Date: 7th July, 2021**Office Memorandum**

Subject: Standard Operating Procedure (SoP) for Identification and handling of violation cases under EIA Notification 2006 in compliance to order of Hon'ble National Green Tribunal in O.A. No.34/2020 WZ - Regarding.

The Ministry had issued a notification number S.O.804(E), dated the 14th March, 2017 detailing the process for grant of Terms of Reference and Environmental Clearance in respect of projects or activities which have started the work on site and/or expanded the production beyond the limit of Prior EC or changed the product mix without obtaining Prior EC under the EIA Notification, 2006.

2. This Notification was applicable for six months from the date of publication i.e. 14.03.2017 to 13.09.2017 and further based on court direction from 14.03.2018 to 13.04.2018.

3. Hon'ble NGT in Original Application No. 287 of 2020 in the matter of Dastak N.G.O. Vs Synochem Organics Pvt. Ltd. &Ors. and in applications pertaining to same subject matter in Original Application No. 298 of 2020 in Vineet Nagar Vs. Central Ground Water Authority &Ors., vide order dated 03.06.2021 held that "(...) **for past violations, the concerned authorities are free to take appropriate action in accordance with polluter pays principle, following due process**".

4. Further, the Hon'ble National Green Tribunal in O.A No. 34/2020 WZ in the matter of Tanaji B. Gambhire vs. Chief Secretary, Government of Maharashtra and ors., vide order dated 24.05.2021 has directed that "**...a proper SoP be laid down for grant of EC in such cases so as to address the gaps in binding law and practice being currently followed. The MoEF may also consider circulating such SoP to all SEIAAs in the country**".

5. Therefore, in compliance to the directions of the Hon'ble NGT a Standard Operating Procedure (SoP) for dealing with violation cases is required to be drawn. The Ministry is also seized of different categories of 'violation' cases which have been

pending for want of an approved structural/procedural framework based on 'Polluter Pays Principle' and 'Principle of Proportionality'. It is undoubtedly important that action under statutory provisions is taken against the defaulters/violators and a decision on the closure of the project or activity or otherwise is taken expeditiously.

6. In the light of the above directions of the Hon'ble Tribunal and the issues involved, the matter has accordingly been examined in detail in the Ministry. A detailed SoP has accordingly been framed and is outlined herein. The SoP is also guided by the observations / decisions of the Hon'ble Courts wherein principles of proportionality and polluters pay have been outlined.

7. Relevant Court Cases on the issue: It is noted that while deciding issues related to violations of the Environment Protection Act, 1986 on account of running the project/activity without prior environmental clearance or in excess of capacity allowed in such clearances, **the Hon'ble courts have, *inter-alia*, deliberated on various facets involving 'violation' cases and have enunciated principles of 'Proportionality' and 'Polluter Pays' in various decisions viz. Industrial Council for Enviro-Legal Action Vs Union of India (the Bichhri village industrial pollution case) (1996 SCC [3] 212); Alembic Pharmaceuticals Ltd. Vs Rohit Prajapati & Ors. (C.A. No. 1526 of 2016, order dated 1.4.2020) and Hindustan Copper Limited Vs Union of India in (W.P. (C) No. 2364 of 2014, order dated 28.11.2014).** The salient extracts of the judgements are as under:

Issue 1: Proposal for grant of Environmental Clearance in violation cases – to be considered on merits:

i. Hon'ble High Court of Jharkhand in the matter of Hindustan Copper Limited Vs Union of India in W.P. (C) No. 2364 of 2014, vide order dated 28.11.2014

Held: "(...) action for alleged violation would be an independent and separate proceeding and therefore, consideration of proposal for environment clearance cannot await initiation of action against the project proponent."

*"(...) the proposal of the petitioner company for **environmental clearance must be examined on its merits, independent of any proposed action for the alleged violation of the environmental laws.**"*

ii. Hon'ble Madras High Court in the matter of Puducherry Environment Protection Association Vs The Union of India in W.P. No. 11189 of 2017, vide order dated 13.10.2017

Held "27. The question is whether an establishment contributing to the economy of the country and providing livelihood to hundreds of people should be closed down only because of failure to obtain prior environmental clearance, even though the establishment may not otherwise be violating

SA

*pollution laws or the pollution, if any, can conveniently and effectively be checked. **The answer necessarily has to be in the negative.***

“29. It is reiterated that protection of environment and prevention of environmental pollution and degradation are non-negotiable. At the same time, the Court cannot altogether ignore the economy of the Nation and the need to protect the livelihood of hundreds of employees employed in projects, which as stated above, otherwise comply with or can be made to comply with norms.”

