF&CC accorded ex post facto in principle approval to the forest clearance proposal on the recommendations of the Forest Advisory Committee. The application for revised clearance is pending consideration. No final decision has however been taken, ostensibly in view of the interim order passed by the Madras High Court staying the operation of the Standard Operation Procedures issued vide Memorandum dated 7th July 2021.

93. The interim order passed by the Madras High Court appears to be misconceived. However, this Court is not hearing an appeal from that interim order. The interim stay passed by the Madras High Court can have no application to operation of the Standard Operating Procedure to projects in territories beyond the territorial jurisdiction of Madras High Court. Moreover, final decision may have been taken in accordance with the Orders/Rules prevailing prior to 7th July, 2021.

94. In passing the impugned order the High Court overlooked the consequences of closure of an integrated steel plant with a work force of 300 regular and 700 contractual workers. The High Court also failed to appreciate that the judgment of this Court in ***Alembic Pharmaceuticals*** (supra) was distinguishable on facts. Furthermore, continuance of the interim orders allowing operation of an industrial establishment or even the grant of revised EC to the industrial establishment cannot stand in

the way of action against that establishment for contraventions, including the imposition of penalty, on the principle 'polluter pays'. The scope and effect of Section 32A of the IBC is a different issue. This Court need not examine into the question of whether penal action can be initiated against the Appellant or, whether compensation can be recovered from the Appellant, at this stage. The issue may be decided by the appropriate authority at the appropriate stage when it adjudicates an action for penalization of the Appellant or recovery of compensation from the Appellant. The application of the Appellant for revised EC, CTO etc. shall be considered strictly in accordance with environmental norms.

95. The appeals are allowed. The impugned order is set aside. The Respondent No.1 shall take a decision on the application of the Appellant for revised EC in accordance with law, within three months from date. Pending such decision, the operation of the steel plant shall not be interfered with on the ground of want of EC, FC, CTE or CTO.

**New Delhi;
December 9, 2021**

REPORTABLE

**IN THE SUPREME COURT OF INDIA
CIVIL APPELLATE JURISDICTION
CIVIL APPEAL NO. 4795 OF 2021**

M/S PAHWA PLASTICS PVT. LTD. AND ANR. Appellants

Versus

DASTAK NGO AND ORS. Respondents

J U D G M E N T

INDIRA BANERJEE, J.

This appeal under Section 22 of the National Green Tribunal Act, 2010, is against an order dated 3rd June 2021 passed by the Principal Bench of the National Green Tribunal (NGT) in O.A No.287/2020 at New Delhi, *inter alia*, holding that establishments such as the manufacturing units of the Appellants, which did not have prior Environmental Clearance (EC) could not be allowed to operate.

2. The question of law involved in this appeal is, whether an establishment employing about 8000 workers, which has been set up pursuant to Consent to Establish (CTE) and Consent to Operate (CTO) from the concerned statutory authority and has applied for *ex post facto* EC can be closed down pending issuance of EC, even though it

may not cause pollution and/or may be found to comply with the required pollution norms.

3. With increasing industrialization and the establishment of factories which emitted smoke and other pollutants, there was worldwide concern for protection of environment. In June 1972, the United Nations Conference on the Human Environment was held in Stockholm, where decisions were taken to take appropriate steps for preservation of the natural resources of the earth, which, among other things, included preservation of the quality of air and water by controlling pollution.

4. In 1974, Parliament enacted the Water (Prevention and Control of Pollution) Act, 1974, with a view to prevent and control water pollution and to maintain and restore wholesomeness of water.

5. In furtherance of the decisions taken at Stockholm, Parliament enacted the Air (Prevention and Control of Pollution) Act, 1981, hereinafter referred to as "the Air Pollution Act", to provide for prevention, control and abatement of air pollution.

6. The Air Pollution Act provides for the constitution of a Central Pollution Control Board (CPCB) and State Pollution Control Boards (SPCB) to deal with the problem of air pollution. Section 16 of the Air Pollution Act enables the Central Pollution Control Board to take steps to improve the quality of air and to prevent, control or abate air pollution in the country. Section 17 of the Air Pollution Act enables the State Pollution Control Boards to plan comprehensive programmes for

the prevention, control or abatement of air pollution, *inter alia*, by laying down standards for emission of air pollutants.

7. Section 18 of the Air Pollution Act enables the Central Government to give directions by which the CPCB is to be bound. Similarly, every SPCB is to be bound by directions in writing as might be given by the CPCB or the State Government.

8. Where a notification is issued under the Air Pollution Act, placing an area within the control area of air pollution, permission is necessary to set up and operate any factory or plant thereat. No person operating any factory or plant in any air pollution control area is to discharge or cause or permit to be discharged the emission of any air pollutants, in excess of the standards laid down by the SPCB under Clause (g) of sub-Section (1) of Section 17.

9. The Environment (Protection) Act, 1986, hereinafter referred to as "the EP Act" was also enacted pursuant to the decisions taken at the United Nations Conference on the Human Environment, held in Stockholm in June, 1972. As per the Statement of Objects and Reasons for enactment of the EP Act, the said Act has been prompted by concern over the environment, that has grown all over the world since the 60s.

10. Sub-section (1) of Section 3 of the EP Act empowers the Central Government to take all such measures as it might deem necessary or expedient for the purpose of protecting and improving the quality of

the environment and preventing, controlling and reducing environmental pollution.

11. Sub-section (2) of Section 3 of the EP Act enables the Central Government to take, *inter alia*, the following measures:

“(i) co-ordination of actions by the State Governments, officers and other authorities—

(a) under this Act, or the rules made thereunder; or

(b) under any other law for the time being in force which is relatable to the objects of this Act;

(ii) planning and execution of a nation-wide programme for the prevention, control and abatement of environmental pollution;

(iii) laying down standards for the quality of environment in its various aspects;

(iv) laying down standards for emission or discharge of environmental pollutants from various sources whatsoever:

Provided that different standards for emission or discharge may be laid down under this clause from different sources having regard to the quality or composition of the emission or discharge of environmental pollutants from such sources;

(v) restriction of areas in which any industries, operations or processes or class of industries, operations or processes shall not be carried out or shall be carried out subject to certain safeguards;

(vi) laying down procedures and safeguards for the prevention of accidents which may cause environmental pollution and remedial measures for such accidents;

(vii) laying down procedures and safeguards for the handling of hazardous substances;

(viii) examination of such manufacturing processes, materials and substances as are likely to cause environmental pollution;

(ix) carrying out and sponsoring investigations and research relating to problems of environmental pollution;

(x) inspection of any premises, plant, equipment, machinery, manufacturing or other processes, materials or substances and giving, by order, of such directions to such authorities, officers or

persons as it may consider necessary to take steps for the prevention, control and abatement of environmental pollution;

(xi) establishment or recognition of environmental laboratories and institutes to carry out the functions entrusted to such environmental laboratories and institutes under this Act;

(xii) collection and dissemination of information in respect of matters relating to environmental pollution;

(xiii) preparation of manuals, codes or guides relating to the prevention, control and abatement of environmental pollution;

(xiv) such other matters as the Central Government deems necessary or expedient for the purpose of securing the effective implementation of the provisions of this Act."

12. Sub-section (3) of Section 3 of the EP Act provides as follows:

"3. Power of Central Government to take measures to protect and improve environment.—

*...
(3) The Central Government may, if it considers it necessary or expedient so to do for the purposes of this Act, by order, published in the Official Gazette, constitute an authority or authorities by such name or names as may be specified in the order for the purpose of exercising and performing such of the powers and functions (including the power to issue directions under Section 5) of the Central Government under this Act and for taking measures with respect to such of the matters referred to in sub-section (2) as may be mentioned in the order and subject to the supervision and control of the Central Government and the provisions of such order, such authority or authorities may exercise the powers or perform the functions or take the measures so mentioned in the order as if such authority or authorities had been empowered by this Act to exercise those powers or perform those functions or take such measures."*

13. Subject to the provisions of the EP Act, the Central Government has power under sub-Section (1) of Section 3, to take all such measures, as it deems necessary or expedient, for the purpose of

protecting and improving the quality of environment and preventing, controlling or reducing environmental pollution.

14. Section 5 of the EP Act provides that notwithstanding anything contained in any other law, but subject to the provisions of the EP Act, the Central Government may, in exercise of its powers and performance of its functions under the EP Act, issue directions in writing to any person, officer or any authority and such person, officer or authority shall be bound to comply with such directions.

15. In exercise of powers conferred by Sections 6 and 25 of the EP Act, the Central Government has made the Environment (Protection) Rules, 1986, hereinafter referred to as “the EP Rules”.

16. The Central Government issued an Environmental Impact Assessment Notification dated 27th January 1994 in exercise of powers conferred by sub-section (1) and clause (v) of sub-section (2) of Section 3 of the EP Act read with clause (d) of sub-rule (3) of Rule 5 of the EP Rules, directing that on and from the date of publication of the said notification in the Official Gazette, expansion or modernization of any activity or a new project listed in Schedule I to the said notification shall not be undertaken in any part of India, unless it has been accorded EC by the Central Government in accordance with the procedures specified in the said notification.

17. In exercise of powers conferred by sub-section (1) and clause (v) of sub-section (2) of Section 3 of the EP Act read with clause (d) of sub-rule (3) of Rule 5 of the EP Rules and in supersession of notification

number S.O. 60 (E) dated 27th January 1994, except in respect of things done or omitted to be done before such supersession, the Central Government issued a notification dated 14th September 2006, being Notification S.O. 1533 (E) requiring prior environmental clearance from the Central Government or as the case may be, by the State-Level Environment Assessment Authority, duly constituted by the Central Government under sub-section (3) of Section 3 of the EP Act.

