Dated: 06.01.2026

COMPLIANCE REPORT ON BEHALF OF CPCB IN COMPLIANCE TO HON'BLE NGT ORDER DATED 19.11.2025 IN THE MATTER OF M.C. MEHTA VS UNION OF INDIA & ORS., O.A. NO. 200/2014

This report is submitted in compliance to Hon'ble NGT order dated 19.11.2025 in OA No. 200/2014 titled M.C. Mehta vs Union of India & Ors. The concerned matter is related to remedying of pollution in River Ganga. The verbatim of the order is as follows:

“1. Learned counsel appearing for the NMCG, CPCB and State of Uttarakhand seek further four weeks' time to file the updated report/affidavit in compliance of the order dated 25.08.2025.”

A copy of the order is placed at **Annexure I**. In compliance to the above mentioned NGT order, the updated status including 200 drains monitored during post monsoon 2024, 198 drains monitored during pre-monsoon 2025, 53 STPs monitored during April - July, 2025 and water quality of River Ganga at 19 locations in Uttarakhand during January - September, 2025 has been provided hereunder:

A. Status of Drains located in the state of Uttarakhand

1. Status of drains monitored during post monsoon, 2024

During Post-monsoon 2024, 200 drains (including 193 domestic and 07 mixed) discharging directly into river Ganga, Ganga forming tributaries (Alaknanda, Bhagirathi, Mandakini, Pindar and Nandakini) and its tributaries (tributaries of Ramganga namely, Dhela, Kosi, Bahela, Pilakhar & Gaula; Sushwa, Song, Nagganga, Sukhi & Nandhaur) were monitored in Uttarakhand by Central Pollution Control Board (CPCB) along with Uttarakhand Pollution Control Board (UKPCB).

These drains having a total flow of 1891.342 MLD, carry treated /untreated wastewater (sewage and industrial effluent) along with storm water and discharge a total BOD load of 88.48 TPD into river Ganga.

Out of these 200, 130 drains are tapped to various STPs. The District-wise names and details of drains located in the state of Uttarakhand and monitored during post monsoon 2024 and pre-monsoon 2025 are placed as **Annexure II**. Observations in the said monitorings were communicated to concerned agencies vide letters dated 27.03.2025 and 18.06.2025 for taking appropriate action. Copies of these letters are annexed as **Annexure III**.

Table 1: Status of drains of river Ganga and its tributaries of Uttarakhand state during Post monsoon 2024

Untapped				Tapped			
Flow Range (MLD)	Total number of drains	Flow (MLD)	BOD Load (TPD)	Complete Tapped	Partial/ Overflow	Flow (MLD)	BOD Load (TPD)
<1	45	1.11	0.071	122	6	-	-
1-10	10	27.46	24.994				
>10	15	1422.132	51.523		2	440.64	11.90
Total	70	1450.70	76.59	122	8	440.64	11.90

2. Status of drains monitored during Pre-monsoon, 2025

During Pre-monsoon 2025, 198 drains discharging directly into river Ganga, Ganga forming tributaries (Alakhnanda, Bhagirathi, Mandakini, Pindar and Nandakini) and its tributaries (tributaries of Ramganga namely, Dhela, Kosi, Bahela, Pilakhar & Gaula; Sushwa, Song, Nagganga, Sukhi & Nandhaur) were monitored in Uttarakhand by CPCB along with UKPCB.

These drains carrying treated /untreated wastewater (sewage and industrial effluent) of 1461.22 MLD along with storm water contribute a total BOD Load of 84.99 TPD into river Ganga.

Out of the 198 monitored drains, 127 were found tapped to various STPs. These 198 drains include 191 domestic and 7 mixed drains. Observations in the said monitoring were communicated to concerned agencies vide letter dated 19.12.2025 for taking appropriate action. Copies of these letters are annexed as **Annexure IV**.

