Total nos. of days of violation (N) as 2612 days, Pollution Index of Industrial sector (PI) as 80, Scale of Operation (S) as 0.5, Location Factor (LF) as 1 and Factor of Rupees (R) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

EC = 80 x 2612 x 150 x 0.5 x 1 =Rs. 1,56,72,000/-

An Original Application No. 12 of 2023 was filed by Sri K. Ramesh Babu, Hyderabad vs Union of India & Ors. in Hon'ble NGT, Chennai against illegal stone quarry mining and stone crushing activities by the private respondents at Toggudem (V), Paloncha (M), Bhadradri Kothagudem District without obtaining necessary permissions from Government Departments & TSPCB and for causing dust nuisance to the surrounding areas.

The Board, vide reference 2nd cited, issued show cause notice to M/s Islavath Raju (0.8 Ha), Sy.No. 46, Thogudem(V), Palvoncha (M), Bhadradri Kothagudem District on 25.02.2023 for operating without CFE and CFO of the Board.

The Board, vide reference 3rd cited issued Closure order to the Stone & Road Metal Quarry for operating without CFE / CFO of the Board and causing pollution in the area.

The Board, vide reference 4th cited issued Show cause notice to the mine regarding levy of Environmental Compensation of Rs. 1,26,000/- and directed the mine to submit any objections in writing within 15 days from the date of the Order.

The Hon'ble NGT has reviewed the case and issued order dated 13.12.2023, vide reference 5th cited and same is read as follows:

1. Today, we have gone through the reports of the Department of Mines and Geology and the Telangana State Pollution Control Board.
2. When normally the Telangana SPCB levies penalty based on the report of the Department of Mines and Geology, in this case, apparently, it was not applied for the reasons best known to the Telangana SPCB. They have only calculated the damages for a period of 21 days only i.e. from the date of inspection till the date of show cause notice issued.
3. Let the Telangana SPCB give a reason as to why they have not followed the report of the Department of Mines and Geology in levying the environmental compensation and a reason for adopting a different yardstick for the quarry operators involved in this Original Application in particular. Let a detailed report be filed by the Telangana SPCB in this regard.

4. The Department of Mines and Geology is also directed to answer why the amounts were not recovered through they assessed, what is the action taken, and whether they will be able to even locate the quarry operators who ceased operations at least 5 or 6 years back.

The Assistant Director of Mines and Geology, Bhadradi Kothagudem, vide reference 6th cited, submitted that the mine lease period is from 23.02.2006 to 22.02.2016 and further it was also mentioned that the last dispatch permit issued & its validity is from 31.10.2014 to 30.11.2014.

As per the orders of the Hon'ble NGT, dated 13.12.2023 and based on the information furnished by the Assistant Director of Mines and Geology, Bhadradi Kothagudem, the issue was reviewed in the Board's Task Force Committee meeting. The Committee recommended that the Environmental Compensation may be levied on the above mine, based on the following calculation:

$$\text{Environmental Compensation (EC)} = \text{PI} \times \text{N} \times \text{R} \times \text{S} \times \text{LF}$$

PI - Pollution index of industrial sector

N - No of days of violation took place

R - A factor in Rupees for EC

S - Factor for scale of operation

LF - Location factor

- Pollution Index, (PI) is taken as 80 duly considering the category of the industry i.e., Red Category.
- R is suggested to consider as 150.
- S is taken as 0.5 considering the unit is small scale industry.
- The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_F is taken as 1 considering the population is < 1 million in which the industry existing
- No. of days of which violation took place are mentioned below:

| MoEF office memorandum dated | 18.05.2012 | Period for assessment | No. of days of violation |
|--|------------|-------------------------------|--------------------------|
| Closure orders issued by the Board on | 15.03.2023 | From 18.05.2012 to 15.03.2023 | 3954 days |
| <u>Exempted Days</u> As per AD, Mines & Geology department mail dated 09.01.2024, Mine was not in operation since | 01.12.2014 | From 01.12.2014 to 15.03.2023 | -3027 days |
| Total no. of days of violation | | | 927 |

Total nos. of days of violation (**N**) as 927 days, Pollution Index of industrial sector (**PI**) as 80, Scale of Operation (**S**) as 0.5, Location Factor (**LF**) as 1 and Factor of Rupees (**R**) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

$$\text{EC} = 80 \times 927 \times 150 \times 0.5 \times 1 = \text{Rs. } 55,62,000/-$$

The Board, vide reference 7th cited issued Show cause notice to the mine regarding the assessment of Environmental Compensation of **Rs. 55,62,000/- (Rupees Fifty Five Lakh Sixty Two Thousand only)** to be levied on the industry and directed the industry to submit any reply/objections in writing within 15 days from the date of the Order, failing which the assessment carried out by the Board will be treated as final assessment.

