Respected

Sub: In October, 2024, revised draft Coastal Zone Management Plans – many common properties of fisher villages are not marked – kindly mark them – reg.

Greetings

In order to bring the Coastal Regulation Zone notification, 2019, into effect, your committee has released revised draft coastal zone management plans (Plan Numbers PY01, PY02, PY03, PY05, PY06 & PY07) in October, 2024.

With respect to the shortcomings of these plans, I have already submitted a petition to your committee and a few other government departments on 09/10/2024. Further, I have filed a case against these plans in the National Green Tribunal – Southern Bench (Original Application No. 283/2024).

I have mentioned in that petition that these plans did not accept many information given by the fisher panchayats like information on fishing zones and common properties of fisher villages. A study was conducted to compare these two data sets, it seems, in Pondicherry district alone 551.2 acres of common properties in the coast and 471.49 square nautical miles of fishing zones are not marked. Likewise, in Karaikal district, 175.01 acres of common properties in the coast and 139.16 square nautical miles of fishing zones are not marked.

In these plans, untruthfully, the marking says that the fishers from these two districts are fishing only within 6.11 square nautical miles. This cannot be accepted at all.

Kindly mark all the missing data on coastal commons and fishing zones in the upcoming draft coastal zone management plans. I request you to conduct public hearings only with plans that have fulfilled all the requirements.

Yours

N. Malayalathan