Table 2: Status of drains of river Ganga and its tributaries of Uttarakhand state during Pre monsoon 2025

Untapped				Tapped			
Flow Range (MLD)	Total number of drains	Flow (MLD)	BOD Load (TPD)	Complete Tapped	Partial/ Overflow	Flow (MLD)	BOD Load (TPD)
<1	48	0.54	0.01	114	10	0.52	0.0421
1-10	7	8.9	1.3		3	128.97	7.0992
>10	16	1322.3	76.6				
Total	71	1331.73	77.85	114	13	129.49	7.14

Photographs of these drains are also annexed as **Annexure V**.

B. Status of Sewage Management in Ganga front towns in Uttarakhand

There are 53 STPs having a designed capacity of 346.8 MLD located in 19 Ganga front towns in the state of Uttarakhand. These STPs are monitored on tri-annual basis by CPCB. As per the monitoring carried out by CPCB during April-July, 2025, 51 out of 53 STPs having operational capacity of 332.8 MLD and utilized capacity of 252.7 MLD (i.e approx. 76 % of operational capacity) were found operational. 09 out of these 51 operational STPs were found complying whereas 42 were found non-complying w.r.t. the treated sewage discharge norms notified by Ministry of Environment Forests & Climate Change (MoEF & CC) dated 13.10.2017. The remaining 02 STPs having a designed capacity of 14 MLD were found non-operational. The status of the STPs located in the state of Uttarakhand is given in Table 3 below:

Table 3: Status of STPs monitored during April – July, 2025

Range (MLD)	Total no. of STPs	No. of operational STPs	Designed capacity of operational STPs (in MLD)	Utilized capacity (sum) of Operational STPs (in MLD)	Complying (No.)	Non-complying (No.)	Non-complying for parameters
<5	39	38	31.31	16.37	6	32	BOD-12, FC-29,

							TSS-3, pH-4
5 to 25	10	9	112.5	107.78	2	7	FC-7
>25	4	4	189	128.41	1	3	FC-3
(A)	53	51	332.81	252.56	9	42	BOD-12, FC-39, TSS-3, pH-4

The operational and compliance status of these STPs is given in **Annexure VI**.

The status of the above mentioned STPs was forwarded to Uttarakhand Peyjal Sansadhan Vikas Evam Nirman Nigam, Dehradun, UK vide letter dated 30.10.2025 for appropriate action. A copy of the letter is attached at **Annexure VII**. Based on the reports submitted by CPCB, directions under the provisions of Environment (P) Act, 1986 dated 04.12.2025 were issued by National Mission for Clean Ganga (NMCG) to the non-complying STPs. A copy of these directions is annexed as **Annexure VIII**.

It is humbly submitted that the compliance of the STPs is compared with the Ministry of Environment Forest & Climate Change (MoEF & CC) notification dated 13.10.2017. It is pertinent to mention that, vide letter dated 14.12.2020, MoEF & CC stated that since the NGT order dated 30.04.2019 in O.A No. 1069 of 2018 has been challenged in the Hon'ble Supreme Court and the matter is subjudice, therefore the notification dated 13.10.2017 is still applicable for the STPs. A copy of the letter is placed at **Annexure IX**.

C. Status of water quality of River Ganga in Uttarakhand during January –September, 2025

Manual water quality monitoring of river Ganga is carried out at 19 locations under National Water Quality Monitoring Programme (NWMP) in Uttarakhand through UKPCB. Frequency of monitoring in Upper Ganga reaches i.e. at Gangotri, Kedarnath & Badrinath is on annual basis, from Rudraprayag to

Devprayag on quarterly basis and thereafter remaining stretch i.e. from Swarg Ashram to Roorkee D/s on fortnightly basis.

River water quality is assessed for notified primary water quality criteria for bathing water w.r.t parameters pH (6.5-8.5), Dissolved Oxygen (DO) (≥ 5 mg/l), Biochemical Oxygen Demand (BOD) (≤ 3 mg/l), Faecal Coliforms (FC) (≤ 2500 MPN/100 ml) and Faecal Streptococci (FS) (≤ 500 MPN/100 ml) (Table-4).

Water quality of entire stretch of river Ganga in Uttarakhand is meeting primary water quality criteria for outdoor bathing in terms of pH, DO, BOD, FC and FS.

Raw data of the water quality for the state of Uttarakhand and median, geometric mean & range of data is annexed as **Annexure X**.

