ORIGINAL APPLICATION NO. 1145/2024**

IN THE MATTER OF:-

NEERAJ CHOUDHARY

...PETITIONER

VERSUS

STATE OF RAJASTHAN & ORS.

...RESPONDENTS

**SUPPLEMENTARY REPLY ON BEHALF OF THE
ANSWERING RESPONDENT NO. 7 - BHARAT SINGH
SHEKHAWAT)**

MOST RESPECTFULLY SHOWETH:

1. That the present supplementary reply is being filed on behalf of Respondent No. 7 (**‘Answering Respondent’**) in the above captioned Original Application (**‘OA’**) in continuation and in addition to the previous reply filed on dated 05.10.2025 in order to place certain averments and documents which would be relevant for the adjudication of the present OA.
2. That the above captioned Original Application (**“OA”**) is pending adjudication before this Tribunal and the next date in the matter is 06.11.2025.
3. That the contents of the reply dated 05.10.2025 filed by Respondent No. 7 herein, are not repeated for the sake of brevity and convenience of this Hon’ble Tribunal. The same may be read as part and parcel of the present supplementary reply.

4. That at the outset, the Respondent No. 7 denies all claims, contentions, allegations and averments levied in the above captioned OA contrary to anything stated or submitted in this supplementary reply. Nothing in the OA as well as the Joint Inspection Report may be deemed to have been accepted or admitted by the Answering Respondent for want of a specific denial or on the ground of non-traverse, save any averment which has been expressly admitted hereinafter.
5. That the above captioned OA has been filed by the Applicant alleging that the Answering Respondent has conducted the illegal excavation and transportation of the mineral from the mining lease duly granted by the authorities. It is the case of the Applicant that the Answering Respondent is conducting the excavation activities in violation of the prevalent rules and regulations. Further, it is also alleged by the Applicant that the Answering Respondent is violating the environmental norms and is illegally transporting the mineral after its excavation.
6. That the Hon'ble NGT vide its order dated 19.11.2024 formed a Joint Committee comprising of representative of District Magistrate, Kekri; Rajasthan State Pollution Control Board; a senior scientist of Ministry of Environment Forest and Climate Change and Central Pollution Control Board, which shall act as the nodal authority in the committee.
7. That the Respondent Rajasthan State Pollution Control Board (RSPCB) issued a show cause notice dated 04.04.2025 to the Answering Respondent wherein it was

alleged that based upon the inspection conducted by the Joint Committee on 03.01.2025 and the subsequent report prepared thereto, certain non-compliances of the Consent to Operate (CTO) conditions were observed. It is respectfully submitted that the said show cause notice enumerated three alleged instances of non – compliance and called upon the Answering Respondent to furnish its explanation within a period of fifteen (15) days from the date of issuance thereof in response to the allegations so levelled therein.

A true copy of the Show Cause Notice Dated 04.04.2025 issued by the Rajasthan State Pollution Control Board is attached herewith and marked as **ANNEXURE – R/7/10**.

8. That thereafter, the Answering Respondent immediately upon receipt of the aforesaid show cause notice furnished a detailed and comprehensive reply thereto on 14.04.2025 wherein each and every allegation levelled by the Respondent Board was categorically denied in its entirety. It is further submitted that along with the said reply, the Answering Respondent also annexed all requisite documents, records and evidentiary materials in substantiation of the factual position and in support of the submissions so made therein, thereby demonstrating full compliance with the conditions of the Consent to Operate and the absence of any violation whatsoever. A copy of the reply dated 14.04.2025 is attached herewith and marked as **ANNEXURE-R/7/11**.
9. That it is most respectfully submitted that the Answering Respondent in its reply dated 14.04.2025 categorically asserted that all mining operations are being conducted

strictly in accordance with the terms and conditions of the Consent to Operate (CTO) as well as other statutory permissions and that the allegations levelled in the show cause notice are wholly false, baseless and frivolous. It is further submitted that even the inspection report of the Joint Committee itself records that the Answering Respondent has duly undertaken plantation activities and that no cutting of trees alongside the river bank was observed, thereby, conclusively establishing that the requisite plantation has been properly carried out and is being duly maintained in compliance with environmental norms. It was also specifically submitted that regular water sprinkling is being undertaken on all kaccha roads within and around the lease area to suppress dust emissions and that transportation of mineral is being carried out only through vehicles covered with tarpaulin sheets to prevent fugitive dust emissions. These measures were duly substantiated through contemporaneous photographic evidence annexed with the reply, thereby demonstrating the bona fide compliance of the answering Respondent. Lastly, the Answering Respondent categorically denied the allegation regarding obstruction near the Gulgaon Weighbridge across the riverbed, asserting that the same is wholly misconceived, false, and contrary to record. It was duly pointed out that the alleged obstructions existed much prior to the grant and execution of the mining lease in favor of the Answering Respondent, as is clearly borne out from the Google Earth imagery predating 30.03.2023. Accordingly, any imputation of liability upon the Answering Respondent in this regard is

entirely misplaced, unjustified, and unsustainable in the eyes of the law.

10. That despite the categorical and well-substantiated reply submitted by the Answering Respondent along with documentary and photographic evidence establishing full compliance with the statutory and environmental conditions, the Respondent Pollution Control Board proceeded to issue a show cause notice dated 22.08.2025, which provided for the deposition of the environmental compensation.

A true copy of the show cause notice dated 22.08.2025 is attached herewith and marked as **ANNEXURE-R/7/12**.

11. That it is most respectfully submitted that a team of officials from the Rajasthan State Pollution Control Board (RSPCB) conducted a site inspection of the mining lease area of the answering Respondent on 29.07.2025 with the specific purpose of verifying the compliance status and the factual assertions made in the reply submitted by the leaseholder. It is pertinent to note that during the said inspection, the officials of the RSPCB themselves observed and recorded that the Answering Respondent had duly complied with all stipulated conditions and remedial measures in accordance with the Consent to Operate and environmental norms. However, despite such acknowledgment of compliance, the inspection report erroneously and without any cogent basis noted that certain obstacles created using large-sized stones still existed near the river stretch, and on that unfounded premise a penalty was purportedly imposed upon the Answering Respondent.

12. That the Answering Respondent was wholly taken aback upon receipt of the aforesaid notice wherein the allegation regarding the existence of obstacles within the river body was once again reiterated, despite the same having been conclusively clarified and addressed in the earlier reply as well as during the inspection proceedings. It is most respectfully submitted that the answering Respondent has never at any point in time caused to be placed or permitted the placement of any obstruction, embankment, or structure within the river area. The said allegation stands completely falsified by the incontrovertible evidence borne out from the Google Earth imagery of December 2022 which clearly depicts the existence of such formations much prior to the grant and execution of the mining lease in favour of the Answering Respondent. Accordingly, the said allegation is wholly misconceived, factually untenable, and legally unsustainable as the answering Respondent cannot in any manner whatsoever be held liable for any act, condition, or obstruction that pre-existed the commencement of its leasehold rights. It is further submitted that the Answering Respondent, in order to substantiate and reaffirm its position, duly furnished a detailed reply vide letter dated 28.08.2025 enclosing all relevant documentary and photographic evidence in support of the submissions so made.

A true copy of the reply dated 28.08.2025 is attached herewith and marked as **ANNEXURE-R/7/13**.

13. That it is most respectfully submitted that the Answering Respondent has at all times obtained the requisite permissions, approvals and clearances from the competent

authorities after due verification, scrutiny and assessment of all prescribed parameters and conditions. It is further submitted that in accordance with the Environmental Impact Assessment (EIA) Report the Answering Respondent was mandated to undertake plantation of a total of 2,564 trees within the leasehold area. The Answering Respondent has diligently complied with this requirement and has also ensured adherence to all other formalities and conditions stipulated therein. It is respectfully submitted that the compliance with these environmental obligations is clearly reflected in the compliance report issued by the competent authorities, thereby establishing beyond doubt that the Answering Respondent has fully and faithfully discharged all obligations relating to the development and maintenance of the plantation and the green belt. Accordingly, it is evident that the Answering Respondent has consistently acted in accordance with statutory and environmental requirements, leaving no scope for any allegation of non-compliance or negligence in this regard.

A true copy of the Environmental Impact Assessment report, along with the compliance report, is attached herewith and marked as **ANNEXURE-R/7/14**.

SUPPLEMENTARY REPLY TO JOINT COMMITTEE REPORT

14. That the Answering Respondent had filed exhaustive replies to the Joint Committee Report dated 18.01.2025 by way of the reply cum objections dated 05.10.2025. That in addition to the said replies, the Answering Respondent is raising the following additional replies to the Joint Committee Report.

It is submitted that the objections raised by way of the reply dated 05.10.2025 may be treated as part and parcel of the present supplementary Reply.

15. That in reply to the contents of Recommendation (b) of the Joint Committee, it is most respectfully submitted that the Answering Respondent had in a timely and lawful manner, demarcated and fixed all boundary pillars of the sanctioned mining lease area prior to the commencement of any mining operations. This fact is fully verifiable from the official records, survey reports and inspection notes maintained by the Respondent Mining Department. It is further submitted that the establishment of these boundary pillars was undertaken in strict compliance with the applicable statutory provisions and laid-down guidelines governing mining lease operations. It is pertinent to note that while the Answering Respondent had duly installed the boundary pillars at the designated locations within the mining lease, any displacement, destruction or disappearance of such pillars has occurred on account of factors entirely beyond the control of the Answering Respondent. Specifically, such occurrences can be attributed to: (i) the unlawful and unauthorized activities of local residents or individuals engaged in illegal mining in and around the leasehold area, and/or (ii) natural processes, including soil erosion, shifting of loose strata and movement caused by the flow of water within the mining lease area. At no point has the Answering Respondent neglected, tampered with or failed to maintain the boundary demarcations in accordance with the law.
16. That in reply to the contents of Recommendation (d) of the Joint Committee, it is most respectfully submitted that the

Answering Respondent has duly undertaken the plantation of an adequate number of trees and has consistently taken all possible measures to ensure that no harm or damage is caused to the plantation along the river banks. As a result of such sustained and diligent efforts, the Answering Respondent has successfully developed and continues to maintain a well-established green belt around the extensive leasehold area granted to it. It is further submitted that the Answering Respondent has incurred substantial expenditure in carrying out these plantation activities and has implemented a regular monitoring and maintenance program to ensure the survival and growth of the saplings and trees. However, it is respectfully submitted that due to the expansive nature of the leasehold area, which spans a considerable geographical extent and is in close proximity to several villages, occasional damage to the plantation by stray animals is inevitable. Moreover, the ongoing menace of illegal mining and unlawful transportation of minerals in the surrounding areas has, at times, resulted in inadvertent damage to the plantation, as such persons tend to trample, uproot, or otherwise harm the saplings and trees. The Answering Respondent respectfully submits that despite these unavoidable external factors, all statutory and environmental obligations pertaining to plantation and green belt development have been diligently fulfilled. In support thereof, the Answering Respondent duly submits that a total of 2564 trees and plants were required to be planted by the Answering Respondent as against which he has planted more than 3000 trees due to which it is clearly demonstrated that all necessary pre-requisites for plantation

and green belt development were duly undertaken and fully complied with following which the Environmental Clearance was granted in favour of the Answering Respondent. Accordingly, any suggestion that the Answering Respondent has failed in its duties or obligations in this regard is wholly misconceived, factually incorrect, and legally untenable.

17. That in reply to the contents of Recommendation (h) of the Joint Committee, it is to state that the Answering Respondent has duly submitted the replenishment study and the official Respondents, herein after, in-depth consideration of the same have proceeded to approve the same pursuant to which the answering respondent was issued with the Environmental Clearance. It is duly submitted that the answering respondent was issued with the environmental clearance after the compliance of all the parameters and requisites was duly made by the Answering Respondent.
18. That the humble Answering Respondent respectfully craves the liberty of this Hon'ble Tribunal to raise additional submissions and grounds at the time of oral arguments, and further seeks leave to file supplementary replies, if the circumstances so warrant.

PRAYER

It is, therefore, most respectfully prayed that this Hon'ble Tribunal may graciously be pleased to: -

- a) Take on record the present supplementary reply filed by the Respondent No. 7 to the above captioned Original

Application and dismiss the above captioned Original Application;

- b) Any such other order or direction which this Hon'ble Court may deem fit and proper may kindly also be passed in favour of Respondent No. 7.

AND FOR THIS ACT OF KINDNESS, THE RESPONDENT SHALL DUTY BOUND AS IN FOREVER PRAY.

DATE: 04/04/2025

M/s Bharat Singh Shekhawat,
 336, Mohan Nagar-B,
 BJS Colony, Jodhpur-342006.

Sub:- Show cause notice for intended revocation of Consent to Operate under the Air (Prevention & Control of Pollution) Act, 1981 in respect of your mine located at Revenue Villages of Tehsil- Kekri, District- Ajmer (ML No.- 05/2013).

Ref: - Consent to operate issued vide Board's letter dated 07.02.2024.

Sir,

1. Whereas, the Air Act came into force in the whole of the State of Rajasthan with effect from 16.05.1981.
2. And whereas, the Air Act has been enacted to provide for the prevention, control and abatement of air pollution.
3. And whereas, keeping this in view the Board has been conferred power to take such steps as are deemed necessary for the prevention, control and abatement of Air and Water pollution.
4. And whereas, M/s Bharat Singh Shekhawat (herein after referred to as "the Mine") is engaged in operating a "Bajri" mine located at ML No.- 05/2013, Revenue Villages of Tehsil- Kekri, District- Ajmer.
5. And whereas, the State Board granted consent to operate under Air Act, 1981 for production of Bajri (ROM) @ 3000000 Ton Per Annum with the validity up to 25.05.2027.
6. And whereas, mining lease was visited by the joint committee on 03.01.2025 in compliance of the Hon'ble NGT, New Delhi order dated 19.11.2024 and report has been filed by CPCB before Hon'ble NGT. As per the joint committee report dated 03.01.2025, following non-compliance were observed :-
 - i. The Project Proponent has not carried out plantation to cover 1/3rd area of the mining lease. (Violation of condition no. 11 of consent to operate granted vide letter dated 07.02.2024).

- ii. No arrangements (provisions of water sprinkling system etc.) have been made in the lease area for control of fugitive emission resulting from transportation, loading, unloading of bajri. Mined bajri is not transported in covered vehicles. During visit, no water sprinkling system was observed in the lease area as well as transfer points. (Violation of condition no. 12, 16 & 19 of consent to operate granted vide letter dated 07.02.2024).
- iii. At a location near village Gulgaon weighbridge, an obstacle was made using large size stones across the river bed in mining lease area which obstructs the natural flow of river and may cause damage to river ecology. (Violation of condition no. 21 of consent to operate granted vide letter dated 07.02.2024).
7. Further, the recommendations of the joint committee, states that it should be ensured by the PP during mining operations that no damage is done to the plantation on the river banks and adequate plantation should be developed.
8. And whereas, it is clear from above that the lessee has failed to comply with the conditions of consent to operate and also Environmental Clearance and Therefore, the State Board intends to revoke consent to operate under reference.

In view of above, this show cause notice is being served upon you so as not to why your consent to operate under reference may be revoked. You are advised to submit your reply to this office along with a copy to the Regional Office of the Board at Kishangarh latest by 20.04.2025, failing which consent to operate under reference may be revoked without any further notice.

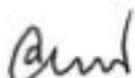

This bears approval of the competent authority.

Yours sincerely,

(Vijay Sharma)

Subject - Reply to your show cause notice No. F.12(BJ-31)/RPCB/Gr.
Mines/23-27, Date 04.04.2024.

Reference:- Report filled by joint comminty in original application OA 1145/24
(PB) titled as Necraj Chaudhary V/s State of Rajasthan & Others.

Dear Sir,

Under the above subject and in your referenced letter, it is requested that the mining lease of mineral bajri located at Tehsil Kekri of District Ajmer has been granted by the Mining Department on 30.3.2023 and registration was done on 31.3.23. EC for my project by granted by MOEF on 03.02.2022 and CTO /CTE was granted by RSPCB on 30.3.23. Further amendment EC was granted by SIEAA Rajasthan 12.01.2024 and amended CTO/CTE was granted by RSPCB on date 07.02.2024

With reference to the findings of Joint Committee report dated 03.01.2025, Hon'ble NGT (OA 1145/2024(PB) titled as Neeraj Chaudhary V/s State of Rajasthan & Others) (**Annexure-01**) order dated 19.11.2024 and your notice dated 04/04/2025 point wise reply is as follows:-

<p><u>Under your show cause notice Sub Point No. i under the point No. 06:</u> The Project Proponent has not carried out plantation to cover 1/3rd area of the mining lease. (Violation of condition no. 11 of consent to operate granted vide letter dated 07.02.2024)</p>	<p><u>Reply :</u> The eligation is wholly baseless and without any some and substance, As the findings of the Joint Committee Survey report Dated 03.01.2025 States is produced below refuting all the aligations made against lease holder:</p> <p>Page no. 18</p> <p>Observation:</p> <ul style="list-style-type: none"> ● During the visit, the committee did not find trees/plans cutting nearby both side of river. ● PP carried out plantation of 3000 samplings at village Devmand on the total area of 3.15
---	--

	<p>the year 2023-24 and the survival rate of the plantation was 70-80%.</p> <ul style="list-style-type: none"> ● PP also donated 800 plants to Sarpanch, Gram Panchayat-Kadera on dated 27.08.2024 for plantation in village. <p>From the above mention observation of joint committee it is very much clear that Lease holder has not violated any conditions regarding cutting of trees or plantation as committed in approved mining plan as well as approved EIA.</p>
<p><u>Under your show cause notice Sub Point No. ii under the point No. 06 :-</u> No arrangements (provisions of water sprinkling system etc.) have been made in the lease area for control of fugitive emission resulting from transportation, loading, unloading of bajri. Mined bajri is not transported in covered vehicles. During visit, no water sprinkling system was observed in the lease area as well as transfer points. (Violation of condition no. 12, 16 & 19 of consent to operate granted vide letter dated 07.02.2024)</p>	<p><u>Reply :-</u> That the lease holder never violated condition no 12,16 and 19 of the CTO and that water sprinkling is regularly carried out by the lease holder on KHACHCHA ROADS. Photos are attached for your kind reference(Annexure-02), also lease holder make sure that every vehicle transporting mineral bajri should be covered. Photos of Covered Trucks/Vehicles transporting mineral bajri (Annexure-03).</p>
<p><u>Under your show cause notice Sub Point No. iii under the point No. 06 :-</u> At a location near village Gulgaon weighbridge, an obstacle was made using large size stones across the river bed in mining lease area which obstructs the natural flow of river and may cause damage to river ecology. (Violation of</p>	<p><u>Reply :-</u> The mentioned allegation of an Obstacle made of large stone across the river bed in mining lease area to which obstructs the natural flow of river and may cause damage to river ecology is wholly baseless and without any some and substance. I would like to inform you that the location near village gulgaon weighbridge the obstacle made using large size stones were present in the river area before the mining lease came into effect i.e. before 31.03.2023. For your reference I'm attaching the satellite image</p>

<p>condition no. 21 of consent to operate granted vide letter dated 07.02.2024).</p>	<p>of October 2022 (Annexure-04), where it is clearly visible that these stones are dumped in the river at least 3 months before the mining lease came into effect. Another satellite image which is of February 2022 (Annexure-5), in which these stones are not visible in the river area. From which it is clear that the stones were dumped in the river area by illegal miners between February 2022 and December 2022. In which any kind of involvement of me, the applicant, is not possible.</p> <p>As per the directions of the Hon'ble National Green Tribunal Committee, I have lodged a complaint in Police Station, Kekri Sadar, Kekri against unknown people for dumping stones in the river area (Annexure-6).</p> <p>And this above information has also been confirmed by the Joint Committee in there survey report dated 03.01.2025 on the Page No. 27 of the report(Annexure-7)</p>
<p><u>Under your show cause notice point No. 07 :-</u> Further, the recommendations of the joint committee, states that it should be ensured by the PP during mining operations that no damage is done to the plantation on the river banks and adequate plantation should be developed.</p>	<p><u>Reply :-</u> It is to state that no damage is been cause to the plantation on the river banks as well as adequate plantation has been developed. We retract that we have been conducting the mining operations in due compliance of the terms and conditions so imposed by the various authorities with regards to the protection and conservation of the plantation in the lease hold area. It is also out of place that the project proponent has also been conducting regular checkups in order to ensure the preservation of the plantation in the lease hold area.</p>
<p><u>Under your show cause notice point No. 08 :-</u> And whereas, it is clear from above that the lessee has failed to comply with the conditions of consent to operate and also Environmental Clearance and Therefore, the State Board intends to revoke consent to operate under reference.</p>	<p><u>Reply</u> In case if any defective pointed out we have been curing out in a very diligent manner. It is to state that the local villagers and mining mafia indulged in illegal mining are went upon to halt the legitimate and legally valid mining operations of the PP due to which serious challenges are posed to the PP, yet we has been trying its level best to cop up with the challenges so posed by them. And it is pertinent to note that despite the troubles so caused by the illegal miners and mafia has been adairing to the terms and conditions to imposed on it. It is vehemently submitted that PP has successfully achieved the</p>

665
19
due compliance of the conditions so imposed on it which have been duly acknowledged by the authorities from time to time.

It is humbly requested that the legitimate and valid operations of the PP ought not to be obstructed so that the ill will of the people indulged in illegal mining may not be successful.

And We have been conducting the mining operations in due compliance of the terms and conditions so imposed by the various concerned officials and authorities.

Thanking You,

Your Faithfully

**JOINT COMMITTEE REPORT
BEFORE THE HON'BLE NATIONAL GREEN TRIBUNAL
Principal Bench, New Delhi**

In the Matter of

**Original Application No. 1145/2024 (PB)
Neeraj Choudhary V/s State of Rajasthan**

w.r.t.

**Hon'ble National Green Tribunal PB, Delhi
order dated 19.11.2024**

**Date of Site Inspection: 03rd January, 2025
Location: **Kekri, Rajasthan****

INDEX

S.No.	Particulars	Page no.
1.	Report of the Joint Committee Submitted in Compliance of Order dated 19.11.2024 of Hon'ble National Green Tribunal, Principal Bench, New Delhi in the matter of O. A. No. 1145/2024	1-23
2.	Annexure -1 Copy of Hon'ble NGT order in Original Application No. 1145/2024	24-27
3.	Annexure -2 Copy of Committee constitution and nomination letters	28-32
4.	Annexure -3 Copy of Attendance sheet	33
5.	Annexure -4 Copy of Letter of Intent (LoI) issued from Mine (Group-2) Division, Govt of Rajasthan	34
6.	Annexure -5 Copy of Temporary Work Permit allotment letter issued from Mine (Group-2) Division, Govt of Rajasthan	35-39
7.	Annexure -6 Copy of Supplementary Contract affidavit	40-41
8.	Annexure -7 Copy of Letter from PP to Mining & Geology department, Sawar for stopping the bajri mining	42
9.	Annexure -8 Copy of Letter for cancelling of LoI & TWP issued from Mine (Group-2) Division, Govt of Rajasthan	43
10.	Annexure -9 Copy of EC issued from MoEP&CC	44-58
11.	Annexure -10 Copy of Letter for reinstating of the rejected lease orders issued from Mine (Group-2) Division, Govt of Rajasthan	59-60
12.	Annexure -11 Copy of order for issuing the mining lease	61-64
13.	Annexure -12 Copy of Lease agreement	65-99
14.	Annexure -13 Copy of CTE & CTO issued from RSPCB	100-107
15.	Annexure -14 Copy of amended EC issued from SEIAA	108-121
16.	Annexure -15 Copy of CTE & CTO issued from RSPCB after amended EC	122-131
17.	Annexure -16 Copy of Rajasthan Minor Mineral Concession Rules, 2017	132-141
18.	Annexure -17 Copy of letter from Mining and Geology department, Sawar for closing balance as on 03.01.2025	142
19.	Annexure -18 Copy of action taken letter from Mining and Geology department, Sawar for irregularity of stock	143-145
20.	Annexure -19 Copy of replenishment study	146-173
21.	Annexure -20 Copy of notice to PP against obstruction made in the river	174
22.	Annexure -21 Details of penalty recovered for illegal mining/transportation/storage	175
23.	Annexure -22 Details of Rawanna and quantity of bajri dispatched	176
24.	Annexure -23 Copy of letter from office of the Deputy Conservator of Forest, Ajmer	177
25.	Annexure-24 Copy of order for rate fixed by District Collector, Ajmer	178-179

Report of the Joint Committee constituted in compliance with the Order dated 19.11.2024 in the O.A. No. 1145/2024 in the matter of Neeraj Choudhary Vs State of Rajasthan before the Hon'ble National Green Tribunal, Principal Bench, New Delhi.

1. Background:

The Hon'ble National Green Tribunal, Principal Bench, New Delhi took cognizance of the present case based on the letter petition dated **27.01.2024** of Shri. Neeraj Choudhary, Sarpanch, Gram Panchayat Gulgaon, Block Sawar, District Kekri, State of Rajasthan and the same has been registered as O.A. No. 1145/2024. In the above matter, Hon'ble NGT, Principal Bench, New Delhi vide its Order dated **19.11.2024** constituted a Joint Committee comprising of (i) District Magistrate, Kekri; (ii) Rajasthan State Pollution Control Board; (iii) a Senior Scientist of Ministry of Environment Forest and Climate Change; and (iv) Central Pollution Control Board, with the direction of the Committee to submit factual report within six weeks. Further, in the above said Order dated 19.11.2024, Hon'ble NGT appointed the Central Pollution Control Board as nodal Authority for coordination and compliance.

A copy of the order dated 19.11.2024 of Hon'ble NGT is enclosed as **Annexure-1**.

2. Constitution of Joint Committee:

In compliance with the Order dated 19.11.2024 of Hon'ble NGT, New Delhi and based on the nominations received from the organizations concerned, a Joint Committee has been constituted vide letter dated 26.12.2024 of CPCB comprising of the following members:

- (i). Sh. Mahesh Dutt Purohit. Scientist-D, Ministry of Environment, Forest & Climate Change, Sub-Office, Jaipur.
- (ii). Sh. Subhash Chandra Hemani, Block Officer, (representative of District Collector, Kekri).
- (iii). Sh. Praveen Kumar Jain, Scientist-C, Central Pollution Control Board, Regional Directorate, Bhopal.
- (iv). Ms Nidhi Khandelwal, Regional Officer, Rajasthan State Pollution Control Board, Kishangarh.

A copy of the Committee constitution and nomination letters are enclosed as **Annexure-2**.

3. Terms of reference (ToR) to the Joint Committee:

The Terms of the Reference (ToR) to the Joint Committee referred therein the Order dated 19.11.2024 of Hon'ble NGT in the above matter inter-alia include the following:

- (i). The Committee shall visit the site, collect relevant information and verify the allegations referred there in the letter petition dated 27.01.2024. Accordingly, the following are the issues referred therein the letter petition:
 - A. Carrying on mining activities at a depth of more than permissible depth and outside mining lease area.
 - B. Irregularity of sand/bajri storage at stocks at transfer points and illegally transporting without reaching transfer points.
 - C. Large number of vehicles using in mining and transportation activities.
 - D. Selling of bajri by PP @600 Rs. Per ton, which is more than the government rates.
 - E. Cutting of trees by PP along both side of river which is causing damage to flora fauna and river ecology.
- (ii). Compliance status of EC and consent by the concerned mining lease holders.

The factual status on various statutory requirements furnished below:

4. Preliminary meeting of the Joint Committee

In consultation with the members of the Joint Committee, a preliminary meeting of the Committee was convened at SDM office, Kekri on 3rd January, 2025 before the site visit. In the said meeting all the members of the Joint Committee were present and discussed the facts and issues involved in the matter, ToR to the Committee and further course of action proposed in this matter.

Following officials were also present in the meeting are:

- i. Sh. P. Jagan, Regional Director, CPCB Bhopal

- ii. Sh. Rupendra Kumar, Scientist 'B' CPCB Bhopal
- iii. Sh. Bhopal Singh, Tehsildar, Kekri
- iv. Sh. Sanjay Kumar Sharma, AME, Mining and Geology Department, Sawar

During the discussion, committee gave an opportunity to the Applicant to submit his views and also requested the applicant to physically show the places / allegations levelled in the letter petition. List of participants in the meeting is enclosed as **Annexure-3**.

After the preliminary meeting, the site inspection was carried out on 3rd January, 2025 alongwith Applicant Sh. Neeraj Choudhary, Sarpanch, Gram Panchayat Gulgaon and representative of Project Proponent Sh. Khushwendra Singh to verify the factual status on the allegations raised.

5. About the Lease and Mining Project(ML No. 05/2013):

1. Khari River is a tributary of the Banas River which originates in the hills near Deogarh in Rajsamand district. As per Ajmer district survey report its total catchment area is 6268 sq km and flows towards northeast about 192 km through Udaipur, Bhilwara and Ajmer Districts before joining the Banas River near Chosala village in Ajmer District. The Khari has sandy bed and remains dry for the major part of the year.
2. The Letter of Intent (LoI) was issued from the Mine (Group-2) Division, Govt. of Rajasthan on dated **20.03.2013** for the allotment of 1025.70 hectare bajri mine which will be excavated from Khari river in Ajmer district. Copy of letter is enclosed at **Annexure-4**.
3. As per the letter dated **19.12.2013** issued from Mine (Group-2) Division, Govt. of Rajasthan Temporary Work Permit (TWP) was given for mining of Bajri in lease area from 29.12.2013 to 28.02.2014 with the terms & conditions given in the letter, which was extended upto 31.03.2014 through Supplementary Contract duly signed by Mining Department, Sawar and PP. The validity of TWP was further extended by Hon'ble Supreme Court as per order dated 27.03.2014 till further order. Copy of allotment letter and Supplementary Contract are enclosed at **Annexure-5 & 6** respectively. Later on, PP stopped the bajri mining from the Khari

River from **01.11.2014** and submitted letter for the same to Mining & Geology department, Sawar dated 28.10.2014. Copy of letter is enclosed at **Annexure-7**.

4. The Govt. of Rajasthan vide order dated 15.09.2017, cancelled the Lol & TWP for violating the terms & conditions of TWP & Contract and application form rejected and forfeited application fee. Copy of letter is enclosed at **Annexure-8**.
5. The PP filed special appeal 419/2018 in the Hon'ble High Court, Jaipur and as per Hon'ble High Court order dated 07.05.2022 and Hon'ble Supreme Court SLP 10587/2019 Bajri lease Lol holders V/s State of Rajasthan and Others dated 11.11.2021 based on amendment made in the rule 5(4), it was directed to the Government to take decision within 3 months.
6. Environmental Clearance (EC) for mining of mineral Sand/Bajri from Khari River in revenue villages of Tehsil Kekri was issued by MoEF&CC vide letter dated **03.02.2022** to PP Mr. Bharat Singh Shekhawat S/o Mr. Shivdayal Singh Shekhawat, r/o 336, Mohan Nagar B, B.J.S. Colony, Jodhpur (Rajasthan) for proposed annual production of 30,00,000 TPA from 1025.70Ha with a maximum minable depth of 1 meter. Copy of EC is enclosed at **Annexure-9**.
7. In compliance of the court order Government of Rajasthan vide letter dated **14.10.2022** reinstated the rejected lease orders. Copy of letter is enclosed at **Annexure-10**.
8. The Govt. of Rajasthan vide order dated **29.03.2023** issued the mining lease no. 05/2013 to PP Mr. Bharat Singh Shekhawat. The mining lease became effective for the remaining period of 04 years 01 month and 26 days (from 31.03.2023 to 25.05.2027) after contract registration. Copy of order and lease agreement is enclosed at **Annexure-11 & 12**.
9. Rajasthan SPCB issued Consent-to-Establish & Consent-to-Operate u/s 21(4) of Air (Prevention and Control of Pollution) Act 1981 by letter dated **19.04.2023** and it was valid upto 29.03.2024 with conditions of maximum minable depth of 1 metre. Copy of CTE & CTO are enclosed at **Annexure-13**.
10. The previous EC dated 03.02.2022 has been amended by SEIAA by letter dated **12.01.2024** with an increase in minable depth of mining

from 1 metre to 3 meter without any increase in total mining capacity (30,00,000 TPA) & without any increase in minable area (1025.70 Ha), located at revenue villages of Tehsil Kekri (Copy of amended EC is enclosed at **Annexure-14**) and CTE & CTO has been issued from RSPCB dated **07.02.2024** which is valid upto 25.05.2027 with conditions of maximum minable depth of 3 metre. Copy of CTE & CTO are enclosed at **Annexure-15**.

The Satellite image showing the mine lease boundary on Khari River, Kekri

6. Observation of the Joint Committee

Based on the deliberations held during the meeting of the Joint Committee, subsequent site inspections and documents made available to the Committee, the following observations are made:

A. General observations

- (a). During the visit of Joint Committee, no flow of water was observed in the river bed at the visited site near village Gulgaon and Devmand, and water filled pockets were observed in the river bed due to mining done at many places.
- (b). During the visit of Joint Committee, boundary pillars were not found at the site of the mining lease to demarcate the mining lease area as per Rajasthan Minor Mineral Concession Rules, 2017 (**Annexure-16**) - Rule No. 28, 1 (iv), Rule No. 91 and Schedule IV, S.No. 3 & 7. The representative of PP and mining department official explained that the mining lease had been

allocated in various Khasra Nos. and it would be difficult to demarcate boundary of mining lease area by using pillars. The PP has deposited demarcation charges of Rs. 20,000/- on dated 28.05.2013 to Mining and Geology Department, Ajmer and Rs. 50,000/- on dated 29.03.2023 to Mining and Geology Department, Sawar for demarcation of lease area and the Mining and Geology Department, Sawar has conducted the survey dated 16.09.2014 and provided the demarcation report with revenue tehsil/villages, Khasra no., Rakba and type of land etc. on 30.03.2023.

- (c). Mining activity was being carried out using JCB machine in the mining lease area by PP during the visit, and same was confirmed on the site using Google live location and mining lease demarcated kml file by the Committee members. Committee Members measured depth of mined pits at some places in the river during the site visit on 03.01.2025 with the help of measuring tape and found that mined depth from the adjacent nearby river bed was approximately 1.5 m, while at some places the depth was even 2.3 m.
- (d). PP has installed weighbridge at the bank of river for weighing and issuing of Rawanna for collection of Royalty based on the quantity of sand mined which is connected with Department of Mines & Geology-Online Management System (DMG-OMS) portal that can be accessed by Mining department. CCTV cameras were also installed at the weighbridge locations and vehicles were provided with the GPS.
- (e). During visit, Joint Committee observed that there were three stock points namely Gulgaon, Devkheri and Devpura villages for storage of mined sand/bajri for which PP has licences from Mining and Geology Department. PP has installed weighbridge for issuing e-TP (connected with online server that can be accessed by Mining department) with CCTV cameras. Manual Air quality monitoring station installed to check the Air Quality at Gulgaon and Devpura stock points and found not in operation during visit. The PP informed that the periodic monitoring of ambient air quality and analysis work has been given to the third-party laboratory. As per data furnished by the Mining and Geology Department, Sawar vide letter dated 03.01.2025 (Copy of letter attached at **Annexure-17**), total quantity of Bajri stored at three stock points is as given below:

S.No.	Location	Closing balance as on 03.01.2025 (Tonnes)
1.	Gulgaon (ID:19306)	4839.05
2.	Devpura (ID:17301)	23317.08
3.	Devkheri (ID:17301)	675.75

It was observed that no catch drains, siltation ponds were provided around the sand storage areas (sand stock points) to prevent the flow of water and sand into the adjacent agricultural land. No water sprinkling system observed at the haul roads, sand storage area to control fugitive dust emission during handling and transportation of sand.

(f). Mining and Geology department, Sawar carried out drone survey at all the three stock points dated 09.02.2024 on the basis of complaint received from village panchayat to check irregularity of stocks at stock points. On the basis of irregularity observed at three stock points with total quantity of 2910.524 MT, Mining and Geology department, Sawar imposed penalty of Rs. 13,09,735.80/- on PP vide letter dated 20.02.2024. Copy of action taken letter is enclosed as **Annexure-18**.

(g). PP carried out plantation of 3000 saplings at village Devmand on the total area of 3.15 Ha in the year 2023-24. As per amended EC the greenbelt shall be developed within first 5 years and the density of the trees should be around 2500 saplings per hectare. However as per CTO, the plantation should be carried out at 1/3rd lease area. The consent condition w.r.t. plantation is not in line with the EC, therefore the PP should get amended the CTO from RSPCB and comply accordingly.

(h). Replenishment study for mining lease area had been conducted by the PP through qualified consultant i.e. Ms. Prerna Chauhan (Geologist), during Pre-monsoon & Post-Monsoon for the year 2023-24 and report submitted to Mining and Geology Department, Sawar on dated 03.05.2024. As per replenishment study:

S.No.	Description	Area in Ha
1.	Total Lease Area	1025.70
2.	Minable Area (3/4 Area)	769.275
3.	1/4 Area Blocked on both sides of river	256.425

S.No.	Description of Reserves	Quantity in MT
1.	Total Geological reserves	27311746.56
2.	Total Movable reserves	20483809.92
3.	Total Blocked reserves	6827936.641

Copy of replenishment study is enclosed at **Annexure-19.**

- (i). During the visit that it was observed near village Gulgaon weighbridge location, large stones were stacked across the river bed and obstacle made using large size stones across the river bed in the mining lease area without any approval of concerned department, which almost blocked the natural flow of river in the lease area and may cause damage to river ecology (**see photo 16 & 17**). As per Google earth image dated 21.02.2022 (see photo 14) of mining lease area shows no obstruction was visible, however image dated 11.10.2022 (see photo 15) shows clear obstruction of river with large size stones. This change is clearly visible in the Google Earth images taken between February and October 2022. It would have been probably done to stop the sand/bajri flow for more deposition in the permitted lease area. As per Monitoring mechanism of Enforcement & Monitoring Guidelines for Sand Mining 2020, "All precautions shall be taken to ensure that the water stream flows unhindered and process of natural river meandering does not get affected due to mining activity". Also, making obstacles to natural water flow violates the consent condition no. 21. Mining and Geology department, Sawar has issued notice to PP dated **08.01.2025** for responding within 30 days after receiving of this notice. Copy of notice is enclosed as **Annexure-20.**
- (j). Mining and Geology Department, Sawar carries out regular vigilance activities to monitor the illegal mining/transportation/storage of mined sand/bajri in tehsil Kekri. Mining and Geology Department, Sawar provided information about the action taken against 22 cases in the FY2023-24 and 13 cases in FY 2024-25 (upto December 2024) regarding violators for illegal storage & transportation of mined sand/bajri and recovered Rs. 34,15,400/- (including EC charges i.e. Rs. 26,00,000/-) during FY 2023-24 and Rs. 23,24,950/- (including EC charges i.e. Rs. 18,00,000/-) during FY 2024-25 in tehsil Kekri. Details of penalty recovered is attached at **Annexure-21.**

(k). As per data furnished by Mining and Geology Department, Sawar, total Rawanna issued in the FY 2023-24 are 21195 Nos. and quantity of sand/bajri dispatched is 3,99,449.70 tonnes and total Rawanna issued in the FY 2024-25 (upto December 2024) are 27318 Nos. and quantity of sand/bajri dispatched is 5,44,884.16 tonnes. From the above data, quantity of sand/bajri dispatched is less than the consented limit i.e. 30,00,000 TPA. Details of Rawanna and quantity of sand/bajri dispatched is attached at **Annexure-22**.