The Mine, vide reference 8th cited has submitted reply to the show cause notice stating that they have not done any quarry operations during financial years 2010-2011, 2011- 2012.

Vide reference 9th cited, the issue was reviewed in the Board's Task Force Committee meeting held on 06.04.2024. The representative of the mine attended the meeting. The Committee noted that the Board has carried out assessment of the EC exempting the period as stated by the Mine i.e., during financial years 2010-2011, 2011- 2012. Further, the Mine has not produced any evidence on non

operation of the Mine for the remaining period. It is also observed from the statement of Mines and Geology Department that the mine lease period is from 23.02.2006 to 22.02.2016 and further it was also mentioned that the last dispatch permit issued & its validity is from 31.10.2014 to 30.11.2014. Hence, the Board has taken violation period from 18.05.2012 (i.e., the issue of Office Memorandum by the MoEFCC stating that renewal of leases of minor minerals with lease area less than 5 Ha shall be granted only after getting the Environmental Clearance) upto 30.11.2014, (i.e., last dispatch validity date) and also the statement of Mines & Geology which clearly specified that the quarry is not working since 01.12.2014. Hence, the assessment carried out by the Board vide order dated 27.01.2024 be may be treated as final assessment. After detailed discussions, the Committee recommended that the Environmental Compensation assessed by the Board vide order dated 27.01.2024 may be treated as final assessment and the Board may levy Environmental Compensation of **Rs. 55,62,000/- (Rupees Fifty Five Lakh Sixty Two Thousand only)** on the mine.

The Asst. Director of Mines & Geology, Bhadradi Kothagudem has submitted an Affidavit dt. 13.03.2024 to the Hon'ble NGT, vide reference 10th cited. It is observed from the Affidavit that the Asst. Director of Mines & Geology, Bhadradi Kothagudem has levied penalty of Rs. 13,11,55,020/- (Rupees Thirteen Crore Eleven Lakh Fifty Five Thousand and Twenty only) on the Mine.

Subsequently, the Mine, vide reference 12th cited has submitted the letter, Lr.No.2040/GC/2017, dt. 20.04.2024 of Asst. Director of Mines & Geology, Bhadradi Kothagudem with the details of dispatch permits issued to the Mine, wherein it was mentioned that the permit valid working days from April 2012 to March 2017 are 136 days.

In view of the above, it is requested to submit the following details within 7 days, for taking further necessary action on the representation submitted by the mine on levying of Environmental Compensation :

- i. Details based on which the penalty amount of Rs. 13,11,55,020/- is levied by the Asst. Director of Mines & Geology, Bhadradi Kothagudem, on the Mine.
- ii. Number of days the mine has carried out operation with valid permits, during the period from 18.05.2012 to 15.03.2023.
- iii. Number of days the mine has carried out operation without valid permits, during the period from 18.05.2012 to 15.03.2023.

The above information may be furnished at the earliest so as to finalize the Environmental Compensation to be levied on the Mine and submit the report to the Hon'ble NGT.

2. When normally the Telangana SPCB levies penalty based on the report of the Department of Mines and Geology, in this case, apparently, it was not applied for the reasons best known to the Telangana SPCB. They have only calculated the damages for a period of 21 days only i.e. from the date of inspection till the date of show cause notice issued.

3. Let the Telangana SPCB give a reason as to why they have not followed the report of the Department of Mines and Geology in levying the environmental compensation and a reason for adopting a different yardstick for the quarry operators involved in this Original Application in particular. Let a detailed report be filed by the Telangana SPCB in this regard.
4. The Department of Mines and Geology is also directed to answer why the amounts were not recovered through they assessed, what is the action taken, and whether they will be able to even locate the quarry operators who ceased operations at least 5 or 6 years back.

The Assistant Director of Mines and Geology, Bhadradi Kothagudem, vide reference 6th cited, submitted that the mine lease period is from 22.08.2006 to 21.08.2016 and further it was also mentioned that the last dispatch permit issued & its validity is from 17.12.2016 to 31.12.2016.

