...RESPONDENTS

AFFIDAVIT ON BEHALF OF RESPONDENT NOS. 19 AND 20

OPPOSING I.A NO. 143 OF 2021 FILED IN OA NO. 187 OF 2021

I Ram Kumar Porwal, aged 58 Years, son of Late Sri P.L. Porwal, having office at Second Floor, H. No. 40-14-7, Chandra Mouli Puram, Benz Circle, Vijayawada, Krishna District, Andhra Pradesh, 520010, presently in New Delhi the authorized representative on behalf of the Respondent Nos. 19 and 20, do hereby on solemn affirmation state and submit as under:-

1. That I am the deponent herein and as such I am well acquainted with the facts of the case and competent to swear this Affidavit. I have been authorized to file the present Affidavit on behalf of the Respondent Nos. 19 and 20 opposing the Prayers in the Application as contained in I.A No. 143 of 2021 filed in O.A No. 187 of 2021 (hereinafter referred to as "I.A").

ATTESTED
NOTARY PUBLIC
DELHI (INDIA)
Ch. No.-5, Patiala House Court, N.D.-1
Reg. Entry No. R-2633/21

2. That the answering Respondents herein deny each and every averment made in the said I.A as false and incorrect except those

that are specifically admitted herein in this Affidavit. That none of the averments made in the said I.A may be construed as an admission if the same are not specifically dealt with or denied herein. The answering Respondents crave leave of this Hon'ble Tribunal to file a detailed Counter Affidavit to oppose the main O.A No. 187 of 2021. The answering Respondents crave leave of this Hon'ble Tribunal to file a further Reply Affidavit if such need so arises. This Hon'ble Tribunal has been pleased to, vide its Order dated 20.09.2021 call for an interim Report by the said Committee appointed by this Hon'ble Tribunal. This Respondents crave leave to file a detailed response to the interim report and main report as and when filed by the said Committee.

3. The Present Affidavit is, as stated herein after, filed for the limited purpose. The Respondents herein reserve their right and craves leave of this Hon'ble Tribunal to file an appropriate Reply / Counter Affidavit on the merits of the main matter which otherwise has been posted to 5th of October 2021.
4. That the present Affidavit is being filed opposing the I.A and the prayers made therein. Annexed hereto and marked as **Annexure – A** at page _____ is a copy of Order dated 20.09.2021.
5. That the Applicants have in I.A No. 143 of 2021, prayed that:
 - i) No sale or removal of sand from any of the stockyard takes place till the Joint Committee completes its inspection.

- ii) Direct the committee to inform the Applicant regarding the Inspection at least in respect of the Guntur and Krishna Districts.

That the present Affidavit is being filed opposing the first prayer and in so far as the second prayer is concerned, this Hon'ble Tribunal has vide its Order dated 20.09.2021 directed that allowing parties to appear before the Committee may lead to a law and order situation, the committee has therefore been directed to give notice to the counsel appearing for the parties to make its representation regarding such things to be noted by the committee.

6. It is submitted that the Applicant has not made out any case whatsoever to obtain any reliefs qua its prayer i.e to stop sale or removal of sand from any of the stockyards, till the Joint Committee completes its inspection. That the said prayer is devoid of any merit and ought to be rejected as is enumerated herein below.

I. PRELIMINARY OBJECTIONS:

- a. That the present I.A No. 143 of 2021 filed by the Applicant is misconceived both in law and logic, in as much as first of all, there is a statutory requirement on part of the contractor to maintain sand for sale throughout the year in terms of the Andhra Pradesh Minor Mineral Concession Rules, 1966, Amendment Notification dated 16.04.2021, and therefore, stoppage of sale as is being sought for by the Applicant is misconceived and ought to be rejected.