(l). During the visit, it was observed that vehicles carrying sand/bajri without any cover which may cause fugitive dust emission during transportation.

(m). As per information provided by the office of the Deputy Conservator of Forest, Ajmer, there were no National Park/Wildlife Sanctuary near the mining lease area. Copy of letter is enclosed at **Annexure-23**.

B. Observations on the issues raised by the applicant in the letter petition dated 27.01.2024

(a) **Issue raised:** Carrying out mining activities at a depth of more than permissible depth and outside mining lease area.

Observation:

There was no flow of water except small pockets of water in the river bed observed. The committee members measured depth of mined pits randomly at some places in the river during the site visit on 03.01.2025 with the help of measuring tape and found that mined depth from the adjacent river bed was 1.5m at few places, while at some places the depth was even 2.3 m.

(b) **Issue raised:** Irregularity of sand/bajri storage at stocks at transfer points and illegally transporting without reaching transfer points.

Observation:

- PP has licence for three transfer points located at villages Gulgaon, Devpura and Devkheri for storage of mined sand/bajri. During visit, Gulgaon and Devpura stock points were operational and Devkheri was not in operation, the excavated and transported sand/bajri from river bed found-stored at Gulgaon

TP-4839.05 Tonnes, Devpura TP-23317.08 Tonnes & Devkheri TP-675.75 Tonnes. Earlier, Mining and Geology department had carried out drone survey at all the three transfer points dated 09.02.2024 on the basis of complaint received from village panchayat to check irregularity of stocks at transfer points. On the basis of irregularity found at three transfer points with total quantity of 2910.524 MT, mining department imposed penalty of Rs. 13,09,735.80/- on PP vide letter dated 20.02.2024 (**details in Annexure-18**).

- Mining and Geology Department, Sawar carries out regular vigilance activities to monitor the illegal mining/transportation/storage of mining sand/bajri in tehsil Kekri. District authorities provided information about the action taken against 22 cases in the FY 2023-24 & 13 cases in FY 2024-25 (upto December 2024) regarding violators for illegal storage & transportation of mined sand/bajri and recovered Rs. 34,15,400/- (including EC charges i.e. Rs. 26,00,000/) during FY 2023-24 and Rs. 23,24,950/- (including EC charges i.e. Rs. 18,00,000/) during FY 2024-25 in tehsil Kekri (**details in Annexure-21**).
- Joint Committee randomly verified quantity of sand/bajri being dispatched through e-Transit Pass generated at transfer point as well as carrying capacity of vehicle permitted with transport department and found it in order.

(c) **Issue raised:** Large number of vehicles using in mining and transportation activities.

Observation:

- As per the mining plan submitted by the PP, the number of machineries/vehicles proposed for excavation of sand/bajri i.e. Excavators (JCB) -12 Nos. & Front-End Loaders-12 Nos. As per the PP, presently there were total 08 Nos. of JCB available at various excavation sites, during the site visit mining activity was going on in the river bed of mining lease area near village Gulgaon by using one JCB machine and tractor-trolley using for transportation to transfer point. However, at the time of visit observed that 5 truck trailer are used for transportation from transfer points to various cities.

(d) **Issue raised:** Selling of bajri by PP @600 Rs. Per ton, which is more than the government rates.

Observation:

- Earlier, The Rajasthan Goods (Control of Production, Supply, Distribution and Trade and Commerce) Act, 2014 and rate of sand/bajri was fixed by the District Collector vide notification no. F17(1)/Mining Department/legal/2014 dated 07.02.2014, District Collector, Ajmer issued an order dated 11.02.2014 and fixed the rate of sand/bajri (Copy of the order is enclosed at **Annexure-24**), however same was adjourned as per order dated 18.05.2015 of the Hon'ble supreme court SLP no. 15369/2015. Due to this no rate of sand/bajri was decided by the concerned Department.
- PP informed that at present, the PP is selling bajri @600 rupees per ton including all charges viz. CGST, SGST, Royalty charges, DMFT Charges, RSMET, transportation charges etc.

(e) **Issue raised:** Cutting of trees by PP along both side of river which is causing damage to flora, fauna and river ecology.

Observation:

- During the visit, the committee did not find trees/plants cutting nearby both side of river.
- PP carried out plantation of 3000 samplings at village Devmand on the total area of 3.15 Ha in the year 2023-24 and the survival rate of the plantation was 70-80%.
- PP also donated 800 plants to Sarpanch, Gram Panchayat-Kadera on dated 27.08.2024 for plantation in village.

7. CTO Compliance

The CTO issued by RSPCB is valid up to 25.05.2027. The joint committee verified and found the PP is not complying with conditions no. 11, 12, 16, 19, 21 of Consent to Operate issued vide RSPCB letter dated 07.02.2024, details of which are as follows:

- i. As per condition no. 11, the PP has not carried out plantation to cover 1/3rd area of the mining lease. (as mentioned above the consent condition w.r.t. plantation is not in line with the EC and mining plan)

ii. As per condition no. 12, 16 & 19, no arrangements (provision of water sprinkling system, etc.) have been made in the lease area for control of fugitive emissions resulting from transportation, loading, unloading of bajri. Mined bajri is not transported in covered vehicles. During visit, no water sprinkling system was observed in the lease area as well as transfer points.

iii. In violation of per condition no. 21, at a location near village Gulgaon weighbridge, an obstacle made using large size stones across the river bed in mining lease area was observed which obstructs the natural flow of river and may cause damage to river ecology.

8. EC Compliance

- i. The Project is having valid Environment Clearance issued by SEIAA vide letter dated 12.01.2024 and validity of EC is co-terminus with the lease period.
- ii. As per the details submitted by the representative of Department of Mines and Geology, Govt. of Rajasthan as well as authenticated production figures, the mineral production (river sand excavation) has not been done beyond the permissible quantity as allowed vide EC under reference.
- iii. PP had carried out plantation of 3000 samplings at village Devmand on the total area of 3.15 Ha in the year 2023-24. As per EIA report, 5316 no. of plantation shall be carried out, whereas as per amended EC the greenbelt shall be developed within first 5 years and the density of the trees should be around 2500 saplings per hectare. However as per CTO, the plantation should be carried out at 1/3rd lease area. The consent condition w.r.t. plantation is not in line with the EC.
- iv. No excavation beyond the depth of 3 meters was observed in the river bed. Formation of deep trenches due to mining was also not observed.
- v. A Comprehensive Digital Map (Land use and Land Cover) of entire lease area is to be prepared by the PP with clear depiction of 05 year excavation plan as per the approved scheme of mining.
- vi. Provisions and strategic placement of water sprinklers should be done with immediate effect at the areas more prone to generate fugitive emissions.
- vii. Other statutory documents such as Approved Mining Plan, Occupational Health Checkups of workmen in accordance of

various mine legislation, Ambient Air Quality monitoring reports etc have been submitted by the unit along with the latest six-monthly compliance report to MoEF & CC.

9. Recommendations of the Joint Committee:

- a) Google Earth image dated 11.10.2022 shows obstruction across river in mining lease area, hence the concerned department/authorities should be directed to take necessary action against PP for non-complying of Enforcement & Monitoring Guidelines for Sand Mining 2020, and also ensure that the obstruction made using heavy stones across the river bed near village Gulgaon weighbridge location should be removed immediately for maintaining the natural flow of river and maintaining river ecology.
- b) Pillars shall be fixed before carrying out mining operations to demarcate the banks in the active mining channel/stretch according to the banks boundary map. Pillars shall also be fixed at the boundary of mining zone, leaving buffer zone from the banks, with level marks on these pillars without these facilities, precise compliance verification on ground w.r.t. depth of mining and buffer zone left from the banks is not possible.
- c) District Survey Report should be scientifically prepared as prescribed in the Sustainable Sand Mining Guidelines 2016, preferably by government institutes/organizations. No-mining zones (distance from riverbank, bridges, dams etc.) should be depicted in maps in the Survey Reports for clarity.
- d) It should be ensured by the PP during mining operations that no damage is done to the plantation on the river banks and plantation should be developed after amendment of consent.
- e) The PP shall comply with Consent conditions no. 11, 12, 16, 19, 21 with immediate effect.
- f) Proper covering of vehicles as well sand/bajri stored in the stock storage area using tarpaulin, and water sprinkling on the roads shall be done to prevent dust emission.
- g) The permissible mining depth condition and distance/buffer criteria (distance from riverbank, bridges, dams etc.) for no-mining zones should be strictly implemented. In no case mining should be

carried out below water level or sub-surface water level in the river.

- h) Even though PP has conducted the replenishment study, the following points may also be included:
- Yearly replenishment studies should depict the factual position and levels for all corresponding cross sections, clearly differentiating the mined and unmined area.
 - Replenishment reports should contain key maps of mining channel/stretch area.
- i) A Comprehensive Digital Map (Land use and Land Cover) of entire lease area is to be prepared by the PP at the earliest with clear depiction of 05 year excavation plan as per the approved scheme of mining.
- j) Appropriate mechanism be implemented for taking strict punitive action against the persons and vehicle involved in illegal mining in the area under the MMDR Act and direction issued by Hon'ble National Green Tribunal vide order dated 26.02.2021 in O.A. 360 of 2015 in terms of penalty and environmental compensation.

Court No. 2

**BEFORE NATIONAL GREEN TRIBUNAL
PRINCIPAL BENCH, NEW DELHI**
Original Application No.1145/2024

Neeraj Choudhary

Applicant(s)

Versus

State of Rajasthan

Respondent(s)

Date of hearing: 19.11.2024

**CORAM: HON'BLE MR. JUSTICE SUDHIR AGARWAL, JUDICIAL MEMBER
HON'BLE DR. APROZ AHMAD, EXPERT MEMBER**

Applicant: None

ORDER

1. A letter petition dated 27.01.2024 has been received from Neeraj Choudhary, Sarpanch, Gram Panchayat Gulgaon, Block Savar, District Kekri State of Rajasthan and this letter petition has been registered as Original Application under Sections 14 and 15 of National Green Tribunal Act, 2010 (hereinafter referred to as '**NGT Act, 2010**') in exercise of suo-moto jurisdiction in view of law laid down by Supreme Court in *Municipal Corporation of Greater Mumbai Versus Ankita Sinha and Others, (2022) 13 SCC 401*.

2. Complainant has said that large scale illegal mining and transportation of mineral in utter violation of environmental norms is going on, on the side of river Khari. It is passing through Kekri District by the persons who has been granted mining leases but they are carrying out mining activities outside the lease area. Said mining has been conducted to extract mineral though sufficient replenishment is not available in river

1

27

24

bed and this is causing serious damage to flora fauna and river ecology. Heavy machines are being used for mining activities and transportation of mineral is by using dumper trailers, tractors and other vehicles.

3. From the complaint made in this letter petition, *prima-facie*, we are satisfied that a substantial question relating to environment has arisen but before proceeding further in the matter we find it appropriate to obtain a factual report and for this purpose constitute a Joint Committee comprising District Magistrate, Kekri; Rajasthan State Pollution Control Board; a Senior Scientist of Ministry of Environment Forest and Climate Change; and, Central Pollution Control Board.

4. Central Pollution Control Board shall be the Nodal Authority for co-ordination and compliance of this order.

5. Above Committee shall visit the site, collect relevant information and submit factual report within six weeks. While submitting report, Committee shall also examine compliance of EC and consent by the concerned mining lease holders.

6. List for further hearing on 22.01.2025.

श्रीमान भजनलाल जी शर्मा

मुख्यमंत्री राजस्थान सरकार

जयपुर राजस्थान

विषय :- अवेध खनन परिवहन व पर्यावरण को नुकसान पहुंचाने के संबंध में महोदय जी,

उपरोक्त विषय अंतर्गत निवेदन है कि आज दिनांक 26 जनवरी 2024 को आयोजित ग्रामसभा में सर्वसम्मती से प्रस्ताव संख्या 4 द्वारा आपको जांच हेतु आग्रह किया गया है व निवेदन है की जांच होने तक खनन पर पूर्ण रूप से प्रतिबंद लगाया जाए अवगत करवाना चाहेंगे की देवमंड से गुलगांव होकर टान्कावास सीमा तक खारी नदी में लीज आर्टिट है आप द्वारा दिनांक 15/01/2024 से 30/01/2024 तक अवेध खनन को लेकर विशेष अभियान चलाया गया है

महोदय जी लेकिन वर्तमान में समस्या लीज धारक द्वारा अवेध खनन व परिवहन हे आपको अवगत कराना चाहूंगा कि लीज धारक द्वारा ही अवेध खनन व परिवहन संचालित है जिसके निम्न बिंदु शामिल है

1 - लीज धारक द्वारा केकड़ी जिले में होकर गुजरने वाली खारी नदी में तय मानको से ज्यादा गहरा व लीज क्षेत्र के बाहर भी खनन किया जा रहा है व गहरे गड्ढे खोद दिए गए हैं जिसके कारण नदी का प्राकृतिक स्वरूप ही बदल चुका है वर्तमान में बजरी की खारी नदी में बजरी की मात्रा दोहन लायक नहीं है हे फिर भी लीज धारक द्वारा लगातार पेड़ पोधी व पर्यावरण को नुकसान पहुंचाते हुए दोहन किया जा रहा है आपसे निवेदन है इसकी जांच खनिज, राजस्व व वन विभाग द्वारा जांच करवाई जाए

2 - वर्तमान में मौजूद लीज धारक के टीपी पॉइंट्स देवखेड़ी, देवमंड, व गुलगांव पर फर्जी तरीके से कागजों में स्टॉक बताया गया है जबकि मौके पर स्टॉक उक्त मात्रा में उपलब्ध नहीं है जिसके फलस्वरूप माननीय न्यायालय व सरकार के दिशा निर्देशों की अवहेलना की जा रही है

और टीपी पॉइंट्स के बजाय नदी से सीधे डम्पर, ट्रेलर, ट्रैक्टर और अन्य साधनों को भरा जा रहा है और अवेध परिवहन किया जा रहा है जिसकी भी जांच खनन विभाग व परिवहन विभाग द्वारा अपेक्षित है

3- महोदय जी बिना अनुमति के सेकड़ो की संख्या में लीजधारक द्वारा कई बेकहोल तोडर मशीने व ट्रेक्टर और उत्खनन मशीनों द्वारा संपूर्ण नदी में खनन किया जा रहा है जबकि इनकी संख्या सीमित होनी चाहिए जिन भी वाहनों में बजरी परिवहन की जा रही है वह क्षमता से अधिक परिवहन किया जा रहे हैं परिवहन में युक्त होने वाले डंपर ट्रेक्टर ट्राली सभी ओवरलोड भरे जाते हैं क्षेत्र में धड़ल्ले से परिवहन हो रहा है जिसकी भी जांच अपेक्षित है

3- लीज धारक द्वारा 600 रूपए टन के वसूले जा रहे हैं जबकि सरकारी दर काफी न्यूनतम है परिवहन व अन्य के नाम पर अविध वसूली की जा रही है कृपया बजरी की वसूल की जानी वाली राशि को विवरण सहित सार्वजनिक किया जाए

4- क्षेत्र से गुजरने वाली खारी नदी के मध्य व दोनों ओर पेड़ पोधे और घास लीज धारक द्वारा उजाड़ दिए गए हैं व इनके द्वारा जो पेड़ पोधे लगाए गए थे बिना रखरखाव के कारण सूख चुके हैं जिसके कारण पर्यावरण नुकसान पहुंचता है जो की नेशनल ग्रीन ट्रिब्यूनल के दिशा निर्देशों की अवहेलना है जिसकी भी जांच वन विभाग द्वारा कराया जाना अत्यंत आवश्यक है

माननीय मुख्यमंत्री जी आपसे निवेदन है की उक्त बिन्दुओ की जांच सम्बंधित विभागों द्वारा की जाए व स्थानीय स्तर पर जन प्रतिनिधियों और ग्रामीणों को सम्मिलित करते हुए एक कमेटी का गठन किया जाए ताकि पारदर्शिता व आमजन में विश्वास बना रहे समस्त क्षेत्रवासी आपके सदैव आभारी रहेंगे

महोदय,

उपरोक्त विषय में राजस्थान खनिज रियायत नियमावली, 1980 के अन्तर्गत
राज्य सरकार आपको 1025.70 हेक्टेयर क्षेत्र के लिये खनिज बजरी का खनन पट्टा 5
वर्ष के लिये जारी की जाने की मना रखती है। अतः निम्न पूर्तियाँ एक वर्ष में पूर्ण
करें-

1. माईनिंग प्लान तैयार करा एवं सर्वेय अधिकारी से अनुमोदित करा प्रस्तुत
करें।
2. पर्यावरण प्रोटेक्शन आर एंड पर्यावरण मंत्रालय से प्राप्त कर
प्रस्तुत करें।
3. नियम 37(जे) अनुसार वित्तीय आश्वासन प्रस्तुत किये जाने का शपथ पत्र
प्रस्तुत करें।

Annexure-5

राजस्थान सरकार
खान (दुप-2) विभाग

क्रमांक : प.7(10)खान/दुप-2/2013

जयपुर, दिनांक :

19 DEC 2013

श्री भरत सिंह पुत्र श्री शिव दयाल सिंह शेखावत,
निवासी 336, मोहन नगर-बी, बी.जे.एस. कोलोनी,
जोधपुर ।

विषय : खान (दुप-2) विभाग द्वारा खान (दुप-2) विभाग अजमेर की तहसील काकडी में गैर-मुनकिन
नदी, भासा से निकलने वाला खनिज बलरी का आवंटन द्वारा आवेदित ।

महोदय,

उपरोक्त विषय में शासन के समस्तगतक पत्र दिनांक 20.03.2013 से आपको खान पट्टा अनुदान हेतु आवेदक पृथिवी कमी जाने का नरस पत्र (एल.ओ.आई.) जारी किया गया था। माननीय सचिव, न्यायालय द्वारा दिवित अपील संख्या 9703-9706/13, एस.एल.पी. (सिविल) संख्या 34134/2013 एवं एस.एल.पी. (सिविल) संख्या 34811/13 में पारित आदेश दिनांक 25.11.2013 के अनुसरण में विषयकित आवेदित क्षेत्र में खान कार्य करने हेतु अस्थाई कार्यानुमति दिनांक 26.02.2014 तक के लिए नीचे अंकित मुख्य शर्तों एवं अन्य शर्तों की पालना की शर्त पर दी जाती है। उक्त कार्यानुमति इस संबंध में संबंधित खनि अभियंता / सहायक खनि अभियंता कार्यालय में दी जाने वाली सविदा की शिथि से लागू होगी।

मुख्य शर्तें :-

1. एल.ओ.आई. धारक द्वारा नीचे अंकित अन्य शर्तों की पालना हेतु 1000/- रुपये को नॉन-जुडिशियल स्टाम्प पर करार (सविदा निष्पादन) करना होगा तथा भोटेरी से प्रमाणित कराना होगा।
2. एल.ओ.आई. धारक द्वारा करार किये जाने से पूर्व कार्यानुमति अधिसूचि के लिए अनुपातिक प्रीमियम राशि को नॉन-रिफण्डेबल रखेगी, बिड राशि का 20 प्रतिशत वार्षिक की दर से, खनि अभियंता / सहायक खनि अभियंता कार्यालय में ड्राफ्ट / धालान द्वारा जमा कराई जायेगी। उक्त प्रीमियम राशि खान पट्टे के विधरभाटक में समावेशित नहीं होगी, न ही किसी प्रकार रिफण्ड की जायेगी।
3. एल.ओ.आई. धारक द्वारा खान पट्टा के सविदा निष्पादन की स्टेज पर जमा कराई जाने वाली 75 प्रतिशत प्रीमियम की राशि में से एक तिहाई राशि (बिड राशि का 25 प्रतिशत) करार किये जाने से पूर्व खनि अभियंता / सहायक खनि अभियंता कार्यालय में ड्राफ्ट / धालान द्वारा जमा कराई जायेगी, शेष राशि 50 प्रतिशत बिड राशि खान पट्टा के सविदा निष्पादन के समय जमा की जायेगी।
4. एल.ओ.आई. धारक द्वारा करार किये जाने से पूर्व आवेदित खान पट्टा के संबंध में माइनिंग प्लान अनुमोदन हेतु प्रस्तुत करने तथा पर्यावरण क्लीयरेंस हेतु आवेदन किये जाने की रसीद खनि अभियंता / सहायक खनि अभियंता कार्यालय में प्रस्तुत की जायेगी।
5. एल.ओ.आई. धारक को न्यूनतम रूप से उसके क्षेत्र के लिए गत आरतीसी डेका राशि (आरतीसी डेक में एक से अधिक लीज क्षेत्र आने पर कुल डेका राशि को प्रीमियम के अनुपात में किरात की जाकर अनुपातिक डेका राशि) के अनुसार बनने वाली मासिक राशि जमा करानी होगी। रायल्टी की दरों में वृद्धि होने की स्थिति में न्यूनतम राशि में भी तदनुसार वसूलायी होगी।

21

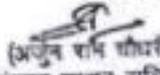

6. एल.ओ.आई. धारक का पर्यावरण क्लीयरेंस प्रार्थना पत्र एल.ओ.आई.एफ. द्वारा अस्वीकृत कर दिये जाने की स्थिति में वह कार्यानुमति भी निरस्त मानी जावेगी ।

अन्य शर्त :-

1. एल.ओ.आई. धारक द्वारा निर्गमित की जाने वाली खनिज बजरी पर परमिट फीस नियम 83(4) में अंकित दरों पर प्रत्येक वाहन के लिए जमा करानी होगी। इसके अलावा ईएमएफ राशि रु. 6/- प्रतिटन की दर से तथा राउण्ट्री की राशि शिदुपुल-1 में अंकित दरों पर जमा करानी होगी। तदनुसार एले में एम्प्लॉयीज, एडमिनिस्ट्रेशन में संशोधन होने की स्थिति में तदनुसार राशि जमा कराई जावेगी।
2. एल.ओ.आई. धारक को दिनांक 28 फरवरी, 2014 तक माननीय उच्चतम न्यायालय, नई दिल्ली के आदेशानुसार खनन कार्य की अनुमति दी जावेगी। यदि माननीय न्यायालय द्वारा आगे अधिक बढ़ाई जाती है तो शासन द्वारा तदनुसार अधिक वृद्धि की जा सकेगी, जिसके लिए अनुपातिक प्रीमियम जमा करना होगा।
3. खनन पट्टा क्षेत्र से निर्गमित होने वाले खनिज बजरी हेतु एल.ओ.आई. धारक द्वारा अपने स्तर पर रचना (फॉर्म नं. 12 के अनुरूप लाल रंग में) छपवाये जावेंगे, जिन्हें अग्रिम रीयल्टी, परमिट शुल्क एवं ई.एम.एफ. राशि जमा करवाने के परभाव संबंधित कार्यालय से मोहर लगाया कर जारी करवाना होगा। क्षेत्र के लिए गत आरसीसी टेका राशि (आरसीसी टेके में एक से अधिक लीज क्षेत्र आने पर प्रीमियम के अनुपात में विभक्ता की जाकर अनुपातिक टेका राशि) के अनुसार बनने वाली गैसिक किस्त के सम्बन्ध राशि अग्रिम जमा कराये जाने पर रचना जारी किये जावेंगे। रचना जारी किये जाने के परभाव रचना अनुप्रयुक्त रहने पर जमा राशि रिफण्ड नहीं की जावेगी। विभाग द्वारा जारी टेक रचना के अलावा प्रयुक्त अन्य रचना अवैध माने जावेंगे।
4. खनन पट्टा स्वीकृति के पूर्व उक्त रचनाओं के माध्यम से निर्गमित खनिज का अधिरुक्त निरक्षण कराया जाना आवश्यक होगा तथा यदि कोई राशि पट्टाधारी के विरुद्ध निकलती है तो वह जमा करा बकाया नहीं का प्रमाण पत्र प्राप्त करना होगा। बकाया राशि एक सप्ताह में जमा नहीं कराने पर जमा प्रीमियम राशि जब्त कर एल.ओ.आई. निरस्त कर दी जावेगी।
5. एल.ओ.आई. धारक द्वारा माइनिंग प्लान के अनुसार ही खनन पट्टा क्षेत्र में खनिज बजरी का खनन किया जावेगा। अनियमितता होने की स्थिति में जमा प्रीमियम राशि जब्त कर कार्यानुमति निरस्त कर दी जावेगी।
6. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में अथवा अन्यत्र खनिज बजरी का स्टॉक एवं भण्डारण नहीं किया जा सकेगा। यदि खनिज बजरी का अवैध खनन / अवैध निर्गमन / अवैध स्टॉक / अवैध भण्डारण किया जावेगा तो जमा प्रीमियम राशि जब्त कर कार्यानुमति निरस्त कर दी जावेगी।
7. एल.ओ.आई. धारक को खनिज बजरी के खनन / निर्गमन के संबंध में माननीय सर्वोच्च न्यायालय, उच्च न्यायालय, अन्य न्यायालयों, भारत सरकार एवं राज्य सरकार के आदेशों / निर्देशों की पालना करनी होगी। साथ ही खनन कार्य, सुरक्षा, स्वास्थ्य, पर्यावरण एवं जन सुविधाओं के संबंध में वर्तमान में प्रभावी अधिनियम / नियमों तथा समय-समय पर होने वाले संशोधनों की पालना करनी होगी।
8. गैर-मुक्तिकेन नदी / नालों के क्षेत्रों में जहां पर किसी भी विभाग द्वारा अन्य कार्यो यथा पेटा कारत या अन्य किरती प्रयोजनार्थ व्यक्ति / संस्था को अनुमति दी गई है / आवंटित की हुई है तो एले क्षेत्रों में एल.ओ.आई. धारक संबंधित व्यक्ति / संस्था (जिसके पक्ष में अनुमति दी हुई है) / आवंटित है) की लिखित सहमति प्राप्त करने के उपरान्त ही खनिज बजरी का दोहन कर सकेगा। यदि खनन पट्टा क्षेत्रों में घासगाह भूमि में आती है तो राजस्व विभाग (राज्य सरकार) की अनुमति के बिना खनन कार्य नहीं किया जा सकेगा।

28

9. एल.ओ.आई. धारक गैर-मुम्किन नदी-नाला क्षेत्रों में गिरने वाले प्रतिबंधित क्षेत्र जैसे रगरान, सार्वजनिक प्रयोजनार्थ कुएँ, इन विभाग या अन्य किसी संस्थान द्वारा किये गये वृक्षारोपण क्षेत्र से 45 मीटर की परिधि में तथा अन्य प्रतिबंधित क्षेत्रों में खनन कार्य नहीं कर सकेगा।
10. एल.ओ.आई. धारक क्षेत्र में कोई स्ट्रक्चर जो कि स्थाई प्रकृति का हो या पानी का बहाव अवरुद्ध करता हो, नहीं बनावेगा। खनन कार्य हेतु उपयुक्त गहराई की बीचेज बनानी होगी।
11. एल.ओ.आई. धारक खनन पट्टा क्षेत्र में आने वाले छासरो के क्षेत्र से बाहर खनन कार्य नहीं करेगा।
12. एल.ओ.आई. धारक द्वारा बजरी का खनन कार्य सतह से 3 मीटर से अधिक गहराई पर एवं नदी-नालो के वाटर लेवल से भीचे नहीं किया जायेगा तथा रेल / सड़क पुल के 45 मीटर की परिधि में खनन कार्य नहीं किया जायेगा। इसकी अवहेलना करने पर तत्काल अग्रधान खनिज रियायत नियमावली, 1986 के नियम 48 के तहत अधिक खनन माना जाकर कार्यवाही की जायेगी।
13. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में जगह-जगह माइनिंग नहीं की जायेगी। नदी की 3/4 चौड़ाई तक की खनन कार्य की अनुमति होगी। रोप क्षेत्र में वृक्षारोपण किया जायेगा। खनन पट्टा क्षेत्र में खनिज बजरी की माइनिंग नदी के बीच में डाउन स्ट्रीम के बीच में अक्षा 10 मीटर मोटाई की स्लाईस में की जा सकेगी। नदी की सतह पर निट्टी से 1.5 मीटर ऊपर बजरी छोड़नी होगी।
14. नदी के दोनों किनारों पर ACQUATIC FAUNA & FLORA को संरक्षित रखना होगा।
15. प्रत्येक 1.00 कि.मी. खनन क्षेत्र के बाद 50 मीटर चौड़ाई में खनन प्रतिबंधित रहेगा। खनिज बजरी के खनन के दौरान निकलने वाला खनिज प्रदूषण / बोल्डर्स का प्रत्येक एक कि०मी० के बाद इकट्ठा किया जाकर उसकी दीवार इस प्रकार बनाई जायेगी कि पानी का बहाव अवरुद्ध न हो।
16. जिन स्थानों पर बजरी का खनन कार्य किया जा चुका है, उन स्थानों को नदी में उपलब्ध भराव से ही समतल करके पाट दिया जायेगा। इसके लिए बाहर का कोई कचरा / मलबा नहीं डाला जा सकेगा।
17. नदी क्षेत्र में खनन कार्य इस प्रकार किया जायेगा कि आसपास पौधारोपण पुनः पनप सकें। खनन क्षेत्र के आसपास स्थानीय प्रजातियों के पौधों का पौधारोपण किया जायेगा। जो रास्ते अनुपयोगी हैं, उनकी स्थानीय प्रजातियों के पौधों से वृक्षारोपण किया जायेगा।
18. नदी/नालो का एव इनके आसपास जो नहरे बनी हुई हैं उनका प्रवाह बाधित नहीं किया जायेगा तथा उनके किनारों का समुचित रख-रखाव किया जायेगा।

भवदीय,

सेवाएँ

दिनांक : 28.10.2014

श्रीमान सहायक सचिव अनिदना,
खान एवं भूविज्ञान विभाग,
राजपुर, अजमेरविषय : खानन पट्टा क्षेत्र 1025.70 हे० क्षेत्र जिला अजमेर की तहसील केकड़ी में पैर मुमकिन
नदी, नाली, बाली से (खसरी के अनुसार) निकलने वाला खनिज बजरी के मावत।

संदर्भ

निवेदन है कि माननीय सार्वजनिक न्यायालय के निर्देशानुसार अस्वाइं खानन अनुमति के तहत खानन क्षेत्र में खानन कार्य हमारे द्वारा दिनांक 30.12.2013 से प्रारम्भ किया गया है और समझ-समझ पर अस्वाइं नदी अस्वाइं के अनुसार नदी में उपावर्तित है।

2. निविदा के समय दर्ज की दर पर नियंत्रण कर और प्रत्येक महीने होने के कारण हमने 30,75,210/- रुपये की रिजर्व प्राइस के अन्तर्गत पर 23,48,00,000/- रुपये की निविदा भी की और सम्मुख ही 50 प्रतिशत राशि विभाग को प्राप्त किया है। श्रीमान जिला कलेक्टर, अजमेर द्वारा खानन खदान पर निर्धारित विद्युत दर आधिकारिक रूप से तय संग्रह नहीं है।

3. इस सम्बन्ध में आयाकत खानन मालनीय सार्वजनिक न्यायालय में दरों की गणना के लिए प्रस्तुत प्रमाण की और विभागात् साबित है उसमें केकड़ी की गणना में पिट माउथ पर लगभग दर 105.03 रुपये दर्शाती है जबकि पिट माउथ पर विद्युत दर 110 रुपये निर्धारित की गयी है, साथ ही जबकि अस्वाइं की दर मात्र 20 रुपये दर दर्शाती है जबकि निकलताम देवली ड्रेज में बाली दर 85 रुपये है, पेटे आदि की दर देवली में 30 रुपये है जबकि वहाँ 10 रुपये ही है। ऐसी स्थिति में गिरफ्तार खाता उठाकर खानन कार्य को ताम्बू खानना सम्भव नहीं है।

4. आपएच डी 01.11.2014 से उक्त क्षेत्र में अस्वाइं खानन अनुमति के तहत कार्य संचालन बन्द कर रहे हैं।

5. 31.10.2014 तक देव देव अमल राशि हमने विभाग में जमा करा दी है और बची हुई राशि कुर्से एवं डिपॉजिट इन नवम्बर, 2014 के प्रथम सप्ताह में विभाग को जमा करा देंगे।

6. MMCR 1986 के Rule है कि तहत पर्यावरण अनुमति प्राप्त होकर अनुबन्ध निष्पादन तक, हम प्रतिमाह 5 प्रतिशत डेपॉजिट जमा कराते रहेंगे और पर्यावरण अनुमति प्राप्त होने पर निर्धारित लीज का संचालन करने के लिए भी पालन करेंगे।

जयपुर, दिनांक: 15 SEP 2017

आदेश

श्री भरत सिंह पुत्र श्री शिव दयाल सिंह शेखावत निवासी 336, मोहन नगर-बी, बीजेएस कोलोनी, जोधपुर (राज.) के पक्ष में जिला अजमेर की तहसील कंकड़ी के गैर-मुमकिन नदी-नाली से निकलने वाले खनिज बजरी क्षेत्र 1025.70 हेक्टेयर का खनन पट्टा राजस्थान अध्यायन खनिज रियायत नियम, 1988 के अन्तर्गत पांच वर्ष की अवधि हेतु स्वीकृत करने बाबत मंशा पत्र (एल.ओ.आई.) दिनांक 20.03.2013 से जारी किया गया।

भारतीय सर्वोच्च न्यायालय द्वारा सिविल अपील संख्या-9703-9706/13, एच.एल.पी. (सिविल) संख्या-34134/2013 एवं एच.एल.पी. (सिविल) संख्या-34811/2013 में पारित आदेश दिनांक 25-11-2013, दिनांक 24.02.2014 एवं दिनांक 27.03.2014 के अनुसरण में आवेदित क्षेत्र में खनन कार्य हेतु अस्थाई कार्यानुमति अग्रिम आदेश तक के लिए जारी की गई। अस्थाई कार्यानुमति के तहत एल.ओ.आई. होल्डर के द्वारा दिनांक 29.12.2013 से सविदा (करार) करवाया गया।

एल.ओ.आई धारक द्वारा पर्यावरण क्लीयरेंस प्रस्तुत नहीं करने तथा दिनांक 31.10.2014 से खनन कार्य बंद करने पर सहायक खनि अभियन्ता द्वारा एल.ओ.आई/अस्थाई कार्यानुमति की शर्तों के उल्लंघन के संबंध में दिनांक 05.04.2017 से पन्द्रह दिवसीय नोटिस जारी किया गया। उक्त नोटिस का जवाब एल.ओ.आई धारक द्वारा दिनांक 10.04.2017 से प्रस्तुत किया गया जिसे निदेशालय द्वारा संतोषप्रद नहीं मानते हुए पत्र दिनांक 31.08.2017 से मंशा पत्र एवं अस्थाई कार्यानुमति निरस्त करने हेतु प्रस्तावित किया है।

अतः एल.ओ.आई धारक द्वारा विभाग के नोटिस दिनांक 05.04.2017 की पालना नहीं करने के कारण मंशा पत्र में अस्थाई कार्यानुमति को निरस्त कर, आवेदन पत्र आवेदन पत्रक जमा करते हुए एतद्वारा अस्वीकृत किया जाता है।

आज्ञा से,

(संयुक्त शासन) 17
संयुक्त शासन सचिव

8. रचित पत्रावली।

सहायक शासन सचिव

F. No. J-11015/222/2013-IA, II (M)
 Government of India
 Ministry of Environment, Forest and Climate Change
 Impact Assessment Division

Indira Paryavaran Bhavan
 Patwari Wing, 2nd Floor, Akshara,
 JorBagh Road, New Delhi-110 003

Dated: 3rd February, 2022

To,

M/s Bharat Singh,
 Mohan Nagar, BJS Colony, Jodhpur (Ra) - 342006.

Subject: River Sand Mining Project (Minor Mineral) (Khari River Bed) with proposed production capacity of 30.0 Lakh TPA (ROM) by M/s Bharat Singh, located at Revenue villages of Tehsil-Kekri, District Ajmer, Rajasthan (MLA 1025.70ha) - Environmental Clearance - regarding-

Sr.

This has reference to the proposal of M/s Bharat Singh vide proposal no. IWRJ/MIN/20311/2013 for mining of River Sand (Minor Mineral) with proposed production capacity of 30.0 Lakh TPA (ROM). The mine lease area is located at village (s) Chausla, Chandhak, Rajta, Devkhedi, Dhundhar, Tankawas, NayaGaonMehrukata, Bhandawar, Guigaon, Sadari, Sadari, Rajpura, Banediya, Mehrukata, Aamli, Balapura, Gothra, Devpura, Kadara&Atanboo, Tehsil-Kekri& District-Ajmer, Rajasthan in the mine lease area of 1025.70ha. The mine lease area lies on the Khari River bed. The Latitudes and Longitudes of the mine lease area lies between 25°49'30.81"N to 25°50'3.30"N and 75°01'23.74"E to 75°20'56.48"E on Survey of India toposheet numbers 45O/1, 45O/5. The Project is located in Seismic zone-II.

2. The proposal of TOR was considered by the Expert Appraisal Committee in its 10th Meeting held during 21st-23rd August, 2013 to determine the Terms of Reference (TOR) for undertaking detailed EIA study. The TOR was issued by MoEF&CC vide letter No. J-11015/ 222/2013-IA, II (M), dated 15th October, 2013. The Proponent submitted the EIA/EMP Report online to the Ministry for seeking environmental clearance after conducting Public Hearing.

3. The mine lease area is 1025.70ha which is Khari River. No forest land is involved. Letter of Intent (LOI) for grant of mining lease for minor mineral River Sand over an area of 1025.70ha has been granted by the Govt. of Rajasthan, vide letter No P-7(19)/Khar/Group-2/2013 dated 20.03.2013 for the period of 5 years. The Mining Plan has been approved by Director, Mines and Geology, Govt. of Rajasthan, vide letter no.3527/Mine Plan, dated 28.06.2013. Department of Mines And Geology, Rajasthan

issued Rajasthan Minor Mines Concession Rule, 2017 (RMMCR, 2017) on 1.3.2017. That Rule 5 (4) of RMMCR, 2017 provides for completion of all formalities by LOI Holder and execution of lease within 13 months from the notification of the Rule i.e. from 1.3.2017. River sand mining leases in Rajasthan were issued LOI in year 2013 and by virtue of Hon'ble Supreme Court order dated 25.11.2013, 82 LOI holders (out of 105) were issued temporary work permit without EC. Hon'ble Supreme Court in SLP 10587/2019 gave judgement on 11.11.2021 and directed State government to amend Rule 5(4) as per finding of Central Empowered Committee. In compliance of the above mentioned judgement, Rajasthan Government issued a Gazette notification on 16.11.2021 and extended validity of LOI to 66 months from issuance of rule i.e. 1.3.2017. Therefore, as per notification dated 16.11.2021 LOI is valid till 31st October 2022.

4. Mining is by Semi-Mechanized opencast method. Excavation will be carried out up to a maximum depth of 3 meters from surface of deposit and not less than one meter from the water level of the River Channel whichever is reached earlier. Proponent has informed that 1015.40 ha area will be used for excavation and 3.75 ha for the green belt development. The site elevation is 358m - 316m AMSL. The Ground water depth is 6.8m bgl in pre-monsoon season and 5-8 m bgl in post-monsoon season. The total water requirement is 21 KLD including water demand for domestic purpose, dust suppression and plantation development which shall be met by tanker supply. No Objection Certificate from Gram Panchayat has been obtained in this regard. The working is proposed on higher elevations, no ground water interception during the mining operations is envisaged.

