Subject:- Reply for the Inspection note dated 04-07-2023.

Dear Sir,

After the inspection of MRF Facility located in Mansari Village conducted on 16-06-2023 we have received the following instructions:

1. Wet waste shall not be collected and transported to the facility keeping in view of the fact that at present, there is no scientific mechanism available to treat the wet waste.
2. Emissions from Diesel Generator installed and operated at the facility, shall have to be tested against the emission norms stipulated under EP Act, 1986, from NABL approved Laboratory. The reports are to be compiled and submitted to Regional Office, HPSPCB, Kullu within 15 days.
3. M/s Krich Cleaning Pvt Ltd shall make the provisions for wet waste treatment facility by identifying suitable land.

As per above mentioned directions following actions have been conducted:

1. In August 2023 we have received properly equipped vehicle for wet waste collection, which will be put into work till the end of August 2023. This action will prevent vehicle with wet waste to be passing near home of Mr. Ankit Yaduvanshi creating unpleasant smell.
2. We have requested the latest inspection for the emission report for the Diesel Generator installed, but due to road conditions it can not be done in nearest time. Please kindly accept the attached report for the Generator conducted in Year 2022, the latest report will be submitted to Your Office as soon as the road situation improves.
3. We have identified a land for the wet waste treatment Facility (BIO-Gas Plant). Location: Seo Bagh, Kullu. Size of proposed land: 2 Bigha. Ownership: Reserve Forest Seo Bagh. Documents of the land are attached to this letter. We are looking forward to further inspection of the proposed land from Your Office.

Sincerely Yours,

Iana Danilova