- b. That Secondly, linking sale from the stock to the inspection which is to be carried out by the Committee constituted by the Hon'ble Tribunal vide its Order dated 25th August 2021, is also misconceived and devoid of any merit in as much as the answering Respondents;
- i) havenot exhausted the available limit under the respective EC's;
 - ii) have submitted all production and dispatch details on a monthly basis thus, the quantities excavated are already available with the DMG;
 - iii) and there is no concept of no sale during the monsoon period as is being projected by the Applicant herein, while on the contrary the Statute as well as the lease deed mandates that stock of sand is kept available for sale throughout the year, more so a buffer stock for the monsoon period so as to meet the demand for the same.
- c. That the present I.A lacks bonafides and merit in law in as much as the basic tenets of prima facie case, balance of convenience, irreparable loss, are not even pleaded more so have not even been established. That it was never the case of the Applicant herein that any form of excessive or illegal sale of sand is taking place, thereby implying that every sale undertaken by the answering Respondents, is legal and documented for. In such scenario there is no merit or substance in the averment made by the Applicant *"that there is likelihood that the existing stock was be either sold or*

removed, which will lead to underestimation of the amount of sand mining that has taken place". That for all practical purposes the quantity of stock can always be ascertained based on the details of production, storage and sale which are required to be filed under the Rules with the Department, all of which have been duly complied with at the relevant time and has been documented and periodically submitted to the DMG. The averments and the apprehensions expressed by the Applicant are therefore made in a most casual manner without any justification or basis completely depicting a very casual approach in a matter of this type. The whole I.A aimed at stopping sale from the stockyard casually contains only four paragraphs which itself are devoid of any merit.

- d. That the prayer for interim reliefs being sought for does not find any averments made in the main Application filed by the Applicant, and the I.A is a mere afterthought which came to be filed after this Hon'ble Tribunal's Order dated 25th August 2021.
- e. That the applicant has made following incorrect statements / has produced and annexed and relied upon irrelevant, and incorrect documents.

The applicant in a most casual manner made vague statements of illegal mining without specifying as to where,

when, and how the illegal mining is undertaken, if at all as alleged.

g. The Applicant has produced along with the application an incorrect tender document issued on 27.07.2019 annexed at Annexure A6 at page 538 of Volume 3. The said Tender, at page 538 annexed as annexure A6 was called for by the Andhra Pradesh Mineral Development Corporation Ltd and not by the State of Andhra Pradesh. The said Tender was for selection of a contractor for excavation and transportation. At the relevant time the said reaches were operated by APMDC and hence for executing the work they had to appoint a contractor. Whereas, in the present case, the State of Andhra Pradesh decided to lease out the sand reaches and accordingly for that purpose invited a tender on 8th January 2021. This was a tender invited by MSTC Limited a Government of India enterprise, on behalf of the Director of Mines and Geology, Government of Andhra Pradesh for selection of an agency for conducting all sand mining operations in three different packages.

h. Indeed, the Applicant has made a completely false statement in para 9 at page 14 of the O.A. which is reproduced here for ease of reference "*the said features have been highlighted even recently vide tender document dated 27.07.2020....*"

- i. As a matter of fact the Tender document NIT in the present case was issued as recent as 8.01.2021. The said Tender document of 08.01.2021 was apparently known to the Applicant but the Applicant chose not to annex the said document.
- j. The Tender document of 2021 was issued by MSTC a Government of India Enterprise on behalf of the State Government in compliance with all the Rules and Regulations. That MSTC itself is a professional agency and has issued the said Tender of 2021 by following all provisions of Laws, Rules, Guidelines and Acts, and the Tender document was floated in January 2021.
- k. The Tender Document of 2019, was issued by APMDCL, for appointment of a contractor and was issued prior to the MOEF&CC guidelines and did not incorporate various provisions of the Guidelines and Rules.
- l. The Applicant has, annexed the 2019 Tender document and deliberately made a wrong statement that as late as 2019 the said document was floated, and has annexed the same, which appears to be the subterfuge in connivance with some rival Company i.e. some other unsuccessful bidder, who had obtained the said document when the tender was floated in 2019. Based on the said tender document of 2019 which was a different type of Tender and has nothing to do with the Respondents 19 and 20 herein and based on such incorrect

document's averments are made in the present Application and on this ground alone the said Application deserves to be rejected.

m. The answering Respondents crave leave of this Hon'ble Tribunal to refer and rely on the correct and relevant Tender document dated 08.01.2021, in the main reply to the O.A, proposed to be filed by the answering Respondents, which is under preparation.

n. The entire O.A filed by the Applicant is completely misconceived, the grounds in Para II at page 16 of the O.A, are devoid of any substance and have been deliberately made despite knowing that the said grounds are false to their own knowledge.

o. That in the O.A Ground II B speaks of sand mining in all 13 Districts during monsoon which is a completely false ground, as it is respectfully submitted that no sand mining operation is carried out during the monsoon season.

p. Further, an averment is made in ground F at page 16 that the answering Respondent Nos.19 and 20 have used highly mechanized vehicles which is a completely false statement as there is no highly mechanized mining done at all.

q. In so far as ground G is concerned, again false statements have been made, in as much as, it is completely wrong that there have been repeated guidelines for use of tractors only

for the purpose of transportation of sand on the contrary Ground H clearly speaks of installation of GPS in vehicles meant for Transportation which itself indicates that transportation has to be done properly and in a scientific manner.

