

BEFORE HON'BLE NATIONAL GREEN TRIBUNAL, NEW DELHI

OA No. 373/2022

In the matter of:

Sumit Saini

...Complainant

Vs

HSPCB & Ors.

...Respondent

**REPLY OF RESPONDENT No. 6 i.e. COMMISSIONER,
MUNICIPAL CORPORATION YAMUNANAGAR-JAGADHRI****Most Respectfully Submitted:**

1. That the above captioned OA has been filed raising several issues including scientific disposal of solid waste in Yamunanagar. This Hon'ble Tribunal vide order dated 17.01.2023 issue notice to the Commissioner, Municipal Corporation, Yamuna Nagar requiring to file his reply/response in this regard. It is humbly submitted that steps taken by the Municipal Corporation could not be apprised to the Haryana State Pollution Control Board due to communication gap. It is undertaken to be careful in future.
2. That by way of the present reply, answering respondent wishes to place on record the steps taken by the Municipal Corporation, Yamunanagar in compliance of Solid Waste Management Rules, 2016.
3. That the Municipal Corporation Yamunanagar-Jagadhri allotted the work to M/s Classic manpower vide this office no MCY/2021/260 dated 22/03/2021 for Door to Door Collection, Solid Waste Lifting, Segregation, Transportation and Disposal

of Solid Waste as per Municipal Solid Waste Rules 2016. This work order was issued for execution of above said work from 22/03/2021 to 21/03/2022. M/s Classic Manpower executed the work initially in a proper way but after some time this agency did not process the solid waste as per Municipal Solid Waste Rules, 2016. Due to this reason notices were issued to the agency to complete the processing but agency did not respond and finally agency was blacklisted by Municipal Corporation Yamunanagar-Jagadhri on dated 27/10/2022 alongwith withholding the payment amounting to Rs 5,26,60,426/-. After that agency on dated 13/12/2022 filed an appeal in Hon'ble Petition Committee of Haryana Vidhan Sabha and assured to execute the work within one month. Accordingly, Hon'ble Petition Committee of Haryana Vidhan Sabha allowed him to execute the work within one month and directed to submit the report. In compliance of order dated 13/12/2022 of Hon'ble Petition Committee of Haryana Vidhan Sabha, M/s Classic Manpower started the work and as on today the agency has lifted all the solid waste which was collected by the agency for processing at this site, the blacklisting of agency will only be withdrawn after submitting the proof of scientific disposal of this waste. Now Municipal Corporation Yamunanagar-Jagadhri has allotted this work of door to door collection, lifting, segregation and processing work of ward no 12 to 22 to M/s IND Sanitation Solution vide this office memo no 13449 dated 11/10/2022. This agency is transporting waste to this site and processing this waste in compliance of Solid Waste Management Rule 2016.

4. That, Complainant in his complaint dated 03.01.2023 has agreed that solid waste lying at Aurangabad has been lifted.

5. That, it is also submitted that Municipal Corporation has allotted the work of door-to-door collection, lifting, segregation and processing work of waste from ward no 12 to 22 to M/s IND Sanitation Solution vide this office memo no 13449 dated 11/10/2022. Now agency is doing door to door, segregation and processing of fresh solid waste at this site in a scientific manner. Now, there is no foul smell because the agency is executing the work by making windrows, spraying culture over it (the photograph is annexed as **R-1**). After spraying culture proper turning of windrows is being done. When windrows reach to maturity level then bio mining is being done through trommels to receive different fractions as Compost, RDF, inert and C&D, Which are in the scope of the agency to be disposed off in scientific manner as per SWM Rules, 2016. It is further submitted that agency has lifted RDF from this site after bio mining (approx 120 MT). Weighing slips and photograph of loaded truck with GPS Co-ordinates are annexed as **R-2**.

6. That, it also submitted that solid waste collected from ward no 12 to 22 is being transported to this site which is estimated approx 135 tons per day, but the plant installed at site is of capacity 300 tons per day. If plant works in two shifts the capacity goes up to approx. 500 Tons per day. Which is more than sufficient to process the transported waste at this site after doing Bio remediation for 24 to 28 days and then bio mining is being done (Photographs is annexed as **R-3**).

7. That, weighing bridge has been installed at site which has been duly calibrated by the authorized body (Photograph is annexed as R-4) all waste received is being weighed properly before receiving at site. Weighing slips of solid waste from the day when door to door collection has started is annexed as R-5.
8. That, the boundary wall at plant is constructed by tin shed (photograph is annexed as R-6).
9. That, the team of Regional Officer, Pollution Control Board Yamunanagar-Jagadhri has visited the site and has checked and verified the facts presented by answering respondent. The report is annexed as R-7

In view of the submissions made herein above, it is humbly submitted that present reply may kindly be taken on record. It is also undertaken to comply with the directions passed by this Hon'ble Tribunal.
