BEFORE THE NATIONAL GREEN TRIBUNAL PRINCIPAL BENCH, NEW DELHI

ORIGINAL APPLICATION NO. 40 OF 2022

IN THE MATTER OF: -

GAURI MAULEKHI ...APPLICANT

VERSUS

UNION OF INDIA & ORS. ...RESPONDENTS

REPLY ON BEHALF OF RESPONDENT NO.3 (DAMB)

AFFIDAVIT OF SHRI R.K Agrawal, S/o SHRI Late Sh. OP Agrawal, AGE 58 YEARS, Suptdg. Engineer, DELHI AGRICULTURAL MARKETING BOARD, NEW DELHI.

I, **R.K Agrawal**, the above-named deponent do hereby solemnly affirm and state as under:

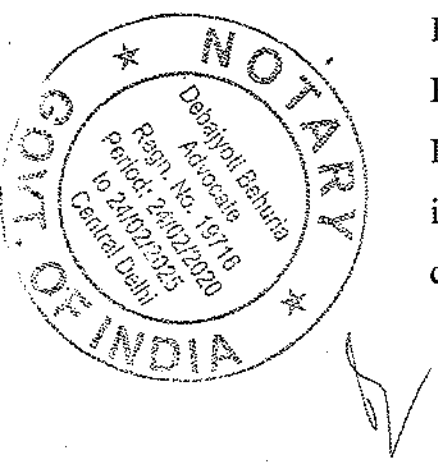
(i). That I am Suptdg. Engineer, Delhi Agricultural Marketing Board, New Delhi. I have gone through the above original application and understood its contents. In my official capacity, I am conversant with the facts of the case and competent and duly authorized to depose about the same.

PRELIMINARY SUBMISSIONS: -

This petition is an abuse of the process of the Court. The issues raised in the present O.A are also raised before the Hon'ble Delhi High Court in WPC No. 1214/2018 as well as before this

Hon'ble Tribunal in O.A No. 11/2021 Gauri Maulekhi vs. Delhi Agricultural Marketing Board. Exactly, the same issues with respect to Gazipur Poultry Market, claiming that slaughtering in the area is going on without permission of the competent authority / DPCC as well as the issue raised in the O.A No. 40/2022. The Hon'ble Delhi High Court is seized of the matter and inspection reports of Delhi Pollution Control Committee leading to show cause notice dated 27.2.2018 under Section-33-A and Section-31-A are under consideration. Detailed affidavit and status reports have been filed from time to time in that matter. The similar averments have been made in this petition, and the same set of documents/ photographs etc. which have been used, in this O.A have been filed before the Hon'ble Delhi High Court also. A petition O.A No. 11/2021 was also filed by Gauri Maulekhi before this Hon'ble Court making same very allegations and in fact forestalled the Environmental Clearance (EC) given by the MoEF&CC on 5.1.2021 for Development of Modern Poultry and Egg Market with built-up area of 96,629.057 sq. mtrs at Gazipur. In this appeal Ministry of Environment Forest and Climate Change were the party. The Delhi Agricultural Marketing Board was not party.

The appeal was preferred on 12.4.2021 against grant of Environmental Clearance (EC) by Ministry of Environment Forest and Climate Change for development of the Modern Poultry and Egg Market, the Hon'ble Court without issuingnotice to any of the parties and only after noticing the contention of the Petitioner which were factually incorrect



passed an order on 19.5.2021 directing the Ministry to re-visit the EC granted on 5.1.2021.

2. In the O.A No. 11/2021, the objections against the impugned Environment Clearance dated 5.1.2021, were that the slaughtering of animals and processing of meat cannot be at the same place where marketing is done. Reliance is placed on some reports of sub-committee dated 05.08.2019 and 04.11.2020 which inspected the site, claiming that sub-committee was constituted in pursuance to the directions of the Hon'ble Supreme Court in Laxmi Narain Modi vs. Union of India 2014(2) SCC417. This Hon'ble Court passed a detailed ex-parte order believing the averments therein as correct and referred the matter to the MoEF&CC directing that grant of EC dated 5.1.2021 needs to be re-visited. Copy of the order passed by this Hon'ble Tribunal is annexed as **ANNEXURE R-1**.

It may be pointed out that the issue before the Hon'ble Supreme Court is slaughtering of animals there was no issue with respect to the birds who are only dressed and not slaughtered.

3. That on the similar alleged inspection report, a contempt petition has been also filed by Ms. Gauri Mulekhi CCP No. 98/2021 before the Hon'ble High Court, with the same reports and photographs. Since, all the factual averments in the contempt petition, and the Petition filed before this Hon'ble Court were false to the knowledge of the Petitioner therein, a

Period: 24/02/2020
to 24/02/2025
Central Delhi
GOVT. OF INDIA

detailed counter affidavit has been filed before the Hon'ble High Court. Interestingly, it is the same counsel who is filing all these petitions in different forums by different Petitioners. A detailed counter affidavit filed in opposition to the contempt petition with the relevant documents is annexed herewith as **ANNEXURE R-2** before this Hon'ble Court.

4. A perusal of all these petitions only show that endeavor of the Petitioners is only to see that, activities of Poultry and Egg Marketing Committee Gazipur are not allowed to be carried on as per the provisions of Delhi Agricultural Produce Marketing (Regulation) Act, 1998 and the small-time traders / commission agents having A & B category licensees in the notified market yard are not allowed to function.

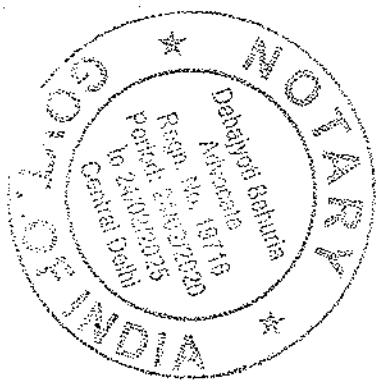
5. It is nobody's case that the Board/ Market Committee are not carrying on its activities as per provisions of the Delhi Agricultural Produce Marketing (Regulation) Act, 1998 or will not follow the provisions of water (Prevention and Control of Pollution) Act, 1981 (AIR Act).

6. That as a matter of fact, a Modern Poultry and Egg Market having proper separate place as livestock market for sale of the produce and dressing of the poultry is being provided to the farmers/ traders in a separate block. The whole issue has been confused with the slaughter-house which was shifted from Idgah to Gazipur under the orders of Hon'ble Supreme Court of India and is operating under its supervision. So far as, poultry is

NOTARY Debajyoti Bahuria Advocate Regn. No. 19716 Period: 24/02/2020 to 24/02/2025 Central Delhi

concerned there is no slaughtering of the birds. Either the live birds are purchased from the market and taken to the respective shops, or the dressing of the birds is done for which proper ETP Plant etc. are also provided in the market yard. The traders have also obtained necessary license required for the same, from FSSAI and EDMC as per directions issued by the Hon'ble Delhi High Court in the pending writ petition.

It may be pointed out that as per the status report submitted in December, 2021 in Appeal No. 11/2021 in I.A No. 104/2021 & I.A No. 105/2021by Ministry of Environment Forest and Climate Changein compliance of order dated 19.5.2021, the committee constituted by the Ministry for re-visitingofEnvironment Clearance on 25th/26.11.2021 re-confirmed the EC already granted on 5.1.2021. **It also noted that there is no separate provision under EIA notification, 2006 and it subsequent amendments for slaughtering activity. As per the provisions of the said notification, the project does not require an EIA report and accordingly the project was appraised on the basis of submitted Form-1, Form-1A and Conceptual plan.**The final recommendation of the committee reads as follow:-



"Based on the observations made during the site visit and clarifications provided by the project proponent and consultant, the committee was of the opinion that the project is in compliance to the major issues raised in the Hon'ble NGT order dated 19.05.2021 in appeal no.

11/2021. The committee was also of the opinion that the proposed modern poultry and egg market is an integrated facility which would greatly improve the existing market in terms of environment management as well as hygiene and aesthetic condition of the area. As such, the committee recommended that the EC granted to the project vide letter no. 21-91/2020-IA-III dated 05.01.2021 has taken into consideration the environmental aspects of animal waste management".

Copy of the status report as submitted by Ministry along with all the relevant documents is collectively annexed as **ANNEXURE R-3**

7. It is submitted that Petitioner is aware of the fact, that the committee appointed by the Ministry had inspected the site re-confirmed the EC already granted on 5.1.2021 and has submitted the report in Appeal No. 11/2021 before this Hon'ble Tribunal but, Petitioner has deliberately not brought this fact to the notice of the Hon'ble Court in O.A No. 40/2022 which resulted into passing of an ex-parte order dated 16.2.2022. The same facts, same reports are mentioned in the order and allegations are that inspite of the order of this Tribunal no EIA has been conducted but the project proponent (PP) is proceeding with the construction illegally. The Court after noticing the false contentions of the Petitioner believing them to be correct issued notice to answering Respondents and restrain the answering Respondents from going ahead with construction without any

Period: 24/02/2020
to 24/02/2025
Central Delhi

requisite operational EC/Consent and direct Respondent No. 4 to enforce this direction.

8. That deliberately the factum of status report which has been submitted by the Ministry of Environment to this Hon'ble Court and Ministry has placed the same on its portal also indicating the status of EC granted w.e.f. 5.1.2021 in respect of poultry market Ghazipur was not brought to the notice of this Hon'ble Court. A screenshot of the portal taken on 10.1.2022 is also enclosed as **ANNEXURE R-4** for the perusal of this Hon'ble Court.

9. That after approximately 15 acres of land was allotted by DDA for construction of poultry and egg market, the Hon'ble Lt. Governor directed that provision should be made for setting up a plant for dressing of birds where cleaning, processing, stamping, packing etc. could be made.

It was also directed for planning a comprehensive Poultry market including scope for further expansion. The minutes are enclosed as **ANNEXURE -R-5.**

10. That the Development work of poultry market could not be taken up because of the pending decision of establishment of mechanized chicken dressing plant. The cabinet vide its decision dated 26.12.2007 approved the proposal of DAMB for setting up chicken dressing plant at Gazipur on PPP Model **(ANNEXURE-R-6)**

NOTARY

11. That accordingly M/s. Architect Bureau engaged by DAMB was asked to obtain approval from various agencies like DUAC, DFS etc. and all the approvals were obtained except approved layout plan from DDA. The plans could not be released by DDA for the decision of extension of time.

12. That the environmental clearance for the construction of Modern Poultry & Egg market at Gazipur was obtained from Ministry of Environment Forest and Climate Change on 28.07.2008 based on the appraisal done by the then Expert Appraisal Committee (EAC) in its meeting held on 28th July 2008. (**ANNEXURE-R-7**)

13. That ultimately, Extension of Time (EOT) was granted by DDA for Development of Poultry market on 26/04/18 & accordingly the project work was awarded to M/s Ahluwalia Contracts India Ltd. on 01.03.2019. (**ANNEXURE-R-8**)

14. That though there was no expiry date of EC granted by the Ministry of Environment in 2008, however, DPCC vide their letter dt. 02/08/19 stated that the previous EC obtained by DAMB in 2008 has expired & issued directions to DAMB for submission of fresh Environmental Clearance (EC) from MoEF&CC including the activity of slaughtering/processing/dressing of birds. The reply of this letter was sent to DPCC vide letter dt. 14/08/19 mentioning that there is no mention about expiry date of environmental clearance in the approval letter issued by MoEFCC in 2008.

However as per directions of DPCC the Architectural Consultant of the project was directed for submitting & obtaining fresh EC from MoEFCC. (**ANNEXURE-R-9**)

15. That in the meanwhile, DPCC vide their letter dt. 09.11.19 & 05.11.20 issued directions for closure of Poultry &Egg Market including processing/slaughtering of birds for which it was alleged that necessary permission has not been taken from the concerned authorities. The reply of this letter was sent to DPCC vide letter dt.13.11.20 vide which point wise reply to all the three issues raised by DPCC was given. (**ANNEXURE-R-10)**

16. That the case for obtaining fresh EC of the project was submitted to MoEF&CC vide letter dt. 12.11.20. The proposal was heard by the Expert Appraisal Committee (EAC) in its 57th meeting via video conferencing held on 25th November 2020 & accordingly MoEF&CC granted EC to the project on 5.1.2021. Copy of the EC granted is annexed as **ANNEXURE R-11.**

17. That the environmental clearance for Development of Modern Poultry Market at B-1 pocket adjacent to NH-24 Gazipur has been granted to Delhi Agricultural Marketing Board from Ministry of Environment, Forest and Climate change (Govt. of India) on 05.01.2021. The environmental clearance has been obtained for 2 buildings of G+1 (processing unit) and G+2 (wholesale shops). The processing unit is separate building and is more than 60 feet away from wholesale shops. (**ANNEXURE-R-12**)

NOTARY Debajyoti Bahuria Advocate Regn. No. 10716 Period: 24/01/2020 to 24/01/2025 Central Delhi

18. That the cost of the project is approximately Rs. 193 Crores out of which approximately Rs. 50 Crores have been already spent in the project and the project is likely to be completed in 2022.

19. That as per directions of DPCC vide letter no DPCC/EC/24811/3145 dt. 22/01/09, the Effluent treatment plant of 650 KLD capacity with online effluent quality monitoring system is functional since 2013 and all the data such as pH, BOD, COD, TSS etc. of the treated effluent has been transmitted to DPCC /CPCB server. (**ANNEXURE-R-13**)

20. That as per direction of DPCC vide letter no DPCC/WMC-II/2014/SH-2/2424 dated 11.07.14 Waste to energy plant of capacity 15 Tons per day is already installed for treatment of bio-degradable waste from fish and poultry market. (**ANNEXURE-R-14**)

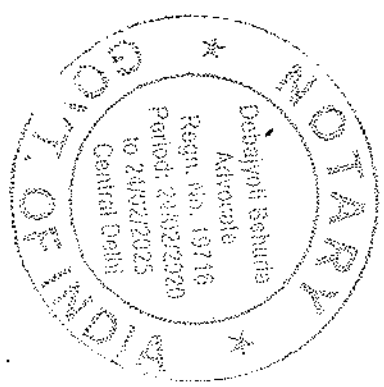
WITH RESPECT TO CONTENTIONS OF THE PETITIONER GAURI MAULEKHI AS MENTIONED IN THE ORDER DATED 19.5.2021 PASSED BY NGT, IT IS SUBMITTED AS UNDER: -

(a) The Petitioner in that case did not approach the Hon'ble Tribunal with clean hands and submitted facts to mislead the Hon'ble Tribunal. The Hon'ble Tribunal did not go into any of the facts and without issuing notice to the Respondents including the deponent herein, the Ministry has been requested to look into the averments for re-confirming the environment clearance given on 5.1.2021.

The submission on the alleged inspection report dated **05.08.2019 and 03.12.2020** allegedly of the Sub-Committee constituted by the Delhi Slaughterhouse Monitoring Committee, formed in compliance of the Hon'ble Supreme Court of India order dated **23rd August, 2012 in W.P. (C) No. 309/2013 in the** matter of **Laxmi Narain Vs Union of India are factually incorrect.**

The Petitioner in the case before the NGT submitted the reports by falsely projecting and representing as if they are the reports of the Supreme Court monitored Committee. She is herself the signatory. The Supreme Court Monitoring Committee as per Supreme Court order is to be headed by the Secretary of the Department of Urban Development of the State as Chairman including the following officers: -

(i). Secretary of the Department of Urban Development of the State- Chairman.
(ii). Representative Department of Health.
(iii). Representative Department of Animal Husbandry.
(iv). Representative Department of Labour.
(v). Food Safety Commissioner representing Central Food Safety and Standard Authority of India.
(vi). Representative of State Pollution Control Board.
(vii). Representative of State Animal Welfare Board.
(viii). Representative of State Police.



(ix). *Two Prominent persons nominated by the State Government.*

(x). *Such other two officers and experts as the members may choose to co-opt.*

(b). It may be pointed out that, the aforesaid Sub-Committee has not been constituted as per the direction of the Hon'ble Supreme Court. As per the direction of the Hon'ble Supreme Court a State Committee for Slaughterhouse was to be constituted. The Hon'ble Supreme Court was dealing with slaughtering of animals/ Cattles which includes goat, lamb, buffalo etc. A perusal of the Judgment will show judgment is not dealing with any issue with respect to Poultry birds as there is no slaughtering of birds, it is only dressing of the birds.

(c). The Hon'ble Supreme Court was considering the fact of shifting of Idgah Slaughterhouse to the identified place at Ghazipur. At that point of time the Poultry birds, Fish & Eggs were also sold in the Jama Masjid Area under the Agriculture Produce Fish, Poultry & Egg Market Committee. There was no issue pending before the Hon'ble Supreme Court with respect to shifting of this market or, sale/ dressing of the birds. Since notified market was found to be congested, in the year 1991 approximately 30 acre of land was allotted for wholesale Fish, Poultry & Egg Market at Ghazipur. The Hon'ble Supreme Court in the matter of Laxmi Narain Modi Vs

NOTARY
Debajyoti Behuria
Advocate
Regn. No. 19716
Period: 24/02/2020
to 24/02/2025
Central Delhi
GOVT. OF INDIA

Union of India and Ors reported in **2014(2) SCC 417**on the basis of the decision dated 26.04.2012 directed the States to constitute the State Committees for Slaughterhouses and also indicated the functions of State Committees so constituted. Copy of the judgments of Hon'ble Supreme Court on the issue in the matter of **Laxmi Narain Modi as well as Buffalo Traders Association** are collectively annexed here as **ANNEXURE-R-15 (Colly).**

(d). In all these judgements there was no issue of dressing (wrongly referred as slaughtering by Petitioner) of poultry birds or, shifting of the trade from Jama Masjid to Ghazipur. That exercise was taken up by Hon'ble Lt. Governor / Delhi Administration of its own to decongest the Jama Masjid area and provide better facility to the traders and the public at large.

(e). As per the directions of Hon'ble Supreme Court passed on 23.8.2012 in WPC No. 309/2003 Laxmi Narain Modi vs. Union of India the monitoring committee for slaughter houses was constituted vide order dated 5.11.2012 and in supersession to the same another committee was re-constituted by the Chief Secretary GNCTD Department of Urban Development vide its order dated 19.2.2015. Copy of the order dated 19.2.2015 is annexed as **ANNEXURE -R-16.**

GOVT OF INDIA

(f). The committee so constituted is holding its meetings regularly and monitoring the slaughter house. At one point of time, the committee had appointed a sub-committee vide its minutes dated 15.9.2016 for surprise inspection of the slaughter house, as there were suggestion to take action against the slaughter house Director, Veterinary, EDMC based on the report of Mayor and concerned Additional Commissioner who inspected the slaughter house. Ms. Gauri Maulekhi in NGT case was one of the member of the sub-committee who was to conduct a surprise inspection of the slaughter house and submit a report to the committee. Copy of the minutes dated 15.9.2016 are annexed as **ANNEXURE R-17**. The sub-committee so constituted was for a limited purpose and cannot be construed as a committee appointed as per the directions of the Hon'ble Supreme Court. The committee so appointed is going beyond the specific purpose for which it has been appointed under the directions of the Hon'ble Supreme Court i.e. monitoring of the slaughter houses in the State.

21. From the above, it can be seen,that, the Ministry of Environment has after re-inspection of the premises re-visited the order dated 5.1.2021 and has re-confirmed the same. The detailed report has been submitted to the Hon'ble Court. The present application under Section-14,15 read with Section-18 of the National Green Tribunal Act, 2010 read with Rule-24 of the National Green Tribunal (Practices and Procedures) Rules, 2011

is a misconceived petition liable to be dismissed with exemplary costs.

PARA-WISE REPLY: -

1. Para-1 is matter of record.

2. In reply to Para-2, it is submitted that,order dated 19.5.2021 was passed by this Hon'ble Court considering the incomplete facts submitted by the Petitioner. The detailed preliminary submissions made above may be read in reply to this paragraph also. It is submitted that if full facts were submitted before the Hon'ble Court the order dated 19.5.2021 would not have been passed by the Hon'ble Tribunal.

3-4 Para-3-4are wrong and are denied for want of knowledge.

5. The averments made in Para-5 are wrong and are denied. No order passed by this Hon'ble Court on 19.5.2021 has been violated by the answering Respondents. The matter as projected in the present petition is absolutely false, wrong and are denied. The averments made in the preliminary submissions above may be read in reply to this paragraph also.

As a matter of fact, in view of the status report submitted by Ministry of Environment, Forest and Climate Change before this Hon'ble Court the question of filing the present petition claiming alleged violation of order dated 19.5.2021 does not arise.

6. Para-6 is absolutely false, wrong and is denied.As submitted in preliminary submissions, the order dated 19.5.2021 had directed the Ministry of Environment, Forest and Climate Change to re-visit EC dated 5.1.2021 granted to the answering Respondents. There were no directions to stop the construction activities. Neither there was an issue to this effect in the petition nor the answering Respondents were party.

REPLY TO BRIEF FACTS: -

7. Para-7 needs no reply.

8. In reply to Para-8, it is submitted that, the Petitioner's Appeal No. 11/2021 was based on misconceived and false averments and facts. However, this Hon'ble Court believed those averments and passed the impugned order dated 19.5.2021 which was only directions to Ministry of Environment Forest and Climate Change to re-visit the EC dated 5.1.2021. The submissions made above may be read in reply to this paragraph also.

9. In reply to Para-9, it is submitted that, answering Respondents have no knowledge that they were impleaded as Respondent No.3 in Appeal No. 11/2021. Neither copy of the petition was served on the answering Respondent nor the Hon'ble Tribunal issued any notice. Till date the answering Respondents have not been provided any copy of Appeal No. 11/2021. The answering Respondents are not aware of the averments made in the appeal

GOVT. OF INDIA

except what is stated by this Hon'ble Court in the order dated 19.5.2021.

10. In reply to Para-10, it is submitted that, the order dated 19.5.2021 was passed without any notice and without granting any hearing to the answering Respondents. Same is stated in the impugned order also.

11. The averments as made in Para-11 are absolutely false, wrong and are denied. The averments are Petitioner's own imagination. She has mis-stated the facts before the Hon'ble Tribunal and had not stated that she has already approached the Hon'ble Delhi High Court with respect to issue of sale and processing of poultry birds.

12. The averments made in Para-12 are wrong and are denied. It is submitted that as per the ex-parte directions issued by this Hon'ble Court on 19.5.2021,the Respondent No.1 constituted a team of officers who visited the site submitted their report and detail status report has been filed before this Hon'ble Court in Appeal No. 11/2021, which Petitioner has deliberately not disclosed. The averments made in preliminary submissions may be read in reply to this paragraph also.

13. Para-13 is absolutely false wrong and is denied. At the first instance there were no directions to stop the construction work and secondly the Ministry of Environment Forest and Climate Change re-visited the EC granted on 5.1.2021 and re-confirmed the same.

14-15. Para-14-15areabsolutely false wrong and are denied. The answering Respondents have already submitted detailed reply to the submissions made in this paragraph. The reply submitted be read in reply to this paragraph also, they are not repeated for the sake of brevity.

16-17. The averments made in Para-16-17 are absolutely false wrong and are denied. There were no directions in the order dated 19.5.2021 to stop the construction which was going on since March, 2019. The only direction was to the Ministry of Environment Forest and Climate Change to re-visit the EC granted on 5.1.2021, which has been done by them.

18. Para-18 is denied for want of knowledge. It is however submitted that Ministry of Environment Forest and Climate Change has re-visited the EC already granted on 5.1.2021. A special team of officials was appointed who have re-confirmed the order dated 5.1.2021 and status report also has been filed before this Hon'ble Court.

19-24 Para-19-24 are absolutely false, wrong and are denied. As a matter of fact, the perjury proceedings should be initiated against the Petitioner for knowingly making false averments. The contentions raised in these paragraphs are also raised in the contempt petition filed before the Hon'ble High Court where a detailed reply

with full facts has been submitted. Petitioner is duly aware of the fact that what has been stated in these paragraphs and in this petition is false to her knowledge.

26-28 Para-26-28 are absolutely false, wrong and are denied.

REPLY TO GROUNDS: -

(i) to (xviii) Grounds (i) to (xviii) are absolutely false, wrong and are denied. Averments made in preliminary submissions and para-wise reply above may be read in reply to these grounds also. The facts stated there are not repeated for the sake of brevity.

29-30. Para-29-30areabsolutely false, wrong and are denied.There is no cause of action in favour of the Petitioner to file the present petition. The present petition is an abuse of the process of the Court. The Petitioner is aware of the fact, that Ministry of Environment Forest and Climate Change has already submitted the status report before this Hon'ble Court which fact she has concealed from the Hon'ble Court.

PRAYER: -

In view of the submissions made above, the aboveoriginal application is devoid of any merit the same be dismissed with exemplary costs.

Appeal No. 11/2021
(I.A. No. 104/2021 & I.A. No. 105/2021)

Gauri Maulekhi — Appellant

Versus

Ministry of Environment Forest and Climate Change & Anr. — Respondent(s)

Date of hearing: 19.05.2021

CORAM: HON'BLE MR. JUSTICE ADARSH KUMAR GOEL, CHAIRPERSON
HON'BLE MR. JUSTICE SUDHIR AGARWAL, JUDICIAL MEMBER
HON'BLE MR. JUSTICE M. SATHYANARAYANAN, JUDICIAL MEMBER
HON'BLE MR. JUSTICE BRIJESH SETHI, JUDICIAL MEMBER
HON'BLE DR. NAGIN NANDA, EXPERT MEMBER

Appellant: Mr. Raj Panjwani, Senior Advocate with Ms. Priyanka Bangari, Advocate

ORDER

1. This appeal has been preferred against grant of Environmental Clearance (EC) by the MoEF&CC on 05.01.2021 for development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm. at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s Delhi Agricultural Marketing Board (DAMB).

2. Principal objection of the appellant against the impugned EC is that the slaughtering of animals and processing of meat cannot be at the same place where marketing is done. In support of this submission, reference has been made to the reports of the sub-Committee dated 05.08.2019 and 04.11.2020 which inspected the site. The sub-Committee was constituted in pursuance of directions of the Hon'ble

Supreme Court in *Laxmi Narain Modi v. UOI,* (2014) 2 SCC 417 (dated 23.8.2012) and (2013) 10 SCC 227 (dated 27.8.2013) to oversee slaughtering of animals consistent with the environmental norms and Prevention of Cruelty to Animals Rules 2000. The recommendations of the said Committees are as follows:-

> **Dated 05.08.2019**
>
> *"The Delhi Agricultural Marketing Board may ensure that the traders are only indulging in the trade for which they are being provided the premises i. e. sale of livestock (live poultry & fish).* ***Activities such as illegal slaughter must be prohibited at the premises of the market and must be carried out only in licensed slaughterhouse."***
>
> **04.11.2020**
>
> *"The Delhi Agricultural Marketing Board may ensure that the traders are only indulging in the trade for which they are being provided the premises i.e. sale of livestock (live poultry). Activities such as* ***illegal slaughter must be prohibited at the premises of the market and must be carried out only in licensed slaughter house.*** *Violators should be prosecuted in accordance with law."*

3. Further, the Hon'ble Supreme Court vide order dated 17.02.2017 in *Common Cause, A Regd. Society v. Union of India & Ors. W.P. (C) No. 330/2001* directed publication of compendium prepared by the Central Government about standards to be followed for disposal of animal waste and slaughtering.

4. The appellant has also referred to order of the Delhi High Court dated 24.09.2018 in W.P. (C) No. 1214/2018 Gauri Mulekhi vs. Delhi Agricultural Marketing Board, as follows:-

> *"(...) we have no other option, but to* ***direct that in the area in question namely the Ghazipur Murga Mandi, no slaughtering of birds would be permitted henceforth. The respondents are granted liberty to work out a system to bring into place or establish a proper market in the area after complying with all statutory requirements, particularly the environment and pollution level and on consideration of the same, we would consider the question of permitting operation at slaughterhouse for poultry in the area in question.*** *Till then, we direct that only sale of live birds can be done in the area in question." (Emphasis Supplied)*

5. It is further submitted that activity of slaughtering and sell of meat at the same place violates provisions of Prevention of Cruelty to Animals Act, 1960, Food Safety and Standard Act, 2006 and Regulations of Municipal Corporation Act, 1957. It is pointed out that the project has been considered simply as 'construction project' even though the impugned EC itself mentions that there will be slaughtering which is clear from para 4(a) as follows:-

> *"viii. About 0.28 TPD of municipal solid waste will be generated in the project. The biodegradable waste (0.14 TPD) will be processed in Organic Waste Converter (OWC) and the non-biodegradable waste (0.14 TPD) will be handed over to authorized local vendor.* ***Solid waste generated from cutting, removal of feathers, legs and neck (approx. 4000 × 4 = 1, 60000kg × 35=560kg) and organic solid waste from domestic (140kg) will power biogas/bio-manure plant (15 TPD) based on NISARGRUNA TECHNOLOGY (BARC TECHNOLOGY)."***

6. Last submission is that there is no environment impact assessment of the slaughtering activity, as the evaluation is only of construction activity. The suitability of the site in question, adjacent to Gazipur dump site and impact on hygiene and public health has also not been assessed. The project was required to be appraised as an integral one and not confined to construction alone. Moreover, above Court orders were required to be duly considered.

7. From the impugned order and the proceedings before the EAC, the above issues do not appear to have been addressed. EAC is under obligation to do so in view of judgement of the Hon'ble Supreme Court in Hanuman Luxman v. UOI, (2019) 15 SCC 401. Thus, without further adjudication, the grant of EC needs to be revisited. We order accordingly.

Till fresh consideration in the light of the above, the impugned EC may not be given effect.

8. We have not considered necessary to issue notice as we are not adjudicating upon the issue and requiring the EAC to comply with the binding law on the point. However, the respondents are given liberty to move this Tribunal, if they are aggrieved by this order.

The Appeal is disposed of.

In view of order in the main matter, all pending I.A.s also stand disposed of.

A copy of this order be forwarded by email to the MoEF&CC and the Delhi Agricultural Marketing Board.

IN THE HIGH COURT OF DELHI AT NEW DELHI

CONT. CASE (C) No. 98 OF 2021

IN THE MATTER OF: -

GAURI MAULAKHI ...PETITIONER

VERSUS

DELHI AGRICULTURAL MARKETING BOARD AND ORS. ...RESPONDENTS

COUNTER AFFIDAVIT ON BEHALF OF RESONDENT NO.1

AFFIDAVIT OF SHRI RAJEEV SINGH, S/o SHRI P.N. SINGH, AGE 48 YEARS, SECRETARY, DELHI AGRICULTURAL MARKETING BOARD, NEW DELHI.

I, Rajeev Singh, the above-named deponent do hereby solemnly affirm and state as under:

I. That I am Secretary DAMB and have gone through the above petition and understood its contents. In my official capacity, I am conversant with the facts of the case and competent and duly authorized to depose about the same.

NOTARY ALAKA NAYAK Regd. No. 10639

II. That at the outset deponent submits that answering respondent has full regards for the orders passed by this Hon'ble Court. Neither the deponent nor any of the officers of the Respondent

No.1 have violated any orders passed by this Hon'ble Court. Before adverting to para-wise reply the deponent makes following preliminary submissions:

PRELIMINARY SUBMISSIONS: -

1. That the relief claimed by the Petitioner in the present writ petition is as follows: -

   i). Direction to the Chairman of Delhi Slaughter House Monitoring Committee for forming a sub-committee for conducting weekly inspection at Gazipur Murga Mandi to ensure that animals are not being treated in contravention to the prevention of cruelty to Animal Act, 1960.

   ii). Direction to DPCC to stop the Slaughter of Poultry birds at Murga Mandi without consent under Water and Air Act.

   iii). Direction to the Animal Husbandry Department, GNCTD for examined the poultry birds by Veterinarians and compliance transportation of birds with the Transport of Animal Rules, 1978.

   iv). Direction to DAMB to ensure above mentioned points.

2. That the above prayers clearly shows that since there was no such order by the Hon'ble Supreme Court Petitioner was praying for constitution of a sub-committee with respect to Murga Mandi i.e. Fish, Poultry and Egg Market Committee. As per Hon'ble Supreme Court's direction the Chairman of Delhi

NOTARY ★ GOVT. OF INDIA ★ ALAKA NAYAK Advocate Reg. No. 10639 Period 27/05/2019 to 27/05/2024

Slaughter House Monitoring Committee is Secretary Urban Development Govt. of NCT Delhi. However, the Secretary Urban Development is not even a party in this petition.

3. That it is submitted that Petitioner herein has not approached the Hon'ble Court with clean hands and submitted wrong facts before this Hon'ble Court to mislead the Hon'ble Court. It is submitted that in the present contempt petition petitioner has alleged that respondents have disobeyed the order dated 24.09.2018 and allowed to continue the slaughtering activities of birds in Ghazipur Murga Mandi which can be evident from the inspection report dated **05.08.2019 and 03.12.2020**of the Sub-Committee constituted by the Delhi Slaughterhouse Monitoring Committee, formed in compliance of the Hon'ble Supreme Court of India order dated **23rd August, 2012 in W.P. (C) No. 309/2013 in the** matter of **Laxmi Narain Vs Union of India.**

This position is factually incorrect as Petitioner is trying to be a Judge in her own cause.She is allegedly interfering in the working of Fish, Poultry & Egg Marketing Committee by submitting alleged reports by falsely projecting and representing as if they are the reports of the Supreme Court monitored Committee. She is herself the signatory. The Supreme Court monitoring Committee as per Supreme Court order is to be headed by the Secretary of the Department of Urban Development of the State as Chairman including the following officers:

(i). *Secretary of the Department of Urban Development of the State- Chairman.*

(ii). *Representative Department of Health.*

(iii). *Representative Department of Animal Husbandry.*

(iv). *Representative Department of Labour.*

(v). *Food Safety Commissioner representing Central Food Safety and Standard Authority of India.*

(vi). *Representative of State Pollution Control Board.*

(vii). *Representative of State Animal Welfare Board.*

(viii). *Representative of State Police.*

(ix). *Two Prominent persons nominated by the State Government.*

(x). *Such other two officers and experts as the members may choose to co-opt.*

4. At this stage it is submitted that the alleged Sub-Committee has not been constituted as per the direction of the Hon'ble Supreme Court. As per the direction of the Hon'ble Supreme Court a State Committee for Slaughterhouse was to be constituted. The Hon'ble Supreme Court was dealing with slaughtering of animals/Cattles which includes goat, lamb, buffalo etc. A perusal of the Judgment will show judgment is not dealing with any issue with respect to Poultry birds as there is no slaughtering of birds, it is only dressing of the birds.