18. In terms of the said notification dated 14th September 2006, the process of environmental clearance for new projects was to comprise of a maximum of four stages, all of which might not apply to particular cases. The stages were (1) Screening, (2) Scoping, (3) Public Consultation and (4) Appraisal.

19. In the meanwhile, by a notification being S.O. 327 (E) dated 10th April 2001, published in the Gazette of India on 12th April 2001, the Central Government has delegated the powers vested in it under the EP Act, to the Chairpersons of the respective State Pollution Control Boards/Committees to issue directions to any industry or any local or other authority to prevent violation of the Rules.

20. The Appellants carry on business, *inter alia*, of manufacture and sale of basic organic chemicals, namely, Formaldehyde. The Appellant No.1, M/s Pahwa Plastics Private Limited has two manufacturing units, one at village Kharawar in Rohtak, hereinafter referred to as the "Rohtak Unit" and the other at village Jathlana, Jagadhri in Yamuna Nagar in Haryana, hereinafter referred to as the "Yamuna Nagar Unit".

The Appellant No.2 has a manufacturing unit at village Ghespur in Yamuna Nagar, Haryana which is hereinafter referred to as the "Yamuna Nagar Unit". The manufacturing units established, run and operated by the respective Appellants fall in the category of Micro, Small and Medium Enterprise (MSME) as defined under the Micro, Small and Medium Enterprises Development Act, 2006, hereinafter referred to as "the MSME Act".

21. On or about 31st March 2014, the Appellant No.1, M/s Pahwa Plastics Ltd. applied for Consent to Establish (CTE) its Yamuna Nagar unit for manufacture of Formaldehyde.

22. By a communication No. HSPCB/Consent/:2846616YAMCTE 3087415 dated 2nd June 2016, the Haryana State Pollution Control Board (HSPCB) granted Consent to Establish (CTE) to the Appellant No.1 M/s Pahwa Plastics Private Limited in respect of its Yamuna Nagar Unit. The CTE was to remain valid for 60 months from the date of its issue, to be extended for another year at the discretion of the Board or till the time the unit started its trial production, whichever was earlier.

23. Some of the terms and conditions on which CTE was granted are set out hereinbelow:-

"3. The officer/official of the Board shall have the right to access and inspection of the industry in connection with the various processes and the treatment facilities being provided simultaneously with the construction of building/machinery. The effluent should conform the effluent standards as applicable.

4. That necessary arrangement shall be made by the industry for the control of Air Pollution before commissioning the plant. The

emitted pollutants will meet the emission and other standards as laid/will be prescribed by the Board from time to time.

5. The applicant will obtain consent under section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under section 21/22 of the Air (Prevention & Control of Pollution) Act, 1981 as amended to-date-even before starting trial production.

6. The above Consent to Establish is further subject to the conditions that the unit complies with all the laws/rules/decisions and competent directions of the Board/Government and its functionaries in all respect before commissioning of the operation and during its actual working strictly.

8. The Electricity Department will give only temporary connection and permanent connection to the unit will be given after verifying the consent granted by the Board, both under Water Act and Air Act.

12. That there is no discharge directly or indirectly from the unit or the process into any interstate river or Yamuna River or River Ghaggar.

13. That the industry or the unit concerned is not sited within any prohibited distances according to the Environmental Laws and Rules, Notification, Orders and Policies of Central Pollution Control Board and Haryana State Pollution Control Board.

17. In case of change of name from previous Consent to Establish granted, fresh Consent to Establish fee shall be levied.

18. Industry should adopt water conservation measures to ensure minimum consumption of water in their Process. Ground water based proposals of new industries should get clearance from Central Ground Water Authority for scientific development of previous resources.

19. That the unit will take all other clearances from concerned agencies, whenever required.

20. That the unit will not change its process without the prior permission of the Board.

21. That the Consent to Establish so granted will be invalid, if the unit falls in Aravali Area or non conforming area.

22. That the unit will comply with the Hazardous Waste Management Rules and will also make the non-leachate pit for storage of Hazardous waste and will undertake not to dispose off the same except for pit in their own premises or with the authorized disposal authority.

23. That the unit will submit an undertaking that it will comply with all the specific and general conditions as imposed in the above

Consent to Establish within 30 days failing which Consent to Establish will be revoked."

24. By another communication No.HSPCB/Consent/: 2846618YAMCTO3098246 dated 26th March 2018, HSPCB granted consent to the Appellant No.1 to operate its Yamuna Nagar Unit from 8th February 2018 to 31st March 2022.

25. By an order No.HSPCB/YMN/2242, dated 31st March 2010, the Appellant No.2, M/s Apcolite Polymer Private Limited was granted CTE to establish its Yamuna Nagar Unit for manufacture of Formaldehyde with the manufacturing capacity of 80 tonnes per day.

26. By another communication Nos. HSPCB/Consent/: HSPCB/YMN/DLC/2011/4027 & HSPCB/YMN/DLC/2011/4029 dated 16th January 2012, HSPCB granted the Appellant No.2, M/s Apcolite Polymers Private Limited, Consent to Operate (CTO) its Yamuna Nagar Unit. The CTO has been extended from 1st April 2016 till 31st March 2026, by a letter dated 13th March 2016. The CTO is valid till March 2026.

27. By a communication No. HSPCB/Consent/: 2846616YAMCT OHWM2630357 dated 13th March 2016, HSPCB granted consent for emission of AIR to Appellant No.2, M/s Apcolite Polymers Private Limited in respect of its Yamuna Nagar Unit on, *inter alia*, the terms and conditions specified in the said letter, some of which are extracted hereinbelow:-

“10. The air pollution control equipment of such specification which shall keep the emissions within the emission standard as approved by the State Board from time to time shall be installed and operated in the premises where the industry is carrying on/proposed to carry on its business.

11. The existing air pollution control equipment if required shall be alerted or replaced in accordance with the direction on the Board.

12. All solid wastes arising in the factory premises shall be properly graded and disposed of by:-

(i) In case of Land fill material, care should be taken to ensure that the material does not give rise to leachate which may percolate in ground water or carried away with storm run off.

(ii) Composting in case of bio degradable materials.

(iii) If the method of incineration is used for the disposal of solid waste the consent application should be processed separately and it should be taken up which consent is granted.

13. The industry shall submit an undertaking to the effect that the above conditions shall be complied with by them.

14. The applicant shall submit its undertaking to the effect that the above conditions shall be complied with by them.

15. The applicant shall make an application for grant of fresh consent at least 90 days before the date of expiry of this consent.

18. There should not be any fugitive emission from the premises.

19. The liquid effluent arising out of the operation of the air pollution control equipment shall also be treated in a manner and to the standards stipulated in the consent granted under Water (Prevention & Control of Pollution) Act, 1974 by this Board.

21. If the industry fails to adhere to any of the condition of this consent order the consent so granted shall automatically lapse.

33. The industry shall submit Environment Audit report once in a year.

38. In case of by passing the emissions, the consent shall be deemed revoked.”

28. It is the case of the Appellants that at the time when CTE was granted to the Appellants, it was thought that EC was not required for units which manufactured Formaldehyde. Even HSPCB itself was not sure of whether EC was required for such units.

29. Mr. Gupta argued that the Appellants were *bona fide* under the impression that the Appellants were not required to obtain prior EC for setting up this establishment to manufacture Formaldehyde. On the basis of CTE granted by HSPCB, the Appellants set up their units taking huge loans from banks for which repayments have to be paid in installments.

30. In exercise of power under Section 3(1) and Section 3(2)(v) of the EP Act read with Rule 5(3)(d) of the EP Rules, the Central Government issued a notification being S.O. 804(E) dated 14th March 2017 which provides for grant of *ex post facto* EC for project proponents who had commenced, continued or completed a project without obtaining EC under the EP Act/ EP Rules or the Environmental Impact Notification issued thereunder. Paragraphs 3, 4 and 5 of the said notification, read as hereunder:

“(3) In cases of violation, action will be taken against the project proponent by the respective State or State Pollution Control Board under the provisions of section 19 of the Environment (Protection) Act, 1986 and further, no consent to operate or occupancy certificate will be issued till the project is granted the environmental clearance.

(4) The cases of violation will be appraised by respective sector Expert Appraisal Committees constituted under sub-section (3) of Section 3 of the Environment (Protection) Act, 1986 with a view to assess that the project has been constructed at a site which under

prevailing laws is permissible and expansion has been done which can be run sustainably under compliance of environmental norms with adequate environmental safeguards; and in case, where the finding of the Expert Appraisal Committee is negative, closure of the project will be recommended along with other actions under the law.

(5) In case, where the findings of the Expert Appraisal Committee on point at sub-para(4) above are affirmative, the projects under this category will be prescribed the appropriate Terms of Reference for undertaking Environment Impact Assessment and preparation of Environment Management Plan. Further, the Expert Appraisal Committee will prescribe a specific Terms of Reference for the project on assessment of ecological damage, remediation plan and natural and community resource augmentation plan and it shall be prepared as an independent chapter in the environment impact assessment report by the accredited consultants. The collection and analysis of data for assessment of ecological damage, preparation of remediation plan and natural and community resource augmentation plan shall be done by an environmental laboratory duly notified under Environment (Protection) Act, 1986, or a environmental laboratory accredited by National Accreditation Board for Testing and Calibration Laboratories, or a laboratory of a Council of Scientific and Industrial Research institution working in the field of environment.”

31. The Notification of 2017 is a valid statutory notification issued by the Central Government in exercise of power under Sections 3(1) and 3(2)(v) of the EP Act read with Rule 5(3)(d) of the EP Rules in the same manner as the EIA Notification dated 27th January 1994 and the Notification dated 14th September 2006.

