ORIGINAL APPLICATION NO. 695/2024**

**IN THE MATTER OF:**

Vs.

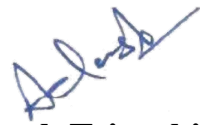

State of Uttar Pradesh & Ors.

**REPLY ON BEHALF OF THE RESPONDENT NO. 6&7 I.E. UTTAR  
PRADESH RAJYA VIDYUT UTPADAN NIGAM LIMITED AND  
OBRA THERMAL POWER PROJECT LIMITED.**

**MOST RESPECTFULLY SHOWETH:**

1. The Present Reply is being filed on behalf of the Respondent No.6 & 7 i.e. Uttar Pradesh Rajya Vidyut Utpadan Nigam Limited and Obra Thermal Power Project Limited Respectively. This Hon'ble Tribunal registered the captioned Original Application in exercise of Suo Motu Jurisdiction on a letter Petition dated 08.10.2023 received from the Application.
2. The Answering Respondent is a company engaged in the generation of electricity, which is supplied to the general public at competitive and affordable rates, ensuring access to an essential public utility. The project undertaken by the Answering Respondent, which is the subject matter of the present proceedings, is therefore of significant public interest and paramount importance, as it directly contributes to the broader objective of providing cost-effective electricity to the public at large, thereby promoting general welfare and meeting the essential needs of society.
3. The applicant alleged that during the construction of the Obra 'C' Thermal Power Station, approximately 50,000 trees were illegally felled in collusion with the relevant authorities.

4. It is relevant to point out at this juncture that the Answering Respondent is not concerned with Obra D Thermal Power Station as the same has been transferred to Meja Urja Nigam Pvt. Ltd. (MUNPL), which is a joint venture of NTPC and Uttar Pradesh Rajya Vidyut Utpadan Nigam Limited (UPRVUNL) and a matter of abundant caution, the Answering Respondent has already informed about the directions of this Hon'ble Tribunal to MUNPL.
5. In light of the allegations, the Hon'ble Tribunal, vide order dated 24.07.2024, constituted a Joint Committee to investigate and verify the facts presented in the complaint, and submit its report within one month.
6. Upon receiving the report from the Joint Committee, this Hon'ble Tribunal found that the report was incomplete. Accordingly, the Answering Respondents were impleaded by this Hon'ble Tribunal.
7. It is submitted that the assertion of illegal tree cutting involving over 50,000 trees in connection with the Obra C Thermal Power Station is unfounded. All actions taken were executed in compliance with the requisite legal frameworks, and any allegations of collusion with authorities lack substantiated evidence.
8. In response to the query raised by the Hon'ble Tribunal concerning the felling of trees in relation to the construction of the Obra 'C' Thermal Power Station, following is submitted for the kind consideration of this Hon'ble Tribunal:

**A. Reasons for Tree Felling:**

9. The felling of trees was undertaken in connection with the construction and expansion of the Obra C Thermal Power Projects which is a part of large-scale infrastructure developments aimed at augmenting the energy production capacity in the region. The construction works for Obra 'C' require significant land use, necessitating the removal of trees to accommodate power station

facilities, residential complexes, switch yards, sub-stations, and other associated infrastructure.

10. The purpose of the tree felling was directly linked to the need for clear space for constructing vital components of the Obra projects, such as Turbine Building, Boiler, ESP, FGD, Cooling Tower, Switch Yard and other facilities essential for power generation. These projects were justified under public infrastructure development policies, as well as state and national energy needs.
11. Further, letters from the Executive Engineer, Obra C, and related authorities outlined the necessity for clearing specific areas such as the Sector 2, 3, 4 (Gandhi Maidan), Central store area of Obra B Thermal Power House, Sector 5, 6, & 7 of Obra colony. Permissions were granted under the UP Trees Protection Act, 1976, with strict conditions to ensure compliance with environmental protection regulations.

**B. Number of trees felled**

12. It is incorrectly mentioned in the Application that approximately 50,000 trees were cut in the initial phase during the development of the Obra 'C' Thermal Power Station. It is submitted that tree cutting was carried out in two phases. In the first phase, 4,191 trees were felled in targeted areas, including Sectors 5, 6, and 7, for which Rs. 4,19,100 was paid for the cutting of trees and Rs. 9,50,401 for plantation. In the second phase, 1,156 trees were cut, with Rs. 1,15,600 paid for the cutting and Rs. 8,17,988 for plantation.