- r. In so far as Ground H is concerned, the Applicant has again made false statements that the Respondents have not used GPS systems, whereas GPS systems in the vehicles have been duly installed on all the vehicles and the averment in this regard in the said Ground H is again completely false.
- s. As demonstrated herein, there are many false statements made in the O.A, however since the Respondent Nos. 19 and 20 are filing a limited reply, for the purpose of dealing with the IA filed, the same are not dealt with exhaustively and an appropriate response shall be filed for the main Application.
- t. Without Prejudice to the above, that in any event of the matter, in compliance of this Hon'ble Tribunal's Order dated 20.09.2021 directing the State Government to submit an Interim Report, the committee has issued a Notice of Inspection dated 23.09.2021 and even conducted an Inspection in Guntur District on 24.09.2021 and Krishna District on 25.09.2021. Thus, since inspection has been completed, and collection of primary data in the said areas has been done, consequently, the prayer for stoppage of

sale from the said stockyards would essentially for all practical purposes be infructuous.

II. Regarding Allotment of Mining Lease:

7. That in the present case, the sand mining operations which is a minor mineral, is done under the auspices of the State of Andhra Pradesh, by entering into a transparent tendering process, whereby the Director of Mines & Geology (DMG) through MSTC Limited had called for three different tenders dated 08/01/2021 pertaining to Excavation, Storage and Sale of River Sand in the State of Andhra Pradesh for 13 Districts in the Andhra Pradesh and the same were split into three Packages namely;

a. **Package 1:** E tender Number: MLS/HeadOffice/Marketing/1/20-21/ET/1

Districts Covered: Srikakulam, Vizianagaram, Vishakapatnam, East Godavari

b. **Package 2:** E tender Number: MLS/HeadOffice/Marketing/2/20-21/ET/2

Districts Covered: West Godavari, Krishna, Guntur, Parakasm

c. **Package 3:** E tender Number: MLS/HeadOffice/Marketing/3/20-21/ET/3

Districts covered: Nellore, Chittoor, Kurnool, YSR Kadapa and Anantapur

8. That the answering Respondent Nos. 19 and 20 applied to the said competitive bidding process, participated and have on merits

emerged as the successful Tenderer in the said Tendering process of the State Government for all three different packages.

9. The Letter of Intent (LoI) was issued by the DMG to the answering Respondents on 20th March 2021 and performance guarantee was executed on 9th April 2021, for a total amount of Rs. 120 Cr (Package 1: 40 Cr, Package 2: 50 Cr, Package 3: 30 Cr).
10. The Mining Lease Agreement between the answering Respondents and the Director of Mines and Geology (DMG) came to be executed on 03rd May 2021 for all three packages.
11. That it is pertinent to note here that the answering Respondents have appointed a contractor for the purpose of carrying out the work at the site relating to excavation etc. and have accordingly entered into an Agreement with Turnkey Enterprise Private Limited ("TEPL") for Excavation, Storage and Sale of Sand in the State of Andhra Pradesh to be carried out in accordance with the Lease Agreement.

12. That thereafter, the DMG issued a Work Order dated 12th May 2021 in favour of the answering Respondents to commence mining operations and a List of operational Reaches with on-going valid ECs was given to the answering Respondents herein. It is pertinent to note that the State Government obtained separate EC for each reach and therefore validity of various ECs would expire on different dates. However, as on 12th May 2021 when the work Order was issued to the answering Respondents the DMG shared all such valid ECs to the

answering Respondents and consequently, the answering Respondents commenced mining operations on 14th May 2021 in terms of the Lease Agreement. Copy of tabular chart showing EC's issued for separate reaches in Package 1, 2, and 3 are annexed herewith and marked as **Annexure - B** at page _____.