32. Section 21 of the General Clauses Act, 1897 provides that where any Central Act or Regulations confer a power to issue notifications, orders, rules or bye-laws, that power includes the power, exercisable in

like manner, and subject to like sanction and conditions, if any, to add to, amend, vary or rescind any notification, order, rule or bye-law so issued. The authority, which had the power to issue Notifications dated 27th January 1994 and 14th September 2006 undoubtedly had, and still has the power to rescind or modify or amend those notifications in like manner. As held by this Court in ***Shree Sidhbali Steels Ltd. & Others v. State of Uttar Pradesh & Others***¹, power under Section 21 to amend, vary or rescind notifications, orders, rules or bye-laws can be exercised from time to time having regard to the exigency.

33. Puducherry Environment Protection Association filed a Writ Petition being W.P. No.11189 of 2017 in the High Court of Madras assailing the said notification dated 14th March 2017. By a judgment and order dated 13th October 2017, a Division Bench of the High Court refused to interfere with the said notification, holding that the impugned notification did not compromise with the need to preserve environmental purity.

34. The Ministry of Environment, Forest and Climate Change (MoEF &CC) issued a draft notification dated 23rd March 2020 which was duly published in the Gazette of India Extraordinary Part II. The Notification was proposed to be issued in exercise of powers conferred by sub-section (1) and clause (v) of sub-section (2) of Section 3 of the EP Act for dealing with cases of violation of the notification with regard to EC.

1 (2011) 3 SCC 193

It was proposed that cases of violation would be appraised by the Appraisal Committee with a view to assess whether the project had been constructed or operated at a site which was permissible under prevailing laws and could be run sustainably on compliance of environmental norms with adequate environmental safeguards. Closure was to be recommended if the findings of the Appraisal Committee were in the negative. If the Appraisal Committee found that such unit had been running sustainably upon compliance of environmental norms with adequate environment safeguards, the unit would be prescribed appropriate Terms of Reference (TOR) after which the procedure for grant of EC would follow.

35. On 10th November 2020, the Department of Environment and Climate Change of the Government of Haryana issued an order which is extracted hereinbelow for convenience:

“Whereas the process of manufacturing of Formaldehyde is covered under the provisions of 5(f) of Schedule of Environment Impact Assessment Notification (EIA), 2006 of Government of India, and requires the prior Environmental Clearance (EC) from the competent authority State Environment Impact Assessment Authority (SEIAA)/Ministry of Environment, Forest and Climate Change, Government of India, before establishment and operation of such units, besides other mandatory clearance, as applicable;

Whereas, it has come to the notice of Government that around 15 such units have been permitted to establish/operate in the State of Haryana, without obtaining the necessary Prior Environmental Clearances, but with the Consent of the Haryana State Pollution Control Bureau (HSPCB), which misinterpreted the category of such units and on realising the requirement of EC in these cases, has revoked its consents issued earlier to these units recently;

Whereas, some of these units approached the Government explaining their hardship due to such sudden revocation of their consents and have sought time for obtaining the necessary EC from the competent authority as the process is likely to take a minimum of 6 months to one year period, and to allow them to operate with

all pollution control measures, following the pollution control norms applicable, and,

Whereas, the Government has carefully considered their request and the competent authority has decided that these units shall be allowed to continue their operations for a period of six months, without prejudice to any legal action taken against the violations committed by them, by the competent authorities, with the conditions that they will immediately apply for Environmental Clearance from the competent authority and provide the proof of such application within 60 days from the issuance of this communication to Environment and Climate Change Department and to Haryana State Pollution Control Board.

Therefore, it is ordered accordingly."

36. Referring to the Counter Affidavit filed by HSPCB before the NGT, Mr. Gupta pointed out that, since HSPCB itself was under the misconception that prior EC was not necessary for units such as the Yamunanagar units of the Appellants Nos. 1 and 2 respectively. HSPCB took a policy decision to allow the units which did not have prior EC to operate for six months, on condition that they would apply for EC within sixty days.

37. The Appellants duly applied for EC in respect of their manufacturing units. After scrutinizing their applications and after finding the units suitable for grant of EC in terms of the prevailing guidelines, the Expert Appraisal Committee constituted by the MoEF&CC conducted a public hearing to finalize the cases of the Appellants for issuance of Terms of Reference (TOR).

38. By an Office Memorandum, being F.No. 22-21/2020-1A III, dated 7th July 2021, the MoEF&CC issued Standard Operating Procedure (SOP) for identification and handling of violation cases under EIA Notification 2006.

39. The said Office Memorandum, *inter alia*, reads:

“The Ministry had issued a notification number S.O.804(E), dated the 14th March, 2017 detailing the process for grant of Terms of Reference and Environmental Clearance in respect of projects or activities which have started the work on site and/or expanded the production beyond the limit of Prior EC or changed the product mix without obtaining Prior EC under the EIA Notification, 2006.

2. This Notification was applicable for six months from the date of publication i.e. 14.03.2017 to 13.09.2017 and further based on court direction from 14.03.2018 to 13.04.2018.

3. Hon’ble NGT in Original Application No.287 of 2020 in the matter of Dastak N.G.O. Vs Synochem Organics Pvt. Ltd. & Ors. and in applications pertaining to same subject matter in Original Application No. 298 of 2020 in Vineet Nagar vs. Central Ground Water Authority & Ors., vide order dated 03.06.2021 held that “(...) for past violations, the concerned authorities are free to take appropriate action in accordance with polluter pays principle, following due process”.

*4. Further, the Hon’ble National Green Tribunal in O.A. No. 34/2020 WZ in the matter of Tanaji B. Gambhire vs. Chief Secretary, Government of Maharashtra and Ors., vide order dated 24.05.2021 has directed that”.... **a proper SoP be laid down for grant of EC in such cases so as to address the gaps in binding law and practice being currently followed. The MoEF may also consider circulating such SoP to all SEIAAs in the country”.***

5. Therefore, in compliance to the directions of the Hon’ble NGT a Standard Operating Procedure (SoP) for dealing with violation cases is required to be drawn. The Ministry is also seized of different categories of ‘violation’ cases which have been pending for want of an approved structural/procedural framework based on ‘Polluter Pays Principle’ and ‘Principle of Proportionality’. It is undoubtedly important that action under statutory provisions is taken against the defaulters/violators and a decision on the closure of the project or activity or otherwise is taken expeditiously.

6. In the light of the above directions of the Hon’ble Tribunal and the issues involved, the matter has accordingly been examined in detail in the Ministry. A detailed SoP has accordingly been framed and is outlined herein. The SoP is also guided by the observations/decisions of the Hon’ble Courts wherein principles of proportionality and polluters pay have been outlined.”

40. The SOP formulated by the said Office Memorandum dated 7th July 2021 refers to and gives effect to various judicial pronouncements

including the judgment of this Court in ***Alembic Pharmaceuticals Ltd. v. Rohit Prajapati & Others***².

41. In terms of the SOP, the proposal for grant of EC in cases of violation are to be considered on merits, with prospective effect, applying principles of proportionality and the principle that the polluter pays and is liable for costs of remedial measures.

42. By an order dated 9th July 2021, the MoEF&CC confirmed the minutes of an earlier meeting of the Expert Appraisal Committee and recommended issuance of terms of reference to the Appellant No.1, M/s Pahwa Plastics Private Limited for expansion of its Formaldehyde Manufacturing unit from 60 TPD to 150 TPD.

43. In the meanwhile, on or about 26th November 2020, the Respondent No.1, a Non-Governmental Organisation (NGO) hereinafter referred to as “Dastak” filed an application being O.A. No./287/2020 before the NGT praying that the order dated 10th November 2020 passed by the State of Haryana be quashed and units which were operating without EC be closed. The NGT disposed of the said application of Dastak by the impugned order dated 3rd June 2021.

44. A Public Interest Litigation being W.P. (MD) No. 11757 of 2021 (***Fatima v. Union of India***) was filed before the Madurai Bench of the Madras High Court challenging the said Memorandum dated 7th July 2021. By an interim order dated 15th July 2021 a Division Bench of the

2 2020 SCC Online SC 347

Madras High Court admitted the Writ Petition and stayed the said memorandum.

45. The Madurai Bench of the Madras High Court observed and held:-

“This writ petition has been filed as a public interest litigation challenging the validity of the office memorandum dated 07.07.2021, issued by the respondent.

2. We have heard Mr.A.Yogeshwaran, learned counsel appearing for the writ petitioner and Mr.L.Victoria Gowri, learned Assistant Solicitor General of India, accepts notice for the respondent.

3. The impugned office memorandum is challenged as being wholly without jurisdiction, contrary to the Environment Impact Assessment Notification, 2006, ultra vires the powers of the respondent under the Environment (Protection) Act, 1986 and violative of the various principles enunciated by the Hon'ble Supreme Court, while interpreting Article 21 and Article 48-A of the Constitution of India.

4. Further, it is submitted that the impugned notification is in gross violation of the undertaking given before the Hon'ble Full Bench of this Court in W.P.No.11189 of 2017, wherein, the Court took note of the submissions made on behalf of the Government of India, that the notification impugned therein is only a one-time measure. Further, it is submitted that the respondent failed to see that concept of ex-post facto approval is alien to environment jurisprudence and it is anathema to the Environment Impact Assessment Notification, 2006.

*5. Further, it is submitted that the impugned notification is in gross violation of the judgment of the Hon'ble Supreme Court in the case of **Alembic Pharmaceuticals Ltd. vs Rohit Prajapati**, 2020 SCC Online SC 347 and the orders passed by the National Green Tribunal, Principal Bench, New Delhi, in the case of **S.P.Muthuraman vs. Union of India & Another**, 2015 SCC Online NGT 169.*

6. Identical grounds were considered by us in a challenge to an office memorandum dated 19.02.2021, which provided a procedure for granting post facto clearance under Coastal Regulation Zone (CRZ) Notification 2011, on the ground that despite no such provisions in the notification and being contrary to the earlier judgments and undertaking. The said writ petition in W.P(MD).No.8866 of 2021 was admitted and by order dated 30.04.2021, the said office memorandum dated 19.02.2021 has been stayed.