Table 4. PRIMARY WATER QUALITY CRITERIA FOR BATHING WATER
(Water used for organized outdoor bathing)

CRITERIA		RATIONALE
1. Faecal Coliform (MPN/100 ml)	500 (desirable) 2500 (Maximum permissible)	To ensure low sewage contamination. Faecal coliform and faecal streptococci are considered as they reflect the bacterial pathogenicity.
2. Faecal Streptococci (MPN/100 ml)	100 (desirable) 500 (Maximum Permissible)	The desirable and permissible limits are suggested to allow for fluctuation in environmental conditions such as seasonal change, changes in flow conditions etc.
3. pH	Between 6.5-8.5	The range provides protection to the skin and delicate organs like eyes, nose, ears etc. which are directly exposed during outdoor bathing.
4. Dissolved Oxygen (mg/L)	5 mg/L or more	The minimum dissolved oxygen concentration of 5 mg/l ensures reasonable freedom from oxygen consuming organic pollution immediately upstream which is necessary for preventing production of

44468

		anaerobic gases (obnoxious gases) from sediment.
5. Biochemical Oxygen Demand (3 rd day, at 27°C) (mg/L)	3 mg/L or less	The Biochemical Oxygen Demand of 3 mg/l or less of the water ensures reasonable freedom from oxygen demanding pollutants and prevent production of obnoxious gases".

विषय : उत्तराखंड राज्य में गंगा और उसकी सहायक नदियों में गिरने वाले नालों में प्रदूषण के संबंध में।

महोदय,

Central Pollution Control Board (CPCB) along with state agencies (UKPCB/Badrinath Nagar Panchayat/Uttarakhand Jal Sansthan) monitored 29 drains (Badrinath-6, Uttarkashi-10, Harshil-3, Nandprayag-3, Karanprayag-7) discharging into river Alaknanda or Bhagirathi during post-monsoon, 2024 (from October 15, 2024 to December 17, 2024). Based on monitoring data following observations are made:

- High pollution (BOD- 754 mg/l, COD-1435 mg/l, TC- 16×10^{13} MPN/100ml and FC- 5×10^{12} MPN/100 ml) was observed in Manav Kalyan Ashram drain, Badrinath which receives waste water from market area of Manav Kalyan Ashram including hotels. Tapping was observed damaged in 3 drains of Badrinath namely Manav Kalyan Ashram drain, Iron bridge mandir drain and Raturi drain. The drains of Badrinath were monitored during October 15-16th, 2024.
- Further, solid waste was found dumped along 7 drains (Harshi-1 & Uttarkashi-6, monitored on October 17, 2024 & December 17, 2024 respectively).
- Analysis results and observations of above referred drains is annexed.

High BOD, COD, TC and FC in the wastewater of drains indicates disposal of waste water from commercial activities directly into the river through drain. The huge amount of solid waste along the drains indicates poor solid waste management practices. To address the above-mentioned issues, the following necessary actions are suggested to be taken immediately before the commencement of Chardham Yatra starting from May, 2025:

- To take urgent measure to stop discharge from activities contributing high BOD, COD, TC and FC in identified drains and to take appropriate action against polluting sources.
- To direct concerned authorities to ensure that drains have damaged tapping provisions to be repaired immediately and sewage pumping stations to be operated regularly so that no wastewater is discharged into river through tapped drains. In addition, partially tapped drains should also be completely tapped.

दूरभाष/Tel: 43102030, 22305792, वेबसाइट/Website : www.cpbc.nic.in

- iii. To enforce strict regulation to prohibit dumping of filthy material/garbage or any other solid waste along drains. Also, to direct the concerned authority for removal of solid waste dumped along identified drains and to dispose it safely.

इसलिए, आपसे अनुरोध है कि इस मामले को देखें और आवश्यक उपायों के कार्यान्वयन को सुनिश्चित करने के लिए संबंधित अधिकारियों को निर्देशित करें। कृपया इस पत्र के जारी होने के 30 दिनों के भीतर सीपीसीबी को की गई कार्रवाई रिपोर्ट उपलब्ध कराई जाए।

5. Letter issued to UKPCB dated 24.12.2024 regarding pollution in Hempur Ismail drain discharging into river Bahela, a sub-tributary of river Ramganga from Kashipur, Uttarakhand.
6. Letter issued to UKPCB dated 22.01.2025 to control Pollution in drains discharging into river Ganga and its tributaries in state of Uttarakhand.
7. Letter issued to UKPCB dated 28.01.2025 regarding pollution in river Kalyani at SIDCUL Pantnagar Industrial Area in Uttarakhand.