5. Project Proponent has reported that mining will be done leaving a safety distance from the banks i.e. 15% of the width of the River from both the banks. Mining will be done only during day time and completely stopped in monsoon season. No mining will be done in the zone of 100m on either side of the structure/bridge. Project Proponent reported that there will be construction of ramps, temporary rest shelters during operational phase and these will be removed at the time of mine closure.

6. Mineral will be transported through road. Project Proponent has made the Traffic Analysis survey and reported that 500 no. of trucks will be deployed per day (20 tonnes capacity each) which increase 2250 PCUs per day and the level of service (LOS) remains up to 'A' & 'B'. Project Proponent reported that roads will be repaired regularly and maintained in good condition. A Supervisor will be appointed to regulate the traffic movement near site. Speed breakers and signage will be maintained at all the sensitive places.

7. Project Proponent reported that no National Parks, Wildlife Sanctuaries, Tiger Reserves fall within the study area (10 km radius of the mine boundary). There is one Protected Forest and three Reserved Forest. State Government of Rajasthan vide letter no. T.123 dated 05.01.2015 has confirmed that the lease does not fall in Aravali range.

8. The baseline data was generated for the period during October 2013 to December 2013. The parameters for water and air quality were within permissible limits. The Committee deliberated the baseline data collected by the Project Proponent. Project Proponent reported that no E&R plan is applicable for this project as the mine lease area lies entirely on the River bed and there is no establishment on the site.

9. Public Hearing for the proposed Project was conducted on 29.05.2014 at 03.00 pm at Govt. Secondary School, Village Tankawas, Tehsil-Kekri, Ajmer. The Public Hearing was presided over by Mr. Yashoda Nandan Srivastava, Additional District Collector II. The representatives from the Rajasthan State Pollution Control Board were also present. The issues raised during the Public Hearing were also considered and discussed during the meeting, which inter alia, included that priority to local people in employment, effective implementation of measures to control dust pollution, water conservation measures, social and other village development activities and not to harm nearby fields. Project Proponent has made the Action Plan with budgetary provisions. The Committee deliberated and is of the view that PP needs to implement the Action Plan and the Implementation Report has to be submitted to the Regional Office of the MoEF&CC every six months.

10. The cost of the Project is Rs 7.0 Crores. The Proponent has earmarked Rs. 3.0 Lakhs towards Environmental Protection Measures and Rs. 25.0 Lakhs per annum towards recurring expenses. Proponent informed that Rs. 35.0 Lakhs have been earmarked towards CSR activities for next five years of mining operation. The Project Proponent has also made a submission that in accordance to Hon'ble Supreme Court of India's orders dated 25.11.2013, 24.02.2014 and 27.03.2014 (In Civil Appeal No. 9703-9706 of 2013) production of ~4,69,588 Tonnes of Bajri has been made during October 2014 to March 2015.

11. The Committee deliberated at length on the information submitted by PP and recommended the Proposal during 29-30 April, 2015 for environmental clearance for Mining of Mineral Sand (Minor Mineral) with proposed production capacity of 30.0 Lakhs TPA (ROM) in the MLA 1025.70ha.

12. Hon'ble Supreme Court vide order dated 11.11.2021 in the Interlocutory Application No.29984 of 2021 in Special Leave Petition (Civil) No. 10587 of 2019 Bajri Lease Lol Holders Welfare Society Vs Ors considered the report submitted by CEC, in which the relevant recommendations are as follows:

The MoEF&CC will issue EC in respect of all the valid Lol holders recommended by the EAC in its meeting held during 2014-2016 without insisting on submission of scientific study report as a precondition for grant of EC within a period of three months. MoEF&CC shall also prescribe detailed methodology in consultation with CMPDI for undertaking replenishment study during the course of mining as discussed in para 11 (ii) of this Report.

Hon'ble Supreme Court has approved the recommendations made by the CEC for implementation forthwith.

13. Central Mine Planning and Design Institute (CMPDI) has prescribed the detailed methodology for undertaking replenishment study. A copy of report is enclosed. Project proponent is directed to carry out replenishment studies as per the methodology prescribed by CMPDI and under the overall supervision, monitoring and control of the State Mining Department. The State Mining Department shall ensure strict adherence to the procedure and methodology prescribed by CMPDI for conducting replenishment study and ensure that such replenishment study report is submitted at the prescribed time as mentioned in the report of CMPDI and that appropriate necessary action is taken based on such replenishment study report.

14. In compliance to Hon'ble Supreme Court order dated 11.11.2021, the Ministry of Environment, forest and Climate Change has examined the proposal in accordance with the Environmental Impact Assessment Notification, 2006 and further amendments thereto and after accepting the recommendation of EAC meeting held during 29-30 April, 2015, here by decided to accord the Environmental Clearance (EC) under the provisions thereof to the above mentioned proposal of M/s Bharat Singh for production of 30 lakhs (TPA) of Sand/Bajri from 1025.70ha at Revenue villages of Tehsil Keku District Ajmer, Rajasthan.

A. Specific Conditions

(i) Project Proponent shall appoint an Occupational Health Specialist for Regular and Periodical medical examination of the workers engaged in the Project and records maintained, also Occupational health check-ups for workers having some ailments like BP, diabetes, habitual smokers, etc shall be undertaken once in six months and necessary remedial/preventive measures taken accordingly. Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted. All the old age people of the surrounding villages may be provided medical facilities. (ii) Project Proponent shall appoint a Monitoring Committee to monitor the replenishment study, traffic management levels of production, River Bank erosion and maintenance of Road etc. Proponent to ensure that fluoride free drinking water needs to be provided to the villagers. (iii) Transport of mineral will not be done through any of the villages. (iv) Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral; and transport of minerals will be as per IRC Guidelines with respect to complying with traffic congestion and density. (v) Implementation of Action Plan on the issues raised during the Public Hearing. The Proponent shall complete all the tasks as per the Action Plan submitted with the budgetary provisions during the Public Hearing. (vi) The pollution due to transportation load on the environment will be effectively controlled & water sprinkling will also be done regularly. Vehicles with PUC only will be allowed to ply. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded. Project should obtain PUC certificate for all the vehicles from authorized pollution testing centre. (vii) Washing of all transport vehicle should be done inside the mining lease. and (viii) Environmental Clearance is subject to final outcome of Hon'ble High Court of Rajasthan and other Court of Law, if any. (ix)

PP shall implement the conditions prescribed in Enforcement & Monitoring Guidelines for Sand Mining 2007, as applicable for PP and also GaP issued by the Rajasthan State Government for prohibition of illegal river sand mining in the state and (ii) Replenishment study report- Central Mine Planning and Design Institute (CMPDI) has prescribed the detailed methodology for undertaking replenishment study. A copy of report is enclosed. Project proponent is requested to submit the replenishment study report in one year, as per methodology prescribed by CMPDI (x) Permissible Mining of River Bed Material (Sand/Bajn) shall be limited to 30 lakhs (TPA) from an effective mineable area of 1025.70ha with a maximum mineable depth of 1 meter. The permissible mineable material of 30 lakhs (TPA) will be valid till one year from the day of issuance of the EC. (xi) For subsequent period, PP shall submit fresh annual replenishment study to MoEF&CC for amendment in EC for mineable quantity and maximum permission depth for mining based on the scientific findings of replenishment study. Such study shall be placed before EAC for appraisal for next three years to assess rate of deposition and accordingly, mineable production capacity and depth can be prescribed based on trends analysis, provided it is found scientifically satisfactory by the EAC. The placing of the study report before EAC is mandatory for initial three years.

B. Special Conditions:

Impact Category	S.No.	Environmental Conditions
Stakeholder Engagement	1	In the case of private land not owned by the lease holder an Engagement affidavit should be obtained regarding consent of the concerned land owner (s) for carrying out the mining operation
	2	Stakeholder awareness and ability to raise concerns and getting it to be addressed
	3	Implementation of Action Plan on the issues raised during the Public Hearing. The Proponent shall complete all the tasks as per the Action Plan submitted with the budgetary provisions during the Public Hearing.
	4	Having valid lease and all the permits is essential
	5	To establish a Mentoring Committee including Local Panchayat, to check on traffic due to transportation and submit an annual report on the same
	6	The directions given by the Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP(C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 may be strictly followed
	7	All the provisions made and restrictions imposed

Sustainable Practices	Mining	<p>is covered in the Mine Mineral Rule, shall be complied with, particularly regarding Environment Management Practices and its fund management and Payment of compensation to the land owners.</p> <p>8 No River sand mining to be allowed in rainy season</p> <p>9 To submit annual replenishment report certified by an authorized agency. In case the replenishment is lower than the approved rate of production, then the mining activity / production levels shall be decreased / stopped accordingly till the replenishment is completed.</p> <p>10 Mining shall be done in layers to avoid ponding effect and after first layer is excavated, the process will be repeated for the next layers.</p> <p>11 To maintain safety and stability of Riverbanks i.e. 3 meter or 10% of the width of the River whichever is more will be left intact as no mining zone.</p> <p>12 No stream should be diverted for the purpose of sand mining. No natural water course and/or water resources are obstructed due to mining operations.</p> <p>13 No blasting shall be resorted to in River mining and without permission at any other place.</p> <p>14 Depending upon the location, thickness of sand, deposition agricultural land/Riverbed, the method of mining may be manual, semi-mechanized or mechanized, however, manual method of mining shall be preferred over any other method.</p>
Monitoring the Mining of Mineral and its Transportation		<p>15 The EC holder shall keep a correct account of quantity of mineral mined out, dispatched from the mine, mode of transport, registration number of vehicle, person in-charge of vehicle and mine plan. This should be produced before officers of Central Government and State for inspection.</p> <p>16 For each mining lease site the access should be controlled in a way that vehicles carrying mineral from that area are tracked and accounted for.</p> <p>17 Use of technology like Bar Coding, Information and Communications Technology (ICT), Web based and ICT enabled services, mobile SMS App etc. to account for weight of mineral being taken out of the lease area and the number of trucks moving out with the mineral shall be made.</p>
Noise Management		<p>18 Noise arising out of mining and processing shall be abated and controlled at source to keep within</p>

		permissible limit
	19	Restricted working hours: Sand mining operation has to be carried out between 6 am to 7 pm.
Air Pollution and Dust Management	20	The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly.
	21	Air Pollution due to dust, exhaust emission of lumes during mining and processing phase should be controlled and kept in permissible limits specified under environmental laws.
	22	The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded. Wheel washing facility should be installed and used.
Management of Visual Impact	23	The mining operations are to be done in a systematic manner so that the operations shall create a major visual impact on the site.
Bio Diversity Protection	24	Restoration of flora affected by mining should be done immediately. Twice the number of trees destroyed by mining to be planted preferably of indigenous species.
	25	No mining lease shall be granted in the forest area without forest clearance in accordance with the provisions of the Forest Conservation Act, 1980 and the rules made thereunder.
	26	Protection of turtle and bird habitats shall be ensured.
	27	Spring sources should not be affected due to mining activities. Necessary Protection measures are to be incorporated.
Management of Instability and Erosion	28	The EC should stipulate conditions for adequate steps to check soil erosion and control debris flow etc. by constructing engineering structures.
	29	Use of oversize material to control erosion and movement of sediments.
	30	No overhangs shall be allowed to be formed due to mining and mining shall not be allowed in area where subsidence of rocks is likely to occur due to steep angle of slope.
	31	No extraction of stone/ boulder/ sand in landslide prone areas.
	32	Controlled clearance of riparian vegetation to be undertaken.
Waste Management	33	Site clearance and tidiness is very much needed to have less visual impact of mining.
	34	Rubbish burial shall not be done in the Rivers.
Pollution Prevention	35	Effluent discharge should be kept to the minimum and it should meet the standards prescribed.

Protection of Infrastructure	<p>26 Mining shall not be undertaken in a mine lease located in 200-500 meter of bridge, 200 meter upstream and downstream of water supply / irrigation scheme, 100 meters from the edge of National Highway and railway line, 50 meters from a reservoir, canal or building, 25 meter from the edge of State Highway and 10 meters from the edge of other roads except on special exemption by the Sub-Divisional level Joint Inspection Committee.</p>
Enhancement of Road Safety	<p>37 Mining activities shall not be done for mine lease where mining can cause danger to site of flood protection works, places of cultural, religious, historical and archaeological importance.</p> <p>38 Vehicles used for transportation of sand are to be permitted only with fitness and PUC Certificates.</p> <p>39 Junction at take-off point of approach road with main road be properly developed with proper width and geometry required for safe movement of traffic by concession holder at his own cost.</p> <p>40 Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral and transport of minerals will be as per IRC Guidelines with respect to complying with traffic congestion and density.</p> <p>41 No stacking allowed on road side and also along National Highways.</p>
Closure and Reclamation of Mined Out Area	<p>42 The Project Proponent shall undertake phased restoration, reclamation and rehabilitation of land affected by mining and completes this work before abandonment of mine.</p> <p>43 Site specific plan with eco-restoration should be in place and implemented.</p> <p>44 Health and safety of workers should be taken care of.</p>
Health and Safety	<p>45 Transport of mineral will not be done through villages / habitations.</p> <p>46 The Project Proponent shall make arrangement for drinking water, first aid facility (along with species specific anti-venom provisioning) in case of emergency for the workers.</p> <p>47 Project Proponent shall implement the Disaster Management Plan if the mine lease area is located in Seismic Zone-IV. Project Proponent shall appoint a Committee to have a check over any disaster to warn workers well before for the safety of the workers. Emergency helpline number will be displayed at all levels.</p> <p>48 Project Proponent shall appoint an Occupational</p>

Monitoring the Impact of Mining	49	<p>Health Specialist for Register and Periodical medical examination of the workers engaged in the Project and records maintained, also Occupational health check-ups for workers having some ailments like BP, diabetes, habitual smokers, etc shall be undertaken once in six months and necessary remedial/preventive measures taken accordingly. Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted.</p> <p>The Project Proponent shall report monitoring data on replenishment, traffic management, levels of production, River Bank erosion and maintenance of Road etc.</p>
---------------------------------	----	--

C. Standard conditions

1. Statutory compliance

- 1) The EC granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc. required to be obtained or standards / conditions to be followed under any other Acts/ Rules/ Subordinate legislations, etc., as may be applicable to the project.
- 2) The Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law. Common Cause Conditions as may be applicable.
- 3) The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
- 4) The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
- 5) The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, regarding Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area.
- 6) The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.

- 7) A copy of EC letter will be provided to concerned Panchayat / local NGO etc. by HP if any. from whom suggestion / representation has been received while processing the proposal.
- 8) The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parcash.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.

II. Air quality monitoring and preservation

- 9) The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO₂, CO and SO₂ etc. as per the methodology mentioned in NAAQS Notification No. B-20016/20/90/PC/M dated 18.11.2002 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.
- 10) Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipment/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board.

III. Water quality monitoring and preservation

- 11) Regular monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies and or streams which are flowing in an around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring of water table in open dug well located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on sh-

monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.

- 12) Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
- 13) The Project Proponent shall undertake regular monitoring of natural water courses/ water resources/ springs and perennial nullahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-a-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
- 14) Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.
- 15) Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
- 16) The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.

IV. Noise and vibration monitoring and prevention

- 17) The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress

may affect the health of the villages located close to mining operations. Habitants have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed, by orienting the floodlights/ masks away from the villages and keeping the noise levels well within the prescribed limits for day/night hours.

- 16) The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs/muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/personals/laborers are working without personal protective equipment.

V. Mining plan

- 15) The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year wise plan was mentioned for total excavation i.e. quantum of mineral, waste, overburden interburden and top soil etc. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O.B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change, which entail adverse environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form of Short Term Permit (STP), Quarry license or any other name.

VI. Land reclamation

- 20) The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of waste dumps.

VII. Transportation

- 21) No Transportation of the minerals shall be allowed in case of roads passing through villages/habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain

Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.

- 22) The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.

VIII. Green Belt

- 23) The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.

IX. Public hearing and human health issues

- 24) Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
- 25) The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.

X. Miscellaneous

- 26) The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.
- 27) The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
- 28) The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEF&CC.

As concerned Regional Office, Coastal Pollution Control Board and State Pollution Control Board

- 29) A separate Environmental Management Cell with suitable qualified manpower should be set up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC.
- 30) The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC officer(s) by furnishing the requisite data / information / monitoring reports.
- 31) The mining lease holders shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
- 15) The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
- 16) Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attracts action under the provisions of Environment (Protection) Act, 1986.
- 17) The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/ High Court and any other Court of Law relating to the subject matter.
- 18) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- 19) The issues with the approval of Competent Authority

Encl:As above

Copy to

आदेश

श्री भरत सिंह पुत्र श्री शिवदयाल सिंह शेखावत, नियासी 338, मोहन नगर बी. बी.जे.एस. कॉलोनी, जोधपुर (राज.) के फल में सहायक खनि अभियन्ता, साबर के क्षेत्राधिकार में जिला अजमेर की तहसील केकडी से निकलने वाला खनिज बजरी क्षेत्र 1025.70 हेक्टेयर का खनन पट्टा स्वीकृति हेतु मंशा पत्र (एल.ओ.आई.) शासन के संप्रदायिक पत्र दिनांक 20.03.2013 से जारी किया गया।

माननीय सर्वोच्च न्यायालय द्वारा Petition (s) for Special Leave to Appeal (c) No (s) 348/11/2013 नवीन शर्मा बनाम राजस्थान राज्य एवं अन्य में पारित आदेश दिनांक 16.11.2017 से राज्य में खनिज बजरी के समस्त 82 खनन पट्टों/अस्थायी कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से रोक लगा दी गई। माननीय सर्वोच्च न्यायालय के उक्त निर्णय के अनुसरण में निर्देशालय द्वारा पत्र दिनांक 17.11.2017 से खनिज बजरी के समस्त खनन पट्टों/अस्थायी कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से बन्द कराये जाने के निर्देश दिये गये, जिसकी पालना में उक्त खनन पट्टा क्षेत्र में खनन गतिविधियां तुरन्त प्रभाव से बन्द कराई गई। परन्तु उक्त मंशा पत्र के तहत मंशापत्र धारक द्वारा दिनांक 01.11.2014 से स्वयं ही खनन कार्य बंद कर दिया गया।

मंशा पत्र धारक द्वारा अस्थायी कार्यानुमति की शर्तों एवं शर्तिका का उल्लंघन किए जाने पर शासन आदेश दिनांक 15.09.2017 से मंशा पत्र एवं अस्थायी कार्यानुमति सहित आवेदन पत्र निरस्त किया गया। मंशा पत्रधारक द्वारा माननीय उच्च न्यायालय, जयपुर में विशेष अपील संख्या 419/2018 प्रस्तुत की गई। विशेष अपील संख्या 419/2018 में माननीय उच्च न्यायालय, जयपुर द्वारा निर्णय दिनांक 07.05.2022 के द्वारा माननीय उच्चतम न्यायालय निर्णय दिनांक 11.11.2021 के तहत नियम 5(4) में किए गए संशोधन के दृष्टिगत 3 माह में निर्णय करने के निर्देश दिए गए। शासन द्वारा इस निर्णय के विरुद्ध अपील नहीं करने का निर्णय लिया गया है।

शासन के पत्र दिनांक 14.10.2022 के द्वारा मंशा पत्र अस्वीकृति आदेशों को अपारत करते हुए बहाल करने तथा माननीय उच्चतम न्यायालय के निर्णय दिनांक 11.11.2021 के निर्देशानुसार खनिज बजरी के वास्तविक खनन की अवधि से शेष अवधि तक, डाईज-नोन अवधि मानी जाकर कार्यवाही किये जाने का निर्णय लिया गया।

अतः, निर्देशालय के प्रस्ताव दिनांक 27.03.2023 के अनुसार श्री भरत सिंह के फल में डाईज-नोन पीरियड की अवधि दिनांक 02.11.2014 से दिनांक 28.12.2018 (4 वर्ष 01 माह 26 दिवस) तक मानते हुये खनन पट्टा स्वीकृति आदेश की पालना में कब्जा संभलाने जाने की दिनांक से 4 वर्ष 01 माह 26 दिवस तक की अवधि के लिये मंशा पत्र को बहाल करते हुए राजस्थान अप्रधान खनिज रियायत नियमावली, 2017 में अंकित निबंधों एवं प्रतिबंधों तथा समय-समय पर हुये संशोधनों के अतिरिक्त निम्न शर्तों पर एतद्वारा स्वीकृत किया जाता है-

1	खनिज	बजरी
2	क्षेत्रफल	1025.70 हेक्टेयर
3	अवधि	दिनांक 20-12-2013 से 28-12-2018 तक

		खर्च नॉन रिरोयड (04 वर्ष 01 माह एवं 28 दिवस) जोड़े जाने से खनन पट्टा अवधि इस आवेग के तहत कच्चा संग्रहावे जाने की दिनांक से 04 वर्ष 01 माह एवं 28 दिवस तक
4	प्रतिवर्ष राशि	23,48,00,000/- उक्त राशि का स्थिर भाटक एवं रॉयल्टी में समावेशन नहीं होगा।
5	स्थिर भाटक	30,77,100/-प्रतिवर्ष कार्यानुमति की तिथि से 01-11-2014 देय होगा। पुनः कच्चा संग्रहावे जाने की दिनांक से 04 वर्ष 01 माह एवं 28 दिवस तक राशि रुपये 81,54,200/-प्रतिवर्ष की दर से। (सविदा निष्पादन से पूर्व कार्यानुमति की शर्तों के अनुसार राशि जमा करावेगा)
6	प्रतिभूति राशि	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 19 तथा इसमें समय समय पर संशोधन के अनुसार।
7	परफॉरमेंस प्रतिभूति	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 20 तथा इसमें समय समय पर संशोधन के अनुसार।
8	दिल्लीय आश्वासन	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 29(14) तथा इसमें समय समय पर संशोधन के अनुसार।
9	सीमांकन शुल्क	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 81(2) के अनुसार राशि रुपये 50,000/-सीमांकन शुल्क जमा कराकर क्षेत्र का सीमांकन करावेगा।
10	अधिशुल्क	रुपया 45/-प्रति टन एवं राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 की द्वितीय अनुसूची में समय समय पर होने वाले संशोधन अनुसार।
11	डीएमएफ ट्रस्ट फण्ड	रॉयल्टी राशि की 10 प्रतिशत राशि के बराबर एवं डीएमएफटी रुल 2016 में समय समय पर होने वाले संशोधन अनुसार।
12	आर.एस.एम.ई. टी	रॉयल्टी राशि की 2 प्रतिशत राशि के बराबर एवं आर.एस.एम.ई.टी. रुल 2020 में समय समय पर होने वाले संशोधन अनुसार।
13	नूतन भाटक	जैसा की राजस्व अधिकारी निर्धारित करें।
14	अन्य कर	राजकीय नियमानुसार।
15	अन्य शर्तें	<ol style="list-style-type: none"> पट्टाधारी निविदा की शर्तें, खनन पट्टों की सविदा एवं राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के प्रावधानों तथा उसमें समय-समय पर होने वाले संशोधनानुसार पालन करने हेतु बाध्य होगा। माननीय उच्चतम न्यायालय, नई दिल्ली के समक्ष दायर एस.एस.पी. संख्या 10587/2019 बजरी सीज एल.ओ.आई. होल्डर्स वेलफेयर सोसायटी बनाम राजस्थान राज्य व अन्य में सेन्ट्रल एम्पावर्ड कमिटी द्वारा प्रस्तुत रिपोर्ट दिनांक 23-12-2020 के पैरा संख्या 11(iii) सीज डीड का पार्ट होगा तथा इस रिपोर्ट के पैरा संख्या 11(iii) में वर्णित प्रक्रिया तथा दिशा निर्देशों की पालना करने हेतु पट्टाधारी बाध्य होगा। मीके पर किसी भी प्रकार का राजस्व सीमा संबंधी विवाद होने की स्थिति में राजस्व व खनिज विभाग द्वारा संयुक्त रूप से मीका निरीक्षण किया जाकर आवश्यक निर्णय किया जाएगा जो अंतिम होगा। खनन पट्टों की अवधि के दौरान आगामी अवधि के लिये नियमानुसार नवीन खनन पट्टा दिये जाने की प्रक्रिया प्रारम्भ करने पर पट्टाधारी की कोई आपत्ति विचारणीय नहीं होगी। बजरी दोहन के संबंध में माननीय न्यायालयों एवं शहरन द्वारा समय-समय पर दिये जाने वाले आदेशों की पालना हेतु पट्टाधारी बाध्य होगा। पट्टाधारी को पर्यावरण मंत्रालय द्वारा जारी होने वाली पर्यावरण क्लोचरमेंस में अंकित शर्तों/निर्देशों की पूर्ण पालना सुनिश्चित करनी होगी तथा इसके अतिरिक्त पर्यावरण मंत्रालय द्वारा समय-समय पर जारी होने वाले निर्देशों की पालना करनी होगी। साथ ही पट्टाधारी द्वारा पर्यावरण मंत्रालय से इन्वायरमेंट क्लोचरमेंस (ई.सी.) प्राप्त होने के पश्चात ही क्षेत्र में खनन कार्य प्रारम्भ कर

	सकोगा। 7 पट्टा सविदा पंजीयन के उपरान्त संबंधित प्रदूषण नियंत्रण मण्डल से कन्सेंट टू ऑपरेट प्राप्त कर प्रस्तुत करना होगा तथा खनन कार्ड की अनुमति जारी की जायेगी।
--	--

नोट :-

1. अनुदानी राजस्थान अध्याय खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत सविदा निष्पादन हेतु स्वीकृति आदेश प्रारित की तिथि से 3 माह की अवधि में अंतर प्रिमियम राशि, वार्षिक रिथर भाटक, प्रतिभूति राशि, परफोरमेन्स प्रतिभूति राशि, वित्तीय आस्थापन की राशि व निर्धारित राशि के नॉन ज्युडिशियल स्टाम्प पेपर प्रस्तुत कर सविदा निष्पादन करायेगा।
2. अनुदानी को सविदा निष्पादन से पूर्व अस्थाई कार्यानुमति के तहत कार्यानुमति की शर्तों के अनुसार किये गये खनिज के निर्गमन का अधिशुल्क निर्धारण अनुसार समस्त जमा जमा करानी होगी। बकाया न होने पर ही सविदा निष्पादन कराया जायेगा।
3. अनुदानी द्वारा अब तक प्रिमियम भद में जमा समस्त राशि यदि प्रिमियम राशि से कम है तो अंतर राशि जमा करानी होगी एवं अधिक राशि जमा होने पर रिफण्ड/समायोजित की जायेगी।
4. अनुदानी द्वारा एल.ओ.आई. की अवधि बचाने हेतु अब तक लेट फीस के रूप में राशि जमा कराई गई है। यह समस्त राशि रिफण्ड/समायोजित की जायेगी। क्योंकि खनन पट्टे की अवधि अस्थाई कार्यानुमति की तिथि से मानी है।
5. अनुदानी द्वारा सविदा प्रपत्र प्राप्त होने की तिथि से 2 माह की अवधि में सविदा का पंजीयन करा प्रस्तुत नहीं करने पर जमा प्रिमियम राशि, प्रतिभूति राशि व परफोरमेन्स प्रतिभूति राशि जमा करते हुये राजस्थान अध्याय खनिज रियायत नियमावली, 2017 के नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिबंधित (रिबोक) कर दिया जायेगा।
6. अनुदानी द्वारा सविदा निष्पादन हेतु राजस्थान अध्याय खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत उचित पूर्तियां कर 3 माह की अवधि में सविदा निष्पादन नहीं कराने पर बिना किसी पूर्व सूचना के जमा प्रिमियम राशि, प्रतिभूति राशि परफोरमेन्स प्रतिभूति राशि जमा करते हुये नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिबंधित (रिबोक) कर दिया जायेगा।
7. खनन पट्टा पंजीयन से पूर्व कार्यानुमति की शर्तों के अनुसार राशि जमा करायेगा (प्रिमियम राशि को छोड़कर) जो रिथर भाटक में समायोजन किया जायेगा। यदि उक्तानुसार जमा राशि रिथर भाटक से कम है तो उतनी अंतर राशि अलग से जमा कराई जायेगी। परन्तु रिथर भाटक से अधिक जमा होती है तो उक्त अधिक राशि को अधिक अधिशुल्क में माना जायेगा।

राज्यपाल की आज्ञा से,

FORM NO. 6
FORM OF MINING LEASE
[See Rule 21 (2)]

ML No.- 5/2013

This indenture made this 30 March day of 2023 between the Governor of the State of Rajasthan (hereinafter referred to as the Government which expression shall, where the context so admits, include his successors in office and assigns) of the one part

and

When the lessee is an individual श्री भरत सिंह शेखावत पुत्र श्री शिवदयाल सिंह शेखावत, निवासी 336, मोहन नगर बी, बी.जे.एस. कॉलोनी, जोधपुर (Name of person) (hereinafter referred to as the "lessee" which expression shall where the context so admits, include his heirs, executors, administrators, representatives, and permitted assigns)

or

When the lessee is a registered firm N/A (Name & address of 1st partner) and N/A (Name and address of 2nd partner) and N/A (Name and address of 3rd partner) all carrying on business in partnership under the firm name and style of (Name of the Firm) N/A registered under the Indian Partnership Act, 1932 (9 of 1932) and having their registered office at N/A (Address of the firm) (hereinafter referred to as "lessees" which expression shall, when the context so admits be deemed to include all the partners of the said firm, their respective heirs, executors, legal representative and permitted assigns)

or

When the lessee is a registered Company N/A (Name of the Company) and Company registered under N/A (Act under which incorporated) and having its registered office at N/A (Address of the company) (hereinafter referred to as the "lessee" which expression shall, where the context so admits be deemed to include its successors and permitted assigns) of the other part.

BACKGROUND:

- A. The lessee had participated in an electronic auction for grant of a mining lease, pursuant to which the lessee has become eligible for grant of a mining lease or had been granted a prospecting licence or letter of intent has been issued or mining lease has been sanctioned with respect to which the lessee has completed the requirements under the Rajasthan Minor Mineral Concession Rules, 2017 (hereinafter referred to as the said rules) for grant of a mining lease.
- B. Accordingly, the State Government is now executing this deed for grant of a lease to the lessee in consideration of the fee, royalties, covenants and agreements hereinafter reserved and contained on the part of the lessee to be paid, observed and performed.

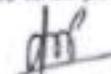

The State Government hereby grants the mining lease for बजरी mineral in respect of the lands hereinafter described in clause 1(b) and has have deposited with the Government the sum of Rs. 15,37,605/- एकद्विआर नं. 50300733132832 दिनांक 05.01.2023 as security, Rs. 30,75,210/- एकद्विआर नं. 50300733131193 दिनांक 05.01.2023 as performance security and Rs. 30,00,000/- एकद्विआर नं. 50300733127312 दिनांक 05.01.2023 as financial assurance.

Now therefore this deed witnesses and the parties hereto hereby agree as follows:-

1. Demises:

- (1) In consideration of the rents and royalties covenants and agreements hereinafter contained and on the part of the lessee/lessees to be paid, observed and performed the Government hereby

grants and demises upto the lessee/lessees, all these mines/beds/veins/seams of (hereinafter referred to as the said minerals) situated, lying and being in or under the lands which are referred to hereinafter and subject of other provisions of this lease.

- (2) The area of said lands is as follows (hereinafter referred to as the said lands or the leased area).
- (3) The lessee/lessees shall hold the premises hereby granted and demised from the date of registration for period of 05 (29-13-2013 से दिनांक 28-12-2018 तक डाईज-नॉन पीरियड (04 वर्ष 01 माह 26 दिवस) जोड़े जाने से खनन पट्टा अवधि कब्जा सम्भार्ये जाने की दिनांक से 04 वर्ष 01 माह 26 दिवस तक) years thence next ensuing.

2. Liberties, powers and privileges to be exercised and enjoyed by the lessees:

The following liberties, powers and privileges may be exercised and enjoyed by the lessee/lessees subject to the other provisions of this lease:

- (1) To enter upon land and search for, win, work etc.- Liberty and powers at all times during the terms hereby demised to enter upon the said lands and to search for, mine, bore, dig, drill for, win, work, dress, process, convert, carry away and dispose of the said minerals.
- (2) To sink, drive and make pits, shaft and inclines etc.- Liberty and powers for or in connection with any of the purposes mentioned in this clause to sink, drive, make, maintain and use in the said lands, and pits, shafts, inclines, drifts, levels, water-ways, air-ways and other works and to use, maintain, deepen or extend any existing works of the like nature in the said lands.
- (3) To bring and use machinery and equipment- Liberty and power for or in connection with any of the purposes mentioned in this clause to erect, construct, maintain and use on or under the said lands any engines, machinery, plant, dressing floors, furnaces, coke ovens, brick kilns, workshops, store houses, bungalows, godowns, sheds and other buildings and other works and conveniences on the like nature on or under the said lands.
- (4) To use water from streams etc- Liberty and power for or in connection with any of the purposes mentioned in this clause but subject to the rights of any existing or future lessees and with the written permission of the Collector to appropriate and use water from any stream, water courses, springs or other source in or upon the said lands and to divert, step up of dam any such stream or water course and collect or impound. Any such water and to make, construct and maintain any watercourse, culverts drains or reservoirs but not so as to deprive any cultivated land, villages, buildings or watering places for a livestock of a reasonable supply of water as before accustomed nor in any way to foul or pollute any stream or spring provided that the lessee/lessees shall not interfere with the navigation in any navigable stream nor shall divert such stream without previous written permission of the government.

3. Restriction as to the exercise of the liberties etc.:

The liberties, powers and privileges granted under clause 2 are subject to the following restrictions and subject to the other provisions of this lease:-

- (1) The mining operations within 45 meters of the public works etc.- The lessee shall not carry on or allow to be carried on, any mining operations at any point within a distance of forty five meters from any railway line except under and in accordance with the written permission of the railway administration concerned or under or beneath any ropeway or ropeway trestle or station except other and in accordance with the written permission of the authority owning the ropeway or from any public roads (excluding mines approach road/village roads), reservoir, canal, other public place, buildings or pillars of railway and road bridge or inhabited site except with the previous permission of the Collector or any other officer authorised by the State or Central Government and otherwise then in accordance with such instructions, restrictions and conditions either general or specific as may be attached to such permissions. The said distance of forty five meters

[Handwritten signature]

उप पंजायक, के.प.डी

shall be measured in the case of public roads (excluding mines approach road/village roads), railway, reservoir or canal horizontally from the outer toe of the bank or the outer edge of the cutting as the case may be and in case of a building horizontally from the plinth thereof. The lessee shall not, in the case of mines approach road/village roads (including any track shown in the revenue record as village road), allow any working to be carried on within a distance of ten meters of the outer edge of the cutting except with the previous permission of the Collector or any other officer duly authorized by the State/Central Government in this behalf and otherwise than in accordance with such directions, restrictions and additions, either general or special, which may be attached to such permission.

(2) Permission for surface operation in a land not already in use- Before using for surface operation and land which has not already been used for such operations. The lessee/lessees shall give to the Collector of the District one calendar month previous notice in writing specifying the situation and the extent of the land proposed to be so used and the purpose for which the same is required and the said land shall not be so used if objection is issued by the Collector within one month after receipt by him of such notice unless the objection so stated shall on reference to the Government be a mulled or waived.

4. The lessee/lessees hereby covenants with the Government as following:

(1) Covenants in accordance with the Rajasthan Minor Mineral Concession Rules, 2017. The lessee/lessees shall pay royalty on the quantity of the said mineral dispatched from or consumed within the leased area at the rates specified in Schedule-II appended to the Rajasthan Minor Mineral Concession Rules, 2017: Provided that the said rates shall be liable to be revised by the Government and such revision shall apply to this lease subject to the condition that the enhancement in the rate of royalty shall not be made more than once during any period of three years.

(2) Surface rent and other payments-

(a) The lessee shall pay premium amount as specified in the Rajasthan Minor Mineral Concession Rules, 2017.

(b) The lessee/lessees shall pay for the surface area used by him/them (for the purpose of mining) surface rent equal to the land revenue payable under the Rajasthan Land Revenue Act, 1956 or any other law in force to the Land Revenue Department of State.

(c) The lessee shall, in addition to royalty, pay to the District Mineral Foundation Trust as per the rates specified in the District Mineral Foundation Trust Rules, 2016, as amended from time to time.

(3) Dead Rent-The lessee/lessees shall also pay for every year, the yearly dead rent in advance as determined, from time to time:

Provided further that where mining lease is granted with the condition that the lessee shall commence mining operations after obtaining environment clearance, in such case dead rent shall be payable after commencement of mining operations or one year from the date of registration of lease deed, whichever is earlier.

(4) Rate and payment of dead rent etc. - Subject to the provisions of sub-clause (3) above as from the day of the registration of the lease, the lessee/lessees shall pay to the Government for each year the minimum annual royalty as "dead rent" of Rs. 61,54,200/- in the office of the Mining Engineer/Assistant Mining Engineer subject as aforesaid. This provision will also apply to the payment of royalty, District Mineral Foundation Trust or any other charges. Surface rent will be deposited with the Revenue Department.

- (5) Revised security, performance security and financial assurance- The lessee shall pay difference amount of security and performance security as per revised dead rent. The lessee shall also pay difference amount of financial assurance if area used for mining and allied activities increases.
- (6) Dump removal charges- The lessee/lessees shall pay such amount per year or part thereof to the Government for ecological restoration of mines and quarries in the said area at such time and such rate as may be fixed by the Government, from time to time.
- (7) To pay compensation for damage and indemnify the Government- The lessee/lessees shall make and pay such reasonable satisfaction and compensation for all damage, injury or disturbance which may be done by him/them in exercise of the powers granted by the lease and shall indemnify the Government against all claims which may be made by third parties in respect of such damage, injury or disturbance.
- (a) To indemnify against all claims and to pay compensation for infringement of rights of third person- The lessee/lessees shall make and pay such reasonable satisfaction and compensation as may be assessed by lawful authority in accordance with the law in force on the subject for all damage, injury or disturbance which may be done by him/them in exercise of the powers granted by this lease and shall indemnify and keep indemnified fully and completely the State Government against all claims which may be made by any person or persons in respect of any such damage, injury or disturbance and all costs and expenses in connection therewith.
- (b) To pay a wage not less the minimum wage prescribed by the Central or State Government from, time to time.
- (c) To comply with the provisions of the Mines Act, 1952.
- (d) To comply with the provisions of the Rajasthan Minor Mineral Concessions Rules 2017.
- (8) Not to injure tree- The lessee/lessees shall not cut or injure any tree in area of his/their lease without the previous sanction in writing from the competent authority.
- (9) To maintain boundary and intermediate pillars- The lessee/lessees shall at his/their own expense erect and at all times maintain and keep in repair boundary and intermediate pillars according to the demarcation shown in the plan annexed hereto and as specified in clause (iv) of sub-rule (1) of rule 28.
- (10) Not to erect buildings etc. on certain places- The lessee/lessees shall not erect any building or carry or any surface operations on any public pleasure grounds, places of worship, sacred graves, burial grounds or village sites for houses, public roads or other places which the competent authority may determine as public grounds to bring within this restriction.
- (11) To commence mining operations within six months and carry them on properly- The lessee/lessees shall commence mining operations within six months from the date of the lease to him/them and thereafter carry on such operations effectively in a proper skilful and workman like manner both as regards prevention of waste by removal of sufficient overburden careful storage of waste and drainage and as regards removal of all valuable minerals within the mine. The lessee/lessees shall work in workman like manner for systematic, scientific and environment friendly mining so as to ensure systematic development, conservation of mineral deposits, protection of environment and safety of man and machinery.
- (12) Accounts- The lessee/lessees shall keep correct accounts showing the quantity and particulars of all minerals obtained from the mine, detail of mineral sold or dispatched, and the number of persons employed therein and also complete plans of the mine and shall allow any officer of the Department at any time to examine such accounts and mine plan and shall furnish him with such information and return in respect of aforesaid matter as he may require.