**C. Procedural Steps taken with respect to permissions sought from Authorities/Government Departments:**

13. The felling of trees was carried out following formal requests for permission and adherence to regulatory procedures under applicable laws, including the UP Trees Protection Act, 1976. The following significant steps were taken:

- i. On 25.11.2016, the Office of the Divisional Forest Officer, Sonbhadra granted approval of felling of 4,191 trees located in Sectors 5, 6, and 7 of the Obra Colony residential complex. This approval was subject to the condition of paying Rs. 9,50,400.00 for the plantation of 8,382 saplings, to ensure compliance with afforestation mandates under the UP Trees Protection Act, 1976. The letter dated 25.11.2016 issued by the DFO granting approval for felling of trees is attached herewith and marked as **Annexure R-1**.
- ii. Permissions were sought and granted through various formal letters from the Executive Engineer, Obra C to the Divisional Forest Officer and other relevant authorities. For instance, the permission for felling 1,156 trees in sectors 2, 3, and 4 (Gandhi Maidan) and Central store of Obra B Thermal Power house was granted on the condition that no risk to life or property should arise during the cutting process. It was also mandated that transit passes be obtained from the Divisional Forest Office for the transportation of felled trees, along with depositing the necessary fees for the same.
- iii. On 30.11.2017, a letter was issued informing the concerned party that the felling permission fee of Rs. 1,15,600.00 for 1,156 trees was required to be deposited in favor of the Forest Department. The true copy of the letter dated 30.11.2017 is attached herewith and marked as **Annexure R-2**.
- iv. On 29.12.2017, the Divisional Forest Officer confirmed the receipt of Rs. 9,33,588.00 for the felling of 1,156 trees and emphasized the necessity of securing a transit pass and adhering to forest department regulations. The true copy of the letter dated 29.12.2017 is attached herewith and marked as **Annexure R-3**.

- v. The procedure for felling trees also involved public auctions. For example, on 22.02.2017, a public auction of 4,191 standing trees in Sectors 5, 6, and 7 was conducted, and Satguru & Co., Bareilly, Kachhwa, District Mirzapur, emerged as the highest bidder for Rs. 51,00,000.00. Conditions for removal, transport, and payment instalments were detailed in this auction.

#### **D. Steps Taken by the Answering Respondents towards Afforestation**

14. To ensure compliance with afforestation requirements, following steps were taken to mitigate the environmental impact of tree felling:

- i. In line with the UP Trees Protection Act, 1976, the felling of trees was accompanied by afforestation commitments. For every tree cut, double the number of saplings were mandated to be planted. Specifically, 8,382 saplings were planted in lieu of the 4,191 trees felled in sectors 5, 6, and 7 of the Obra Colony. A similar commitment was made for the planting of 6,712 saplings in compensation for the 1,156 trees cut in sectors 2, 3, and 4.
- ii. Further, by letter dated 01.09.2022 issued by Divisional Forest Officer confirmed that the plantation of saplings in a fenced area measuring 6.10 hectares in Obra Sector 09 was completed. The Divisional Forest Officer reported that fencing had been installed to protect the saplings, although subsequent damage to the fencing required repair to ensure the protection of the new plantations. The true copy of the letter dated 01.09.2022 is attached herewith and marked as **Annexure R-4**.
- iii. Payments were made to the Forest Division to cover the cost of plantation and maintenance of saplings. For instance, Rs. 9,33,588.00 was paid to the Obra Forest Division for planting 6,712 saplings, and Rs. 9,50,400.00 was allocated for the planting of 8,382 saplings. Additionally, administrative

approvals were secured for maintenance during the first and second phases of afforestation.

- iv. The process was supervised by the Divisional Forest Office, which monitored compliance with plantation targets and fencing conditions. The need for repairs and ongoing maintenance was communicated to ensure the long-term viability of the afforestation efforts.

15. It may be noted that while felling the required number of trees necessitated for the construction and expansion of the Respondent No.7 plant, certain procedural steps were taken to ensure permissions were obtained in accordance with applicable laws. Furthermore, compensatory afforestation efforts have been initiated, with a commitment to planting double the number of trees cut, although additional oversight is required to ensure the protection of the new plantations.

16. It is submitted that the request for a compliance report dated 20.08.2024 from the Uttar Pradesh Pollution Control Board underscores the commitment of Answering Respondents to adhere to environmental regulations. It is imperative to recognize that the compliance efforts have been diligently pursued, and any scrutiny reflects a proactive approach to ensuring environmental protection in line with the legal requirements.