As per the orders of the Hon'ble NGT, dated 13.12.2023 and based on the information furnished by the Assistant Director of Mines and Geology, Bhadradi Kothagudem, the issue was reviewed in the Board's Task Force Committee meeting. $$\text{Environmental Compensation (EC)} = \text{PI} \times \text{N} \times \text{R} \times \text{S} \times \text{LF}$$

PI - Pollution index of industrial sector

N - No of days of violation took place

R - A factor in Rupees for EC

S - Factor for scale of operation

LF - Location factor

- a) Pollution Index (PI) is taken as 80 duly considering the category of the industry i.e., Red Category.
- b) R is suggested to consider as 150.
- c) S is taken as 0.5 considering the unit is small scale industry.
- d) The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_F is taken as 1 considering the population is < 1 million in which the industry existing
- e) No. of days of which violation took place are mentioned below:

| MoEF office memorandum dated | 18.05.2012 | Period for assessment | No. of days of violation |
|--|------------|--------------------------------|--------------------------|
| Closure orders issued by the Board on | 15.03.2023 | From 18.05.2012 to 15.03.2023. | 3954 days |

| Total no. of days of violation | | | 1534 |

Total nos. of days of violation (**N**) as 1534 days, Pollution Index of industrial sector (**PI**) as 80, Scale of Operation (**S**) as 0.5, Location Factor (**LF**) as 1 and Factor of Rupees (**R**) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

$$\text{EC} = 80 \times 1534 \times 150 \times 0.5 \times 1 = \text{Rs.92,04,000/-}$$

The Board, vide reference 7th cited issued Show cause notice to the mine regarding the assessment of Environmental Compensation of **Rs. 92,04,000/- (Rupees Ninety Two Lakhs Four Thousand Only)** to be levied on the industry and directed the industry to submit any reply/objections in writing within 15 days from the date of the Order, failing which the assessment carried out by the Board will be treated as final assessment. 2. When normally the Telangana SPCB levies penalty based on the report of the Department of Mines and Geology, in this case, apparently, it was not applied for the reasons best known to the Telangana SPCB. They have only calculated the damages for a period of 21 days only i.e. from the date of inspection till the date of show cause notice issued.

3. Let the Telangana SPCB give a reason as to why they have not followed the report of the Department of Mines and Geology in levying the environmental compensation and a reason for adopting a different yardstick for the quarry operators involved in this Original Application in particular. Let a detailed report be filed by the Telangana SPCB in this regard.
4. The Department of Mines and Geology is also directed to answer why the amounts were not recovered through they assessed, what is the action taken, and whether they will be able to even locate the quarry operators who ceased operations at least 5 or 6 years back.

The Assistant Director of Mines and Geology, Bhadradi Kothagudem, vide reference 6th cited, submitted that the mine lease period is from 16.05.2007 to 15.05.2017 and further it was also mentioned that the last dispatch permit issued & its validity is from 17.12.2016 to 31.12.2016.

As per the orders of the Hon'ble NGT, dated 13.12.2023 and based on the information furnished by the Assistant Director of Mines and Geology, Bhadradi Kothagudem, the issue was reviewed in the Board's Task Force Committee meeting. The Committee recommended that the Environmental Compensation may be levied on the above mine, based on the following calculation:

Environmental Compensation (EC) = PI x N x R x S x LF

PI - Pollution index of industrial sector

N - No of days of violation took place

R - A factor in Rupees for EC

S - Factor for scale of operation

LF - Location factor

- a) Pollution Index (PI) is taken as 80 duly considering the category of the industry i.e., Red Category.
- b) R is suggested to consider as 150.
- c) S is taken as 0.5 considering the unit is small scale industry.
- d) The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_F is taken as 1 considering the population is < 1 million in which the industry existing
- e) No. of days of which violation took place are mentioned below:

| MoEF office memorandum dated | 18.05.2012 | Period for assessment | No. of days of violation |
|--|------------|--------------------------------|--------------------------|
| Closure orders issued by the Board on | 15.03.2023 | From 18.05.2012 to 15.03.2023 | 3954 days |
| <u>Exempted Days :</u> As per AD, Mines & Geology department mail dt. 09.01.2024, Mine was not in operation since | 01.01.2017 | From 01.01.2017 to 15.03.2023) | -2265 days |
| Total no. of days of violation | | | 1689 |

Total nos. of days of violation (**N**) as 1689 days, Pollution Index of industrial sector (**PI**) as 80, Scale of Operation (**S**) as 0.5, Location Factor (**LF**) as 1 and Factor of Rupees (**R**) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

$$EC = 80 \times 1689 \times 150 \times 0.5 \times 1 = \text{Rs. } 1,01,34,000/-$$

The Board, vide reference 7th cited issued Show cause notice to the mine regarding the assessment of Environmental Compensation of **Rs.1,01,34,000/- (Rupees One Crore One Lakh Thirty Four Thousand only)** to be levied on the industry and directed the industry to submit any reply/objections in writing within 15 days from the date of the Order, failing which the assessment carried out by the Board will be treated as final assessment. R - A factor in Rupees for EC