(13) Abiding by Rules- The lessee/lessees shall abide by all existing Acts and rules enforced by the Government of India or the State Government and all such other Acts or rules as may be enforced, from time to time in respect of working of the mines and other matters affecting safety, health, environment and convenience of the lessee/lessees or of the public.

(14) To allow facilities to other mineral concession or permit holders- The lessee/lessees shall allow existing and future mineral concession or permit holders of any land which is comprised in or adjoins or is approachable by the land held by the lessee/lessees, reasonable facilities for access thereto.

(15) To allow entry of officers- The lessee/lessees shall allow any officer of the Department or any other officer authorised by the Central or State Government in this behalf to enter upon the premises comprised in the lease for the purpose of inspecting the same and abide by instruction issued by him from time to time regarding the conservation and development of minerals and the related matters.

(16) Building erected by Lessee- The lessee/lessees may erect on the area granted to him, any building required for bonafide purpose and such building shall be the property of the Government after the expiry of the lease or earlier determination or surrender of the lease:

Provided that the provisions of this clause shall not be applicable for lessee/lessees of mining lease for mineral bajri (river sand);

(17) To report accident and discovery of any other mineral- The lessee/lessees shall without delay report to Mining Engineer/Assistant Mining Engineer concerned or any other officer authorised by them any accident which may occur at or in the said premises and also the discovery on or within any of the lands of mines demised by the lease of any minerals whether minor or otherwise not specified in the lease.

(18) Grant/working of newly discovered minerals- Where subsequent to the grant, any new mineral is discovered, the lessee shall not win and disposed off unless it is included in the lease or a separate lease is obtained. If lessee does not apply for inclusion of such mineral, lease may be terminated and new lease shall be granted through e-auction.

(19) To hand over possession of protected area- If any area out of the lease area is declared as a protected area under the Ancient Monuments Preservation Act 1904 (Central Act VII of 1904). The lessee will have to deliver the possession back to the State Government without claiming any compensation for that area.

(20) Liberty to determine the lease- The lessee/lessees may at any time determine this lease with immediate effect by giving a notice in writing to the State Government or to such officer or authority as the State Government may specify in this behalf and shall pay all rents, water rates, royalties compensation for damages and other moneys which may then be due and payable under these presents to lesser or any other person or persons and shall deliver these presents to competent authority and then this lease and the said term and the liberties. Powers and privileges hereby granted shall absolutely cease and determine but without prejudice to any right or remedy of the lesser in respect of any breach of any of the covenants or agreement contained in these presents.

(21) Cancellation- The lease shall be liable to be cancelled if the lessee/lessees ceases to work the mine for a continuous period of six months without obtaining written sanction of the competent authority.

(22) Pre-emption- The Government shall have the rights of pre-emption at current market rates over all minerals lying in or upon the lands demised by the lease and shall be indemnified by the lessee/lessees against claims of any other party in respect of such minerals.

(23) Consequence of non payment of royalty or rent- The Government shall determine the lease after serving a notice to the lessee to pay the dues within thirty days from the date of the receipt of notice and forfeit the security amount if the dead rent or royalty or dump removal charges are not paid within thirty days next after the date fixed in these presents. The Government shall have the right at any time after serving the above notice to enter upon the said lands and to distrain all or any of the minerals or movable property therein and shall carry away, distrain or order the sale of property so distrain or so much of it as will suffice for satisfaction of the rent or royalty of dump removal charges and all costs and expenses occasioned by the non-payment thereof. These rights shall be without prejudice to the right of the Government to realise all its dues, under the Rajasthan Public Demand Recovery Act, 1952 (Act No. V of 1952) or Rajasthan Land Revenue Act, 1956 (Act No. 15 of 1956).

- (a) Consequence of breach of other covenants- In case of any breach on the part of lessee/lessees of any covenant or condition contained in the lease whether contained in this clause or any other clause of this lease, the Government may determine the lease and forfeit the security amount and take possession of the said premises or in the alternative may impose payment of a penalty as specified in Schedule-IV. Such action shall not be taken unless the lessee/lessees has/have failed to remedy the breach after thirty days' notice.
- (b) Delivery on termination of lease- On expiry or earlier determination of the lease the lessee/lessees shall deliver up the said premises and all mines (if any) dug in respect of any working as to which the Government might have sanctioned abandonment.
- (c) (i) Determination of lease in the public interest- The Government may determine the lease if the Government considers that the minor minerals under the lease are required for establishing an industry beneficial to the public.
- (ii) Determination of lease for the aforesaid purpose shall not be valid unless six months notice in writing has been given by the Government to the lessee/lessees. Such notice need not however, be given in war of emergency.

(24) In the schedule area, the lessee shall give preference in employment, to the tribals and to the persons who become displaced because of the taking up of mining operations.

(25) Employment of Foreign nationals- The licensee/licencees shall not employ, in connection with the prospecting operations any person who is not an Indian National except with the previous approval of the Central Government.

5. Further covenants of the lessee:

The lessee/lessees hereby covenant/covenants with the Government as follows:-

(1) The lessee/lessees shall, when mandated by the Government, provide and at all times keep at or near the pit head or each of the pit heads or in nearby cluster area at which the minerals shall be brought to bank, a properly constructed and efficient computerized weighing machine and shall weigh or cause to be weighed thereon all the said minerals, from time to time, brought to bank, and exported and converted and also the converted products. The lessee shall at the close of each day cause the total weights, ascertained by such means of the said minerals raised, sold, exported and converted during the previous twenty four hours, to be entered in the books of accounts maintained by the lessee. The lessee shall at all times during the term of the lease, permit the Government to employ any person or persons to be present at the weighing of the said minerals as aforesaid and to keep accounts thereof and to check the accounts kept by the lessee.

(2) To allow test to weighing machine- The lessee shall at any time or times during the term of the lease, allow any person or persons appointed in that behalf by the Government to examine and test every weighing machine to be provided and kept as aforesaid and the weights used therewith

[Handwritten signature]

In order to ascertain whether the same respectively are correct and in good repair and order. If upon any such examination or testing, any such weighing machine or weights shall be found incorrect or out of repair or order, the Government may require that the same be adjusted, repaired and put in order by and at the expense of the lessee. If such requisition is not complied with within fifteen days after the same has been made, the Government may cause such weighing machine or weights to be adjusted, repaired and put in order at the expense of the lessee. If upon any such examination or testing as aforesaid, any error is discovered in any weighing machine or weights to the prejudice of the Government, such error shall be regarded as having existed for three months prior to the discovery thereof or from the last occasion of so examining and testing the same weighing machine and weights, in case such occasion is within the said period of three months, and the lessee shall pay the royalty accounted for accordingly.

(3) Not to obstruct working of other minerals- The lessee/lessees will exercise the liberties and powers hereby granted in such manner as to cause no unnecessary or reasonably avoidable obstruction or interruption to the development of any working within the said lands of any minerals not included in this lease and shall at all time afford to the Central and State Government and to the holders of mineral concessions in respect of any such minerals within any land or any minerals within any land adjacent to the said lands as the case may be, reasonable means of access and safe convenient passage upon and across the said lands, to such minerals for purpose of getting, working, developing and carrying away the same provided that the lessee/lessees shall receive reasonable compensation for damage or injury which he/they may sustain in consequence of the use of such passage by such lessees or holders of mineral concessions.

(4) Forfeiture of property left more than three months after determination of lease- if on expiration of lease or earlier determination of the lease or after the date from which any surrender by the lessee of a part or parts of the said lands under the provision contained in sub-clause (20) of clause 4 of this lease becomes effective, there remain in or upon the said land of the surrendered part or parts thereof as the case may be, any engines, machinery, plants, structures, tramways, railways and other work erections and conveniences or other property which are not required by the lessee/lessees in connection with his/their operations in those parts of the said lands they shall become the property of the Government and may be sold or disposed of in such manner after period of three months from the date of expiration or earlier determination of the lease the Government may deem fit without liability to pay any compensation.

(5) Exemption of royalty for tenants- No royalty shall be charged on minor minerals required by the tenant for any bonafied purposes as specified in rule 75 of the rules.

6. Further covenants of the lessee:-

The lessee/lessees further covenant/covenants with the Government as follows:-

(1) Interest- The lessee/lessees shall pay to the Government simple interest at the rate of fifteen percent per annum on all amounts outstanding against the lessee/lessees under this lease, whether as dead rent, royalty, surface rent or otherwise.

(2) Keeping mines etc. in good order- The lessee/lessees shall keep throughout the terms of his/their lease all mines, building, engines, machinery and other mining plants in good repair and working order.

(3) Taking ballast etc. for leased area only- The lessee/lessees shall take out and use ballast, sand and rubbles from his/their quarries for his/their bonafied use in the leased area only and shall pay royalty for minerals so used.

(4) Delivery of samples of rocks etc- The lessee/lessees shall deliver to or permit to be taken by the representative of the Government a sample or samples of all rocks found on mines or raised and all intermediate and finished products sold or intended for sale by the lessee/lessees.

- (5) Security of pits and Shafts and not filling them up- The lessee/lessees shall properly secure pits and shafts and will not without permission in writing of the Mining Engineer, will fully close, fill up or choke any mine or shafts.
- (6) Setting apart land for public purposes- The lessee/lessees shall when required by the Government so to do, set apart land for public purposes and Government may occupy the same whenever it thinks necessary of expedient but Government will, so far as is compatible with the objects aforesaid, select the land so as not to interfere with the mining operations of lessee/lessees and will from time to time pay to the lessee/lessees such sums of money expended in buying surface rights over any of the lands so set apart and cost of removal of any work carried there on and for any loss or damages caused to the lessee/lessees by any interference in the mining operations.
- (7) (a) Abstaining from entering occupied land- The lessee/lessees shall abstain from entering on the surface of any occupied Government land or of any private land comprised within the leased area without previously obtaining the consent of the occupant in writing.
- (b) The lessee/lessees shall abstain from opening any new quarry or depot in the leased area without the previous sanction of the Mining Engineer, Assistant Mining Engineer concerned.
- (8) Not to obstruct road etc- The lessee/lessees shall keep open and in no way obstruct any road path or way by any means whatsoever.
- (9) Not to obstruct working of other mineral- The lessee/lessees shall in the event of his/their declining to take a lease, permit the Government or other persons duly authorised by the Government in that behalf to enter into the leased area and to conduct prospecting and mining operations thereon in respect of minerals or other substance other than बजरी (name of mineral) but the Government will so far as is compatible with the objects aforesaid, select the land to be so set apart and appropriated in such a manner as not to interfere with the mining operations of the lessee/lessees and will indemnify the lessee/lessees for any loss or damage caused to the lessee by any interference with the mining operations.
- (10) To allow free use of tanks, water courses etc, to the public and Government. The lessee/ lessees shall abstain from all interference with and allow to the public and the Government the free use of tanks, water courses, places of worship, sacred graves, burial grounds and village sites for houses which may be existing or may hereafter be set apart or appropriated as herein before provided on the leased area.
- (11) Not to use land for other purposes- The lessee/lessees shall not cultivate or use the land save for the purposes of the lease.
- (12) Not to enter upon or commence operations in forest land etc.- The lessee/lessees shall not enter upon or commence any mining operations in any forest land under special protection comprised in the leased area except after previously obtaining permission in writing of the competent officer.
- (13) To respect water rights and not to injure adjoining property- The lessee/lessees shall not injure or cause to deteriorate any sources of water, power or water supply and shall not in any other way render any spring of stream of water unfit to be used or do anything to injure adjoining lands, villages or houses.
- Removal of stock of minerals on expiry or determination of the lease- The lessee/lessees shall on the termination or earlier determination of the lease remove within three months all extracted minerals from the premises of the leased areas. All extracted minerals in the said lands left over shall be disposed after three months of the termination or determination of lease shall be deemed to be the property of the Government. Provided that in case of mining lease of mineral bajri (river

[Handwritten signature]

उप पंजीयक, बोकड़ी

[Handwritten signature]
सहायक रानि अभियंता
रान एवं भू-विज्ञान विभाग
लखर

sand), the lessee shall not have any right to remove any stock of bajri after the expiry of lease period or receipt of the order of determination of the lease.

(15) Service of notice on lessee- The lessee/lessees shall at all times have at the lease area a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the officers of the Department or the Government may be delivered, if there be no such Superintendent or agent on the leased area, the Government shall be at liberty to treat any other person present there as such agent and to serve all notices and other documents upon the said person or in the case of there being no such other person as aforesaid, then by affixing such notice or documents on some conspicuous portion of the mining block.

(16) Supply of stones to the Public- The lessee/lessees shall not unless prevented by reasonable cause e.g. collapse of the quarry etc. to the satisfaction of the Government, fail or neglect or delay to supply बजरी (name of mineral) to the public at pits mouth within reasonable period of 7 days (to be specified). In the event of unsatisfactory supply by the lessee/lessees to local public the Mining Engineer/Assistant Mining Engineer with the approval of the Director, may allow the consumers to quarry/extract with their own arrangement in the leased area outside the existing quarries or depots and the lessee/lessees will not be entitled to any royalty on this account but the same will be payable to the Government.

(17) Employment of qualified person- for the purpose of carrying out mining operations in accordance with the approved practices:-

- (i) a whole-time mining engineer or the person possessing I Class Mine Manager's Certificate of Competency issued by the Director General of Mines Safety and geologist, where mining operations are carried out by deployment of heavy mining machinery for deep hole drilling, excavation, loading and transport, or where the average employment exceeds one hundred and fifty per day;
- (ii) a whole-time mining engineer or the person possessing II Class Mine Manager's Certificate of Competency issued by Director General of Mines Safety, where mining operations are carried out by deployment of heavy mining machinery for deep hole drilling, excavation, loading and transport, or where the average employment exceeds seventy five per day;
- (iii) in case of any other mine, a person having degree in mining or diploma in mining with two year's experience in mining operations or Geologist or the person possessing foreman's certificate of competency issued by the Director General of Mines Safety;

Provided that in case where area of lease is up to one hectare and mining is carried out only by manual means, the person having qualification mentioned in clause (i), (ii) or (iii) may work for a maximum of fifteen leases or fifty quarry licences, provided that all such mines/quarries are located within a radius of hundred kilometers: Provided further that if any doubt arises about the lease covered under clause (ii) or (iii) above it shall be referred to the Director for its decision whose decision shall be final. Explanation: The expression 'average employment' means the average per day of the total employment of the mine during the preceding quarter (obtained by dividing the number of man-days worked by the number of working days).

The Lessee shall inform the Government of any change in his immovable property and its value within a period of fifteen days from such change.

Calculation of royalty, assignment of tax and recovery of dues:

It is hereby further agreed between the parties hereto as follows:

- (1) The royalty payable hereunder shall be calculated on the quantity dispatched from or consumed within the leased area as per the rates specified in Schedule-II of the Rajasthan Minor Mineral Concession Rules, 2017.

[Handwritten signature]

- (2) The lessee/lessees shall not assign, sublet or part with the possession of the leased area or any part thereof except in the manner permitted by rule 27 of the said rules.
- (3) Without prejudice to any other mode of recovery under any provision of this lease or any law, all amounts falling due hereunder against the lessee/lessees may be recovered as arrears of land revenue under the law in force for such recovery.
- (4) The lessee/lessees shall duly and regularly pay to the competent authority all taxes, cess and local dues in respect of the leased area, said minerals or the working of the mines.
8. If in any event the orders of competent authority are revised or cancelled by the appellate authority or by the State Government in pursuance of the proceedings under Chapter XI of the Rajasthan Minor Mineral Concession Rules, 2017 or under any other provisions of the said rules, the lessee/lessees shall not be entitled to compensation for any loss sustained by him/them in exercise of the powers and privileges conferred upon him/them by these presents.
9. If in any event the orders of the Government or any other officer empowered under these rules are revised, reviewed or cancelled by the appellate authority or court of law, the lessee/lessees shall not be entitled to compensation for any loss sustained by the lessee/lessees in exercise of the powers and privileges conferred upon him/them by these presents.
10. In the event of the existence of a state of war or of emergency (of which existence the Government shall be sole judge and a notification to this effect in the Rajasthan Gazette shall be conclusive proof), the Government shall from time to time and all times, during the said terms have the right (to be exercised by a notice in writing to the lessee/lessees) forthwith to take possession and control of the works, plant, machinery and premises of the lessee/lessees situated on the said lands or meant for use in connection with the said lands or the operations under this lease, during such possession or control and the lessee/lessees shall conform to and obey all directions given by or on behalf of the Government regarding the use or employment of such works, plants, premises and minerals: Provided that fair compensation which shall be determine in default of agreement by the Government shall be paid to the lessee/lessees for all loss or damages sustained by him/them by reason or in consequence of the exercise of powers conferred this clause: Provided further that the exercise of such powers shall not determine the said term hereby granted or affect the terms and provisions of these presents further than may be necessary to give effect to the provisions of this clause.]
11. Security and forfeiture thereof:

- (1) The Government may forfeit the whole or part of the amount deposited by the lessee/lessees as security under this lease in case the lessee/lessees commits/commit a breach of any covenant to be performed by the lessee/lessees under this lease.
- (2) Whenever the said security deposit or any part thereof or any further sum deposited with the Government in replacement thereof shall be forfeited under sub-clause (1) or applied by the Government in satisfaction of any dues of the Government under this lease (which the Government is hereby authorised to do) and the lessee/lessees shall immediately deposit with the Government such further sum as may be sufficient with the inappropriate part thereof to bring the amount in deposit with the Government upto the limit as mentioned in Rule 19.

The rights conferred by this clause shall be without prejudice to the right conferred on the Government by any other provision of this lease or by any law. (Plan with boundary marks of demarcation report to be annexed)

12. Interpretation.

(1) 'Department' means the Department of Mines & Geology, Rajasthan.

(2) 'Director' means the Director of the Mines & Geology, Rajasthan for the time being and includes any officer authorised by him to perform any of his functions.

आदेश

श्री भक्त सिंह पुत्र श्री शिवदयाल सिंह शेखावत, नियाती 338, मोहन नगर बी, बीजेएस कॉलोनी, जोधपुर (राज.) के पक्ष में सहायक खनि अभियन्ता सावर के क्षेत्रधिकार में जिला अजमेर की सहरील केकड़ी से निकलने वाला खनिज बजरी क्षेत्र 1025.70 हेक्टेयर का खनन पट्टा स्वीकृति हेतु मंशा पत्र (एन.ओ.आई) शासन के समसंख्यक पत्र दिनांक 20.03.2013 से जारी किया गया।

माननीय सर्वोच्च न्यायालय द्वारा Petition (s) for Special Leave to Appeal (c) No (s) 34811/2013 नवीन शर्मा बनाम राजस्थान राज्य एवं अन्य में पारित आदेश दिनांक 16.11.2017 से राज्य में खनिज बजरी के समस्त 82 खनन पट्टों/अस्थाई कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से रोक लगा दी गई। माननीय सर्वोच्च न्यायालय के उक्त निर्णय के अनुसरण में निर्देशालय द्वारा पत्र दिनांक 17.11.2017 से खनिज बजरी के समस्त खनन पट्टों/अस्थाई कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से बन्द कराये जाने के निर्देश दिये गये, जिसकी प्रतिया में उक्त खनन पट्टा क्षेत्र में खनन परीक्षिकाएं तुरन्त प्रभाव से बन्द कराई गई। परन्तु उक्त मंशा पत्र के तहत मंशानुसार धारक द्वारा दिनांक 01.11.2014 से तदर्थ ही खनन कार्य बन्द कर दिया गया।

मंशा पत्र धारक द्वारा अस्थाई कार्यानुमति की शर्तों एवं शर्तियां का उल्लंघन किए जाने पर शासन आदेश दिनांक 15.09.2017 से मंशा पत्र एवं अस्थाई कार्यानुमति सहित आवेदन पत्र निरस्त किया गया। मंशा धारक द्वारा माननीय उच्च न्यायालय, जयपुर में विशेष अपील संख्या 419/2018 प्रस्तुत की गई। विशेष अपील संख्या 419/2018 में माननीय उच्च न्यायालय, जयपुर द्वारा निर्णय दिनांक 07.06.2022 के द्वारा माननीय उच्च न्यायालय निर्णय दिनांक 11.11.2021 के तहत नियम 5(4) में किए गए संशोधन के दृष्टिकोण 3 माह में निर्णय करने के निर्देश दिए गए। शासन द्वारा इस निर्णय के दिरुद्ध अपील नहीं करने का निर्णय लिया गया है।

शासन को पत्र दिनांक 11.09.2022 के द्वारा मंशा पत्र अस्वीकृति आदेशों को अपारत करते हुए बहाल करने तथा माननीय उच्च न्यायालय के निर्णय दिनांक 11.11.2021 के निर्देशानुसार खनिज बजरी के सार्वजनिक खनन की अधि से रोक अस्वी तथा, टाईज-नोन अधि शर्तों जाकर कार्यावली किये जाने का निर्णय लिया गया।

आज, निर्देशालय के प्रस्ताव दिनांक 27.03.2023 के अनुसार श्री भक्त सिंह के पक्ष में टाईज-नोन पीरियड की अधि दिनांक 02.11.2014 से दिनांक 28.12.2018 (4 वर्ष 01 माह 26 दिवस) तक लागू हुये खनन पट्टा स्वीकृति आदेश की प्रतिया में समस्त संशोधन करने की दिनांक से 4 वर्ष 01 माह 26 दिवस तक की अधि के विधे मंशा पत्र को बहाल करते हुए राजस्थान अध्यान खनिज विभाग विद्युतधारी, 2017 में अंतिम निर्देश एवं प्रतिक्रिया तथा राज्य-समय पर हुये संशोधनों के अतिरिक्त निम्न शर्तों पर एतद्वारा स्वीकृत किया जाता है-

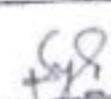

1	खनिज	बजरी
2	क्षेत्रफल	1025.70 हेक्टेयर
3	दिनांक	दिनांक 20-12-2013 से 28-12-2018 तक

सकेंगे।

7 पट्टा सविदा पंजीयन के उपरान्त संबंधित प्रदूषण नियंत्रण मण्डल से कन्सेंट टू ऑपरेट प्राप्त कर प्रस्तुत करना होगा तभी खनन कार्य की अनुमति जारी की जायेगी।

ट :-

1. अनुदानी राजस्थान अग्रधान खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत सविदा निष्पादन हेतु स्वीकृति आदेश प्राप्ति की तिथि से 3 माह की अवधि में अंतर प्रिमियम राशि, वार्षिक स्थिर भाटक, प्रतिभूति राशि, परफोरमेंस प्रतिभूति राशि, वित्तीय आरवासन की राशि व निर्धारित राशि के नॉन ज्यूडिशियल स्टाम्प पेपर प्रस्तुत कर सविदा निष्पादन करायेगा।
2. अनुदानी को सविदा निष्पादन से पूर्व अस्थाई कार्यानुमति के तहत कार्यानुमति की शर्तों के अनुसार किये गये खनिज के निर्माण का अधिशुल्क निर्धारण अनुसार समस्त बकाया जमा करानी होगी। बकाया न होने पर ही सविदा निष्पादन कराया जायेगा।
3. अनुदानी द्वारा अब तक प्रिमियम मद में जमा समस्त राशि यदि प्रिमियम राशि से कम है तो अंतर राशि जमा करानी होगी एवं अधिक राशि जमा होने पर रिफण्ड/समायोजित की जायेगी।
4. अनुदानी द्वारा एल.ओ.आई की अवधि बढ़ाने हेतु अब तक लेट फीस के रूप में राशि जमा कराई गई है। वह समस्त राशि रिफण्ड/समायोजित की जायेगी। क्योंकि खनन पट्टे की अवधि अस्थाई कार्यानुमति की तिथि से मानी है।
5. अनुदानी द्वारा सविदा प्रपत्र प्राप्त होने की तिथि से 2 माह की अवधि में सविदा का पंजीयन करा प्रस्तुत नहीं करने पर जमा प्रिमियम राशि, प्रतिभूति राशि व परफोरमेंस प्रतिभूति राशि जब करतें हुये राजस्थान अग्रधान खनिज रियायत नियमावली, 2017 के नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिसंहृत (रिचोक) कर दिया जायेगा।
6. अनुदानी द्वारा सविदा निष्पादन हेतु राजस्थान अग्रधान खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत याचित पूर्तियां कर 3 माह की अवधि में सविदा निष्पादन नहीं कराने पर बिना किसी पूर्व सूचना के जमा प्रिमियम राशि, प्रतिभूति राशि, परफोरमेंस प्रतिभूति राशि जब करतें हुये नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिसंहृत (रिचोक) कर दिया जायेगा।
7. खनन पट्टा पंजीयन से पूर्व कार्यानुमति की शर्तों के अनुसार राशि जमा करायेगा (प्रिमियम राशि को छोड़कर) जो स्थिर भाटक में समायोजन किया जायेगा। यदि उपरानुसार जमा राशि स्थिर भाटक से कम है तो उतनी अंतर राशि अलग से जमा कराई जायेगी। परन्तु स्थिर भाटक से अधिक जमा होती है तो उक्त अधिक राशि को अधिक अधिशुल्क में माना जायेगा।

अन्य बातें :-

1. एल.ओ.आई. धारक द्वारा निर्मित की जाने वाली खनिज बजरी पर परामर्श पीठ विधम 80(4) में उल्लिखित दस्तों पर प्रत्येक वाहन के लिए जमा करानी होगी। इसके अलावा ईएफएफ राशि रु. 5/- प्रतिटन की दर से तथा रायल्टी की राशि शिद्वमुल-1 में उल्लिखित दस्तों पर जमा करानी होगी। उपरोक्त दस्तों में एमएमसीआर, 1985 में संशोधन होने की स्थिति में तदनुसार राशि जमा कराई जायेगी।
2. एल.ओ.आई. धारक को दिनांक 28 फरवरी, 2014 तक माननीय उच्चतम न्यायालय, नई दिल्ली के आदेशानुसार खनन कार्य की अनुमति दी जायेगी। यदि माननीय न्यायालय द्वारा आगे अधि बढ़ाई जाती है तो शासन द्वारा तदनुसार अधि दृष्टि की जा सकेगी, जिसके लिए अनुयायिक प्रीमियम जमा कराना होगा।
3. खनन पट्टा क्षेत्र से निर्मित होने वाले खनिज बजरी हेतु एल.ओ.आई. धारक द्वारा अपने सार पर रचना (खान नं. 12 के अनुसूचि ताल रंग में) छापवाये जायेगे, जिसे अग्रिम टैपस्ट्री, परमिट शुल्क एवं ई.ए.एफ. राशि जमा करवाने के पर्याप्त संबंधित कार्यालय से मोहर लगाया कर जारी करवाना होगा। क्षेत्र के लिए गत आरसीसी टेक राशि (आरसीसी टेक में एक से अधिक क्षेत्र होने पर प्रीमियम के अनुपात में विभाजित की जाकर अनुयायिक टेक राशि) के अनुसार बनने वाली मासिक फिस्त के समतुल्य राशि अग्रिम जमा कतवे जाने पर रचना जारी किये जायेगे। रचना जारी किये जाने के पर्याप्त रचना अनुप्रयुक्त रहने पर जमा राशि विफल नहीं की जायेगी। विभाग द्वारा जारी केष रचना के अलावा प्रयुक्त अन्य रचना अर्पण माने जायेगे।
4. खनन पट्टा स्वीकृति के पूर्व उक्त रचनाओं के माध्यम से निर्मित खनिज का अधिवुलक निर्धारण कराया जाना आवश्यक होगा तथा यदि कोई राशि पट्टाधारी के विरुद्ध निकालती है तो वह जमा कर बकाया नहीं का प्रमाण पत्र प्राप्त करना होगा। बकाया राशि एक सप्ताह में जमा नहीं करने पर जमा प्रीमियम राशि जमा कर एल.ओ.आई. निरस्त कर दी जायेगी।
5. एल.ओ.आई. धारक द्वारा मादनिम प्लान के अनुसार ही खनन पट्टा क्षेत्र में खनिज बजरी का खनन किया जायेगा। अनियमितता होने की स्थिति में जमा प्रीमियम राशि जमा कर कार्यानुमति निरस्त कर दी जायेगी।
6. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में अधि अन्यत्र खनिज बजरी का स्टाक एवं भण्डारण नहीं किया जा सकेगा। यदि खनिज बजरी का अधि खनन / अधि निर्माण / अधि स्टाक / अधि भण्डारण किया जायेगा तो जमा प्रीमियम राशि जमा कर कार्यानुमति निरस्त कर दी जायेगी।
7. एल.ओ.आई. धारक को खनिज बजरी के खनन / निर्माण के संबंध में माननीय सर्वोच्च न्यायालय, उच्च न्यायालय, अन्य न्यायालय, भारत सरकार एवं राज्य सरकार के आदेशों / निर्देशों की पालना करनी होगी। साथ ही खनन कार्य, सुरक्षा, स्वास्थ्य, पर्यावरण एवं जन सुविधाओं के संबंध में वर्तमान में प्रभावी अधिनियम / नियमों तथा समय-समय पर होने वाले संशोधनों की पालना करनी होगी।
8. नैट-मुफकिन नदी / नालों के क्षेत्रों में जहां पर किसी भी विभाग द्वारा अन्य कार्य तथा पैदा काया या अन्य किसी प्रयोजनार्थ व्यक्त / संस्था को अनुमति दी गई है / आवंटित की हुई है तो ऐसे क्षेत्रों में एल.ओ.आई. धारक संबंधित व्यक्त / संस्था जिसके पास में अनुमति दी हुई है / आवंटित है की लिखित सहमति प्राप्त करने के उपरान्त ही खनिज बजरी का दोहन कर सकेगा। यदि खनन पट्टा क्षेत्रों में धारागाह

Sub: Grant of Consent to Establish under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- Ajmer (MLNo-MLNo.5/2013).

Ref: (i) Your application dated 01/04/2023
(ii) Received on 01/04/2023

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Establish** under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

- 1 That this consent is being granted in favour of M/s. M/S BHARAT SINGH SHEKHAWAT, a Mine of **Minor Mineral** having MLNo-MLNo.5/2013 in an area measuring 1025.7000 Hectares at/near Village-, Tehsil-Kekri, District-Ajmer.
- 2 That this consent is valid for a period from 19/04/2023 to 29/03/2024, or commencement of production whichever is earlier.
- 3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

- 4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.
- 5 That you shall not operate the mine without obtaining **Consent to Operate** from the Board.

File No F(Mines)/Barmer(Gudha Malani)/5330(1)/2022-2023/313-317

Order No 2023-2024/Mines/10823

Date: 19/04/2023

Unit Id : 124,033

- 6 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other mineral(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 7 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03/02/2022 are strictly complied with.
- 8 That this consent is valid for production of Bajri(ROM) @ 30 lakh Ton per Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 9 That plantation shall be developed so as to cover at least 33% of the total land use for mining and allied activities as given in Approved Mining Plan and shall be maintained at all the time to maintain ambient air quality around the mine.
- 10 That the lessee shall submit monitoring report of Ambient Air Quality within the lease area, once in 3 months.
- 11 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).
- 12 That haul roads should be regularly graded and compacted. Regular water sprinkling should be carried out on haul roads to minimize dust generations.
- 13 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution.
- 14 That you shall not establish/operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 15 That this consent to establish shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law /act/rule/ regulation or order of MOE&F and/or any Court / Tribunal time to time.
- 16 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.

Order No 2023-2024/Mines/10823

Date: 19/04/2023

Unit Id : 124,033

- 17 That the mine shall install adequately designed rain water harvesting structure for prevention and recharge of ground water in and around the lease area.
- 18 That the mine shall not allow making any obstacles to any natural water flow i.e., natural nallah/steam carrying rain water to any water body.
- 19 This the mine shall not allow unauthorized disposal of any solid waste on land inside or outside the premises.
- 20 That this consent to establish shall be subject to compliance of direction/order passed by Courts of Law in the matter,if any
- 21 That the lessee should dump the overburden in such a manner that it does not get washed away to nearby water tanks and lakes etc. during rainy season.
- 22 That the lease shall not intersect the ground water table without permission of CGWA.
- 23 This consent shall be subject to validity of mining lease.
- 24 That Permissible mining of river bed material (Sand/Bajri) shall be limited to 30 Lakh TPA[ROM] from an effective mineable area of 1025.7 Ha. with maximum mineable depth of 1 meter.
- 25 That all other general conditions enclosed as Annexure shall be strictly complied with.
- 26 That this Consent is subject to the conditions as stated above and general conditions as stated in Annexure. Further, the mining unit will comply with the provisions of the Air (Prevention & Control of Pollution) Act, 1981 and any such conditions as may be specified from time to time by the State Board under the provisions of the aforesaid Act.
- 27 That the grant of this Consent to Establish is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/ unit/ project proponent.
- 28 That the grant of this Consent to Establish shall not, in any way, adversely affect or jeopardize the legal proceedings, if any, instituted in the past or that could be instituted against you by the State Board for violation of the provisions of the Act or the Rules made thereunder.

Order No 2023-2024/Mines/10823

Date: 19/04/2023

Unit Id : 124,033

- 29 That the grant of this consent to establish/operate is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other legal instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/unit/project proponent.

This bears approval of the competent authority.

M/s M/S BHARAT SINGH SHEKHAWAT

Mohan Nagar, BJS Colony, Jodhpur (342006), Jodhpur

E-Mail : gudhamalanibajri@gmail.com

Sub: Grant of Consent to Operate under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- Ajmer (MLNo-MLNo.5/2013).

Ref: (i) Your application dated 01/04/2023
(ii) Received on 01/04/2023

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Operate** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

- 1 That this consent is being granted in favour of M/s. M/S BHARAT SINGH SHEKHAWAT, a Mine of **Minor Mineral** having MLNo-MLNo.5/2013 in an area measuring 1025.7000 Hectares at/near Village-,Tehsil-Kekri,District-Ajmer.
- 2 That this consent is valid for a period from 19/04/2023 to 29/03/2024
- 3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

- 4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.

Order No 2023-2024/Mines/10824

Date: 19/04/2023

Unit Id : 124,033

- 5 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other minerals(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 6 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03/02/2022 are strictly complied with
- 7 That this consent is valid for production of Bajri(ROM) @ 30 lakh Ton per Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate
- 8 That plantation shall be developed so as to cover at least 33% of the total land use for mining and allied activities as given in Approved Mining Plan and shall be maintained at all the time to maintain ambient air quality around the mine.
- 9 That the lessee shall submit monitoring report of Ambient Air Quality within the lease area, once in 3 months.
- 10 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).
- 11 That haul roads should be regularly graded and compacted. Regular water sprinkling should be carried out on haul roads to minimize dust generations.
- 12 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution
- 13 That you shall not establish/operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 14 That this consent to operate shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law /act/rule/ regulation or order of MOE&F and/or any Court / Tribunal time to time.
- 15 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.

Unit Id : 124.033

- 16 That the mine shall install adequately designed rain water harvesting structure for prevention and recharge of ground water in and around the lease area.
- 17 That the mine shall not allow making any obstacles to any natural water flow i.e., natural nallah/steam carrying rain water to any water body.
- 18 This the mine shall not allow unauthorized disposal of any solid waste on land inside or outside the premises.
- 19 That this consent to operate shall be subject to compliance of direction/order passed by Courts of Law in the matter,if any.
- 20 That the lessee should dump the overburden in such a manner that it does not get washed away to nearby water tanks and lakes etc. during rainy season.
- 21 That the lease shall not intersect the ground water table without permission of CGWA.
- 22 This consent shall be subject to validity of mining lease.
- 23 That Permissible mining of river bed material (Sand/Bajri) shall be limited to 30 Lakh TPA(ROM) from an effective mineable area of 1025.7 Ha. with maximum mineable depth of 1 meter.
- 24 That all other general conditions enclosed as Annexure shall be strictly complied with.
- 25 That this Consent is subject to the conditions as stated above and general conditions as stated in Annexure. Further, the mining unit will comply with the provisions of the Air (Prevention & Control of Pollution) Act, 1981 and any such conditions as may be specified from time to time by the State Board under the provisions of the aforesaid Act.
- 26 That the grant of this Consent to Operate is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/ unit/ project proponent.
- 27 That the grant of this Consent to Operate shall not, in any way, adversely affect or jeopardize the legal proceedings, if any, instituted in the past or that could be instituted against you by the State Board for violation of the provisions of the Act or the Rules made thereunder.

State Level Environment Impact Assessment Authority (SEIAA), Rajasthan
Room No. 11, Aravali Bhawan, Jaipur - 302004.

EIA-4 SEIAA/SEAC/Env No.8/Project Cor. 14/01/2023/2023-24 Input Dated: 12/10/2023

AMENDMENT IN EC

This has reference to your application dated 25.10.2023 seeking amendment in EC issued by MoEF&CC dated 03.02.2022 for the project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application.

The SEIAA Rajasthan considered the Project in 5.108th meeting held on 10.01.2024 and resolved to accept the recommendation of the SEAC and the following amendment is being made in the EC granted earlier vide MoEF&CC letter dated 03.02.2022 on the basis of Form-1, Form-4 and other requisite documents, subject to same terms & conditions:

S. No	Amendments now being made
1.	River Sand Mining Project for making validity of EC co-terminus with the lease period and increase in mineable depth of mining from 1 meter to 3 meter without any increase in total mining capacity and without any increase in mineable area having, ML No.05/2013, Mine Lease Area- 1025.70 Hectares, Production Capacity- 30.0 Lakh TPA (ROM), Khasra No.- Village - Revenue of Villages, Tehsil- Kekri, District- Ajmer, Rajasthan (Proposal no. 294006) with a validity of EC may be kept co-terminus with the lease period only.

Additional Condition:

- i) MoEF&CC in the earlier granted EC vide dated 03.02.2022.
- ii) Ministry's O.M. No. 22-34/2018-IA, III dated 08.01.2019 & 16.01.2020.
- iii) Conditions as per Sustainable Sand Mining Management Guidelines 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020, SOP issued by the Rajasthan State Government for prevention of illegal river sand mining in the state.
- iv) Further, the PP will have to ensure the compliances of all the directions issued by Hon'ble Courts with reference to River Sand Mining.
- v) The PP shall submit action taken report of Compliance Report to Integrated Regional Office and RSPCB, Jaipur, within 30 days.

C. Specific Condition:

1. The validity of EC may be kept co-terminus with the lease period.
2. Permissible Mining of Bed Material (Sand/Bajri) shall be limited to 30 Lakhs TPA (ROM) from an effective mineable area of 1025.70 Hectare.
3. The project proponent shall submit the monthly production details and the compliance of the plantation of the earlier EC to Regional Office of MoEF&CC and Mining Department, Govt of Rajasthan.
4. The project proponent shall take all measures for the surveillance as proposed by the project proponent. The status of implementation with documentary proof needs to be submitted to Regional Office of MoEF&CC.
5. The conservation plan in consultation with the Forest Department shall be implemented and compliance of the same shall be submitted to Regional Office of MoEF&CC.
6. The project proponent shall implement the mitigation measure to control the impact due to transportation viz. Kaccha road, transportation of sand from villages having

L

habitation should be avoided, regular water sprinkling (3 times a day) before transportation of mineral, plantation on the both side of this road should be completed within 1 year trucks shall not be overloaded, spillage of the mineral to be avoided, covered transportation. Implementation report with supporting documents & photographs before and after shall be submitted to the Regional Office of MoEF&CC.