13. That wherever the EC validity has expired no mining operation would take place, and for such cases, the State Government through the DMG is already in the process of obtaining fresh EC's following all applicable norms and statutory requirements.

14. The Respondent Nos. 19 and 20 commenced the mining operations in the sand reaches only from 14th May 2021 and, prior thereto, it was the State Government through the Andhra Pradesh Mineral Development Corporation which had undertaken and carried out mining operations.

III. Re: Permissions:

15. That as stated herein above, the sand mining operations herein are conducted under the auspices of the State Government. That unlike mining of major minerals, in so far as minor minerals are concerned, especially in the present case, it is the State Government that prepares the Approved Mining Plan (AMP), and it is the State Government that obtains the Environmental Clearances. That thus, the State Government obtains all such necessary statutory permissions including but not limited to obtaining the statutory clearances viz. Approved Mining Plan, preparation of the District

Survey Report (DSR) and thereafter obtaining the Environmental Clearance (EC), Consent for Establishment (CFE) / Consent for Operation (CFO) for the sand reaches which are handed over to the Agency for undertaking Sand operations, as per the procedure laid down by Director of Mines & Geology, and the answering Respondents remit all such cost incurred by Department of Mines & Geology in obtaining all such permissions. That it is the State Government which is the owner of all such leases and therefore obtains all the statutory clearances and permissions enumerated hereinabove.

16. The aforesaid process ensures, that no lease holder / lessee can commence any mining operation without obtaining necessary statutory permissions, it is only after the State Government having obtained all such permissions that the lessee is allowed to commence mining in accordance with the provisions of the Act and the rules as applicable.

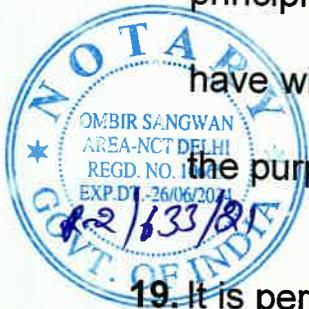

IV. Re: Stock of mined mineral.

17. That the Andhra Pradesh Mineral Development Corporation (APMDC) had submitted to the answering Respondents a list of Depots and available balance stock laying at the stockyards and various Depots as on 12th May 2021 via its letter dated 8th July 2021. Thereafter, a joint survey was conducted between APMDC Staff, the answering Respondents and the sub-contractor TEPL to identify the actual stock available and its quality. That, after assessing the same TEPL vide its letter dated 22nd July 2021, submitted that the saleable

quantity of stock available is 14,35,619 MT. That such saleable quantity was available as APMDC was conducting the said mining operations till 12th May 2021 which was prior to handing over of the same to the answering Respondents.

18. That the answering Respondents commenced mining operations on 14th May 2021 strictly in accordance with and as per the mining plan approved and in compliance with the conditions as imposed in the EC's as also in compliance of the terms and conditions of the Lease Deed dated 03rd May 2021 and Agreement dated 03rd May 2021. The answering Respondents have indeed ensured complete compliance with not only the provisions of the lease deed, Environmental Clearance, the Approved Mining Plan, Consent issued under the Act, but have also ensured strict and full compliance of the guidelines laid down in the year 2021 by the Ministry of Environment, Forest and Climate Change. The mining operations carried on by the answering Respondents are done in a very professional and scientific manner. The answering Respondents are alive to the fact that in matters of precious ecology and environment, the work is required to be undertaken with the required care and caution as also following the principles of sustainable development. The answering Respondents have with them all the technical experts as well as marine experts for the purpose of undertaking the said work.

19. It is pertinent to mention that there is not a single violation pointed out by the Applicant in the main application, except for making vague, wild and unsubstantiated allegations. Indeed, it is important to mention

here that after the answering Respondents had gained the status of being the successful tenderer by competing on merits and securing the tenders, the present application has been initiated apparently at the behest of some other rival competitors who have failed to win the tender. This answering Respondents will deal with the same in greater detail while filing the reply to the main application. .

20. That in so far as the mining operations conducted by the answering Respondents are concerned, the quantity of sand excavated including the reaches from which the same is excavated has been documented in the form of a tabular chart and the same, as required in terms of the Rules, has been duly submitted to the DMG on a monthly basis. That some amount of sand excavated is sold directly from the reach, and the remaining is stored at the stockyard for which a proper inventory of stock and consequent sale is maintained.