7. The core issue in this writ petition is whether the Government of India could have issued the office memorandum and brought about the Standard Operating Procedure for dealing with violators, who failed to comply with the mandatory

condition of obtaining prior environment clearance under the Environment Impact Assessment Notification 2006, read with the provisions of Environment (Protection) Act, 1986. This issue was considered by the Hon'ble Supreme Court in **Alembic Pharmaceuticals Ltd** (cited supra), and it was held that such office memorandum in the nature of circular is without jurisdiction. The operative portion of the judgment reads as follows:

"...What is sought to be achieved by the administrative circular dated 14 May 2002 is contrary to the statutory notification dated 27 January 1994. The circular dated 14 May 2002 does not stipulate how the detrimental effects on the environment would be taken care of if the project proponent is granted an ex post facto EC. The EIA notification of 1994 mandates a prior environmental clearance. The circular substantially amends or alters the application of the EIA notification of 1994. The mandate of not commencing a new project or expanding or modernising an existing one unless an environmental clearance has been obtained stands diluted and is rendered ineffective by the issuance of the administrative circular dated 14 May 2002. This discussion leads us to the conclusion that the administrative circular is not a measure protected by Section 3. Hence there was no jurisdictional bar on the NGT to enquire into its legitimacy or vires. Moreover, the administrative circular is contrary to the EIA Notification 1994 which has a statutory character. The circular is unsustainable in law."

8. Despite the above decision, once again the Government of India, Ministry of Environment, Forest and Climate Change have chosen to adopt the route of issuing the office memorandum and virtually setting at naught the provisions of the Environment Impact Assessment Notification and the Environment (Protection) Act.

9. Before the Hon'ble First Bench, a public interest litigation was filed by the Puducherry Environment Protection Association, challenging the notification dated 14.03.2017, on identical grounds and the Hon'ble First Bench by judgment dated 13.10.2017, recorded the submissions of the learned Assistant Solicitor General of India that the said notification was a one-time measure and accordingly, disposed of the writ petition.

10. Once again, the Ministry of Environment, Forest and Climate Change have issued the impugned office memorandum. Thus, from what we have noted above, we are of the clear view that the petitioner has made out a prima facie case for entertaining the writ petition. Accordingly, the writ petition is **admitted** and there shall be an order of interim stay."

46. It is true that in the case of ***Puducherry Environment Protection Association v. Union of India***³, the Division Bench of Madras High Court took note of and recorded the submission made on behalf of the Union of India that the relaxation was a one time relaxation. In view of such submission, this Court held that a one time relaxation was permissible.

47. It is, however, well settled that words and phrases and/or sentences in a judgment cannot be read in the manner of a statute, and that too out of context. The observation of the Division Bench that a one time relaxation was permissible, is not to be construed as a finding that relaxation cannot be made more than once. If power to amend or modify or relax a notification and/or order exists, the notification and/or order may be amended and/or modified as many times, as may be necessary. A statement made by counsel in Court would not prevent the authority concerned from making amendments and/or modifications provided such amendments and/or modifications were as per the procedure prescribed by law.

48. The Division Bench of Madras High Court fell in error in staying the said office memorandum, by relying on observations made by this Court in ***Alembic Pharmaceuticals Ltd.*** (supra), in the context of a circular which was contrary to the statutory Environment Impact Notification of 1994. The attention of the High Court was perhaps not drawn to the fact that the notification of 7th July 2021 was in pursuance of the statutory notification of 2017 which was valid. The judgment of

3 2017 SCC OnLine Mad 7056

this Court in ***Alembic Pharmaceuticals Ltd.*** (*supra*), was clearly distinguishable and could have no application to the office memorandum dated 7th July 2021 which was issued pursuant to the notification dated 14th March 2017.

49. The Appellants have already applied for EC. The Expert Appraisal Committee of the MoEF&CC has, after scrutinizing the application of the Appellants and finding them eligible for grant of EC, recommended their cases for grant of Terms of Reference (ToR). ToR was granted to the Appellants and a public hearing had also been conducted. Only last procedural step of issuance of EC is left.

50. It is claimed that the units of the Appellants are totally non-polluting units having “Zero Trade discharge”. They have been in operation for many years. In the reply affidavit filed by the State before the NGT, it was mentioned that the units were operating in good faith with valid CTOs granted by the HSPCB. It was stated that the units were not causing pollution hazards. The only thing against the units was the procedural lapse of not obtaining EC.

51. By a communication No. F. No. IA-J-110011/185/2020-IA-II(I) dated 20th July 2021 issued to the Appellant No.1, the MoEF&CC rejected the proposal for terms of reference on the purported ground that the activity of the Appellant No.1 was covered under category “A” of item 5(f) “Synthetic Organic Chemicals” of the Schedule to the EIA Notification, 2006. A similar communication was issued in respect of M/s Apcolite Polymers Pvt. Ltd. Significantly, by an order dated 9th July 2021, the MoEF&CC had confirmed the minutes of an earlier meeting of the Expert

Appraisal Committee and recommended issuance of ToR to the Appellant No.1, as observed above. The proposal for Terms of Reference has obviously been rejected at the final stage after the public hearing, by reason of the impugned order dated 3rd June 2021 passed by the NGT on the application of Dastak, which is under appeal.

52. This appeal was listed for admission on 30th September 2021, along with an application for interim relief being I.A. No.110064 of 2021 praying for orders permitting the Appellants to operate their units during the pendency of the appeal. The appeal was heard at length at the admission stage and reserved for judgment along with the interim application by an order dated 30th September 2021.

53. After receiving the communication dated 20th July 2021 rejecting the proposal for Terms of Reference, the Appellants requested HSPCB to forward to the Appellants the proceedings of public hearing in respect of the manufacturing units of the Appellants. By a communication No. HSPCB/YR/2021/2830 dated 15th February 2022, HSPCB forwarded proceedings of the public hearing in respect of the Yamuna Nagar unit of the Appellant No.1. By another Communication No. HSPCB/YR/29021/2829 dated 15th February 2022 the HSPCB forwarded to the Appellant No.2 the proceedings of the public hearing held on 3rd February 2022 in connection with the Yamuna Nagar Unit of the Appellant No.2.

54. The manufacturing units of the Appellants appoint about 8,000 employees and have a huge annual turnover. An establishment contributing to the economy of the country and providing livelihood ought

not to be closed down only on the ground of the technical irregularity of not obtaining prior Environmental Clearance irrespective of whether or not the unit actually causes pollution.

55. In *Electrosteel Steels Limited v. Union of India*⁴, this Court held:-

“82. The question is whether an establishment contributing to the economy of the country and providing livelihood to hundreds of people should be closed down for the technical irregularity of shifting its site without prior environmental clearance, without opportunity to the establishment to regularize its operation by obtaining the requisite clearances and permissions, even though the establishment may not otherwise be violating pollution laws, or the pollution, if any, can conveniently and effectively be checked. The answer has to be in the negative.

83. The Central Government is well within the scope of its powers under Section 3 of the 1986 Act to issue directions to control and/or prevent pollution including directions for prior Environmental Clearance before a project is commenced. Such prior Environmental Clearance is necessarily granted upon examining the impact of the project on the environment. Ex-Post facto Environmental Clearance should not ordinarily be granted, and certainly not for the asking. At the same time ex post facto clearances and/or approvals and/or removal of technical irregularities in terms of Notifications under the 1986 Act cannot be declined with pedantic rigidity, oblivious of the consequences of stopping the operation of a running steel plant.

84. The 1986 Act does not prohibit ex post facto Environmental Clearance. Some relaxations and even grant of ex post facto EC in accordance with law, in strict compliance with Rules, Regulations Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with, or can be made to comply with environment norms, is in over view not impermissible. The Court cannot be oblivious to the economy or the need to protect the livelihood of hundreds of employees and others employed in the project and others dependent on the project, if such projects comply with environmental norms.

88. The Notification being SO 804(E) dated 14th March, 2017 was not an issue in Alembic Pharmaceuticals (supra). This Court was examining the propriety and/or legality of a 2002 circular which was inconsistent with the EIA Notification dated 27th January, 1994, which was statutory. Ex post facto

4 2021 SCC online SC 1247

*environmental clearance should not however be granted routinely, but in exceptional circumstances taking into account all relevant environmental factors. Where the adverse consequences of ex post facto approval outweigh the consequences of regularization of operation of an industry by grant of ex post facto approval and the industry or establishment concerned otherwise conforms to the requisite pollution norms, ex post facto approval should be given in accordance with law, in strict conformity with the applicable Rules, Regulations and/or Notifications. **Ex post facto approval should not be withheld only as a penal measure.** The deviant industry may be penalised by an imposition of heavy penalty on the principle of 'polluter pays' and the cost of restoration of environment may be recovered from it.*

96. The appeals are allowed. The impugned order is set aside. The Respondent No. 1 shall take a decision on the application of the Appellant for revised EC in accordance with law, within three months from date. Pending such decision, the operation of the steel plant shall not be interfered with on the ground of want of EC, FC, CTE or CTO."

56. As held by this Court in ***Electrosteel Steels Limited*** (supra) *ex post facto* Environmental Clearance should not ordinarily be granted, and certainly not for the asking. At the same time *ex post facto* clearances and/or approvals and/or removal of technical irregularities in terms of a Notification under the EP Act cannot be declined with pedantic rigidity, oblivious of the consequences of stopping the operation of mines, running factories and plants.

57. The 1986 Act does not prohibit *ex post facto* Environmental Clearance. Grant of *ex post facto* EC in accordance with law, in strict compliance with Rules, Regulations, Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with, or can be made to comply with environment norms, is in our view not impermissible. The Court cannot be oblivious to the economy or

the need to protect the livelihood of hundreds of employees and others employed in the project and others dependent on the project, if such projects comply with environmental norms.