7. The project proponent shall implement all mitigative measures envisaged in the Environmental Management Plan (EMP) and committed during the presentation and subsequent submissions. A separate Environment management cell (EMC) shall be created with suitable staff having relevant qualification in environment with supporting staff. Implementation report with supporting documents, test reports, geo- locations & photographs before and after and composition of EMC shall be submitted to the Regional Office of MoEF&CC.
8. The project proponent shall implement the occupational health plan and provide personal protective equipment to all the workers (helmets, dust masks, ear muffs), provision of safe drinking water to workers, shelters for rest etc. In addition to this Occupational health check-up of all workers working in mine, and pulmonary function test for workers working in dusty areas. Implementation report with supporting documents & photographs before and after shall be submitted to the Regional Office of MoEF&CC.
9. For subsequent period, PP shall submit fresh annual replenishment study to MoEF&CC for amendment in EC for mineable quantity and maximum permission depth for mining based on the scientific findings replenishment study. Such study shall be placed before EAC for appraisal for next three years to assess rate of deposition and accordingly, mineable production capacity a depth can be prescribed based on trends analysis, provided it is found scientifically satisfactory by EAC.

I. Statutory compliance:

- I. This Environmental Clearance (EC) is subject to orders/directions of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, as is applicable.
- II. The Project proponent complies with all the statutory requirements and judgments of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
- III. The Department of Mines & Geology, Government of Rajasthan (DMG, GoR) shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
- IV. In case the project falls within a distance of 10 Km from the boundary of a National Park/ Wildlife Sanctuary, wherein final ESZ Notification has not been issued so far, the EC shall come into effect only after the PP obtains clearance from the Standing Committee of National Board for Wildlife (SCNBWL) as per OM dated 08.08.2019 of MoEF&CC.
- V. This Environmental Clearance shall become operational only after receiving formal SCNBWL Clearance from Ministry of Environment, Forest & Climate Change, (MoEF&CC), Government of India (GoI) subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.
- VI. This Environmental Clearance shall become operational only after receiving Forest Clearance (FC) under the provision of Forest Conservation Act, 1980, if applicable

h

- to the Project.
- VII. Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The mining activity shall not commence prior to obtaining Consent to Establish/ Consent to Operate from the State Pollution Control Board.
- VIII. The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation) Act, 2015 and rules & regulations made there under. PP shall adhere to various circulars issued by Directorate General Mines Safety (DGMS) and Indian Bureau of Mines (IBM) from time to time.
- IX. The Project Proponent shall obtain consents from all the concerned land owners, before start of mining operations, as per the provisions of MMDR Act, 1957 and rules made thereunder in respect of lands which are not owned by it.
- X. The Project Proponent shall follow the mitigation measures provided in MoEF CC's Office Memorandum No. Z-11013-57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".
- XI. The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.
- XII. A copy of EC letter will be marked to concerned Panchayat/ local NGO etc. if any, from whom suggestion/ representation has been received while processing the proposal.
- XIII. State Pollution Control Board shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
- XIV. The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board and website of the Department of Environment, Govt. of Rajasthan, RSPCB for compliance and record.
- XV. The Project Proponent shall inform the MoEF& CC/ SEIAA for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred then mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.
- XVI. The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed/ registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the entire cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.
- XVII. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to the mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
- XVIII. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the

- time-being in force, rests with the project proponent.
- XX. No further expansion or modifications in the project shall be carried out without prior approval of the SEIAA/MoEF& CC as the case may be. In case of deviations or alterations in the project proposal from those submitted to this Authority for clearance, a fresh reference shall be made to the Authority to assess the adequacy of conditions imposed and to include additional environmental protection measures required, if any.
- XXI. The EC is liable to be rejected/revoked, in case it is found that the PP has deliberately concealed and/or furnished false and misleading information or data which is material to screening or scoping or appraisal or decision on the application for EC.
- XXII. Officials from the Department of Environment, Government of Rajasthan, Jaipur/ Regional Office of MoEF& CC, Lucknow, RSPCB who would be monitoring the implementation of Environmental safeguards should be extended full cooperation, facilities and documents/data by the project proponents during their inspections. A complete set of all the documents submitted to SEIAA should be forwarded to the CCF, Regional Office of MoEF, Lucknow, Department of Environment, Government of Rajasthan, Jaipur / RSPCB.
- XXIII. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provision of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- XXIV. The above condition shall be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, along with their amendments and rules.
- XXV. The PP shall obtain prior clearance from forestry and wildlife aspects including clearance from Standing Committee of National Board of Wild Life (if applicable). It is further categorically stated that grant of EC does not necessary imply that Forestry and Wildlife clearance shall be granted to the project by the concerned authorities. Proposals for forestry and wildlife clearance will be considered by the concerned authorities on its merits and decision taken accordingly. The investment made in the project, if any based on EC so granted, in anticipation of clearance from Forestry and Wildlife aspects shall be entirely at the cost and risk of the PP and MOEF & CC/SEIAA/ SEAC/ DOF shall not be responsible in this regard in any manner.
- XXVI. The SEIAA, Rajasthan may revoke or suspend the Environmental Clearance, if implementation of any of the above conditions is not satisfactory.
- XXVII. The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company/ unit/ industry along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA/ RSPCB by e-mail as well as hard copy duly signed by competent person of company.
- XXVIII. This EC is granted for mining of the mineral with production mentioned in the above table subject to the stipulation that the PP shall abide by the annual/ permitted production schedule specified in the mining plan and that any deviation therein will render the PP liable for legal action in accordance with Environment and Mining Laws.

- XXVII. The PP shall spend the various amounts in the respective heads as mentioned in Annexure G.
- XXIX. Drills shall either be operated with dust extractors or equipped with water injections system.
- XXX. Data on ambient air quality and stack emissions should be submitted to Rajasthan State Pollution Control Board once in six months. The monitoring, sampling and analysis are to be carried out by MOEF/ NABL/ CPCB/ RSPCB/ Government approved Lab.
- XXXI. Blasting operations, if permitted, should be carried out only during the daytime with safe blasting parameters.
- XXXII. The PP shall carry out mining activities with open cast method. The PP to undertake underground mining only if permitted specifically.
- XXXIII. In the project related to Bajri mining the PP shall follow the 'Sustainable Sand Mining Guidelines 2016' and 'Enforcement and Monitoring Guidelines for Sand Mining, 2020' laid down by the MoEF & CC, GOI. The Bajri sand mining activity is restricted to three meters from ground level or water level whichever is less and the PP shall carry out river sand (Bajri) mining activity only manually or semi mechanized method as provided under the 'Sustainable Sand Mining Management Guidelines, 2016' and 'Enforcement and Monitoring Guidelines for Sand Mining, 2020'.
- XXXIV. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.
- 2. Air quality monitoring and preservation:**
- i. The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20-90/PCIL dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.
 - ii. Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEF & CC/ Central Pollution Control Board.
- 3. Water quality monitoring and preservation:**
- i. In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEF & CC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
 - ii. Regular monitoring of the flow rate of the springs and perennial nullahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies

and/or streams which are flowing in and around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring of water table in open dug well located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.

- iii. Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
- iv. The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-a-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEF& CC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
- v. Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Dissolved Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No.1-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.
- vi. Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEF& CC annually.
- vii. Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
- viii. The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF& CC and State Pollution Control Board.

4. Noise and vibration monitoring and prevention:

R

- i. The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
- ii. The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
- iii. The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs/ muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.
- iv. The ambient noise level should conform to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.

5. Mining plan:

- i. The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and top soil etc. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O.B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/ SEIAA, which entail adverse environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form of Short Term Permit (STP), Query license or any other name.
- ii. The Project Proponent shall get the Final Mine Closure Plan along with Financial Assurance approved from Indian Bureau of Mines/Department of Mining & Geology as required under the Provision of the MMDR Act, 1957 and Rules/ Guidelines made there under. A copy of approved final mine closure plan shall be submitted within 2 months of the approval of the same from the competent authority to the concerned Regional Office, MoEF& CC/ SEIAA/ SPCB for record and verification.
- iii. The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-a-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEF& CC/ SEIAA/ SPCB and its concerned Regional Office.

6. Land reclamation:

- i. The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by D.G.M.S w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclamation and plantation.
- ii. The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS w.r.t. safety in mining operations shall be strictly

L

adhered to maintain the stability of waste dumps.

- iv. The reclamation of waste dump sites shall be done in scientific manner as per the Approved Mining Plan cum Progressive Mine Closure Plan.
- v. The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer, compactors thereby ensuring proper filling/leveling of dump mass. In critical areas, use of geo textiles, geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.
- vi. The Project Proponent shall carry out slope stability study in case the dump height is more than 30 meters. The slope stability report shall be submitted to concerned regional office of MoEF & CC / RSPCB.
- vii. Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.
- viii. Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge to the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
- ix. The top soil, if any, shall temporarily be stored at earmarked site(s) within the mine lease only and should not be kept unutilized for long. The physical parameters of the top soil dumps like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines framed by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of dumps. The topsoil shall be used for land reclamation and plantation purpose.

7. Transportation:

- i. No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.
- ii. The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be

h

installed at Crushers, belt-conveyers and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.

8. Green Belt:

- i. The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green-belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry/ SEIAA irrespective of the stipulation made in approved mine plan.
- ii. The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
- iii. The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
- iv. The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.
- v. And implemented in consultation with the State Forest and Wildlife Department. A copy of Wildlife Conservation Plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry/ SEIAA.

9. Public hearing and human health issues:

- i. The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines. The records shall be maintained properly. PP shall also carryout Occupational health check-ups in respect of workers which are having ailments like nr, diabetes, habitual smoking, etc. The check-ups shall be undertaken once in six months and necessary remedial/ preventive measures be taken. A status report on the same may be sent to MoEF& CC/ SEIAA/ Regional Office and DGMS on half-yearly basis.
- ii. The Project Proponent must demonstrate commitment to work towards 'Zero Harm' from their mining activities and carry out Health Risk Assessment (HRA) for identification workplace hazards and assess their potential risks to health and determine appropriate control measures to protect the health and wellbeing of workers and nearby community. The proponent shall maintain accurate and systematic records of the HRA. The HRA for neighborhood has to focus on Public Health Problems like Malaria, Tuberculosis, HIV, Anaemia, Diarrhoea in children under five, respiratory infections due to bio mass cooking. The proponent shall also create awareness and educate the nearby community and workers for Sanitation, Personal Hygiene, Hand washing, not to defecate in open, Women Health and Hygiene (Providing Sanitary Napkins), hazard of tobacco and alcohol

L

- ure. The Proponent shall carryout base line HRA for all the category of workers and thereafter every five years,
- iii. The Proponent shall carry out Occupational health surveillance which be a part of HRA and include Biological Monitoring where practical and feasible, and the tests and investigations relevant to the exposure (e.g. for Dust a X-Ray chest; For Noise Audiometric; for Lead Exposure Blood Lead, For Welders Full Ophthalmologic Assessment; for Manganese Miners a complete Neurological Assessment by a Certified Neurologist, and Manganese (Mn) Estimation in Blood; For Inorganic Chromium-Fortnightly skin inspection of hands and forearms by a responsible person. Except routine tests all tests would be carried out in a Lab accredited by NABH. Records of Health Surveillance must be kept for 30 years, including the results of and the records of Physical examination and tests. The record of exposure due to materials like Asbestos, Hard Rock Mining, Silica, Gold, Kaolin, Aluminum, Iron, Manganese, Chromium, Lead, Uranium; need to be handed over to the Mining Department of the State in case the life of the mine is less than 30 years. It would be obligatory for the State Mines Departments to make arrangements for the safe and secure storage of the records including X-Ray. Only conventional X-Ray will be accepted for record purposes and not the digital one). X-Ray must meet ILO criteria (17 x14 inches and of good quality).
 - iv. The Proponent shall maintained a record of performance indicators for workers which includes (a) there should not be a significant decline in their Body Mass Index and it should stay between 18.5 -24.9, (b) the Final Chest X-Ray compared with the base line X-Ray should not show any capacities ,(c) At the end of their leaving job there should be no Diminution in their Lung Functions Forced Expiratory Volume in one second (FEV1),Forced Vital Capacity (FVC), and the ratio) unless they are smokers which has to be adjusted, and the effect of age, (d) their hearing should not be affected. As a proof an Audiogram (first and last need to be presented), (e) they should not have developed any Persistent Back Pain, Neck Pain, and the movement of their Hip, Knee and other joints should have normal range of movement. (f) they should not have suffered loss of any body part. The record of the same should be submitted to the Regional Office, MoEF& CC/ SEIAA annually along with details of the relief and compensation paid to workers having above indications.
 - v. The Project Proponent shall ensure that Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
 - vi. Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
 - vii. The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.
- 10. Miscellaneous:**
- i. The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF& CC/ SEIAA/SPCB.
 - ii. The Project Authorities should inform to the SEIAA/Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.

- iii. The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
- iv. A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEF& CC/ SEIAA/ SPCB.
- v. The MoEF& CC/ SEIAA/ SPCB shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF& CC/ SEIAA/ SPCB officer(s) by furnishing the requisite data / information / monitoring reports.
- vi. Project Proponent shall keep the funds earmarked for environmental protection measures in a separate account and refrain from diverting the same for other purposes. The Year wise expenditure of such funds should be reported to the MoEF& CC/ SEIAA/ SPCB and its concerned Regional Office.

Additional conditions recommended in view of OM dated 08.08.2019 of the MoEF& CC (applicable where the project falls within a distance of 10 Km from the boundary of National Park/ Wildlife Sanctuary and outside notified ESZ):

1. The mining activity should be carried out in a manner so that the water regime/system of the sanctuary is not disturbed. The mining activity should not adversely affect any existing water course, water body, catchment etc. The PP shall while carrying out mining activity ensure compliance of the provisions of Air (Prevention and Control of Pollution) Act 1981, Water (Prevention and Control of Pollution) Act 1974 and the Environment (Protection) Act, 1986 so that the wildlife in the area is not adversely affected.
2. The processes like blasting, drilling, excavation, transport and haulage resulting into noise, should be carried out in such a manner so that such activities do not disturb wild animals and birds particularly during sunset to sunrise. The level of noise should be kept within the permissible limits.
3. The mining activity should not create any obstacle in the way of free movement of wildlife and adversely affect wildlife corridors.
4. The mineral waste/ slurry should be dumped only at the designated places only and such waste dumps should be reclaimed in accordance with the conditions of the mining plan/ consent issued by the RSPCB under the Water and Air act.
5. The PP shall cooperate with the concerned DCF, Wildlife in their efforts towards protection and conservation of wildlife in the Sanctuary/ Park.
6. The PP shall ensure that the transporter and labor employed by him should not damage flora and fauna in the ESZ and the Wildlife Sanctuary/ National Park.

Specific Conditions applicable, in the cases of violation in terms of the Notification dated 14.3.2017 and 8.3.2018 and OMs dated 30.5.2018, 4.7.2018 of the MoEF&CC :

1. The PP shall give an undertaking by way of affidavit to comply with all the statutory requirements and judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V/s Union of India & others before grant of ToR/EC. The undertaking inter-alia include commitment of the PP not to be repeat any such violation in future.
2. In case of violation of above undertaking/ affidavit, the ToR/EC shall be liable to be

R

terminated forthwith.

3. The environmental clearance will not be operational, till such time the Project Proponent complies with all the statutory requirements and judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V/s Union of India & others.
4. The department of Mines & Geology shall ensure that the mining operations shall not commence till the entire compensation levied, if any, for illegal mining, is paid, by the Project Proponent through the Department of Mines and Geology, in strict compliance of the judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V/s Union of India & others.

GENERAL CONDITIONS

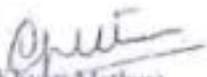

1. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project **Proponent** from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry / unit / project **Proponent**. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.
2. No further expansion or modifications in the project shall be carried out without prior approval of the SEIAA/Ministry of Environment and Forests as the case may be. In case of deviations or alterations in the project proposal from those submitted to this Authority for clearance, a fresh reference shall be made to the Authority to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
3. The implementation of the project vis-à-vis environmental action plans shall be monitored by MoEF Regional Office at Lucknow / RSPCB / CPCB / SEIAA, Department of Environment, Government of Rajasthan, Jaipur and this office. A six monthly compliance status report shall be submitted to monitoring agencies.
4. The EC is liable to be rejected, in case it is found that the PP has deliberately concealed and furnished false and misleading information or data which is material to screening or scoping or appraisal or decision on the application for EC.
5. The project authorities shall inform the MoEF Regional Office at Lucknow / RSPCB / CPCB / SEIAA, Department of Environment, Government of Rajasthan, Jaipur and the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
6. Officials from the Department of Environment, Government of Rajasthan, Jaipur/ Regional Office of MoEF, Lucknow, RSPCB who would be monitoring the implementation of Environmental safeguards should be given full cooperation, facilities and documents/data by the project **Proponents** during their inspection. A complete set of all the documents submitted to SEIAA should be forwarded to the CCF, Regional Office of MoEF, Lucknow / SEIAA, Department of Environment, Government of Rajasthan, Jaipur / RSPCB.
7. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provision of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory

R

manuscript.

8. The project Proponent should advertise in at least two local Newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental Clearance and copies of clearance letters are available with the Rajasthan State Pollution Control Board and may also be seen on the website of the RSPCB. The advertisement should be made within 7 days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office of MoEF at Lucknow/Department of Ecology and Environment, Government of Rajasthan, Jaipur.
9. The above condition shall be enforced among others under the provisions of water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, along with their amendments and rules.
10. The PP shall obtain prior clearance from forestry and wild Life angle including clearance from standing committee of National Board of Wild Life (if applicable). It is further categorically stated that grant of EC does not necessary imply that Forestry and Wild Life clearance shall be granted to the project and that proposals for forestry and wild Life clearance will be considered by the respective authorities on their merits and decision taken. The investment made in the project, if any based on EC so granted, in anticipation of clearance from Forestry and Wild Life angle shall be entirely at the cost risk of the PP and MOEF/SEIAA shall not be responsible in this regard in any manner.
11. The SEIAA, Rajasthan may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
12. Main haulage road should be provided with permanent water sprinklers and other roads should be regularly wetted with water tankers fitted with sprinklers. The material transfer points should invariably be provided with Bag filters and or dry fogging system. In case of Belt- conveyors facilities the system should be fully covered to avoid air borne dust; Use of effective sprinkler system to suppress fugitive dust on haul roads and other transport roads shall be ensured.
13. Periodic monitoring of ambient air quality shall be carried out for PM10, PM2.5, SPM, SO2 and NOx monitoring. Location of the stations (minimum 6) shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring shall be decided in consultation with the Rajasthan State pollution Control Board (RPCB). Six monthly reports of the data so collected shall be regularly submitted to the RPCB/CPCB including the MoEF, Regional office, Lucknow.
14. Personnel working in dusty areas shall wear protective respiratory devices they shall also be provided with adequate training and information on safety and health aspects.
15. The ambient noise level should conform to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.
16. The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA by e-mail as well as hard copy duly signed by competent person of company.

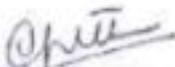

17. The Mining Department will ensure that while executing the mining Lease Let, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.
18. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.
19. This EC is being issued on the condition that the applied area is at a distance of more than 50 metres from the boundary of the closest forest area as stated by project proponent in Form I.

 (Khyati Mathur)
 Member Secretary,
 SEIAA, Rajasthan.

No. F1 (4) SEIAA SEAC-Raj. Sectt/Project Cat. I(a)B1(23867)2023-24 Jaipur, Dated:

Copy to following for information and necessary action:

1. Secretary, Ministry of Environment, Forest & Climate Change, Govt. of India, Indira Paryavaran Bhawan, Jor Bagh Road, Aliganj, New Delhi-110003.
2. ACS, Environment & Climate Change Department, Rajasthan, Jaipur.
3. Chairman, SEIAA, Aravali Bhawan, Jhalana Dongri, Jaipur, Rajasthan.
4. Member, SEIAA, Aravali Bhawan, Jhalana Dongri, Jaipur, Rajasthan.
5. Member Secretary, Rajasthan State Pollution Control Board, Jaipur for information & necessary action and to display this sanction on the website of the Rajasthan Pollution Control Board, Jaipur.
6. Member Secretary, SEAC Rajasthan.
7. The CCF, Regional Office, Ministry of Environment & Forests, RIOCZ, Kendriya Bhawan, 5th Floor, Sector 'H', Aliganj, Lucknow-226 020.
8. Mr Bharat Singh Shekawat, Address-336, Mohan Nagar-B, B.J.S Colony, Jodhpur, Rajasthan.
9. I.A., SEIAA, Jaipur with the direction to upload the copy of this Amendment in EC letter on the website.

 Member Secretary,
 SEIAA, Rajasthan.

Date: 07/02/2024

Unit Id : 124,033

M/s M/S BHARAT SINGH SHEKHAWAT

Mohan Nagar, BJS Colony, Jodhpur (342006), Jodhpur

E-Mail : gudhamalanibajri@gmail.com

Sub: Grant of Consent to Establish under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- **Kekri (M.L.No-MLNo.5/2013)**.

Ref: (i) Your application dated 25/01/2024
(ii) Received on 25/01/2024
(iii) Received at Head office on 17/01/2024

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Establish** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

- 1 That this consent is being granted in favour of **M/s. M/S BHARAT SINGH SHEKHAWAT**, a Mine of **Minor Mineral** having **M.L.No-MLNo.5/2013** in an area measuring **1025.7000 Hectares** at/near Village- ,Tehsil-Kekri,District-Kekri.
- 2 That this consent is valid for a period from **07/02/2024** to **25/05/2027**, or commencement of production whichever is earlier.
- 3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

- 4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.
- 5 That you shall not operate the mine without obtaining **Consent to Operate** from the Board.

Head Office (Mines)

Rajasthan State Pollution Control Board

4, Institutional Area, Jhalana Doongari, Jaipur-302 004

File No F(Mines)/Ajmer(Kekri)/6946(1)/2023-2024/6940-6944

Order No 2023-2024/Mines/11072

Date: 07/02/2024

Unit Id : 124,033

- 6 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other minerals(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 7 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03.02.2022 and SEIAA vide letter dated 12.01.2024 are strictly complied with.
- 8 That the rules of sand mining in river of GOI may be strictly followed.
- 9 That this consent is valid for production of Bajri (ROM) @ 3000000 Ton/Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 10 That the CTE shall be valid from the end of monsoon since riverbed mining is completely banned during monsoon months.
- 11 That the occupier/operator of the unit shall give more focus on plantation to cover 1/3 lease area under plantation. The species like Tamarind/Imli(Tamarindus Indica), Palas(Butea Monosperma), Ber(Zizipus Mauritiana), Bael(Aegle Marmelos), Mousari(Mimusops Elengi), Siris(Albizia Lebbeck), Kacchnar(Bauhinia Variegata) should be planted for better control of noise and air pollution. Copy of bills of saplings purchased should be submitted to Board's Regional Office, Kishangarh.
- 12 That all the PCM needed to mitigate the fugitive emission shall be strictly followed. It includes water sprinkling etc. The Trucks or other transportation medium involved shall be covered with tarpaulin.
- 13 That in order to reduce the air pollution due to the excavation and follow-up operation, greenbelt of necessary width at least one row at both sides shall be developed by the P.P. Since creating in such situation may be impracticable by the unit itself because of technical reason, unit shall involve Forest Department to raise the plantation. The unit may deposit the amount as per the estimate prepared by the local Forest Department and accordingly this process can be achieved.
- 14 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).

Date: 07/02/2024

Unit Id : 124,033

- 15 That internal transport roads (Haul roads) should be Paved/Hard Surfaced using bitumen etc and compliance shall be submitted with photographic evidence by 3 months.
- 16 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution.
- 17 That you shall not operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 18 That this consent to establish shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law/act/rule/ regulation or order of MoEF&CC and/or any Court/Tribunal time to time.
- 19 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.
- 20 That the mine shall install adequately designed rain water harvesting structure for prevention and recharge of ground water in and around the lease area.
- 21 That the mine shall not allow making any obstacles to any natural water flow i.e., natural nallah/stream carrying rain water to any water body.
- 22 That the mine shall not allow unauthorized disposal of any solid waste on land inside or outside the premises.
- 23 That this consent to operate shall be subject to compliance of direction/order passed by Courts of Law in the matter,if any.
- 24 That the lessee should dump the overburden in such a manner that it does not get washed away to nearby water tanks and lakes etc. during rainy season.
- 25 That the lease shall not intersect the ground water table without permission of CGWA
- 26 That Permissible mining of river bed material (Sand/Bajri) shall be limited to Bajri @ 3000000 TPA (ROM) from an effective mineable area of 1025.7 Ha. with maximum mineable depth of 3 meter.

Order No 2023-2024/Mines/11072

Date: 07/02/2024

Unit Id : 124,033

- 27 That all other general conditions enclosed as **Annexure** shall be strictly complied with.
- 28 That this Consent is subject to the conditions as stated above and general conditions as stated in **Annexure**. Further, the mining unit will comply with the provisions of the Air (Prevention & Control of Pollution) Act, 1981 and any such conditions as may be specified from time to time by the State Board under the provisions of the aforesaid Act.
- 29 That the grant of this **Consent to Establish** is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/ unit/ project proponent.
- 30 That the grant of this **Consent to Establish** shall not, in any way, adversely affect or jeopardize the legal proceedings, if any, instituted in the past or that could be instituted against you by the State Board for violation of the provisions of the Act or the Rules made thereunder.
- 31 That the grant of this consent to establish/operate is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other legal instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/unit/project proponent.

This bears approval of the competent authority.

M/s M/S BHARAT SINGH SHEKHAWAT

Mohan Nagar, BJS Colony, Jodhpur (342006), Jodhpur

E-Mail : gudhamalanibajri@gmail.com

Sub: Grant of Consent to Operate under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- Kekri (M.L.No-ML.No.5/2013).

Ref: (i) Your application dated 25/01/2024
(ii) Received on 25/01/2024
(iii) Received at Head office on 17/01/2024

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Operate** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

- 1 That this consent is being granted in favour of **M/s. M/S BHARAT SINGH SHEKHAWAT**, a Mine of **Minor Mineral** having **M.L.No-MLNo.5/2013** in an area measuring **1025.7000 Hectares** at/near Village- ,Tehsil-Kekri,District-Kekri.
- 2 That this consent is valid for a period from **07/02/2024** to **25/05/2027**
- 3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

- 4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.

Head Office (Mines)

Order No 2023-2024/Mines/11073

Date: 07/02/2024

Unit Id : 124,033

- 5 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other minerals(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 6 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03.02.2022 and SEIAA vide letter dated 12.01.2024 are strictly complied with.
- 7 That the rules of sand mining in river of GOI may be strictly followed.
- 8 That this consent is valid for production of Bajri (ROM) @ 3000000 Ton/Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 9 That the consent to operate granted by State Board under Air Act, 1981 vide letter no. F (Mines)/ Ajmer (Kekri)/ 6946(1)/2023-2024/318-322 dated 19.04.2023 shall be treated as null and void after this consent.
- 10 That the CTO shall be valid from the end of monsoon since riverbed mining is completely banned during monsoon months
- 11 That the occupier/operator of the unit shall give more focus on plantation to cover 1/3 lease area under plantation. The species like Tamarind/Imli(Tamarindus Indica), Palas(Butea Monosperma) , Ber(Zizipus Mauritiana), Bael(Aegle Marmelos), Mousari(Mimusops Elengi), Siris(Albizia Lebbeck), Kacchnar(Bauhinia Variegata) should be planted for better control of noise and air pollution. Copy of bills of saplings purchased should be submitted to Board's Regional Office, Kishangarh.
- 12 That all the PCM needed to mitigate the fugitive emission shall be strictly followed. It includes water sprinkling etc. The Trucks or other transportation medium involved shall be covered with tarpaulin.

NOTIFICATION

Jaipur, February 28, 2017

G.S.R. 118:- In exercise of the powers conferred by section 15 of the Mines and Minerals (Development and Regulation) Act, 1957 (Central Act No. 67 of 1957), the State Government hereby makes the following rules for regulating the grant of quarry licence, mining lease and other mineral concessions in respect of minor minerals and for the purposes connected therewith, namely:-

CHAPTER I

PRELIMINARY

1. Short title, extent and commencement.- (1) These rules may be called The Rajasthan Minor Mineral Concession Rules, 2017.

(2) They shall extend to the whole of the State of Rajasthan.

(3) They shall come into force on the date of their publication in the Official Gazette.

2. Definitions.- (1) In these rules, unless the context otherwise requires,-

- (i) "Act" means the Mines and Minerals (Development and Regulation) Act, 1957 (Central Act No. 67 of 1957);
- (ii) "Appellate Authority" means the Government or any other authority vested with such powers under these rules or any other authority authorised by the Government to perform the functions of the appellate authority;
- (iii) "Assessee" means a person holding any mineral concession or a permit and includes any other person who is possessing, trading, processing or using minor mineral;
- (iv) "Assessing Authority" means Director, Additional Director Mines, Additional Director Mines (Vigilance), Superintending Mining Engineer, Superintending

191(42) राजस्थान राज-पत्र, मार्च 1, 2017 भाग4(ग)

(9) Transfer of lease or licence shall be permitted subject to payment of one time premium at the time of transfer and shall not be adjusted against dead rent, annual licence fees or royalty, as the case may be, as mentioned below:-

S. No.	Residual period of lease or licence	Premium
1	2	3
1.	Upto five years	Two times of annual dead rent or annual licence fee
2.	More than five years and upto ten years	Four times of annual dead rent or annual licence fee
3.	More than ten years and upto fifteen years	Six times of annual dead rent or annual licence fee
4.	More than fifteen years and upto twenty years	Eight times of annual dead rent or annual licence fee
5.	More than twenty years	Ten times of annual dead rent or annual licence fee

Provided that amount of premium shall not be more than ten lacs.

Provided further that lessee or licensee who obtained lease or licence through tender or auction shall not be required to pay additional premium amount over and above the existing premium amount.

(10) Mining lease or quarry licence granted before the commencement of these rules to a person under any category by way of lottery shall not be transferred to any other category.

(11) Lock-in period for transfer of mineral concession granted other than through auction shall be one year and subsequent transfer shall be allowed subject to condition that at least one year has elapsed since last transfer.

Provided that above lock-in period shall not be applicable in cases specified in clause (i) to (v) of sub-rule (7).

(12) Mining lease of bajri (river sand) shall not be transferred.

CHAPTER IV

TERMS AND CONDITIONS OF MINERAL CONCESSION

28. Terms and Conditions of mining lease or quarry licence:-

(1) Every mining lease or quarry licence shall be subject to the following conditions:-

- (i) No person shall undertake any mining operations of any minor mineral in any area within the state except under and in accordance with these rules;
- (ii) (a) The lessee or licensee shall pay contribution to the District Mineral Foundation Trust fund as

- per rates specified in the District Mineral Foundation Trust Rules, 2016, as amended from time to time;
- (b) The lessee or licensee of lease or licence granted after commencement of these rules, shall also pay premium amount as specified in rule 4, 5, 6 and 13; and
- (c) The lessee or licensee shall also pay surface rent of government land to the Revenue Department for surface area used by him for the purpose of mining, as per the rates prevalent in the area;
- (iii) The lessee or licensee shall pay all dues in the office of such officer, in such manner, at such place and time as may be specified by the Government;
- (iv) The lessee or licensee shall at his own expense erect and at all-time maintain and keep in repair boundary pillars and marks according to the plan and demarcation report in following manner:-
- (a) each corner of the lease or licence area shall have a boundary pillar (corner pillar);
- (b) there shall be erected intermediate boundary pillars between the corner pillars in such a way that each pillar is visible from the adjacent pillar located on either side of it;
- (c) the pillars shall be of square pyramid frustum shaped above the surface and cuboid shaped below the surface;
- (d) each pillar shall be of reinforced cement concrete;
- (e) the corner pillars shall have a base of 0.30m X 0.30m and height of 1.30m of which 0.70m shall be above ground level and 0.60m below the ground;
- (f) the intermediate pillars shall have a base of 0.25m X 0.25m and height of 1.0m of which 0.70m shall be above ground level and 0.30m below the ground;
- (g) all the pillars shall be painted in yellow colour and the top ten centimeters in red colour by enamel paint and shall be grouted with cement concrete;
- (h) on all corner pillars, distance and bearing to the forward and backward pillars and latitude and longitude shall be marked;

191(44)

राजस्थान राज-पत्र, मार्च 1, 2017

भाग 4(ग)

- (i) each pillar shall have serial number in a clockwise direction and the number shall be engraved on the pillars;
- (j) the serial number of pillar shall be the number of the individual pillar as per the lease or licence;
- (k) the location and number of the pillars shall also be shown in the surface plan and other plans maintained by the lessee or licensee; and
- (l) in case of forest area within the lease or licence, the size and construction and colour of the boundary pillars shall be as per the norms specified by the Forest Department in this behalf;
- (v) The lessee or licensee shall not erect, set-up or place any building or thing and shall not carry on surface operations in or upon any public pleasure ground, burning or burial ground or place held sacred by any class of persons or any house or village site, public road or other place which the Government may determine as public ground or in such a manner as to injure or prejudicially affect any building, works, property or rights of other persons;
- (vi) The lessee or licensee shall not carry on his operations in a manner that would injure or prejudicially effect any buildings, works, property or rights of other persons and no land will be used by the lessee or licensee for surface operations which is already occupied by persons other than the Government for works or purposes not included in the mining lease;
- (vii) The lessee or licensee shall give notice of commencement of any mining operations to the authorities as per section 16 of the Mines Act, 1952 and also to the Mining Engineer or Assistant Mining Engineer concerned at least one month before the commencement of any mining operation;
- (viii) The lessee or lessees shall commence mining operations within six months from the date of commencement of the lease or licence and thereafter carry on such operations effectively in a proper skillful and workman like manner both as regards prevention of waste by removal of sufficient overburden, careful storage of waste and drainage and as regards removal of all valuable minerals within the mine. The lessee or licensee shall work in workman like manner for systematic, scientific and environment friendly mining so as to

191(108) राजस्थान राज-पत्र, मार्च 1, 2017 भाग4(ग)

(2) In the case of an applicant in respect of whom an order of grant or extension of period of mineral concession or order of grant of contract, but who dies before the execution of deed or issuance of quarry licence, the order shall be deemed to have been issued in the name of the legal heirs of the deceased.

89. Status of pending applications.- Notwithstanding anything contained in these rules, all the pending applications except saved under rule 4 and rule 5, on the date of notification of these rules shall be deemed to have been rejected:

Provided that on and after the commencement of these rules, all applications including those rejected under the Rajasthan Minor Mineral Concession Rules, 1986 or rejected under notification dated 3rd April 2013 or subsequently restored shall be deemed to have been rejected and such applicant shall have no locus standi under these rules.

90. Stoppage of mining operations.- The Director, Additional Director Mines, Superintending Mining Engineer, Mining Engineer, Assistant Mining Engineer may prohibit mining operations and seize mineral, equipment, tool and vehicle in case the mining operations are not being carried out in accordance with the terms and conditions of the mineral concession or permit granted under these rules:

Provided that Mining Engineer or Assistant Mining Engineer shall not prohibit mining operations in any mineral concession area without approval of Superintending Mining Engineer concerned, but in case of immediate danger to mine workers or any human life, Mining Engineer or Assistant Mining Engineer may prohibit the mining operations immediately under intimation to Superintending Mining Engineer and Director, Mines Safety, wherever applicable, within twenty four hours. On receipt of such communication, the Superintending Mining Engineer concerned, shall visit the site personally and shall approve or disapprove the stoppage of mining operations with the reasons to be recorded in writing within fifteen days. Further action shall be taken as per rule 28. Such seized mineral or equipment shall only be released and mining operations shall be resumed with prior written approval of Superintending Mining Engineer concerned after rectification of breaches.

91. Survey and demarcation.- (1) The arrangements shall be made by the Mining Engineer or Assistant Mining Engineer concerned at the expenses of the lessee or licensee for survey and demarcation of the area granted under lease or licence and the survey of the area may be conducted using Global Positioning System or Differential Global Positioning System.

(2) Fee for demarcation shall be rupees one thousand and five hundred per hectare or part thereof subject to maximum of rupees fifty thousand:

Provided that demarcation fee for re-verification of boundary pillars shall be two times of the amount mentioned above.

INTRODUCTION

The district is situated between 25° 38' & 26° 58' North latitude and 73° 54' & 75° 22' East longitude covering geographical area of 8,481 sq km. Name of Ajmer is derived from Ajmer (the invincible hill). Ajmer is one of the Divisions which is further sub-divided into 4 sub-divisions namely Ajmer, Beawar, Kekri & Kishangarh and comprises of 6 tehsils & 8 blocks. Total number of villages in the district is 1022 (2001 census). Rural & Urban population of the district is 13,06,398 & 8,74,128 respectively. Decennial population growth rate of the district is 26.09% since 1991. The district is known for Khwaja Moinuddin Chisti's Dargah and religious Pushkar town, where temple of Lord Bhrama, is situated.

Systematic Hydro geological survey in the district was carried out by Central Ground Water Board from 1970 to 1980. Reappraisal hydrogeological survey of entire district was carried out during 2004-05. Under exploratory programme 45 exploratory boreholes, 2 observation boreholes and 1 slim hole have been drilled. Since 1969, monitoring of water level is being carried out four times a year from 38 National Hydrograph Network Stations.

RAINFALL & CLIMATE

Mean annual rainfall (1987-2006) of the district is 453.2 mm whereas normal rainfall (1901-70) is lower than average rainfall and placed at 433.8. Almost 95% of the total annual rainfall is received during the southwest monsoon, which enters the district in the last week of June and withdraws in the middle of September. Probability of average annual rainfall exceeding 300 mm is only 90%, except at Mangliawas. However, there is 10% probability that the average rainfall exceed 600 mm. Drought analysis based on agriculture criteria indicates that the district is prone to mild and normal type of droughts. Severe and very severe type of drought is very rare and occurred only twice during 1987 & 2002 (Srinagar); 1977 & 1987 (Todgarh); & 1991 & 1993 (Vijaynagar).

January is the coldest month with mean maximum and minimum temperatures being lowest at 22.70 C & 7.60 C. Temperature in summer month, June, reaches up to 39.50 C. There is drop in temperature due to onset of monsoon and rises again in the month of September.

Atmosphere is generally dry except during the monsoon period. The humidity is highest in August with mean daily relative humidity 80%. The annual potential evapotranspiration in the district is 1565.6 mm and is the highest in the month of May (243 mm).

PROCESS OF DEPOSITION OF SEDIMENTS IN THE RIVER OF THE DISTRICT:

River or Stream and other Sand Source_ Sand has become very important mineral due to its many uses. The role of sand is vital with regards to the protection of the

costal environment. As it acts as a buffer against strong tidal waves and storm surges by reducing their impact as they reach the shore line. Sand is formed due to weathering of rocks due to mechanical forces. In the process the weathered rocks forms gravel and then sand. Sand and gravel are mined world-wide for construction material and account for the largest volume of solid material extracted globally. Ensuring their availability is vital for the development of the infrastructure in the country/State/District. There are different sources of sand and gravel, the most important among them is the river. As the requirement of these construction materials is on rise, they also are very vital for the health, physical character of the river and the different important functions of the river. The extraction of sand and gravel from the river bodies has to be regulated and done with adoption of required environmental safeguards. For making available these resources, a mapping of these resources at the district level, identification of appropriate sites for extraction, appraisal of the extraction process, putting in place the required environmental safeguards, and rigorous monitoring of the volume of extracted material is required to ensure sustainability of the entire process. The district is the unit of administration which is best placed to do the mapping of these resources, adopt the best environmental practices for extraction of these materials and monitor its extraction and movement.