Issue 2: Environmental Clearance – Prospective & not ex-post facto:

Hon’ble Supreme Court in the matter of Common Cause Vs Union of India in W.P. (C) No. 114 of 2014, vide order dated 2.8.2017

*Held: “(...) an EC will come into force **not earlier than the date of its grant.**”*

Issue 3: ‘Principles of Proportionality’ – to be applied:

Hon’ble Supreme Court in the matter of Alembic Pharmaceuticals Ltd. Vs Rohit Prajapati & Ors. in C.A. No. 1526 of 2016, vide order dated 1.4.2020

*Held: “(...) **this Court must take a balanced approach** which holds the industries to account for having operated without environmental clearances in the past without ordering a closure of operations. The directions of the NGT for the revocation of the ECs and for closure of the units do not accord **with the principle of proportionality**”*

**Issue 4: ‘Polluter pays’ principle &
&**

Issue 5: Costs for remedial measures implicit in Sections 3 & 5 of Environment (Protection) Act, 1986.

Hon’ble Supreme Court in the matter of Indian Council for Enviro- Legal Action Vs Union of India (the Bichhri village industrial pollution case) in (1996 SCC [3] 212)

Held:

*a) The Central Government is empowered to take all measures and issue all such directions as are called for the above purpose. The said powers will **include giving directions ...** and also the power to **impose the cost of remedial measures** on the offending industry and utilize the amount so recovered for carrying out remedial measures.....*

SA

b) **Levy of costs required for carrying out remedial measures is implicit in Sections 3 and 5** which are couched in very wide and expansive language. Sections 3 and 5 of the Environment (Protection) Act, 1986, apart from other provisions of Water and Air Acts, empower the Government to make all such directions and take all such measures as are necessary or expedient for protecting and promoting the 'environment', which expression has been defined in very wide and expansive terms in Section 2 (a) of the Environment (Protection) Act. This power includes the power to prohibit an activity, close an industry, direct to carry out remedial measures, and wherever necessary impose the cost of remedial measures upon the offending industry.

c) The question of liability of the respondents to defray the costs of remedial measures can also be looked into from accepted universally sound principle, viz., the "**Polluter Pays**" Principle. "The polluter pays principle demands that the financial costs of preventing or remedying damage caused by pollution should lie with the undertakings which cause the pollution, or produce the goods which cause the pollution".

8. Legal provisions:

i. The Environment (Protection) Act, 1986 mandates the Central Government to take all measures as it deems necessary or expedient for the purpose of protecting and improving the quality of the environment and preventing, controlling and abating environmental pollution (reference sub-section (1) of Section 3 of Environment (Protection) Act, 1986). Further, clause (xiv) of sub-section (2) of Section 3 of the Environment (Protection) Act, 1986 specifies that the measures stipulated under sub-section (1) of Section 3 of the Environment (Protection) Act 1986 includes 'such other matters as the Central Government deems necessary or expedient for the purpose of securing effective implementation of the provisions of this Act'.

ii. Further, notwithstanding anything contained in any other law but subject to the provisions of the Environment Protection Act, 1986, Section 5 of the Environment (Protection) Act, 1986, provides that the Central Government may, in the exercise of powers and performance of Central Government functions under the said Act, issue directions in writing to any person, officer or any authority and such person, officer or authority shall be bound to comply with such directions.

9. Definition of Violation and Non-compliance:

The Standard Operating Procedure (SoP) considers 'Violation' & 'Non-compliance' from the following perspective:

i. "Violation" means cases where projects have either started the construction work or installation or excavation, whichever is earlier, on site or have expanded the production capacity and / or project area beyond the limit specified in the Environmental Clearance (Prior-EC) without obtaining Prior-EC or change of scope without prior approval from the Ministry.

ii. "Non-compliance" means non-compliance of terms and conditions prescribed by the Regulatory Authority in the Prior Environment Clearance accorded to the project.