58. As held by a three Judge Bench of this Court in **Lafarge Umiam Mining Private Limited v. Union of India**⁵:-

“119. The time has come for us to apply the constitutional “doctrine of proportionality” to the matters concerning environment as a part of the process of judicial review in contradistinction to merit review. It cannot be gainsaid that utilization of the environment and its natural resources has to be in a way that is consistent with principles of sustainable development and intergenerational equity, but balancing of these equities may entail policy choices. In the circumstances, barring exceptions, decisions relating to utilisation of natural resources have to be tested on the anvil of the well-recognized principles of judicial review. Have all the relevant factors been taken into account? Have any extraneous factors influenced the decision? Is the decision strictly in accordance with the legislative policy underlying the law (if any) that governs the field? Is the decision consistent with the principles of sustainable development in the sense that has the decision-maker taken into account the said principle and, on the basis of relevant considerations, arrived at a balanced decision? Thus, the Court should review the decision-making process to ensure that the decision of MoEF is fair and fully informed, based on the correct principles, and free from any bias or restraint. Once this is ensured, then the doctrine of “margin of appreciation” in favour of the decision-maker would come into play.”

59. In **Alembic Pharmaceuticals Ltd.**(supra), this Court observed:-

“27. The concept of an ex post facto EC is in derogation of the fundamental principles of environmental jurisprudence and is an anathema to the EIA notification dated 27 January 1994. It is, as the judgment in Common Cause holds, detrimental to the environment and could lead to irreparable degradation. The reason why a retrospective EC or an ex post facto clearance is alien to environmental jurisprudence is that before the issuance of an EC, the statutory notification warrants a careful application of mind, besides a study into the likely consequences of a proposed activity on the environment. An EC can be issued only after various stages of the decision-

5 (2011) 7 SCC 338

making process have been completed. Requirements such as conducting a public hearing, screening, scoping and appraisal are components of the decision-making process which ensure that the likely impacts of the industrial activity or the expansion of an existing industrial activity are considered in the decision-making calculus. Allowing for an ex post facto clearance would essentially condone the operation of industrial activities without the grant of an EC. In the absence of an EC, there would be no conditions that would safeguard the environment. Moreover, if the EC was to be ultimately refused, irreparable harm would have been caused to the environment. In either view of the matter, environment law cannot countenance the notion of an ex post facto clearance. This would be contrary to both the precautionary principle as well as the need for sustainable development."

60. Even though this Court deprecated *ex post facto* clearances, in ***Alembic Pharmaceuticals Ltd.*** (*supra*), this Court did not direct closure of the units concerned but explored measures to control the damage caused by the industrial units. This Court held:-

"However, since the expansion has been undertaken and the industry has been functioning, we do not deem it appropriate to order closure of the entire plant as directed by the High Court."

61. The Notification being SO. 804(E) dated 14th March 2017 was not in issue in ***Alembic Pharmaceuticals Ltd.*** (*supra*). In ***Alembic Pharmaceuticals Ltd.*** (*supra*) this Court was examining the propriety and/or legality of a 2002 circular which was inconsistent with the EIA Notification dated 27th January 1994, which was statutory. The EIA Notification dated 27th January 1994 has, as stated above, been superseded by the Notification dated 14th September 2006.

62. There can be no doubt that the need to comply with the requirement to obtain EC is non-negotiable. A unit can be set up or allowed to expand subject to compliance of the requisite

environmental norms. EC is granted on condition of the suitability of the site to set up the unit, from the environmental angle, and also existence of necessary infrastructural facilities and equipment for compliance of environmental norms. To protect future generations and to ensure sustainable development, it is imperative that pollution laws be strictly enforced. Under no circumstances can industries, which pollute, be allowed to operate unchecked and degrade the environment.

63. *Ex post facto* environmental clearance should not be granted routinely, but in exceptional circumstances taking into account all relevant environmental factors. Where the adverse consequences of denial of *ex post facto* approval outweigh the consequences of regularization of operations by grant of *ex post facto* approval, and the establishment concerned otherwise conforms to the requisite pollution norms, *ex post facto* approval should be given in accordance with law, in strict conformity with the applicable Rules, Regulations and/or Notifications. The deviant industry may be penalised by an imposition of heavy penalty on the principle of 'polluter pays' and the cost of restoration of environment may be recovered from it.

64. The question in this case is, whether a unit contributing to the economy of the country and providing livelihood to hundreds of people, which has been set up pursuant to requisite approvals from the concerned statutory authorities, and has applied for *ex post facto* EC, should be closed down for the technical irregularity of want of prior

environmental clearance, pending the issuance of EC, even though it may not cause pollution and/or may be found to comply with the required norms. The answer to the aforesaid question has to be in the negative, more so when the HSPCB was itself under the misconception that no environment clearance was required for the units in question. HSPCB has in its counter affidavit before the NGT clearly stated that a decision was taken to regularize units such as the Apcolite Yamuna Nagar and Pahwa Yamuna Nagar Units, since requisite approvals had been granted to those units, by the concerned authorities on the misconception that no EC was required.

65. It is reiterated that the 1986 Act does not prohibit *ex post facto* EC. Some relaxations and even grant of *ex post facto* EC in accordance with law, in strict compliance with Rules, Regulations, Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with environment norms, is not impermissible. As observed by this Court in ***Electrosteel Steels Limited*** (supra), this Court cannot be oblivious to the economy or the need to protect the livelihood of hundreds of employees and others employed in the units and dependent on the units in their survival.

66. *Ex post facto* EC should not ordinarily be granted, and certainly not for the asking. At the same time *ex post facto* clearances and/or approvals cannot be declined with pedantic rigidity, regardless of the consequences of stopping the operations. This Court is of the view

that the NGT erred in law in directing that the units cannot be allowed to function till compliance of the statutory mandate.

67. Accordingly, the appeal is allowed. The impugned order is set aside in so far as the same is applicable to the units of the Appellants established and operated pursuant to CTE and CTO from the HSPCB in respect of which applications for *ex post facto* EC have been filed. The Respondent shall take a decision on the applications of the Appellants for EC in accordance with law within one month from date. Pending decision, the operation of the Pahwa Yamuna Nagar Unit and the Apcolite Yamuna Nagar Unit, in respect of which consents have been granted and even public hearing held in connection with grant of EC, shall not be interfered with.

68. The Appellants will be allowed to operate the units. Electricity, if disconnected, shall be restored subject to payment of charges, if any. If the application for EC is rejected on the ground of any contravention on the part of the Appellants, it will be open to the Respondents to disconnect the supply of electricity.

69. The Union of India had proceeded with the application for EC and even public hearing had been held. Counsel appearing on behalf of the Union of India contended that the Appellant had not submitted its final application for EC, after public hearing. It is not clear what more was required of the Appellants. Be that as it may, the Union of India shall, within three working days from the date of receipt of a copy of this judgment and order, inform the Appellants in writing of whether

anything further is required to be done by the Appellants, and if so what is required to be done. The Appellants shall, within a week thereafter do the needful. The final decision on the application of the Appellants for EC shall be taken within three weeks thereafter.

70. The application being I.A. No.110064/2021 and other pending applications, if any, in this appeal are disposed of accordingly.

Reason:

Mr. Mukul Rohatgi, learned senior counsel submits that his clients will pay penalty of 1% and additional penalty of 0.25% imposed by the Ministry of Environment Forests and Climate Change

(MOEF&CC) as a condition for grant of ex-post facto Environmental Clearance (EC).

The application dated 08.02.2022 of the Appellant for ex-post facto Environmental Clearance may be considered expeditiously subject to payment of penalty of 1% and an additional penalty of 0.25%, as aforesaid.

There will, however, be stay of the impugned order insofar as compensation of 10% (Rs. 15.99 Crores) has been imposed on the Appellant.

(GULSHAN KUMAR ARORA)

COURT MASTER (NSH)

REPORTABLE**IN THE SUPREME COURT OF INDIA****CIVIL APPELLATE JURISDICTION****CIVIL APPEAL NO. 3132 OF 2018****D. SWAMY****... Appellant****Versus****KARNATAKA STATE POLLUTION CONTROL
BOARD AND ORS.****... Respondents****J U D G M E N T****Indira Banerjee, J.**

This appeal, under Section 22 of the National Green Tribunal Act 2010, is against a final order dated 10th May 2017 passed by the National Green Tribunal, Southern Zone, Chennai, dismissing the Application No.169 of 2016 (SZ) filed by the Appellant under Section 18(1) read with Section 14 of the National Green Tribunal Act 2010, whereby the Appellant had prayed for a direction for closure of the Common Bio-Medical Waste Treatment Facility run by the Respondent No.3, on the ground of alleged non-compliance of the provisions of the Environmental Impact Assessment Notification 2006, hereinafter referred to as "the 2006 EIA

Notification” as amended on 17th April 2015.

2. In the meanwhile, by a notification being S.O. 327 (E) dated 10th April 2001, published in the Gazette of India on 12th April 2001, the Central Government has delegated the powers vested in it under the Environment (Protection) Act, 1986 (EP Act) to the Chairpersons of the respective State Pollution Control Boards/Committees to issue directions to any industry or any local or other authority to prevent violation of the Rules.

3. On or about 25th February 2012, the Respondent No.3 applied to the Respondent No.1, Karnataka State Pollution Control Board (hereinafter referred to as “KSPCB”) for consent to establish a Common Bio-Medical Waste Treatment Facility over the land bearing Survey No. 82 and 38/2 at Gujjegowdanapura village, Jayapura Hobli, Mysore Taluk and District.

4. By a letter dated 24th November 2012, the Respondent No.1 KSPCB accorded consent to the Respondent No.3 to establish the Common Bio-Medical Waste Treatment Facility under the provisions of the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981 for collection, reception, transportation, treatment and disposal of Bio-Medical Waste. The said consent was valid for a period of five years.