Fig-1. Administrative Map of the Ajmer District

PHYSIOGRAPHIC:

Ajmer District is situated almost in the central portion of Rajasthan and a part of Aravalli hill range passes for about 175 km. strike length with 25- 30 km. width, occupies the western part of the district with general NE-SW disposition trend, which forms the high steep hills and valleys. The highest point of the Aravalli range in Ajmer district reached is 869 mt. above the sea level and is the dividing point of the watershed of subcontinent of India between Arabian Sea & Bay of Bengal. Other high peaks are Taragarh (865 mt) near Tadgarh. These peaks are occupied by quartzites in general and soft rocks such as biotite schist and gneisses occupy slopes and valleys. A transverse gap at places in the Aravalli range provides communication ways, for transport and water drainage. The intensity of gaps decreases towards South West.

GEOLOGY AND MINERAL WEALTH:

Area adjoining to lease in Bhinay tehalil is occupied by migmatites & gneiss of mangalwar complex with small out crops of granite gneiss & migmatite granite, edenbergithecharnockitegranodiorite belonging to Gyangarh/Asindacidic rocks of Bhilwan Super group of archean age dissected exposures of amphibiotic of jalayan mafic suit are seen introducing the schist & gneisses of mangalwar complex.

PURPOSE OF REPLENISHMENT STUDY: -

The need for replenishment study for river bed sand is required in order to nullify the adverse impacts arising due to excising sand extraction. Mining within or near riverbed has a direct impact on the stream's physical characteristics. Alteration or modification of attributes may cause an impact on the ecological equilibrium of the revering regime, disturbance in channel configuration and flow-paths. This may also cause an adverse impact on in-stream biota and riparian habitats. It is assumed that the riparian habitat disturbance is minimum if the replenishment is equal to excavation for a given stretch. Therefore, to minimize the adverse impact arising out of sand mining in a given river stretch, it is imperative to have a study of replenishment of material during the defined period.

Report aims to quantify the amount of replenishment of sand/Bajri on the basis of survey done with Differential global positioning system (DGPS) during Pre-Monsoon & Post Monsoon of River bed. After completion of the field survey mining depth should be restricted to 3 meters and distance from the bank should be 1/4th of river width and should not be less than 7.5 meters thus area falling under 3/4th part of River bed is considered as Mineable & 1/4th part under Statuary barrier determined on both side of river and sections drawn at an interval of 2000m. And modified as recommend by CEC Guidelines. Post Monsoon data superimposed over pre monsoon data and volume generated. Sampling is done between two consecutive sections to determine the Bulk density as per the guideline

of Sustainable Sand Mining Management Guidelines, 2016, and Enforcement & Monitoring Guidelines for Sand Mining 2020.

Brief process of replenishment study to estimate & establish the replenished amount of sand/Bajri in respective block/stretch:-

- Data Collection of Pre monsoon – Post monsoon status of Lease Area.
- Establishing the levels difference of Pre monsoon – Post monsoon period to establish the Occurrence for sand/Bajri in relative block.
- Quantifying the replenishment amount of sand/Bajri establishing the reserve viability in Relative block.
- Sampling is done between two consecutive sections to determine the Bulk density & Verified by competent authority.
- Geological & Mineable reserve estimated and proposal for bajri excavation made for Permissible quantity. (Mineable material per hectare area available for actual mining shall not exceed the maximum quantity of 60,000 MT per annum as per Enforcement & Monitoring Guidelines for Sand Mining 2020).

Location and Description of lease area:- Most of the data for this study has been collected at field.

Fig-2. Google Image of the Total lease Area

Latitude	Longitude
25°45'22.64"N to 25°51'24.21"N	74°59'24.01"E to 75°18'27.57"E

Replenishment study Method:-

Replenishment Study has been done with Physical survey of the field by the conventional method wherein river stretch has been demarcated with latitude and longitude provided by Department of Mines & Geology (Rajasthan).

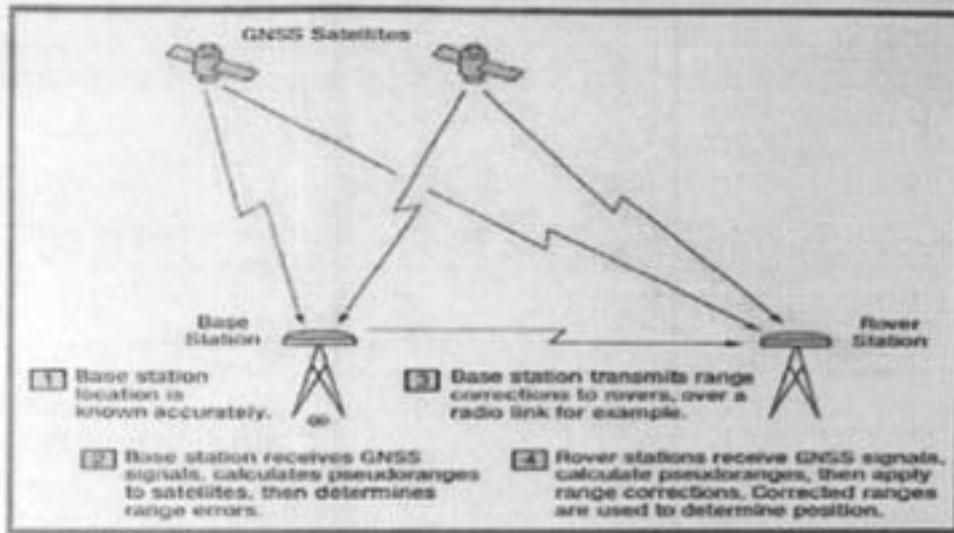

Field Survey conducted & completed in the presence of competent Authority with DGPS instrument FOIF A90, year of manufacturing 2023 on dated 09/06/2023 by Mr. Vikram, Mr. Jitendra for pre-monsoon season & post monsoon survey conducted with DGPS instrument FOIF A90 manufacturing 2023 on 13/10/2023 by Mr. Vikram, Mr. Jitendra under the supervision of Purna Chauhan (Geologist & QP, EIA Co-ordinator).

Field Survey with Differential Global Positioning System (DGPS):-

Methodology:-

A Differential Global Positioning System (DGPS) is an enhancement to the Global Positioning System (GPS) which provides improved location accuracy, in the range of operations of each system. DGPS (Differential GPS) is essentially a system to provide positional corrections to GPS signals. DGPS uses a fixed, known position to adjust real time GPS signals to eliminate pseudo range errors. DGPS has no effect on results that are based on speed data, such as brake stop results.

Differential GPS (DGPS) requires that a GPS receiver, known as the base station to be set up, thus for pre monsoon Survey/data collection a base station has been set up on a precisely known location. Physical benchmarks has been fixed at appropriate intervals and marked as common/Fixed reference points to control the topographic survey and mining activity in pre & post monsoon period and the Reduced Level (RL) are validated from a nearby standard RL. The base station receiver calculates its position based on satellite signals and compares this location to the known location. The difference is applied to the GPS data recorded by the roving GPS receiver.

3. Fig- DGPS working processes

Establishing the Original Ground level the Databases thus generated, structured in tabulated form clearly mentioning the latitude & longitude and respective levels of all the points taken in pre-monsoon period.

The same process repeated for post monsoon while surveying with DGPS, the Databases thus generated, structured in tabulated form clearly mentioning, latitude & longitude and respective levels of all the points taken in post-monsoon period.

Thus the CSV files of pre & post monsoon data is generated to be processed further to estimate the replenished mineral resource.

Data Processing:-

The above generated file is exported to E-Survey CADD software for further processing. With the help of software the data (CSV) is processed & 3D plotlines created selecting elevation (mRL).

Interpolate of Survey Data

Interpolation is an easy way to interpolate points at any intervals using the actual surveyed data for generating Cross Sections along the longitudinal section. "Interpolate" allows obtaining values at regular intervals. It interpolates elevations at each cross-section along the longitudinal section, which may further be exported to excel for section generation. It also uses the three most commonly used and proven methods of Interpolation techniques for data processing - Straight line, TIN or 3D interpolation.

Practically, surveying at regular/accurate intervals (as directed in Sustainable Sand Mining Management Guideline 2016, and Rajasthan Miner Mineral concession Rule 2017, and

Enforcement & Monitoring Guidelines for Sand Mining 2020) is not possible for various reasons. Thus, to obtain values at regular intervals (as per the guideline & as directed by authority), points are interpolated. This interpolation is often done manually with a lot of calculations.

Section Generation & Volume Calculation:-

Exports interpolated cross-section and longitudinal section values to excel or section generation software i.e E-Survey CADD. Further generate the section drawings from point data available in CAD drawing or levels available in Excel or CSV file. The database thus structured in a tabulated form clearly depicting the nomenclature of the section lines, latitude and longitude of the starting point, chain-age and respective levels of all the points taken on that section line.

A plan clearly mentioning the width of the river, lease boundaries, levels (MSL & RL), left under safety barriers (non mining) demarcated as restricted in consensus with Rajasthan Miner Mineral concession Rule 2017, and the provision mentioned in this Sustainable Sand Mining Management Guidelines, 2016, and Enforcement & Monitoring Guidelines for Sand Mining 2020.

Also the software generates the area & volume calculations which are based on trapezoidal method of calculation between two consecutive sections. Thus establishing the volume of reserve replenished in betw pre & post monsoon period. Reserve estimation is based on the data collection and quantification of sand transported during the monsoon season. Based on the quantification of material deposited in the river bed, working plan has been prepared/ proposed for further excavation.

The tonnage of the volume established using the Bulk density verified by the Department of Mines & Geology, Rajasthan, between every two consecutive section.

1. Sampling Procedure:-

(a) Sand Sampling:

Objective: To prepare dry sand samples from the field for various laboratory tests.

Apparatus:

- Wooden Mallet.
- Non-corrodible trays.
- Pulverizing apparatus such as mortar and a rubber covered pestle or a mechanical device consisting of mortar and a power driven rubber covered pestle.
- A suitable riffle sampler or sample splitter for quartering the samples.
- Thermostatically controlled oven of capacity 250OC.
- Balance of capacity 500 grams and sensitivity 0.01 gram.
- Balance of capacity 10kgs and sensitivity 0.5 gram.
- Balance of capacity 15Kgs and sensitivity 1 gram.

Procedure:

- One sample per 900 Square meters (30m x30m) has been taken.
- Dry the sand sample as received from the field in the air or under the sun.
- Remove the organic matter like tree roots and pieces of bark from the sample.
- Separate matter other than sand, like shells from the sand mass.
- Break the clods with a wooden mallet to hasten drying.
- In wet weather a drying apparatus may be used but the temperature of the sample during heating shall not exceed 600C.
- When an oven is used for drying, the temperature in the oven shall not exceed 1100C.
- The amount of drying depends upon the proposed test to be conducted on the particular sample.
- The type, temperature and duration of drying of sand samples for different tests are given in
- After the specified period of drying, cool the material to the room temperature.
- Break the big clods with the help of wooden mallet.
- Pulverize the sand sample to pass through the specified sieves of the particular test to be conducted.
- Mix the entire sand thoroughly and spread on a flat surface.
- Divide the sample into four quadrants and mix the diagonally opposite quadrants.

Method for Quartering

The quartering method shall be used when splitters are not available. Quartering simply requires a quartering cloth and a stick or rod and is done as follows

Four contents from sample bucket the quartering cloth

Level sample on quartering cloth on tousing a rod

Insert rod under the middle of the quartering cloth and lift both ends of rod to divide the sample into two equal parts

1. Retain one of the two diagonally opposite quadrants
Repeat step iii, dividing the sample into four quarters

parts for testing.

2. If the sample is still not small enough, repeat the quartering procedure using either of the two diagonally opposite halves

PRECAUTIONS

- Care shall be taken not to break individual grains during pulverization of sand. Sand containing organic or calcareous matter should not be dried at a temperature above 60°C.
- In the case of coarse gravels or gravelly sand quartering by forming a cone shall not be done.

(b) Specific Gravity:

DEFINITION

- Specific gravity is defined as the ratio of the mass of a given volume of the substance to the mass of an equal volume of water.
- Or more precisely it is the ratio of the density of a substance to the density of a given reference material. Specific gravity for ligaments is nearly always measured with respect to water of the offset, for gases,

Reference is air at room temp.

APPARATUS

- Density bottle
- Vacuum desiccator of size 200mm to 250mm in diameter containing anhydrous silica gel or any suitable desiccating material.
- Thermostatically controlled oven capable of.
- Analytical balance of sensitivity 0.001 grams.
- 2 mm IS sieve.
- A wash bottle preferably made of plastic.

CALCULATIONS

- If distilled water is used as an air free liquid, calculate the specific gravity of the soil particles 'S' from the equation

$$m_2 - m_1$$

$$S = \frac{(m_4 - m_1) - (m_3 - m_2)}{m_2 - m_1}$$

- If kerosene or white spirit is used as an air free liquid, calculate the specific Gravity of the soil particles 'S' from the equation

$$SL = \frac{m_2 - m_1}{m_4 - m_1 - (m_3 - m_2)}$$

SL = Specific gravity of the liquid used at the constant temperature.

m1 = mass of the density bottle with stopper.

m2 = mass of density bottle + dry soil.

m3 = mass of density bottle, soil and water.

m4 = mass of density bottle and water.

PRECAUTIONS

- Packing of the samples should be done properly in order to avoid any loss in transfer.
- Before sample to the laboratory, it should be ensured, that proper identification marks are present on the sample bags as well as on the labels placed on the bags. It should be written by permanent markers.
- Monitoring locations & details of samples collection will be prepared separately and send to the laboratory.
- Care should be taken that the sample is collected from deposition zone preferring and not from corrosion zone for purpose of bulk density.
- Soil should not be dried more than 80°C if there is any doubt in change of specific gravity by loss of water of hydration during oven drying.
- The largest source of error in the test is due to the difficulty in ensuring the complete removal of air from the sample. To ensure this the density bottle with soil submerged in water should be kept in vacuum desiccators.
- This test requires temperature between 22°C to 32°C and therefore shall be conducted in concrete laboratory where temperature is maintained at 27±2°C.

2. List of Instruments: - DGPS, inch tap, Briston Compass, etc.

3. List of Software: - E-Survey CADD, Google Earth Pro

4. Pre & Post Monsoon Survey Data (CSV) & their comparison :-

5. Area & Volume Generated:-

6. Reserve Estimation:-

7. Surveyor:-

1	Total Geological reserves	27311746.56
2	Total Mineable reserves	20483809.92
3	Total Blocked Reserves	6827936.641

*Reserve has been calculated as per the guideline & Recommendation of Central Empowered Committee.

Conclusion of replenishment study:-

In the present replenishment study for Lease Area 1025.70ha., Tehsil-Kekri, District- Ajmer, State- Rajasthan. Pre- monsoon & Post Monsoon Survey has been conducted & Survey Data has been processed in conformity with the requirements & guidelines of Sustainable Sand Mining Management Guideline 2016, and Rajasthan Miner Mineral concession Rule 2017, and Enforcement & Monitoring Guidelines for Sand Mining 2020. Plans & sections are prepared according to the direction given in mentioned guidelines, thus establishing the replenished quantity of reserve.

The Geological Reserves /Replenishment of sand/Bajri estimate disabuse 27311746.56 MT wherein the Mineable reserve is 20483809.92MT.

This replenishment study report will help to minimize the adverse impact arising out of sand mining in a given river stretch also could help to maintain the record of changes taking place due to mining operation in future years.

The Sand Mining in the Rivers shall be solely based on the Enforcement & Monitoring

Guidelines for Sand Mining 2020 focusing on the effective monitoring of the sand mining since from the identification of sand mineral sources to its dispatch and end-use by consumers and the general public. Guidelines also support the fundamental concept, promote environmental protection, and limit negative physiological, hydro geological and social impacts underpinning sustainable economic growth. Sand mining shall be done considering the criteria of protecting the River Eco- System & Preservation of the river& its channel.

Points considered while Sand Replenishment Study:-

1. The Reduced level (RL) Measurement has been Done across following Locations:
 - 100 m Upstream of the Potential Lease Area
 - Within the Potential mine Site
 - 100m Downstream of the Potential Lease Area
 - The RL has been recorded using Differential GPS (DGPS) survey Instruments.
2. Physical benchmarks (GCP) are fixed at appropriate intervals and the Reduced Level (RL) shall be validated from a nearby standard RL.
3. The levels (MSL & RL) of the corner point are identified and safety barriers (Non-Mining) demarcated as restricted in consensus with Rajasthan Miner Mineral concession Rule 2017, and the provision mentioned in this Sustainable Sand Mining Management Guidelines.
4. Identification of Mining & non mining area clearly on plans.
5. A buffer distance /un-mined block of 50 meters is maintained after every block of 1000 meters over which mining is undertaken as directed/prescribed by the regulatory authority.
6. A barrier/blocked zone has been considered & maintained at a distance of 1 kilometer (1 km) from major bridges and highways on both sides, or five times (5x) of the span (x) of a bridge/public civil structure (including water intake points) on up-stream side and ten times (10x) the span of such bridge on down-stream side, subjected to a minimum of 250 meters on the upstream side and 500 meters on the downstream side.
7. Mining depth has been restricted to 3 meters and distance from the bank should be 1/4th or river width and should not be less than 7.5 meters.

8. Clear depiction of the nomenclature of the section lines, latitude and longitude of the starting point, chain-age and respective levels.
9. For Mine Lease having area more Than 10 ha. Such measurements should be at least at an interval of 200 m
10. Volume has been estimated by multiplying the distance between two cross-sections with the average of net area of these two consecutive cross-sections. (With E-survey CADD software) using trapezoidal method of volume calculation.
11. Sampling has been done per 900 square meters (30 m x 30 m) for assessment of bulk density for estimation of deposition rate. Sample has been taken from zone of deposition not from erosion for assessment of bulk density.

विषय:- आपके पक्ष में स्वीकृत खनन पट्टा संख्या 5/2013 श्री भरत सिंह शेखावत वाले खनिज बजरी, तहसील कंकड़ी जिला अजमेर के खनन पट्टा क्षेत्र में पत्थर डालकर बनाये गये रास्ते के सम्बंध में।

महोदय,

उपरोक्त विषयान्तर्गत लेख है कि आपके पक्ष में स्वीकृत खनन पट्टा संख्या 5/2013 वाले खनिज बजरी, तहसील कंकड़ी जिला अजमेर का दिनांक 03.01.2025 को माननीय एनजीटी प्रिंसिपल बैंक, दिल्ली के प्र.क.- 1145/2024 के आदेश दिनांक 19.11.2024 की अनुपालना में गठित कमेटी द्वारा दिनांक- 03 जनवरी, 2025 को खनन पट्टा संख्या 5/2013 वाले खनिज बजरी, तहसील कंकड़ी, जिला अजमेर का निरीक्षण किया। मौका निरीक्षण के दौरान पाया गया कि आपके खनन पट्टा क्षेत्र में निकट ग्राम गुलगांव में नदी के बहाव क्षेत्र में पत्थर डालकर पानी के बहाव को रोका गया है। जो Sustainable Sand Mining Management Guideline-2016, Enforcement & Monitoring Guideline for Sand Mining-2020 व सविदा/स्वीकृति की शर्तों का उल्लंघन है।

अतः आपको जरिये इस घटना-पत्र सूचित किया जाता है कि प्राप्ति के 30 दिवस की अवधि में अपना पक्ष कार्यालय में प्रस्तुत करें। बाद समयवधि, उल्लंघनों के संबंध में आपके विरुद्ध नियमानुसार कानूनी कार्यवाही अमल में लाई जायेगी। सो सूचित रहे। इस नोटिस का पूर्व में जारी किसी नोटिस की क्रियान्विती पर कोई प्रभाव नहीं पड़ेगा। सो सूचित रहे।

No. F12 (BJ-31) RPCB/Mines/643-644

Date: 22/08/2025

**M/s Bharat Singh Shekhawat,
336, Mohan Nagar-B,
BJS Colony, Jodhpur-342006.**

Sub: Show Cause Notice for intended directions for depositing of Environmental Compensation under Section 31A of the Air (Prevention and Control of Pollution) Act, 1981 for your mining lease at **Revenue Villages of Tehsil- Kekri, District- Ajmer (ML No. - 05/2013)** in compliance of orders of the Hon'ble Supreme Court in Writ Petition Civil No. 375/2012 Paryavaran Suraksha Samiti & Anr. Vs Union of India & Others and the Hon'ble National Green Tribunal in Original Application No. 606/2018-Compliance of Municipal Solid Waste Management Rules, 2016.

1. Whereas, the Air Act came into force in the whole of the State of Rajasthan with effect from 16.05.1981.
2. And whereas, the Air Act has been enacted to provide for the prevention, control and abatement of air pollution.
3. And whereas, keeping this in view the Board has been conferred power to take such steps as are deemed necessary for the prevention, control and abatement of Air and Water pollution.
4. And whereas, section 21 of the Air (Prevention and Control of Pollution) Act, 1981 (hereinafter called as the Air Act) provides that no person shall without previous consent of the State Board, establish or operate any industrial plant in an air pollution control area, which is likely to cause air pollution in environment and discharge or cause or permitted to be discharged the emission of any air pollutant in excess to the standards laid down by the State Board.
5. And whereas, the unit/establishment/ entity (hereinafter referred to as the mine) in the name of **M/s Bharat Singh Shekhawat**, which is a Bajri mine located at **Revenue Villages of Tehsil- Kekri, District- Ajmer (ML No.- 05/2013)** and during the process the mine discharges water and/or air pollutants.
6. And whereas, the State Board granted consent to operate under Air Act, 1981 for production of Bajri (ROM) @ 3000000 Ton Per Annum with the validity up to 25.05.2027.
7. And whereas, mining lease was visited by the joint committee on 03.01.2025 in compliance of the Hon'ble NGT, New Delhi order dated 19.11.2024 and report has been filed by CPCB before Hon'ble NGT. As per the joint committee report dated 03.01.2025, following non-compliance were observed :-
 - i. **The Project Proponent has not carried out plantation to cover 1/3rd area of the mining lease.** (Violation of condition no. 11 of consent to operate granted vide letter dated 07.02.2024).

Rajasthan State Pollution Control Board

Headquarter, 4, Institutional Area, Jhalana Doongri, Jaipur-302004

Phone: 0141- 2716804, 2716800 e-mail: member-secretary@rpcb.nic.in

Help Line No. : 0141-2716877

216

- ii. **No arrangements (provisions of water sprinkling system etc.) have been made in the lease area for control of fugitive emission resulting from transportation, loading, unloading of bajri. Mined bajri is not transported in covered vehicles. During visit, no water sprinkling system was observed in the lease area as well as transfer points. (Violation of condition no. 12, 16 & 19 of consent to operate granted vide letter dated 07.02.2024).**
 - iii. **At a location near village Gulgaon weighbridge, an obstacle was made using large size stones across the river bed in mining lease area which obstructs the natural flow of river and may cause damage to river ecology. (Violation of condition no. 21 of consent to operate granted vide letter dated 07.02.2024).**
8. And whereas, the above observations indicate that the mine has failed to comply with the provisions of Air Act and various directions of the Hon'ble Courts and Hon'ble National Green Tribunal (NGT) and/ or by making discharge of effluent/emissions has caused grave damage to the environment which can be categorized as significantly huge with grave consequences on the environment, public health and flora & fauna.
9. And whereas, the Hon'ble Supreme Court in Writ Petition Civil No. 375/2012 Paryavaran Suraksha Samiti & Anr. Vs. Union of India & Others and the Hon'ble NGT in Original Application No. 606/2018 Compliance of Municipal Solid Waste Management Rules, 2016 and in several other cases has directed the Board to impose Environmental Compensation on all the individuals/units/industries/mines/institution entities etc. who are causing damage to the environment on the principle of 'POLLUTER PAYS'.
10. And whereas, Hon'ble NGT has issued the directions to impose Environmental Compensation on the non-complying polluting units and has directed the Board to implement the same for restoration of environmental damages caused to the environment.
11. And whereas, the lease holder is liable to pay damages i.e. Environmental Compensation on the basis of 'Polluter Pays Principle' as directed by the Hon'ble Supreme Court and Hon'ble NGT in various orders.
12. And whereas, the Joint Committee reported non compliances by the mine as mentioned above and Regional office of the State Board at Kishangarh inspected the mine on 29.07.2025 to verify the reply submitted by the lease holder and has reported following non-compliances for the mine:
 - i. **At a location near village Gulgaon weighbridge, an obstacle was made using large size stones across the river bed in mining lease area which obstructs the natural flow of river and may cause damage to river ecology. (Violation of condition no. 21 of consent to operate granted vide letter dated 07.02.2024).**

13. And whereas, the Regional office of the State Board at Kishangarh has reported non-compliance of total 208 days (03.01.2025 to 29.07.2025 for Violation the consent conditions) for the mine.
14. And whereas, the Board has estimated the amount of environmental compensation to be levied on the industry as Rs. Rs. 43,68,000/- (in words Forty Three Lakhs Sixty Eight Thousand only) on the basis of Polluter Pays Principle.
15. And whereas, the State Board in performance of its duties under the Acts, is competent to issue any directions under section 31 A of the Air Act in writing to any person, officer or authority and such person, officer or authority shall be bound to comply with such directions

Further, the State Board in exercise of the powers conferred upon it under section 31 A of the Air Act and for performance of functions under the Acts intends to impose environmental compensation against your mine as mentioned herein above.

In view of the above, this Show Cause Notice is being issued as why the environmental compensation as above be not imposed against the mine. In case if you have any objection, you are advised to submit reply along with copy to Regional office, RSPCB, Kishangarh latest by 28.08.2025 failing which the State Board shall take decision, as per the Acts, and environmental compensation as mentioned herein above shall be imposed without any further notice.

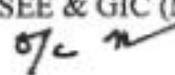

This bears approval of the competent authority.

Yours sincerely,

Vijay Sharma

Subject - Reply to your show cause notice No. F.12(BJ-31)/RPCB/Mines/
643-644, Date 22.08.2025.

Reference:- Report filed by joint committee in original application OA 1145/
24 (PB) titled as Neeraj Chaudhary V/s State of Rajasthan &
Others.

Dear Sir,

Under the above subject and in your referenced letter, it is requested that the mining lease of mineral bajri located at Tehsil Kekri of District Ajmer has been granted by the Mining Department on 30.3.2023 and registration was done on 31.3.23. EC for my project by granted by MOEF on 03.02.2022 and CTO /CTE was granted by RSPCB on 19.04.2023. Further amendment EC was granted by SIEAA Rajasthan 12.01.2024 and amended CTO/CTE was granted by RSPCB on date 07.02.2024.

With reference to the findings of Joint Committee report dated 03.01.2025, Hon'ble NGT (OA 1145/2024(PB) titled as Neeraj Chaudhary V/s State of Rajasthan & Others) (**Annexure-01**) order dated 19.11.2024, Inspection done by regional office of the state pollution control board and your notice dated 22/08/2025 point wise reply is as follows:-

<p><u>Under your show cause notice Sub Point No. i under the point No. 12:</u> At a location near village Gulgaon weighbridge, an obstacle was made using large size stones across the river bed in mining lease area which obstructs the natural flow of river and may cause damage to river ecology. (Violation of condition no. 21 of consent to operate granted vide letter dated 07.02.2024).</p>	<p><u>Reply :</u> The mentioned allegation of an Obstacle made of large stone across the river bed in mining lease area to which obstructs the natural flow of river and may cause damage to river ecology is wholly baseless and without any some and substance. I would like to inform you that the location near village gulgaon weighbridge the obstacle made using large size stones were present in the river area before the mining lease came into effect i.e. before 31.03.2023. For your reference I'm attaching the satellite image of December 2022 (Annexure-02), where it is clearly visible that these stones are dumped in the river at least 3 months before the mining lease came into effect. Another satellite image which is of February 2022 (Annexure-3), in which these stones are not visible in the river area. From which it is clear that the stones were dumped in the river area by illegal miners between February 2022 and December 2022. In which any kind of involvement of me, the applicant, is not possible. And this above information has also been confirmed by the Joint Committee in there survey report dated 03.01.2025 on the Page No. 27 of the report</p>
---	--

	<p>(Annexure-4) I have lodged a complaint in Police Station, Kekri Sadar against unknown people for dumping stones in the river area. (Annexure-5).</p> <p>In light of Hon'ble National Green Tribunal orders and keeping in mind environmental benefit for the common masses I have voluntarily removed stones from the river bed area at my own cost. Images of the same are annexed (Annexure- 6) for your kind perusal .</p>
<p><u>Under your show cause notice under the point No. 13 :-</u> And whereas, the Regional office of the State Board at Kishangarh has reported non-compliance of total 208 days (03.01.2025 to 29.07.2025 for Violation the consent conditions) for the mine.</p>	<p><u>Reply :-</u> That it is evident from the facts mentioned above that lease holder was never in non compliance of environment clearance or consent to operate therefore non compliance can not be attributed for 208 days violation of the consent conditions.</p>
<p><u>Under your show cause notice under the point No. 14:-</u> And whereas, the Board has estimated the amount of environmental compensation to be levied on the industry as Rs. 43,68,000/- (in words Forty Three Lakhs Sixty Eight Thousand only) on the basis of Polluter Pays Principle.</p>	<p><u>Reply :-</u> That it is evident from the facts mentioned above that lease holder was never in non compliance of environment clearance or consent to operate therefore environmental compensation can not be attributed for Rs. 43,68,000/- on the basis of Polluter Pays Principle for the violation of the consent conditions.</p>

Mines is currently non-operational in compliance of Hon'ble NGT orders.

Request you to kindly consider my reply and withdraw your show cause notice.

Thanking You,

Your Faithfully

Report of the Joint Committee constituted in compliance with the Order dated 19.11.2024 in the O.A. No. 1145/2024 in the matter of Neeraj Choudhary Vs State of Rajasthan before the Hon'ble National Green Tribunal, Principal Bench, New Delhi.

1. Background:

The Hon'ble National Green Tribunal, Principal Bench, New Delhi took cognizance of the present case based on the letter petition dated **27.01.2024** of Shri. Neeraj Choudhary, Sarpanch, Gram Panchayat Gulgaon, Block Sawar, District Kekri, State of Rajasthan and the same has been registered as O.A. No. 1145/2024. In the above matter, Hon'ble NGT, Principal Bench, New Delhi vide its Order dated **19.11.2024** constituted a Joint Committee comprising of (i) District Magistrate, Kekri; (ii) Rajasthan State Pollution Control Board; (iii) a Senior Scientist of Ministry of Environment Forest and Climate Change; and (iv) Central Pollution Control Board, with the direction of the Committee to submit factual report within six weeks. Further, in the above said Order dated 19.11.2024, Hon'ble NGT appointed the Central Pollution Control Board as nodal Authority for coordination and compliance.

A copy of the order dated 19.11.2024 of Hon'ble NGT is enclosed as **Annexure-1.**

2. Constitution of Joint Committee:

In compliance with the Order dated 19.11.2024 of Hon'ble NGT, New Delhi and based on the nominations received from the organizations concerned, a Joint Committee has been constituted vide letter dated 26.12.2024 of CPCB comprising of the following members:

- (i). Sh. Mahesh Dutt Purohit. Scientist-D, Ministry of Environment, Forest & Climate Change, Sub-Office, Jaipur.
- (ii). Sh. Subhash Chandra Hemani, Block Officer, (representative of District Collector, Kekri).
- (iii). Sh. Praveen Kumar Jain, Scientist-C, Central Pollution Control Board, Regional Directorate, Bhopal.
- (iv). Ms Nidhi Khandelwal, Regional Officer, Rajasthan State Pollution Control Board, Kishangarh.

A copy of the Committee constitution and nomination letters are enclosed as **Annexure-2**.

3. Terms of reference (ToR) to the Joint Committee:

The Terms of the Reference (ToR) to the Joint Committee referred therein the Order dated 19.11.2024 of Hon'ble NGT in the above matter inter-alia include the following:

- (i). The Committee shall visit the site, collect relevant information and verify the allegations referred there in the letter petition dated 27.01.2024. Accordingly, the following are the issues referred therein the letter petition:
 - A. Carrying on mining activities at a depth of more than permissible depth and outside mining lease area.
 - B. Irregularity of sand/bajri storage at stocks at transfer points and illegally transporting without reaching transfer points.
 - C. Large number of vehicles using in mining and transportation activities.
 - D. Selling of bajri by PP @600 Rs. Per ton, which is more than the government rates.
 - E. Cutting of trees by PP along both side of river which is causing damage to flora fauna and river ecology.
- (ii). Compliance status of EC and consent by the concerned mining lease holders.

The factual status on various statutory requirements furnished below:

4. Preliminary meeting of the Joint Committee

In consultation with the members of the Joint Committee, a preliminary meeting of the Committee was convened at SDM office, Kekri on 3rd January, 2025 before the site visit. In the said meeting all the members of the Joint Committee were present and discussed the facts and issues involved in the matter, ToR to the Committee and further course of action proposed in this matter.

Following officials were also present in the meeting are:

- i. Sh. P. Jagan, Regional Director, CPCB Bhopal

- ii. Sh. Rupendra Kumar, Scientist 'B' CPCB Bhopal
- iii. Sh. Bhopal Singh, Tehsildar, Kekri
- iv. Sh. Sanjay Kumar Sharma, AME, Mining and Geology Department, Sawar

During the discussion, committee gave an opportunity to the Applicant to submit his views and also requested the applicant to physically show the places / allegations levelled in the letter petition. List of participants in the meeting is enclosed as **Annexure-3**.

After the preliminary meeting, the site inspection was carried out on 3rd January, 2025 alongwith Applicant Sh. Neeraj Choudhary, Sarpanch, Gram Panchayat Gulgaon and representative of Project Proponent Sh. Khushwendra Singh to verify the factual status on the allegations raised.

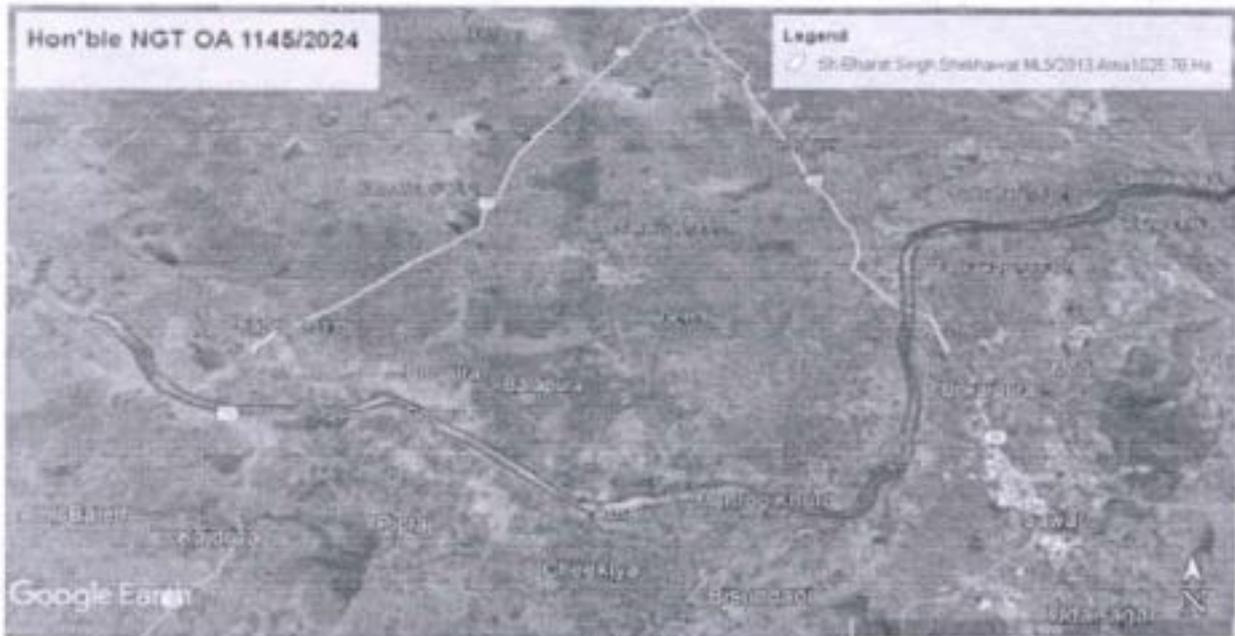

5. About the Lease and Mining Project(ML No. 05/2013):

1. Khari River is a tributary of the Banas River which originates in the hills near Deogarh in Rajsamand district. As per Ajmer district survey report its total catchment area is 6268 sq km and flows towards northeast about 192 km through Udaipur, Bhilwara and Ajmer Districts before joining the Banas River near Chosala village in Ajmer District. The Khari has sandy bed and remains dry for the major part of the year.
2. The Letter of Intent (LoI) was issued from the Mine (Group-2) Division, Govt. of Rajasthan on dated **20.03.2013** for the allotment of 1025.70 hectare bajri mine which will be excavated from Khari river in Ajmer district. Copy of letter is enclosed at **Annexure-4**.
3. As per the letter dated **19.12.2013** issued from Mine (Group-2) Division, Govt. of Rajasthan Temporary Work Permit (TWP) was given for mining of Bajri in lease area from 29.12.2013 to 28.02.2014 with the terms & conditions given in the letter, which was extended upto 31.03.2014 through Supplementary Contract duly signed by Mining Department, Sawar and PP. The validity of TWP was further extended by Hon'ble Supreme Court as per order dated 27.03.2014 till further order. Copy of allotment letter and Supplementary Contract are enclosed at **Annexure-5 & 6** respectively. Later on, PP stopped the bajri mining from the Khari

River from **01.11.2014** and submitted letter for the same to Mining & Geology department, Sawar dated 28.10.2014. Copy of letter is enclosed at **Annexure-7**.

4. The Govt. of Rajasthan vide order dated 15.09.2017, cancelled the Lol & TWP for violating the terms & conditions of TWP & Contract and application form rejected and forfeited application fee. Copy of letter is enclosed at **Annexure-8**.
5. The PP filed special appeal 419/2018 in the Hon'ble High Court, Jaipur and as per Hon'ble High Court order dated 07.05.2022 and Hon'ble Supreme Court SLP 10587/2019 Bajri lease Lol holders V/s State of Rajasthan and Others dated 11.11.2021 based on amendment made in the rule 5(4), it was directed to the Government to take decision within 3 months.
6. Environmental Clearance (EC) for mining of mineral Sand/Bajri from Khari River in revenue villages of Tehsil Kekri was issued by MoEF&CC vide letter dated **03.02.2022** to PP Mr. Bharat Singh Shekhawat S/o Mr. Shivdayal Singh Shekhawat, r/o 336, Mohan Nagar B, B.J.S. Colony, Jodhpur (Rajasthan) for proposed annual production of 30,00,000 TPA from 1025.70Ha with a maximum minable depth of 1 meter. Copy of EC is enclosed at **Annexure-9**.
7. In compliance of the court order Government of Rajasthan vide letter dated **14.10.2022** reinstated the rejected lease orders. Copy of letter is enclosed at **Annexure-10**.
8. The Govt. of Rajasthan vide order dated **29.03.2023** issued the mining lease no. 05/2013 to PP Mr. Bharat Singh Shekhawat. The mining lease became effective for the remaining period of 04 years 01 month and 26 days (from 31.03.2023 to 25.05.2027) after contract registration. Copy of order and lease agreement is enclosed at **Annexure-11 & 12**.
9. Rajasthan SPCB issued Consent-to-Establish & Consent-to-Operate u/s 21(4) of Air (Prevention and Control of Pollution) Act 1981 by letter dated **19.04.2023** and it was valid upto 29.03.2024 with conditions of maximum minable depth of 1 metre. Copy of CTE & CTO are enclosed at **Annexure-13**.
10. The previous EC dated 03.02.2022 has been amended by SEIAA by letter dated **12.01.2024** with an increase in minable depth of mining

from 1 metre to 3 meter without any increase in total mining capacity (30,00,000 TPA) & without any increase in minable area (1025.70 Ha), located at revenue villages of Tehsil Kekri (Copy of amended EC is enclosed at **Annexure-14**) and CTE & CTO has been issued from RSPCB dated **07.02.2024** which is valid upto 25.05.2027 with conditions of maximum minable depth of 3 metre. Copy of CTE & CTO are enclosed at **Annexure-15**.