5. That the Hon'ble Supreme Court wasconsidering the fact of shifting of IdgahSlaughterhouse to the identified place at

Ghazipur. At that point of time the Poultry birds, Fish & Eggs were also sold in the Jama Masjid Area under the Agriculture Produce Fish, Poultry & Egg Market. There was no issue pending before the Hon'ble Supreme Court with respect to shifting of this market or, sale/ dressing of the birds. Since notified market was found to be congested, in the year 1991approximately30 acre of land was allotted for wholesale Fish, Poultry & Egg Market at Ghazipur. The Hon'ble Supreme Court in the matter of Laxmi Narain Modi Vs Union of India and Ors reported in **2014(2) SCC 417** on the basis of the decision dated 26.04.2012 directed the States to constitute the State Committees for Slaughterhouses and also indicated the functions of State Committees so constituted. Copy of the judgments of Hon'ble Supreme Court on the issue in the matter of **Laxmi Narain Modi as well as Buffalo Traders Association** are collectively annexed here as **ANNEXURE R-1 (Colly).**

6. That in all these judgements there was no issue of dressing/ slaughtering of poultry birds or, shifting of the trade from Jama Masjid to Ghazipur. That exercise was taken up by Hon'ble Lt. Governor / Delhi Administration of its own to decongest the Jama Masjid area and provide better facility to the traders and the public at large. Relevant minutes dated 23.10.1992 of the visit of Hon'ble Lt. Governor are annexed as **ANNEXURE R-2.**

7. That as per the directions of Hon'ble Supreme Court passed on 23.8.2012 in WPC No. 309/2003 Laxmi Narain Modi vs. Union of India the monitoring committee for slaughter houses was constituted vide order dated 5.11.2012 and in supersession to the same another committee was re-constituted by the Chief Secretary GNCTD Department of Urban Development vide its order dated 19.2.2015. Copy of the order dated 19.2.2015 is annexed as **ANNEXURE R-3**.

8. That the committee so constituted is holding its meetings regularly and monitoring the slaughter houses. At one point of time, the committee had appointed a sub-committeevide its minutes dated 15.9.2016 for surprise inspection of the slaughter house, as there was suggestion to take action against the slaughter house Director, Veterinary, EDMC based on the report of Mayor and concerned Additional Commissioner who inspected the slaughter house. The Petitioner was one of the member of the sub-committee who was to conduct a surprise inspection of the slaughter house and submit a report to the committee. Copy of the minutes dated 15.9.2016 are annexed as **ANNEXURE R-4**. The sub-committee so constituted was for a limited purpose and cannot be construed as a committee appointed as per the directions of the Hon'ble Supreme Court. The committee so appointed is not going beyond the specific purpose for which it has been appointed under the directions of the Hon'ble Supreme Court i.e. monitoring of the slaughter houses in the State.

NOTARY GOVT. OF INDIA
ALAKA NISHAR
Regd. No. 10529
Period 27/08/2014 to 27/08/2019

9. That 30 acresof land was allotted to the DAMB by the DDA for development of Fish Poultry and Egg market at Ghazipur. Which market after seeking various clearances from various authorities including DPCC is under construction. The environmental clearance for the construction of Modern Fish Poultry & Egg market at Gazipur was obtained from Ministry of Environment & Forest, Govt. of India on **28.07.2008** based on the appraisal done by then Environment Approval Committee (EAC) in its meeting. Copy of the clearance certificate is annexed here as **ANNEXURE R-5.**

10. DDAvide its order dated 26.04.2018 has granted Extension of Time for construction of Poultry Market at Ghazipur till 31.12.2020 which project is extended since the construction activities were closed during the Covid 19 pandemic closure.

11. That DPCC vide its letter dated 02.08.2019 mentioned that earlier Environmental Clearance obtained by the DAMB in 2008 has expired and issued directions to DAMB for submission of fresh Environmental Clearance (EC) from MOEFCC including the activity of processing/ dressing of birds. DAMB vide letter dated 14.08.2019 submitted to DPCC that no expiry date of Environmental clearance was mentioned in the approval letter issued by MOEFCC in the year 2008. However, still as per the direction of the DPCC the steps were taken to obtain fresh EC from MOEFCC. Copy of the letter dated 14.08.2019 is annexed as **ANNEXURE R-6.**

NOTARY ALAKA NAYAK Advocate Reg. No. 10F39 Period 27/06/2019 to 27/06/2024 GOVT. OF INDIA

12. That in the meanwhile DPCC vide letters dated 09.11.2019 and 05.11.2020 issued directions for closure of Poultry & Egg market including processing / slaughtering of birds alleging that necessary permission has not been taken from the concerned authorities. DAMB vide letter dated 13.11.2020 replied point wise to the issues raised by DPCC. Copy of the letters dated 09.11.2019 and 05.11.2020 and reply letter dated 13.11.2020 arecollectively annexed here as**ANNEXURE R-7 (Colly).**

13. That application for obtaining fresh EC was submitted to MOEFCC on 12.11.2020 and the proposal was heard by the Expert Appraisal Committee (EAC) in its 57th meeting held on 25th November 2020 and granted Environmental Clearance to the project vide letter dated 05.01.2021. Copy of the letter dated 05.01.2021 is annexed here as **ANNEXURE R-8.**

14. The Environmental Clearance has been obtained for 2 buildings of G+1 (Processing Unit) and G+2 (Wholesale Shops). The processing unit is separate building and is more than 60 feet away from wholesale shops. Waste Energy plant of capacity 15 tones per day has been installed for treatment of bio-degradable waste from Fish and Poultry market. Waste is being feeded in the plant for methane generation.

15. The Effluent treatment plant of 650 KLD capacity with online effluent quality monitoring system is functional since 2013 and

all the data such as PH. BOD, COD, TSS etc. of the treated effluent is being sent regularly to DPCC and CPCB server. These reports are automatically generated and sent to DPCC and CPCB server and any deficiency found is commented upon for rectification which are rectified immediately. The DPCC also at random takes sample of treated effluent and submit theirreports. Some of the sample reports are collectively annexed as **ANNEXURE R-9**.

16. It is submitted that total cost of the project is approximately Rs. 193 Crore out of which approximately Rs. 40 Crores have been already spent in the project and the project is likely to be completed in 2022.

17. That the petitioner has deliberately not mentioned the fact that in compliance of order dated 24.09.2018 the slaughter/ dressing of poultry birds was shut down immediately by the Market Committee and necessary Circular/direction were issued to all the Commission agents to follow the direction of this Hon'ble Court till further directions. Copy of the Circular is annexed here as **ANNEXURE R-10.**

18. That the answering respondent filed a detailed status report giving the factum of development of the market, construction of ETP plant for treatment of liquid waste before discharge. It is also submitted that so far as fish is concerned same is sold in crates itself, it is cleaned and repacked since no slaughtering is

involved. The liquid waste is not that which requires treatment in ETP Plant before discharge because the liquid is only of the ice in which the fish is kept. In the status report it is also pointed out that answering respondents have applied on 16.12.2013 for consent of operating ETP plant for poultry only and paid the demanded fees to DPCC and are also conducting monthly test reports of the outlet effluent which are confirming to standards and guidelines. The liquid waste is discharged only after the day-to-day discharge is tested in the laboratory and some of the samples at random were also being sent to Northern India Textile Research Association. After the consent to operate was given by DPCC to the answering Respondents the random samples are being collected by DPCC regularly, whose reports are already annexed above.

It is also submitted in the status report that at one point of time the bird waste generated in the market has been piled up because MCD was not giving permission to remove the waste to landfill site. Finally, the permission was given in March 2018 and site was immediately cleared. There will always be day-to-day generation of the waste which is being sent to the landfill site.

The Report of the DPCC dated 26.04.2018 was also commented upon. It was pointed out that if there are shops outside the market area which indulge into illegal slaughtering or, roasting of the animals for that civic authority has to take

action. The notified market committee cannot function outside the notified area. Status reports with the annexures is enclosed here as **ANNEXURE R-11** (Colly) for the perusal of this Hon'ble Court. It may also be pointed out that Petitioner is annexing the same photographs which she had annexed initially when the PIL was filed, and they were also not of the market area but outside the market committee area. In any case, now much water has flowed. After this Hon'ble Court passed order on 24.9.2018 no dressing of the bird is allowed except those who have been granted license by the EDMC and FSSAI.It may be pointed out that there are 85valid licensesgranted to the traders, out of which 83 traders have been granted license by EDMC for dressing of the birds. 61 traders have FSSAI license also. Those of the traders who have both EDMC and FSSAI license only are allowed dressing of the birds in their shops rest of them are only selling live birds. Effluent released from their shops is diverted to the ETP plant through drains constructed in the complex where it is treated before it is drained out.

19. That the petitioner has also deliberately not mentioned the fact that on 14.01.2019 this Hon'ble Court directed the petitioner's counsel to respond to the status report filed by the answering respondents before this Hon'ble Court before the next date of hearing. Instead of filing the response to the status report Petitioner is side tracking the issue.

20. That on 27.02.2019 this Hon'ble Court recorded that Pollution Control Board has given consent to the Delhi Agricultural Marketing Board to permit the eligible applicants / traders to operate Poultry and Egg market subject to the terms and conditions stipulated in the said Consent order. The Hon'ble Court also allowed impleadment applications of the Traders and thereafter, on 29.03.2019 this Hon'ble Court directed the EDMC to consider the applications of the traders who have been allotted space at the site in question and take a decision in accordance with law. The Hon'ble Court also indicated in the order that while doing so, Model code of conduct issued by the Election Commission of India which has come into force shall be not an impediment as the consideration is in view of the order passed by this Hon'ble Court.

21. That thereafter on 24.07.2019 this Hon'ble Court directed the petitioner to highlight the role to be played by the concerned authorities against whom the various directions are sought. However, no such highlights have been submitted. Thereafter, matter could not be taken up due to COVID-19 pandemic situations. The copies of the relevant Court orders passed after 24.09.2018 are collectively annexed here as **ANNEXURE R-12 (Colly).**

22. That this Hon'ble Court vide order dated 24.09.2018 granted liberty to respondents to work out a plan after complying with all statutory requirements, particularly the issues of

environment and pollution level which have been raised by the petitioner in the instant proceedings.

23. That thereafter DPCC granted Consent Order dated 11.01.2019 for Poultry and Egg Market under the DAMB thereby complying with the specific directions issued by this Hon'ble Court vide its order dated 24.09.2018. Copy of the Consent Order dated 11.01.2019 issued by DPCC is annexed here as **ANNEXURE R-13.**

24. That the Respondent No.7 who are traders in Murga Mandi sought permission of this Hon'ble Court to seek appropriate sanctions from the relevant authorities and begin dressing of the birds in the individual shops at the Murga Mandi. They further sought specific directions for EDMC to consider their application. This Hon'ble Court considered their prayer and pleased to direct EDMC in these lines vide order dated 14.01.2019.

25. That after the issue of grant of consent to operate was resolved, the petitioner raised another issue relying on the communication made by Union of India, as far back as in 2014 with regard to complying with the mandatory requirement of Food Safety and Standards Act, 2006. The issues raised were not raised before and were not pleaded in the writ petition filed before this Hon'ble Court. Thereafter, DAMB after acting on the letters dated 06.02.2019 and 15.02.2019 issued by EDMC granted the

No Objection Certificate to grant license in accordance with law and in compliance of the order passed by this Hon'ble Court.

26. That the reliance placed by the petitioner on the report of sub-Committee in which petitioner herself is the members is misplaced, petitioner is not authorized to undertake such inspections and then rely upon those one sided alleged inspection reports to make allegations against the answering respondent and day to day working of the Mandi. As submitted in earlier paragraphs the committee constituted by the GNCTD under the directions of the Hon'ble Supreme Court is only with respect to the monitoring of the slaughter houses. The order of the Hon'ble Supreme Court and the order dated 19.2.2015 constituting the committee only deals with issue of slaughter house and nothing more. The monitoring committee itself has informed the answering Respondent that the issue of dressing of poultry is not the mandate of the committee. The committee is not supposed to act beyond the specific purpose for which it has been constituted i.e. monitoring of slaughter houses.

27. That the petitioner on the one side has filed petition before this Hon'ble Court for constitution of a sub-committee for implementation of various Acts for Poultry and Egg markets and on the other hand when Govt. of India granted Environmental Clearance on 05.01.2021she filed an appeal No.11/2021 before NGT referring to the alleged order of

monitoring committee falsely claiming it to be constituted under the direction of the Hon'ble Supreme Court.

28. That petitioner in appeal before the National Green Tribunal raised the main objection against the EC that Slaughtering of animals and processing of meat cannot be at the same place where marketing is done and in support petitioner relied upon thesame report dated **05.08.2019 and 04.11.2020** of the alleged sub-Committee in which petitioner herself is the member. The petitioner also submitted that no environment impact assessment of the slaughtering activity is considered, and EC has been granted on the basis of evaluation of construction activity and there is no assessment of Gazipur dump site and its impact on hygiene and public health. The petitioner also referred order dated 24.09.2018 passed by this Hon'ble Court without referring to the later orders before the NGT. The Petitioner also did not bring to the notice of the Hon'ble Court the fact that committee was already granted EC by the Ministry of Environment on 28.7.2008 and the EC granted now on 5.1.2021 was actually a continuation of the earlier Environmental Clearance.

29. That NGT after noticing the Petitioner's contention vide ex-parte order dated 19.05.2021 directed that EC granted to DAMB need to be revisited and till then impugned EC may not be given effect to. Copy of the order is annexed here as **ANNEXURE R-14.**

A perusal of the order will show that instead of filing application before the Hon'ble Court who was seized of the matter filed by the Petitioner herself, she has approached the NGT objecting to the issuance of EC on the ground that slaughtering of animals and processing of meat cannot be at the same place where marketing is done. In support of this submission, she made reference to her own self-generated reports dated 5.8.2019 and 4.11.2020. The NGT believing the submission that the alleged sub-committee was constituted pursuance to the directions of the Hon'ble Supreme Court in the matter of Laxmi Narain Modi vs. Union of India 2014(2)SCC417 dated 23.8.2012 and 2013(10)SCC227 dated 27.8.2013 to oversee slaughtering of animals consistent with the environmental norms and cruelty toanimals. The order of this Hon'ble Court dated 24.9.2018 and the order of the Hon'ble Supreme Court dated 17.2.2017 in Common Cause, A Registered Society vs. Union of India &Ors. WPC No. 330/2001 was also referred. It is also alleged that there is no environment impact assessment of the slaughtering activity as evaluation is only of construction activity. A perusal of the order shows that Hon'ble NGT has only recorded the contention of the Petitioner Gauri Mulakhi and without issuing any notice has directed the Govt. of India to re-visit EC and till fresh consideration the impugned EC may not be given effect to.

NOTARY GOVT. OF INDIA

30. That from the above it is quite evident that petitioner is also indulging in forum shopping. Once the matter was pending before this Hon'ble Court where the respondent No.7 i.e. traders filed the EC dated 05.01.2021granted by Ministry of Environment & Forest Conservationfor the perusal of this Hon'ble Court, the petitioner took the matter to NGT and objected the grant of EC for development of Fish, Poultry & Egg Market where more than 40 Crores have been spent on the basis of earlier Environmental clearance as well as the DPCC etc. and forestall the development process.

31. That since petitioner claims herself to be an environmentalist and is member of the committee appointed to for see the working of slaughter houses, she is only putting obstructions to stream line the fish poultry trade in this area which was shifted from Jama Masjid in the year 1991 -1992. The new market which is under construction is going to have two separate buildings one for selling of the live birds and other where birds can be dressed if required. The project also includes an ETP plant to treat the effluent generated and also a solid waste plant which generates energy.

Presently, ETP plant is working since, 2013 and solid waste management plant is working since, 2020.

32. That the photographs which have been annexed alongwith the alleged inspection reportsdo not indicate the date on which they

are taken and most of them are to show cruelty to animals. The other lot of photographs are of Gol Market area which does not come under the purview of the answering Respondent. It is an old market near Connaught Place. The Photographs do not show the place and who is carrying on the dressing as well as the trade in the market. It is not in the notified market yard.

PARA-WISE REPLY: -

1-2. Para-1-2are matter of record. The preliminary submissions may be read in reply to these paragraphs also, they are not repeated for the sake of brevity.

3. Para-3 is a matter of record. It is however submitted that there is a slaughter house in the Gazipur area which was constructed as per directions issued by Hon'ble Supreme Court of India in the matter of Laxmi Narain vs. Union of India for construction and shifting of slaughter house in Idgah Area. The MCD as it then was to take steps for construction of slaughter house and directions were issued for construction of slaughter houses all over India, with further directions to States to have a monitoring committee to monitor the slaughter houses. The same has nothing to do with the fish and poultry market Gazipur which was shifted from Jama Masjid Area and now the new market is under construction making provisions for selling of live birds and also dressing / processing of the birds in a different building and not from the shops allotted.

4. Para-4 is a matter of record. It is however, submitted that fish poultry and egg market is a committee constituted under the Delhi Agricultural Produce Marketing Regulation Act, 1973 as amended in 1998 (DAPMR). Its functions are to regulate the marketing of agricultural produce and establishment of markets for agricultural produce in the National Capital Territory of Delhi and for matters connected therewith or incidental thereto. Fish Poultry and Egg is mentioned in the schedule of the Act which identifies the agricultural produce for which the market committees can be constituted by the Hon'ble Lt. Governor.

In the notified market area the market committee so constituted helps the farmers who bring their produce in the notified market yard, to sell their produce through commission agents or directly, to the whole sellers / traders. The MCD / EDMC have no role in this. The notified market area is maintained by the committees constituted under DAPMR Act.

The committee providesall facilities in the notified market yards which includes construction and allotment of shops to the license holders category-A and category-B and other utility services in the area. MCD/ EDMC do not provide or maintain the utility services in the notified market yard. However, any licensees which may be required by the individual category-A & category-B license holders to carry on their activities from any authority, that is their responsibility.

5-10. Para-5-10are matter of record. The detailed preliminary submissions made above may be read in reply to these paragraphs also they are not repeated for the sake of brevity. As submitted in earlier paragraphs and brief submissions after this Hon'ble Court passed the order on 24.9.2018 the Hon'ble Court also passed the ordersallowing the traders to submit their applications before the EDMC and FSSAI for grant of license to carry out their business activities.

11-12. Para-11-12are absolutely false wrong and are denied. The detailed preliminary submissions made above may be read in reply to this paragraph also they are not repeated for the sake of brevity. It is submitted that, the officials of the answering Respondent have highest regard for the orders passed by this Hon'ble Court. At the first instance, when this Hon'ble Court passed the order on 24.9.2018, the order was immediately implemented. No license holder was allowed to carry on any dressing / slaughtering activity in the market yard, except the normal functioning of the market yard.

13-14. Para-13-14 are matter of record.

PRAYER:-

In view of the submissions made above, it is therefore, prayed that, the above contempt petition be dismissed with costs.

DEPONENT

VERIFICATION: -

I, Rajeev Singh, the abovenamed deponent do hereby solemnly affirm and verify that the contents of my above affidavit are true and correct on the basis of official records maintained in my office. No part of it is false and nothing material has been concealed therefrom.

Verified at New Delhi on this 20th day of August, 2021.

2. (2014) 1 SCC 243, *Laxmi Narain Modi* v. *Union of India* 242*g-h*

ORDER

1. We have heard the learned counsel for the parties at length. On 23-8-2012, this Court passed a detailed order[1] giving positive directions to all the State Governments and Union Territories to constitute their respective Committees in terms of the decision taken by the Union of India on 26-4-2012.

2. We are informed that all the State Governments and Union Territories have already constituted their respective Committees, as directed by this Court on 23-8-2012[1]. We are now concerned with the question as to whether these Committees are effectively and properly functioning and taking steps for proper implementation of the provisions of the various legislations, referred to in the previous order.

3. It is pointed out that though the Committees have been constituted but they are not effectively and properly discharging their functions referred to in para 4 of the order [dated 26-4-2012 of MoEF as extracted in para 8 of the order of the Supreme Court] dated 23-8-2012[1]. We reproduce the said para 4, for ready reference:

"*8.* ... 4. Functions of the State Committee for Slaughterhouses so constituted may be as follows:

(*i*) To identify and prepare a list of all the slaughterhouses (SHs) located within the Local Self-Government (Municipal Corporations, Panchayats, etc.)

(*ii*) To call for reports from the District Magistrate or the Deputy Commissioner and District Food Safety Inspector as the case may be on the condition/functioning of the SHs and also on the compliance with the relevant applicable laws.

(*iii*) To recommend modernisation of old slaughterhouses (SHs) and to relocate SHs which are located within or in close proximity of a residential area.

(*iv*) To recommend appropriate measures for dealing with solid waste, water/air pollution and for preventing cruelty to the animals meant for slaughter.

(*v*) To carry out surprise and random inspections of SHs regularly and to issue directions for compliance with the recommendations that may be made by it.

(*vi*) To send biannual reports on the State SHs to the Central Committee and to refer issues that may require the Central Committee recommendations or the Central Government assistance.

(*vii*) To accord final approval for licensing of SHs to Local Self-Government.

(*viii*) To identify on an ongoing basis, the unlicensed slaughterhouses in the region, and other unlicensed, unlawful establishments where animals are being slaughtered, on howsoever small scale, and take the help of the District Magistrate and other law enforcement agencies to crack down on the same.

(*ix*) To check for child labour. (Action: AWD)"

4. We have to find out as to whether these Committees are properly functioning or not as per the directions vide para 4, referred to hereinabove. All the State Governments/Union Territories are directed to file their respective action-taken reports within a period of one month.

5. Mr Raj Panjwani, learned Senior Counsel appearing for the petitioner, referred to the order dated 10-10-2012[2] and submitted that on the basis of this Court's directions, guidelines have already been framed and placed before the Ministry of Environment and Forests (MoEF). It is for MoEF to examine the same and finalise the guidelines and place it before the Court. One month's time is granted to do the needful.

The Rules of 1983 stand repealed by the Karnataka Judicial Service (Recruitment) Rules, 2004 (hereinafter referred to as "the 2004 Rules") and Rule 11(2) thereof reads as under:

> "11. (2) All rules regulating the conditions of service of the members of the State Civil Services made from time to time under any law or the proviso to Article 309 of the Constitution of India shall, subject to Articles 233, 234 and 235 be applicable to the Civil Judges (Junior Division), Civil Judges (Senior Division) and the District Judges recruited and appointed under these Rules."

Thus, it is evident that the State Government is competent to appoint the learned Special Judge on contractual basis after his retirement for the period required to conclude the present trial, though with the consultation of the High Court as required under Article 235 of the Constitution. Further, in our humble opinion, such a course must be adopted in the manner prescribed under the 2004 Rules, and in view thereof, the matter requires to be considered by the State Government with the consultation of the High Court.

37. Therefore, in view of the aforestated facts, we refer the matter to the High Court of Karnataka to decide on the administrative side as to whether, in order to conclude the trial expeditiously as guaranteed under Article 21 of the Constitution requires the extension of the services of the learned Special Judge. Considering the urgency of the matter, we request the High Court of Karnataka to take a decision in this regard as early as possible.

38. In view of the above, we are of the considered opinion that the order of removal of Shri G. Bhavani Singh, Respondent 4 is a product of mala fides and the impugned order is not sustainable in the eye of the law as such the same is hereby quashed.

39. With the aforesaid observations/directions, the writ petitions stand disposed of.

[CITED ORDER]*

TruePrint™ source: Supreme Court Cases

Prevention of Cruelty to Animals (Establishment and Regulation of Societies for Prevention of Cruelty to Animals) Rules, 2000 and also the provisions of the Environment (Protection) Act, 1986, Schedule I Entry 50 and also the Municipal Solid Wastes (Management and Handling) Rules, 2000, etc. Further, direction is also sought to ensure that the animals meant for slaughter are not transported in violation of the Transport of Animals Rules, 1978 and the Prevention of Cruelty to Animals (Transport of Animals on Foot) Rules, 2000. Further, prayers have also been made to ensure that the recognised slaughterhouses are in conformity with the provisions of the Prevention of Cruelty to Animals (Slaughter House) Rules, 2000 and also for other consequential reliefs.

2. A detailed affidavit has been filed by the Central Pollution Control Board (for short "CPCB") as early as in October 2003 wherein it has categorically stated as follows:

> CPCB is of the view that the slaughterhouses generate substantial quantities of effluents and solid wastes. These slaughterhouses cause nuisance by way of foul smell due to improper handling. It is, therefore, necessary that these units should install pollution control devices so that they can comply with the prescribed standards. Further, it was stated that the existing slaughterhouses need to modernise their operations with greater emphasis on utilisation of waste to reduce environmental problems and to maintain hygienic conditions. It is also pointed out that most of the slaughterhouses in the country are very old and operate without basic amenities such as proper flooring, water supply, ventilation, etc., and there is no (*sic*) need to upgrade old slaughterhouses on modern lines.

3. Therefore, CPCB submitted that all the slaughterhouses in the country should comply with the prescribed standards. The local municipal agencies and police concerned should ensure that no illegal slaughtering takes place and also the units conform to the standards set by the State Pollution Control Boards and Pollution Control Committees.

4. This Court has passed various orders alerting the State Governments to properly implement the various provisions referred to hereinbefore but still no effective steps have been taken by various States either to constitute committees or to see that the slaughterhouses are functioning in accordance with the rules framed.

5. The matters have again come up for hearing today.

6. The learned Senior Counsel appearing for the Ministry of Environment and Forests (MoEF) brought to our knowledge a decision taken by the MoEF under the chairmanship of the Secretary, Ministry of Environment and Forests on 26-4-2012. In the meeting, CPCB has presented its status of 15 States whereas the Ministry of Labour gave a status of 20 States and the action plan was also discussed.

7. After examining the matter in depth by the Committee, they found the necessity of constituting the State Committees for slaughterhouses to fulfil

SCC Online Web Edition: http://www.scconline.com
TruePrint™ source: Supreme Court Cases

the mandatory requirements under the various legislations dealing with the functioning of the slaughterhouses in the country.

8. The decision dated 26-4-2012 [of MoEF] is extracted hereunder for easy reference:

"1. CPCB will write to all States informing about its guidelines for slaughterhouses. (Action: CPCB)

2. CPCB will also initiate action against all slaughterhouses which are not meeting the norms and implement the abattoir rules through SPCB. It was discussed that SPCB even has powers to close slaughterhouses under these rules. (Action: CPCB)

3. The States to be requested to constitute the State Committees for slaughterhouses as follows:

(*i*) Secretary of the Department of Urban Development of the State — Chairman.

(*ii*) Representative Department of Health.

(*iii*) Representative Department of Animal Husbandry.

(*iv*) Representative Department of Labour.

(*v*) Food Safety Commissioner representing Central Food Safety and Standard Authority of India.

(*vi*) Representative State Pollution Control Board.

(*vii*) Representative State Animal Welfare Board.

(*viii*) Representative of State Police.

(*ix*) Two prominent persons nominated by the State Government.

(*x*) Such other officers and experts as the members may choose to co-opt.

4. The functions of the State Committee for slaughterhouses so constituted may be as following:

(*i*) To identify and prepare a list of all the slaughterhouses (SHs) located within the Local Self-Government (Municipal Corporations, Panchayats, etc.)

(*ii*) To call for reports from the District Magistrate or the Deputy Commissioner and District Food Safety Inspector as the case may be on the condition/functioning of SHs and also on the compliance with the relevant applicable laws.

(*iii*) To recommend modernisation of old slaughterhouses (SHs) and to relocate SHs which are located within or in close proximity of a residential area.

(*iv*) To recommend appropriate measures for dealing with solid waste, water/air pollution and for preventing cruelty to the animals meant for slaughter.

(*v*) To carry out surprise and random inspections of SHs regularly and to issue directions for compliance with the recommendations that may be made by it.

SCC Online Web Edition, Copyright © 2021
Page 5 Wednesday, July 21, 2021

SCC Online Web Edition: http://www.scconline.com
TruePrint™ source: Supreme Court Cases

(*vi*) To send biannual reports on the State SHs to the Central Committee and to refer issues that may require the Central Committee recommendations or Central Government assistance.

(*vii*) To accord final approval for licensing of SHs to Local Self-Government.

(*viii*) To identify on an ongoing basis, the unlicensed slaughterhouses in the region, and other unlicensed, unlawful establishments where animals are being slaughtered, on howsoever a small scale, and take the help of the District Magistrate and other law enforcement agencies to crack down on the same.

(*ix*) To check for child labour. (Action: AWD)"

9. The learned counsel appearing for the petitioners also pointed out the necessity of including the Secretary, Local Self-Government as well as the Secretary, Panchayat Raj also as committee members for effective implementation of the various legislations.

10. Further, it was also pointed out that even though the decision was taken by the MoEF on 26-4-2012 the same was forwarded to various State Governments only on 2-7-2012 and so far no effective steps have been taken by the State Governments to constitute the Committee and to take further follow-up action. The functions to be discharged by such committees have also been dealt with in the meeting held on 26-4-2012 for proper implementation. The early constitution of the Committees is, therefore, highly necessary for proper and speedy implementation of the rules under the various enactments.

11. In such circumstances, we are inclined to give directions to all the State Governments and the Union Territories to constitute the State Committees for slaughterhouses, as decided in the meeting held on 26-4-2012, including the Secretary, Local Self-Government as well as Secretary, Panchayat Raj as members of the Committee over and above the members already mentioned.

12. Since the matter is pending in this Court for a number of years, we are inclined to give directions to the State Governments and the Union Territories to constitute the Committees within a period of one month and report compliance. Further, we also direct CPCB to write to all the State Governments informing about the guidelines for slaughterhouses as well as to initiate action against all slaughterhouses which are not meeting the norms and implement the abattoir rules through the State Pollution Control Board (SPCB).

13. CPCB will initiate steps within a period of two weeks from today. CPCB is also directed to submit its report within a period of one month.

14. List the matters after six weeks on a non-miscellaneous day.

(1996) 11 Supreme Court Cases 35

(BEFORE KULDIP SINGH AND B.L. HANSARIA, JJ.)

BUFFALO TRADERS' WELFARE ASSOCIATION ... Appellants;

Versus

MANEKA GANDHI AND OTHERS ... Respondents.

I.A. No. 2 in C.A. No. 3769 of 1996 with I.A. No. 3 in C.A. No. 3774 of 1996†, decided on November 30, 1996

Constitution of India — Arts. 32 & 21 — Ecology — Environmental pollution in Delhi — Idgah Slaughter House, being one of the 168 hazardous/noxious/heavy/large industries operating in Delhi already directed to stop functioning in city of Delhi w.e.f. 30-11-1996 — In view of consensus between the parties in two other appeals as regards non-availability of alternative site for shifting the slaughter house, Supreme Court in those appeals passing an interim order to maintain status quo — But alternative site having since been made available and possession thereof having already been delivered, basis for passing the status quo order no longer surviving — However, keeping balance between hardship likely to been caused to meateaters of Delhi, there being no slaughter house near at hand as also the interest of environment and ecology, as the slaughter house is being run under highly polluted environment, held, Idgah Slaughter House may function till 30-6-1997 provided only goats/he-goats/sheep and not large animals such as buffaloes, cows, bulls, numbering 2000 per day shall be permitted to be slaughtered and slaughter house kept environmentally clean by MCD — Other directions also given

M.C. Mehta v. *Union of India*, (1996) 4 SCC 750; *Buffalo Traders' Welfare Assn.* v. *Maneka Gandhi*, 1994 Supp (3) SCC 448, *referred to*

Advocates who appeared in this case :

S.K. Dholakia, R.F. Nariman, Dr A.M. Singhvi and Arun Jaitley, Senior Advocates (Amit Dhingra, Shakil Ahmad Syed, P.H. Parekh, K.C. Dua, M.M. Israiley, M.C. Uddin, T. Qureshi, A.R. Khan, S.P. Jha, Ms Sheil Sethi, M.C. Mehta, Hardeep Singh, B.S. Banthia, R.C. Asthana, R.K. Maheshwari, Ashok K. Srivastava and Sushil Kumar Jain, Advocates, with them) for the appearing parties.

Chronological list of cases cited *on page(s)*

1. (1996) 4 SCC 750, *M.C. Mehta* v. *Union of India* 35*f-g*, 36*c*, 37*d*
2. 1994 Supp (3) SCC 448, *Buffalo Traders' Welfare Assn.* v. *Maneka Gandhi* 37*b-c*

ORDER

1. These two applications relate to Idgah Slaughter House, Delhi. The common prayer in both of them is to hold that the order passed in *M.C. Mehta* v. *Union of India*[1] does not have the effect of modifying and/or setting aside the order dated 19-2-1996 passed in the connected civil appeals, by which interim order of status quo was passed, while granting special leave. As the order of status quo is in conflict with the order passed in the writ petition, a clarification has also been sought that notwithstanding the later order, the order of status quo would continue to remain in operation.

† From the Judgment and Order dated 27-1-1995 of the Delhi High Court in W.P. No. 2961 of 1992

TruePrint™ source: Supreme Court Cases

2. The order in the writ petition relates not only to Idgah Slaughter House, but to 168 industries, of which the slaughter house is one. By that order it was held that all the 168 named industries are "hazardous/noxious" and, therefore, a direction was given that these industries shall stop functioning and operating in the city of Delhi with effect from 30-11-1996. Direction No. (8) stated that the closure order shall be unconditional by adding that "[e]ven if the relocation of industries is not complete they shall stop functioning in Delhi with effect from 30-11-1996".

3. As the aforesaid order is relatable to 168 industries, it has to be seen whether any exception can be made insofar as the slaughter house is concerned to permit it to operate and function beyond 30-11-1996. It is worth pointing out that when the interlocutory application in the writ petition was being heard, nobody had appeared on behalf of the slaughter house, despite ample opportunities having been given. This apart, perusal of the order dated 8-7-1996[1] shows that that had come to be passed after this Court was satisfied beyond doubt regarding the hazardous nature of the slaughter house, because of what was found by Central Pollution Control Board, Delhi Pollution Control Committee and a Special Committee constituted by this Court.

4. Further, insofar as the slaughter house is concerned, a Division Bench of the Delhi High Court had, as early as 1-10-1992 by its judgment in CWs Nos. 2267 of 1990, 158 of 1991 and 130 of 1992, directed, inter alia, that the slaughter house shall be closed with effect from 31-12-1993 or from any earlier date which may be fixed by the Court keeping in view the facts and circumstances which may arise before that date. The Delhi High Court came to be seized with another petition on the same subject filed by Maneka Gandhi, who had initially approached this Court by making a grievance regarding the "unhygienic, inhuman and horrible conditions prevalent at Idgah Slaughter House of Delhi". This Court directed the High Court to dispose of the petition. By judgment dated 27-1-1995 in Civil Writ No. 2961 of 1992 another Division Bench, inter alia, ordered for closure of the slaughter house on or before 31-12-1995. The aforesaid two appeals have challenged the later judgment of the Delhi High Court in which, while granting special leave, status quo order reading as below was passed:

> "Our attention is drawn to the minutes of the meeting dated 14-2-1996 which state that the consensus between the authorities and parties concerned was that there was no place available in or around Delhi to which the slaughter house could be shifted. Having regard to this unambiguous statement the matters shall have to be fully heard.
>
> Special leave granted. The appeals re-expedited. Liberty is given to the parties to move Hon'ble the Chief Justice for the purposes of early hearing. In the meantime, status quo shall be maintained."