महोदय,

Central Pollution Control Board (CPCB) along with UKPCB/ state agencies monitored 165 drains discharging into river Ganga and its tributaries/sub-tributaries during post-monsoon drain monitoring from November 27, 2024 to March 24, 2025. Based on observations of Joint team and monitoring data, following observations are made:

1. High pollution load in terms of pH, BOD, COD, TSS and heavy metal concentration exceeding the General Standards for Discharge of Environmental Pollutants was observed in following 05 drains:
 - i. Koudiyala Drain, Koudiyala (pH-12.6, BOD- 333 mg/l, COD-494 mg/l & TSS- 1132 mg/l)
 - ii. Ice Factory Nala, Kashipur (BOD- 4290 mg/l, COD-6147 mg/l, TSS-5912 mg/l, Fe- 34.35 mg/l and Pb-0.154 mg/l)

1

‘परिवेश भवन’ पूर्वी अर्जुन नगर, दिल्ली - 110032.

Parivesh Bhawan, East Arjun Nagar, Delhi - 110 032.

दूरभाष /Tel : 43102030, 22305792, वेबसाइट /Website: www.cpcb.nic.in

- iii. Mukundpur Nala 2, Kashipur (BOD- 307 mg/l & COD-524 mg/l)
 - iv. Girdhyai Drain/ Choti dhela, Kashipur (BOD- 354 mg/l & COD- 699 mg/l)
 - v. Ghoga Drain, Bazpur (BOD- 404 mg/l & COD-842 mg/l)
2. Out of 165 drains, 106 drains were found tapped. Inadequate tapping was observed in 04 drains namely, Tiwari Mohalla Drain of Srinagar, Baitarni Drain & Pokhri Bend Drain of Gopeshwar and Junior High School Nala of Srikot,
 3. Solid waste was found dumped along 40 drains.
 4. Analysis results and observations of above referred drains is annexed.

High pH, BOD, COD, TSS and heavy metal concentration in the wastewater of drains indicates disposal of waste water from industrial/commercial activities into such drains. The huge amount of solid waste along the drains indicates poor solid waste management practices.

In view of above, following necessary actions are suggested to be taken immediately to address the above mentioned issues:

1. To take urgent measure to stop discharge from industrial activities contributing high pH, BOD, COD, TSS and heavy metal concentration in identified drains and to take appropriate action against polluting sources.
2. To direct concerned authorities to ensure that drains have adequate capacity to carry effluent and damage drain should be repaired immediately. Sewage pumping stations to be operated regularly so that no wastewater is discharged into river through tapped drains connected to STP.
3. To enforce strict regulation to prohibit dumping of filthy material/garbage or any other solid waste along drains. Also, to direct the direct concerned authority for removal of solid waste dumped along identified drains and to dispose it safely.

इसलिए, आपसे अनुरोध है कि इस मामले को देखें और आवश्यक उपायों के कार्यान्वयन को सुनिश्चित करने के लिए संबंधित अधिकारियों को निर्देशित करें। कृपया इस पत्र के जारी होने के 30 दिनों के भीतर सीपीसीबी को की गई कार्रवाई रिपोर्ट उपलब्ध कराई जाए।

ई-मेल/स्पीड पोस्ट

F. No. PJ-14014(99)/2/2024-WQM-II-HO-CPCB-HO

दिनांक: 19 दिसम्बर, 2025

To,

सदस्य सचिव,
उत्तराखण्ड प्रदूषण नियंत्रण बोर्ड,
गौरा देवी पर्यावरण भवन,
46 वीं आईटी पार्क, सहस्रधारा, देहरादून,
उत्तराखण्ड, -248001

विषय: उत्तराखण्ड राज्य में गंगा और उसकी सहायक नदियों में गिरने वाले नालों में प्रदूषण के संबंध में।

संदर्भ:

Letter issued to UKPCB dated 18.06.2025 & 25.03.2025 regarding pollution in drains discharging into river Ganga and its tributaries in Uttarakhand.