10. Standard Operating Procedure – Guiding Principles:

i. Without prejudice to any other consequences, **action has to be initiated under section 15 read with section 19** of The Environment (Protection) Act, 1986 **against all violations.**

ii. Projects not allowable/permissible, for grant of EC, as per extant regulations: **To be demolished.**

iii. Projects allowable/permissible, if prior EC had been taken as per extant regulations: **To be closed until EC is granted (if no prior EC has been taken) or to revert to permitted production level (in case prior EC has been granted).**

iv. **Polluter pays:** Violators to pay for violation period - proportionate to the scale of project and extent of commercial transaction.

v. Setting up a mechanism for reporting of violation to the regulatory authority(ies).

11. SOP for dealing with the violation cases:

Step 1: Closure or Revision

Sl no.	Status of EC	Actions
1	If no prior EC has been taken	Order to close its operation
2.	If prior EC is available for existing/old unit	Order to revert the activity/production to permissible limits.
3.	If prior EC was not required for earlier production level but is now required	Restrict the activity/production to the extent to which prior EC was not required.

Step 2: Action under Environment (Projection) Act, 1986

Action under section 15 read with section 19 of the Environment (Protection) Act, 1986 shall be initiated against the violators.

SA

Step: 3: Appraisal under EIA Notification, 2006

The permissibility of the project shall be examined from the perspective of whether such activity/project was at all eligible for the grant of prior EC.

A. If not permissible:

i. The project shall be **ordered for the demolition/closure after issuing show cause notice and providing an opportunity of hearing.**

*Ex. If a red industry is functioning in a CRZ-I area which means that the activity was, in the first place, not permitted at the time of commencement of project. Therefore, the activity is not permissible and therefore it shall be **closed & demolished.***

ii. Respective regulatory authorities shall issue directions under section 5 of the Environment (Protection) Act, 1986 for such closure & demolition of the project/activity.

B. If permissible:

i. As per extant regulations at the time of scoping, if it is viewed that the project activity is otherwise permissible, Terms of Reference (TOR) shall be issued with directions to complete the impact assessment studies & submit Environmental Impact Assessment (EIA) report & Environmental Management Plan (EMP) in a time bound manner.

ii. Such cases of violation shall be subject to appropriate

(a) Damage Assessment

(b) Remedial Plan and

(c) Community Augmentation Plan by the Central level Sectoral Expert Appraisal Committees or State/Union Territory Level Expert Appraisal Committees, as the case may be.

iii. The Competent Authority shall issue directions to the project proponent, under section 5 of the Environment (Protection) Act, 1986 on case to case basis mandating payment of such amount (as may be determined based on Polluters Pay principle) and undertaking activities relating to Remedial Plan and Community Augmentation Plan (to restore environmental damage caused including its social aspects).

iv. Upon submission of the EIA & EMP report, the project shall be appraised by the Central Sectoral Expert Appraisal Committees or the State/Union Territory Level Expert Appraisal Committees, as the case may be, as if it was a new proposal. If, on examination of the EIA/EMP report, the project is considered permissible for operation as per extant regulations, the requisite Environmental Clearance shall be issued **which shall be effective from the date of issue.**

v. However, during appraisal after examination if it is found that even though the project may **be permissible but not environmentally sustainable in its present**

form/configuration/features then the project shall be directed to be **modified so that the project would be environmentally sustainable.**

vi. If, however, it is not considered appropriate to issue EC, the project shall be directed to be **demolished/ closed. If such proposal is a case of expansion, the project shall be directed to revert back to the extent of activity for which EC had been granted earlier or to revert back to the extent of activity for which EC was not required (as the case may be).**

vii. Central Sectoral Expert Appraisal Committees or the State/Union Territory Level Expert Appraisal Committees, as the case may be, may insist upon public hearing to be conducted for such categories of projects for which the EIA Notification 2006, as amended from time to time, requires the public hearing to be conducted.