5. A perusal of the status quo order leaves nothing to doubt that it is founded on the consensus regarding no place being available in or around Delhi to which the slaughter house could be shifted. This consensus is reflected in minutes of the meeting dated 14-2-1996. We have perused the same. It shows that in the meeting 35 persons were present and the participants showed their concern about "illegal slaughtering in different localities" but because of non-availability of alternative place, modernisation of the slaughter house was agreed to. Now,

insofar as availability of some other place in and around Delhi is concerned, because of the sustained efforts made by this Court from 16th September onwards, an area of about 55 acres has been made available and possession of the same has also since been reportably delivered. Thus, the basis of passing the status quo order no longer exists.

6. S/Shri Dholakia and Nariman, learned Senior Counsel appearing for the applicants, have nonetheless contended that to take care of the difficulty which the consumers would face if the slaughter house would be closed as directed, it should be permitted to function at least up to the period when alternative arrangement for slaughtering is made at the new site. Shri Nariman read out to us the order passed in *Buffalo Traders' Welfare Assn.* v. *Maneka Gandhi*[2] in which questions were raised as to what would happen when thousands of workers would be thrown on the streets jobless and how the meat requirements of a large city would be met? It was submitted by Shri Dholakia that if the slaughter house would be closed, unhygienic meat would be supplied to the consumers which would be more hazardous.

7. Insofar as the workers are concerned, it may be pointed out that due attention has been paid, inter alia, to their continuity of service and payment with full wages till the closure and restarting of all the industries, as would appear from direction (9) as contained in the order of 8-7-1996[1], relevant part of which reads as below:

> "(9) The workmen employed in the above-mentioned 168 industries shall be entitled to the rights and benefits as directed hereunder:
>
> (*a*) the workmen shall have continuity of employment at the new town and place where the industry is shifted. The terms and conditions of their employment shall not be altered to their detriment;
>
> (*b*) the period between the closure of the industry in Delhi and its restart at the place of relocation shall be treated as active employment and the workmen shall be paid their full wages with continuity of service.
>
> * * *"

8. As regards the consumers, we are of the view that they would not face much of a problem. It has been stated in para 119 of the impugned judgment that hygienic and fresh meat in adequate quantity can be brought from the nearby slaughter houses as a purely temporary measure. As the cattle which are slaughtered are brought from outside, according to us, there should be no difficulty in bringing the meat, instead of the animals themselves.

9. As to the argument that closure of the slaughter house should see unhygienic meat in the market, we should like to observe that this apprehension does not seem justified because there are licensed slaughter houses near Delhi. It is worth pointing out that when the Idgah Slaughter House had remained closed for nearly three months in 1994, because of the strike by butchers, there is nothing on record to show that the consumers had to remain satisfied by eating unhygienic meat. The availability of the meat also did not get adversely affected.

10. In the aforesaid premises, though the interlocutory applications are liable to be dismissed, but the consideration which is weighing with us in not

dismissing the same altogether is the interest of a large number of consumers in the territory of Delhi. This is the only industry of its type in the territory. There being no other slaughter house near at hand to cater to the needs of the residents of Delhi some hardship is likely to be caused to the meateaters. At the same time the interest of environment and ecology cannot be ignored. It cannot be disputed that the slaughter house is being run under highly polluted environment. With a view to keep a balance between the need of the people of Delhi and the environment, we direct as under:

(1) We permit the Idgah Slaughter House to function till 30-6-1997 on the following conditions:

(*i*) Goats/he-goats/sheep numbering 2000 per day shall be permitted to be slaughtered in the premises, no other animal shall be slaughtered.

(*ii*) Buffaloes (any sex), cows, bulls (i.e. large animals) shall not be permitted to be slaughtered as their slaughter generates more pollution. The buffalo section is the most polluted section in the slaughter house. We reiterate that except 2000 (two thousand only) goats/he-goats/sheep no other animal to be slaughtered in the premises. The buffalo section of the slaughter house shall be closed with immediate effect.

(*iii*) The slaughter house shall be kept environmentally clean by the MCD.

(2) The Central Pollution Control Board shall visit the slaughter house every two months till 30-6-1997 and file report in this Court indicating the environmental status of the premises.

(3) The animal market shall not be permitted to function near the slaughter house. Holding the animals market in the crowded part of the city is environmentally hazardous and cannot be permitted.

(4) The Deputy Commissioner of Police of the area shall stop the holding of the market in the vicinity of the slaughter house. The meat-sellers/butchers may bring the animals to the slaughter house in an environmentally clean manner and take the meat back in similar way. No market should be permitted in the area.

(5) The Municipal Corporation of Delhi shall stop all illegal slaughtering in Quasebpura area near Idgah or any other part of Delhi. The Commissioner, Municipal Corporation, Delhi shall take necessary steps to stop the illegal slaughtering in all parts of Delhi. If necessary, police help be taken in this respect.

(6) We make it clear that heavy pollution fine shall be imposed by this Court on polluters indulging in illegal slaughtering. Even the MCD shall be liable to pollution fine if the slaughter house is not kept environmentally clean. The staff in charge of the slaughter house may personally be liable to pay the fine.

(7) The Municipal Corporation of Delhi shall take steps on a war footing to construct the modern slaughter house on the alternative land already acquired by the Corporation. We make it clear that the Idgah Slaughter House would not be permitted to continue at the present site beyond 30-6-1997.

11. The IAs are disposed of accordingly.

(2010) 15 Supreme Court Cases 248

(BEFORE V.S. SIRPURKAR, CYRIAC JOSEPH AND DEEPAK VERMA, JJ.)

BUFFALO TRADERS WELFARE ASSOCIATION .. Appellant;

Versus

UNION OF INDIA AND OTHERS .. Respondents.

Civil Appeals No. 3769 of 1956 with Nos. 3770-74 of 1996 and WPs (C) Nos. 192 of 2004 and D14793 of 2000, decided on May 5, 2010

Local Government — Municipalities — Slaughterhouses — Shifting of slaughter house — Shifting now complete in pursuance of earlier orders — Undertakings given by MCD shall be adhered to and sincere efforts shall be made to provide basic amenities in slaughterhouse — Writ petitions and appeals disposed of

J-D/46626/S

ORDER

1. Mr Sanjib Sen, learned counsel appearing for MCD submits that all these appeals have become infructuous as they relate to the shifting of slaughter house from Idgah to Ghazipur and the shifting is now complete in pursuance of the earlier orders passed by this Court from time to time. This statement is not controverted by any of the counsel for the appellant.

2. Accepting the statement made at the Bar and after perusing the appeals and the writ petitions, they are disposed of as infructuous.

3. We hope that whatever undertakings have been given by MCD in its earlier affidavits, the same shall be adhered to and sincere efforts shall be made to provide basic amenities in the slaughter house at Ghazipur.

WP (C) No. 452 of 1995

4. The learned counsel appearing for the applicant seeks leave of the Court to withdraw the writ petition. Permission granted. The writ petition is, accordingly, dismissed as withdrawn with liberty to pursue such remedies as are available to the applicant in law.

IAs Nos. 22, 40, 41, 42 in Civil Appeal No. 3769 of 1996, IA No. ... in Civil Appeal No. 3769 of 1996 (Buffalo Traders Welfare Assn. v. Union of India) and IAs Nos. 2, 3 in Civil Appeal No. 3773 of 1996

5. In view of the order passed in the civil appeals, these IAs have become infructuous and are disposed of accordingly.

1868

F. No. 13(46)/CC/MB/UD/2012/P.F./ [illegible] Dated : [illegible]

Minutes of the meeting of the Committee constituted for observing the functioning of slaughter houses in terms of order passed by Hon'ble Court in the WP (C) 330 of 2001 titled as common cause VS Union of India & ors held in the conference room at 9th Level, C – Wing, Delhi Secrt. Under the chairmanship of Principal Secretary (UD), on 15/09/2016 at 03.30 PM.

A meeting was held under the chairmanship of Principal Secretary (UD) on 15/09/2016 at 3.30 PM to discuss the matters relating to slaughter houses. The list of participants is enclosed.

Following points were discussed in the meeting.

1. At the outset the Principal Secretary UD observed that no junior functionaries of the departments may be present in the future meetings and the permanent nominee from each department may be appointed to attend the meetings.

2. The Principal Secretary but enquired about the action taken against the illegal slaughter houses and ATR thereof no substantive reply was given by the representatives of the departments and it was again directed by Principal Secretary UD to identify such cases and take action as per law/rules.

3. The representative of the North DMC submitted their action taken report against the illegal slaughtering and it was decided that the orders of the Hon'ble Supreme Court have to be complied with in letter and spirit as regards the unlicensed/illegal shops/slaughter houses.

4. Regarding Child labour – The Principal Secretary observed that the status regarding the same may be provided by the departments at the earliest.

5. Regarding the status report pertaining to the slaughter house at Rani Khera. The Principal Secretary UD directed to provide the immediate status of the project.

6. The Principal Secretary UD observed that the South DMC shall provide the suggested place for the slaughter house and the similar action may be taken by North DMC. The Principal Secretary UD further observed that there are legal provisions under DMC Act for issuing trade licenses however even though the MCD issues trade license for selling food products but no one applies for such food licenses with the PFA. Principal Secretary UD further instructed the representative of FSSAI for circulating the relevant act and rules to all local bodies.

ATTESTED
True Copy of the Record

7. Regarding the payment of remuneration to the Convenor the matter was discussed at length and the Principal Secretary UD directed to submit the proposal and suggested that the proper sitting arrangements may be made for him.

8. Ms. Gauri Maulekhi suggested that action should be taken against the slaughter house and Director, Veterinary, EDMC based on the report of the Mayor and the concerned Additional Commissioner who inspected the slaughter house. Before any action is initiated a sub-committee was proposed to be formed for the surprise inspection of the slaughter house. Accordingly, a sub-committee comprising of Director V.S., SDMC as convenor and Director V.S., North DMC, Director Animal Husbandry, GNCTD, representative of FSSAI and Ms. Gauri Maulekhi as member was constituted to carry out surprise inspection of slaughter house and submit a report to the committee.

9. Regarding the report of solid waste it was observed by Principal Secretary UD that the report on the same which is still awaited may be submitted to Directorate of Local Bodies.

10. It was brought to the notice of the committee that no veterinary doctors are found available at the time of slaughtering of animals which means there is not provision to check as to whether the animal is pregnant, sick etc. The representatives of East DMC submitted that there are ten veterinary doctors for the same.

11. Regarding the Govt. of India Ministry of Environment letter dated 17/08/2016 it was observed that all stake holders should submit an ATR regarding the same.

12. It was brought to the notice of the committee that as per rule one doctor can check 96 animals in eight hours. The capacity of Ghazipur slaughter house is about 5000 animals per day so as per law the slaughtering must be reduced as per the availability of the doctors of the veterinary. The Principal Secretary UD observed that action may be taken immediately for appointing additional veterinary doctors for the purpose. It was brought to the notice of the chair that the proposal for appointment of about 75 veterinary doctors had been initiated for approval of the Corporation. The Principal Secretary UD observed that the same may be followed up expeditiously.

13. Ms. Gauri Maulekhi informed that there was a videography in which an animal was shown hanged live without waiting for its death. On this the Principal Secretary UD observed that this should not be allowed and it may be ensured that the slaughtering may be done as per the guidelines.

The meeting ended with thanks to the chair.

Pankha Road, Janakpuri,
New Delhi – 110 058.

Subject: Construction of Modern Poultry & Egg Market at B-1 Pocket, Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB) - Environmental Clearance - Reg.

Dear Sirs,

This has reference to your application No: F25(19)/190/05/DAHB/Engg./366, dated 28.12.2007 and subsequent letters dated 22.04.2008 and 19.06.2008 seeking prior Environmental Clearance for the above project under the EIA Notification, 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., the Questionnaire, EIA, EMP and the additional clarifications furnished in response to the observations of the Expert Appraisal Committee constituted by the competent authority in its meetings held on 13th – 14th March 2008, 1st – 3rd May, 2008 and 26th – 28th June, 2008 and awarded "Silver" grading to the project.

2. It is interalia, noted that the project involves the construction of a modern poultry and Egg market on a plot area of 60,200 Sq.m. The total builtup area is 96,298.372 Sq.m. (2 basements + GF + 2 floors). The total water requirement is 1411 KLD before the operation of ETP and 1161 KLD after the operation of ETP (fresh water requirement will be 91 KLD). The capacity of ETP proposed is 1300 KLD and domestic sewage will be mixed with process treatment plant at secondary level. Treated waste water to be used for flushing of toilets - 50 KLD, horticulture - 108 KLD, AC cooling - 92 KLD. Total solid waste generation will be 560 Kg/day. The power requirement is 2925 KW. The total parking spaces proposed are for 1445 cars (basement – 1244 and surface – 201). Total cost of the project is Rs. 200.00 Crores.

ATTESTED
True Copy of the Record

3. The Expert Committee after due considerations of the relevant documents submitted by the project proponent and additional clarifications furnished in response to its observations have accorded environmental clearance as per the provisions of Environmental Impact Assessment Notification – 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:

PART A - SPECIFIC CONDITIONS

I. Construction Phase

(i) "Consent for Establishment" shall be obtained from Delhi Pollution Control Committee under Air and Water Act and a copy shall be submitted to the Ministry before start of any construction work at the site.

(ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.

(iii) A First Aid Room will be provided in the project both during construction and operation of the project.

(iv) Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.

(v) All the topsoil excavated during construction activities should be stored for use in horticulture/landscape development within the project site.

(vi) Disposal of muck during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.

(vii) Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.

(viii) Construction spoils, including bituminous material and other hazardous materials, must not be allowed to contaminate watercourses and the dump sites for such material must be secured so that they should not leach into the ground water.

ATTESTED

True Copy of the Record

(ix) Any hazardous waste generated during construction phase, should be disposed off as per applicable rules and norms with necessary approvals of the Delhi Pollution Control Committee.

(x) The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.

(xi) The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from Chief Controller of Explosives shall be taken.

(xii) Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.

(xiii) Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/DPCC.

(xiv) Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003. As the site is located within the 100 Km of Thermal Power Stations (IP, Raj Ghat and Badarpur).

(xv) Ready mixed concrete must be used in building construction.

(xvi) Storm water control and its re-use as per CGWB and BIS standards for various applications.

(xvii) Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.

(xviii) Permission to draw ground water shall be obtained from the competent Authority prior to construction/operation of the project.

(xix) Separation of grey and black water should be done by the use of dual plumbing line for separation of grey and black water.

ATTESTED

True Copy of the Record

(xx) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.

(xxi) Use of glass may be reduced by upto 40% to reduce the electricity consumption and load on airconditioning. If necessary, use high quality double glass with special reflective coating in windows.

(xxii) Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.

(xxiii) Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code which is proposed to be mandatory for all airconditioned spaces while it is aspirational for non-airconditioned spaces by use of appropriate thermal insulation material to fulfill requirement.

(xxiv) The approval of the competent authority shall be obtained for structural safety of the buildings due to earthquake, adequacy of fire fighting equipments, etc. as per National Building Code including protection measures from lightening etc.

(xxv) Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.

(xxvi) Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.

II. Operation Phase

i) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the Ministry before the project is commissioned for operation. Treated affluent emanating from STP shall be recycled/reused to the maximum extent possible. Treatment of 100% grey water by decentralised treatment should be done. Discharge of unused treated affluent shall conform to the norms and standards of the Delhi Pollution Control Committee. Necessary measures should be made to mitigate the odour problem from STP.

ii) The solid waste generated should be properly collected and segregated. Wet garbage should be composted and dry / inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.

ATTESTED
True Copy of the Records

iii) Diesel power generating sets proposed as source of back up power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with Delhi Pollution Control Committee.

iv) Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.

v) The green belt of the adequate width and density preferably with local species along the periphery of the plot shall be raised so as to provide protection against particulates and noise.

vi) Weep holes in the compound walls shall be provided to ensure natural drainage of rain water in the catchment area during the monsoon period.

vii) Rain water harvesting for roof run- off and surface run- off, as plan submitted should be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The borewell for rainwater recharging should be kept at least 5 mts. above the highest ground water table.

viii) The ground water level and its quality should be monitored regularly in consultation with Central Ground Water Authority.

ix) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.

x) A Report on the energy conservation measures confirming to energy conservation norms finalise by Bureau of Energy Efficiency should be prepared incorporating details about building materials & technology, R & U Factors etc and submit to the Ministry in three months time.

xi) Energy conservation measures like installation of CFLs/TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible.

ATTESTED
True Copy of the Recom

xii) Adequate measures should be taken to prevent odour problem from solid waste processing plant and STP.

xiii) The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.

PART - B. GENERAL CONDITIONS

i) The environmental safeguards contained in the EIA Report should be implemented in letter and spirit.

ii) Provision should be made for supply of kerosene or cooking gas and pressure cooker to the labourers during construction phase.

iii) Six monthly monitoring reports should be submitted to the Ministry and it's Regional Office, Chandigarh.

4. Officials from the Regional Office of MOEF, Chandigarh who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to MoEF should be forwarded to the CCF, Regional office of MOEF, Chandigarh.

5. In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Ministry.

6. The Ministry reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.

7. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, as applicable by project proponents from the respective competent authorities.

8. These stipulations would be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.

ATTESTED
True Copy of the Report

9. Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No.460 of 2004 as may be applicable to this project.

10. Any appeal against this Environmental Clearance shall lie with the National Environment Appellate Authority, if preferred, within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Act, 1997.

Sub:- Replies pertaining to the points raised vide letter no. DPCC/WMC-I/DAMB/2019/14480-14483 dt.02/08/2019.

Ref:- Meeting dt.07/08/2019

Sir,

This is in reference to your letter no. DPCC/WMC-I/DAMB/2019/14480-14483 dt.02/08/2019 vide which you have directed to furnish the replies on the points. Accordingly the point wise replies are as under:-

1. DDA has allowed DAMB to complete the project of Development of Modern Poultry and Egg Market Gazipur by Dec. 2020. DAMB after obtaining approval from its authorities as well as outside authorities such as DUAC, DJB, Delhi fire services, MoEFCC etc. floated the tenders and at present the work is in progress at site. The relevant documents pertaining to above facts are enclosed herewith for your perusal and consideration.
2. Since there is no mention about expiry date of environmental clearance in the approval letter issued by MoEFCC in 2008, therefore as discussed in the meeting as well as in your letter dt.02/08/2019, DAMB has asked its Architectural Consultant of this project for submitting and obtaining the case for revised Environmental Clearance from MoEFCC. The copy of letter issued to our Architect M/s. Architect Bureau is enclosed herewith.
In view of this as well as timeline provided by DDA for completing this project, construction activity may not be discontinued.

ATTESTED
True Copy of the Record

3. The effluent analysis report from empanelled laboratories of DPCC is enclosed herewith.
4. The existing bore wells in the Poultry Market are not working properly because of the fact that bore wells were shallow bores. Since DJB has approved the water supply scheme for Poultry Market and DAMB has requested DJB to provide water supply in this market or allow DAMB for developing two bores. Flow meter as directed shall be installed on DJB supply or new bore wells (letter written to DJB is enclosed herewith).
5. DG set is not being used as supply of electricity is regular. However the agency is installing DG set at site for which necessary directions has been given for installation of canopy around the DG set.

Thanking you

Superintending Engineer

F. No. DPCC/ WMC-I/2019/ 20291+96 Dated: 9/11/19

Subject: Revocation of Consent to operate under the Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 as amended to date

Whereas, Central Pollution Control Board is the State Board for all the union Territories to exercise powers and performs functions under the Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981, as amended to date.

And whereas, Central Pollution Control Board has delegated all its powers and functions under the Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981, in respect of Union Territory of Delhi to Delhi Pollution Control Committee (DPCC) Vide Notification dated 15.03.1991.

And whereas, the whole Union Territory of Delhi has been declared as an Air Pollution Control Area, under sub section (I) of section 19 of the Air (Prevention & Control of Pollution) Act, 1981, vide Notification No. GSR 106 (E) Dated 20.02.1987.

And whereas, as per section 21(1) of the Air (Prevention & Control of Pollution) Act, 1981, as amended to date no person shall, without the previous consent of the State Pollution Control Board (DPCC in case of Delhi), establish or operate any industrial plant in an Air Pollution Control Area.

And whereas, as per section 25/26 of the Water (Prevention and Control of Pollution) Act, 1974, as amended to date, it is mandatory to obtain Consent from Delhi Pollution Control Committee in respect of any hospital or operation or process or any treatment and disposal system an extension or addition thereto, which is likely to discharge sewage or trade effluent in to a stream or on land.

And whereas, you, **M/s Delhi Agricultural Marketing Board** (herein after referred as the addressee) are operating your unit **Poultry &Egg Market at Ghazipur, Delhi-110096.**

And whereas, you (the addressee) have applied for consent to operate on 16.11.2018 for the existing Poultry and Egg Market and informed that an agreement through association of commission agent at Poultry Maket, Ghazipur has been made with M/s Ray Ban Organics Pvt Ltd, Old Chungi, Bulandshahar road, Hapur, Ghaziabad, U.P. for collection, transportation and disposal of poultry waste.

And whereas, Consent to Operate (CTO) was issued on 11.01.2019 purely for the purpose of pollution control and with certain conditions as follows:

a) Submission of documents from the relevant authority wr.t. to conformity of the activity within [illegible] from the date of issue of the CTO,

b) [illegible] application for consent to establish for the present activity.

c) Submission of fresh Environmental Clearance (EC) from MoEF & CC including the activity of slaughtering / processing / dressing of the birds.

d) Not to undertake any construction activity till the issue of EC from MOEF&CC.

And whereas, you (the addressee) were called for personal hearing on 07.08.2019 before the Principal Secretary (Env.) cum Chairman, DPCC vide this office letter dated 02.08.2019.

And whereas, in response to aforesaid minutes, you (the addressee) have submitted a reply on 19.08.2019 enclosing many documents but none showing the compliance of any of the above conditions of CTO.

ATTESTED

True Copy of the Record

Contd on 2..

And whereas, you have failed to comply with any of the conditions of CTO granted to you on 11/01/19 even after a lapse of 9 months.

Now therefore, in view of the above, the Competent Authority in Delhi Pollution Control Committee in exercise of powers conferred upon it u/s 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 has decided to revoke the consent to operate issued to you on 11.01.2019 with immediate effect.

Please note that operating the unit without obtaining consent to operate is punishable under the provisions of the said Acts.

These issues with the approval of the Competent Authority.

F. No. DPCC/WMC-I/P&E Mrk/2019/ 20297-20305 Dated: 9/11/19

Subject: Directions for closure u/s 31(A) of the Air (Prevention & Control of Pollution) Act, 1981, u/s 33 (A) of the Water (Prevention & Control of Pollution) Act, 1974 as amended to date.

Whereas, Central Pollution Control Board is the State Board for all the Union Territories to exercise powers and perform functions under the Water (Prevention & Control of Pollution) Act, 1974 and under Air (Prevention & Control of Pollution) Act, 1981.

And whereas, Central Pollution Control Board has delegated all its powers and functions under the Water (Prevention & Control of Pollution) Act, 1974 and under the Air (Prevention & Control of Pollution) Act, 1981 in respect of Union Territory of Delhi to Delhi Pollution Control Committee.

And whereas, as per section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974, as amended to date, it is mandatory to obtain Consent from Delhi Pollution Control Committee in respect of any industry or operation or process or any treatment and disposal system an extension or addition thereto, which is likely to discharge sewage or trade effluent into a stream or well or sewer or on land.

And whereas, the whole Union Territory of Delhi has been declared as an Air Pollution Control area, under sub section (I) of section 19 of the Air (Prevention & Control of Pollution) Act, 1981 vide notification no. GSR 106 (E) dated 20.02.1987.

And whereas, it is mandatory under section 21(1) of the Air (Prevention & Control of Pollution) Act, 1981 that no person without the previous consent of the DPCC shall establish or operate any industrial plant in air pollution control area.

And whereas, you, **M/s Delhi Agricultural Marketing Board** (herein after referred as the addressee) are operating your unit **Poultry & Egg Market at Ghazipur, Delhi-110096.**

And whereas, you (the addressee) had obtained Environmental Clearance on 28.07.2008 from MoEF & CC for the activity of the Construction of Modern Poultry and Egg Market at Ghzaipur which was valid for 7 years i.e. upto 27.07.2015.

And whereas, you (the addressee) had applied for Consent to Establish for the activity of the Construction of Modern Poultry and Egg Market at Ghazipur which was issued to you on 08.02.2010 and valid upto 07.02.2011.

And whereas, you (the addressee) had applied for Consent to Operate (CTO) under Water & Air Acts on 16/12/2013 for the existing Poultry and Egg Market.

And whereas, the application for CTO submitted on 16/12/13 was refused on 24/04/18 along with directions for closure under section 33(A) & 31 (A) of Water & Air Act respectively.

And whereas, a reply was submitted by DAMB on 17.05.2018 regarding installation of ETP and proposal for installation of Waste to Power plant.

And whereas, you (the addressee) had again applied for Consent to Operate on 16.11.2018 for the existing Poultry and Egg Market along with documents and the agreement with M/s Ray Ban Organics Pvt Ltd, Hapur, Ghaziabad, U.P. for collection, transportation and disposal of solid poultry waste.

And whereas, Consent to Operate (CTO) was issued on 11.01.2019 purely for the purpose of pollution control and with certain conditions as follows:

a) Submission of documents from the relevant authority w.r.t. to conformity of the activity within six month from the date of issue of the CTO,

Contd on 2..

ATTESTED
True Copy of the Record

14

b) Submission of application for consent to establish for the present activity.

c) Submission of fresh Environmental Clearance (EC) from MoEF & CC including the activity of slaughtering / processing / dressing of the birds.

d) Not to undertake any construction activity till the issue of EC from MOEF&CC.

And whereas, no compliance has been received from you, the addressee, on the above conditions even after a lapse of 9 months.

And whereas, you (the addressee) were called for personal hearing on 07.08.2019 before the Principal Secretary (Env.) cum Chairman, DPCC vide this office letter dated 02.08.2019.

And whereas, in response to aforesaid minutes, you (the addressee) have submitted a reply on 19.08.2019 enclosing many documents but none showing the compliance of any of the above conditions of CTO.

And whereas, an inspection was again carried out by DPCC officials on 06.11.2019 and following were observed:

1. The Poultry and Egg Market was found operational.
2. The unit has still not applied for EC in MoEF.
3. Construction of Modern Poultry Market has been started. Excavation work has begun and some column / beams have been erected. However, on the day of inspection the work was not carried out due to the ban on construction by Delhi Government under GRAP.
4. Common slaughtering area earlier existing in the market has been dismantled and now slaughtering of bird is being carried out in approx. 50 individual shops. However, no document was shown regarding permission of the activity from any department.
5. Solid waste generated from these shops during slaughtering / dressing / cleaning are kept in bags in open space between entrance gate and shops attracting lots of vultures.
6. Lots of feather of birds were observed strewn over the road in the market.
7. No document was shown regarding the implementation of the agreement with M/s Ray Ban Organics Pvt Ltd, Hapur, Ghaziabad, U.P. for collection, transportation and disposal of solid poultry waste.
8. Approx. 36 no. of temporary shops have come up in the vacant plot adjacent to poultry market and selling of mutton/ chicken/ fish is being carried out at the backside of these shops by some people.
9. A common bio-methanation plant of 15 TPD capacity is under construction adjacent to ETP to handle the waste generated from fish market, poultry market, flower market and fruit market & vegetable market of Ghazipur. One pre-digester, two main digesters were found constructed.
10. Various shops have installed individual borewells for extraction of ground water.
11. Adequate stack height has not been provided with the D.G. Set of 82.5 KVA.
12. An ETP of 650 KLD has been installed to treat the waste water generated from these shops. ETP was found in operation. On-line monitoring system and flow meters found installed at inlet and outlet of ETP showing parameters within prescribed limits.

And whereas, as stated above, you (the addressee) have started the work for construction of Modern Poultry and Egg Market without obtaining Environmental Clearance from MoEF & CC.

And whereas, you (the addressee) are not managing the solid poultry waste as per the undertaking submitted in DPCC.

And whereas, you (he addressee), have failed to comply with any of the conditions of CTO granted to you on 11/01/19 even after a lapse of nine months.

Contd on 3..

ATTESTED
True Copy of the Record

And whereas, the Consent to Operate granted to you (the addressee) on 11/01/19 has been revoked vide this office letter no. 2019 / 96 dated 09/11/19.

Now therefore, in view of the above, the Competent Authority in Delhi Pollution Control Committee in exercise of powers conferred upon it u/s 33(A) of the Water Act and 31(A) of the Air Act as amended to date has decided to issue the following directions:

1. That you (the addressee) shall close down all the processes in your unit i.e. Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from the concerned authorities with immediate effect.

2. That the concerned Sub-Divisional Magistrate shall ensure effective closure of the activities of the unit Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from the concerned authorities with immediate effect.

3. That the Concerned Authority in BSES Yamuna Power Ltd. shall disconnect the electricity/power supply of the unit i.e. Poultry & Egg Market with immediate effect.

4. That the concerned authority in DJB shall disconnect the water supply connection of the bore existing in the unit i.e. Poultry & Egg Market with immediate effect.

5. That East Delhi Municipal Corporation shall cancel the licenses granted to the shops in the Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from the concerned authorities.

Please note that you (the addressee) shall be liable for penal action under the provisions of Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981 in case of noncompliance of aforesaid directions.

This is being issued as per the approval of the Competent Authority.

To,
TheVice Chairman,
Delhi Agricultural Marketing Board,
Plot No. 9, DAMB Office Building, Institutional Area,
Pankha Road, Janakpuri,
New Delhi-110058

Sub:- Compliance of directions for closure issued to Poultry and Egg Market at Ghazipur, Delhi-reg.

S.r.

This refers to the closure directions issued to Poultry and Egg Market (managed by Delhi Agriculture Marketing Board) operational at Ghazipur, Delhi in view of the non-compliance of the provisions of Water Act, 1974 and Air Act, 1981 vide letter dated 09.11.2019 wherein you were directed to close down all the processes in your unit i.e. Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from concerned authorities with immediate effect.

The Poultry Market has been inspected on 24.9.2020 and found the plant operational in violation of the closure directions issued vide letter dated 09.11.2019 and without consent to operate under the Water Act, 1974 and Air Act, 1981. Further, the construction of building for modern Poultry Market was in progress without a valid Environmental Clearance of the MoEF& CC, GoI.

In view of earlier closure directions dated 09.11.2019, you are hereby directed to stop all the processes in Poultry & Egg MarketGhazipur including processing/ slaughtering of birds with immediate effect, apart from stopping the construction of the building of modern Poultry & Egg Market with immediate effect. Furtheryou are hereby directed to submit the undertakingin this regard within 07 days from date of issue of this letter, failing which prosecution proceedings under the provisions of the above said Acts will be initiated without any further reference to you.

Further, as the issue of pollution being caused by the plant is being monitored by Hon'ble Delhi High Court in a Writ Petition filed by Ms.GauriMulakhi, you are directed to comply with the directions of Hon'ble High Court and submit compliance report wrt the order of the Hon'ble Court dated 24.9.2018 within 7 days of issue of this letter.

Yours faithfully.

Sub: Compliance of directions for closure issued to Poultry and Egg Market at Ghazipur, Delhi

Sir,

This is in reference to your letter no. DPCC/WMC-III/P&E Mrk/2020/2364-65 Dt. 05/11/2020 received in this office 09/11/2020 vide which you have mentioned that in view of closure direction dt. 09/11/2019 DAMB is directed to stop all the processes in the Poultry market Gazipur including processing/ slaughtering of birds with immediate effect, apart from stopping the construction of building of modern poultry and egg market with immediate effect. Further vide this letter, DAMB is directed to submit the undertaking in this regard within 07 days from the date of issue of this letter.

In view of above letter and letter dt. 09/11/2019, the following are the main issues:

1. Stoppage of all processes in Poultry market without consent to operate of Poultry market.
2. Stopping of construction activity of modern Poultry market without valid environment clearance.

Both the above issues are not related to each other and are to be dealt separately.

Regarding point no. 01 we have to go long back with correspondences made with DPCC with effect from 2009 onwards and the action taken by DAMB thereof:

1. Reference to letter no. DPCC/EC/24811/3145 dt. 22/01/09(copy enclosed at **(Ref Annexure A)**. Vide this letter DPCC issued direction to install effluent treatment plant in view of large quantity of trade effluent being discharged in open drain.
2. According to above direction DAMB invited tenders for instaliation of effluent treatment plant and the same was installed and made operational in 2013.
3. DAMB invested 3.56 crore for complying the above direction of DPCC.

ATTESTED
True Copy of the Record

4. DAMB applied for Consent to operate (CTO) to DPCC on dt. 10.12.13 and deposit the requisite fees(copy of payment enclosed at **(Ref Annexure B)**.

5. DPCC vide its letter no. DPCC/WMC-II/2014/SH-2/2209 dt. 02.06.14(copy enclosed at **(Ref Annexure C)** issued direction for installing online effluent quality monitoring system at the outlet of ETP for the measurement of the parameters such as pH, TSS, BOD, COD etc.

6. Accordingly DAMB started the process of installation of online monitoring system and the same was made functional w.e.f. 2017 and DAMB spend Rs. 30.91 lacs.

7. Thereafter DPCC vide letter no. DPCC/WMC-II/2014/SH-2/2424 dt. 11.07.14(copy enclosed at **(Ref Annexure D)** revoked the closure direction and issued direction for application for authorization under municipal solid waste management and handling rules 2000.

In view of above directions from DPCC, DAMB started process for installation of solid waste managment plant and awarded the work to M/s Green brick on 15.07.2018 for Rs. 9.17 cr. This plant is operational and has been inaugurated by Hon'ble CM Delhi on dt. 27/10/2020.

8. In view of the above actions of DAMB as well as on the request of DAMB, DPCC issued CTO(renewal) for the Poultry and Egg market on dt. 11.01.2019 valid upto 15.11.2023(copy enclosed at **(Ref Annexure E)**.