5. It appears that M/s Shree Consultant who had been operating a Common Bio-Medical Waste Treatment Facility at Survey No.25 at Mysore and had been collecting Bio-Medical Waste from four districts could not collect Bio-Medical Waste from the district of Hassan because of the Common Bio-Medical Waste Treatment Facility established by the Respondent No.3.

6. M/s Shree Consultant filed appeals bearing Nos.48 and 49 of 2012 before the Karnataka State Environment Appellate Authority, Bangalore challenging the consent granted to the Respondent No.3 to establish the Common Bio-Medical Waste Treatment Facility. The Karnataka State Environment Appellate Authority, Bangalore granted an interim stay of the order granting consent to the Respondent No.3 to establish the Common Bio-Medical Waste Treatment Facility. Ultimately however, the appeal was dismissed by a common judgment and order dated 20th April 2013.

7. M/s Shree Consultant filed Appeal Nos. 46-47 of 2013 before the National Green Tribunal, Southern Zone, Chennai against the common judgment and order dated 20th April 2013 passed by the Karnataka State Environment Appellate Authority, Bangalore in Appeal Nos.48-49 of 2012.

8. By a judgment and order dated 28th November 2013, the Principal Bench of the National Green Tribunal at New Delhi held that Bio-Medical Waste Treatment Plants were required to obtain

an Environmental Clearance (EC) from the Ministry of Environment and Forests, Government of India, hereinafter referred to as “MoEF&CC”, in terms of Entry 7(d) of the Notification dated 14th September 2006. The National Green Tribunal had also directed the parties who had been running Common Bio-Medical Waste Treatment Facilities to apply to the MoEF&CC for EC.

9. On 26th February 2014, the Central Pollution Control Board issued guidelines for Common Bio-Medical Waste Treatment Facilities. On 14th July 2014, the National Green Tribunal, Southern Zone, Chennai passed a judgment and order dismissing Appeal Nos. 46-47 of 2013 filed by M/s Shree Consultant and held that the Respondent No.1 had rightly given consent to the Respondent No.3 for establishing its Common Bio-Medical Waste Treatment Facility.

10. On 4th March 2015, the Respondent No.3 applied for grant of consent to operate the Common Bio-Medical Waste Facility under the provisions of the relevant Water Pollution and Air Pollution Acts.

11. On 17th April 2015, MoEF&CC amended the Notification dated 14th September 2006, in view of the Judgment dated 28th November 2013 passed by the National Green Tribunal, Principal Bench, New Delhi in Appeal No. 63 of 2012. By the amendment Entry 7(da) was inserted after Entry 7(d) in the Schedule. Entry 7(da) provided that Common Bio-Medical Waste Treatment

Facilities would be required to obtain EC from the Ministry of Environment and Forest.

12. It appears that on 13th July 2015, the villagers of the Gujgegowdanapura, Manadalli, Harohalli, Chunchunarayahundi, Kallahalli, Arinakere, Mahadevpura at Jayapura Hobli, Mysore made a representation to the Respondent No.1 seeking an order banning the establishment of Common Bio-Medical Waste Treatment Facility by the Respondent No.3.

13. Thereafter, the Respondent No.1 issued notices to the Common Bio-Medical Waste Treatment Facility of the Respondent No.3, calling upon it to submit a report of compliance of pollution norms.

14. On 1st December 2015, the State Level Environment Impact Assessment Authority, Karnataka (SEIAA) issued directions to the Respondent No.1 under Section 5 of the Environment (Protection) Act, 1986 to issue consent for operation of the Common Bio-Medical Waste Treatment Facility and other projects attracting the 2006 EIA Notification and the amendments thereto.

15. By its letter dated 28th December 2015, the Respondent No.1 instructed all the concerned officers of the KSPCB that application for consent to establish or operate projects attracting the 2006 EIA Notification and amendments thereto were to be received by the

KSPCB only if EC was attached to the application.

16. On 19th January 2016, the Respondent No.3 resubmitted its application for consent to operate the Common Bio-Medical Waste Treatment Facility, which had earlier been returned by the Respondent No.1. On 11th February 2016, the Respondent No.1 granted the Respondent No.3 consent to operate its Common Bio-Medical Waste Treatment Facility at Gujjegowdanapura village, Jayapura Hobli in Mysore district. The said consent was valid for the period from 1st July 2015 to 30th June 2016.

17. The Appellant filed Appeal No.3 of 2016 before the Karnataka State Environment Appellate Authority under Section 28 of the Water (Prevention and Control of Pollution) Act, 1974 challenging the consent to the Respondent No.3 to operate the Common Bio-Medical Waste Treatment Facility. Very soon thereafter the MoEF&CC revised the Bio-Medical Waste (Management and Handling) Rules 1998 under Section 6, 8 and 25 of the EP Act.

18. The Appeal No.3 of 2016 filed by the Appellant before the Karnataka State Environment Appellate Authority, against the consent order dated 11th February 2016 passed by the Respondent No.1 came to be withdrawn by the Appellant because the said appeal had become infructuous in view of the expiration of the period of consent to operate granted to the Respondent No.3 on

30th June 2016.

19. By an order dated 17th August 2016, the National Green Tribunal, Southern Zone, Chennai directed that the application for renewal of consent to operate, pending before the Respondent No.1 might be processed in accordance with law subject to the final order passed by the Tribunal.

20. Pursuant to the aforesaid order dated 17th August 2016, the Respondent No.1 renewed the consent order to operate the Common Bio-Medical Waste Treatment Facility in favour of the Respondent No.3 which was valid for the period from 17th August 2016 to 30th June 2021.

21. In exercise of power under Section 3(1) and Section 3(2)(v) of the EP Act read with Rule 5(3)(d) of the EP Rules, the Central Government issued a Notification being S.O. 804(E) dated 14th March 2017 which provides for grant of *ex post facto* EC for project proponents who had commenced, continued or completed a project without obtaining EC under the EP Act/EP Rules or the Environmental Impact Notification issued thereunder. Paragraphs 3, 4 and 5 of the said notification, read as hereunder:

“(3) In cases of violation, action will be taken against the project proponent by the respective State or State Pollution Control Board under the provisions of section 19 of the Environment (Protection) Act, 1986 and further, no consent to operate or occupancy certificate will be issued till the project is granted the environmental clearance.

(4) The cases of violation will be appraised by respective sector Expert Appraisal Committees constituted under sub-section (3) of Section 3 of the Environment (Protection) Act, 1986 with a view to assess that the project has been constructed at a site which under prevailing laws is permissible and expansion has been done which can be run sustainably under compliance of environmental norms with adequate environmental safeguards; and in case, where the finding of the Expert Appraisal Committee is negative, closure of the project will be recommended along with other actions under the law.

(5) In case, where the findings of the Expert Appraisal Committee on point at sub-para(4) above are affirmative, the projects under this category will be prescribed the appropriate Terms of Reference for undertaking Environment Impact Assessment and preparation of Environment Management Plan. Further, the Expert Appraisal Committee will prescribe a specific Terms of Reference for the project on assessment of ecological damage, remediation plan and natural and community resource augmentation plan and it shall be prepared as an independent chapter in the environment impact assessment report by the accredited consultants. The collection and analysis of data for assessment of ecological damage, preparation of remediation plan and natural and community resource augmentation plan shall be done by an environmental laboratory duly notified under Environment (Protection) Act, 1986, or a environmental laboratory accredited by National Accreditation Board for Testing and Calibration Laboratories, or a laboratory of a Council of Scientific and Industrial Research institution working in the field of environment."

22. The Notification of 2017 is a valid statutory notification issued by the Central Government in exercise of power under Sections 3(1) and 3(2)(v) of the EP Act read with Rule 5(3)(d) of the EP Rules in the same manner as the EIA Notification dated 27th January 1994 and the Notification dated 14th September 2006.

23. Section 21 of the General Clauses Act, 1897 provides that where any Central Act or Regulations confer a power to issue notifications, orders, rules or bye-laws, that power includes the power, exercisable in the like manner, and subject to like sanction

and conditions, if any, to add to, amend, vary or rescind any notification, order, rule or bye-law so issued. The authority, which had the power to issue Notifications dated 27th January 1994 and 14th September 2006 undoubtedly had, and still has the power to rescind or modify or amend those notifications in like manner. As held by this Court in ***Shree Sidhali Steels Ltd. & Others v. State of Uttar Pradesh & Others***¹, power under Section 21 of the General Clauses Act to amend, vary or rescind notifications, orders, rules or bye-laws can be exercised from time to time having regard to the exigency.

24. Puducherry Environment Protection Association filed a Writ Petition being W.P. No.11189 of 2017 in the High Court of Madras assailing the said notification dated 14th March 2017. By a judgment and order dated 13th October 2017, a Division Bench of the High Court refused to interfere with the said notification, holding that the impugned notification did not compromise with the need to preserve environmental purity.

25. The MoEF&CC issued a draft Notification dated 23rd March 2020 which was duly published in the Gazette of India Extraordinary Part II. The Notification was proposed to be issued in exercise of powers conferred by subsection (1) and clause (v) of sub-section (2) of Section 3 of the EP Act for dealing with cases of violation of the notification with regard to EC. It was proposed that

1 (2011) 3 SCC 193

cases of violation would be appraised by the Appraisal Committee with a view to assess whether the project had been constructed or operated at a site which was permissible under prevailing laws and could be run sustainably on compliance of environmental norms with adequate environmental safeguards. Closure was to be recommended if the findings of the Appraisal Committee were in the negative. If the Appraisal Committee found that such unit had been running sustainably upon compliance of environmental norms with adequate environment safeguards, the unit would be prescribed appropriate Terms of Reference (TOR) after which the procedure for grant of EC would follow.