The Satellite image showing the mine lease boundary on Khari River, Kekri

6. Observation of the Joint Committee

Based on the deliberations held during the meeting of the Joint Committee, subsequent site inspections and documents made available to the Committee, the following observations are made:

A. General observations

- (a). During the visit of Joint Committee, no flow of water was observed in the river bed at the visited site near village Gulgaon and Devmand, and water filled pockets were observed in the river bed due to mining done at many places.
- (b). During the visit of Joint Committee, boundary pillars were not found at the site of the mining lease to demarcate the mining lease area as per Rajasthan Minor Mineral Concession Rules, 2017 (**Annexure-16**) - Rule No. 28, 1 (iv), Rule No. 91 and Schedule IV, S.No. 3 & 7. The representative of PP and mining department official explained that the mining lease had been

allocated in various Khasra nos. and it would be difficult to demarcate boundary of mining lease area by using pillars. The PP has deposited demarcation charges of Rs. 20,000/- on dated 28.05.2013 to Mining and Geology Department, Ajmer and Rs. 50,000/- on dated 29.03.2023 to Mining and Geology Department, Sawar for demarcation of lease area and the Mining and Geology Department, Sawar has conducted the survey dated 16.09.2014 and provided the demarcation report with revenue tehsil/villages, Khasra no., Rakba and type of land etc. on 30.03.2023.

- (c). Mining activity was being carried out using JCB machine in the mining lease area by PP during the visit, and same was confirmed on the site using Google live location and mining lease demarcated kml file by the Committee members. Committee Members measured depth of mined pits at some places in the river during the site visit on 03.01.2025 with the help of measuring tape and found that mined depth from the adjacent nearby river bed was approximately 1.5 m, while at some places the depth was even 2.3 m.
- (d). PP has installed weighbridge at the bank of river for weighing and issuing of Rawanna for collection of Royalty based on the quantity of sand mined which is connected with Department of Mines & Geology-Online Management System (DMG-OMS) portal that can be accessed by Mining department. CCTV cameras were also installed at the weighbridge locations and vehicles were provided with the GPS.
- (e). During visit, Joint Committee observed that there were three stock points namely Gulgaon, Devkheri and Devpura villages for storage of mined sand/bajri for which PP has licences from Mining and Geology Department. PP has installed weighbridge for issuing e-TP (connected with online server that can be accessed by Mining department) with CCTV cameras. Manual Air quality monitoring station installed to check the Air Quality at Gulgaon and Devpura stock points and found not in operation during visit. The PP informed that the periodic monitoring of ambient air quality and analysis work has been given to the third-party laboratory. As per data furnished by the Mining and Geology Department, Sawar vide letter dated 03.01.2025 (Copy of letter attached at **Annexure-17**), total quantity of Bajri stored at three stock points is as given below:

S.No.	Location	Closing balance as on 03.01.2025 (Tonnes)
1.	Gulgaon (ID:19306)	4839.05
2.	Devpura (ID:17301)	23317.08
3.	Devkheri (ID:17301)	675.75

It was observed that no catch drains, siltation ponds were provided around the sand storage areas (sand stock points) to prevent the flow of water and sand into the adjacent agricultural land. No water sprinkling system observed at the haul roads, sand storage area to control fugitive dust emission during handling and transportation of sand.

- (f). Mining and Geology department, Sawar carried out drone survey at all the three stock points dated 09.02.2024 on the basis of complaint received from village panchayat to check irregularity of stocks at stock points. On the basis of irregularity observed at three stock points with total quantity of 2910.524 MT, Mining and Geology department, Sawar imposed penalty of Rs. 13,09,735.80/- on PP vide letter dated 20.02.2024. Copy of action taken letter is enclosed as **Annexure-18**.
- (g). PP carried out plantation of 3000 samplings at village Devmand on the total area of 3.15 Ha in the year 2023-24. As per amended EC the greenbelt shall be developed within first 5 years and the density of the trees should be around 2500 saplings per hectare. However as per CTO, the plantation should be carried out at 1/3rd lease area. The consent condition w.r.t. plantation is not in line with the EC, therefore the PP should get amended the CTO from RSPCB and comply accordingly.
- (h). Replenishment study for mining lease area had been conducted by the PP through qualified consultant i.e. Ms. Prerna Chauhan (Geologist), during Pre-monsoon & Post-Monsoon for the year 2023-24 and report submitted to Mining and Geology Department, Sawar on dated 03.05.2024. As per replenishment study:

S.No.	Description	Area in Ha
1.	Total Lease Area	1025.70
2.	Mifiable Area (3/4 Area)	769.275
3.	1/4 Area Blocked on both sides of river	256.425

S.No.	Description of Reserves	Quantity in MT
1.	Total Geological reserves	27311746.56
2.	Total Movable reserves	20483809.92
3.	Total Blocked reserves	6827936.641

Copy of replenishment study is enclosed at **Annexure-19**.

- (i). During the visit that it was observed near village Gulgaon weighbridge location, large stones were stacked across the river bed and obstacle made using large size stones across the river bed in the mining lease area without any approval of concerned department, which almost blocked the natural flow of river in the lease area and may cause damage to river ecology (**see photo 16 & 17**). As per Google earth image dated 21.02.2022 (see photo 14) of mining lease area shows no obstruction was visible, however image dated 11.10.2022 (see photo 15) shows clear obstruction of river with large size stones. This change is clearly visible in the Google Earth images taken between February and October 2022. It would have been probably done to stop the sand/bajri flow for more deposition in the permitted lease area. As per Monitoring mechanism of Enforcement & Monitoring Guidelines for Sand Mining 2020, "All precautions shall be taken to ensure that the water stream flows unhindered and process of natural river meandering does not get affected due to mining activity". Also, making obstacles to natural water flow violates the consent condition no. 21. Mining and Geology department, Sawar has issued notice to PP dated **08.01.2025** for responding within 30 days after receiving of this notice. Copy of notice is enclosed as **Annexure-20**.
- (j). Mining and Geology Department, Sawar carries out regular vigilance activities to monitor the illegal mining/transportation/storage of mined sand/bajri in tehsil Kekri. Mining and Geology Department, Sawar provided information about the action taken against 22 cases in the FY2023-24 and 13 cases in FY 2024-25 (upto December 2024) regarding violators for illegal storage & transportation of mined sand/bajri and recovered Rs. 34,15,400/- (including EC charges i.e. Rs. 26,00,000/-) during FY 2023-24 and Rs. 23,24,950/- (including EC charges i.e. Rs. 18,00,000/-) during FY 2024-25 in tehsil Kekri. Details of penalty recovered is attached at **Annexure-21**.

(k). As per data furnished by Mining and Geology Department, Sawan, total Rawanna issued in the FY 2023-24 are 21195 Nos. and quantity of sand/bajri dispatched is 3,99,449.70 tonnes and total Rawanna issued in the FY 2024-25 (upto December 2024) are 27318 Nos. and quantity of sand/bajri dispatched is 5,44,884.16 tonnes. From the above data, quantity of sand/bajri dispatched is less than the consented limit i.e. 30,00,000 TPA. Details of Rawanna and quantity of sand/bajri dispatched is attached at **Annexure-22**.

(l). During the visit, it was observed that vehicles carrying sand/bajri without any cover which may cause fugitive dust emission during transportation.

(m). As per information provided by the office of the Deputy Conservator of Forest, Ajmer, there were no National Park/Wildlife Sanctuary near the mining lease area. Copy of letter is enclosed at **Annexure-23**.

B. Observations on the issues raised by the applicant in the letter petition dated 27.01.2024

(a) **Issue raised:** Carrying out mining activities at a depth of more than permissible depth and outside mining lease area.

Observation:

There was no flow of water except small pockets of water in the river bed observed. The committee members measured depth of mined pits randomly at some places in the river during the site visit on 03.01.2025 with the help of measuring tape and found that mined depth from the adjacent river bed was 1.5m at few places, while at some places the depth was even 2.3 m.

(b) **Issue raised:** Irregularity of sand/bajri storage at stocks at transfer points and illegally transporting without reaching transfer points.

Observation:

- PP has licence for three transfer points located at villages Gulgaon, Devpura and Devkheri for storage of mined sand/bajri. During visit, Gulgaon and Devpura stock points were operational and Devkheri was not in operation, the excavated and transported sand/bajri from river bed found-stored at Gulgaon

TP-4839.05 Tonnes, Devkhal TP-23317.08 Tonnes & Devkhal TP-675.75 Tonnes. Earlier, Mining and Geology department had carried out drone survey at all the three transfer points dated 09.02.2024 on the basis of complaint received from village panchayat to check irregularity of stocks at transfer points. On the basis of irregularity found at three transfer points with total quantity of 2910.524 MT, mining department imposed penalty of Rs. 13,09,735.80/- on PP vide letter dated 20.02.2024 (**details in Annexure-18**).

- Mining and Geology Department, Sawar carries out regular vigilance activities to monitor the illegal mining/transportation/storage of mining sand/bajri in tehsil Kekri. District authorities provided information about the action taken against 22 cases in the FY 2023-24 & 13 cases in FY 2024-25 (upto December 2024) regarding violators for illegal storage & transportation of mined sand/bajri and recovered Rs. 34,15,400/- (including EC charges i.e. Rs. 26,00,000/-) during FY 2023-24 and Rs. 23,24,950/- (including EC charges i.e. Rs. 18,00,000/-) during FY 2024-25 in tehsil Kekri (**details in Annexure-21**).
 - Joint Committee randomly verified quantity of sand/bajri being dispatched through e-Transit Pass generated at transfer point as well as carrying capacity of vehicle permitted with transport department and found it in order.
- (c) **Issue raised:** Large number of vehicles using in mining and transportation activities.

Observation:

- As per the mining plan submitted by the PP, the number of machineries/vehicles proposed for excavation of sand/bajri i.e. Excavators (JCB) -12 Nos. & Front-End Loaders-12 Nos. As per the PP, presently there were total 08 Nos. of JCB available at various excavation sites, during the site visit mining activity was going on in the river bed of mining lease area near village Gulgaon by using one JCB machine and tractor-trolley using for transportation to transfer point. However, at the time of visit observed that 5 truck trailer are used for transportation from transfer points to various cities.

(d) **Issue raised:** Selling of Bajri by PP @600 Rs. Per ton, which is more than the government rates.

Observation:

- Earlier, The Rajasthan Goods (Control of Production, Supply, Distribution and Trade and Commerce) Act, 2014 and rate of sand/bajri was fixed by the District Collector vide notification no. F17(1)/Mining Department/legal/2014 dated 07.02.2014, District Collector, Ajmer issued an order dated 11.02.2014 and fixed the rate of sand/bajri (Copy of the order is enclosed at **Annexure-24**), however same was adjourned as per order dated 18.05.2015 of the Hon'ble supreme court SLP no. 15369/2015. Due to this no rate of sand/bajri was decided by the concerned Department.
 - PP informed that at present, the PP is selling bajri @600 rupees per ton including all charges viz. CGST, SGST, Royalty charges, DMFT Charges, RSMET, transportation charges etc.
- (e) **Issue raised:** Cutting of trees by PP along both side of river which is causing damage to flora, fauna and river ecology.

Observation:

- During the visit, the committee did not find trees/plants cutting nearby both side of river.
- PP carried out plantation of 3000 samplings at village Devmand on the total area of 3.15 Ha in the year 2023-24 and the survival rate of the plantation was 70-80%.
- PP also donated 800 plants to Sarpanch, Gram Panchayat-Kadera on dated 27.08.2024 for plantation in village.

7. CTO Compliance

The CTO issued by RSPCB is valid up to 25.05.2027. The joint committee verified and found the PP is not complying with conditions no. 11, 12, 16, 19, 21 of Consent to Operate issued vide RSPCB letter dated 07.02.2024, details of which are as follows:

- i. As per condition no. 11, the PP has not carried out plantation to cover 1/3rd area of the mining lease. (as mentioned above the consent condition w.r.t. plantation is not in line with the EC and mining plan)

- ii. As per condition no. 12, 19, no arrangements (provision of water sprinkling system, etc.) have been made in the lease area for control of fugitive emissions resulting from transportation, loading, unloading of bajri. Mined bajri is not transported in covered vehicles. During visit, no water sprinkling system was observed in the lease area as well as transfer points.
- iii. In violation of per condition no. 21, at a location near village Gulgaon weighbridge, an obstacle made using large size stones across the river bed in mining lease area was observed which obstructs the natural flow of river and may cause damage to river ecology.

8. EC Compliance

- i. The Project is having valid Environment Clearance issued by SEIAA vide letter dated 12.01.2024 and validity of EC is co-terminus with the lease period.
- ii. As per the details submitted by the representative of Department of Mines and Geology, Govt. of Rajasthan as well as authenticated production figures, the mineral production (river sand excavation) has not been done beyond the permissible quantity as allowed vide EC under reference.
- iii. PP had carried out plantation of 3000 samplings at village Devmand on the total area of 3.15 Ha in the year 2023-24. As per EIA report, 5316 no. of plantation shall be carried out, whereas as per amended EC the greenbelt shall be developed within first 5 years and the density of the trees should be around 2500 saplings per hectare. However as per CTO, the plantation should be carried out at 1/3rd lease area. The consent condition w.r.t. plantation is not in line with the EC.
- iv. No excavation beyond the depth of 3 meters was observed in the river bed. Formation of deep trenches due to mining was also not observed.
- v. A Comprehensive Digital Map (Land use and Land Cover) of entire lease area is to be prepared by the PP with clear depiction of 05 year excavation plan as per the approved scheme of mining.
- vi. Provisions and strategic placement of water sprinklers should be done with immediate effect at the areas more prone to generate fugitive emissions.
- vii. Other statutory documents such as Approved Mining Plan, Occupational Health Checkups of workmen in accordance of

various mine legislation, Consent Air Quality monitoring reports etc have been submitted by the unit along with the latest six-monthly compliance report to MoEF & CC.

9. Recommendations of the Joint Committee:

- a) Google Earth image dated 11.10.2022 shows obstruction across river in mining lease area, hence the concerned department/authorities should be directed to take necessary action against PP for non-complying of Enforcement & Monitoring Guidelines for Sand Mining 2020, and also ensure that the obstruction made using heavy stones across the river bed near village Gulgaon weighbridge location should be removed immediately for maintaining the natural flow of river and maintaining river ecology.
- b) Pillars shall be fixed before carrying out mining operations to demarcate the banks in the active mining channel/stretch according to the banks boundary map. Pillars shall also be fixed at the boundary of mining zone, leaving buffer zone from the banks, with level marks on these pillars without these facilities, precise compliance verification on ground w.r.t. depth of mining and buffer zone left from the banks is not possible.
- c) District Survey Report should be scientifically prepared as prescribed in the Sustainable Sand Mining Guidelines 2016, preferably by government institutes/organizations. No-mining zones (distance from riverbank, bridges, dams etc.) should be depicted in maps in the Survey Reports for clarity.
- d) It should be ensured by the PP during mining operations that no damage is done to the plantation on the river banks and plantation should be developed after amendment of consent.
- e) The PP shall comply with Consent conditions no. 11, 12, 16, 19, 21 with immediate effect.
- f) Proper covering of vehicles as well sand/bajri stored in the stock storage area using tarpaulin, and water sprinkling on the roads shall be done to prevent dust emission.
- g) The permissible mining depth condition and distance/buffer criteria (distance from riverbank, bridges, dams etc.) for no-mining zones should be strictly implemented. In no case mining should be

carried out below water level or sub-surface water level in river.

- h) Even though PP has conducted the replenishment study, the following points may also be included:
- Yearly replenishment studies should depict the factual position and levels for all corresponding cross sections, clearly differentiating the mined and unmined area.
 - Replenishment reports should contain key maps of mining channel/stretch area.
- i) A Comprehensive Digital Map (Land use and Land Cover) of entire lease area is to be prepared by the PP at the earliest with clear depiction of 05 year excavation plan as per the approved scheme of mining.
- j) Appropriate mechanism be implemented for taking strict punitive action against the persons and vehicle involved in illegal mining in the area under the MMDR Act and direction issued by Hon'ble National Green Tribunal vide order dated 26.02.2021 in O.A. 360 of 2015 in terms of penalty and environmental compensation.

Item No. 07

Court No. 2

**BEFORE NATIONAL GREEN TRIBUNAL
PRINCIPAL BENCH, NEW DELHI**
Original Application No.1145/2024

Neeraj Choudhary

Applicant(s)

Versus

State of Rajasthan

Respondent(s)

Date of hearing: 19.11.2024

**CORAM: HON'BLE MR. JUSTICE SUDHIR AGARWAL JUDICIAL MEMBER
HON'BLE DR. AFROZ AHMAD, EXPERT MEMBER**

Applicant: None

ORDER

1. A letter petition dated 27.01.2024 has been received from Neeraj Choudhary, Sarpanch, Gram Panchayat Gulgaon, Block Savar, District Keki State of Rajasthan and this letter petition has been registered as Original Application under Sections 14 and 15 of National Green Tribunal Act, 2010 (hereinafter referred to as '**NGT Act, 2010**') in exercise of suo-moto jurisdiction in view of law laid down by Supreme Court in *Municipal Corporation of Greater Mumbai Versus Ankita Sinha and Others, (2022) 13 SCC 401*.

2. Complainant has said that large scale illegal mining and transportation of mineral in utter violation of environmental norms is going on, on the side of river Khari. It is passing through Keki District by the persons who has been granted mining leases but they are carrying out mining activities outside the lease area. Said mining has been conducted to extract mineral though sufficient replenishment is not available in river

1

bed and this is causing serious damage to flora fauna and river ecology. Heavy machines are being used for mining activities and transportation of mineral is by using dumper trailers, tractors and other vehicles.

3. From the complaint made in this letter petition, *prima-facie*, we are satisfied that a substantial question relating to environment has arisen but before proceeding further in the matter we find it appropriate to obtain a factual report and for this purpose constitute a Joint Committee comprising District Magistrate, Kekri; Rajasthan State Pollution Control Board; a Senior Scientist of Ministry of Environment Forest and Climate Change; and, Central Pollution Control Board.

4. Central Pollution Control Board shall be the Nodal Authority for co-ordination and compliance of this order.

5. Above Committee shall visit the site, collect relevant information and submit factual report within six weeks. While submitting report, Committee shall also examine compliance of EC and consent by the concerned mining lease holders.

6. List for further hearing on 22.01.2025.

श्रीमान भजनलाल जी शर्मा
मुख्यमंत्री राजस्थान सरकार
जयपुर राजस्थान

विषय :- अवैध खनन परिवहन व पर्यावरण को नुकसान पहुंचाने के संबंध में
महोदय जी,

उपरोक्त विषय अंतर्गत निवेदन है कि आज दिनांक 26 जनवरी 2024 को आयोजित ग्रामसभा में सर्वसम्मति से प्रस्ताव संख्या 4 द्वारा आपको जांच हेतु आग्रह किया गया है व निवेदन है की जांच होने तक खनन पर पूर्ण रूप से प्रतिबंद लगाया जाए अवगत करवाना चाहेंगे की देवमंड से गुलगांव होकर टान्कावास सीमा तक खारी नदी में लीज आवंटित है आप द्वारा दिनांक 15/01/2024 से 30/01/2024 तक अवैध खनन को लेकर विशेष अभियान चलाया गया है

महोदय जी लेकिन वर्तमान में समस्या लीज धारक द्वारा अवैध खनन व परिवहन है आपको अवगत कराना चाहेंगे कि लीज धारक द्वारा ही अवैध खनन व परिवहन संचालित है जिसके निम्न बिंदु शामिल है

1 - लीज धारक द्वारा केकड़ी जिले में होकर गुजरने वाली खारी नदी में तय मानको से ज्यादा गहरा व लीज क्षेत्र के बाहर भी खनन किया जा रहा है व गहरे गड्ढे खोद दिए गए हैं जिसके कारण नदी का प्राकृतिक स्वरूप ही बदल चुका है वर्तमान में बजरी की खारी नदी में बजरी की मात्रा दोहन लायक नहीं है हे फिर भी लीज धारक द्वारा लगातार पेड़ पोथो व पर्यावरण को नुकसान पहुंचाते हुए दोहन किया जा रहा है आपसे निवेदन है इसकी जांच खनिज, राजस्व व वन विभाग द्वारा जांच करवाई जाए

2 - वर्तमान में मौजूद लीज धारक के टीपी पॉइंट्स देवखेड़ी, देवमंड, व गुलगांव पर फर्जी तरीके से कागजों में स्टॉक बताया गया है जबकि मौके पर स्टॉक उक्त मात्रा में उपलब्ध नहीं है जिसके फलस्वरूप माननीय न्यायालय व सरकार के दिशा निर्देशों की अवहेलना की जा रही है

और टीपी पॉइंट्स के बजाय नदी से सीधे डम्पर, ट्रैलर, ट्रैक्टर्स और अन्य साधनों को भरा जा रहा है और अवैध परिवहन किया जा रहा है जिसकी भी जांच खनन विभाग व परिवहन विभाग द्वारा अपेक्षित है

3- महोदय जी बिना अनुमति के सैकड़ों की संख्या में लीजधारक द्वारा कई बेकहोल लोडर मशीने व
ट्रैक्टर और उत्खनन मशीनों द्वारा संपूर्ण उत्खनन किया जा रहा है जबकि इनकी संख्या सीमित
होनी चाहिए जिन भी वाहनों में बजरी परिवहन की जा रही है वह क्षमता से अधिक परिवहन किया जा रहा है
परिवहन में युक्त होने वाले डंपर ट्रैक्टर ट्राली सभी ओवरलोड भरे जाते हैं क्षेत्र में धड़ल्ले से परिवहन हो रहा
है जिसकी भी जांच अपेक्षित है

3- लीज धारक द्वारा 600 रूपए टन के वसूले जा रहे हैं जबकि सरकारी दर काफी न्यूनतम है परिवहन व
अन्य के नाम पर अतिथि वसूली की जा रही है कृपया बजरी की वसूल की जानी वाली राशि को विवरण
सहित सार्वजनिक किया जाए

4- क्षेत्र से गुजरने वाली खारी नदी के मध्य व दोनों ओर पेड़ पौधे और घास लीज धारक द्वारा उजाड़ दिए
गए है व इनके द्वारा जो पेड़ पौधे लगाए गए थे बिना रखरखाव के कारण सूख चुके हैं जिसके कारण
पर्यावरण नुकसान पहुंचता है जो की नेशनल ग्रीन ट्रिब्यूनल के दिशा निर्देशों की अवहेलना है जिसकी भी
जांच वन विभाग द्वारा कराया जाना अत्यंत आवश्यक है

माननीय मुख्यमंत्री जी आपसे निवेदन है की उक्त बिन्दुओ की जांच सम्बंधित विभागो द्वारा की जाए व
स्थानीय स्तर पर जन प्रतिनिधियों और ग्रामीणों को सम्मिलित करते हुए एक कमेटी का
गठन किया जाए ताकि पारदर्शिता व आमजन में विश्वास बना रहे
समस्त क्षेत्रवासी आपके सदैव आभारी रहेंगे

सादर धन्यवाद

विषय: नगरपालिका क्षेत्र (Municipal Area) क्षेत्र जिला अजमेर की तहसील कंकड़ी में गैर-मुमकिन
मदी, नालों से निकलने वाला खनिज बलरी का आप द्वारा आवेदित ।

महोदय,

उपरोक्त विषय में शासन के समसंज्यक पत्र दिनांक 20.03.2013 से आपको खनन पट्टा
अनुदान हेतु आवश्यक पूर्तियां किये जाने का मरशा पत्र (एल.ओ.आई.) जारी किया गया था। माननीय
राज्य न्यायालय द्वारा सिविल अपील संख्या 9703-9706/13, एस्.एल.पी. (सिविल) संख्या
34134/2013 एवं एस्.एल.पी. (सिविल) संख्या 34811/13 में पारित आदेश दिनांक 25.11.2013 के
अनुसरण में दिश्यांकित आवेदित क्षेत्र में खनन कार्य करने हेतु अस्थाई कार्यानुमति दिनांक
26.02.2014 तक के लिए नीचे अंकित मुख्य शर्तों एवं अन्य शर्तों की पालना की शर्त पर दी जाती
है। उक्त कार्यानुमति इस संबंध में संबंधित खनि अभियंता / सहायक खनि अभियंता कार्यालय में
की जाने वाली सविदा की तिथि से लागू होगी।

मुख्य शर्तें :-

1. एल.ओ.आई. धारक द्वारा नीचे अंकित अन्य शर्तों की पालना हेतु 1000/- रुपये को
बॉन-जुडिशियल स्टाम्प पर करार (सविदा निष्पादन) करना होगा तथा भोटेरी से प्रमाणित
कराना होगा।
2. एल.ओ.आई. धारक द्वारा करार किये जाने से पूर्व कार्यानुमति अवधि के लिए अनुपातिक
प्रीमियम राशि को बॉन-रिफण्डेबल रहेगी, विड राशि का 20 प्रतिशत वार्षिक की दर से,
खनि अभियंता / सहायक खनि अभियंता कार्यालय में ड्राफ्ट / धालान द्वारा जमा कराई
जायेगी। उक्त प्रीमियम राशि खनन पट्टे के स्थिरभाटक में समायोजित नहीं होगी, न ही
किसी प्रकार रिफण्ड की जायेगी।
3. एल.ओ.आई. धारक द्वारा खनन पट्टा के सविदा निष्पादन की स्टेज पर जमा कराई जाने
वाली 75 प्रतिशत प्रीमियम की राशि में से एक तिहाई राशि (विड राशि का 25 प्रतिशत)
करार किये जाने से पूर्व खनि अभियंता / सहायक खनि अभियंता कार्यालय में ड्राफ्ट /
धालान द्वारा जमा कराई जायेगी, शेष रही 50 प्रतिशत विड राशि खनन पट्टा के सविदा
निष्पादन के समय जमा की जायेगी।
4. एल.ओ.आई. धारक द्वारा करार किये जाने से पूर्व आवेदित खनन पट्टा के संबंध में
माइनिंग प्लान अनुमोदन हेतु प्रस्तुत करने तथा पर्यावरण क्लीयरेंस हेतु आवेदन किये जाने
की रसीद खनि अभियंता / सहायक खनि अभियंता कार्यालय में प्रस्तुत की जायेगी।
5. एल.ओ.आई. धारक को न्यूनतम रूप से उसके क्षेत्र के लिए गत आरसीसी ठेका राशि
(आरसीसी ठेके में एक से अधिक जीज क्षेत्र आने पर कुल ठेका राशि को प्रीमियम के
अनुपात में विभक्त की जाकर अनुपातिक ठेका राशि) के अनुसार बनने वाली मासिक राशि
जमा करानी होगी। रायल्टी की दरों में वृद्धि होने की स्थिति में न्यूनतम राशि में भी
तदनुसार बढ़ावरी होगी।

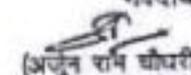

6. एल.ओ.आई. धारक का पर्यावरण प्रदूषण प्रारंभ पत्र एम.ओ.ई.एफ. द्वारा अस्वीकृत कर दिये जाने की स्थिति में यह कार्यानुमति भी निरस्त मानी जायेगी।

अन्य शर्त :-

1. एल.ओ.आई. धारक द्वारा निर्गमित की जाने वाली खनिज बजरी पर परमिट फीस नियम 63(4) में अंकित दरों पर प्रत्येक घण्टन के लिए जमा करानी होगी। इसके अलावा ईएमएफ राशि रु. 5/- प्रतिघन की दर से तथा रकबटी की राशि शिफ्ट्युल-। में अंकित दरों पर जमा करानी होगी। उपरोक्त नुस्ते में एम्प्लॉयीभर, 2008 में संशोधन होने की स्थिति में तदनुसार राशि जमा कराई जायेगी।
2. एल.ओ.आई. धारक को दिनांक 28 फरवरी, 2014 तक माननीय उच्चतम न्यायालय, नई दिल्ली के आदेशानुसार खनन कार्य की अनुमति दी जायेगी। यदि माननीय न्यायालय द्वारा आगे अद्वि बहाई जाती है तो शासन द्वारा तदनुसार अद्वि वृद्धि की जा सकेगी, जिसके लिए अनुपातिक प्रीमियम जमा कराना होगा।
3. खनन पट्टा क्षेत्र से निर्गमित होने वाले खनिज बजरी हेतु एल.ओ.आई. धारक द्वारा अपने स्तर पर रवन्ना (फार्म नं. 12 के अनुरूप लाल रंग में) छपवाये जायेगे, जिन्हें अग्रिम रीबल्टी, परमिट शुल्क एवं ई.एम.एफ. राशि जमा करवाने के पश्चात् संबंधित कार्यालय से मोहर लगवा कर जारी करवाना होगा। क्षेत्र के लिए गत आरसीसी ठेका राशि (आरसीसी ठेके में एक से अधिक लीज क्षेत्र आने पर प्रीमियम के अनुपात में विभक्त की जाकर अनुपातिक ठेका राशि) के अनुसार बनने वाली मासिक किस्त के समतुल्य राशि अग्रिम जमा कराये जाने पर रवन्ना जारी किये जायेगे। रवन्ना जारी किये जाने के पश्चात् रवन्ना अनुप्रयुक्त रहने पर जमा राशि रिफण्ड नहीं की जायेगी। विभाग द्वारा जारी वैध रट्टना के अलावा प्रयुक्त अन्य रवन्ना अवैध माने जायेगे।
4. खनन पट्टा स्वीकृति के पूर्व उक्त रवन्नाओं के माध्यम से निर्गमित खनिज का अधिशुल्क निर्धारण कराया जाना आवश्यक होगा तथा यदि कोई राशि पट्टाधारी के विरुद्ध निकलती है तो वह जमा करा बकाया नहीं का प्रमाण पत्र प्राप्त करना होगा। बकाया राशि एक सप्ताह में जमा नहीं कराने पर जमा प्रीमियम राशि जब्त कर एल.ओ.आई. निरस्त कर दी जायेगी।
5. एल.ओ.आई. धारक द्वारा माइनिंग प्लान के अनुसार ही खनन पट्टा क्षेत्र में खनिज बजरी का खनन किया जायेगा। अनियमितता होने की स्थिति में जमा प्रीमियम राशि जब्त कर कार्यानुमति निरस्त कर दी जायेगी।
6. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में अथवा अन्यत्र खनिज बजरी का स्टाक एवं भण्डारण नहीं किया जा सकेगा। यदि खनिज बजरी का अवैध खनन / अवैध निर्गमन / अवैध स्टाक / अवैध भण्डारण किया जायेगा तो जमा प्रीमियम राशि जब्त कर कार्यानुमति निरस्त कर दी जायेगी।
7. एल.ओ.आई. धारक को खनिज बजरी के खनन / निर्गमन के संबंध में माननीय सर्वोच्च न्यायालय, उच्च न्यायालय, अन्य न्यायालयों, भारत सरकार एवं राज्य सरकार के आदेशों / निर्देशों की पालना करनी होगी। साथ ही खनन कार्य, सुरक्षा, स्वास्थ्य, पर्यावरण एवं जन सुविधाओं के संबंध में वर्तमान में प्रभावी अधिनियम / नियमों तथा समय-समय पर होने वाले संशोधनों की पालना करनी होगी।
8. गैर-मुफकिन नदी / नालों के क्षेत्रों में जहां पर किसी भी विभाग द्वारा अन्य कार्य यथा पेटा कागज या अन्य किसी प्रयोजनार्थ व्यक्ति / संस्था को अनुमति दी गई है / आवंटित की हुई है या ऐसे क्षेत्रों में एल.ओ.आई. धारक संबंधित व्यक्ति / संस्था (जिसके पक्ष में अनुमति दी हुई है) / आवंटित है) की लिखित सहमति प्राप्त करने के उपरान्त ही खनिज बजरी का दोहन कर सकेगा। यदि खनन पट्टा क्षेत्रों में चारागाह भूमि में आती है तो राजस्व विभाग (राज्य सरकार) की अनुमति के बिना खनन कार्य नहीं किया जा सकेगा।

RS

9. एल.ओ.आई. धारक गैर-मुहकिन नदी-नाला क्षेत्रों में गिरने वाले प्रतिबंधित क्षेत्र जैसे रगरान, सार्वजनिक प्रयोजनार्थ कुएँ, वन विभाग या अन्य किसी संस्थान द्वारा किये गये वृक्षारोपण क्षेत्र से 45 मीटर की परिधि में तथा अन्य प्रतिबंधित क्षेत्रों में खनन कार्य नहीं कर सकेगा।
10. एल.ओ.आई. धारक क्षेत्र में कोई स्ट्रक्चर जो कि स्थाई प्रकृति का हो या पानी का बहाव अवरुद्ध करता हो, नहीं बनायेगा। खनन कार्य हेतु उपयुक्त गहराई की बेंच बनायी होगी।
11. एल.ओ.आई. धारक खनन पट्टा क्षेत्र में आने वाले छसरो के क्षेत्र से बाहर खनन कार्य नहीं करेगा।
12. एल.ओ.आई. धारक द्वारा बजरी का खनन कार्य सतह से 3 मीटर से अधिक गहराई पर एवं नदी-नाला के वाटर लेवल से नीचे नहीं किया जायेगा तथा रेल / सड़क पुल के 45 मीटर की परिधि में खनन कार्य नहीं किया जायेगा। इसकी अवहेलना करने पर राजस्थान अधिाण खनिज रियायत निबन्धावली, 1986 के नियम 46 के तहत अर्थ खनन माना जाकर कार्यवाही की जायेगी।
13. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में जगह-जगह माइनिंग नहीं की जायेगी। नदी की 3/4 चौड़ाई तक की खनन कार्य की अनुमति होगी। शेष क्षेत्र में वृक्षारोपण किया जायेगा। खनन पट्टा क्षेत्र में खनिज बजरी की माइनिंग नदी के बीच में डाउन स्ट्रीम के बीच में अथवा मीटर मोटाई की स्लाईस में की जा सकेगी। नदी की सतह पर मिट्टी से 1.5 मीटर ऊपर बजरी छोड़नी होगी।
14. नदी के दोनों किनारों पर ACQUATIC FAUNA & FLORA को संरक्षित रखना होगा।
15. प्रत्येक 1.00 कि.मी. खनन क्षेत्र के बाद 50 मीटर चौड़ाई में खनन प्रतिबंधित रहेगा। खनिज बजरी के खनन के दौरान निकलने वाला खनिज प्रवेल / बोल्डर्स का प्रत्येक एक कि०मी० के बाद इकट्ठा किया जाकर उसकी दीवार इस प्रकार बनाई जायेगी कि पानी का बहाव अवरुद्ध न हो।
16. जिन स्थानों पर बजरी का खनन कार्य किया जा चुका है, उन स्थानों को नदी में उपलब्ध भराव से ही समतल करके पट्ट दिया जायेगा। इसके लिए बाहर का कोई कचरा / मलबा नहीं डाला जा सकेगा।
17. नदी क्षेत्र में खनन कार्य इस प्रकार किया जायेगा कि आसपास पौधारोपण पुनः पनप सकें। खनन क्षेत्र के आसपास स्थानीय प्रजातियों के वृक्षों का पौधारोपण किया जायेगा। जो रास्ते अनुपयोगी हैं, उनको स्थानीय प्रजाति के पौधों से वृक्षारोपण किया जायेगा।
18. नदी/नालों का एवं इनके आसपास जो नहरें बनी हुई हैं उनका प्रवाह बाधित नहीं किया जायेगा तथा उनके किनारों का समुचित रख-रखाव किया जायेगा।

सेवा में,

दिनांक : 26.10.2014

श्रीमान सहायक खाने अतिथिगार,
खान एवं भूविज्ञान विभाग,
राजपुर, अजमेर

विषय : खान पट्टा क्षेत्र 1025.70 हे० क्षेत्र जिला अजमेर की राहसील चौकड़ी में गैर मुम्किन
नदी, नालों, बाटो से (खसरो के अनुसार) निकालने वाला खनिज हजरी के बाबत।

गोप्य,

निरादन है कि माननीय सर्वोच्च न्यायालय के निर्देशानुसार अस्वास्थ्य खान अनुमति के तहत खान क्षेत्र में खान कार्य हमारे द्वारा दिनांक 30.12.2013 से प्रारम्भ किया गया है और समय-समय पर कड़ाई नदी बांधों के अनुसंधान में प्रभावशील है।

2. निरिदा के समय हजरी दरी पर नियंत्रण का कोई प्रावधान नहीं होने के कारण हमने 30.75.210/- रुपये की रिजर्व प्राइज के स्थान पर 23.48.00.000/- रुपये की निरिदा नदी की और तदनुसृत ही 50 प्रतिशत राशि विभाग के पास जमा है। श्रीमान जिला कलेक्टर, अजमेर द्वारा खान स्थल पर निर्धारित बिजली दरें आधिकारिक रूप से तर्क संगत नहीं है।

3. इस सम्बन्ध में अजमेर स्थान माननीय राजस्थान उच्च न्यायालय में दरी की मण्डा के लिए प्रस्तुत प्रपत्र की ओर विस्तारاً चिह्नित है उसमें चौकड़ी की मण्डा में फिट माउथ पर लागत दर 105.03 रुपये दर्शायी है जबकि फिट माउथ पर बिजली दर 110 रुपये निर्धारित की गयी है, साथ ही जबकि मराई की दर मात्र 20 रुपये टन दर्शायी है जबकि निकटतम टैक्सी टैंक में गयी दर 65 रुपये है, पेटे आदि की दर देवली में 30 रुपये है जबकि वहाँ 10 रुपये ही है। ऐसी स्थिति में निरन्तर घाटा उठाकर खान कार्य की शानू रखना संभव नहीं है।

4. अद्यपर हम 01.11.2014 से खान क्षेत्र में अस्वास्थ्य खान अनुमति के तहत कार्य संचालन कर रहे हैं।

5. 31.10.2014 तक देय खानत हजरी हमने विभाग में जमा करा दी है और बची हुई खानत कुर्छे एवं विवरण हम नवम्बर, 2014 के प्रथम सप्ताह में विभाग को जमा करा दगे।

6. MMCR 1986 के Rule 8 के तहत पर्यावरण अनुमति प्राप्त होकर अनुमति निष्पादन तक, हम प्रतिमाह 8 प्रतिशत खानत जमा करके, खाने और पर्यावरण अनुमति प्राप्त होने पर नियमित लीज का संचालन करने के लिए भी बाध्य रहेंगे।

जयपुर, दिनांक: 15 SEP 2017

आदेश

श्री भरत सिंह पुत्र श्री शिव दयाल सिंह शेखावत निवासी 336, मोहन नगर-बी, बीजेएस कोलोनी, जोधपुर (राज.) के पक्ष में जिला अजमेर की तहसील कंकड़ी के गैर-मुमकिन नदी-माली से निकलने वाले खनिज बजरी क्षेत्र 1025.70 हेक्टेयर का खनन पट्टा राजस्थान अप्रधान खनिज रियायत नियम, 1986 के अन्तर्गत पांच वर्ष की अवधि हेतु स्वीकृत करने बाबत मंशा पत्र (एल.ओ.आई.) दिनांक 20.03.2013 से जारी किया गया।

माननीय सर्वोच्च न्यायालय द्वारा सिविल अपील संख्या-9703-9706/13, एस.एल.पी. (सिविल) संख्या-34134/2013 एवं एस.एल.पी. (सिविल) संख्या-34811/2013 में पारित आदेश दिनांक 25-11-2013, दिनांक 24.02.2014 एवं दिनांक 27.03.2014 के अनुसरण में आवेदित क्षेत्र में खनन कार्य हेतु अस्थाई कार्यानुमति अग्रिम आदेश तक के लिए जारी की गई। अस्थाई कार्यानुमति के तहत एल.ओ.आई. होल्डर के द्वारा दिनांक 29.12.2013 से संविदा (करार) करवाया गया।

एलओआई धारक द्वारा पर्यावरण क्लीयरेंस प्रस्तुत नहीं करने तथा दिनांक 31.10.2014 से खनन कार्य बंद करने पर सहायक खनि अभियन्ता द्वारा एलओआई/अस्थाई कार्यानुमति की शर्तों के उल्लंघन के संबंध में दिनांक 05.04.2017 से पन्द्रह दिवसीय नोटिस जारी किया गया। उक्त नोटिस का जवाब एलओआई धारक द्वारा दिनांक 10.04.2017 से प्रस्तुत किया गया जिसे निदेशालय द्वारा संतोषप्रद नहीं मानते हुए पत्र दिनांक 31.08.2017 से मंशा पत्र एवं अस्थाई कार्यानुमति निरस्त करने हेतु प्रस्तावित किया है।

अतः एलओआई धारक द्वारा विभाग के नोटिस दिनांक 05.04.2017 की पालना नहीं करने के कारण मंशा पत्र व अस्थाई कार्यानुमति को निरस्त कर, आवेदन पत्र आवेदन शुल्क जमा करते हुए एतद्वारा अस्वीकृत किया जाता है।

आज्ञा से,

(हस्ताक्षर)

Prithvi Wing, 2nd Floor, Akbarji,
JorBagh Road, New Delhi-110 003

Dated: 3rd February, 2022

To,
Mrs Bharat Singh,
Mohan Nagar, BJS Colony, Jodhpur (Raj) - 342006.