Further DPCC issued a letter no. DPCC/WMC-I/DAMB/2019/14480-14483 dt. 02.08.19 (copy enclosed at (Ref **Annexure F**)vide which DAMB asked to attend the meeting on 07.08.19 in chamber of Member Secretary, DPCC.

9. The matter discussed in the above meeting were replied by the DAMB on 14.08.2019 (copy of letter enclosed at **(Ref Annexure G)**.

10. DPCC vide its letter no. DPCC/WMC-I/2019//20291-96 dt. 09.11.19(copy enclosed at **(Ref Annexure H)** has raised following points:

(a) Submission of documents from the relevant authority w.r.t to conformity of the activity within six month from the date of issue of the CTO.

(b) Submission of application for consent to establish for the present activity.

(c) Submission of fresh environment clearance (EC) from MoEF&CC including the activity of slaughtering/ processing/ dressing of the birds.

(d) Not to undertake any construction activity till the issue of EC from MOEF&CC.

Regarding point no. (a), the relevant authority i.e. Lieutenant Governor Delhi vide his visit on dt. 23.10.1992 gave directions for managing the slaughtering of the birds where

ATTESTED

True Copy of the Record

cleaning, processing, stamping, packing etc. could be made. Note of visit of LG on 23.10.1992 issued by K.B. Vasisht, OSD to LG (copy enclosed at **(Ref Annexure I)**. MCD has also issued licenses to the traders of the Poultry market for slaughtering of the birds as per MCD norms after obtaining NOC from DAMB.

Regarding point no. (b), consent to establish was obtained in 2010 for the Poultry & Egg market(copy enclosed at **(Ref Annexure J)**.

Regarding point no. (c), it is submitted that the activity of construction of new poultry market should not be linked with the operation of existing poultry market. However, the action taken by the DAMB are as under:

1. DAMB processed for development of new Poultry market in 2005 and accordingly the architect consultant was appointed. Architect consultant obtained all the approval from outside authorities such as DUAC, DJB, DFS etc.
2. Environmental clearance for this project was also obtained from MoEF&CC in 2008(copy enclosed at). However as per the direction of DPCC dt. 09/11/2019, DAMB has asked its architectural consultant for submitting the case for getting environment clearance. Accordingly the case has already been submitted by the consultant to the regional office of MOEF&CC on dt. 20/01/2020 for obtaining certified compliance report of the project(copy enclosed at **(Ref Annexure K)**.

Thereafter the correspondences are in process and now the matter is being submitted to Director IA-II, MoEF&CC New Delhicopy enclosed **(Ref Annexure L)**.

In view of all above clarifications and action taken by DAMB for complying the various directions w.e.f 2009 onwards and also in respect of the reply of letter dt. 09/11/19 and 05/11/2020, the decision of closure of market operation may be revoked in light of clarifications submitted for point (a) & (b) above and lifting of ban on construction activity of new poultry market in light of clarifications submitted for point no. (c) above.

SE DAMB

Encl. as above.

Copy to:-

1. PA to VC DAMB
2. PA to Secretary, DAMB
3. Secretary, FP&EMC, Gazipur to further process the matter.

To,

Head of Department (HOD),
M/s. Delhi Agriculture Marketing Board
9, Institutional Area, Pankha Road, Janakpuri
New Delhi 110058, Delhi

Subject: Environmental Clearance for development of Modern Poltry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)-reg.

Sir,

This has reference to your proposal No. IA/DL/MIS/183574/2020; received on 17th November, 2020 through Parivesh Portal for grant of Environmental Clearance (EC) for development of Modern Poltry & Egg Market with built up area of 96,629.057sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

2. As per the provisions of the Environment Impact Assessment (EIA) Notification, 2006; as amended and notified under the Environment (Protection) Act, 1986 (29 of 1986), the above-mentioned project/activity is covered under category 'B' of item 8(a) 'Building and Construction Projects' of the Schedule to the EIA Notification, 2006 and its subsequent amendments, and requires appraisal at State level. However, due to absence of SEIAA/SEAC in Delhi, the proposal required appraisal at Central level by sectoral EAC.

3. Accordingly, the abovementioned proposal for grant of EC has been examined by the Expert Appraisal Committee (Infra-2) its 57th meeting held on 25th November, 2020.

4. The details of the project, as per the Application and documents submitted by the project proponent, and also as informed during the above-mentioned meetings of EAC (Infra-2) are as under: -

i. The proposed project is located at East Delhi, District Centre under the jurisdiction of Delhi Development Authority (DDA).

ATTESTED

True Copy of the Record

ii. The project is New. However, in the past, Ministry has granted Environmental Clearance vide letter No.21-1229/2007-IA.III dated 28.07.2008 based on the appraisal done by the then EAC in its meeting held on 28th July, 2008.

iii. The total plot area is 60,200sqm. The FSI/FAR area is 49,762 sqm and total construction (Built-up) area is 96,629.057sqm. The project will comprise of two (02) Buildings of 'G+1' and 'G+2 floors'. Maximum height of the building is 13.5m. The details of buildings are as follows:

Floor Area (FAR)	**As per EC Granted/ 28.07.2008(Concept) (in sqm)**	**As per DDA sanction (2019) & proposed (in sqm)**
Ground Floor	17933.212	17892.022
First Floor	17098.002	17892.022
Second Floor	11525.002	11110.749
Total	46556.216	46866.793
(Non-FAR)		
Basement (02 Nos.)	24871.078x2= 49742.156 \156	24881.138x2= 49762.264 *(proposed* 49762.264x1, with Multilevel Car parking (MLCP)
Built-up Area	**96298.372**	**96629.057**
Green Area (35% of total plot area)	**21070**	**21070**

iv. As on 31.12.2019; Built up area of approx. 5000 sqm has been constructed as per EC granted No.21-1229/2007-IA.III dated 28.07.2008. There are 70 (seventy) shops running in sheds and proposed shops are 100. About 70 % of the plot area is occupied by shops under shed and construction is on in 30 % of the plot area.

v. During construction phase, total water requirement is expected to be 10KLD. During the construction phase, Soak pits and septic tanks will be provided for disposal of wastewater. Temporary sanitary toilets will be provided during peak labor force.

vi. During operational phase, total water requirement of the project is expected to be 676KLD and the same will be met by 214KLD of fresh water from Delhi Jal Board (DJB) and 462 KLD of Recycled Water.

vii. Wastewater generated (513 KLD) will be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) will be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water will be disposed in to municipal drain (Zero discharge).

viii. About 0.28 TPD of municipal solid waste will be generated in the project. The biodegradable waste (0.14 TPD) will be processed in Organic Waste Converter (OWC) and the non- biodegradable waste (0.14TPD) will be handed over to authorized local vendor. Solid waste generated from cutting, removal of feathers, legs and neck (approx.

ATTESTED
True Copy of the Record

40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) will power biogas /bio-manure plant (15TPD) based on NISARGRUNA TECHNOLOGY (BARC TECHNOLOGY).

ix. The ETP cum STP are already in place with the due approval of Delhi Pollution Control Committee (DPCC). Biogas plant has also been made operational now.

x. The total power requirement during construction phase is 2925 KVA and will be met from BSES.

xi. Roof top rainwater of buildings will be collected in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration.

xii. The Green Belt for the proposed project has been planned in an area of 21070 SQM (50% of open area) to provide a clean, healthy and beautiful green environment.

xiii. Parking facility for 1445 four wheelers and two wheelers is proposed to be provided against the requirement of 1445 (according to local norms).

xiv. Proposed energy saving measures would save about 5 % of power.

xv. The project is not located in Critically Polluted area.

xvi. It is not located within10km of Eco Sensitive Zone. NBWL clearance is not required.

xvii. No Forest Clearance is required

xviii. No Court case pending against the project.

xix. Investment/Cost of the project is Rs. 150 Crore.

5. The EAC, based on information and clarifications provided by the project proponent and detailed discussions held on the issues, has recommended granting environmental clearance to the project. The aforesaid recommendation of EAC (Infra-2) is subject to certain specific conditions, as stipulated during its 57th meeting held on 25th November, 2020 and the standard EC Conditions as specified by the Ministry vide OM dated 04.01.2019 for the said project/activity.

6. Based on recommendations of EAC (Inra-2), the Ministry of Environment, Forest and Climate Change hereby accords Environmental Clearance to the project for development of Modern Poltry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board, under the provisions of the EIA Notification, 2006 and amendments/circulars issued thereon, and subject to the following specific and standard conditions:

A. Specific Conditions:

i. The Project proponent should ensure that the facility fulfils all the provisions of Solid Waste Management Rules, 2016, Hazardous and other Wastes (Management and Transboundary Movement) Rules, 2016. Adequate and separate area shall be provided for waste management and handling within the premises. Adequate measures shall also be taken to prevent odour problem from waste processing plant and ETP cum STP.

ATTESTED
True Copy of the Record

ii. As reported, about seventy shops are running in sheds on the project site. Suitable drainage and waste management measures (with frequent spray of permitted insecticides etc.) shall be adopted in both the construction and operational phase so as to prevent stagnation of water or accumulation of waste that will ultimately restrict the reproduction and growth of disease vectors. All required safety, sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.

iii. The biodegradable waste (0.14 TPD) shall be processed in onsite OWC and the non- biodegradable waste (0.14TPD) shall be handed over to authorized local vendor.

iv. As proposed, Solid waste generated from cutting, removal of leathers, legs and neck (approx. 40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) shall be used to get power from the proposed biogas /bio-manure plant (15TPD).

v. Total water requirement of the project shall not exceed 676KLD including 214KLD of fresh water from Delhi Jal Board (DJB).

vi. No abstraction of Ground water during the construction as well as the operation phase.

vii. As proposed, Wastewater generated (513 KLD) shall be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) shall be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water shall be disposed in to municipal drain (Zero discharge).

viii. The project proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.

ix. Roof top rainwater of buildings shall be collected as per the in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration as per CGWB guidelines.

x. As proposed, Parking facility for 1445 four wheelers shall be provided. Parking during the operation phase should be fully internalized and no public space should be utilized. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Loading and unloading of goods shall be from the designated places in the proposed market. Parking shall be kept clean and free from all types of wastes.

xi. In order to mitigate the emission load from traffic and to promote cleaner fuel options, Electric Car Charging Points shall be provided at

ATTESTED
True Copy of the Record

the Parking and provision of vehicles based on green fuel shall be facilitated.

xii. No tree felling/transplantation has been proposed in the instant project. As proposed, As proposed, area of 21,070 sqm (50% of open area) is to be developed as green area to provide a clean, healthy and beautiful green environment. A minimum of one tree for every 80 sqm of land should be planted and maintained. The landscape planning should include plantation of native species. Water intensive and/or invasive species should not be used for landscaping.

xiii. The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes as applicable to the project.

B. Standard Conditions:

I. Statutory compliance:

i. The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.

ii. The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightening etc.

iii. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.

iv. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.

v. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.

vi. The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.

vii. A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.

viii. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.

ix. The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016, shall be followed.

x. The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.

ATTESTED

True Copy of the Record

II. **Air quality monitoring and preservation:**

i. Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.

ii. A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.

iii. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM_{10} and $PM_{2.5}$) covering upwind and downwind directions during the construction period.

iv. Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.

v. Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.

vi. Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.

vii. Wet jet shall be provided for grinding and stone cutting.

viii. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.

ix. All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.

x. The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.

xi. The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.

xii. For indoor air quality the ventilation provisions as per National Building Code of India.

ATTESTED

For Copy of the Proposal No. IA/DL/MIS/183574/2020

III. Water quality monitoring and preservation:

i. The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.

ii. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.

iii. Total fresh water use shall not exceed the proposed requirement as provided in the project details.

iv. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.

v. A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.

vi. At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.

vii. Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.

viii. Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.

ix. Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.

x. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.

xi. The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pits/storage tanks shall be provided for ground water recharging as per the CGWB norms.

xii. A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse.

ATTESTED

True Copy of the Record

The ground water shall not be withdrawn without approval from the Competent Authority.

xiii. All recharge should be limited to shallow aquifer.

xiv. No ground water shall be used during construction phase of the project.

xv. Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.

xvi. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.

xvii. Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.

xviii. No sewage or untreated effluent water would be discharged through storm water drains.

xix. Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.

xx. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.

xxi. Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

IV. Noise monitoring and prevention:

i. Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.

ii. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.

ATTESTED

True Copy of the Proposal

iii. Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

V. Energy Conservation measures:

i. Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.

ii. Outdoor and common area lighting shall be LED.

iii. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.

iv. Energy conservation measures like installation of LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.

v. Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.

vi. Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.

VI. Waste Management:

i. A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.

ii. Disposal of muck during construction phase shall not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.

iii. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.

iv. Organic waste compost/ Vermiculture pit/ Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.

v. All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.

ATTESTED

for Secretary of the Board

vi. Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.

vii. Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.

viii. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.

ix. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.

x. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VII. Green Cover:

i. No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).

ii. Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.

iii. Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VIII. Transport

i. A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
   a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
   b. Traffic calming measures.
   c. Proper design of entry and exit points.
   d. Parking norms as per local regulation.

ATTESTED
True Copy of the Record

ii. Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.

iii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

IX. Human health issues:

i. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.

ii. For indoor air quality the ventilation provisions as per National Building Code of India.

iii. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.

iv. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

v. Occupational health surveillance of the workers shall be done on a regular basis.

vi. A First Aid Room shall be provided in the project both during construction and operations of the project.

X. Miscellaneous:

i. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.

ii. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.

iii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of

monitored data on their website and update the same on half-yearly basis.

iv. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.

v. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.

vi. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.

vii. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report

viii. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.

ix. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.

x. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.

xi. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.

xii. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).

xiii. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

xiv. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.

ATTESTED

True Copy of Receipt

xv. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.

xvi. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.

xvii. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

xiv. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

7. The Environmental Clearance is being granted to M/s. Delhi Agricultural Marketing Board (DAMB) for development of Modern Poltry & Egg Market with built up area of 96,629.057sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

8. This issues with the approval of the Competent Authority.

ANNR-11

IN THE HIGH COURT OF DELHI AT NEW DELHI

W.P.(C) No. 1214 OF 2018

IN THE MATTER OF: -

GAURI MAULAKHI ...PETITIONER

VERSUS

DELHI AGRICULTURAL MARKETING BOARD AND ORS.

...RESPONDENTS

STATUS REPORT BY RESPONDENT NO.1

AFFIDAVIT OF SH. A. NEDUNCHEZHIYAN, SECRETARY, DELHI AGRICULTURAL MARKETING BOARD, NEW DELHI

I, A. NEDUNCHEZHIYAN, the above-named deponent do hereby solemnly affirm and state as under:

1. That I am Secretary DAMB and have gone through the above petition and understood its contents. In my official capacity, I am conversant with the facts

ATTESTED

True Copy of the Record

of the case and competent and duly authorized to depose about the same.

2. That deponent joined Delhi Agricultural Marketing Board on 2nd April, 2018, as additional charge. Under section -18 of the Delhi Agricultural Produce Marketing (Regulation) Act, 1998 the Vice Chairman of the Board is the Chief Executive Officer and exercises its powers as given under Section-18. The functions of the Secretary Board are described in Section-19 of the Act.

3. That I have gone through the directions issued by Delhi Pollution Control Committee Department of Environment Govt. of NCT Delhi issuing directions for closure under Section -31 (A) of the Air (Prevention) Control of Pollution Act, 1981 and under Section-33(A) of the Water (Prevention) and Control of Pollution Act, 1974 as amended upto date.

ATTESTED

True Copy of the Record

4. That the Delhi Agricultural Produce Marketing (Regulation) Act, 1998 provides a platform to the farmers to bring their produce in the notified market yard for sale through commission agents or directly to the traders. The schedule to the Act under clause-I prescribes Animal Husbandry Products, Eggs and Poultry are the notified products. Under Clause-XII heading pisciculture fish is the notified product.

5. That Fish Poultry and Egg Marketing Committee (FP& EMC) was constituted to regulate the trade of afore-mentioned notified products. The traders dealing with the afore-mentioned products were earlier carrying on their activities in the Jama Majid Area. The individual who had Category -B (Commission Agent) License, were shifted to Gazipur Egg Fish and Poultry Market when the land was allotted to the Board for development of

Attested
True Copy of the Record

the Market in the area. They were allowed to trade in the temporary sheds.

6. That because of administrative reason non-clearance of the plans by the market committee by DDA there is a delay in developing the market. Now finally DDA vide its letter dated 26.4.2018 sorted out all the issues relating to the plan and have given permission to construct and develop the market by 31st December, 2020. The market when constructed will have independent shops for commission agents, with provision for cold storage and processing facilities for which they will have to have a separate license from MCD.

7. That presently the live birds when brought to the market by the farmers for sale they are sold through the commission agents and some of the traders instead of taking the birds directly to their shops for sale are slaughtering them in the market premises itself for which the committee has

ATTESTED
True Copy of the Record

constructed an ETP plant for treatment of liquid waste before discharge.

8. That so far as fish is concerned the same is sold in the crates itself which is cleaned and re-packed. Since no slaughtering is involved, the liquid waste is not that which requires treatment in the ETP plant before discharge, therefore, the record shows that Delhi Agricultural Marketing Board had applied on 16.12.2013 for consent to operate ETP plant for poultry only and paid the demanded fee of Rs. 8 Lakhs to DPCC.

9. That the record shows that Board has also paid the fee demanded for this purpose by DPCC and are also conducting monthly tests reports of the outlet effluent which are in confirming to standards and guidelines, this has also been checked by DPCC official during inspection and found satisfactory. The liquid waste is discharge only after the day to day discharge is tested in the laboratory at the

ATTESTED

True Copy of the Record

market yard and some of the samples at random are sent to Shri Ram Institute for Industrial Research as well as other approved laboratories. For ready reference some of the reports are enclosed herewith as **ANNEXURE R-1**.

10. That record also shows that at one point of time in the market yard because of trading of the birds the waste generated pilled-up because MCD was not giving permission to remove the waste to the land fill. Finally, the permission was given on March, 2018 and the area was cleared immediately thereafter. However, there will be day to day generation of the waste which is now being sent to the MCD land fill. I have been informed that photographs filed on record pertains to the time when the waste had accumulated because MCD did not give permission. Some of the photographs after clearing the site are enclosed as **ANNEXURE R-2**.

ATTESTED
True Copy of the Record

11. That I have gone through the order passed by DPCC on 24.4.2018. The market area is bounded by wall having entry and exit for the farmers and the traders. As per report outside the complex many shops are engaged in illegal slaughtering and roasting of animal parts. I submit that, the people sitting outside the boundary wall of the committee are illegal occupants on the Govt. site for which the corporation and other civic authorities have to take action.

12. That in the report the factual aspect of slaughtering of poultry is referred to and the DPCC is not satisfied with the waste management in fish market as well as poultry market. The modernization of fish poultry and egg market has been allowed by DDA vide its letter dated 26.4.2018 and other civic authorities have also given their permission including DPCC, for which the DAMB has taken up the tendering process and

ATTESTED

True Copy of the Record

very soon the same will be completed as the market is to be developed by 31.12.2020, as per EOT accorded by DDA vide permission letter dated 26.4.2018.

13. That in the market yard when the birds are brought for sale the birds feathers and the litters as well as day to day waste accumulated which is removed every day to the MCD land fill as per their permission. The committee has already outsourced the entire work of sweeping, scavenging, collection and transportation upto sanitary land fill of MCD on day to day basis, which is being monitored by the officials of the committee.

14. That the dead birds and other waste is disposed off through outsourcing agency in the sanitary land fill since the MCD's waste management plant does not cope for such waste. However, DAMB as a permanent solution, has already awarded the work

ATTESTED

True Copy of the Record

of installation, commissioning, operation and maintenance of waste to power plant at site to treat the entire day to day waste of fish and poultry market including waste of flower and fruit vegetable market Gazipur, which will generate electricity and the same will be used by the market. Its residue will be used as a manure and its disposal will be contractor's responsibility as per the agreement. The waste management plant will be ready for operation by 31.12.2018. Thereafter, no waste will be sent to any land fill area by any of the markets operating in Gazipur.

15. That as per records DAMB applied and deposited with DJB development charges to the tune of Rs.1.03 Cr. many years back for water supply connection, but since DJB could not provide water connection in the market area it granted permission to dig and operate borewell for meeting

ATTESTED

True Copy of the Record

the water requirement. Copy of the permission letter is annexed as **ANNEXURE R-3**.

16. That in its order of 24.4.2018 the DPCC had accepted the fact that STP should be read as ETP (650 KLD) of poultry and egg market is found operational and all the units were found functional but, waste water generated in the fish market is being discharge through a pump directly into the drain without treatment. It is submitted that, ETP plant is for treatment of liquid waste i.e. the blood generated in slaughtering the birds, and therefore, it is used for treatment of the liquid waste of the birds. So far as fish is concerned there is no slaughtering/ cutting, no blood, they come in crates wrapped in ice. It is only the waste water generated because of ice melting which goes to the drain, and no treatment of the same is required and therefore, ETP plant for fish market is not required.

ATTESTED

True Copy of the Record

17. That the deponent as Secretary Board attended a meeting under the Chairmanship of Secretary environment and Forest -cum-Chairman DPCC held on 20.7.2018 where, after discussions it was decided that immediate steps as indicated in the minutes be taken by DAMB for better management of environment. Copy of the minutes is enclosed as **ANNEXURE R-4.** The Dy. Secretary (M) Marketing Board vide his letter dated 30.08.2018 has sent the action taken report the copy of the same is enclosed as **ANNEXURE R-5**.

18. That so far as control of pollution and waste management is concerned for the time being slaughtering of birds is being stopped by issuing a general notice to the traders in the market area that, they can only trade for live birds and not slaughter the birds till permission is granted by DPCC to operate ETP plant which otherwise is functional.

ATTESTED

True Copy of the Record

19. That I am informed, that, the Fish Poultry Committee held a meeting on 2.9.2018 under the Chairmanship of Shri Nasir Ali Alvi, Secretary and the other members of the committee wherein, traders representatives were also present and it was unanimously decided that as per DPCC's order slaughtering be stopped. Copy of the minutes are enclosed as **ANNEXURE R-6**.

20. That I have been informed that, a public notice/ order will be circulated in the market that slaughtering of poultry birds and related activities inside the premises of Fish Poultry and Egg Marketing Committee Gazipur is stopped forthwith and action will be taken against the violators as per Rule.

21. That the deponent submits that, the DPCC may be directed to look into the factual aspect with respect to ETP plant which is installed for liquid waste

ATTESTED

True Copy of the Record

management of the birds and is functional and operational. The DPCC may also be requested to look into the action taken by the DAMB for providing permanent solution for waste management of the market by way of installation, commissioning, operation and maintenance, so that, the traders can be allowed for slaughtering of the birds as MCD does not have any slaughtering house for the birds as they have for other animals. Since ETP plant is functional and the treated liquid waste is tested in the laboratories every day as well as random checks is carried out in the Shri Ram Institute for Industrial Research and other approved laboratories the traders may be allowed to continue their business under the supervision of DPCC till the permanent solution i.e. the plant becomes operational.

TEST REPORT

Chemical | Dye & Dyeing Lab | Physical | Polymer & Technical Textiles | Fibre

M/S Rehman Builders Pvt. Ltd.
D-39, Sector-63,
Industrial Area, Kavi Nagar,
Ghaziabad-201002 (UP)
Kind Attn.:

Report No.: Env/2156/2017-18
Customer's Reference: Letter dated 12-03-2018
Dispatch Reference: NITRA/ETL/2017-18/0
Page:

Sample Description: One sample in plastic bottle marked "Treated Effluent (from Outlet) of 650 KLD Effluent Treatment Plant of Poultry Market, Ghazipur, Delhi"

Date of Sample Receiving: 19-01-2018 | Date of Result Reporting: 19.03.2018

Condition of Sample: Liquid | Size of Sample: 2 Liters

S. No.	Test Parameters	Test Method	Units	Test Result (SC/4916)
1.	pH Value	IS 3025 (Part 11)		8.0
2.	Total Suspended Solids	IS 3025 (Part 17)	mg/l	38
3.	Chemical Oxygen Demand	IS 3025 (Part 58)	mg/l	240
4.	Biochemical Oxygen Demand (3 days, 27 °C)	IS 3025 (Part 44)	mg/l	88

Any Observational Comments: NIL

(Authorized Signatory) (Head of Division/Officer In-Charge)

End of Report

Minutes of the Meeting under the Chairmanship of Secretary Environment and Forest-Cum-Chairman DPCC held on 20.07.2018 at 3:30 PM in the conference room of Secretary Environment 6th Floor to discuss the follow up action taken by the authorities on the closure directions issued to Delhi Agricultural and Marketing Board.

The list of participants who attended the Meeting is enclosed. No officials from the office of Development Commissioner and Divisional Commissioner attended the meeting.

Welcoming the participants on behalf of DPCC Dr. Siddhartha Gautam informed the participants that Delhi Pollution Control Committee issued a Show cause notice after an inspection on 12.02.2018 on the findings that DAMB is not complying with the environmental norms. No reply was received from DAMB, an another inspection was conducted on 23.04.2018 and no improvement was noticed w.r.t compliance with the Directions issued vide show cause notice dated 27.02.2018. Competent Authority decided to issue closure direction and same was issued vide letter dated 24.04.2018. It was informed that no compliance has been received by the implementing authority.

Sh. Sanjeev Ralli, Advocate for DPCC opined that since the matter is before Hon'ble High Court of Delhi and no concrete and cohesive steps have been taken by DAMB and other agencies for the improvement in the environment at Murga Mandi, Ghazipur. Officials from DAMB informed that for better waste management they have ordered work for the installation of waste to energy plant which is likely to come up within six months. After discussion it was decided that following immediate steps be taken by DAMB for better management of environment:

1. An ETP shall be installed in the premises of fish and poultry market to treat the trade effluent generated which presently is being discharged into drain.
2. Area of Murga mandi and fish market along with adjoining area should be thoroughly cleaned immediately.
3. The trolleys, Rickshaws engaged to carry the poultry litter to the dump site should be covered to avoid picking up of litter by birds and stray animals.
4. The covered dump site should be immediately constructed to avoid pilferages by birds and stray animals.
5. Immediate action should be taken to send the litter to waste to energy plant. DAMB should enter into the contract with waste to energy plant for the purpose.
6. It was also decided to explore the possibility of disposing waste through Common Bio-Medical Waste Treatment Facility (CBWTF).
7. A letter to MCD be issued immediately for removing an illegal encroachment by DAMB and DPCC around Fish and Poultry Market.
8. A copy of Directions be sent to BRPL for necessary action as area falls under their jurisdiction.
9. DAMB shall apply for Consent to Operate under Water and Air Acts.

The meeting ended with the thanks to the Chair.

ATR/Comments of the meeting held on 20/07/2018

Sl.	Direction issued	ATR/Remarks
1.	An ETP shall be installed in the premises of fish and poultry market to treat the trade effluent generated which presently is being discharged in to drain.	Regarding installation of ETP plant by DAMB it is clarified that the ETP of 650 KLD has already been functioning in the poultry market w.e.f 2013 and all data reports has been sent to DPCC in frequent interval.
2.	Area of Murga Mandi and fish market along with adjoining area should be thoroughly cleaned immediately.	Same is being complied.
3.	The trolleys, Rickshaws engaged to carry the poultry litter to the dump site should be covered to avoid picking up of litter by birds and stray animals.	Same is being complied.
4.	The covered dump site should be immediately constructed to avoid pilferages by birds and stray animals.	In FP&EMC there are two covered dump site for dumping of all kind of garage/waste.
5.	Immediate action should be taken to send the litter to waste to energy plant. DAMB should enter into the contract with waste to energy plant for the purpose.	Site is handed over to the agency on 24.08.2018 and the work will start very soon.
6.	It was also decided to explore the possibility of disposing waste through Common Bio- Medical Waste Treatment Facility (CBWTF).	This does not pertain to this department as such there is no medical bio-degradable waste generated in the FP&EMC.
7.	A letter to MCD be issued immediately for removing an illegal encroachment by DAMB and DPCC around Fish and Poultry Market.	Action has already been taken by MCD and encroached sites have been removed on second week of August.
8.	A copy of Directions be sent to BRPL for necessary action as area falls under their jurisdiction.	This does not pertain to this department.
9.	DAMB shall apply for consent to Operate under Water and Air Acts.	The matter is under process for approval of the Competent Authority.

Confirmation of the minutes of the meeting dated 22.07.2018 after detailed deliberation

Agenda No. 2 Resolution No. 78/2018

This is with reference to the directions of Hon'ble High of Delhi dated 31.08.2018 in r/o the court case filed by Smt. Gauri Maulekhi.

In the committee meeting on this subject, it was apprised that as per the direction of the Hon'ble High Court of Delhi, action should be taken as per the directions of DPCC in the Poultry market running under the Fish Poultry and Egg Marketing Committee. In this regard, it was apprised that the slaughter house running in Poultry Market should be closed.

The matter was deliberated upon by the present members of the committee and a detailed discussion was held.

After discussion, it was decided that the slaughter house should be stopped as per the instructions of DPCC. This was agreed upon by all the members present of the committee.

The subject should also be considered approved.

The meeting concluded after thanks to the Chairman.

CORAM:
HON'BLE THE CHIEF JUSTICE
HON'BLE MR. JUSTICE V. KAMESWAR RAO

ORDER

% 24.09.2018

1. Having heard the learned counsel for the parties and on consideration of various status reports, that have come on record, we find that in the

ATTESTED
True Copy of the Report

inspection conducted by the Delhi Pollution Control Committee on April 24, 2018, the following violations have been noted:-

"(1) The Fish market and Poultry and Egg market is spread in an area of about 30 Acre.

(2) There are about 252 shops in Fish market and 2 sheds in Poultry market. One of the shed in Poultry market is meant for slaughtering of the birds and the other shed is being used for loading and unloading of the birds.

(3) The Poultry complex is surrounded by many shops engaged in illegal slaughtering and roasting of animal parts.

(4) About 1 lakh to 1.5 lakh birds are slaughtered every day. No improvement was noticed in respect to waste management in Fish market as well as in Poultry market.

(5) No plan provided by the officials of DAMB for the modernization of the Fish, Poultry and Egg Market.

(6) The whole complex was found filed with birds feathers and the litters.

(7) The litters were even observed outside the complex as these litters are being take by the eagles and stray animals.

(8) The dead birds and the other waste are being disposed off through MCD without any treatment.

(9) No treatment facility is provided for the waste management.

(10) It was informed by the officials of DAMB that notice issued by DPCC dated 27.2.2018 has been received by them.

ATTESTED
True Copy of the Record

(11) Water requirement is met through Bore-well. However, no permission from any agency has been shown.

(12) The STP (650 KLD) of Poultry and Egg market was found operational and all its units were found functional but the waste water generated in fish market is being discharged through a sump directly into the drain without treatment.

(13) There is no improvement in the environmental management by DAMB as observed during the inspection on 12.02.2018.

(14) Delhi Agricultural Marketing Board (DAMB) has applied for Consent to operate on 16.12.2013 for Poultry and Egg Market without mentioning the details of Fish Market which is also an integral part of DAMB.

(15) It was informed the tender has been accepted for the waste management by the Board and further action is in process."

2. Thereafter, show cause notices were issued and finally the respondent Delhi Agricultural Marketing Board vide notice dated August 04, 2018 (Annexure R-6/7 of the writ petition) was directed to stop or discontinue the activities of slaughtering in the area in question. In spite thereof, today after more than five months having passed, slaughtering in the area in question is still continuing.

3. Taking note of the totality of the circumstances and the manner in

ATTESTED
True Copy of Web Record

which the statutory authorities, particularly the EDMC is acting, we have no option but to direct that in the area in question namely the Gazipur Murga Mandi, no slaughtering of birds would be permitted henceforth. The respondents are granted liberty to work out a system to bring into place or establishment a proper market in the area after complying with all the statutory requirements, particularly the environment and pollution level and on consideration of the same, we would consider the question of permitting operation at slaughter house for poultry in the area in question. Till then, we direct that only sale of live birds can be done in the area in question.

4. As far as the fish market is concerned, the respondents should indicate as to how and in what manner, the statutory requirements of preventing pollution is being carried out in the area in question with regard to sale of fish. Let an affidavit indicating as to how and in what manner, this order is complied with should be filed on or before the next date of hearing.

5. Inspection report of the Delhi Pollution Control Committee dated September 24, 2018 is taken on record.

List on 29th October, 2018.