21. That Agreement dated 3rd May 2021 at clause No. 5.2 states that the contractor should atleast maintain 30,00,000 MT of stock for the purpose of the Monsoon period i.e. July, August, September, which may vary as per the Demand in the State. Furthermore, the Agreement dated 3rd May 2021 at clause 7.3 (i) (3) deals with Failure to maintain the Reserve Stock for Monsoon season in the State as mandated under the Clause 5.2 which states that in the event of any shortfall, there would be penal consequences. That therefore it is apparent and cogently clear that Buffer Stock must be maintained by

the Lessee during the monsoon period to meet the Demand in the State.

22. That Clause 2.3 of the Tender Document, qua the Answering Respondents, mandates that the Lessee must ensure that sand is available for sale throughout the year in the State of Andhra Pradesh. That such duty of the Lessee to maintain sand for sale throughout the year has been notified by way of an Amendment in the Andhra Pradesh Minor Mineral Concession Rules, 1966, vide Notification dated 16.04.2021 (at page 526 paperback). That this would only go on to show the statutory intent and mandate that sand must be available for sale even during the monsoon period. These provisions in the rule speaks of the policy of the State of Andhra Pradesh which is in greater public interest. This is so because there is no excavation of sand during monsoon period i.e July to September, and therefore sufficient stock is required to be kept to meet the demand of the State and its citizenry.

23. That it is of much importance to mention herein that the answering Respondents have not exhausted the maximum total quantity available for mining as contained in the EC. That in all districts, the answering Respondents have carried out mining operations in terms of R-2/633/21 and in strict compliance of the EC conditions and havenot exceeded the total available limit. That That copy of the production and dispatch details for Krishna and Guntur Districts is annexed herewith and marked as Annexure - C at page ____.

24. Thus, the entire I.A no. 143 of 2021, filed by the Applicant is misconceived both in law and logic, in as much as first of all, there is a statutory requirement on part of the contractor to maintain sand for sale throughout the year in terms of the Andhra Pradesh Minor Mineral Concession Rules, 1966, Amendment Notification dated 16.04.2021, and therefore, stoppage of sale as is being sought for by the Applicant is misconceived and ought to be rejected.

25. That Secondly, in so far as linking sale from the stock to the inspection which is to be carried out by the Committee constituted by the Hon'ble Tribunal vide its Order dated 25th August 2021, is also misconceived and devoid of any merit in as much as the answering Respondents; i) havenot exhausted the available limit under the respective EC's; ii) have submitted all production and dispatch details on a monthly basis thus, the quantities excavated are already available with the DMG; iii) and there is no concept of no sale during the monsoon period as is being projected by the Applicant herein, while on the contrary the Statute as well as the lease deed mandates that stock of sand is kept available for sale throughout the year, more so a buffer stock for the monsoon period.

V. PARAGRAPHWISE REPLY:

26. With reference to the contents of para 1 of the Application, the same are a matter of record and do not merit any response. However, it

must be pointed out that the Applicant has resorted to picking and choosing parts of the issues to be ascertained by the committee instead of stating the same in totality.

27. That with respect to the contents of para 2 and 3 of the I.A, the contents thereof are denied as being inconsistent and contrary to what has been stated herein. That it was never the case of the Applicant herein that any form of excessive or illegal sale of sand is taking place, thereby implying that every sale undertaken by the answering Respondents are legal and documented for. In such scenario there is no merit or substance in the averment *"that there is likelihood that the existing stock was be either sold or removed, which will lead to underestimation of the amount of sand mining that has taken place"*, and the said statement is denied and vehemently opposed. That for all practical purposes the quantity of stock can always be ascertained based on the details of sale which is always documented and submitted to the DMG. That the prayer for interim reliefs being sought does not find any averments made in the main Application filed by the Applicant, and the I.A is a mere afterthought which came to be filed after this Hon'ble Tribunal's Order dated 25th August 2021.

28. That with reference to paragraph 4 of the I.A this Hon'ble Tribunal has already considered and dealt with the same in its Order dated 20.09.2021 and therefore the same does not merit any response

29. That with reference to the contents of paragraph 5 of the I.A, the contents thereof are denied and the prayers as prayed ought not to be granted in view of what has been stated herein above. That the Applicant has not made out any case whatsoever for grant of any reliefs and therefore the same ought to be rejected.