17. The Answering Respondents have adhered to all financial obligations regarding the felling of trees, including the payment for the authorized felling of trees which can be confirmed from the letter dated 27.07.2017. This payment demonstrates a commitment to comply with the procedural requirements set forth by the Forest Department, ensuring that all actions taken are legally sanctioned and financially transparent.

18. Further, the auction process for the standing trees was conducted in strict accordance with established procedures, ensuring that all purchasers were fully informed of their responsibilities as stated in letter dated 22.02.2017. The conditions imposed during the auction were designed to protect the interests of the environment and the public. The Answering Respondents have complied with these terms, which were integral to the successful execution of the project.
19. It may be noted that the permissions granted for felling trees included stringent conditions aimed at safeguarding public safety and environmental integrity. The Answering Respondents took all necessary precautions to ensure that no danger arose during the tree cutting process, thereby upholding their duty to mitigate risks associated with the operation.
20. Apart from the above, this Hon'ble Tribunal in para 5 of the Order dated 02.09.2024 pointed out that the report submitted by the Joint Committee failed to answer the following questions in terms of which specific response is submitted by the Answering Respondents:
- A.** In terms of the query as to whether the land in which trees have been cut is a forest land or not, it is submitted that the land in which the trees were cut is not classified as forest land; it is identified as part of the Obra Thermal Power Station area and residential complex sectors (specifically Sectors 2, 3, 4, 5, 6, and 7). The Divisional Forest Officer granted permission for the felling of trees situated on this land, indicating that it is managed for development purposes rather than being designated as a protected forest area.
- B.** Regarding the kind of trees, age, and other details of the trees which were allowed to be cut by the Divisional Forest Officer, the details of trees felled in Sector 5, 6 & 7 are attached herewith and marked as **Annexure R-5**. The details of trees felled in Sector 2, 3 & 4 are attached herewith and marked as **Annexure R-6**.

- C. With respect to Ownership of land, it is submitted that the land on which the trees were felled belongs to the Obra Thermal Power Station, which is managed by UPRVUNL. The ownership indicates that the land is utilized for power generation and related activities, thus falling under the jurisdiction of these corporations.
- D. Regarding the query as to what relevant considerations were considered by the Divisional Forest Officer in permitting the cutting of trees since that is the requirement under the provisions of UP Protection of Trees Act, 1976 it is submitted that all the information in pursuance thereof have already been submitted inter-alia in para 11 herein above. Further, in permitting the cutting of trees, the Divisional Forest Officer considered several relevant factors:
- I. **Safety Concerns:** It was mandated that no danger to life and property should occur during the cutting of trees.
  - II. **Specificity of Trees:** Only the trees listed in the approved documentation were allowed to be felled.
  - III. **Plantation Requirement:** A condition was set for the plantation of double the number of trees felled (i.e., for every tree cut, two saplings must be planted) to ensure compliance with environmental regulations.
  - IV. **Transit Pass and Fees:** It was required that a transit pass be obtained for the felled trees, and associated fees must be deposited according to the established rules.
  - V. **Environmental Impact:** The necessity of planting compensatory saplings and maintaining the ecological balance was a significant consideration, reflecting adherence to the UP Protection of Trees Act's provisions aimed at safeguarding tree cover.

21. That in light of the above, it will not be out of place to mention that all necessary compliance measures have been duly executed regarding the felling of trees in the designated areas. All required permissions were obtained from the relevant authorities, and compensation for the cutting of trees was paid in accordance with regulatory requirements. Additionally, successful afforestation efforts were carried out, with double the number of saplings planted to ensure ecological balance. These actions confirm that all legal and environmental obligations have been thoroughly fulfilled in relation to the project.
22. The Answering Respondents reserves its right to file a more detailed reply as and when required depending upon the circumstances of the present case subject to the leave of this Hon'ble Tribunal.
23. The present reply is being filed without prejudice to the rights and contentions of the Answering Respondents. It is submitted that Mr. Ajay Kumar Sharma, Superintendent Engineer (OCCCC) is authorised to represent the Answering Respondent No.6 & 7 for the purpose of present Reply.
24. In light of the facts and circumstances presented, the Applicant has made attempts to mislead this Hon'ble Tribunal, tantamounting to abuse of process and wastage of precious judicial time. Consequently, it is most respectfully prayed that this Hon'ble Tribunal may be pleased to dismiss the Application in view of the fact that the Answering Respondents have fully adhered to all applicable laws and regulations. Furthermore, the Applicant is liable to be held accountable for their misleading conduct by imposing exemplary costs, reflecting the seriousness of this matter and discouraging similar behaviour in the future.