Terms and Conditions

1. This consent is being issued purely for the purpose of pollution control without prejudice to anything contained in any other law in force and subject to the orders of Hon'ble High Court in case no. WP No. 1214/2018 titled Gauri Mulekhi Vs Delhi Agricultural Marketing Board & Ors and conformity of the activity from relevant authorities viz. land owning agency/ East Delhi Municipal Corporation.
2. The DAMB shall submit the documents from the relevant authority with regard to conformity of the activity within 6 months from the date of issue of this consent along with the application for Consent to Establish.
3. The DAMB shall obtain fresh Environmental Clearance from Ministry of Env., Forest & Climate Change (MOEF&CC) and till then no construction activity w.r.t. construction of modern poultry and egg market shall be started, as the previous Environmental Clearance (EC) obtained by DAMB in the year 2008 for the construction of Modern Poultry and Egg Market has expired. However, this time the DAMB should apply for EC including the activity of slaughtering/ processing/ dressing of the birds.
4. The Consent is activity specific. The unit shall apply for fresh consent in case of there is any change in the activity/manufacturing process/address.
5. The quantity of domestic/ trade effluent discharge as per the consent application is 18000 Litres per Day / 448000 Litres per Day respectively. However the DAMB shall ensure the reuse of entire treated effluent and shall therefore ensure zero discharge from the unit.
6. The DAMB shall install separate energy meters for Sewage/ Effluent Treatment Plant (STP/ ETP) installed in the premises and shall keep the records of the daily readings of the same.
7. The DAMB shall install on-line monitoring system for Sewage/ Effluent Treatment Plant (STP/ ETP) installed in the premises and shall provide its link with the DPCC and CPCB server.
8. DAMB shall install flow meter at the inlet and outlet of STP/ETP and shall maintain daily record of the same.
9. The DAMB shall maintain daily record of STP/ETP operation in proper log book including the above mentioned details/readings and this log book shall be available at the time of inspection.
10. The DAMB shall submit the effluent analysis report from the empanelled laboratories of DPCC w.r.t. the STP/ETP installed within three months from the date of issuance of this consent order.
11. The DAMB shall ensure installation of flow meter on the borewell and shall maintain daily record of its readings. The DAMB shall also submit the permission from the concerned authority for extraction of ground water within six months from the issue of this consent order.
12. Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of collection system
13. The unit shall comply with the norms laid down vide Gazette Notification of Ministry of Environment and Forests, Government of India dated 17.05.2002 for the Diesel Generator set(s), used if any.
14. The unit shall comply with the emission standards prescribed for Diesel Engines (Engine rating more than 0.8 MW used for generation of power), if any and other requirements as notified vide Govt. of India notification dated 09.07.2002 of Ministry of Environment & Forests.
15. The Capacity of DG Set is 125 KVA. The DAMB shall submit noise monitoring report from the empanelled laboratories of DPCC w.r.t the DG set installed within three months from the date of issuance of this consent order.
16. The unit shall ensure proper channelization/ control system for fugitive emissions generated and good housekeeping so as to maintain clean and safe environment in and around the premises.
17. The DAMB shall ensure the management of Solid Waste generated from the poultry market through its authorized vendor and shall get the waste treated / disposed off as per relevant rules.
18. In the event of any information furnished by the consentee found to be false, consent granted through this order shall be deemed to be revoked and necessary action as per law shall be taken, which may include closure of the unit and prosecution for wrong declaration.
19. The unit shall comply with requirement of Solid Waste Management Rules, 2016 and the Batteries (Management and Handling) Rules, 2001, whichever applicable.
20. The DAMB shall comply with the provision of Plastic Waste Management Rules, 2016.
21. Notwithstanding anything contained in this Consent order the Committee reserves the right to review any or all conditions imposed herein above and to make such variations as deemed fit for the purpose of enforcement of Air (Prevention and Control of Pollution) Act, 1981 and Water (Prevention and Control of Pollution) Act, 1974.
22. This Consent to Operate is granted subject to the provisions of Air (Prevention and Control of Pollution) Act, 1981 as amended to date and rules and orders made thereof and under section 25/26 of the Water (Prevention and Control of Pollution) Act, 1974 as amended to date and rules and orders made thereof and based on the information provided in the consent application along with the documents submitted to this office.
23. This Consentee shall comply with the provisions of the Environment (Protection) Act, 1986 as amended to date.
24. This Consent to Operate is issued as per the decision of the Competent Authority

(By Video Conferencing)

Appeal No. 11/2021
(I.A. No. 104/2021 & I.A. No. 105/2021)

Gauri Maulekhi — Appellant

Versus

Ministry of Environment Forest and Climate Change & Anr. — Respondent(s)

BEFORE THE NATIONAL GREEN TRIBUNAL
PRINCIPAL BENCH NEW DELHI

Date of hearing: 19.05.2021

CORAM: HON'BLE MR. JUSTICE ADARSH KUMAR GOEL, CHAIRPERSON
HON'BLE MR. JUSTICE SUDHIR AGARWAL, JUDICIAL MEMBER
HON'BLE MR. JUSTICE M. SATHYANARAYANAN, JUDICIAL MEMBER
HON'BLE MR. JUSTICE BRIJESH SETHI, JUDICIAL MEMBER
HON'BLE DR. NAGIN NANDA, EXPERT MEMBER

Appellant: Mr. Raj Panjwani, Senior Advocate with Ms. Priyanka Bangari, Advocate

Delhi Poultry & Egg Marketing Committee
Diary No 142
Date 24/5/21
Ghazipur, Delhi-110096

ORDER

1. This appeal has been preferred against grant of Environmental Clearance (EC) by the MoEF&CC on 05.01.2021 for development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm. at B-1 Pocket, adjacent to NH-24, Ghazipur, New Delhi by M/s Delhi Agricultural Marketing Board (DAMB).

2. Principal objection of the appellant against the impugned EC is that the slaughtering of animals and processing of meat cannot be at the same place where marketing is done. In support of this submission, reference has been made to the reports of the sub-Committee dated 05.08.2019 and 04.11.2020 which inspected the site. The sub-Committee was constituted in pursuance of directions of the Hon'ble

ATTESTED
True Copy of the Recor

Supreme Court in *Laxmi Narain Modi v. UOI*, (2014) 2 SCC 417 (dated 23.8.2012) and (2013) 10 SCC 227 (dated 27.8.2013) to oversee slaughtering of animals consistent with the environmental norms and Prevention of Cruelty to Animals Rules 2000. The recommendations of the said Committees are as follows:-

> **Dated 05.08.2019**
>
> *"The Delhi Agricultural Marketing Board may ensure that the traders are only indulging in the trade for which they are being provided the premises i. e. sale of livestock (live poultry & fish). **Activities such as illegal slaughter must be prohibited at the premises of the market and must be carried out only in licensed slaughterhouse.**"*
>
> **04.11.2020**
>
> *"The Delhi Agricultural Marketing Board may ensure that the traders are only indulging in the trade for which they are being provided the premises i.e. sale of livestock (live poultry). Activities such as **illegal slaughter must be prohibited at the premises of the market and must be carried out only in licensed slaughter house.** Violators should be prosecuted in accordance with law."*

3. Further, the Hon'ble Supreme Court vide order dated 17.02.2017 in *Common Cause, A Regd. Society v. Union of India & Ors. W.P. (C) No. 330/2001* directed publication of compendium prepared by the Central Government about standards to be followed for disposal of animal waste and slaughtering.

4. The appellant has also referred to order of the Delhi High Court dated 24.09.2018 in W.P. (C) No. 1214/2018 Gauri Mulekhi vs. Delhi Agricultural Marketing Board, as follows:-

> *"(...) we have no other option, but to **direct that in the area in question namely the Ghazipur Murga Mandi, no slaughtering of birds would be permitted henceforth. The respondents are granted liberty to work out a system to bring into place or** establish a proper market in the area after complying with all statutory requirements, particularly the environment and pollution level and on consideration of the same, we would **consider the question of permitting operation at slaughterhouse for poultry in the area in question.** Till then, we direct that only sale of live birds can be done in the area in question." (Emphasis Supplied)*

ATTESTED
True Copy of the Record

5. It is further submitted that activity of slaughtering and sell of meat at the same place violates provisions of Prevention of Cruelty to Animals Act, 1960, Food Safety and Standard Act, 2006 and Regulations of Municipal Corporation Act, 1957. It is pointed out that the project has been considered simply as 'construction project' even though the impugned EC itself mentions that there will be slaughtering which is clear from para 4(a) as follows:-

> *"viii. About 0.28 TPD of municipal solid waste will be generated in the project. The biodegradable waste (0.14 TPD) will be processed in Organic Waste Converter (OWC) and the non-biodegradable waste (0.14 TPD) will be handed over to authorized local vendor.* ***Solid waste generated from cutting, removal of feathers, legs and*** *neck (approx. 4000 × 4 = 1, 60000kg × 35=560kg) and organic solid waste from domestic (140kg) will power* ***biogas/bio-manure plant (15 TPD) based on NISARGRUNA TECHNOLOGY (BARC TECHNOLOGY)."***

6. Last submission is that there is no environment impact assessment of the slaughtering activity, as the evaluation is only of construction activity. The suitability of the site in question, adjacent to Gazipur dump site and impact on hygiene and public health has also not been assessed. The project was required to be appraised as an integral one and not confined to construction alone. Moreover, above Court orders were required to be duly considered.

7. From the impugned order and the proceedings before the EAC, the above issues do not appear to have been addressed. EAC is under obligation to do so in view of judgement of the Hon'ble Supreme Court in Hanuman Luxman v. UOI, (2019) 15 SCC 401. Thus, without further adjudication, the grant of EC needs to be revisited. We order accordingly.

ATTESTED
True Copy of the Rec...

Till fresh consideration in the light of the above, the impugned EC may not be given effect.

8. We have not considered necessary to issue notice as we are not adjudicating upon the issue and requiring the EAC to comply with the binding law on the point. However, the respondents are given liberty to move this Tribunal, if they are aggrieved by this order.

The Appeal is disposed of.

In view of order in the main matter, all pending I.A.s also stand disposed of.

A copy of this order be forwarded by email to the MoEF&CC and the Delhi Agricultural Marketing Board.

BEFORE THE HON'BLE NATIONAL GREEN TRIBUNAL
NEW DELHI, PRINCIPAL BENCH
IN
APPEAL No. 11 of 2021 (IA No. 104 & 105 of 2021)

In the matter of:

Gauri Maulekhi ....Appellant

Versus

Ministry of Environment Forest & Climate Change & ors

....Respondent

Status Report on behalf of Ministry of Environment, Forest & Climate Change in compliance of order dated 19.05.2021

1. That the appellant has preferred this appeal against the Environmental Clearance granted by the MoEF&CC on 05.01.2021 for development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm. at B-1 Pocket, adjacent to NH-24, Ghazipur, New Delhi by M/s Delhi Agricultural Marketing Board (DAMB). The Principal objection of the appellant against the impugned EC is that the slaughtering of animals and processing of meat cannot be at the same place where marketing is done.

2. That the Hon'ble Tribunal vide its order dated 19.05.2021 directed to revisit the EC dated 05.01.2021 granted by the MoEF&CC. The relevant portion of the order dated 19.05.2021 is reproduced below:

> *" From the impugned order and the proceedings before the EAC, the above issues do not appear to have been addressed. EAC is under obligation to do so in view of judgement of the Hon'ble Supreme Court in Hanuman Laxman Vs Union of India (2019) 15 SCC 401. Thus, without further adjudication, the grant of EC needs to be revisited. We order accordingly.*
>
> *Till fresh consideration in the light of the above, the impugned EC may not be given effect."*

3. That the project proponent i.e. Modern Poultry & Egg Market had applied for Environment Clearance vide proposal No. IA/DL/MIS/183574/2020 dated 17.11.2020 for development of Modern Poltury & Egg Market with the built up area of 96,629.057 sqm. at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

4. That the proposal for grant of EC has been examined by the Expert Appraisal Committee (Infra-2) in its 57th Meeting held during 25.11.2020. **A copy of Minutes of Meeting is annexed as Annexure-1.** The PP i.e. M/s Delhi Agricultural Marketing Board (DAMB) along with his consultant Shri Environmental Technology institute made a presentation on the key parameters and silent features of the project. That

on the basis of the Information and clarification provided by the project proponent and detailed discussions held on the issues, EAC has recommended granting Environmental Clearance to the project for development of Modern Poultry & Egg Market at Ghazipur, New Delhi by M/s Delhi Agricultural Marketing Board, under the provisions of the EIA Notifications, 2006 and amendments/circulars issued thereon, and subject to the specific and standard conditions. A copy of **Environmental Clearance dated 05.01.2021 is annexed as Annexure-2.**

5. That in compliance of an order dated 19.05.2021 regarding revisiting the EC dated 05.01.2021, In view of this the answering respondent i.e. MoEF&CC has placed the proposal before the EAC (Infra-2) in its 72nd, 75th, 76th and 78th meeting held on 16.09.2021, 27-28.10.2021, 16.11.2021 and 14-15.12.2021 respectively. The deliberation made during the above mentioned meetings are as follows:

A. **72nd EAC meeting held on 16.09.2021:** During the Meeting, the EAC noted that the said project was examined by the Committee in its 57th Meeting held on 25th November, 2020 and granted EC on 05.01.2021. In the aforesaid meeting, the EAC members agreed that the project was appraised only from the view point of a construction project for a market and not a slaughter house. Further, the committee was of the opinion that the EC

granted to the project should be withdrawn and fresh application may be submitted by the PP by considering slaughtering activity as well. **A copy of Minutes of Meeting is annexed as Annexure-3.**

B. **75th EAC meeting held on 27.10.2021 and 28.10.2021:** That in continuation of the earlier meeting on 16.09.2021, the EAC (Infra-2) recommended to form a sub-committee consisting of EAC members (Dr. Dipankar Saha, Dr. H.C. Sharatchandra and Dr. V. S. Naidu) along with one representative each from Central Pollution Control Board (CPCB), Delhi Pollution Control Committee (DPCC) and the Ministry of Environment, Forest & Climate Change (MoEF&CC) to carry out site visit and re-examine the EC issued to the project by considering slaughtering activity, before arriving at a decision. **A copy of Minutes of Meeting is annexed as Annexure-4.**

C. **76th EAC meeting held on 16.11.2021:** During the meeting, it was proposed to conduct the site visit by the sub-committee on 25-26.11.2021 **(A copy of Minutes of Meeting is annexed as Annexure-5)** on the major issues raised in the appeal i.e.

i. Slaughtering of animals and processing of meat cannot be at at the same place where marketing in done.

ii. The project has not been appraised as an integral one considering the environment impact assessment of slaughtering activity.

In view of this, as decided by the EAC the sub-committee visited the project in question at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi on 25.11.2021. During the site visit the committee has made a certain observations :

i) The project site is located in the existing poultry and egg market. However, the construction site was barricaded and separated from the existing facility and maintained in good condition.

ii) The project consists of the following main components:

a. Livestock Market Block- trading of live poultry (under construction)

b. Processing Unit- Slaughtering (dressing) of poultry (under construction)

c. ETP unit- 650 KLD capacity (operational since 2013)

d. Waste to Energy plant-15 TPD capacity (operational since 2020)

iii) The committee observed that the slaughtering activity would be carried out only in the processing unit, which is housed in a separate block. Also, only traders licensed by FSSAI for the said activity

would be permitted to carry out the slaughtering. As on date, 88 shops are involved in trade of poultry and about 84 shops are licensed for slaughtering activity. The proposed project after completion will be able to accommodate about 100-120 vendors. Thus, the centralized facility will improve the environment conditions in the future.

iv) The proposed market would provide a modern state of the art facility with adequate provision for waste management in compliance to the directions of Hon'ble Delhi High Court Order dated 24.09.2018 in W.P. (C) No. 1214/2018, stated as follows:

> *"The respondents are granted liberty to work out a system to bring into place or establishing a proper market in the area after complying with all the statutory requirements, particularly the environment and pollution level, and on consideration of the same we would consider the question of permitting operation at slaughter house for poultry in the area in question"*

Discussion on the site visit findings:

i) The EAC sub-committee noted that the slaughtering/processing of poultry is proposed to be carried out in processing building, which is

well separated from the building proposed for marketing/trade of live poultry.

ii) The ETP of 625 KLD capacity and WHS plant of 15 TPD capacities were found to be operational at site and were found to be satisfactory. The committee was also of the opinion that in environmental aspects of the project have been considered by the EAC in its 57th meeting held on 25th November, 2020 and specific conditions pertaining to environment management were recommended in the EC issued on 05.01.2021.

iii) The committee also noted that the said project was appraised for EC under item 8(a) of the EIA notification, 2006 and its subsequent amendments which pertains to building and construction projects with build-up area ≥ 20,000 sqm and <1,50,000 sqm. It was noted that, there is no separate provision under EIA notification, 2006 and its amendments for slaughtering activity. As per the provisions of said notification, the project does not require an EIA report and accordingly the project was appraised on the basis of submitted Form-I, Form-IA and Conceptual Plan.

Recommendation based on the site visit:

Based on the observations made during the site visit and clarifications provided by the project proponent and consultant, the committee was of the opinion that the project is in compliance to the major issues raised in the Hon'ble NGT order dated 19.05.2021 in appeal no. 11/2021. The committee was also of the opinion that the proposed modern poultry and egg market is an integrated facility which would greatly improve the existing market in terms of environment management as well as hygiene and aesthetic condition of the area. As such, committee recommended that the EC granted to the project vide letter no. 21-91/2020-IA-II dated 05.01.2021 has taken into consideration the environmental aspects of animal waste management. **A copy of the site visit is annexed as Annexure- 6.**

D. 78th EAC meeting held on 14-15.12.2021: During the meeting EAC (Infra-2) discussed the report of the site visit conducted by the duly constituted EAC sub-committee during 25-26th November, 2021 to the project location of the Modern Poultry & Egg Market at Ghazipur, Delhi. After detailed discussions held on all issues, the committee expressed concurrence with the findings in the site visit report and recommended it for submission to the Ministry. **A copy of Minutes of Meeting is annexed as Annexure-7.**

6. It is pertinent to mention that in compliance of order passed by the Hon'ble Tribunal and observations made by the sub committee, it is humbly submitted that the project in question was appraised for EC under item 8(a) of the EIA notification, 2006 and its subsequent amendments which pertains to building and construction projects with build-up area ≥ 20,000 sqm and <1,50,000 sqm., as there is no separate provision under EIA notification, 2006 and its amendments for slaughtering activity. Hence, as per the provisions of said notification, the project does not require an EIA report and accordingly the project was appraised on the basis of submitted Form-I, Form-IA and Conceptual Plan.

Further, as per the sub committee report, it is also submitted that the proposed modern poultry and egg market is an integrated facility, which would greatly improve the existing market in terms of environmental management as well as hygiene and aesthetic condition of the proposed location.

In addition, it is submitted that the environmental aspects of animal waste management was also considered by the committee while granting EC to the PP on 05.01.2021.

Agenda Item No. 57.3.5

Development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)- Environmental Clearance

(F. No. 21-91/2020-IA-III; IA/DL/MIS/183574/2020)

1) The PP (M/s. Delhi Agricultural Marketing Board (DAMB) along with his consultant Shri Environmental Technology Institute made a presentation before EAC (Infra-2) on the key parameters and salient features of the project. The Committee took note of the following key parameters and salient features of the project presented during the meeting and as provided in the brief and application for this project:

(i) The proposed project is located at East Delhi, District Centre under the jurisdiction of Delhi Development Authority (DDA).

(ii) The project is New. However, in the past, Ministry has granted Environmental Clearance vide letter No.21-1229/2007-IA.III dated 28.07.2008 based on the appraisal done by the then EAC in its meeting held on 28th July, 2008.

(iii)The total plot area is 60,200sqm. The FSI/FAR area is 49762 sqm and total construction (Built-up) area is 96629.057sqm. The project will comprise of two (02) Buildings of 'G+1' and 'G+2 floors'. Maximum height of the building is 13.5m. The details of buildings are as follows:

Floor Area (FAR)	**As per EC Granted/ 28.07.2008(Concept) (in sqm)**	**As per DDA sanction (2019) & proposed (in sqm)**
Ground Floor	17933.212	17892.022
First Floor	17098.002	17892.022
Second Floor	11525.002	11110.749
Total	46556.216	46866.793
(Non-FAR)		
Basement (02 Nos.)	24871.078x2= 49742.156 \156	24881.138x2= 49762.264 *(proposed* 49762.264x1, with Multilevel Car parking (MLCP)
Built-up Area	**96298.372**	**96629.057**
Green Area (35% of total plot area)	**21070**	**21070**

(iv)As on 31.12.2019; Built up area of approx. 5000 sqm has been constructed as per EC granted No.21-1229/2007-IA.III dated 28.07.2008. There are 70 (seventy) shops running in sheds and proposed shops are 100. About 70 % of the plot area is occupied by shops under shed and construction is on in 30 % of the plot area.

(v) During construction phase, total water requirement is expected to be 10KLD. During the construction phase, Soak pits and septic tanks will be

provided for disposal of wastewater. Temporary sanitary toilets will be provided during peak labor force.

(vi) During operational phase, total water requirement of the project is expected to be 676KLD and the same will be met by 214KLD of fresh water from Delhi Jal Board (DJB) and 462 KLD of Recycled Water.

(vii) Wastewater generated (513 KLD) will be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) will be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water will be disposed in to municipal drain (Zero discharge).

(viii) About 0.28 TPD of municipal solid waste will be generated in the project. The biodegradable waste (0.14 TPD) will be processed in Organic Waste Converter (OWC) and the non- biodegradable waste (0.14TPD) will be handed over to authorized local vendor. Solid waste generated from cutting, removal of feathers, legs and neck (approx. 40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) will power biogas /bio-manure plant (15TPD) based on NISARGRUNA TECHNOLOGY (BARC TECHNOLOGY).

(ix) The ETP cum STP are already in place with the due approval of Delhi Pollution Control Committee (DPCC). Biogas plant has also been made operational now.

(x) The total power requirement during construction phase is 2925 KVA and will be met from BSES.

(xi) Roof top rainwater of buildings will be collected in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration.

(xii) The Green Belt for the proposed project has been planned in an area of 21070 SQM (50% of open area) to provide a clean, healthy and beautiful green environment.

(xiii) Parking facility for 1445 four wheelers and two wheelers is proposed to be provided against the requirement of 1445 (according to local norms).

(xiv) Proposed energy saving measures would save about 5 % of power.

(xv) The project is not located in Critically Polluted area.

(xvi) It is not located within 10km of Eco Sensitive Zone.

(xvii) No Forest Clearance is required

(xviii) No Court case pending against the project.

(xix) Investment/Cost of the project is Rs. **150** Crore.

2) The EAC (Infra-2) also noted that the project/activity is covered under category 'B' of item 8(a) 'Building and Construction projects' of the Schedule to the EIA Notification, 2006 and its subsequent amendments, and requires appraisal at State level. However, due to non-existence of SEIAA in Delhi, the proposal is appraised at Central level by sectoral EAC.

3) *The EAC (Infra-2), based on the information submitted and clarifications provided by the Project Proponent and detailed discussions held on all the issues, recommended granting environmental clearance to the project subject to the following specific conditions and other Standard EC Conditions as specified by the Ministry vide OM dated 4th January, 2019 for the said project/activity*

(see Annexure-7 of the minutes), while considering for accord of environmental clearance.

(i) The Project proponent should ensure that the facility fulfils all the provisions of Solid Waste Management Rules, 2016, Hazardous and other Wastes (Management and Transboundary Movement) Rules, 2016. Adequate and separate area shall be provided for waste management and handling within the premises. Adequate measures shall also be taken to prevent odour problem from waste processing plant and ETP cum STP.

(ii) As reported, about seventy shops are running in sheds on the project site. Suitable drainage and waste management measures (with frequent spray of permitted insecticides etc.) shall be adopted in both the construction and operational phase so as to prevent stagnation of water or accumulation of waste that will ultimately restrict the reproduction and growth of disease vectors. All required safety, sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.

(iii) The biodegradable waste (0.14 TPD) shall be processed in onsite OWC and the non- biodegradable waste (0.14TPD) shall be handed over to authorized local vendor.

(iv) As proposed, Solid waste generated from cutting, removal of feathers, legs and neck (approx. 40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) shall be used to get power from the proposed biogas /bio-manure plant (15TPD).

(v) Total water requirement of the project shall not exceed 676KLD including 214KLD of fresh water from Delhi Jal Board (DJB).

(vi) No abstraction of Ground water during the construction as well as the operation phase.

(vii) As proposed, Wastewater generated (513 KLD) shall be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) shall be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water shall be disposed in to municipal drain (Zero discharge).

(viii) The project proponents would commission a third party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.

(ix) Roof top rainwater of buildings shall be collected as per the in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration as per CGWB guidelines.

(x) As proposed, Parking facility for 1445 four wheelers shall be provided. Parking during the operation phase should be fully internalized and no public space should be utilized. Traffic congestion near the entry and exit

points from the roads adjoining the proposed project site must be avoided. Loading and unloading of goods shall be from the designated places in the proposed market. Parking shall be kept clean and free from all types of wastes.

(xi) In order to mitigate the emission load from traffic and to promote cleaner fuel options, Electric Car Charging Points shall be provided at the Parking and provision of vehicles based on green fuel shall be facilitated.

(xii) No tree felling/transplantation has been proposed in the instant project. As proposed, As proposed, area of 21,070 sqm (50% of open area) is to be developed as green area to provide a clean, healthy and beautiful green environment. A minimum of one tree for every 80 sqm of land should be planted and maintained. The landscape planning should include plantation of native species. Water intensive and/or invasive species should not be used for landscaping.

(xiii) The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes as applicable to the project.

****

Agenda Item No. 57.3.6

Construction of Affordable Housing Project at 48 Nos. of Plot, Khata No. 55, Ward No. 17, Birsanagar, Jamshedpur under Pradhan Mantri Awas Yojana by M/s Jharkhand Urban Infrastructure Development Company Limited – Reconsideration for Environmental Clearance

(IA/JH/MIS/136341/2020; F. No. 21-6/2020-IA-III)

1) It was informed that EAC (Infra-2) after detailed deliberation on the proposal in the last meeting (56th meeting held in 21-23 October, 2020) asked the project proponent to submit following additional information:

(i) Land use of site, confirming that site shall not fall in flood plain and in this regard, certificate to be obtained from Irrigation Department.

(ii) Details of Source of water supply, its availability and consent from the concerned authority.

(iii) Explore the possibility of using treated water and accordingly, submit revised water balance and its management.

2) The EAC (Infra-2) asked the PP (M/s Jharkhand Urban Infrastructure Development Company Limited) to explain to the committee on the issues raised during the above-mentioned meeting. The PP along with his accredited consultant M/s Visiontek Consultancy Services Pvt. Ltd. made a presentation and provided the following additional information:

(i) Subarnarekha River is at an aerial distance of 1.2 kms N from the project boundary site. NOC from Subarenrekha Multipurpose Project, Water Resource Department, Govt. of Jharkhand has been granted vide letter no. SMP/CE/1220 for construction of Project at the Proposed site.

To,

Head of Department (HOD),
M/s. Delhi Agriculture Marketing Board
9, Institutional Area, Pankha Road, Janakpuri
New Delhi 110058, Delhi

Subject: Environmental Clearance for development of Modern Poltry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)-reg.

Sir,

This has reference to your proposal No. IA/DL/MIS/183574/2020; received on 17th November, 2020 through Parivesh Portal for grant of Environmental Clearance (EC) for development of Modern Poltry & Egg Market with built up area of 96,629.057sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

2. As per the provisions of the Environment Impact Assessment (EIA) Notification, 2006; as amended and notified under the Environment (Protection) Act, 1986 (29 of 1986), the above-mentioned project/activity is covered under category 'B' of item 8(a) 'Building and Construction Projects' of the Schedule to the EIA Notification, 2006 and its subsequent amendments, and requires appraisal at State level. However, due to absence of SEIAA/SEAC in Delhi, the proposal required appraisal at Central level by sectoral EAC.

3. Accordingly, the abovementioned proposal for grant of EC has been examined by the Expert Appraisal Committee (Infra-2) its 57th meeting held on 25th November, 2020.

4. The details of the project, as per the Application and documents submitted by the project proponent, and also as informed during the above-mentioned meetings of EAC (Infra-2) are as under: -

i. The proposed project is located at East Delhi, District Centre under the jurisdiction of Delhi Development Authority (DDA).

ii. The project is New. However, in the past, Ministry has granted Environmental Clearance vide letter No.21-1229/2007-IA.III dated 28.07.2008 based on the appraisal done by the then EAC in its meeting held on 28th July, 2008.

iii. The total plot area is 60,200sqm. The FSI/FAR area is 49,762 sqm and total construction (Built-up) area is 96,629.057sqm. The project will comprise of two (02) Buildings of 'G+1' and 'G+2 floors'. Maximum height of the building is 13.5m. The details of buildings are as follows:

Floor Area (FAR)	**As per EC Granted/ 28.07.2008(Concept) (in sqm)**	**As per DDA sanction (2019) & proposed (in sqm)**
Ground Floor	17933.212	17892.022
First Floor	17098.002	17892.022
Second Floor	11525.002	11110.749
Total	46556.216	46866.793
(Non-FAR)		
Basement (02 Nos.)	24871.078x2= 49742.156 \156	24881.138x2= 49762.264 *(proposed* 49762.264x1, with Multilevel Car parking (MLCP)
Built-up Area	**96298.372**	**96629.057**
Green Area (35% of total plot area)	**21070**	**21070**

iv. As on 31.12.2019; Built up area of approx. 5000 sqm has been constructed as per EC granted No.21-1229/2007-IA.III dated 28.07.2008. There are 70 (seventy) shops running in sheds and proposed shops are 100. About 70 % of the plot area is occupied by shops under shed and construction is on in 30 % of the plot area.

v. During construction phase, total water requirement is expected to be 10KLD. During the construction phase, Soak pits and septic tanks will be provided for disposal of wastewater. Temporary sanitary toilets will be provided during peak labor force.

vi. During operational phase, total water requirement of the project is expected to be 676KLD and the same will be met by 214KLD of fresh water from Delhi Jal Board (DJB) and 462 KLD of Recycled Water.

vii. Wastewater generated (513 KLD) will be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) will be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water will be disposed in to municipal drain (Zero discharge).

viii. About 0.28 TPD of municipal solid waste will be generated in the project. The biodegradable waste (0.14 TPD) will be processed in Organic Waste Converter (OWC) and the non- biodegradable waste (0.14TPD) will be handed over to authorized local vendor. Solid waste generated from cutting, removal of feathers, legs and neck (approx.

40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) will power biogas /bio-manure plant (15TPD) based on NISARGRUNA TECHNOLOGY (BARC TECHNOLOGY).

ix. The ETP cum STP are already in place with the due approval of Delhi Pollution Control Committee (DPCC). Biogas plant has also been made operational now.

x. The total power requirement during construction phase is 2925 KVA and will be met from BSES.

xi. Roof top rainwater of buildings will be collected in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration.

xii. The Green Belt for the proposed project has been planned in an area of 21070 SQM (50% of open area) to provide a clean, healthy and beautiful green environment.

xiii. Parking facility for 1445 four wheelers and two wheelers is proposed to be provided against the requirement of 1445 (according to local norms).

xiv. Proposed energy saving measures would save about 5 % of power.

xv. The project is not located in Critically Polluted area.

xvi. It is not located within10km of Eco Sensitive Zone. NBWL clearance is not required.

xvii. No Forest Clearance is required

xviii. No Court case pending against the project.

xix. Investment/Cost of the project is Rs. 150 Crore.

5. The EAC, based on information and clarifications provided by the project proponent and detailed discussions held on the issues, has recommended granting environmental clearance to the project. The aforesaid recommendation of EAC (Infra-2) is subject to certain specific conditions, as stipulated during its 57th meeting held on 25th November, 2020 and the standard EC Conditions as specified by the Ministry vide OM dated 04.01.2019 for the said project/activity.

6. Based on recommendations of EAC (Inra-2), the Ministry of Environment, Forest and Climate Change hereby accords Environmental Clearance to the project for development of Modern Poltry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board, under the provisions of the EIA Notification, 2006 and amendments/circulars issued thereon, and subject to the following specific and standard conditions:

A. Specific Conditions:

i. The Project proponent should ensure that the facility fulfils all the provisions of Solid Waste Management Rules, 2016, Hazardous and other Wastes (Management and Transboundary Movement) Rules, 2016. Adequate and separate area shall be provided for waste management and handling within the premises. Adequate measures shall also be taken to prevent odour problem from waste processing plant and ETP cum STP.

ii. As reported, about seventy shops are running in sheds on the project site. Suitable drainage and waste management measures (with frequent spray of permitted insecticides etc.) shall be adopted in both the construction and operational phase so as to prevent stagnation of water or accumulation of waste that will ultimately restrict the reproduction and growth of disease vectors. All required safety, sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.

iii. The biodegradable waste (0.14 TPD) shall be processed in onsite OWC and the non- biodegradable waste (0.14TPD) shall be handed over to authorized local vendor.

iv. As proposed, Solid waste generated from cutting, removal of feathers, legs and neck (approx. 40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) shall be used to get power from the proposed biogas /bio-manure plant (15TPD).

v. Total water requirement of the project shall not exceed 676KLD including 214KLD of fresh water from Delhi Jal Board (DJB).

vi. No abstraction of Ground water during the construction as well as the operation phase.

vii. As proposed, Wastewater generated (513 KLD) shall be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) shall be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water shall be disposed in to municipal drain (Zero discharge).

viii. The project proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.

ix. Roof top rainwater of buildings shall be collected as per the in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration as per CGWB guidelines.

x. As proposed, Parking facility for 1445 four wheelers shall be provided. Parking during the operation phase should be fully internalized and no public space should be utilized. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Loading and unloading of goods shall be from the designated places in the proposed market. Parking shall be kept clean and free from all types of wastes.

xi. In order to mitigate the emission load from traffic and to promote cleaner fuel options, Electric Car Charging Points shall be provided at

the Parking and provision of vehicles based on green fuel shall be facilitated.

xii. No tree felling/transplantation has been proposed in the instant project. As proposed, As proposed, area of 21,070 sqm (50% of open area) is to be developed as green area to provide a clean, healthy and beautiful green environment. A minimum of one tree for every 80 sqm of land should be planted and maintained. The landscape planning should include plantation of native species. Water intensive and/or invasive species should not be used for landscaping.

xiii. The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes as applicable to the project.

B. Standard Conditions:

I. Statutory compliance:

i. The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.

ii. The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightening etc.

iii. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.

iv. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.

v. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.

vi. The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.

vii. A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.

viii. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.

ix. The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016, shall be followed.

x. The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.

II. **Air quality monitoring and preservation:**

i. Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.

ii. A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.

iii. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM_{10} and $PM_{2.5}$) covering upwind and downwind directions during the construction period.

iv. Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.

v. Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.

vi. Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.

vii. Wet jet shall be provided for grinding and stone cutting.

viii. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.

ix. All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.

x. The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.

xi. The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.

xii. For indoor air quality the ventilation provisions as per National Building Code of India.

III. **Water quality monitoring and preservation:**

i. The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.

ii. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.

iii. Total fresh water use shall not exceed the proposed requirement as provided in the project details.

iv. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.

v. A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.

vi. At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.

vii. Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.

viii. Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.

ix. Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.

x. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.

xi. The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pits/storage tanks shall be provided for ground water recharging as per the CGWB norms.

xii. A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse.

The ground water shall not be withdrawn without approval from the Competent Authority.

xiii. All recharge should be limited to shallow aquifer.

xiv. No ground water shall be used during construction phase of the project.

xv. Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.

xvi. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.

xvii. Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.

xviii. No sewage or untreated effluent water would be discharged through storm water drains.

xix. Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.

xx. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.

xxi. Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

IV. Noise monitoring and prevention:

i. Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.

ii. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.

iii. Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

V. **Energy Conservation measures:**

i. Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.

ii. Outdoor and common area lighting shall be LED.

iii. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.

iv. Energy conservation measures like installation of LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.

v. Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.

vi. Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.

VI. **Waste Management:**

i. A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.

ii. Disposal of muck during construction phase shall not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.

iii. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.

iv. Organic waste compost/ Vermiculture pit/ Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.

v. All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.

vi. Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.

vii. Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.

viii. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.

ix. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.

x. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VII. Green Cover:

i. No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).

ii. Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.

iii. Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VIII. Transport

i. A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
   a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
   b. Traffic calming measures.
   c. Proper design of entry and exit points.
   d. Parking norms as per local regulation.

ii. Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.

iii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

IX. Human health issues:

i. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.

ii. For indoor air quality the ventilation provisions as per National Building Code of India.

iii. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.

iv. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

v. Occupational health surveillance of the workers shall be done on a regular basis.

vi. A First Aid Room shall be provided in the project both during construction and operations of the project.