महोदय,

Central Pollution Control Board (CPCB) along with UKPCB/ state agencies monitored 198 drains discharging into river Ganga and its tributaries/sub-tributaries during pre-monsoon drain monitoring from 22/04/2025 to 29/07/2025. Based on observations of Joint team and monitoring data, following observations are made:

1. High pollution load in terms of BOD was observed in Car Parking Drain, Sonprayag, (BOD- 240 mg/l).
2. Out of 198 drains, 127 drains were found tapped. Inadequate tapping in 10 drains wherein overflow (3) and complete bypass (7) were observed.
3. Further, solid waste/animal waste was found dumped along 43 drains. Ash disposal was observed along one drain.
4. Analysis results and observations along with Photographs of Solid waste/animal dung found along drains of above referred drains is annexed.

High BOD in the wastewater of drains indicates disposal of waste water from commercial activities into such drain. The huge amount of solid/cattle waste along the drains indicates poor solid/cattle waste management practices. In view of above, following necessary actions are suggested to be taken immediately to address the above mentioned issues:

1. To take urgent measure to stop discharge from commercial activities contributing high pollution load in identified drain and to take appropriate action against polluting sources.

‘परिवेश भवन’ पूर्वी अर्जुन नगर, दिल्ली-110032

Parivesh Bhawan, East Arjun Nagar, New Delhi - 110032

दूरभाष/Tel: 43102030, 22305792, वेबसाइट/Website : www.cpbc.nic.in

2. To direct concerned authorities to ensure that drains having adequate tapping arrangement and damaged tapping provisions to be repaired immediately. Sewage pumping stations to be operated regularly so that no wastewater is discharged through tapped drains.
3. To enforce strict regulation to prohibit dumping of filthy material/garbage/cow dung or any other solid waste along drains. Also, to direct the concerned authorities to remove already dumped solid waste and dispose of it safely. UKPCB may also take necessary action regarding implementation of "Guidelines for Environmental Management of Dairy Farms and Gaushalas" issued by CPCB for management of waste generated from dairy cattle farming and Gaushala.

इसलिए, आपसे अनुरोध है कि इस मामले को देखें और आवश्यक उपायों के कार्यान्वयन को सुनिश्चित करने के लिए संबंधित अधिकारियों को निर्देशित करें। कृपया इस पत्र के जारी होने के 30 दिनों के भीतर सीपीसीबी को की गई कार्रवाई रिपोर्ट उपलब्ध कराई जाए।

Status of Sewage Treatment Plants in Uttarakhand (April 2025- July 2025)

- Commissioned STPs - 53 (19 towns) with designed capacity – 346.8 MLD
- Operational STPs – 51 (Operational capacity – 332.8 MLD) with Utilized capacity – 252.7 MLD (~75.93% of operational capacity)
- Compliance Status of operational STPs

	Compliance w.r.t. Hon'ble NGT prescribed norms vide order 30.04.2019	Compliance Status w.r.t MoEF&CC notified norms dated 13.10.2017
Complying	02	09
Non-complying	49	42

- Non-operational STPs – 02 (Designed capacity – 14.01 MLD)
- STPs complying for Faecal Coliform norms (230 MPN/100ml) – 10
- STPs non-complying for Faecal Coliform norms (>230 MPN/100ml) – 41
- BOD removal efficiency in percentage (<50=10, >50-70=06, >70-90= 10, >90=25)
- STPs working under capacity (<75% of designed capacity)- 31
- STPs working over their designed capacity – 04
- STPs receiving weak sewage (Raw sewage BOD <40mg/l) at inlet of STP - 12

Subject: Status of Sewage Treatment Plants in Ganga front towns of Uttarakhand -reg.