26. The appeal has been opposed by the KSPCB. On behalf of the KSPCB, it is submitted that the appeal is liable to be dismissed on the ground of delay of 62 days in filing the appeal. Reasons for the delay, it is submitted, does not make out sufficient cause for the inordinate delay. It is next contented that there is no substantial question of law of general importance involved in this appeal. The appeal is liable to be dismissed on that ground. It is also contended that the appeal suffers from suppression of facts. On behalf of KSPCB, it is contended that the 2015 amendment dated 17th April 2015 to the EIA Notification is prospective in the light of the law laid down in ***Narmada Bachao Andolan v. Union of India***². The Respondent No.3 had applied to the KSPCB for consent to operate before the EIA Notification dated 17th April

2 (2000) 10 SCC 664

2015, for no prior ECI was required for projects which came to existence after 14th September 2006 but before 17th April 2015.

27. On 21st December 2016, the Central Pollution Control Board, MoEF&CC, Government of India issued revised guidelines for Common Bio-Medical Wastes Treatment and Disposal Facility.

28. By final judgment and order dated 10th May 2017, which is impugned in this appeal, the National Green Tribunal has dismissed the appeal filed by the Appellant, with the observation that the Respondent No.3 could not be directed to be closed down for want of EC.

29. By an Office Memorandum, being F. No. 22-21/2020-1A III, dated 7th July 2021, the MoEF&CC issued Standard Operating Procedure (SoP) for identification and handling of violation cases under 2006 EIA Notification.

30. The said Office Memorandum, inter alia, reads:

"The Ministry had issued a notification number S.O.804(E), dated the 14th March, 2017 detailing the process for grant of Terms of Reference and Environmental Clearance in respect of projects or activities which have started the work on site and/or expanded the production beyond the limit of Prior EC or changed the product mix without obtaining Prior EC under the EIA Notification, 2006.

2. This Notification was applicable for six months from the date of publication i.e. 14.03.2017 to 13.09.2017 and further based on court direction from 14.03.2018 to 13.04.2018.

3. Hon'ble NGT in Original Application No.287 of 2020 in the matter of Dastak N.G.O. v Synochem Organics Pvt. Ltd. & Ors. and in applications pertaining to same subject matter in

Original Application No. 298 of 2020 in Vineet Nagar v Central Ground Water Authority & Ors., vide order dated 03.06.2021 held that “(...) for past violations, the concerned authorities are free to take appropriate action in accordance with polluter pays principle, following due process”.

*4. Further, the Hon’ble National Green Tribunal in O.A. No. 34/2020 WZ in the matter of Tanaji B. Gambhire vs. Chief Secretary, Government of Maharashtra and Ors., vide order dated 24.05.2021 has directed that”.... **a proper SoP be laid down for grant of EC in such cases so as to address the gaps in binding law and practice being currently followed. The MoEF may also consider circulating such SoP to all SEIAAs in the country”.***

5. Therefore, in compliance to the directions of the Hon’ble NGT a Standard Operating Procedure (SoP) for dealing with violation cases is required to be drawn. The Ministry is also seized of different categories of ‘violation’ cases which have been pending for want of an approved structural/procedural framework based on ‘Polluter Pays Principle’ and ‘Principle of Proportionality’. It is undoubtedly important that action under statutory provisions is taken against the defaulters/violators and a decision on the closure of the project or activity or otherwise is taken expeditiously.

6. In the light of the above directions of the Hon’ble Tribunal and the issues involved, the matter has accordingly been examined in detail in the Ministry. A detailed SoP has accordingly been framed and is outlined herein. The SoP is also guided by the observations/decisions of the Hon’ble Courts wherein principles of proportionality and polluters pay have been outlined.”

31. The SoP formulated by the said Office Memorandum dated 7th July 2021 refers to and gives effect to various judicial pronouncements including the judgment of this Court in ***Alembic Pharmaceuticals Ltd. v. Rohit Prajapati & Others***³.

32. In terms of the SoP, the proposal for grant of EC in cases of violation are to be considered on merits, with prospective effect, applying principles of proportionality and the principle that the

³ 2020 SCC OnLine SC 347

polluter pays and is liable for costs of remedial measures.

33. A Public Interest Litigation being W.P. (MD) No. 11757 of 2021 (***Fatima v. Union of India***) was filed before the Madurai Bench of the Madras High Court challenging the said Memorandum dated 7th July 2021. By an interim order dated 15th July 2021 a Division Bench of the Madras High Court admitted the Writ Petition and stayed the said memorandum.

34. The Madurai Bench of the Madras High Court observed and held:-

“This writ petition has been filed as a public interest litigation challenging the validity of the office memorandum dated 07.07.2021, issued by the respondent.

2. We have heard Mr. A. Yogeshwaran, learned counsel appearing for the writ petitioner and Mr.L.Victoria Gowri, learned Assistant Solicitor General of India, accepts notice for the respondent.

3. The impugned office memorandum is challenged as being wholly without jurisdiction, contrary to the Environment Impact Assessment Notification, 2006, ultra vires the powers of the respondent under the Environment (Protection) Act, 1986 and violative of the various principles enunciated by the Hon'ble Supreme Court, while interpreting Article 21 and Article 48-A of the Constitution of India.

4. Further, it is submitted that the impugned notification is in gross violation of the undertaking given before the Hon'ble Full Bench of this Court in W.P.No.11189 of 2017, wherein, the Court took note of the submissions made on behalf of the Government of India, that the notification impugned therein is only a one-time measure. Further, it is submitted that the respondent failed to see that concept of ex-post facto approval is alien to environment jurisprudence and it is anathema to the Environment Impact Assessment Notification, 2006.

5. Further, it is submitted that the impugned notification is in gross violation of the judgment of the Hon'ble Supreme Court in the case of *Alembic Pharmaceuticals Ltd. v Rohit Prajapati*, 2020 SCC Online SC 347 and the orders passed by the National Green Tribunal, Principal Bench, New Delhi, in the case of *S.P.Muthuraman v Union of India & Another*, 2015 SCC Online NGT 169.

6. Identical grounds were considered by us in a challenge to an office memorandum dated 19.02.2021, which provided a procedure for granting post facto clearance under Coastal Regulation Zone (CRZ) Notification 2011, on the ground that despite no such provisions in the notification and being contrary to the earlier judgments and undertaking. The said writ petition in W.P(MD).No.8866 of 2021 was admitted and by order dated 30.04.2021, the said office memorandum dated 19.02.2021 has been stayed.

7. The core issue in this writ petition is whether the Government of India could have issued the office memorandum and brought about the Standard Operating Procedure for dealing with violators, who failed to comply with the mandatory condition of obtaining prior environment clearance under the Environment Impact Assessment Notification 2006, read with the provisions of Environment (Protection) Act, 1986. This issue was considered by the Hon'ble Supreme Court in ***Alembic Pharmaceuticals Ltd (supra)***, and it was held that such office memorandum in the nature of circular is without jurisdiction. The operative portion of the judgment reads as follows:

"...What is sought to be achieved by the administrative circular dated 14 May 2002 is contrary to the statutory notification dated 27 January 1994. The circular dated 14 May 2002 does not stipulate how the detrimental effects on the environment would be taken care of if the project proponent is granted an ex post facto EC. The EIA notification of 1994 mandates a prior environmental clearance. The circular substantially amends or alters the application of the EIA notification of 1994. The mandate of not commencing a new project or expanding or modernising an existing one unless an environmental clearance has been obtained stands diluted and is rendered ineffective by the issuance of the administrative circular dated 14 May 2002. This discussion leads us to the conclusion that the administrative circular is not a measure protected by Section 3. Hence there was no jurisdictional bar on the NGT to enquire into its legitimacy or vires. Moreover, the administrative circular is contrary to the EIA Notification 1994 which has a statutory character. The circular is unsustainable in law."

8. Despite the above decision, once again the Government of India, Ministry of Environment, Forest and Climate Change have chosen to adopt the route of issuing the office memorandum and virtually setting at naught the provisions of the Environment Impact Assessment Notification and the Environment (Protection) Act.

9. Before the Hon'ble First Bench, a public interest litigation was filed by the Puducherry Environment Protection Association, challenging the notification dated 14.03.2017, on identical grounds and the Hon'ble First Bench by judgment dated 13.10.2017, recorded the submissions of the learned Assistant Solicitor General of India that the said notification was a one-time measure and accordingly, disposed of the writ petition.

10. Once again, the Ministry of Environment, Forest and Climate Change have issued the impugned office memorandum. Thus, from what we have noted above, we are of the clear view that the petitioner has made out a prima facie case for entertaining the writ petition. Accordingly, the writ petition is **admitted** and there shall be an order of interim stay.”

35. It is true that in the case of **Puducherry Environment Protection Association v. Union of India**⁴, the Division Bench of Madras High Court took note of and recorded the submission made on behalf of the Union of India that the relaxation was a one time relaxation. In view of such submission, this Court held that a one time relaxation was permissible.

36. It is, however, well settled that words and phrases and/or sentences in a judgment cannot be read in the manner of a statute, and that too out of context. The observation of the Division Bench that a one time relaxation was permissible, is not to be construed as a finding that relaxation cannot be made more than once. If power to amend or modify or relax a notification

4 2017 SCC OnLine Mad 7056

and/or order exists, the notification and/or order may be amended and/or modified as many times, as may be necessary. A statement made by counsel in Court would not prevent the authority concerned from making amendments and/or modifications provided such amendments and/or modifications were as per the procedure prescribed by law.

