BEFORE THE HON'BLE NATIONAL GREEN TRIBUNAL, NEW DELHI

In Re:-ORIGINAL APPLICATION NO. 243 OF 2025

News Item titled "Explainer Why Malwa is facing polluted water crisis appearing in The Tribune dated 29.04.2025"

NGT ON ITS SUO MOTU NOTICE

Versus

1. Central Pollution Control Board (CPCB) Through its Member Secretary, Parivesh Bhawan, East Arjun Nagar, Delhi-110032
2. Punjab Pollution Control Board, Through its Member Secretary, Vatavaran Bhawan, Punjab Pollution Control Board, Nabha Road, Patiala
3. Department of Water Supply and Sanitation Through its Principal Secretary, Water Supply Complex, Phase 2, Sector 54, S.A.S. Nagar, (Mohali) 160055

---Respondents

Reply by way of Affidavit of Er. Jagatjot Goel
Chief Engineer (South)-cum-Advisor Water
Quality Department of Water Supply and
Sanitation, on the behalf of Respondent No. 3

I above named deponent do hereby solemnly affirm and declare as
under:-

RESPECTFULLY SHOWETH:-

1. That the present Reply is being submitted in compliance of Order dated 16.05.2025, passed by this Hon'ble Tribunal, taking suo-moto notice of News item titled, " Explainer Why Malwa is facing polluted water crisis"

05 SEP 2025

h/

appearing in The Tribune, dated 29.04.2025. The news item relates to the serious water pollution problem in the Malwa region of Punjab, particularly in canals across Ferozepur, Faridkot, Muktsar, and Fazilka districts in the southwestern part of the State, due to the inflow of contaminated water.

2. That, the Hon'ble Tribunal has taken notice of fact mentioned in the said news item that the situation has arisen because polluted water is flowing into the Sirhind Feeder Canal from the Harike Barrage and that the Sutlej River is being polluted by the Buddha Nullah, which flows through the industrial town of Ludhiana and carries untreated wastewater. The news item also mentions that reduced water level in the Beas River is considered a major reason why pollutants are more concentrated
3. That the matter before this Hon'ble Tribunal pertains to Rivers/ Canals, which comes under the purview of Department of Water Resources, Punjab.
4. That inflow of contaminated water into Rivers /Canals is a matter of serious concern. However, as the Hon'ble Tribunal has itself observed, that Sutlej River is being polluted primarily due to discharge from Buddha Nullah, Therefore, the requisite remedial action in this regard falls within the jurisdiction of Ludhiana District Administration and Department of Water Resources, Punjab.
5. That it is respectfully submitted that Respondent no. 3 is neither a necessary nor a proper party to the present petition, as this Department has no role, concern or control over, the flow of water in canals or the prevention of inflow of contaminated water into canals/ rivers. As far as drinking water supply for human consumption is concerned, Department of Water Supply and Sanitation through its deep tubewell/ canal based schemes is being provided to the rural population of the State. Besides, Department of Water Supply and Sanitation, regularly conducts testing of its own sources for Chemical parameters once a year and for

05 SEP 2025

h

Bacteriological parameters twice a year to ensure supply of safe drinking water.

6. That it is humbly submitted that Department of Water Supply and Sanitation, Punjab has also carried out testing of Canal based schemes sourcing water from Harike Barrage in districts Ferozepur, Fazilka, Sri Muktsar Sahib and Faridkot through it's NABL accredited water testing labs. The abstract of the testing conducted is as under-

Sr. No.	Districts	No. of Schemes sourcing water from Harike Barrage	No. of Schemes for which samples tested in laboratory (Basic Chemical/ Heavy Metals/ ions)		No. of Schemes for which treated water found potable (Basic Chemical/ Heavy Metals/ ions)
			Raw Water	Treated Water	
1	Faridkot	47	47	47	47
2	Fazilka	124	124	124	124
3	Ferozepur	0	0	0	0
4	MUKTSAR	179	179	179	179
Grand Total		350	350	350	350

The results of water testing undertaken are attached as Annexure A. All the water samples taken from canal based water supply schemes sourcing water from Harike Barrage have been found to be potable.

In view of above submissions, as no lapse is attributable to Respondent No. 3, which is ensuring the supply of safe and potable drinking water to the rural population of the State, therefore it is most respectfully prayed that the Respondent no. 3 be deleted from array of parties, and the petition be dismissed qua the Respondent no. 3, in interest of justice and fairplay..