X. Miscellaneous:

i. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.

ii. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.

iii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of

monitored data on their website and update the same on half-yearly basis.

iv. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.

v. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.

vi. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.

vii. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report

viii. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.

ix. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.

x. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.

xi. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.

xii. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).

xiii. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

xiv. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.

xv. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.

xvi. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.

xvii. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

xiv. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

7. The Environmental Clearance is being granted to M/s. Delhi Agricultural Marketing Board (DAMB) for development of Modern Poltry & Egg Market with built up area of 96,629.057sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

8. This issues with the approval of the Competent Authority.

MINUTES OF ADDITIONAL AGENDA CONSIDERED DURING 72nd MEETING OF EXPERT APPRAISAL COMMITTEE (INFRASTRUCTURE-2) HELD ON 16th SEPTEMBER, 2021

VENUE: Through Video Conferencing

DATE: 16th September, 2021

AGENDA ITEM NO. 72.4

With due permission of the Chairman, the committee discussed on the order passed by Hon'ble NGT in Appeal No. 11/2021, staying the EC dated 05.01.2021 granted by MoEF&CC for 'Development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)'. The order has been passed without any issue of notice, with direction to revisit the impunged EC.

2. The EAC noted that the said project was examined by the Committee its 57th meeting held on 25th November, 2020 and was granted Environmental Clearance dated 05th January, 2021.

3. After detailed discussion, the members agreed that the project was appraised only from the view point of a construction project for a market and not a slaughter house. Further, the committee was of the opinion that the EC granted to the project should be withdrawn and fresh application may be submitted by the PP by considering slaughtering activity as well.

4. The EAC also expressed concern on the non-disclosure of significant facts by the project proponents and consultants during appraisal process which leads to such issues and proposed to blacklist / debar consultants for withholding and not highlighting such vital information in the future.

MINUTES OF ADDITIONAL AGENDA CONSIDERED DURING 75th MEETING OF EXPERT APPRAISAL COMMITTEE (INFRASTRUCTURE-2) HELD DURING27th -28thOCTOBER, 2021

VENUE: Through Video Conferencing

DATE: 28thOctober, 2021

75.5 Any other Item with the Permission of Chair: The EAC discussedthe additionalagenda items for the 75thmeeting. The details of deliberations held and decisions taken in the meeting are as follows:

ADDITIONAL AGENDA ITEM NO. 75.5.1

Re-examination of Environmental Clearance (issued vide letter No.10-84/2018-IA.III dated 07.02.2020) for Installation of Common Hazardous Waste Incinerator of capacity 10 MT/day at Plot No. D-26, UPSIDC, Sikandrabad Industrial Area, District Bulandshahr, Uttar Pradesh by M/s Sheetala Waste Management

In continuation to the discussions held earlier on 08th October, 2021, with due permission of the Chairman, the Member Secretary informed the Committee that the documents related to the project are under detailed examination in the Secretariat at the Ministry. Accordingly, the EAC decided to reconsider the matter during its forthcoming meeting.

****

ADDITIONAL AGENDA ITEM NO. 75.5.2

Re-examination of Environmental Clearance (issued vide letter No. 21-91/2020-IA.III dated 05.01.2021) for 'Development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)'

1.In continuation to the discussions held earlier on 16thSeptember, 2021, with due permission of the Chairman, the Committee discussed further on the order passed by Hon'ble NGT in Appeal No. 11/2021, staying the Environmental Clearance(EC) dated 05.01.2021 granted by MoEF&CC for 'Development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)'.

2.After detailed discussion, the EAC (Infra 2) recommended to form a sub-committee consisting of EAC members **(Dr. Dipankar Saha, Dr. H.C. Sharatchandra and Dr. V. S. Naidu)** along with one representative each from Central Pollution Control Board (CPCB), Delhi Pollution Control Committee (DPCC) and the Ministry of Environment, Forest & Climate Change (MoEF&CC).

3. The aforesaid EAC sub-committee shall visit the project site and re-examine the EC issued to the project, while taking slaughtering activity also into consideration, before arriving at a decision.

****

ADDITIONAL AGENDA ITEM NO. 75.5.3

DISCUSSION ONREQUIREMENT OF ENVIRONMENTAL CLEARANCE IN RESPECT OF INTEGRATED WASTE PROCESSING PLANT WITH BIO-CNG, ENERGY AND CONSTRUCTION MATERIAL (2000 TPD) AT GHONDA GUJRAN IN DELHI

1. With due permission of the Chairman, the EAC (Infra 2) was informed that the Ministry is in receipt of a request from Delhi Pollution Control Committee (DPCC) seeking clarification on requirement of Environmental Clearance for proposed 'Integrated Waste Processing Plant with Bio-CNG, Energy and Construction Material (2000 TPD)' at Ghonda Gujran in Delhi by M/s NTPC-EDMC Waste Solutions Pvt. Ltd. (a Joint Venture company of NTPC and East Delhi Municipal Corporation).Accordingly, the matter was placed for discussion with the EAC (Infra 2), IA (Policy) and DPCC. List of Participants is annexed.

2. The project proponent (M/s NTPC-EDMC Waste Solutions Pvt. Ltd.) presented the following information:

i. Project Proponent (PP), has proposed to develop an Integrated Waste Management and Energy Generation Facility at Ghonda Gujran in Delhi.
ii. The Integrated Waste to Energy Project (IWTEP) shall consist of the following components:
    a. Pre-processing facility for processing of raw Municipal Solid Waste (MSW) into Refuse Derived Fuel (RDF) for combustion in boiler and generation of power.
    b. Waste to Energy power plant of 12 MW capacity.
    c. Bio-methanation of organic waste for production of Bio-CNG and Manure.
iii. Earlier, processing of Construction and Demolition (C&D) Waste was also proposed in the facility. However, the proposal has been revised and the C&D Waste processing unit has been removed from the project proposal.
iv. The project site does not include existing landfill site and the proposed project does not have component of solid waste landfill site. However, temporary storage facility in the form of waste pit storage under vacuum has been envisaged for storage of 10,000 MT of MSW in case of forced majeure/breakdown of equipment/plant for 5 days.
v. Considering the clarification provided in letter issued by Secretary, MOEF&CC to Secretary, Ministry of Urban Development (DO letter no DO.22-19/2017-IA-III) dated 3rd July 2017, MoEF&CC was not approached for clearances and an application for Consent to

MINUTES OF ADDITIONAL AGENDA CONSIDERED DURING 76th MEETING OF EXPERT APPRAISAL COMMITTEE (INFRASTRUCTURE-2) HELD ON 16TH NOVEMBER, 2021

VENUE: Through Video Conferencing

DATE: 16th November, 2021

76.4 Any other Item with the Permission of Chair: The EAC discussed the additional agenda items for the 76th meeting. The details of deliberations held and decisions taken in the meeting are as follows:

ADDITIONAL AGENDA ITEM NO. 76.4.1

Re-examination of Environmental Clearance (issued vide letter No.10-84/2018-IA.III dated 07.02.2020) for Installation of Common Hazardous Waste Incinerator of capacity 10 MT/day at Plot No. D-26, UPSIDC, Sikandrabad Industrial Area, District Bulandshahr, Uttar Pradesh by M/s Sheetala Waste Management

1. In continuation to the discussions held earlier on 08.10.2021 and 28.10.2021, with due permission of the Chairman, the details related to the project were shared with the Committee.

2. Environmental Clearance for 'Installation of Common Hazardous Waste Incinerator of capacity 10 MT/day at Plot No. D-26, UPSIDC, Sikandrabad Industrial Area, District Bulandshahr, Uttar Pradesh by M/s Sheetala Waste Management' was granted by the Ministry vide letter No.10-84/2018-IA.III dated 07.02.2020. The timeline of the project is given as follows:

S. No.	Activity Description	Timeline	Remarks
1	Application submitted for ToR	13.11.2018	Form I submitted does not mention E-waste dismantling & segregation facility or facility for recycling/reconditioning of discarded containers. However, PFR includes proposal for 10MT/Day capacity each for incineration as well as dismantling, segregation & recycling of E-waste and discarded containers.
2	Appraisal for ToR	28.11.2018	36th meeting of EAC Infra 2.
3	ToR Granted	18.12.2018	ToR issued mentions only 10MT/Day capacity for incineration. Public hearing was exempted since project site is located in notified

			industrial area.
4	Application submitted for EC	18.11.2019	EIA Report Submitted mentioning 10MT/Day capacity each for incineration as well as dismantling, segregation & recycling of E-waste and discarded containers.
5	Appraisal for EC	26.12.2019	47th meeting of EAC Infra 2.
6	EC Granted	07.02.2020	EC granted for 10MT/Day capacity each for incineration as well as dismantling, segregation & recycling of E-waste and discarded containers.
7	Complaint received	28.02.2020	Complaint received in the Ministry from Shri Mahender Raheja against the EC granted to M/s Sheetala Waste Management on 07.02.2020. The matter primary involves concealing the facts from MoEF&CC in the process of appraisal with regard to land area required for the three activities and based on which EC was granted.
8	NGT Order	25.08.2020	Appeal against grant of EC to M/s Sheetala Waste Management on the grounds that there are mis-declarations in the application for EC and that the plot area is too small to meet the statutory requirements. The Hon'ble NGT declined the application stating that no case is made out for quashing the EC or CTE and instructed UPPCB to conduct a site visit and take remedial action if there is any deficiency, within 2 months.
9	PP's Letter to MoEF&CC for Change in site activities	12.10.2020	Letter dated 10.10.2020 was submitted vide email dated 12.10.2020 addressed to section (mefcc.ia3@gmail.com), wherein the PP proposed a separate storage facility for the project components viz. Discarded drums & containers (non – hazardous) and E-Waste (both activities not covered under the purview of EIA Notification, 2006 and its subsequent amendments). However, it may be noted that only storage is proposed in the additional land whereas activity is proposed in existing land itself (as per the aforesaid

7. Considering that there is no change in the project parameters concerned to the incineration facility covered in item 7(d) of EIA Notification, 2006 and its subsequent amendments under which the project has been issued EC, and also considering the NGT order dated 25.08.2020, the EAC (Infra 2) was of the opinion that the EC granted to the project need not be revoked, and recommended that the project proponent may be asked to seek amendment in EC for the proposed change in configuration.

****

ADDITIONAL AGENDA ITEM NO. 76.4.2

Re-examination of Environmental Clearance (issued vide letter No. 21-91/2020-IA.III dated 05.01.2021) for 'Development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)'

In continuation to the discussions held earlier on 16.09.2021 and 28.10.2021, with due permission of the Chairman, site visit by the EAC sub-committee was proposed to be held during 25-26th November, 2021.

****

ADDITIONAL AGENDA ITEM NO. 76.4.3

Proposed Integrated Municipal Solid Waste Management Facility (IMSWM) at Jhuriwala Village, Panchkula, Haryana, India by Municipal Corporation Panchkula

In continuation to the discussions held earlier on 27.10.2021, with due permission of the Chairman, site visit by the EAC sub-committee was proposed to be held during 2-3rd December, 2021.

****

List of Participants:

2.	Dr. H. C. Sharatchandra	Member – EAC (Infra 2)	P	-
3.	Shri V. Suresh	Member – EAC (Infra 2)	P	-
4.	Dr. V. S. Naidu	Member – EAC (Infra 2)	P	-
5.	Shri B. C. Nigam	Member – EAC (Infra 2)	P	-

7	Admin building (including laboratory & common facilities)	167.0	8.99
8	Guard room	6.0	0.32
9	Green belt	612.81	33
10	Open, Paved & Parking Area	507.19	27.31
	Total	1857.0	100

5. Revised details presented by PP during 74th meeting of EAC (Infra-2) held on 08.10.2021 for re-examination of EC, are given as under:

a) Project Components:

S. No.	Particulars	As per EIA Report	As presented to EAC (Infra-2) on 08.10.2021
1	Analytical Laboratory	Yes	Yes
2	Incinerator	Yes (10 MT/Day)	Yes (10 MT/Day)
3	E-Waste Dismantling & Segregation	Yes	No
4	Recycling/Reconditioning of discarded containers	Yes	No
5	Storage Shed	Yes	Yes
6	ETP	Yes (7 KLD)	Yes (7 KLD)

b) Revised Land Area Distribution at Site:

S No	Particular	Size	Area (sqm.)	% of Total Area
1	Incinerator Plant	100 ft x 35 ft	325	17.5
2	Storage Shed 1	33 ft x 33 ft	101	5.4
3	Storage Shed 2	51 ft x 26 ft	124	6.7
4	Storage Shed 3	51 ft x 26 ft	124	6.7
5	Storage Shed 4/laboratory	70 ft x 20 ft	130	7.0
7	Admin block	30 ft x 30 ft	83	4.5
9	Green belt & Plantation	-	610	32.8
10	Open space including ETP, Vehicle Washing Area, Guard room, Weigh Bridge & Parking Area	-	360	19.4
	Total	-	1857.0	100

6. The EAC noted that the PP has made revisions to the project configuration (w.r.t the details submitted for EC) in terms of land area distribution as well as activities to be carried out within the project. However, the PP has not applied for amendment in EC in this regard. The EAC also noted that the activities which have been dropped from the proposal (i.e. E-Waste dismantling & segregation and recycling of discarded containers) are not under the purview of EIA Notification, 2006 and its subsequent amendments. Also, there is no change in the proposed capacity of incineration unit as well as ETP.

Site Visit Report of EAC Sub-Committee for Re-Examination of Environmental Clearance issued vide letter no. 21-91/2020-IA-III dated 05.01.2021) for 'Development of Modern Poultry & Egg Market with built up area of 96,629.057 sqm. at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)'

Date: 25-26th November, 2021

IA/DL/MIS/183574/2020; F. No. 21-91/2020-IA-III

1. Background

The proposed project is for the development of a modern integrated facility for poultry & egg market with total built up area of 96,629.057 sq.m. in the existing market area at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB).

In the past, Ministry has granted Environmental Clearance (EC) vide letter No. 21-1229/2007-IA.III dated 28.07.2008 based on the appraisal done by the then EAC in its meeting held on 28th July, 2008. Since the EC dated 28.07.2008 had expired before completion of the construction, the project proponent applied for fresh EC for the project vide application no. IA/DL/MIS/183574/2020, which was appraised by the EAC (Infra 2) in its 57th meeting held on 25th November, 2020. The proposal was recommended by the EAC (Infra 2) and was granted Environmental Clearance vide letter no. 21-91/2020-IA-III dated 05.01.2021.

2. Issues for consideration

Hon'ble NGT in its order dated 19.05.2021, directed that the grant of aforesaid EC needs to be revisited and that the impunged EC may not be given effect till fresh consideration in the light of issues raised in the appeal no. 11/2021. The major issues raised in the aforesaid appeal are as follows:

i. *Slaughtering of animals and processing of meat cannot be at the same place where marketing is done.*
ii. *The project has not been appraised as an integral one considering the environment impact assessment of slaughtering activity.*

3. Findings of the Sub-Committee

The EAC (Infra 2) constituted a sub-committee comprising of EAC members (Dr. Dipankar Saha, Dr. H.C. Sharatchandra and Dr. V. S. Naidu) along with one representative each from Central Pollution Control Board (CPCB), Delhi Pollution Control Committee (DPCC) and the Member Secretory, representative from Ministry of Environment, Forest & Climate Change (MoEF&CC), in order to re-examine the impunged EC.

Accordingly, the EAC sub-committee visited the site of the project at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi on 25.11.2021. The list of participants is enclosed as Annexure 1. The findings of the sub-committee are listed as under:

HCSharatchandra (D. Saha)

i. The project site is located in the existing poultry and egg market. However, the construction site was barricaded and separated from the existing facility and maintained in good condition.

ii. The project consists of the following main components:
   a. Livestock Market Block – trading of live poultry (under construction)
   b. Processing Unit – slaughtering (dressing) of poultry (under construction)
   c. ETP unit - 650 KLD capacity (operational since 2013)
   d. Waste to Energy plant – 15 TPD capacity (operational since 2020)

iii. The committee observed that the slaughtering activity would be carried out only in the processing unit, which is housed in a separate block. Also, only traders licensed by FSSAI for the said activity would be permitted to carry out the slaughtering. As on date, 88 shops are involved in the trade of poultry and about 84 shops are licensed for slaughtering activity. The proposed project after completion will be able to accommodate about 100-120 vendors. Thus, the centralised facility will improve the environment conditions in the future. The layout plan of the proposed facility is enclosed as Annexure 2.

iv. The proposed market would provide a modern state of the art facility with adequate provision for waste management in compliance to the directions of Hon'ble Delhi High Court Order dated 24.09.2018 in W.P. (C) No. 1214/2018, stated as follows:

"The respondents are granted liberty to work out a system to bring into place or establishment a proper market in the area after complying with all the statutory requirements, particularly the environment and pollution level, and on consideration of the same, we would consider the question of permitting operation at slaughter house for poultry in the area in question."

4. Discussion

The EAC sub-committee noted that the slaughtering/processing of poultry is proposed to be carried out in a separate building, which is well separated from the building proposed for marketing / trade of live poultry.

The ETP of 625 KLD capacity and WTE plant of 15 TPD capacity were found to be operational at site and were found to be satisfactory. The committee was also of the opinion that the environmental aspects of the project have been considered by the EAC in its 57th meeting held on 25th November, 2020, and specific conditions pertaining to environment management were recommended in the EC issued on 05.01.2021.

The Committee also noted that the said project was appraised for Environmental Clearance under item 8(a) of the EIA Notification, 2006 and its subsequent amendments which pertains to building and construction

projects with built-up area ≥20,000 sqm. and <1,50,000 sqm. It was noted that, there is no separate provision under EIA Notification, 2006 and its subsequent amendments for slaughtering activity. As per the provisions of the said notification, the project does not require an EIA report and accordingly the project was appraised on the basis of submitted Form-I, Form IA and Conceptual Plan.

5. **Recommendation**

Based on the observations made during the site visit and clarifications provided by the project proponent and consultant, the committee was of the opinion that the project is in compliance to the major issues raised in the Hon'ble NGT order dated 19.05.2021 in appeal no. 11/2021. The committee was also of the opinion that the proposed modern poultry and egg market is an integrated facility which would greatly improve the existing market in terms of environment management as well as hygiene and aesthetic condition of the area. As such, the committee recommended that the EC granted to the project vide letter no. 21-91/2020-IA-III dated 05.01.2021 has taken into consideration the environmental aspects of animal waste management.

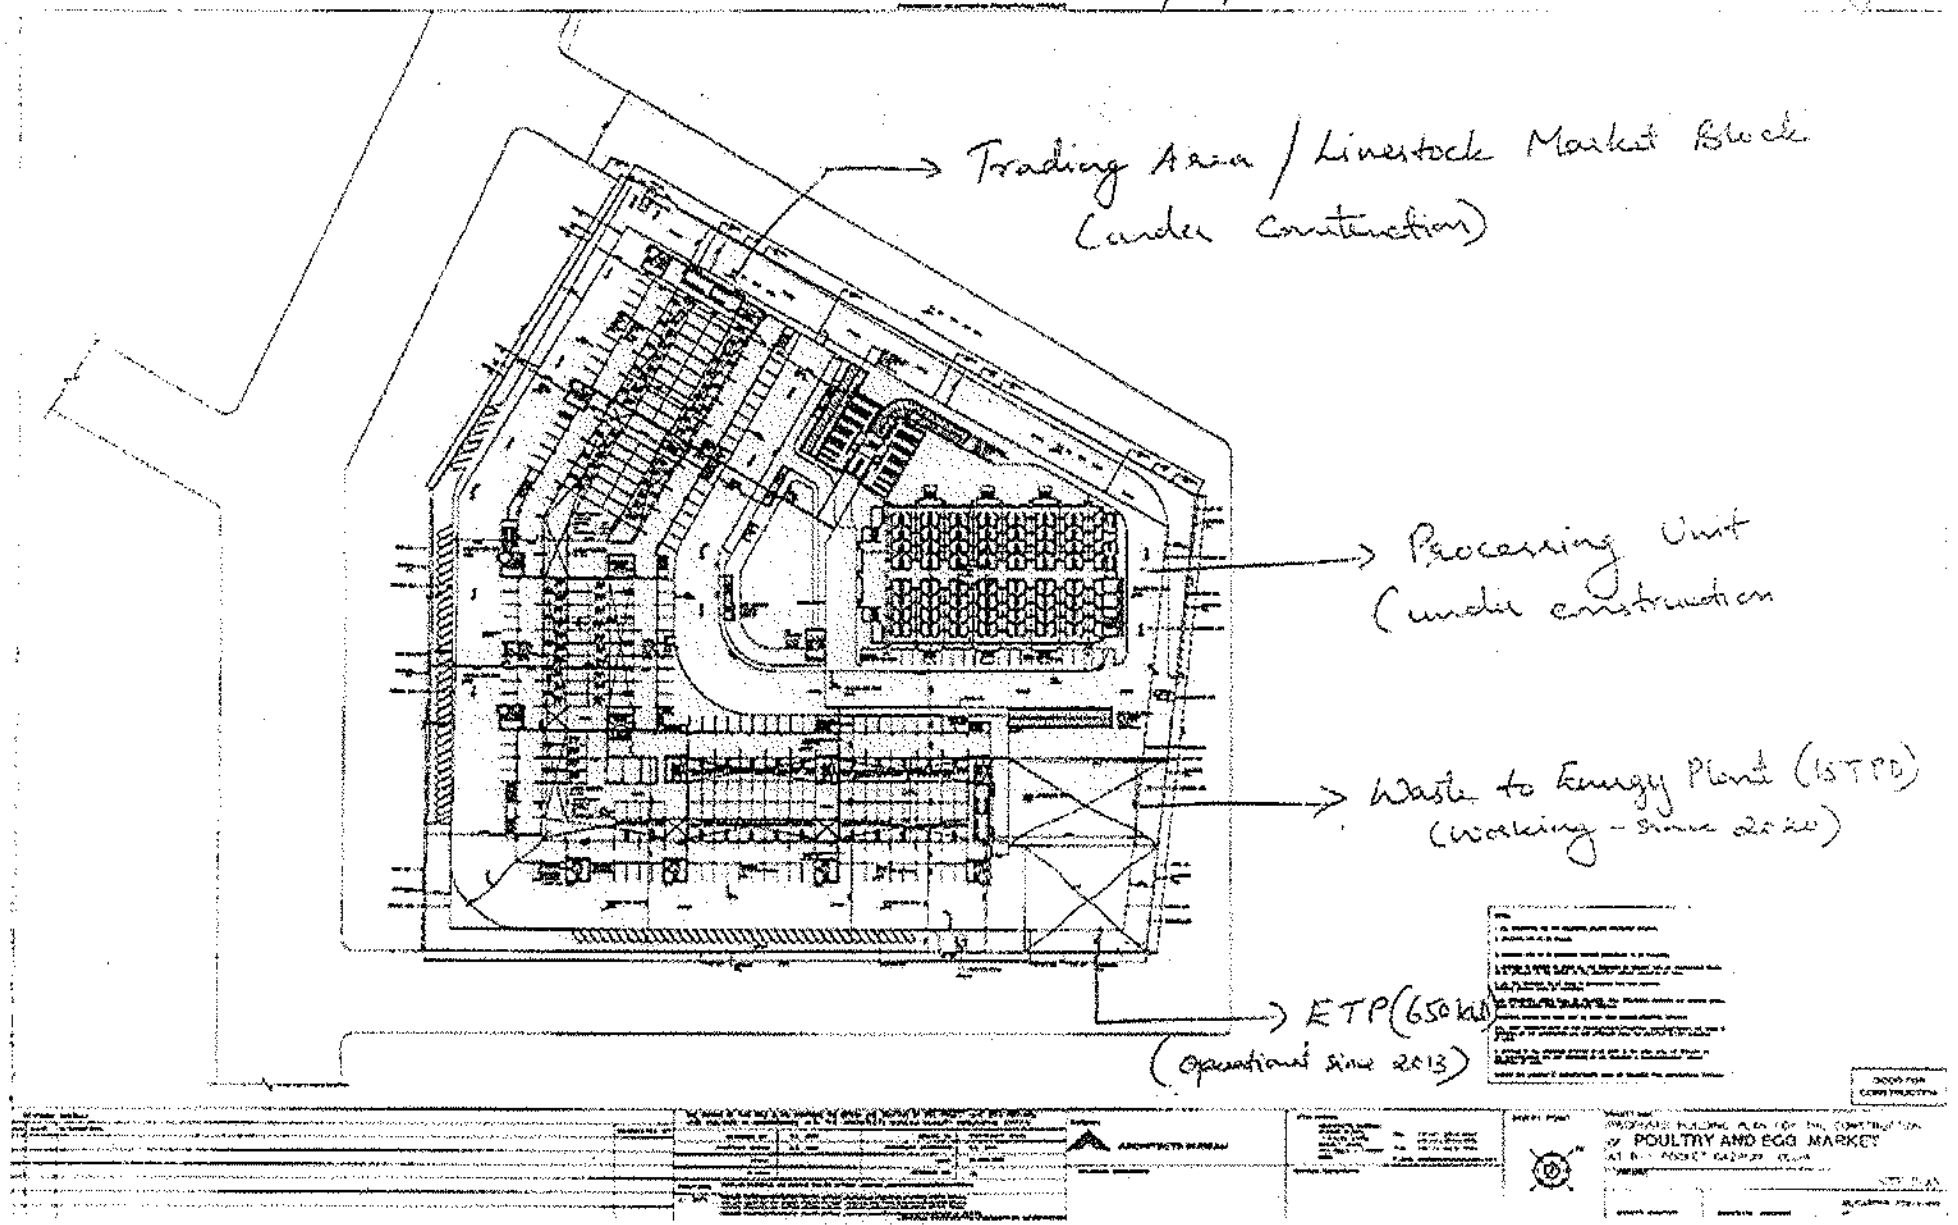
STATUS AS ON 25/11/2021



Ministry of Urban Development Model Building Byelaws, 2016. As proposed, RWH tank of total 700 KL capacity shall be provided by PP for rain water harvesting after filtration.

vi. The solid waste shall be duly segregated into biodegradable and non-biodegradable components and handled in separate area earmarked for segregation of solid waste, as per SWM Rules, 2016. As committed, biodegradable waste shall be utilized through bio-gas generation unit /bio-bin system to be installed within the site. Inert waste shall be disposed off as per norms at authorized site. The recyclable waste shall be sold to authorized vendors/recyclers. Construction & Demolition (C&D) waste shall be segregated and managed as per C&D Waste Management Rules, 2016. Bio-medical wastes shall be disposed as per Bio-Medical Waste (Management & Handling) Rules, 2016.

vii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

viii. The PP shall provide electric charging points in parking areas for e-vehicles as committed.

ix. As committed, solar PV installation of 937.50 kWp capacity shall be provided to meet atleast 10.42 % of the connected load.

x. The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals/clearances under any other Acts/ Regulations or Statutes as applicable to the project.

****

AGENDA ITEM NO. 78.5

In continuation to the discussions held earlier on 16.09.2021, 28.10.2021 and 16.11.2021, with due permission of the Chairman, the EAC (Infra 2) discussed the report of the site visit conducted by the duly constituted EAC sub-committee during 25-26th November, 2021 to the project location of the Modern Poultry & Egg Market at Ghazipur, Delhi. After detailed discussion held on all issues, the committee expressed concurrence with the findings in the site visit report and recommended it for submission to the Ministry.

NOTE OF VISIT OF HON'BLE GOVERNOR TO
FISH & POULTRY MARKET AT GAZI PUR ON 23.10.1992.

Lt. Governor along with Chairman, DDA
and other officers of DDA, DESU, MTNL etc. visited
Fish & Poultry Market at Gazi Pur on 23.10.1992.
After going around the complex, where the market
was shifted from Jama Masjid, which is appreciated
by said Lt. Governor saw the module of permanent
Fish & Poultry Market Complex and he observed as
under :

1. Temporary sheds for Fish Market as has been constructed for Poultry Market, should be constructed so as to shift the Fish Market from Jama Masjid to Gazi Pur by next year positively.

2. Provisions should be made for setting up a plant for slaughtering of the birds where cleaning, processing, stamping, packing, etc. could be made. This provision should be at convenient places in each block of the Market.

3. The design should be changed to incorporate the suggestions as given by the Lt. Governor at the site for a comprehensive Fish & Poultry Market including scope for future expansion. Vegetable and fruit market could be located in the adjoining area, if feasible.

Provision for incinerator for disposal of waste from slaughtering of birds should be made.

Telephone booths should be provided in the complex.

[illegible]

[illegible]

[illegible]

connections for the public booths on the recommendation of D.A.M.B. He further stated that there was no difficulty in shifting the telephones to Fish & Poultry Market provided the user applies for shifting. So far as out of turn connections were concerned, he stated that it would not be possible due to the heavy back log.

6. Provision of adequate D.T.C. bus service to the Market.

Action : Chairman, D.T.C.

7. The representatives of the Market complained of harassment by the Police Check Post near the border. In certain cases it caused death of birds due to delayes of clearance of vehicles at the barrier. Lt. Governor directed that Commissioner of Police may look into this and issue suitable instructions.

Action : Commr. of Police.

8. The representatives suggested that the Octroi Check post should be shifted to the border of Delhi Gaziabad so that only imported stock was taxed. As the Market falls outside the Check Post, whenever they have to enter the city, they are stopped for Octroi at the Post which is not legal.

Lt. Governor desired that the Commissioner, MCD should take steps to shift the Octroi barrier to the border.

Action : Commr., MCD

May ask the Deptts. to take action on the items mentioned above relating to their Depts.

Pankha Road, Janakpuri,
New Delhi – 110 058.

Subject: Construction of Modern Poultry & Egg Market at B-1 Pocket, Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB) - Environmental Clearance - Reg.

Dear Sirs,

This has reference to your application No: F25(19)/190/05/DAHB/Engg./366, dated 28.12.2007 and subsequent letters dated 22.04.2008 and 19.06.2008 seeking prior Environmental Clearance for the above project under the EIA Notification, 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., the Questionnaire, EIA, EMP and the additional clarifications furnished in response to the observations of the Expert Appraisal Committee constituted by the competent authority in its meetings held on 13th – 14th March 2008, 1st – 3rd May, 2008 and 26th - 28th June, 2008 and awarded "Silver" grading to the project.

2. It is interalia, noted that the project involves the construction of a modern poultry and Egg market on a plot area of 60,200 Sq.m. The total builtup area is 96,298.372 Sq.m. (2 basements + GF + 2 floors). The total water requirement is 1411 KLD before the operation of ETP and 1161 KLD after the operation of ETP (fresh water requirement will be 91 KLD). The capacity of ETP proposed is 1300 KLD and domestic sewage will be mixed with process treatment plant at secondary level. Treated waste water to be used for flushing of toilets - 50 KLD, horticulture - 108 KLD, AC cooling - 92 KLD. Total solid waste generation will be 560 Kg/day. The power requirement is 2925 KW. The total parking spaces proposed are for 1445 cars (basement – 1244 and surface – 201). Total cost of the project is Rs. 200.00 Crores.

3 The Expert Committee after due considerations of the relevant documents submitted by the project proponent and additional clarifications furnished in response to its observations have accorded environmental clearance as per the provisions of Environmental Impact Assessment Notification – 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:

PART A - SPECIFIC CONDITIONS

I. Construction Phase

(i) "Consent for Establishment" shall be obtained from Delhi Pollution Control Committee under Air and Water Act and a copy shall be submitted to the Ministry before start of any construction work at the site.

(ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.

(iii) A First Aid Room will be provided in the project both during construction and operation of the project.

(iv) Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.

(v) All the topsoil excavated during construction activities should be stored for use in horticulture/landscape development within the project site.

(vi) Disposal of muck during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.

(vii) Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.

(viii) Construction spoils, including bituminous material and other hazardous materials, must not be allowed to contaminate watercourses and the dump sites for such material must be secured so that they should not leach into the ground water.

(x) Any hazardous waste generated during construction phase, should be disposed off as per applicable rules and norms with necessary approvals of the Delhi Pollution Control Committee.

(x) The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.

(xi) The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from Chief Controller of Explosives shall be taken.

(xii) Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.

(xiii) Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/DPCC.

(xiv) Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003. As the site is located within the 100 Km of Thermal Power Stations (IP, Raj Ghat and Badarpur).

(xv) Ready mixed concrete must be used in building construction.

(xvi) Storm water control and its re-use as per CGWB and BIS standards for various applications.

(xvii) Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.

(xviii) Permission to draw ground water shall be obtained from the competent Authority prior to construction/operation of the project.

(xix) Separation of grey and black water should be done by the use of dual plumbing line for separation of grey and black water.

(xxi) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices, or sensor based control

(xxii) Use of glass may be reduced by upto 40% to reduce the electricity consumption and load on airconditioning. If necessary, use high quality double glass with special reflective coating in windows

(xxiii) Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.

(xxiii) Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code which is proposed to be mandatory for all airconditioned spaces while it is aspirational for non airconditioned spaces by use of appropriate thermal insulation material to fulfill requirement.

(xxiv) The approval of the competent authority shall be obtained for structural safety of the buildings due to earthquake, adequacy of fire fighting equipments, etc. as per National Building Code including protection measures from lightening etc.

(xxv) Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.

(xxvi) Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.

II. Operation Phase

i) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the Ministry before the project is commissioned for operation. Treated affluent emanating from STP shall be recycled/reused to the maximum extent possible. Treatment of 100% grey water by decentralised treatment should be done. Discharge of unused treated affluent shall conform to the norms and standards of the Delhi Pollution Control Committee. Necessary measures should be made to mitigate the odour problem from STP.

ii) The solid waste generated should be properly collected and segregated. Wet garbage should be composted and dry / inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.

[illegible] should be of enclosed type and conform to rules made under the Environment (Protection) Act 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with Delhi Pollution Control Committee.

v) Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.

vi) The green belt of the adequate width and density preferably with local species along the periphery of the plot shall be raised so as to provide protection against particulates and noise.

vii) Weep holes in the compound walls shall be provided to ensure natural drainage of rain water in the catchment area during the monsoon period

viii) Rain water harvesting for roof run- off and surface run- off, as plan submitted should be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The borewell for rainwater recharging should be kept at least 5 mts. above the highest ground water table.

ix) The ground water level and its quality should be monitored regularly in consultation with Central Ground Water Authority.

x) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.

xi) A Report on the energy conservation measures confirming to energy conservation norms finalise by Bureau of Energy Efficiency should be prepared incorporating details about building materials & technology, R & U Factors etc and submit to the Ministry in three months time.

xii) Energy conservation measures like installation of CFLs/TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible.

xii) Adequate measures should be taken to prevent odour problem from solid waste processing plant and STP.

xiii) The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.