Sir,

Central Pollution Control Board (CPCB) carries out monitoring of Sewage treatment plants (STPs) located in towns along the river Ganga on tri-annual basis. Based on the monitoring carried out during April to July 2025, the performance of 53 STPs located in 19 towns in 7 districts of Uttarakhand, were evaluated. During monitoring, 2 STPs were found non-operational, while 51 were operational. Out of the operational STPs, only 9 complied with the notified norms, while 42 did not.

Further, 31 operational STPs were operating at less than 75 percent of their designed treatment capacity, while 4 were operating above their designed capacity. 25 STPs achieved BOD removal efficiency greater than 90 percent, 10 operated at an efficiency between 70-90 percent, and 16 fell short of achieving 70 percent efficiency. It is also worth mentioning that disinfection system is installed at all STPs; however, only 10 STPs complied with the norms for faecal coliform (≤ 230 MPN/100 ml). A detailed status report of the monitored STPs is enclosed as Annexure-I for your reference.

In view of above, it is requested to direct the concerned agencies to address issues of non-compliance, non-operation, under-capacity utilization, poor BOD removal efficiency, and optimization of disinfection systems etc. in the STPs. Action taken report in this regard may be forwarded to this office within 30 days of receipt of the letter.

Yours faithfully,

(Dinabandhu Gouda)
Director &
Divisional Head, WQM-II

Status of Sewage Treatment Plants in Uttarakhand (April 2025- July 2025)

- Commissioned STPs - 53 (19 towns) with designed capacity – 346.8 MLD
- Operational STPs – 51 (Operational capacity – 332.8 MLD) with Utilized capacity – 252.7 MLD (~75.93% of operational capacity)
- Compliance Status of operational STPs

	Compliance w.r.t. Hon'ble NGT prescribed norms vide order 30.04.2019	Compliance Status w.r.t MoEF&CC notified norms dated 13.10.2017
Complying	02	09
Non-complying	49	42

- Non-operational STPs – 02 (Designed capacity – 14.01 MLD)
- STPs complying for Faecal Coliform norms (230 MPN/100ml) – 10
- STPs non-complying for Faecal Coliform norms (>230 MPN/100ml) – 41
- BOD removal efficiency in percentage (<50=10, >50-70=06, >70-90= 10, >90=25)
- STPs working under capacity (<75% of designed capacity)- 31
- STPs working over their designed capacity – 04
- STPs receiving weak sewage (Raw sewage BOD <40mg/l) at inlet of STP - 12

राष्ट्रीय स्वच्छ गंगा मिशन
National Mission for Clean Ganga

F.No. TE-16017/1/2025-TECH4 NMCG

Date: 04th December, 2025

DIRECTIONS UNDER THE PROVISIONS OF ENVIRONMENT (PROTECTION) ACT, 1986 AGAINST THE NON-COMPLYING STPS OPERATIONAL IN UTTARAKHAND

WHEREAS, National Mission for Clean Ganga (NMCG) has been constituted as an Authority vide Government of India notification number S.O. 3187 (E) dated 7th October, 2016 under the provisions of Environment (Protection) Act, 1986 to exercise powers and discharge functions conferred under the said notification for abatement of pollution and rejuvenation, protection and management of the River Ganga and its tributaries; and

WHEREAS, Para 39 of the notification provides function of the NMCG and amongst others, Clause (a) and (c) of the said para provides that NMCG shall identify or cause to be identified the specific threats to the river Ganga and its tributaries in areas abutting River Ganga and its tributaries, including the remedial actions to be taken for rejuvenation and protection of River Ganga and its tributaries; and

WHEREAS, Para 41 (2) and (3) of the notification empowers NMCG to direct any person, authority, board or corporation to take such measures which may be necessary for prevention, control and abatement of pollution, rejuvenation, protection and management of River Ganga and its tributaries; and

WHEREAS, Central Pollution Control Board (CPCB) carries out monitoring of Sewage Treatment Plants (STP) located in towns along river Ganga on tri-annual basis. Based on the monitoring carried out by CPCB during April to July 2025, the performance of STPs located in Uttarakhand, were evaluated. During monitoring, it was found that disinfection systems were installed at all STPs; still **39 STPs were reported as non-compliant with the norms of faecal coliform at the outlet (>1000 MPN/100 ml)**. List of the 39 STPs along with copy of CPCB's letter dated 30.10.2025 is attached.