In the above circumstances, it is humbly prayed that this Hon'ble Tribunal may be pleased to dismiss the captioned I.A No.143 of 2021 filed in O.A No. 187 of 2021 and pass such further or other orders as this Hon'ble Tribunal may deem fit and proper in the facts and circumstances of the case and thus render justice.

DEPONENT

Mrs. Maduri Donti Reddy for R2, R3 & R5 to R18
Mr. Atmaram N.S. Nadkarni Sr. Advocate along with
Mr. Salvador Santosh Rebello, Mr. Gauravvardhan
Nadkarni, Mr. Shreeyash Lalith and Mr. S. Ram
Kumar for R19 & R20**ORDER**

1. The above application has been originally posted to 05.10.2021 for appearance of parties, filing their independent response and also for

consideration of report. Since the applicant in this case had filed two Interlocutory Applications, as I.A. No. 142 of 2021 to advance the hearing and I.A. No. 143 of 2021 for issuing certain directions, the matter has been posted to today for consideration of those applications.

2. Since Mr. G. M. Syed Nurullah Sheriff is appearing for first respondent, Ministry of Environment, Forests and Climate Change (MoEF& CC), when we asked as to whether he is prepared to appear for the 4th respondent/ (Andhra Pradesh State Level Environment Impact Assessment Authority) as well, he submitted that he will take instructions and appear for them for the time being and represent them and after getting proper instructions necessary steps will be taken in respect of 4th respondent.
3. I.A. No. 142 of 2021 (SZ) was filed by the applicant to advance the hearing from 05.10.2021 to a near date for consideration of I.A. No. 143 of 2021 (SZ). Since the counsel for respondents have entered appearance and they submitted that they wanted to file counter in I.A. No. 143 of 2021 and they have no objection in allowing I.A. No.142 of 2021 (SZ). We feel that I.A. No. 142 of 2021 can be allowed and hearing can be advanced to today from 05.10.2021. So the hearing of this case is advanced to today for 05.10.2021 and ***I.A. No. 142 of 2021 (SZ)*** is allowed and disposed of accordingly.
4. As regards I.A. No. 143 of 2021 (SZ) is concerned, the prayer in this application is to issue directions that i) no sale or removal of sand from any of the Stockyard takes place till the Joint Committee completes its

inspection. II) Direct the committee to inform the applicant regarding the Inspection at least in respect of the Guntur and Krishna Districts.

5. The learned senior counsel appearing for respondents 19 and 20 submitted that they want to file their objection to the application as their clients are having all necessary clearances and permissions for conducting the mining in the areas in question and they are strictly complying with by the conditions imposed. We feel that an opportunity has to be given to the party respondents against whom reliefs have been claimed and without hearing their side passing any order will be improper.
6. As regards, the prayer for notice of inspection is concerned instead of giving notice to the parties regarding the inspection in respect of Districts of Guntur and Krishna as claimed, the committee is directed to give notice of inspection to the counsel appearing for the applicant by e-mail immediately in advance, so that they can make their representation before the committee regarding the things to be noted by the committee on his behalf to substantiate their case and that can be considered by the committee. Allowing parties to appear before the committee at the time of inspection sometimes may lead to law and order situation as well, especially when such environmental issues of sensitive nature are being raised by the applicant.
7. However, the applicants are at liberty to give their points to be considered by the committee to the members of the committee in advance, so that they can consider those things as well and incorporate their view on these

aspects in their report to be filed.

8. The counsel appearing for the State Department submitted that the inspection is proposed to be conducted this week. On the basis of the allegations made in the application, the official respondents are directed to collect the details from the concerned authorities, even though inspection could not be conducted by them or even, if the inspection is conducted they can conduct the inspection and file an interim report regarding these areas and the aspects mentioned in the application, to enable this Tribunal to consider the application and for passing appropriate orders, if any, required in this regard before the next hearing date.
9. The Registry is directed to communicate this order to the members of the committee as well as the official respondents including the District Collectors, Director of Mining for their information and for compliance with the direction.
10. For appearance of parties, filing independent response and counter to the I.A. No. 143 of 2021 (SZ), and for consideration of application I.A. No. 143 of 2021 (SZ), post on **28.09.2021**.