PART – B. GENERAL CONDITIONS

i) The environmental safeguards contained in the EIA Report should be implemented in letter and spirit.

ii) Provision should be made for supply of kerosene or cooking gas and pressure cooker to the labourers during construction phase.

iii) Six monthly monitoring reports should be submitted to the Ministry and it's Regional Office, Chandigarh.

4. Officials from the Regional Office of MOEF, Chandigarh who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to MoEF should be forwarded to the CCF, Regional office of MOEF, Chandigarh.

5. In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Ministry.

6. The Ministry reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.

7. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, as applicable by project proponents from the respective competent authorities.

8. These stipulations would be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.

9 Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No 460 of 2004 as may be applicable to this project

10 Any appeal against this Environmental Clearance shall lie with the National Environment Appellate Authority, if preferred, within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Act, 1997.

2. The Secretary,
   Delhi Agricultural Marketing Board
   Poultry and Egg Market Gazipur Delhi -96

Subject –Meeting Notice/ Personal Hearing – Regarding

Sir,

This has reference to Show cause notice issued by DPCC on 15.04.2019 for not applying for Consent to establish and Consent to Operate for Fish Market. Consent to operate (renewal) has already been issued to DAMB for the activity of Poultry and egg Market subject to terms and conditions.No response has been received from DAMB with respect to Show Cause notice and Compliance of terms and conditions of consent to operate.

In view of the above, a meeting/ Personal hearing before Secretary (Environment.) cum Chairman, DPCC, is scheduled to be held on 07.08.2019 at 12.00 P.M in the Conference Room of Health and Family welfare Department 9th Level, A-Wing, Delhi Secretariat, IP Estate, New Delhi-110002.

You are requested to attend the meeting alongwith the documents and replies on the following points:

a) Terms and conditions of consent to operate issued by DPCC on 15.04.2019.

1. The documents from relevant authority with regard to conformity of the activity within 6 months from the date issued of this consent along with the application of consent to establish
2. DAMB shall obtain fresh environmental clearance from the Ministry Of Environment and Forest and Climate Change and till then no construction activity w.r.t construction of modern Poultry and Egg market shall be started as the previous environmental clearance obtained by DAMB in year 2008 for the construction of Modern poultry and Egg Market has expired. However, this time the DAMB should apply for environmental clearance including the activity of slaughtering, processing, dressing of birds

Contd...

3. The DAMB submit the effluent analysis report from the empanelledlaboratories of DPCC w.r.t. the STP/ETP installed within 3 months from the date of issuance of this consent order
4. The DAMB shall insure installation of flow meter on bore well and shall maintain daily recorded its reading.
5. The DAMB shall also submit the permission of the concerned authority for abstract ion of ground water within 6 months of issued of this concerned order.
6. The DAMB shall submit noise monitoring report from the empanelled laboratories of DPCC w.r.t to the DG sets installed within 3 months from the date of issuance of this order

b) Reply to the show cause notice regarding fish market issued on 15.04.2019

You are requested to kindly make it convenient to attend the said meeting along with all the documents at scheduled date and time.

Sub:- Replies pertaining to the points raised vide letter no. DPCC/WMC-I/DAMB/2019/14480-14483 dt.02/08/2019.

Ref:- Meeting dt.07/08/2019

Sir,

This is in reference to your letter no. DPCC/WMC-I/DAMB/2019/14480-14483 dt.02/08/2019 vide which you have directed to furnish the replies on the points. Accordingly the point wise replies are as under:-

1. DDA has allowed DAMB to complete the project of Development of Modern Poultry and Egg Market Gazipur by Dec. 2020. DAMB after obtaining approval from its authorities as well as outside authorities such as DUAC, DJB, Delhi fire services, MoEFCC etc. floated the tenders and at present the work is in progress at site. The relevant documents pertaining to above facts are enclosed herewith for your perusal and consideration.
2. Since there is no mention about expiry date of environmental clearance in the approval letter issued by MoEFCC in 2008, therefore as discussed in the meeting as well as in your letter dt.02/08/2019, DAMB has asked its Architectural Consultant of this project for submitting and obtaining the case for revised Environmental Clearance from MoEFCC. The copy of letter issued to our Architect M/s. Architect Bureau is enclosed herewith.
   In view of this as well as timeline provided by DDA for completing this project, construction activity may not be discontinued.

3. The effluent analysis report from empanelled laboratories of DPCC is enclosed herewith.
4. The existing bore wells in the Poultry Market are not working properly because of the fact that bore wells were shallow bores. Since DJB has approved the water supply scheme for Poultry Market and DAMB has requested DJB to provide water supply in this market or allow DAMB for developing two bores. Flow meter as directed shall be installed on DJB supply or new bore wells (letter written to DJB is enclosed herewith).
5. DG set is not being used as supply of electricity is regular. However the agency is installing DG set at site for which necessary directions has been given for installation of canopy around the DG set.

Thanking you

Superintending Engineer

Dated: 9/11/19

F. No. DPCC/ WMC-I/2019/ 20291+96

Subject: Revocation of Consent to operate under the Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 as amended to date

Whereas, Central Pollution Control Board is the State Board for all the union Territories to exercise powers and performs functions under the Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981, as amended to date.

And whereas, Central Pollution Control Board has delegated all its powers and functions under the Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981, in respect of Union Territory of Delhi to Delhi Pollution Control Committee (DPCC) Vide Notification dated 15.03.1991.

And whereas, the whole Union Territory of Delhi has been declared as an Air Pollution Control Area, under sub section (I) of section 19 of the Air (Prevention & Control of Pollution) Act, 1981, vide Notification No. GSR 106 (E) Dated 20.02.1987.

And whereas, as per section 21(1) of the Air (Prevention & Control of Pollution) Act, 1981, as amended to date no person shall, without the previous consent of the State Pollution Control Board (DPCC in case of Delhi), establish or operate any industrial plant in an Air Pollution Control Area.

And whereas, as per section 25/26 of the Water (Prevention and Control of Pollution) Act, 1974, as amended to date, it is mandatory to obtain Consent from Delhi Pollution Control Committee in respect of any hospital or operation or process or any treatment and disposal system an extension or addition thereto, which is likely to discharge sewage or trade effluent in to a stream or on land.

And whereas, you, **M/s Delhi Agricultural Marketing Board** (herein after referred as the addressee) are operating your unit **Poultry &Egg Market at Ghazipur, Delhi-110096.**

And whereas, you (the addressee) have applied for consent to operate on 16.11.2018 for the existing Poultry and Egg Market and informed that an agreement through association of commission agent at Poultry Maket, Ghazipur has been made with M/s Ray Ban Organics Pvt Ltd, Old Chungi, Bulandshahar road, Hapur, Ghaziabad, U.P. for collection, transportation and disposal of poultry waste.

And whereas, Consent to Operate (CTO) was issued on 11.01.2019 purely for the purpose of pollution control and with certain conditions as follows:

a) Submission of documents from the relevant authority w.r.t. to conformity of the activity within [illegible] the date of issue of the CTO,

b) [illegible] application for consent to establish for the present activity.

c) Submission of fresh Environmental Clearance (EC) from MoEF & CC including the activity of slaughtering / processing / dressing of the birds.

d) Not to undertake any construction activity till the issue of EC from MOEF&CC.

And whereas, you (the addressee) were called for personal hearing on 07.08.2019 before the Principal Secretary (Env.) cum Chairman, DPCC vide this office letter dated 02.08.2019.

And whereas, in response to aforesaid minutes, you (the addressee) have submitted a reply on 19.08.2019 enclosing many documents but none showing the compliance of any of the above conditions of CTO.

ATTESTED

True Copy of the Record

Contd on 2..

And whereas, you have failed to comply with any of the conditions of CTO granted to you on 11/01/19 even after a lapse of 9 months.

Now therefore, in view of the above, the Competent Authority in Delhi Pollution Control Committee in exercise of powers conferred upon it u/s 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 has decided to revoke the consent to operate issued to you on 11.01.2019 with immediate effect.

Please note that operating the unit without obtaining consent to operate is punishable under the provisions of the said Acts.

These issues with the approval of the Competent Authority.

F. No. DPCC/WMC-I/P&E Mrk/2019/ 20297 - 20305 Dated: 9/10/19

Subject: Directions for closure u/s 31(A) of the Air (Prevention & Control of Pollution) Act, 1981, u/s 33 (A) of the Water (Prevention & Control of Pollution) Act, 1974 as amended to date.

Whereas, Central Pollution Control Board is the State Board for all the Union Territories to exercise powers and perform functions under the Water (Prevention & Control of Pollution) Act, 1974 and under Air (Prevention & Control of Pollution) Act, 1981.

And whereas, Central Pollution Control Board has delegated all its powers and functions under the Water (Prevention & Control of Pollution) Act, 1974 and under the Air (Prevention & Control of Pollution) Act, 1981 in respect of Union Territory of Delhi to Delhi Pollution Control Committee.

And whereas, as per section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974, as amended to date, it is mandatory to obtain Consent from Delhi Pollution Control Committee in respect of any industry or operation or process or any treatment and disposal system an extension or addition thereto, which is likely to discharge sewage or trade effluent into a stream or well or sewer or on land.

And whereas, the whole Union Territory of Delhi has been declared as an Air Pollution Control area, under sub section (I) of section 19 of the Air (Prevention & Control of Pollution) Act, 1981 vide notification no. GSR 106 (E) dated 20.02.1987.

And whereas, it is mandatory under section 21(1) of the Air (Prevention & Control of Pollution) Act, 1981 that no person without the previous consent of the DPCC shall establish or operate any industrial plant in air pollution control area.

And whereas, you, **M/s Delhi Agricultural Marketing Board** (herein after referred as the addressee) are operating your unit **Poultry & Egg Market at Ghazipur, Delhi-110096.**

And whereas, you (the addressee) had obtained Environmental Clearance on 28.07.2008 from MoEF & CC for the activity of the Construction of Modern Poultry and Egg Market at Ghzaipur which was valid for 7 years i.e. upto 27.07.2015.

And whereas, you (the addressee) had applied for Consent to Establish for the activity of the Construction of Modern Poultry and Egg Market at Ghazipur which was issued to you on 08.02.2010 and valid upto 07.02.2011.

And whereas, you (the addressee) had applied for Consent to Operate (CTO) under Water & Air Acts on 16/12/2013 for the existing Poultry and Egg Market.

And whereas, the application for CTO submitted on 16/12/13 was refused on 24/04/18 along with directions for closure under section 33(A) & 31 (A) of Water & Air Act respectively.

And whereas, a reply was submitted by DAMB on 17.05.2018 regarding installation of ETP and proposal for installation of Waste to Power plant.

And whereas, you (the addressee) had again applied for Consent to Operate on 16.11.2018 for the existing Poultry and Egg Market along with documents and the agreement with M/s Ray Ban Organics Pvt Ltd, Hapur, Ghaziabad, U.P. for collection, transportation and disposal of solid poultry waste.

And whereas, Consent to Operate (CTO) was issued on 11.01.2019 purely for the purpose of pollution control and with certain conditions as follows:

a) Submission of documents from the relevant authority w.r.t. to conformity of the activity within six month from the date of issue of the CTO,

Contd on 2..

ATTESTED
True Copy of the Record

b) Submission of application for consent to establish for the present activity.

c) Submission of fresh Environmental Clearance (EC) from MoEF & CC including the activity of slaughtering / processing / dressing of the birds.

d) Not to undertake any construction activity till the issue of EC from MOEF&CC.

And whereas, no compliance has been received from you, the addressee, on the above conditions even after a lapse of 9 months.

And whereas, you (the addressee) were called for personal hearing on 07.08.2019 before the Principal Secretary (Env.) cum Chairman, DPCC vide this office letter dated 02.08.2019.

And whereas, in response to aforesaid minutes, you (the addressee) have submitted a reply on 19.08.2019 enclosing many documents but none showing the compliance of any of the above conditions of CTO.

And whereas, an inspection was again carried out by DPCC officials on 06.11.2019 and following were observed:

1. The Poultry and Egg Market was found operational.
2. The unit has still not applied for EC in MoEF.
3. Construction of Modern Poultry Market has been started. Excavation work has begun and some column / beams have been erected. However, on the day of inspection the work was not carried out due to the ban on construction by Delhi Government under GRAP.
4. Common slaughtering area earlier existing in the market has been dismantled and now slaughtering of bird is being carried out in approx. 50 individual shops. However, no document was shown regarding permission of the activity from any department.
5. Solid waste generated from these shops during slaughtering / dressing / cleaning are kept in bags in open space between entrance gate and shops attracting lots of vultures.
6. Lots of feather of birds were observed strewn over the road in the market.
7. No document was shown regarding the implementation of the agreement with M/s Ray Ban Organics Pvt Ltd, Hapur, Ghaziabad, U.P. for collection, transportation and disposal of solid poultry waste.
8. Approx. 36 no. of temporary shops have come up in the vacant plot adjacent to poultry market and selling of mutton/ chicken/ fish is being carried out at the backside of these shops by some people.
9. A common bio-methanation plant of 15 TPD capacity is under construction adjacent to ETP to handle the waste generated from fish market, poultry market, flower market and fruit market & vegetable market of Ghazipur. One pre-digester, two main digesters were found constructed.
10. Various shops have installed individual borewells for extraction of ground water.
11. Adequate stack height has not been provided with the D.G. Set of 82.5 KVA.
12. An ETP of 650 KLD has been installed to treat the waste water generated from these shops. ETP was found in operation. On-line monitoring system and flow meters found installed at inlet and outlet of ETP showing parameters within prescribed limits.

And whereas, as stated above, you (the addressee) have started the work for construction of Modern Poultry and Egg Market without obtaining Environmental Clearance from MoEF & CC.

And whereas, you (the addressee) are not managing the solid poultry waste as per the undertaking submitted in DPCC.

And whereas, you (he addressee), have failed to comply with any of the conditions of CTO granted to you on 11/01/19 even after a lapse of nine months.

Contd on 3..

ATTESTED
True Copy of the Record

And whereas, the Consent to Operate granted to you (the addressee) on 11/01/19 has been revoked vide this office letter no.2029[illegible]96 dated 09/11/19.

Now therefore, in view of the above, the Competent Authority in Delhi Pollution Control Committee in exercise of powers conferred upon it u/s 33(A) of the Water Act and 31(A) of the Air Act as amended to date has decided to issue the following directions:

1. That you (the addressee) shall close down all the processes in your unit i.e. Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from the concerned authorities with immediate effect.

2. That the concerned Sub-Divisional Magistrate shall ensure effective closure of the activities of the unit Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from the concerned authorities with immediate effect.

3. That the Concerned Authority in BSES Yamuna Power Ltd. shall disconnect the electricity/power supply of the unit i.e. Poultry & Egg Market with immediate effect.

4. That the concerned authority in DJB shall disconnect the water supply connection of the bore wells existing in the unit i.e. Poultry & Egg Market with immediate effect.

5. That East Delhi Municipal Corporation shall cancel the licenses granted to the shops in the Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from the concerned authorities.

Please note that you (the addressee) shall be liable for penal action under the provisions of Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981 in case of noncompliance of aforesaid directions.

This is being issued as per the approval of the Competent Authority.

No. : DPCC/WMC-III/P&E Mrk/2020/ 2364 – 65 Dated: 5-11-20

To,
The Vice Chairman,
Delhi Agricultural Marketing Board,
Plot No. 9, DAMB Office Building, Institutional Area,
Pankha Road, Janakpuri,
New Delhi-110058

Sub:- Compliance of directions for closure issued to Poultry and Egg Market at Ghazipur, Delhi-reg.

Sir,

This refers to the closure directions issued to Poultry and Egg Market (managed by Delhi Agriculture Marketing Board) operational at Ghazipur, Delhi in view of the non-compliance of the provisions of Water Act, 1974 and Air Act, 1981 vide letter dated 09.11.2019 wherein you were directed to close down all the processes in your unit i.e. Poultry & Egg Market including processing/ slaughtering of birds for which necessary permission has not been taken from concerned authorities with immediate effect.

The Poultry Market has been inspected on 24.9.2020 and found the plant operational in violation of the closure directions issued vide letter dated 09.11.2019 and without consent to operate under the Water Act, 1974 and Air Act, 1981. Further, the construction of building for modern Poultry Market was in progress without a valid Environmental Clearance of the MoEF& CC, GoI.

In view of earlier closure directions dated 09.11.2019, you are hereby directed to stop all the processes in Poultry & Egg MarketGhazipur including processing/ slaughtering of birds with immediate effect, apart from stopping the construction of the building of modern Poultry & Egg Market with immediate effect. Furtheryou are hereby directed to submit the undertakingin this regard within 07 days from date of issue of this letter, failing which prosecution proceedings under the provisions of the above said Acts will be initiated without any further reference to you.

Further, as the issue of pollution being caused by the plant is being monitored by Hon'ble Delhi High Court in a Writ Petition filed by Ms.GauriMulakhi, you are directed to comply with the directions of Hon'ble High Court and submit compliance report wrt the order of the Hon'ble Court dated 24.9.2018 within 7 days of issue of this letter.

Yours faithfully,

(Dr. BMS Reddy)

Sub: Compliance of directions for closure issued to Poultry and Egg Market at Ghazipur, Delhi

Sir,

This is in reference to your letter no. DPCC/WMC-III/P&E Mrk/2020/2364-65 Dt. 05/11/2020 received in this office 09/11/2020 vide which you have mentioned that in view of closure direction dt. 09/11/2019 DAMB is directed to stop all the processes in the Poultry market Gazipur including processing/ slaughtering of birds with immediate effect, apart from stopping the construction of building of modern poultry and egg market with immediate effect. Further vide this letter, DAMB is directed to submit the undertaking in this regard within 07 days from the date of issue of this letter.

In view of above letter and letter dt. 09/11/2019, the following are the main issues:

1. Stoppage of all processes in Poultry market without consent to operate of Poultry market.
2. Stopping of construction activity of modern Poultry market without valid environment clearance.

Both the above issues are not related to each other and are to be dealt separately.

Regarding point no. 01 we have to go long back with correspondences made with DPCC with effect from 2009 onwards and the action taken by DAMB thereof:

1. Reference to letter no. DPCC/EC/24811/3145 dt. 22/01/09(copy enclosed at **(Ref Annexure A)**. Vide this letter DPCC issued direction to install effluent treatment plant in view of large quantity of trade effluent being discharged in open drain.
2. According to above direction DAMB invited tenders for installation of effluent treatment plant and the same was installed and made operational in 2013.
3. DAMB invested 3.56 crore for complying the above direction of DPCC.

ATTESTED
True Copy of the Record

4. DAMB applied for Consent to operate (CTO) to DPCC on dt. 10.12.13 and deposit the requisite fees(copy of payment enclosed at (Ref Annexure B).

5. DPCC vide its letter no. DPCC/WMC-II/2014/SH-2/2209 dt. 02.06.14(copy enclosed at **(Ref Annexure C)** issued direction for installing online effluent quality monitoring system at the outlet of ETP for the measurement of the parameters such as pH, TSS, BOD, COD etc.

6. Accordingly DAMB started the process of installation of online monitoring system and the same was made functional w.e.f. 2017 and DAMB spend Rs. 30.91 lacs.

7. Thereafter DPCC vide letter no. DPCC/WMC-II/2014/SH-2/2424 dt. 11.07.14(copy enclosed at **(Ref Annexure D)** revoked the closure direction and issued direction for application for authorization under municipal solid waste management and handling rules 2000.

In view of above directions from DPCC, DAMB started process for installation of solid waste managment plant and awarded the work to M/s Green brick on 15.07.2018 for Rs. 9.17 cr. This plant is operational and has been inaugurated by Hon'ble CM Delhi on dt. 27/10/2020.

8. In view of the above actions of DAMB as well as on the request of DAMB, DPCC issued CTO(renewal) for the Poultry and Egg market on dt. 11.01.2019 valid upto 15.11.2023(copy enclosed at **(Ref Annexure E)**.

Further DPCC issued a letter no. DPCC/WMC-I/DAMB/2019/14480-14483 dt. 02.08.19 (copy enclosed at **(Ref Annexure F)**vide which DAMB asked to attend the meeting on 07.08.19 in chamber of Member Secretary, DPCC.

9. The matter discussed in the above meeting were replied by the DAMB on 14.08.2019 (copy of letter enclosed at **(Ref Annexure G)**.

10. DPCC vide its letter no. DPCC/WMC-I/2019//20291-96 dt. 09.11.19(copy enclosed at **(Ref Annexure H)** has raised following points:

(a) Submission of documents from the relevant authority w.r.t to conformity of the activity within six month from the date of issue of the CTO.

(b) Submission of application for consent to establish for the present activity.

(c) Submission of fresh environment clearance (EC) from MoEF&CC including the activity of slaughtering/ processing/ dressing of the birds.

(d) Not to undertake any construction activity till the issue of EC from MOEF&CC.

Regarding point no. (a), the relevant authority i.e. Lieutenant Governor Delhi vide his visit on dt. 23.10.1992 gave directions for managing the slaughtering of the birds where

ATTESTED

True Copy of the Record

cleaning, processing, stamping, packing etc. could be made. Note of visit of LG on 23.10.1992 issued by K.B. Vasisht, OSD to LG (copy enclosed at **(Ref Annexure I)**. MCD has also issued licenses to the traders of the Poultry market for slaughtering of the birds as per MCD norms after obtaining NOC from DAMB.

Regarding point no. (b), consent to establish was obtained in 2010 for the Poultry & Egg market(copy enclosed at **(Ref Annexure J)**.

Regarding point no. (c), it is submitted that the activity of construction of new poultry market should not be linked with the operation of existing poultry market. However, the action taken by the DAMB are as under:

1. DAMB processed for development of new Poultry market in 2005 and accordingly the architect consultant was appointed. Architect consultant obtained all the approval from outside authorities such as DUAC, DJB, DFS etc.
2. Environmental clearance for this project was also obtained from MoEF&CC in 2008(copy enclosed at). However as per the direction of DPCC dt. 09/11/2019, DAMB has asked its architectural consultant for submitting the case for getting environment clearance. Accordingly the case has already been submitted by the consultant to the regional office of MOEF&CC on dt. 20/01/2020 for obtaining certified compliance report of the project(copy enclosed at **(Ref Annexure K)**.

Thereafter the correspondences are in process and now the matter is being submitted to Director IA-II, MoEF&CC New Delhicopy enclosed **(Ref Annexure L)**.

In view of all above clarifications and action taken by DAMB for complying the various directions w.e.f 2009 onwards and also in respect of the reply of letter dt. 09/11/19 and 05/11/2020, the decision of closure of market operation may be revoked in light of clarifications submitted for point (a) & (b) above and lifting of ban on construction activity of new poultry market in light of clarifications submitted for point no. (c) above.

SE DAMB

Encl. as above.

Copy to:-

1. PA to VC DAMB
2. PA to Secretary, DAMB
3. Secretary, FP&EMC, Gazipur to further process the matter.

To,

Head of Department (HOD),
M/s. Delhi Agriculture Marketing Board
9, Institutional Area, Pankha Road, Janakpuri
New Delhi 110058, Delhi

Subject: Environmental Clearance for development of Modern Poltry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board (DAMB)-reg.

Sir,

This has reference to your proposal No. IA/DL/MIS/183574/2020; received on 17th November, 2020 through Parivesh Portal for grant of Environmental Clearance (EC) for development of Modern Poltry & Egg Market with built up area of 96,629.057sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

2. As per the provisions of the Environment Impact Assessment (EIA) Notification, 2006; as amended and notified under the Environment (Protection) Act, 1986 (29 of 1986), the above-mentioned project/activity is covered under category 'B' of item 8(a) 'Building and Construction Projects' of the Schedule to the EIA Notification, 2006 and its subsequent amendments, and requires appraisal at State level. However, due to absence of SEIAA/SEAC in Delhi, the proposal required appraisal at Central level by sectoral EAC.

3. Accordingly, the abovementioned proposal for grant of EC has been examined by the Expert Appraisal Committee (Infra-2] its 57th meeting held on 25th November, 2020.

4. The details of the project, as per the Application and documents submitted by the project proponent, and also as informed during the above-mentioned meetings of EAC (Infra-2) are as under: -

i. The proposed project is located at East Delhi, District Centre under the jurisdiction of Delhi Development Authority (DDA).

ii. The project is New. However, in the past, Ministry has granted Environmental Clearance vide letter No.21-1229/2007-IA.III dated 28.07.2008 based on the appraisal done by the then EAC in its meeting held on 28th July, 2008.

iii. The total plot area is 60,200sqm. The FSI/FAR area is 49,762 sqm and total construction (Built-up) area is 96,629.057sqm. The project will comprise of two (02) Buildings of 'G+1' and 'G+2 floors'. Maximum height of the building is 13.5m. The details of buildings are as follows:

Floor Area (FAR)	**As per EC Granted/ 28.07.2008(Concept) (in sqm)**	**As per DDA sanction (2019) & proposed (in sqm)**
Ground Floor	17933.212	17892.022
First Floor	17098.002	17892.022
Second Floor	11525.002	11110.749
Total	46556.216	46866.793
(Non-FAR)		
Basement (02 Nos.)	24871.078x2= 49742.156 \156	24881.138x2= 49762.264 *(proposed* 49762.264x1, with Multilevel Car parking (MLCP)
Built-up Area	**96298.372**	**96629.057**
Green Area (35% of total plot area)	**21070**	**21070**

iv. As on 31.12.2019; Built up area of approx. 5000 sqm has been constructed as per EC granted No.21-1229/2007-IA.III dated 28.07.2008. There are 70 (seventy) shops running in sheds and proposed shops are 100. About 70 % of the plot area is occupied by shops under shed and construction is on in 30 % of the plot area.

v. During construction phase, total water requirement is expected to be 10KLD. During the construction phase, Soak pits and septic tanks will be provided for disposal of wastewater. Temporary sanitary toilets will be provided during peak labor force.

vi. During operational phase, total water requirement of the project is expected to be 676KLD and the same will be met by 214KLD of fresh water from Delhi Jal Board (DJB) and 462 KLD of Recycled Water.

vii. Wastewater generated (513 KLD) will be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) will be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water will be disposed in to municipal drain (Zero discharge).

viii. About 0.28 TPD of municipal solid waste will be generated in the project. The biodegradable waste (0.14 TPD) will be processed in Organic Waste Converter (OWC) and the non- biodegradable waste (0.14TPD) will be handed over to authorized local vendor. Solid waste generated from cutting, removal of feathers, legs and neck (approx.

ATTESTED
True Copy of the Record

40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) will power biogas /bio-manure plant (15TPD) based on NISARGRUNA TECHNOLOGY (BARC TECHNOLOGY).

ix. The ETP cum STP are already in place with the due approval of Delhi Pollution Control Committee (DPCC). Biogas plant has also been made operational now.

x. The total power requirement during construction phase is 2925 KVA and will be met from BSES.

xi. Roof top rainwater of buildings will be collected in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration.

xii. The Green Belt for the proposed project has been planned in an area of 21070 SQM (50% of open area) to provide a clean, healthy and beautiful green environment.

xiii. Parking facility for 1445 four wheelers and two wheelers is proposed to be provided against the requirement of 1445 (according to local norms).

xiv. Proposed energy saving measures would save about 5 % of power.

xv. The project is not located in Critically Polluted area.

xvi. It is not located within10km of Eco Sensitive Zone. NBWL clearance is not required.

xvii. No Forest Clearance is required

xviii. No Court case pending against the project.

xix. Investment/Cost of the project is Rs. 150 Crore.

5. The EAC, based on information and clarifications provided by the project proponent and detailed discussions held on the issues, has recommended granting environmental clearance to the project. The aforesaid recommendation of EAC (Infra-2) is subject to certain specific conditions, as stipulated during its 57th meeting held on 25th November, 2020 and the standard EC Conditions as specified by the Ministry vide OM dated 04.01.2019 for the said project/activity.

6. Based on recommendations of EAC (Infra-2), the Ministry of Environment, Forest and Climate Change hereby accords Environmental Clearance to the project for development of Modern Poltry & Egg Market with built up area of 96,629.057 sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi by M/s. Delhi Agricultural Marketing Board, under the provisions of the EIA Notification, 2006 and amendments/circulars issued thereon, and subject to the following specific and standard conditions:

A. Specific Conditions:

i. The Project proponent should ensure that the facility fulfils all the provisions of Solid Waste Management Rules, 2016, Hazardous and other Wastes (Management and Transboundary Movement) Rules, 2016. Adequate and separate area shall be provided for waste management and handling within the premises. Adequate measures shall also be taken to prevent odour problem from waste processing plant and ETP cum STP.

ATTESTED
True Copy of the Record

ii. As reported, about seventy shops are running in sheds on the project site. Suitable drainage and waste management measures (with frequent spray of permitted insecticides etc.) shall be adopted in both the construction and operational phase so as to prevent stagnation of water or accumulation of waste that will ultimately restrict the reproduction and growth of disease vectors. All required safety, sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.

iii. The biodegradable waste (0.14 TPD) shall be processed in onsite OWC and the non- biodegradable waste (0.14TPD) shall be handed over to authorized local vendor.

iv. As proposed, Solid waste generated from cutting, removal of feathers, legs and neck (approx. 40000 x 4=1,60000kg x35= 560 kg) and organic solid waste from domestic (140kg) shall be used to get power from the proposed biogas / bio-manure plant (15TPD).

v. Total water requirement of the project shall not exceed 676KLD including 214KLD of fresh water from Delhi Jal Board (DJB).

vi. No abstraction of Ground water during the construction as well as the operation phase.

vii. As proposed, Wastewater generated (513 KLD) shall be treated in onsite Effluent Treatment Plant (ETP) cum Sewage Treatment Plan (STP) of 650 KLD in the capacity. Treated wastewater (462 KLD) shall be recycled and re-used for flushing (74KLD), green area/horticulture (35KLD) and remaining (353KLD) as process water. No water shall be disposed in to municipal drain (Zero discharge).

viii. The project proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.

ix. Roof top rainwater of buildings shall be collected as per the in 12 (twelve) Rain Water Harvesting (RWH) tanks of total for harvesting after filtration as per CGWB guidelines.

x. As proposed, Parking facility for 1445 four wheelers shall be provided. Parking during the operation phase should be fully internalized and no public space should be utilized. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Loading and unloading of goods shall be from the designated places in the proposed market. Parking shall be kept clean and free from all types of wastes.

xi. In order to mitigate the emission load from traffic and to promote cleaner fuel options, Electric Car Charging Points shall be provided at

ATTESTED
True Copy of the Record

the Parking and provision of vehicles based on green fuel shall be facilitated.

xii. No tree felling/transplantation has been proposed in the instant project. As proposed, As proposed, area of 21,070 sqm (50% of open area) is to be developed as green area to provide a clean, healthy and beautiful green environment. A minimum of one tree for every 80 sqm of land should be planted and maintained. The landscape planning should include plantation of native species. Water intensive and/or invasive species should not be used for landscaping.

xiii. The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes as applicable to the project.

B. Standard Conditions:

I. Statutory compliance:

i. The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.

ii. The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightening etc.

iii. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.

iv. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.

v. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.

vi. The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.

vii. A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.

viii. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.

ix. The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016, shall be followed.

x. The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.

ATTESTED
True Copy of the Record

II. **Air quality monitoring and preservation:**

i. Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.

ii. A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.

iii. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM_{10} and $PM_{2.5}$) covering upwind and downwind directions during the construction period.

iv. Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.

v. Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.

vi. Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.

vii. Wet jet shall be provided for grinding and stone cutting.

viii. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.

ix. All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.

x. The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.

xi. The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.

xii. For indoor air quality the ventilation provisions as per National Building Code of India.

ATTESTED

Page 6 of 13

III. Water quality monitoring and preservation:

i. The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams; bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.

ii. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.

iii. Total fresh water use shall not exceed the proposed requirement as provided in the project details.

iv. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.

v. A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.

vi. At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.

vii. Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.

viii. Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.

ix. Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.

x. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.

xi. The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pits/storage tanks shall be provided for ground water recharging as per the CGWB norms.

xii. A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse.

ATTESTED

True Copy of the Record

The ground water shall not be withdrawn without approval from the Competent Authority.

xiii. All recharge should be limited to shallow aquifer.

xiv. No ground water shall be used during construction phase of the project.

xv. Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.

xvi. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.

xvii. Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.

xviii. No sewage or untreated effluent water would be discharged through storm water drains.

xix. Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.

xx. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.

xxi. Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

IV. Noise monitoring and prevention:

i. Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.

ii. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.

ATTESTED

True Copy of the Proposal

iii. Acoustic enclosures for DG sets, noise barriers for ground run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

V. Energy Conservation measures:

i. Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.
ii. Outdoor and common area lighting shall be LED.
iii. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.
iv. Energy conservation measures like installation of LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.
v. Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
vi. Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.

VI. Waste Management:

i. A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.
ii. Disposal of muck during construction phase shall not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
iii. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
iv. Organic waste compost/ Vermiculture pit/ Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.
v. All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.

ATTESTED

For Secretary of the Board

vi. Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.

vii. Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.

viii. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.

ix. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.

x. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VII. Green Cover:

i. No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).

ii. Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.

iii. Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VIII. Transport

i. A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
   a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
   b. Traffic calming measures.
   c. Proper design of entry and exit points.
   d. Parking norms as per local regulation.

ATTESTED

True Copy of the Record

ii. Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.

iii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

IX. Human health issues:

i. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.

ii. For indoor air quality the ventilation provisions as per National Building Code of India.

iii. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.

iv. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

v. Occupational health surveillance of the workers shall be done on a regular basis.

vi. A First Aid Room shall be provided in the project both during construction and operations of the project.

X. Miscellaneous:

i. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.

ii. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.

iii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of

True Copy of the Record

monitored data on their website and update the same on half-yearly basis.

iv. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.

v. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.

vi. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.

vii. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report

viii. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.

ix. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.

x. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.

xi. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.

xii. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).

xiii. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

xiv. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.

ATTESTED
True Copy of Record

xv. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.

xvi. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.

xvii. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

xiv. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

7. The Environmental Clearance is being granted to M/s. Delhi Agricultural Marketing Board (DAMB) for development of Modern Poltry & Egg Market with built up area of 96,629.057sqm at B-1 Pocket, adjacent to NH-24 Ghazipur, New Delhi.

8. This issues with the approval of the Competent Authority.

F.No.DPCC/EC/24811/ 3946 Dated: [illegible]

SUB: DIRECTION U/S 33(A) OF THE WATER (PREVENTION AND CONTROL OF POLLUTION) ACT, 1974 AS AMENDED TO DATE.

Whereas, under the mandatory provision u/s 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 without the previous consent of the Committee, no person shall establish or take any steps to establish any industry, operation or process, or any treatment and disposal system or any extension of addition thereto, which is likely to discharge sewage or trade effluent into a stream or well or sewer or on land or bring into use any new or altered outlets for the discharge of sewage or begin to make any new discharge of sewage.