37. The Division Bench of Madras High Court fell in error in staying the said office memorandum, by relying on observations made by this Court in ***Alembic Pharmaceuticals Ltd.*** (supra), in the context of a circular which was contrary to the statutory Environment Impact Notification of 1994. The attention of the High Court was perhaps not drawn to the fact that the notification of 7th July 2021 was in pursuance of the statutory notification of 2017 which was valid. The judgment of this Court in ***Alembic Pharmaceuticals Ltd.*** (supra), was clearly distinguishable and could have no application to the office memorandum dated 7th July 2021 which was issued pursuant to the notification dated 14th March 2017.

38. In ***Electrosteel Steels Limited v. Union of India***⁵, this Court held:-

“82. The question is whether an establishment contributing to the economy of the country and providing livelihood to hundreds of people should be closed down for the technical irregularity of shifting its site without prior environmental clearance, without opportunity to the establishment to regularize its opera-

5 2021 SCC OnLine SC 1247

tion by obtaining the requisite clearances and permissions, even though the establishment may not otherwise be violating pollution laws, or the pollution, if any, can conveniently and effectively be checked. The answer has to be in the negative.

83. The Central Government is well within the scope of its powers under Section 3 of the 1986 Act to issue directions to control and/or prevent pollution including directions for prior Environmental Clearance before a project is commenced. Such prior Environmental Clearance is necessarily granted upon examining the impact of the project on the environment. ExPost facto Environmental Clearance should not ordinarily be granted, and certainly not for the asking. **At the same time ex post facto clearances and/or approvals and/or removal of technical irregularities in terms of Notifications under the 1986 Act cannot be declined with pedantic rigidity, oblivious of the consequences of stopping the operation of a running steel plant.**

84. **The 1986 Act does not prohibit ex post facto Environmental Clearance.** Some relaxations and even grant of ex post facto EC in accordance with law, in strict compliance with Rules, Regulations Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with, or can be made to comply with environment norms, is in over view not impermissible. The Court cannot be oblivious to the economy or the need to protect the livelihood of hundreds of employees and others employed in the project and others dependent on the project, if such projects comply with environmental norms.

88. The Notification being SO 804(E) dated 14th March, 2017 was not an issue in *Alembic Pharmaceuticals (supra)*. This Court was examining the propriety and/or legality of a 2002 circular which was inconsistent with the EIA Notification dated 27th January, 1994, which was statutory. Ex post facto environmental clearance should not however be granted routinely, but in exceptional circumstances taking into account all relevant environmental factors. Where the adverse consequences of ex post facto approval outweigh the consequences of regularization of operation of an industry by grant of ex post facto approval and the industry or establishment concerned otherwise conforms to the requisite pollution norms, ex post facto approval should be given in accordance with law, in strict conformity with the applicable Rules, Regulations and/or Notifications. **Ex post facto approval should not be withheld only as a penal measure.** The deviant industry may be penalised by an imposition of heavy penalty on the principle of 'polluter pays' and the cost of restoration of environment may be recovered from it.

*96. The appeals are allowed. The impugned order is set aside. The **Respondent No. 1 shall take a decision on the application of the Appellant for revised EC in accordance with law, within three months from date. Pending such decision, the operation of the steel plant shall not be interfered with on the ground of want of EC, FC, CTE or CTO.***"

39. The proposition of law enunciated/re-enunciated by this Court in ***Electrosteel Steels Limited (supra)*** was reiterated in ***Pahwa Plastics Pvt. Ltd. and Anr. v. Dastak NGO and Ors.***⁶

40. As held by this Court in ***Electrosteel Steels Limited (supra)*** *ex post facto* EC should not ordinarily be granted, and certainly not for the asking. At the same time *ex post facto* clearances and/or approvals and/or removal of technical irregularities in terms of a Notification under the EP Act cannot be declined with pedantic rigidity, oblivious of the consequences of stopping the operation of mines, running factories and plants.

41. The EP Act does not prohibit *ex post facto* Environmental Clearance. Grant of *ex post facto* EC in accordance with law, in strict compliance with Rules, Regulations, Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with, or can be made to comply with environment norms, is in our view not impermissible. The Court cannot be oblivious to the economy or the need to protect the livelihood of hundreds of employees and others employed in the project and

⁶ 2022 SCC Online SC 362

others dependent on the project, if such projects comply with environmental norms.

42. In **Lafarge Umiam Mining Private Limited v. Union of India**⁷, a three-Judge Bench of this Court held:-

“119. The time has come for us to apply the constitutional “doctrine of proportionality” to the matters concerning environment as a part of the process of judicial review in contradistinction to merit review. It cannot be gainsaid that utilization of the environment and its natural resources has to be in a way that is consistent with principles of sustainable development and intergenerational equity, but balancing of these equities may entail policy choices. In the circumstances, barring exceptions, decisions relating to utilisation of natural resources have to be tested on the anvil of the well-recognized principles of judicial review. Have all the relevant factors been taken into account? Have any extraneous factors influenced the decision? Is the decision strictly in accordance with the legislative policy underlying the law (if any) that governs the field? Is the decision consistent with the principles of sustainable development in the sense that has the decisionmaker taken into account the said principle and, on the basis of relevant considerations, arrived at a balanced decision? Thus, the Court should review the decision-making process to ensure that the decision of MoEF is fair and fully informed, based on the correct principles, and free from any bias or restraint. Once this is ensured, then the doctrine of “margin of appreciation” in favour of the decision-maker would come into play.”

43. In **Alembic Pharmaceuticals Ltd.**(supra), this Court observed:-

“27. The concept of an ex post facto EC is in derogation of the fundamental principles of environmental jurisprudence and is an anathema to the EIA notification dated 27 January 1994. It is, as the judgment in Common Cause holds, detrimental to the environment and could lead to irreparable degradation. The reason why a retrospective EC or an ex post facto clearance is alien to environmental jurisprudence is that before the issuance of an EC, the statutory notification warrants a careful application of mind, besides a study into the likely consequences of a proposed activity on

7 (2011) 7 SCC 338

the environment. An EC can be issued only after various stages of the decision making process have been completed. Requirements such as conducting a public hearing, screening, scoping and appraisal are components of the decision-making process which ensure that the likely impacts of the industrial activity or the expansion of an existing industrial activity are considered in the decision-making calculus. Allowing for an ex post facto clearance would essentially condone the operation of industrial activities without the grant of an EC. In the absence of an EC, there would be no conditions that would safeguard the environment. Moreover, if the EC was to be ultimately refused, irreparable harm would have been caused to the environment. In either view of the matter, environment law cannot countenance the notion of an ex post facto clearance. This would be contrary to both the precautionary principle as well as the need for sustainable development."

44. Even though this Court deprecated *ex post facto* clearances, in ***Alembic Pharmaceuticals Ltd.*** (supra), this Court did not direct closure of the units concerned but explored measures to control the damage caused by the industrial units. This Court held:-

"However, since the expansion has been undertaken and the industry has been functioning, we do not deem it appropriate to order closure of the entire plant as directed by the High Court."

45. The Notification being SO. 804(E) dated 14th March 2017 was not in issue in ***Alembic Pharmaceuticals Ltd.*** (supra). In ***Alembic Pharmaceuticals Ltd.*** (supra) this Court was examining the propriety and/or legality of a 2002 circular which was inconsistent with the EIA Notification dated 27th January 1994, which was statutory. The EIA Notification dated 27th January 1994 has, as stated above, been superseded by the Notification dated

14th September 2006.

46. There can be no doubt that the need to comply with the requirement to obtain EC is non-negotiable. A unit can be set up or allowed to expand subject to compliance of the requisite environmental norms. EC is granted on condition of the suitability of the site to set up the unit, from the environmental angle, and also existence of necessary infrastructural facilities and equipment for compliance of environmental norms. To protect future generations and to ensure sustainable development, it is imperative that pollution laws be strictly enforced. Under no circumstances can industries, which pollute, be allowed to operate unchecked and degrade the environment.

47. *Ex post facto* environmental clearance should ordinarily not be granted routinely, but in exceptional circumstances taking into account all relevant environmental factors. Where the adverse consequences of denial of *ex post facto* approval outweigh the consequences of regularization of operations by grant of *ex post facto* approval, and the establishment concerned otherwise conforms to the requisite pollution norms, *ex post facto* approval should be given in accordance with law, in strict conformity with the applicable Rules, Regulations and/or Notifications. In a given case, the deviant industry may be penalised by an imposition of heavy penalty on the principle of 'polluter pays' and the cost of restoration of environment may be recovered from it.

48. It is reiterated that the EP Act does not prohibit *ex post facto* EC. Some relaxations and even grant of *ex post facto* EC in accordance with law, in strict compliance with Rules, Regulations, Notifications and/or applicable orders, in appropriate cases, where the projects are in compliance with environment norms, is not impermissible. As observed by this Court in ***Electrosteel Steels Limited*** (supra), this Court cannot be oblivious to the economy or the need to protect the livelihood of hundreds of employees and others employed in the units and dependent on the units for their survival.

49. *Ex post facto* EC should not ordinarily be granted, and certainly not for the asking. At the same time *ex post facto* clearances and/or approvals cannot be declined with pedantic rigidity, regardless of the consequences of stopping the operations.

50. In our considered view, the NGT rightly found that when the Bio-Medical Waste Treatment facility of the Appellant was being operated with the requisite consent to operate, it could not be closed on the ground of want of prior Environmental Clearance. The issues raised/involved in this appeal are squarely covered by the judgment of this Court in ***Electrosteel Steels Limited*** (supra) and ***Pahwa Plastics Pvt. Ltd.*** (supra). This Court cannot lose sight of the fact that the operation of a Bio-Medical Waste Treatment Facility is in the interest of prevention of environmental

pollution. The closure of the facility only on the ground of want of prior Environmental Clearance would be against public interest. There are no grounds to interfere with the judgment and order of the NGT in appeal as rightly argued by KSPCB and the Respondent No.3. The appeal is barred by delay. In any case, the appeal does not raise any substantial question of law. The appeal is therefore dismissed.