viii. The project proponent will be required to **submit a bank guarantee equivalent to the amount of Remediation Plan and Natural & Community Resource Augmentation Plan with Central / the State Pollution Control Board (depending on whether it is appraised at Ministry or by SEIAA).** The quantification of such liability will be recommended by Expert Appraisal Committee and finalized by Regulatory Authority. The bank guarantee shall be deposited prior to the grant of environmental clearance and **will be released after successful implementation of the Remediation plan and Natural & Community Resource Augmentation Plan.**

Note - The activities, as per above clauses, shall be undertaken simultaneously wherever feasible. Environmental Clearance, if granted, to such projects or activities, after due appraisal of EIA/EMP report, **shall be effective only from the date of issuance of such clearance** and shall be subject to compliance of obligations towards Damage Assessment, Remedial Plan & Community Augmentation Plan, etc. finalized in each case.

12. Penalty provisions for Violation cases and applications:

a. For new projects:

- i. **Where operation has not commenced:** 1% of the total project cost incurred up to the date of filing of application along with EIA/EMP report; [Ex: Rs.1 lakh for project cost of Rs.1 Cr]
- ii. **Where operations have commenced without EC:** 1% of the total project cost incurred up to the date of filing of application along with EIA/EMP report **PLUS** 0.25% of the total turnover during the period of violation. [Ex: For Rs.100 Cr project cost and Rs.100 Cr total turnover, the penalty shall be Rs.1 Cr + Rs. 0.25 Cr = Rs.1.25 Cr]

SA

b. For expansion projects:

- i. **Where operation/production with expanded capacity has not commenced:**
1% of the project cost, attributable to the expansion, incurred up to the date of filing of application along with EIA/EMP report.
- ii. **Where operation/ production with expanded capacity have commenced:**
1% of the project cost (attributable to the expansion activity) incurred upto the date of filing of application along with EIA/EMP report PLUS 0.25% of the total turnover (attributable to the expanded activity/capacity) involved during the period of violation.

12.1. Without prejudice to obligation as per (a) & (b) above, where the project or activity is considered for appraisal as above & the project proponent fails to provide required information or requisite documents or complete the requisite study for the purpose of EIA/EMP reports or does not furnish such reports within such period, as specified by the appraisal committee, without reasonable cause, it shall be inferred that the project proponent is not serious enough and the project or activity shall be directed to be demolished / closed.

12.2. The percentage rates, as above, shall be halved if the project proponent *suo-moto* reports such violations without such violations coming to the knowledge of the Government either on inquiry or complaint.

12.3. The penalty, as above, shall be in addition to liability for carrying out various remedial measures which shall be worked out based on the damage assessment for quantifying the environmental damage caused due to unauthorized project activity [as per Step 3 enumerated above].

13. Identification of Violation cases:

With a view to protecting the environment and to expeditiously bring violators into a regulatory regime so as to prevent & control environment damage caused by such violation & to determine whether operation of such projects is permissible and to take action stipulated under Section 15 of the Environment (Protection) Act, 1986 for contravention of the provisions of the said Act, Rules, orders and directions, it is expedient to also identify the cases of violation, examine and appraise such projects so as to refrain them from causing further environmental damage and also to compensate for causing damage to the environment. Therefore, in exercise of the powers conferred under Section 5 of the Environment (Protection) Act, 1986, the Central Government hereby directs that:-

- i. State Pollution Control Boards & Union Territory Pollution Control Committees, before grant or renewal of Consents under Water(Prevention & Control of Pollution) Act, 1974 & Air (Prevention& Control of Pollution) Act, 1981, shall ensure that the project proponents applies for or possess valid Prior

Environmental Clearance in terms of extant EIA Notification and shall not grant or renew CTO (Consent to Operate) unless Environment Clearance (if applicable) has been obtained.

- ii. The Central Pollution Control Board, all State Pollution Control Boards and all Union Territory Pollution Control Committees shall identify cases of violation under their respective jurisdiction, report such cases to the Ministry or State/Union Territory Level Environmental Impact Assessment Authority, as the case may be and also revoke CTO, if granted to the unit after giving an opportunity of being heard.
- iii. The Central Pollution Control Board, all State Pollution Control Boards and all Union Territory Pollution Control Committees shall expeditiously examine the references, received from public and other bodies, relating to violations and take necessary steps as per (ii) above.

14. This is issued with the approval of the Competent Authority.