And whereas, you **Project Engineer-II, Delhi Agriculture Marketing Board, 9, Institutional Area, Pankha Road, Janakpuri, New Delhi-110058** (hereinafter referred as addressee) have applied for Consent to Establish under the Air & Water Acts to this office on 24.01.08 for the project of Modern Poultry & Egg market at Ghazipur, New Delhi for activity of dressing of Poultry birds and causing water pollution.

And whereas, your unit was inspected on 11.09.08 and the observations and continuing violations of the law observed during inspection were,as follows :-

1. No construction activity/excavation is started so far for the proposed project of setting up of mechanized chicken dressing plant at Gazipur, Delhi.
2. Presently, poultry market is running in two sheds having 88 Shops, Paultry premises is very near to the MCD slaughter House.
3. Facility of slaughtering of birds through manual operation is provided by the DAMB in the adjacent portion of market for which no permission has been taken from DPCC.
4. Approx 35,000 birds are slaughtered per day. Ground water supply (one bore of 12" diameter & 5 bore of 4" diameter) is provided for washing and other ancillary activities during slaughtering of birds.
5. Effluent Treatment Plant has not been installed for the existing slaughtering activity.
6. A large quantity of trade effluent (Approx. 6 Lakh liters/day) is being discharged in open drain leading to the main drain without any treatment which is clear violation u/s 24 of the Water Act, 1974. Such large quantity of waste water discharge has implications of keeping Delhi's Yamuna and Delhi's water clean and the unit requires strict enforcement of various provisions of Water Act, 1974.

Contd...2

And whereas, you were requested to apply for Consent to Establish for the existing unit immediately and to install ETP within 90 days and furnish/submit a time bound program in this regard vide this office letter even no. dated 27.10.08.

And whereas, you have submitted a reply in this office on 21.11.08.

And whereas, the case was put up alongwith your reply & discussed in the CMC (MSW) meeting held on 05.12.08 and it was decided to issue the Directions to you for immediate installation of ETP within 60 days.

Now therefore, the Competent Authority in Delhi Pollution Control Committee, in exercise of powers conferred upon it, u/s 33 (A) of the Water (Prevention and Control of Pollution) Act, 1974 as amended to date, has decided to issue the following directions:-

1. That you (the addressee) shall install ETP within 60 days and submit a time bound program in this regard within 15 days from the date of issue of these directions.
2. That you shall stop the operation of all the water polluting activities of your unit, if failed to comply direction as (1) above.
3. That the Power Supply Co. and Delhi Jal Board shall be directed to disconnect the power supply and the water supply available with the addressee respectively, if failed to comply direction as (1) above.
4. That the concerned Authority in MCD and Delhi Police shall be directed to cancel the license to the aforesaid unit, if failed to comply direction as (1) above.

This issue as per the decision of aforesaid **Consent Management committee (MSW).**

DELHI POLLUTION CONTROL COMMITTEE
DEPARTMENT OF ENVIRONMENT, (GOVT. OF NCT OF DELHI)
4th & 5th FLOOR, ISBT BUILDING, KASHMERE GATE, DELHI
visit us at : http://dpcc.delhigovt.nic.in

F. No. DPCC/WMC-II/ 2014/SH-2/ 2209 Dated: 02/06/2014

Subject: Directions u/s 33 (A) of the Water (Prevention & Control of Pollution) Act, 1974 as amended to date.

Whereas, Central Pollution Control Board is the State Board for all the union Territories to exercise powers and performs functions under the Water (Prevention & Control of Pollution) Act, 1974.

And whereas, Central Pollution Control Board has delegated all its powers and functions under Water (Prevention and Control of Pollution) Act,1974 in respect of Union Territory of Delhi to Delhi Pollution Control Committee.

And whereas, it is mandatory provisions u/s 25/26 of the water (Prevention & Control of Pollution) Act, 1974 that no person without the previous consent of DPCC shall Establish or take any steps to establish any industry, operation or process or any treatment and disposal system an extension or addition thereto, which is likely to discharge sewage or trade effluent in to a stream or on land.

And whereas Central Pollution Control Board (CPCB) has issued directions to DPCC u/s 18(1)(b) of The Water (Prevention & Control of Pollution) Act, 1974 regarding continuous monitoring of industrial effluent quality before final disposal for self monitoring of compliance vide letter No.B-190019/NGRBA/CPCB/2011-12 dated 05.02.2014 (copy of the directions is enclosed as Annexure-I).

And whereas for strengthening the monitoring and compliance through self regulatory mechanism, online source and effluent monitoring systems need to be installed and operated by the developers and the industries on "polluter pays principle".

And whereas it is becoming a need and necessity to regulate and minimize inspection of industries on routine basis and instead efforts need to be made to bring self discipline in the industries to exercise self monitoring and compliance and transmit data of effluent compliance tc DPCC and to CPCB on continuous basis.

And whereas there could be sometime needed for getting such devices standardized and requiring confidence on data generated but, needless to emphasize that efforts towards setting up to continuous monitoring devices is essential.

And whereas the ground toothing of the values indicated by online devices need to be done before bringing them in public domain for proper interpretation and such measure need to be taken at the level of DPCC. And whereas for regulatory purposes and for purposes of actions to be taken against complying industries/facilities, the existing methods of sampling, analysis and related procedures need to be continued.

And whereas DPCC have prescribed standards for various parameters as per the notified standards under Environment (Protection) Act, 1986.

And whereas the Grossly Polluting Industries (GPI) operating in the NCT of Delhi have been identified for installation and commissioning of real time effluent monitoring systems excepting State of Haryana, Himachal Pradesh, Rajasthan, Madhya Pradesh, Chhattisgarh whose State Boards shall now identify the industries for said purpose.

Contd..2..

And whereas CPCB vide above directions under section 18 (1)(b) of the Water Act, 1974 has directed DPCC to issue directions u/s 33 (A) of the Water Act, 1974 for the compliance of the said directions u/s 18(1)(b) of the Water Act, 1974.

And whereas, you **The Project Engineer-II, M/s Delhi Agriculture Marketing Board, 9, Institutional Area, Pankha Road, Janak Puri, New Delhi-110058** (hereinafter referred as addressee) is engaged in the activity of Poultry and Egg Market at Ghazipur, East Delhi.

Now therefore, the Competent Authority of Delhi Pollution Control Committee, in exercise of power conferred upon it u/s 33 (A) of the Water (Prevention and Control of Pollution) Act, 1974 as amended to date, has decided to issue the following directions:-

a. That you (the addressee) shall install online effluent quality monitoring system at the outlet of ETP for the measurement of the parameters flow, pH, TSS, COD, BOD, Total Kjehldal Nitrogen, Phosphates as PO_4, Oil & Grease as mentioned in the consent not later than by March 31, 2015 and transmission of online data so generated to DPCC and CPCB system as well.

b. That you (the addressee) shall install surveillance system with industrial grade IP (Internet Protocol) cameras having Pen, Tilted Zoom (PTZ) with leased line real time connection for data streaming and transmission of the same.

c. That you (the addressee) shall ensure regular maintenance and operation of the online system with temper proof mechanism having facilities for online calibration.

d. That you (the addressee) shall submit a time bound action plans to this office and CPCB on above measures by 30th June, 2014 and complete directions before March 31, 2015 in a time manner.

e. That you (the addressee) shall submit a bank guarantee of the amount (25% of the device to be installed) towards the commitment for installation and commissioning of real time effluent monitoring system along with web cameras within the prescribe time period, to the satisfaction of DPCC and CPCB, with provisions of forfeiture in case of non-compliance. Validity of the bank guarantee shall be 30th June, 2015.

Your reply with time bound action plan shall reach to this office within 30 days from the date of issue of these directions but not later than 30th June, 2014. Failing to comply with the above, action shall be taken u/s 41(2) of the Water (Prevention and Control of Pollution) Act, 1974 as amended to date.

This is being issued as per the approval of the Competent Authority.

Sr. Environmental Engineer
Waste Management Cell-II

ORDER

1. We have heard the learned counsel for the parties at length. On 23-8-2012, this Court passed a detailed order[1] giving positive directions to all the State Governments and Union Territories to constitute their respective Committees in terms of the decision taken by the Union of India on 26-4-2012.

2. We are informed that all the State Governments and Union Territories have already constituted their respective Committees, as directed by this Court on 23-8-2012[1]. We are now concerned with the question as to whether these Committees are effectively and properly functioning and taking steps for proper implementation of the provisions of the various legislations, referred to in the previous order.

1 *Laxmi Narain Modi* v. *Union of India*, (2014) 2 SCC 417

3. It is pointed out that though the Committees have been constituted but they are not effectively and properly discharging their functions referred to in para 4 of the order [dated 26-4-2012 of MoEF as extracted in para 8 of the order of the Supreme Court] dated 23-8-2012[1]. We reproduce the said para 4, for ready reference:

"8. ... 4. Functions of the State Committee for Slaughterhouses so constituted may be as follows:

(*i*) To identify and prepare a list of all the slaughterhouses (SHs) located within the Local Self-Government (Municipal Corporations, Panchayats, etc.)

(*ii*) To call for reports from the District Magistrate or the Deputy Commissioner and District Food Safety Inspector as the case may be on the condition/functioning of the SHs and also on the compliance with the relevant applicable laws.

(*iii*) To recommend modernisation of old slaughterhouses (SHs) and to relocate SHs which are located within or in close proximity of a residential area.

(*iv*) To recommend appropriate measures for dealing with solid waste, water/air pollution and for preventing cruelty to the animals meant for slaughter.

(*v*) To carry out surprise and random inspections of SHs regularly and to issue directions for compliance with the recommendations that may be made by it.

(*vi*) To send biannual reports on the State SHs to the Central Committee and to refer issues that may require the Central Committee recommendations or the Central Government assistance.

(*vii*) To accord final approval for licensing of SHs to Local Self-Government.

(*viii*) To identify on an ongoing basis, the unlicensed slaughterhouses in the region, and other unlicensed, unlawful establishments where animals are being slaughtered, on howsoever small scale, and take the help of the District Magistrate and other law enforcement agencies to crack down on the same.

(*ix*) To check for child labour. (Action: AWD)"

4. We have to find out as to whether these Committees are properly functioning or not as per the directions vide para 4, referred to hereinabove. All the State Governments/Union Territories are directed to file their respective action-taken reports within a period of one month.

5. Mr Raj Panjwani, learned Senior Counsel appearing for the petitioner, referred to the order dated 10-10-2012[2] and submitted that on the basis of this Court's directions, guidelines have already been framed and placed before the Ministry of Environment and Forests (MoEF). It is for MoEF to examine the same and finalise the guidelines and place it before the Court. One month's time is granted to do the needful.

2. (2014) 1 SCC 612, *Laxmi Narain Modi* v. *Union of India* 243*g-h*

ORDER

1. Heard the counsel on either side. This Court has passed an order on 28-3-2005[1] for proper and effective implementation of the provisions of the Prevention of Cruelty to Animals (Establishment and Registration of Societies for Prevention of Cruelty to Animals) Rules, 2000 and the Environment (Protection) Act, 1986, the Solid Wastes (Management and

The Rules of 1983 stand repealed by the Karnataka Judicial Service (Recruitment) Rules, 2004 (hereinafter referred to as "the 2004 Rules") and Rule 11(2) thereof reads as under:

> "11. (2) All rules regulating the conditions of service of the members of the State Civil Services made from time to time under any law or the proviso to Article 309 of the Constitution of India shall, subject to Articles 233, 234 and 235 be applicable to the Civil Judges (Junior Division), Civil Judges (Senior Division) and the District Judges recruited and appointed under these Rules."

Thus, it is evident that the State Government is competent to appoint the learned Special Judge on contractual basis after his retirement for the period required to conclude the present trial, though with the consultation of the High Court as required under Article 235 of the Constitution. Further, in our humble opinion, such a course must be adopted in the manner prescribed under the 2004 Rules, and in view thereof, the matter requires to be considered by the State Government with the consultation of the High Court.

37. Therefore, in view of the aforestated facts, we refer the matter to the High Court of Karnataka to decide on the administrative side as to whether, in order to conclude the trial expeditiously as guaranteed under Article 21 of the Constitution requires the extension of the services of the learned Special Judge. Considering the urgency of the matter, we request the High Court of Karnataka to take a decision in this regard as early as possible.

38. In view of the above, we are of the considered opinion that the order of removal of Shri G. Bhavani Singh, Respondent 4 is a product of mala fides and the impugned order is not sustainable in the eye of the law as such the same is hereby quashed.

39. With the aforesaid observations/directions, the writ petitions stand disposed of.

[CITED ORDER]*

(2014) 2 Supreme Court Cases 417

(Record of Proceedings)

(BEFORE K.S.P. RADHAKRISHNAN AND DIPAK MISRA, JJ.)

LAXMI NARAIN MODI .. Petitioner;

Versus

UNION OF INDIA AND OTHERS .. Respondents.

Writ Petitions (C) No. 309 of 2003 with No. 330 of 2001, 44 of 2004 and 688 of 2007, decided on August 23, 2012

Animals, Birds and Fish — Wildlife — Animal welfare — Slaughterhouses (SHs) — Effective implementation of MoEF guidelines — Directions — State Governments and UTs directed to expeditiously form State Committees for SHs within one month and report compliance and to include in said Committees the Secretaries of Local Self-Government as well

Prevention of Cruelty to Animals (Establishment and Regulation of Societies for Prevention of Cruelty to Animals) Rules, 2000 and also the provisions of the Environment (Protection) Act, 1986, Schedule I Entry 50 and also the Municipal Solid Wastes (Management and Handling) Rules, 2000, etc. Further, direction is also sought to ensure that the animals meant for slaughter are not transported in violation of the Transport of Animals Rules, 1978 and the Prevention of Cruelty to Animals (Transport of Animals on Foot) Rules, 2000. Further, prayers have also been made to ensure that the recognised slaughterhouses are in conformity with the provisions of the Prevention of Cruelty to Animals (Slaughter House) Rules, 2000 and also for other consequential reliefs.

2. A detailed affidavit has been filed by the Central Pollution Control Board (for short "CPCB") as early as in October 2003 wherein it has categorically stated as follows:

> CPCB is of the view that the slaughterhouses generate substantial quantities of effluents and solid wastes. These slaughterhouses cause nuisance by way of foul smell due to improper handling. It is, therefore, necessary that these units should install pollution control devices so that they can comply with the prescribed standards. Further, it was stated that the existing slaughterhouses need to modernise their operations with greater emphasis on utilisation of waste to reduce environmental problems and to maintain hygienic conditions. It is also pointed out that most of the slaughterhouses in the country are very old and operate without basic amenities such as proper flooring, water supply, ventilation, etc., and there is no (*sic*) need to upgrade old slaughterhouses on modern lines.

3. Therefore, CPCB submitted that all the slaughterhouses in the country should comply with the prescribed standards. The local municipal agencies and police concerned should ensure that no illegal slaughtering takes place and also the units conform to the standards set by the State Pollution Control Boards and Pollution Control Committees.

4. This Court has passed various orders alerting the State Governments to properly implement the various provisions referred to hereinbefore but still no effective steps have been taken by various States either to constitute committees or to see that the slaughterhouses are functioning in accordance with the rules framed.

5. The matters have again come up for hearing today.

6. The learned Senior Counsel appearing for the Ministry of Environment and Forests (MoEF) brought to our knowledge a decision taken by the MoEF under the chairmanship of the Secretary, Ministry of Environment and Forests on 26-4-2012. In the meeting, CPCB has presented its status of 15 States whereas the Ministry of Labour gave a status of 20 States and the action plan was also discussed.

7. After examining the matter in depth by the Committee, they found the necessity of constituting the State Committees for slaughterhouses to fulfil

SCC Online Web Edition: http://www.sconline.com
TruePrint™ source: Supreme Court Cases

the mandatory requirements under the various legislations dealing with the functioning of the slaughterhouses in the country.

8. The decision dated 26-4-2012 [of MoEF] is extracted hereunder for easy reference:

"1. CPCB will write to all States informing about its guidelines for slaughterhouses. (Action: CPCB)

2. CPCB will also initiate action against all slaughterhouses which are not meeting the norms and implement the abattoir rules through SPCB. It was discussed that SPCB even has powers to close slaughterhouses under these rules. (Action: CPCB)

3. The States to be requested to constitute the State Committees for slaughterhouses as follows:

(*i*) Secretary of the Department of Urban Development of the State — Chairman.

(*ii*) Representative Department of Health.

(*iii*) Representative Department of Animal Husbandry.

(*iv*) Representative Department of Labour.

(*v*) Food Safety Commissioner representing Central Food Safety and Standard Authority of India.

(*vi*) Representative State Pollution Control Board.

(*vii*) Representative State Animal Welfare Board.

(*viii*) Representative of State Police.

(*ix*) Two prominent persons nominated by the State Government.

(*x*) Such other officers and experts as the members may choose to co-opt.

4. The functions of the State Committee for slaughterhouses so constituted may be as following:

(*i*) To identify and prepare a list of all the slaughterhouses (SHs) located within the Local Self-Government (Municipal Corporations, Panchayats, etc.)

(*ii*) To call for reports from the District Magistrate or the Deputy Commissioner and District Food Safety Inspector as the case may be on the condition/functioning of SHs and also on the compliance with the relevant applicable laws.

(*iii*) To recommend modernisation of old slaughterhouses (SHs) and to relocate SHs which are located within or in close proximity of a residential area.

(*iv*) To recommend appropriate measures for dealing with solid waste, water/air pollution and for preventing cruelty to the animals meant for slaughter.

(*v*) To carry out surprise and random inspections of SHs regularly and to issue directions for compliance with the recommendations that may be made by it.

SCC ONLINE True Print
SCC Online Web Edition, Copyright © 2021
Page 5 Wednesday, July 21, 2021

SCC Online Web Edition: http://www.sconline.com
TruePrint™ source: Supreme Court Cases

(*vi*) To send biannual reports on the State SHs to the Central Committee and to refer issues that may require the Central Committee recommendations or Central Government assistance.

(*vii*) To accord final approval for licensing of SHs to Local Self-Government.

(*viii*) To identify on an ongoing basis, the unlicensed slaughterhouses in the region, and other unlicensed, unlawful establishments where animals are being slaughtered, on howsoever a small scale, and take the help of the District Magistrate and other law enforcement agencies to crack down on the same.

(*ix*) To check for child labour. (Action: AWD)"

9. The learned counsel appearing for the petitioners also pointed out the necessity of including the Secretary, Local Self-Government as well as the Secretary, Panchayat Raj also as committee members for effective implementation of the various legislations.

10. Further, it was also pointed out that even though the decision was taken by the MoEF on 26-4-2012 the same was forwarded to various State Governments only on 2-7-2012 and so far no effective steps have been taken by the State Governments to constitute the Committee and to take further follow-up action. The functions to be discharged by such committees have also been dealt with in the meeting held on 26-4-2012 for proper implementation. The early constitution of the Committees is, therefore, highly necessary for proper and speedy implementation of the rules under the various enactments.

11. In such circumstances, we are inclined to give directions to all the State Governments and the Union Territories to constitute the State Committees for slaughterhouses, as decided in the meeting held on 26-4-2012, including the Secretary, Local Self-Government as well as Secretary, Panchayat Raj as members of the Committee over and above the members already mentioned.

12. Since the matter is pending in this Court for a number of years, we are inclined to give directions to the State Governments and the Union Territories to constitute the Committees within a period of one month and report compliance. Further, we also direct CPCB to write to all the State Governments informing about the guidelines for slaughterhouses as well as to initiate action against all slaughterhouses which are not meeting the norms and implement the abattoir rules through the State Pollution Control Board (SPCB).

13. CPCB will initiate steps within a period of two weeks from today. CPCB is also directed to submit its report within a period of one month.

14. List the matters after six weeks on a non-miscellaneous day.

Chronological list of cases cited *on page(s)*

1. (1996) 4 SCC 750, *M.C. Mehta* v. *Union of India* 35*f-g*, 36*c*, 37*d*
2. 1994 Supp (3) SCC 448, *Buffalo Traders' Welfare Assn.* v. *Maneka Gandhi* 37*b-c*

ORDER

1. These two applications relate to Idgah Slaughter House, Delhi. The common prayer in both of them is to hold that the order passed in *M.C. Mehta* v. *Union of India*[1] does not have the effect of modifying and/or setting aside the order dated 19-2-1996 passed in the connected civil appeals, by which interim order of status quo was passed, while granting special leave. As the order of status quo is in conflict with the order passed in the writ petition, a clarification has also been sought that notwithstanding the later order, the order of status quo would continue to remain in operation.

† From the Judgment and Order dated 27-1-1995 of the Delhi High Court in W.P. No. 2961 of 1992

SCC Online Web Edition: http://www.scconline.com
TruePrint™ source: Supreme Court Cases

2. The order in the writ petition relates not only to Idgah Slaughter House, but to 168 industries, of which the slaughter house is one. By that order it was held that all the 168 named industries are "hazardous/noxious" and, therefore, a direction was given that these industries shall stop functioning and operating in the city of Delhi with effect from 30-11-1996. Direction No. (8) stated that the closure order shall be unconditional by adding that "[e]ven if the relocation of industries is not complete they shall stop functioning in Delhi with effect from 30-11-1996".

3. As the aforesaid order is relatable to 168 industries, it has to be seen whether any exception can be made insofar as the slaughter house is concerned to permit it to operate and function beyond 30-11-1996. It is worth pointing out that when the interlocutory application in the writ petition was being heard, nobody had appeared on behalf of the slaughter house, despite ample opportunities having been given. This apart, perusal of the order dated 8-7-1996[1] shows that that had come to be passed after this Court was satisfied beyond doubt regarding the hazardous nature of the slaughter house, because of what was found by Central Pollution Control Board, Delhi Pollution Control Committee and a Special Committee constituted by this Court.

4. Further, insofar as the slaughter house is concerned, a Division Bench of the Delhi High Court had, as early as 1-10-1992 by its judgment in CWs Nos. 2267 of 1990, 158 of 1991 and 130 of 1992, directed, inter alia, that the slaughter house shall be closed with effect from 31-12-1993 or from any earlier date which may be fixed by the Court keeping in view the facts and circumstances which may arise before that date. The Delhi High Court came to be seized with another petition on the same subject filed by Maneka Gandhi, who had initially approached this Court by making a grievance regarding the "unhygienic, inhuman and horrible conditions prevalent at Idgah Slaughter House of Delhi". This Court directed the High Court to dispose of the petition. By judgment dated 27-1-1995 in Civil Writ No. 2961 of 1992 another Division Bench, inter alia, ordered for closure of the slaughter house on or before 31-12-1995. The aforesaid two appeals have challenged the later judgment of the Delhi High Court in which, while granting special leave, status quo order reading as below was passed:

> "Our attention is drawn to the minutes of the meeting dated 14-2-1996 which state that the consensus between the authorities and parties concerned was that there was no place available in or around Delhi to which the slaughter house could be shifted. Having regard to this unambiguous statement the matters shall have to be fully heard.
>
> Special leave granted. The appeals re-expedited. Liberty is given to the parties to move Hon'ble the Chief Justice for the purposes of early hearing. In the meantime, status quo shall be maintained."

5. A perusal of the status quo order leaves nothing to doubt that it is founded on the consensus regarding no place being available in or around Delhi to which the slaughter house could be shifted. This consensus is reflected in minutes of the meeting dated 14-2-1996. We have perused the same. It shows that in the meeting 35 persons were present and the participants showed their concern about "illegal slaughtering in different localities" but because of non-availability of alternative place, modernisation of the slaughter house was agreed to. Now,

ATTESTED

SCC Online Web Edition: http://www.scconline.com
TruePrint™ source: Supreme Court Cases

insofar as availability of some other place in and around Delhi is concerned, because of the sustained efforts made by this Court from 16th September onwards, an area of about 55 acres has been made available and possession of the same has also since been reportably delivered. Thus, the basis of passing the status quo order no longer exists.

6. S/Shri Dholakia and Nariman, learned Senior Counsel appearing for the applicants, have nonetheless contended that to take care of the difficulty which the consumers would face if the slaughter house would be closed as directed, it should be permitted to function at least up to the period when alternative arrangement for slaughtering is made at the new site. Shri Nariman read out to us the order passed in *Buffalo Traders' Welfare Assn. v. Maneka Gandhi*[2] in which questions were raised as to what would happen when thousands of workers would be thrown on the streets jobless and how the meat requirements of a large city would be met? It was submitted by Shri Dholakia that if the slaughter house would be closed, unhygienic meat would be supplied to the consumers which would be more hazardous.

7. Insofar as the workers are concerned, it may be pointed out that due attention has been paid, inter alia, to their continuity of service and payment with full wages till the closure and restarting of all the industries, as would appear from direction (9) as contained in the order of 8-7-1996[1], relevant part of which reads as below:

> "(9) The workmen employed in the above-mentioned 168 industries shall be entitled to the rights and benefits as directed hereunder:
>
> (*a*) the workmen shall have continuity of employment at the new town and place where the industry is shifted. The terms and conditions of their employment shall not be altered to their detriment:
>
> (*b*) the period between the closure of the industry in Delhi and its restart at the place of relocation shall be treated as active employment and the workmen shall be paid their full wages with continuity of service.
>
> * * *"

8. As regards the consumers, we are of the view that they would not face much of a problem. It has been stated in para 119 of the impugned judgment that hygienic and fresh meat in adequate quantity can be brought from the nearby slaughter houses as a purely temporary measure. As the cattle which are slaughtered are brought from outside, according to us, there should be no difficulty in bringing the meat, instead of the animals themselves.

9. As to the argument that closure of the slaughter house should see unhygienic meat in the market, we should like to observe that this apprehension does not seem justified because there are licensed slaughter houses near Delhi. It is worth pointing out that when the Idgah Slaughter House had remained closed for nearly three months in 1994, because of the strike by butchers, there is nothing on record to show that the consumers had to remain satisfied by eating unhygienic meat. The availability of the meat also did not get adversely affected.

10. In the aforesaid premises, though the interlocutory applications are liable to be dismissed, but the consideration which is weighing with us in not

TruePrint™ source: Supreme Court Cases

dismissing the same altogether is the interest of a large number of consumers in the territory of Delhi. This is the only industry of its type in the territory. There being no other slaughter house near at hand to cater to the needs of the residents of Delhi some hardship is likely to be caused to the meateaters. At the same time the interest of environment and ecology cannot be ignored. It cannot be disputed that the slaughter house is being run under highly polluted environment. With a view to keep a balance between the need of the people of Delhi and the environment, we direct as under:

(1) We permit the Idgah Slaughter House to function till 30-6-1997 on the following conditions:

(*i*) Goats/he-goats/sheep numbering 2000 per day shall be permitted to be slaughtered in the premises, no other animal shall be slaughtered.

(*ii*) Buffaloes (any sex), cows, bulls (i.e. large animals) shall not be permitted to be slaughtered as their slaughter generates more pollution. The buffalo section is the most polleted section in the slaughter house. We reiterate that except 2000 (two thousand only) goats/he-goats/sheep no other animal to be slaughtered in the premises. The buffalo section of the slaughter house shall be closed with immediate effect.

(*iii*) The slaughter house shall be kept environmentally clean by the MCD.

(2) The Central Pollution Control Board shall visit the slaughter house every two months till 30-6-1997 and file report in this Court indicating the environmental status of the premises.

(3) The animal market shall not be permitted to function near the slaughter house. Holding the animals market in the crowded part of the city is environmentally hazardous and cannot be permitted.

(4) The Deputy Commissioner of Police of the area shall stop the holding of the market in the vicinity of the slaughter house. The meat-sellers/butchers may bring the animals to the slaughter house in an environmentally clean manner and take the meat back in similar way. No market should be permitted in the area.

(5) The Municipal Corporation of Delhi shall stop all illegal slaughtering in Quasebpura area near Idgah or any other part of Delhi. The Commissioner, Municipal Corporation, Delhi shall take necessary steps to stop the illegal slaughtering in all parts of Delhi. If necessary, police help be taken in this respect.

(6) We make it clear that heavy pollution fine shall be imposed by this Court on polluters indulging in illegal slaughtering. Even the MCD shall be liable to pollution fine if the slaughter house is not kept environmentally clean. The staff in charge of the slaughter house may personally be liable to pay the fine.

(7) The Municipal Corporation of Delhi shall take steps on a war footing to construct the modern slaughter house on the alternative land already acquired by the Corporation. We make it clear that the Idgah Slaughter House would not be permitted to continue at the present site beyond 30-6-1997.

11. The IAs are disposed of accordingly.

(2010) 15 Supreme Court Cases 248

(BEFORE V.S. SIRPURKAR, CYRIAC JOSEPH AND DEEPAK VERMA, JJ.)

BUFFALO TRADERS WELFARE ASSOCIATION .. Appellant;

Versus

UNION OF INDIA AND OTHERS .. Respondents.

Civil Appeals No. 3769 of 1996 with Nos. 3770-74 of 1996 and WPs (C) Nos. 192 of 2004 and D14793 of 2000, decided on May 5, 2010

Local Government — Municipalities — Slaughterhouses — Shifting of slaughter house — Shifting now complete in pursuance of earlier orders — Undertakings given by MCD shall be adhered to and sincere efforts shall be made to provide basic amenities in slaughterhouse — Writ petitions and appeals disposed of

J-D/46626/S

ORDER

1. Mr Sanjib Sen, learned counsel appearing for MCD submits that all these appeals have become infructuous as they relate to the shifting of slaughter house from Idgah to Ghazipur and the shifting is now complete in pursuance of the earlier orders passed by this Court from time to time. This statement is not controverted by any of the counsel for the appellant.

2. Accepting the statement made at the Bar and after perusing the appeals and the writ petitions, they are disposed of as infructuous.

3. We hope that whatever undertakings have been given by MCD in its earlier affidavits, the same shall be adhered to and sincere efforts shall be made to provide basic amenities in the slaughter house at Ghazipur.

WP (C) No. 452 of 1995

4. The learned counsel appearing for the applicant seeks leave of the Court to withdraw the writ petition. Permission granted. The writ petition is, accordingly, dismissed as withdrawn with liberty to pursue such remedies as are available to the applicant in law.

IAs Nos. 22, 40, 41, 42 in Civil Appeal No. 3769 of 1996, IA No. ... in Civil Appeal No. 3769 of 1996 (Buffalo Traders Welfare Assn. v. Union of India) and IAs Nos. 2, 3 in Civil Appeal No. 3773 of 1996

5. In view of the order passed in the civil appeals, these IAs have become infructuous and are disposed of accordingly.

OFFICE OF THE DIRECTOR OF LOCAL BODIES
GOVERNMENT OF NCT OF DELHI
9TH LEVEL, C – WING, DELHI SACHIVALAYA
I.P. ESTATE, NEW DELHI – 110002

F. No. 13(46)/CC/MB/UD/2012/P.F./ Dated :

Minutes of the meeting of the Committee constituted for observing the functioning of slaughter houses in terms of order passed by Hon'ble Court in the WP (C) 330 of 2001 titled as common cause VS Union of India & ors held in the conference room at 9th Level, C – Wing, Delhi Secrt. Under the chairmanship of Principal Secretary (UD), on 15/09/2016 at 03.30 PM.

A meeting was held under the chairmanship of Principal Secretary (UD) on 15/09/2016 at 3.30 PM to discuss the matters relating to slaughter houses. The list of participants is enclosed.

Following points were discussed in the meeting.

1. At the outset the Principal Secretary UD observed that no junior functionaries of the departments may be present in the future meetings and the permanent nominee from each department may be appointed to attend the meetings.

2. The Principal Secretary but enquired about the action taken against the illegal slaughter houses and ATR thereof no substantive reply was given by the representatives of the departments and it was again directed by Principal Secretary UD to identify such cases and take action as per law/rules.

3. The representative of the North DMC submitted their action taken report against the illegal slaughtering and it was decided that the orders of the Hon'ble Supreme Court have to be complied with in letter and spirit as regards the unlicensed/illegal shops/slaughter houses.

4. Regarding Child labour – The Principal Secretary observed that the status regarding the same may be provided by the departments at the earliest.

5. Regarding the status report pertaining to the slaughter house at Rani Khera. The Principal Secretary UD directed to provide the immediate status of the project.

6. The Principal Secretary UD observed that the South DMC shall provide the suggested place for the slaughter house and the similar action may be taken by North DMC. The Principal Secretary UD further observed that there are legal provisions under DMC Act for issuing trade licenses however even though the MCD issues trade license for selling food products but no one applies for such food licenses with the PFA. Principal Secretary UD further instructed the representative of FSSAI for circulating the relevant act and rules to all local bodies.

7. Regarding the payment of remuneration to the Convenor the matter was discussed at length and the Principal Secretary UD directed to submit the proposal and suggested that the proper sitting arrangements may be made for him.

8. Ms. Gauri Maulekhi suggested that action should be taken against the slaughter house and Director, Veterinary, EDMC based on the report of the Mayor and the concerned Additional Commissioner who inspected the slaughter house. Before any action is initiated a sub-committee was proposed to be formed for the surprise inspection of the slaughter house. Accordingly, a sub-committee comprising of Director V.S., SDMC as convenor and Director V.S., North DMC, Director Animal Husbandry, GNCTD, representative of FSSAI and Ms. Gauri Maulekhi as member was constituted to carry out surprise inspection of slaughter house and submit a report to the committee.

9. Regarding the report of solid waste it was observed by Principal Secretary UD that the report on the same which is still awaited may be submitted to Directorate of Local Bodies.

10. It was brought to the notice of the committee that no veterinary doctors are found available at the time of slaughtering of animals which means there is not provision to check as to whether the animal is pregnant, sick etc. The representatives of East DMC submitted that there are ten veterinary doctors for the same.

11. Regarding the Govt. of India Ministry of Environment letter dated 17/08/2016 it was observed that all stake holders should submit an ATR regarding the same.

12. It was brought to the notice of the committee that as per rule one doctor can check 96 animals in eight hours. The capacity of Ghazipur slaughter house is about 5000 animals per day so as per law the slaughtering must be reduced as per the availability of the doctors of the veterinary. The Principal Secretary UD observed that action may be taken immediately for appointing additional veterinary doctors for the purpose. It was brought to the notice of the chair that the proposal for appointment of about 75 veterinary doctors had been initiated for approval of the Corporation. The Principal Secretary UD observed that the same may be followed up expeditiously.

13. Ms. Gauri Maulekhi informed that there was a videography in which an animal was shown hanged live without waiting for its death. On this the Principal Secretary UD observed that this should not be allowed and it may be ensured that the slaughtering may be done as per the guidelines.

The meeting ended with thanks to the chair.