WHEREAS, Honourable NGT is seized of the issues related to the pollution control caused into the river Ganga due to non-functional, non-compliant STPs in the catchment of River Ganga and has given clear directions to the States to take appropriate actions against the erring officers and remedial action for preventing untreated sewage being discharged directly into river Ganga, in violation of the mandate of the law.

WHEREAS, it has been noted that, the private STP operator are violating the environmental laws by discharging non-compliant treated effluent into the river Ganga and its tributaries.

AND NOW, THEREFORE, in view of the above observations and in exercise of powers conferred to National Mission for Clean Ganga under Section 5 of the Environment (Protection) Act, 1986, show cause notice is hereby served to the respective Operating Firm of the STP to explain the reasons as to why Environment Compensation of Rs. 5,00,000/- (Five lakh only) shall not be levied on the Operating Firm for non-compliance of the mentioned STPs (list enclosed at Annexure-1) with respect to Faecal Coliform discharge standards, despite having installed disinfection systems.

Dehradun – 248001.

Subject: Status of Sewage Treatment Plants in Ganga front towns of Uttarakhand -reg.

Sir,

Central Pollution Control Board (CPCB) carries out monitoring of Sewage treatment plants (STPs) located in towns along the river Ganga on tri-annual basis. Based on the monitoring carried out during April to July 2025, the performance of 53 STPs located in 19 towns in 7 districts of Uttarakhand, were evaluated. During monitoring, 2 STPs were found non-operational, while 51 were operational. Out of the operational STPs, only 9 complied with the notified norms, while 42 did not.

Further, 31 operational STPs were operating at less than 75 percent of their designed treatment capacity, while 4 were operating above their designed capacity. 25 STPs achieved BOD removal efficiency greater than 90 percent, 10 operated at an efficiency between 70-90 percent, and 16 fell short of achieving 70 percent efficiency. It is also worth mentioning that disinfection system is installed at all STPs; however, only 10 STPs complied with the norms for faecal coliform (≤ 230 MPN/100 ml). A detailed status report of the monitored STPs is enclosed as Annexure-I for your reference.

In view of above, it is requested to direct the concerned agencies to address issues of non-compliance, non-operation, under-capacity utilization, poor BOD removal efficiency, and optimization of disinfection systems etc. in the STPs. Action taken report in this regard may be forwarded to this office within 30 days of receipt of the letter.

Yours faithfully,

(Dinabandhu Gouda)
Director &
Divisional Head, WQM-II

 Court Matter

Indira Paryavaran Bhawan,
 Jor Bagh Road,
 New Delhi-110 003
 Dated: 19.12.2020

To,

The Member Secretary,
 Central Pollution Control Board (CPCB)
 Parivesh Bhawan, CBD-cum-Office Complex,
 East Arjun Nagar, New Delhi-110032.

Subject: Clarification on Effluent Discharge Standards for Sewage Treatment Plants-regarding

Sir,

This is with reference your letter no. A-19014/43/20/UPC-17545 dated 09.09.2020 on the subject mentioned above regarding clarity on the standards to be followed. It is submitted that vide order dated 21.12.2018 in OA no. 1069 of 2018 Hon'ble Tribunal has directed "Apart from there being a prime facie case in favour of stay of the impugned notification, balance of convenience also is in favour of stay being granted. Operation of the impugned notification will be extremely harmful for public at large. On stay being granted, pre-revised standards will prevail and grant of stay will cause no harm to anyone.

Further, vide order dated 30.04.2019 in OA no. 1069 of 2018 Hon'ble Tribunal has directed "We accept the report of the expert Committee with the modification that the standards recommended for Mega and Metropolitan Cities will also apply to rest of the country. we also direct that the standards will apply not only for new STPs but also for existing/under construction STPs without any delay and giving of seven years' time stands disapproved.

MoEF&CC has preferred to appeal before Hon'ble Supreme Court in this regards and the matter is sub-judice as of now.

In view of above, it is to inform you that the notification dated 13.10.2017 is still applicable for the STPs.

This issue with approval of competent authority

Yours faithfully

Sonu Singh