S - Factor for scale of operation

LF - Location factor

- Pollution Index (PI) is taken as 80 duly considering the category of the mine i.e., Red Category.
- R is suggested to consider as 150.
- S is taken as 0.5 considering the unit is small scale mine.
- The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_f is taken as 1 considering the population is < 1 million in which the mine existing.
- No. of days of which violation took place are mentioned below:

Total nos. of days of violation (N) as 1534 days, Pollution Index of industrial sector (PI) as 80, Scale of Operation (S) as 0.5, Location Factor (LF) as 1 and Factor of Rupees (R) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

$$EC = 80 \times 1534 \times 150 \times 0.5 \times 1 = \text{Rs. } 92,04,000/-$$

7. WHEREAS, based on the Hon'ble NGT order dated 13.12.2023, the RO, Kothagudem vide report dated 20.01.2024 submitted the revised calculation on levy of Environmental Compensation. The issue was reviewed in the Task Force Committee meeting held on 23.01.2024. The Committee recommended that the Environmental Compensation may be levied based on the following calculation:

Environmental Compensation (EC) = PI × N × R × S × LF

- PI – Pollution index of industrial sector
- N - No of days of violation took place
- R – A-factor in Rupees for EC
- S – Factor for scale of operation
- LF – Location factor

- a) Pollution Index (PI) is taken as 80 duly considering the category of the mine i.e., Red Category.
- b) R is suggested to consider as 150.
- c) S is taken as 0.5 considering the unit is small scale mine.
- d) The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_F is taken as 1 considering the population is < 1 million in which the mine existing.
- e) No. of days of which violation took place are mentioned below:

| MoEF office memorandum dated | 18.05.2012 | Period for assessment | No. of days of violation |

| Inception of the mine based on the mine lease period submitted by AD, Mines & Geology department vide mails dated 06.03.2023 & 09.01.2024 | 19.08.2015 | From 19.08.2015 to 15.03.2023 | 2766 days |
| Closure orders issued by the Board on | 15.03.2023 | | |
| <u>Exempted Days</u> As per AD, Mines & Geology department mails dated 06.03.2023 & 09.01.2024, Mine was not in operation since | 21.07.2022 | From 21.07.2022 to 15.03.2023 | -238 days |
| Total no. of days of violation | | | 2528 |

Total nos. of days of violation (N) as 2528 days, Pollution Index of industrial sector (PI) as 80, Scale of Operation (S) as 0.5, Location Factor (LF) as 1 and Factor of Rupees (R) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

EC = 80 × 2528 × 150 × 0.5 × 1 = Rs. 1,51,68,000/-

8. The issue was reviewed in the Task Force Committee meeting held on 23.01.2024. The Committee recommended that the Environmental Compensation may be levied based on the following calculation:

Environmental Compensation (EC) = PI x N x R x S x LF

PI – Pollution index of industrial sector

N – No of days of violation took place

R – A factor in Rupees for EC

S – Factor for scale of operation

LF – Location factor

- Pollution Index (PI) is taken as 80 duly considering the category of the mine i.e., Red Category.

- S is taken as 0.5 considering the unit is small scale mine.
- The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_F is taken as 1 considering the population is < 1 million in which the mine existing.
- No. of days of which violation took place are mentioned below:

| EIA notification, 2006 dated(as the mine is above 5 Ha.) | 14.09.2006 | Period for assessment | No. of days of violation |

| <u>Exempted Days</u> As per AD, Mines & Geology department mails dated 06.03.2023 & 09.01.2024, Mine was not in operation since | 01.07.2022 | From 01.07.2022 to 15.03.2023 | -258 days |
| Total no. of violating days | | | 2612 |

Total nos. of days of violation (N) as 2612 days, Pollution Index of Industrial sector (PI) as 80, Scale of Operation (S) as 0.5, Location Factor (LF) as 1 and Factor of Rupees (R) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as.

$$EC = 80 \times 2612 \times 150 \times 0.5 \times 1 = \text{Rs. } 1,56,72,000/-$$

7. WHEREAS, based on the Hon'ble NGT order dated 13.12.2023, the RO, Kothagudem vide report dated 20.01.2024 submitted the revised calculation on levy of Environmental Compensation. The issue was reviewed in the Task Force Committee meeting held on 23.01.2024. The Committee recommended that the Environmental Compensation may be levied based on the following calculation:

 N – No of days of violation took place
 R – A factor In Rupees for EC
 S – Factor for scale of operation
 LF – Location factor

- Pollution Index (PI) is taken as 80 duly considering the category of the mine i.e., Red Category.
- R is suggested to consider as 150.
- S is taken as 0.5 considering the unit is small scale mine.
- The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. L_f is taken as 1 considering the population is < 1 million in which the mine existing.

