

Joint inspection Report

In compliance of

Hon'ble NGT order dated 11/02/2021
in matter of OA 262/2020

“Hakam Singh & Anr. Vs State of Rajasthan & Ors.”

By the joint committee comprising of

1. Shri Ummed Singh Ratnu, District Nodal Officer, SDM, Sriganganagar, Rajasthan
2. Shri Praveen Kumar Jain, Scientist 'B', CPCB, Regional Directorate, Bhopal
3. Shri Amit Soni, Regional Officer, RSPCB, Hanumangarh, Rajasthan

2

Joint inspection Report

In compliance to Hon'ble NGT order dated 11/02/2021 in matter of OA 262/2020
"Hakam Singh &Anr. Vs State of Rajasthan &Ors."

Hon'ble NGT in matter of OA 262/2020 "Hakam Singh &Anr. Vs State of Rajasthan &Ors." has inter-alia passed following orders on date 11/02/2021-

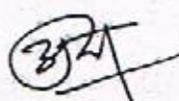

"Further follow up action needs to be taken to prevent illegal operation of brick kilns and recovery of environmental compensation for the period of illegal operation, following due process of law. For those not having consents, closure can be immediately, particularly when show cause notice has already been given. For those having consents, it is necessary to verify whether they are meeting the prescribed pollution norms and the siting norms. A joint committee of CPCB, State PCB and District Magistrate Ganga Nagar may look into these aspects and furnish a factual report within three months."

In compliance to above said directions of Hon'ble NGT, District Collector, Sriganganagar nominated Shri Ummed Singh Ratnu, District Nodal Officer, SDM, Sriganganagar, Rajasthan, CPCB nominated Shri Praveen Kumar Jain, Scientist 'B', CPCB, Regional Directorate, Bhopal and RSPCB nominated Shri Amit Soni, Regional Officer, RSPCB, Hanumangarh, Rajasthan as members of joint committee.

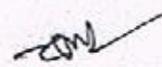

In order to carry out inspection of all brick kilns located in District Sriganganagar, 09 teams of officers had been constituted by RSPCB. During Joint, inspections officials from Distt. Administration have joined the all individual 09 teams and officer from CPCB joined one of the 09 teams.

The officials from CPCB, RSPCB and Distt- Administration have carried out inspections of Brick Kilns during 21.09.2021 to 23.09.2021 located in Srivijaynagar Tehsil and remaining brick kilns located in entire Sriganganagar District were inspected by the district administration and RSPCB officials during 21.09.2021 to 24.09.2021.

During inspections, total no. of 573 brick kilns have been identified and collected the information's about stack height, gravity settling chamber, plantation, infrastructure facility for monitoring and land conversion (i.e. siting criteria). Out of 573 brick kilns only 7 were found operational which were located in tehsils Sriganganagar, Srikaranpur, Sadulsahar, Padampur, Raisinghnagar (Annexure-1). However, monitoring of those brick kilns could not be done due to un-availability of safe infrastructure facility for monitoring i.e. monitoring platform, ladder, porthole, etc.

Praveen Jain

On the basis of observations and in light of above said directions of Hon'ble NGT, the total no. of 573 brick kilns have been bifurcated as under:

- (i) Brick Kilns with pending consent application with RSPCB and gap/no gap in consent period validity i.e period of operation without valid consent of RSPCB:-96 no. of brick kilns are having pending consent application with the RSPCB. Out of which, 91 no. of brick kilns have gap in period of filing of renewal of consent to operate (CTO) application after expiry of last CTO application i.e. period of operation without valid consent of the RSPCB (Annexure-2). In the rest of the 05 no. of brick kilns, no gap has been observed (Annexure-3).
- (ii) Brick kilns with expired consents or have not applied for/obtained consents from RSPCB :-There are 77 no. of brick kilns which have either expired consents or have not applied for/obtained consents from RSPCB (Annexue-4). Out of 77 brick kilns, show cause notices had already been issued to 59 brick kilns. However, show cause notices to be issued to rest of 18 brick kilns.
- (iii) Brick kilns with valid consents of RSPCB:-286 no. of brick kilns are with valid consents of the RSPCB. Out of which, 55 no. of brick kilns are having pollution control measures like plantation, stack height, with gravity settling chamber, infrastructure facility for monitoring and with land conversion/allotment from the competent authority (i.e. siting criteria). Rest of the 231 brick kilns have provided stack and gravity settling chamber but they are deficient w.r.t.plantation and/or adequateinfrastructure facility for monitoring. However, all of these 231 brick kilns are having land conversion/allotment from the competent authority (Annexure-5).In respect to siting criteria, it is submitted that no siting criteria or guidelines have been issued by RSPCB. However, in Sriganganagar District consents have been granted by RSPCB on the basis of land conversion/allotment by the revenue authority. The revenue authority converts the land on the basis of certain decided criteria like distance of kiln from aabadi, highway, etc. Hence, Land conversion/allotment has been considered as document for fulfilling siting criteria.
- (iv) Direction for closure already issued:-Direction for closure had already been issued to 06no. of Brick Kilns in past(Annexure-6).

321

Praveen Jain

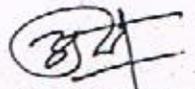

BN

(v) Closed/dismantled/under construction etc. Brick kilns:-108 no. of brick kilns are either closed by their own or dismantled by their own or under construction etc.(Annexure-7).

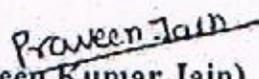

Inspection reports of the individual brick kiln in prescribed format are attached herewith at(Annexure-8).

Recommendations in view of above observations:

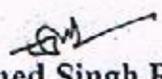

1. Brick Kilns with pending consent applications with RSPCB and gap/no gap in consent period validity i.e period of operation without valid consent of RSPCB:Decision on imposition of Environmental Compensation on 91 Brick Kilns in light of prevailing rules/guidelines may be taken by RSPCB, accordingly. For the rest 05 brick kilns where there is no operation without consent, decision on disposal of applications may be taken by RSPCB after checking all norms.
2. Brick kilns with expired consents or have not applied for/obtained consents from RSPCB :As show cause notices had already been issued to 59 brick kilns, therefore, environmental compensation may be imposed and closure directions may be issued to them by RSPCB. However, show cause notices may be issued to rest of 18 brick kilns as no show cause notices have been issued to them, so far.
3. Brick kilns with valid consents of RSPCB:Show cause notices may be issued by the RSPCB to the 231 brick kilns which have not provided adequate plantation and/or infrastructure facility for monitoring.
4. Closed/Dismantled/under construction etc. Brick Kilns or already Closure Direction issued Brick Kilns: Distt. Administration shall ensure that no brick kiln shall commence production until they fulfil revenue criteria/rules and obtaining prior consent from the RSPCB and RSPCB shall ensure compliance of pollution norms before granting consent to those brick kilns.

(Amit Soni),
Regional Officer
RSPCB, Hanumangarh
