

Objections raised By Applicant on submitted Response By Respondents in Case No- 646/2023. 711

In submitted report at Page No. 253, 257, and 258 Forest Department shows Bills of Carrying Plants from A Nursery to Projected area By Tractor No- PB-12 3485 and HP 20 9712. But these Both of Tractor Numbers are fake. In real these are the Numbers of a Scooter and a Motorcycle. So How can it be possible that a Motorcycle and scooter carried out 600-1200 Trees.

Secondly, in Para 12.1 Industry department clearly accepted that Topographically, the area is hilly. So the hilly area means forest area. The area is not banjar and Kadim.

Therefore, It is requested to take serious action on these objections and Passed strict order on these type High Level Corruption.

## 12.1 ECONOMIC IMPACT

Pandoga is located in Tehsil Haroli of District Una and the proposed greenfield industrial area is located near Gagret area. Topographically, the area is hilly, easily accessible and located about 13 kms from Una district headquarter.

The proposed project will attract entrepreneurs in large numbers due to its location in the vicinity of resources. The basic infrastructure like roads network, rail network and power already exist in the area. The labour in sufficient numbers is available and it enhances the scope for industrial development of the area.