5. WHEREAS, the Board vide Office order dated 03.01.2020 issued modalities / methodology for assessing, imposing and utilization of Environmental Compensation from the polluting units in the state of Telangana based on CPCB guidelines.
6. WHEREAS, the Regional Office vide order dated 11.12.2023 issued Show cause notice to the mine proposing to levy the Environmental Compensation of Rs. 1,26,000/- for 21 days and directed the mine to submit any objections in writing within 15 days from the date of the Order.
7. WHEREAS, based on the Hon'ble NGT order dated 13.12.2023, the RO, Kothagudem vide report dated 20.01.2024 submitted the revised calculation on levy of Environmental Compensation. The issue was reviewed in the Task Force Committee meeting held on 23.01.2024. The Committee recommended that the Environmental Compensation may be levied based on the following calculation:

Environmental Compensation (EC) = PI x N x R x S x LF

PI - Pollution Index of industrial sector

N - No of days of violation took place

R - A factor in Rupees for EC

S - Factor for scale of operation

LF - Location factor

- Pollution Index (PI) is taken as 80 duly considering the category of the mine i.e., Red Category.
- R is suggested to consider as 150.
- S is taken as 0.5 considering the unit is small scale mine.
- The stone crusher is located in Toggudem village, Paloncha (M) and the population of the Toggudem Grampanchayat and Paloncha Municipality is less than 1 Million. LF is taken as 1 considering the population is < 1 million in which the mine existing.
- No. of days of which violation took place are mentioned below:

| MoEF office memorandum dated | 18.05.2012 | Period for assessment | No. of days of violation |
|--|------------|--------------------------------|--------------------------|
| Closure orders issued by the Board on | 15.03.2023 | From 18.05.2012 to 15.03.2023. | 3954 days |
| <u>Exempted Days :</u> As per AD, Mines & Geology department mails dated 06.03.2023 & 09.01.2024, Mine was not in operation since | 01.11.2014 | From 01.11.2014 to 15.03.2023 | -3057 days |
| Total no. of days of violation | | | 897 |

Total nos. of days of violation (N) as 897 days, Pollution Index of industrial sector (PI) as 80, Scale of Operation (S) as 0.5, Location Factor (LF) as 1 and Factor of Rupees (R) as Rs. 150/-.

In view of the above, the environmental compensation is finalized as

$$EC = 80 \times 897 \times 150 \times 0.5 \times 1 = \text{Rs. } 53,82,000/-$$

- WHEREAS, the Board vide order dated 27.01.2024 issued Show cause notice to the mine regarding the assessment of Environmental Compensation of **Rs.53,82,000/- (Rupees Fifty Three Lakh and Eighty Two Thousand only)** to be levied on the mine and directed the mine to submit any reply/objections in writing within 15 days from the date of the Order, failing which the assessment carried out by the Board will be treated as final assessment.
 - WHEREAS, the EE.RO. Kothagudem vide report dated 13.03.2024 stated that the mine has not submitted reply to the show cause notice.
 - WHEREAS, the status was reviewed in the Task Force Committee meeting held on 06.04.2024. The representative of the mine attended the meeting. The Committee noted that the Board has carried out assessment of the EC exempting the period of non-operation of the Mine as per the details obtained from the AD, Mines & Geology Department. The Hon'ble NGT has reviewed the case and issued order dated 13.12.2023 and the same is read as follows:

1. Today, we have gone through the reports of the Department of Mines and Geology and the Telangana State Pollution Control Board.

2. When normally the Telangana SPCB levies penalty based on the report of the Department of Mines and Geology, in this case, apparently, it was not applied for the reasons best known to the Telangana SPCB. They have only calculated the damages for a period of 21 days only i.e. from the date of inspection till the date of show cause notice issued.
3. Let the Telangana SPCB give a reason as to why they have not followed the report of the Department of Mines and Geology in levying the environmental compensation and a reason for adopting a different yardstick for the quarry operators involved in this Original Application in particular. Let a detailed report be filed by the Telangana SPCB in this regard.
4. The Department of Mines and Geology is also directed to answer why the amounts were not recovered through they assessed, what is the action taken, and whether they will be able to even locate the quarry operators who ceased operations at least 5 or 6 years back."

In compliance of the Hon'ble NGT order dated 13.12.2023, the Board vide order dated 20.07.2024 levied Environmental Compensation on the following stone & metal quarries.