Subject: River Sand Mining Project (Minor Mineral) (Khari River Bed) with proposed production capacity of 30.0 Lakh TPA (ROM) by M/s Bharat Singh, located at Revenue villages of Tehsil-Kekri, DistrictAjmer, Rajasthan (MLA 1025.70ha) - Environmental Clearance - regarding-

Sr.

This has reference to the proposal of M/s Bharat Singh vide proposal no. I/RJ/MIN/20311/2013 for mining of River Sand (Minor Mineral) with proposed production capacity of 30.0 Lakh TPA (ROM). The mine lease area is located at village (s)-Chausta, Chandihali, Bajta, Devkhedi, Dhundhari, Tankawas, NayaGaonMehrukala, Bhandawas, Gulgaon, Sadara, Sadari, Rapura, Banediya, Mehrukala, Aami, Balapura, Gothra, Devpura, Kadera&Alamboo, Tehsil-Kekri& District-Ajmer, Rajasthan in the mine lease area of 1025.70ha. The mine lease area lies on the Khari River bed. The Latitudes and Longitudes of the mine lease area lies between 25°49'30.81"N to 25°50'33.30"N and 75°01'23.74"E to 75°20'56.48"E on Survey of India topographic numbers 450/1, 450/5. The Project is located in Seismic zone-II.

2. The proposal of TOR was considered by the Expert Appraisal Committee in its 10th Meeting held during 21st-23rd August, 2013 to determine the Terms of Reference (TOR) for undertaking detailed EIA study. The TOR was issued by MoEF&CC vide letter No J-11015/ 222/2013-IA, II (M), dated 15th October, 2013. The Proponent submitted the EIA/EEMP Report online to the Ministry for seeking environmental clearance after conducting Public Hearing.

3. The mine lease area is 1025.70ha which is Khari River. No forest land is involved. Letter of Intent (LOI) for grant of mining lease for minor mineral River Sand over an area of 1025.70ha has been granted by the Govt. of Rajasthan, vide letter No P-7(19)/Khari/Group-2/2013 dated 20.03.2013 for the period of 5 years. The Mining Plan has been approved by Director, Mines and Geology, Govt. of Rajasthan, vide letter no. 3527/Mine Plan, dated 28.06.2013. Department of Mines And Geology, Rajasthan

Joint Rajasthan Mine Mineral Concession Rule, 2017 (RMMCR, 2017) on 13/2017 that Rule 5 (4) of RMMCR, 2017 provides for completion of all formalities by LOI Holder and execution of lease within 13 months from the notification of the Rule i.e. from 13/2017. Riversand mining leases in Rajasthan were issued LOI in year 2013 and by virtue of Hon'ble Supreme Court order dated 25/11/2013, 82 LOI holders (out of 105) were issued temporary work permit without EC. Hon'ble Supreme Court in SLP 10587/2019 gave judgement on 11/11/2021 and directed State government to amend Rule 5(4) as per finding of Central Empowered Committee. In compliance of the above mentioned judgement, Rajasthan Government issued a Gazette notification on 16/11/2021 and extended validity of LOI to 68 months from issuance of rule i.e. 13/2017. Therefore, as per notification dated 16/11/2021 LOI is valid till 31st October 2022.

4 Mining is by Semi-Mechanized opencast method. Excavation will be carried out up to a maximum depth of 3 meters from surface of deposit and not less than one meter from the water level of the River Channel whichever is reached earlier. Proponent has informed that 1015.45 ha area will be used for excavation and 3.75 ha for the green belt development. The site elevation is 358m - 316m AMSL. The Ground water depth is 6.8m bgl in pre-monsoon season and 5-6 m bgl in post-monsoon season. The total water requirement is 21 KLD including water demand for domestic purpose, dust suppression and plantation development which shall be met by tanker supply. No Objection Certificate from Gram Panchayat has been obtained in this regard. The working is proposed on higher elevations, no ground water interception during the mining operations is envisaged.

5 Project Proponent has reported that mining will be done leaving a safety distance from the banks i.e. 15% of the width of the River from both the banks. Mining will be done only during day time and completely stopped in monsoon season. No mining will be done in the zone of 100m on either side of the structure/bridge. Project Proponent reported that there will be construction of ramps, temporary rest shelters during operational phase and these will be removed at the time of mine closure.

6 Mineral will be transported through road. Project Proponent has made the Traffic Analysis survey and reported that 500 no. of trucks will be deployed per day (20 tonnes capacity each) which increase 2250 PCUs per day and the level of service (LOS) remains up to 'A' & 'B'. Project Proponent reported that roads will be repaired regularly and maintained in good condition. A Supervisor will be appointed to regulate the traffic movement near site. Speed breakers and signage will be maintained at all the sensitive places.

7. Project Proponent reported that no National Parks, Wildlife Sanctuaries, Tiger Reserves fall within the study area (10 km radius of the mine boundary). There is one Protected Forest and three Reserved Forest. State Government of Rajasthan vide letter no. 1323 dated 06/01/2015 has confirmed that the lease does not fall in Aravali range.

8. The baseline data was generated for the period during October 2013 to December 2013. The parameters for water and air quality were within permissible limits. The Committee deliberated the baseline data collected by the Project Proponent. Project Proponent reported that no R&R plan is applicable for this project as the mine lease area lies entirely on the River bed and there is no establishment on the site.

9. Public Hearing for the proposed Project was conducted on 29.05.2014 at 03.00 pm at Govt. Secondary School, Village Tankawas, Tehsil Kekri, Ajmer. The Public Hearing was presided over by Mr. Yashoda Nandan Srivastava, Additional District Collector II. The representatives from the Rajasthan State Pollution Control Board were also present. The issues raised during the Public Hearing were also considered and discussed during the meeting, which inter-alia, included that priority to local people in employment, effective implementation of measures to control dust pollution, water conservation measures, social and other village development activities, and not to harm nearby fields. Project Proponent has made the Action Plan with budgetary provisions. The Committee deliberated and is of the view that PP needs to implement the Action Plan and the Implementation Report has to be submitted to the Regional Office of the MoEF&CC every six months.

10. The cost of the Project is Rs 7.0 Crores. The Proponent has earmarked Rs. 3.0 Lakhs towards Environmental Protection Measures and Rs. 25.0 Lakhs per annum towards recurring expenses. Proponent informed that Rs. 35.0 Lakhs have been earmarked towards CSR activities for next five years of mining operation. The Project Proponent has also made a submission that in accordance to Hon'ble Supreme Court of India's orders dated 25.11.2013, 24.02.2014 and 27.03.2014 (In Civil Appeal No. 9703-9706 of 2013) production of ~4,69,588 Tonnes of Bajri has been made during October 2014 to March 2015.

11. The Committee deliberated at length on the information submitted by PP and recommended the Proposal during 29-30 April, 2015 for environmental clearance for Mining of Mineral Sand (Minor Mineral) with proposed production capacity of 30.0 Lakhs TPA (ROM) in the MLA 102570ha.

12. Hon'ble Supreme Court vide order dated 11.11.2021 in the Interlocutory Application No.28984 of 2021 in Special Leave Petition (Civil) No. 10587 of 2019 Bajri Lease Lol Holders Welfare Society Vs Ors considered the report submitted by CEC, in which the relevant recommendations are as follows:

The MoEF&CC will issue EC in respect of all the valid Lol holders recommended by the EAC in its meeting held during 2014-2016 without insisting on submission of scientific study report as a precondition for grant of EC within a period of three months. MoEF&CC shall also prescribe detailed methodology in consultation with CMPDI for undertaking replenishment study during the course of mining as discussed in para 11 (ii) of this Report.

Hon'ble Supreme Court has approved the recommendations made by the CEC for implementation forthwith.

13. Central Mine Planning and Design Institute (CMPDI) has prescribed the detailed methodology for undertaking replenishment study. A copy of report is enclosed. Project proponent is directed to carry out replenishment studies as per the methodology prescribed by CMPDI and under the overall supervision, monitoring and control of the State Mining Department. The State Mining Department shall ensure strict adherence to the procedure and methodology prescribed by CMPDI for conducting replenishment study and ensure that such replenishment study report is submitted at the prescribed time as mentioned in the report of CMPDI and that appropriate necessary action is taken based on such replenishment study report.

14. In compliance to Honble Supreme Court order dated 11.11.2021, the Ministry of Environment, forest and Climate Change has examined the proposal in accordance with the Environmental Impact Assessment Notification, 2006 and further amendments thereto and after accepting the recommendation of EAC meeting held during 29-30 April, 2015, here by decided to accord the Environmental Clearance (EC) under the provisions thereof to the above mentioned proposal of Mrs. Bharat Singh for production of 30 lakhs (TPA) of Sand/Bari from 1025.70ha at Revenue villages of Tehsil-Kekri District Ajmer, Rajasthan.

A. Specific Conditions

(i) Project Proponent shall appoint an Occupational Health Specialist for Regular and Periodical medical examination of the workers engaged in the Project and records maintained, also, Occupational health check-ups for workers having some ailments like BP, diabetes, habitual smokers, etc shall be undertaken once in six months and necessary remedial/preventive measures taken accordingly. Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted. All the old age people of the surrounding villages, may be provided medical facilities. (ii) Project Proponent shall appoint a Monitoring Committee to monitor the replenishment study, traffic management, levels of production, River Bank erosion and maintenance of Road etc. Proponent to ensure that fluoride free drinking water needs to be provided to the villagers; (iii) Transport of mineral will not be done through any of the villages; (iv) Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral; and transport of minerals will be as per IRC Guidelines with respect to complying with traffic congestion and density. (v) Implementation of Action Plan on the issues raised during the Public Hearing. The Proponent shall complete all the tasks as per the Action Plan submitted with the budgetary provisions during the Public Hearing. (vi) The pollution due to transportation load on the environment will be effectively controlled & water sprinkling will also be done regularly. Vehicles with PUC only will be allowed to ply. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded. Project should obtain PUC certificate for all the vehicles from authorized pollution testing centre; (vii) Washing of all transport vehicle should be done inside the mining lease; and (viii) Environmental Clearance is subject to final outcome of Honble High Court of Rajasthan and other Court of Law, if any. (ix)

PP shall implement the conditions prescribed in Enforcement & Monitoring Guidelines for Sand Mining 2020, as applicable for PP and also GoP issued by the Rajasthan State Government for prevention of illegal river sand mining in the state and (v) Replenishment study report- Central Mine Planning and Design Institute (CMPDI) has prescribed the detailed methodology for undertaking replenishment study. A copy of report is enclosed. Project proponent is requested to submit the replenishment study report in one year, as per methodology prescribed by CMPDI (vi) Permissible Mining of River Bed Material (Sand/Bari) shall be limited to 30 lakhs (TPA) from an effective mineable area of 1025.70ha, with a maximum mineable depth of 1 meter. The permissible mineable material of 30 lakhs (TPA) will be valid till one year from the day of issuance of the EC. (vii) For subsequent period, PP shall submit fresh annual replenishment study to MoEF&CC for amendment in EC for mineable quantity and maximum permission depth for mining based on the scientific findings of replenishment study. Such study shall be placed before EAC for appraisal for next three years to assess rate of deposition and accordingly, mineable production capacity and depth can be prescribed based on trends analysis, provided it is found scientifically satisfactory by the EAC. The placing of the study report before EAC is mandatory for initial three years.

B. Special Conditions:

Impact Category	S.No.	Environmental Conditions
Stakeholder Engagement	1.	In the case of private land not owned by the lease holder an Engagement affidavit should be obtained regarding consent of the concerned land owner (s) for carrying out the mining operation.
	2.	Stakeholder awareness and ability to raise concerns and getting it to be addressed.
	3.	Implementation of Action Plan on the issues raised during the Public Hearing. The Proponent shall complete all the tasks as per the Action Plan submitted with the budgetary provisions during the Public Hearing.
	4.	Having valid lease and all the permits is essential.
	5.	To establish a Monitoring Committee including Local Panchayat, to check on traffic due to transportation and submit an annual report on the same.
	6.	The directions given by the Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP(C) Nos. 10628-10629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 may be strictly followed.
	7.	All the provisions made and restrictions imposed.

		<p>as covered in the Minor Mineral Rule, shall be complied with, particularly regarding Environment Management Practices and its fund management and Payment of compensation to the land owners.</p>		
Sustainable Practices	Mining	8 No River sand mining be allowed in rainy season.		
		9 To submit annual replenishment report certified by an authorized agency. In case the replenishment is lower than the approved rate of production, then the mining activity / production levels shall be decreased / stopped accordingly till the replenishment is completed.		
		10 Mining shall be done in layers to avoid ponding effect and after first layer is excavated, the process will be repeated for the next layers.		
		11 To maintain safety and stability of Riverbanks, i.e. 3 meter or 10% of the width of the River whichever is more will be left intact as no mining zone.		
		12 No stream should be diverted for the purpose of sand mining. No natural water course and/ or water resources are obstructed due to mining operations.		
		13 No blasting shall be resorted to in River mining and without permission at any other place.		
		14 Depending upon the location, thickness of sand, deposition, agricultural land/Riverbed, the method of mining may be manual, semi-mechanized or mechanized, however, manual method of mining shall be preferred over any other method.		
		15 The EC holder shall keep a correct account of quantity of mineral mined out, dispatched from the mine, mode of transport, registration number of vehicle, person in-charge of vehicle and mine plan. This should be produced before officers-in-charge of Central Government and State for inspection.		
		16 For each mining lease site the access should be controlled in a way that vehicles carrying mineral from that area are tracked and accounted for.		
		17 Use of technology like Bar Coding, Information and Communications Technology (ICT), Web based and ICT enabled services, mobile SMS App etc. to account for weight of mineral being taken out of the lease area and the number of trucks moving out with the mineral shall be made.		
		Monitoring the Mining of Mineral and its Transportation		
		Noise Management		18 Noise arising out of mining and processing shall be abated and controlled at source to keep within

	permissible limit
	19. Restricted working hours. Sand mining operations has to be carried out between 6 am to 7 pm.
Air Pollution and Dust Management	20. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly.
	21. Air Pollution due to dust, exhaust emission or fumes during mining and processing phase should be controlled and kept in permissible limits specified under environmental laws.
	22. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded. Wheel washing facility should be installed and used.
Management of Visual Impact	23. The mining operations are to be done in a systematic manner so that the operations shall create a major visual impact on the site.
Bio-Diversity Protection	24. Restoration of flora affected by mining should be done immediately. Twice the number of trees destroyed by mining to be planted preferably of indigenous species.
	25. No mining lease shall be granted in the forest area without forest clearance in accordance with the provisions of the Forest Conservation Act, 1980 and the rules made thereunder.
	26. Protection of turtle and bird habitats shall be ensured.
	27. Spring sources should not be affected due to mining activities. Necessary Protection measures are to be incorporated.
Management of Instability and Erosion	28. The EC should stipulate conditions for adequate steps to check soil erosion and control debris flow etc. by constructing engineering structures.
	29. Use of oversize material to control erosion and movement of sediments.
	30. No overhangs shall be allowed to be formed due to mining and mining shall not be allowed in area where subsidence of rocks is likely to occur due to steep angle of slope.
	31. No extraction of stone/ boulder/ sand in landside prone areas.
	32. Controlled clearance of riparian vegetation to be undertaken.
Waste Management	33. Site clearance and tidiness is very much needed to have less visual impact of mining.
	34. Rubbish burial shall not be done in the Rivers.
Pollution Prevention	35. Effluent discharge should be kept to the minimum and it should meet the standards prescribed.

Protection of Infrastructure	36 Mining shall not be undertaken in a mining lease located in 200-500 meter of bridge, 200 meter upstream and downstream of water supply / irrigation scheme, 100 meters from the edge of National Highway and railway line, 50 meters from a reservoir, canal or building, 25 meter from the edge of State Highway and 10 meters from the edge of other roads except on special exemption by the Sub-Divisional level Joint Inspection Committee
Enhancement of Road Safety	37 Mining activities shall not be done for mine lease where mining can cause danger to site of flood protection works, places of cultural, religious, historical, and archaeological importance 38 Vehicles used for transportation of sand are to be permitted only with fitness and PUC Certificates. 39 Junction at take-off point of approach road with main road be properly developed with proper width and geometry required for safe movement of traffic by concession holder at his own cost. 40 Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral and transport of minerals will be as per IRC Guidelines with respect to complying with traffic congestion and density. 41 No stacking allowed on road side and also along National Highways.
Closure and Reclamation of Mined Out Area	42 The Project Proponent shall undertake phased restoration, reclamation and rehabilitation of land affected by mining and completes this work before abandonment of mine 43 Site specific plan with eco-restoration should be in place and implemented.
Health and Safety	44 Health and safety of workers should be taken care of 45 Transport of mineral will not be done through villages / habitations. 46 The Project Proponent shall make arrangement for drinking water, first aid facility (along with species specific anti-venom provisioning) in case of emergency for the workers. 47 Project Proponent shall implement the Disaster Management Plan if the mine lease area is located in Seismic Zone-IV. Project Proponent shall appoint a Committee to have a check over any disaster to warn workers well before for the safety of the workers. Emergency helpline number will be displayed at all levels. 48 Project Proponent shall appoint an Occupational

		Health Specialist for Register and Periodical medical examination of the workers engaged in the Project and records maintained also Occupational health check-ups for workers having some ailments like BP, diabetes, habitual smokers, etc shall be undertaken once in six months and necessary remedial/preventive measures taken accordingly. Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted.
Monitoring the Impact of Mining	49.	The Project Proponent shall report monitoring data on replenishment, traffic management, levels of production, River Bank erosion and maintenance of Road etc.

C. Standard conditions

I. Statutory compliance

- 1) The EC granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc. required to be obtained or standards / conditions to be followed under any other Acts/ Rules/ Subordinate legislations, etc., as may be applicable to the project.
- 2) This Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause Conditions as may be applicable.
- 3) The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
- 4) The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
- 5) The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No Z-11013/57/2014-IA II (M), dated 29th October, 2014, regarding "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine-lease area".
- 6) The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.

- 7) A copy of EC letter will be provided to concerned Panchayat / local NGO etc. by PP / any, from which suggestion / representation has been received while processing the proposal.
- 8) The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.paryesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.

II. Air quality monitoring and preservation

- 9) The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO₂, CO and SO₂ etc. as per the methodology mentioned in NAAQS-Notification No. S-29016/2009/PC/M, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.
- 10) Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, motorised road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipment/ machines and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board.

III. Water quality monitoring and preservation

- 11) Regular monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies and or streams which are flowing in an around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring of water table in open dug well located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on si-

monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.

- 12) Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
- 13) The Project Proponent shall undertake regular monitoring of natural water courses/ water resources/ springs and perennial nullahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
- 14) Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.
- 15) Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
- 16) The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEFCC and State Pollution Control Board/Committee.

IV. Noise and vibration monitoring and prevention

- 17) The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress

may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed, by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day night hours.

- 18) The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs/muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.

V. Mining plan

- 19) The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and top soil etc. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O/B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change, which entail adverse environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form of Short Term Permit (STP), Query license or any other name.

VI. Land reclamation

- 20) The reject/waste generated during the mining operations shall be stacked at earmarked waste dump sites only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of waste dumps.

VII. Transportation

- 21) No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain

Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.

- 22) The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging systems etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.

VIII. Green Belt

- 23) The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.

IX. Public hearing and human health issues

- 24) Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructural facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
- 25) The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.

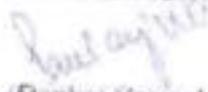

X. Miscellaneous

- 26) The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.
- 27) The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
- 28) The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEF&CC.

As concerned Regional Office, Control Pollution Control Board and State Pollution Control Board.

- 29) A separate Environmental Management Cell with suitable qualified manpower should be set up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC.
 - 30) The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC officer(s) by furnishing the requisite data / information / monitoring reports.
 - 31) The mining lease holders shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
15. The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
16. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attracts action under the provisions of Environment (Protection) Act, 1986.
17. The above conditions will be enforced inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/ High Court and any other Court of Law relating to the subject matter.
18. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
19. This issues with the approval of Competent Authority

Encl:As above

Yours faithfully,

 (Pankaj Verma)

आदेश

श्री भरत सिंह पुत्र श्री शिवदयाल सिंह शेखावात, निवासी 398, मोहन नगर बी. बी. जे. एस. कॉलोनी, जोधपुर (राज.) के पक्ष में सहायक खनिज अनियन्ता, सावर के क्षेत्राधिकार में जिला अजमेर की राहसूल चौकड़ी से निकलने वाला खनिज बजरी क्षेत्र 1025.70 हेक्टेयर का खनन पट्टा स्वीकृति हेतु मंशा पत्र (एल.ओ.आई.) शासन के समसंख्यक पत्र दिनांक 20.03.2013 से जारी किया गया।

माननीय सर्वोच्च न्यायालय द्वारा Petition (s) for Special Leave to Appeal (c) No (s) 34811/2013 नवीन शर्मा बनाम राजस्थान राज्य एवं अन्य में पारित आदेश दिनांक 16.11.2017 से राज्य में खनिज बजरी के समस्त 82 खनन पट्टों/अस्थाई कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से रोक लगा दी गई। माननीय सर्वोच्च न्यायालय के उक्त निर्णय के अनुसरण में निर्देशालय द्वारा पत्र दिनांक 17.11.2017 से खनिज बजरी के समस्त खनन पट्टों/अस्थाई कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से बन्द कराये जाने के निर्देश दिये गये, जिसकी पालना में उक्त खनन पट्टा क्षेत्र में खनन गतिविधियां तुरन्त प्रभाव से बन्द कराई गई। परन्तु उक्त मंशा पत्र के तहत मंशापत्र धारक द्वारा दिनांक 01.11.2014 से स्वयं ही खनन कार्य बन्द कर दिया गया।

मंशा पत्र धारक द्वारा अस्थाई कार्यानुमति की शर्तों एवं शर्तिका का उल्लंघन किए जाने पर शासन आदेश दिनांक 15.09.2017 से मंशा पत्र एवं अस्थाई कार्यानुमति सहित आवेदन पत्र निरस्त किया गया। मंशा पत्रधारक द्वारा माननीय उच्च न्यायालय, जयपुर में विशेष अपील संख्या 419/2018 प्रस्तुत की गई। विशेष अपील संख्या 419/2018 में माननीय उच्च न्यायालय, जयपुर द्वारा निर्णय दिनांक 07.05.2022 के द्वारा माननीय उच्चतम न्यायालय निर्णय दिनांक 11.11.2021 के तहत नियम 5(4) में किए गए संशोधन के दृष्टिगत 3 माह में निर्णय करने के निर्देश दिए गए। शासन द्वारा इस निर्णय के विरुद्ध अपील नहीं करने का निर्णय लिया गया है।

शासन के पत्र दिनांक 14.10.2022 के द्वारा मंशा पत्र अस्वीकृति आदेशों को अपास्त करते हुए बहाल करने तथा माननीय उच्चतम न्यायालय के निर्णय दिनांक 11.11.2021 के निर्देशानुसार खनिज बजरी के वास्तविक खनन की अवधि से शेष अवधि तक, आईज-नॉन अवधि वाली जाकर कार्यवाही किये जाने का निर्णय लिया गया।

अतः, निर्देशालय के प्रस्ताव दिनांक 27.03.2023 के अनुसार श्री भरत सिंह के पक्ष में आईज-नॉन पीरियड की अवधि दिनांक 02.11.2014 से दिनांक 28.12.2018 (4 वर्ष 01 माह 28 दिवस) तक मानते हुये खनन पट्टा स्वीकृति आदेश की पालना में कब्जा संभलाये जाने की दिनांक से 4 वर्ष 01 माह 28 दिवस तक की अवधि के लिये मंशा पत्र को बहाल करते हुए राजस्थान अध्यान खनिज रियायत नियमावली, 2017 में अंकित निबंधों एवं प्रतिबंधों तथा समय-समय पर हुये संशोधनों के अतिरिक्त निम्न शर्तों पर एतद्वारा स्वीकृत किया जाता है-

1	खनिज	बजरी
2	क्षेत्रफल	1025.70 हेक्टेयर
3	अवधि	दिनांक 29-12-2013 से 28-12-2018 तक

		डाईज नॉन रिरीयड (04 वर्ष 01 माह एवं 28 दिवस) जोड़े जाने से खनन पट्टा अवधि इस आदेश के तहत कब्जा संभलाये जाने की दिनांक से 04 वर्ष 01 माह एवं 28 दिवस तक
4	प्रतिव्यय राशि	23,48,00,000/- उक्त राशि का रिबर भाटक एवं रीयल्टी में समायोजन नहीं होगा।
5	रिबर भाटक	30,77,100/-प्रतिवर्ष कार्यानुमति की तिथि से 01-11-2014 देय होगा। पुनः कब्जा संभलाये जाने की दिनांक से 04 वर्ष 01 माह एवं 28 दिवस तक राशि सपये 81,54,200/-प्रतिवर्ष की दर से। (सविदा निष्पादन से पूर्व कार्यानुमति की शर्तों के अनुसार राशि जमा करावेगा)
6	प्रतिभूति राशि	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 19 तथा इसमें समय समय पर संशोधन के अनुसार।
7	परफोरमेंस प्रतिभूति	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 20 तथा इसमें समय समय पर संशोधन के अनुसार।
8	द्वितीय आश्वासन	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 20(14) तथा इसमें समय समय पर संशोधन के अनुसार।
9	सीमांकन शुल्क	राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के नियम 81(2) के अनुसार राशि सपये 50,000/-सीमांकन शुल्क जमा कराकर क्षेत्र का सीमांकन करावेगा।
10	अधिभूतक	सपये 45/-प्रति टन एवं राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 की द्वितीय अनुसूची में समय समय पर होने वाले संशोधन अनुसार।
11	डीएमएफ ट्रस्ट कण्ड	रीयल्टी राशि की 10 प्रतिशत राशि के बराबर एवं डीएमएफटी क्लस 2018 में समय समय पर होने वाले संशोधन अनुसार।
12	आर.एल.एम.ई. टी	रीयल्टी राशि की 2 प्रतिशत राशि के बराबर एवं आर.एल.एम.ई.टी क्लस 2020 में समय समय पर होने वाले संशोधन अनुसार।
13	भूतल भाटक	जैसा की राजस्व अधिकारी निर्धारित करे।
14	अन्य कर	राजकीय नियमानुसार।
15	अन्य शर्त	<ol style="list-style-type: none"> पट्टाधारी विविदा की शर्त, खनन पट्टे की सविदा एवं राजस्थान अधिग्रहण खनिज रियायत नियमावली, 2017 के प्रावधानों तथा उसमें समय-समय पर होने वाले संशोधनानुसार पालना करने हेतु बाध्य होगा। माननीय उच्चतम न्यायालय, नई दिल्ली के शमश दायर एल.एल.पी संख्या 10587/2019 बजरी सीज एल.ओ.आई. होस्टर्स वेलफेयर सोसायटी बनाम राजस्थान राज्य व अन्य में सेन्ट्रल एम्पावर्ड कमिटी द्वारा प्रस्तुत रिपोर्ट दिनांक 23-12-2020 के पैरा संख्या 11(iii) तीज डीड का पार्ट होगा तथा इस रिपोर्ट के पैरा संख्या 11(iii) में वर्णित प्रक्रिया तथा दिशा निर्देशों की पालना करने हेतु पट्टाधारी बाध्य होगा। मीके पर किसी भी प्रकार का राजस्व सीमा संबंधी विवाद होने की स्थिति में राजस्व व खनिज विभाग द्वारा संयुक्त रूप से मीका निरीक्षण किया जाकर आवश्यक निर्णय किया जाएगा जो अंतिम होगा। खनन पट्टे की अवधि के दौरान अगामी अवधि के लिये नियमानुसार नवीन खनन पट्टा दिये जाने की प्रक्रिया प्रारम्भ करने पर पट्टाधारी की कोई अपरिचित विचारणीय नहीं होगी। बजरी रोडन के संबंध में माननीय न्यायालयों एवं शसन द्वारा समय-समय पर दिये जाने वाले आदेशों की पालना हेतु पट्टाधारी बाध्य होगा। पट्टाधारी को पर्यावरण मंत्रालय द्वारा जारी होने वाली पर्यावरण क्लीयरेंस में अपिमत शर्तों/निर्देशों की पूर्ण पालना सुनिश्चित करनी होगी तथा इसके अतिरिक्त पर्यावरण मंत्रालय द्वारा समय-समय पर जारी होने वाले निर्देशों की पालना करनी होगी। साथ ही पट्टाधारी द्वारा पर्यावरण मंत्रालय से इन्वायरनेंट क्लीयरेंस (ई.सी.) प्राप्त होने के पश्चात ही क्षेत्र में खनन कार्य प्रारम्भ करे

	सकोगा। 7 पट्टा सविदा पंजीयन के उपरान्त संबंधित प्रदूषण नियंत्रण मण्डल से कन्सेंट टू आपरेट प्राप्त कर प्रस्तुत करना होगा तभी खनन कार्य की अनुमति जारी की जायेगी।
--	--

नोट :-

1. अनुदानी राजस्थान अध्याय खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत सविदा निष्पादन हेतु स्वीकृति आदेश प्राप्ति की तिथि से 3 माह की अवधि में अंतर प्रिनियम राशि, वार्षिक स्थिर भाटक, प्रतिभूति राशि, परफोरमेन्स प्रतिभूति राशि, किस्तीय आरधारान की राशि व निर्धारित राशि के गॉन प्युडिशियल स्टाम्प पेपर प्रस्तुत कर सविदा निष्पादन करायेगा।
2. अनुदानी को सविदा निष्पादन से पूर्व अस्थाई कार्यानुमति के तहत कार्यानुमति की शर्तों के अनुसार किये गये खनिज के निर्गमन का अधिकूलक निर्धारण अनुसार समस्त बकाया जमा करानी होगी। बकाया न होने पर ही सविदा निष्पादन कराया जायेगा।
3. अनुदानी द्वारा अब तक प्रिनियम मद में जमा समस्त राशि यदि प्रिनियम राशि से कम है तो अंतर राशि जमा करानी होगी एवं अधिक राशि जमा होने पर रिफण्ड/समायोजित की जायेगी।
4. अनुदानी द्वारा एल.ओ.आई. की अवधि बढाने हेतु अब तक लेट फीस के रूप में राशि जमा कराई गई है। यह समस्त राशि रिफण्ड/समायोजित की जायेगी। क्योंकि खनन पट्टे की अवधि अस्थाई कार्यानुमति की तिथि से मानी है।
5. अनुदानी द्वारा सविदा प्रपत्र प्राप्त होने की तिथि से 2 माह की अवधि में सविदा का पंजीयन करा प्रस्तुत नहीं करने पर जमा प्रिनियम राशि, प्रतिभूति राशि व परफोरमेन्स प्रतिभूति राशि जमा करते हुये राजस्थान अध्याय खनिज रियायत नियमावली, 2017 के नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिसंहृत (रिबोक) कर दिया जायेगा।
6. अनुदानी द्वारा सविदा निष्पादन हेतु राजस्थान अध्याय खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत याचित पूर्तियां कर 3 माह की अवधि में सविदा निष्पादन नहीं कराने पर बिना किसी पूर्व सूचना के जमा प्रिनियम राशि, प्रतिभूति राशि परफोरमेन्स प्रतिभूति राशि जमा करते हुये नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिसंहृत (रिबोक) कर दिया जायेगा।
7. खनन पट्टा पंजीयन से पूर्व कार्यानुमति की शर्तों के अनुसार राशि जमा करायेगा (प्रिनियम राशि को छोड़कर) जो स्थिर भाटक में समायोजन किया जायेगा। यदि उक्तानुसार जमा राशि स्थिर भाटक से कम है तो उसनी अंतर राशि अलग से जमा कराई जायेगी। परन्तु स्थिर भाटक से अधिक जमा होती है तो सक्त अधिक राशि को अधिक अधिकूलक में माना जायेगा।

राज्यपाल की आज्ञा से.

936 NO. 6
FORM OF MINING LEASE
[See Rule 21 (2)]

ML No.- 5/2013

290

This indenture made this 30 March day of 2023.. between the Governor of the State of Rajasthan (hereinafter referred to as the Government which expression shall, where the context so admits, include his successors in office and assigns) of the one part

and

When the lessee is an individual श्री भरत सिंह शेखावत पुत्र श्री शिवदयाल सिंह शेखावत, निवासी 336, मोहन नगर बी, बी.जे.एस. कॉलोनी, जोधपुर (Name of person) (hereinafter referred to as the "lessee" which expression shall where the context so admits, include his heirs, executors, administrators, representatives, and permitted assigns)

or

When the lessee is a registered firm N/A (Name & address of 1st partner) and N/A (Name and address of 2nd partner) and N/A (Name and address of 3rd partner) all carrying on business in partnership under the firm name and style of (Name of the Firm) N/A registered under the Indian Partnership Act, 1932 (9 of 1932) and having their registered office at N/A (Address of the firm) (hereinafter referred to as "lessees" which expression shall, when the context so admits be deemed to include all the partners of the said firm, their respective heirs, executors, legal representative and permitted assigns)

or

When the lessee is a registered Company N/A (Name of the Company) and Company registered under N/A (Act under which incorporated) and having its registered office at N/A (Address of the company) (hereinafter referred to as the "lessee" which expression shall, where the context so admits be deemed to include its successors and permitted assigns) of the other part.

BACKGROUND:

A. The lessee had participated in an electronic auction for grant of a mining lease, pursuant to which the lessee has become eligible for grant of a mining lease or had been granted a prospecting licence or letter of intent has been issued or mining lease has been sanctioned with respect to which the lessee has completed the requirements under the Rajasthan Minor Mineral Concession Rules, 2017 (hereinafter referred to as the said rules) for grant of a mining lease.

B. Accordingly, the State Government is now executing this deed for grant of a lease to the lessee in consideration of the fee, royalties, covenants and agreements hereinafter reserved and contained on the part of the lessee to be paid, observed and performed.

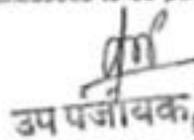

The State Government hereby grants the mining lease for बजरी mineral in respect of the lands hereinafter described in clause 1(b) and has/have deposited with the Government the sum of Rs. 15,37,609/-—एफडीआर नं. 50300733132832 दिनांक 05.01.2023 as security, Rs. 30,75,210/-—एफडीआर नं. 50300733131193 दिनांक 05.01.2023 as performance security and Rs. 30,00,000/-—एफडीआर नं. 50300733127312 दिनांक 05.01.2023 as financial assurance.

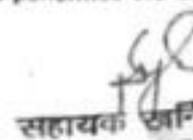

Now therefore this deed witnesses and the parties hereto hereby agree as follows:-

1. Demises:

(1) In consideration of the rents and royalties covenants and agreements hereinafter contained and on the part of the lessee/lessees to be paid, observed and performed the Government hereby

उप पंजीयक, केकड़ी

सहायक सानि अभियंता
राज एवं भू-मिन्नाज विभाग
राजपुर

grants and demises upto the lessee/lessees, all these mines/beds/veins/seams of (hereinafter referred to as the said minerals) situated, lying and being in or under the lands which are referred to hereinafter and subject of other provisions of this lease.

- (2) The area of said lands is as follows (hereinafter referred to as the said lands or the leased area).
- (3) The lessee/lessees shall hold the premises hereby granted and demised from the date of registration for period of 05 (29-13-2013 से दिनांक 28-12-2018 तक डाईज-नॉन पीरियड (04 वर्ष 01 माह 26 दिवस) जोडे जाने से खनन पट्टा अवधि कब्जा सम्भलाये जाने की दिनांक से 04 वर्ष 01 माह 26 दिवस तक) years thence next ensuing.

2. Liberties, powers and privileges to be exercised and enjoyed by the lessees:

The following liberties, powers and privileges may be exercised and enjoyed by the lessee/lessees subject to the other provisions of this lease:

- (1) To enter upon land and search for, win, work etc.- Liberty and powers at all times during the terms hereby demised to enter upon the said lands and to search for, mine, bore, dig, drill for, win, work, dress, process, convert, carry away and dispose of the said minerals.
- (2) To sink, drive and make pits, shaft and inclines etc.- Liberty and powers for or in connection with any of the purposes mentioned in this clause to sink, drive, make, maintain and use in the said lands, and pits, shafts, inclines, drifts, levels, water-ways, air-ways and other works and to use, maintain, deepen or extend any existing works of the like nature in the said lands.
- (3) To bring and use machinery and equipment- Liberty and power for or in connection with any of the purposes mentioned in this clause to erect, construct, maintain and use on or under the said lands any engines, machinery, plant, dressing floors, furnaces, coke ovens, brick kilns, workshops, store houses, bungalows, godowns, sheds and other buildings and other works and conveniences on the like nature on or under the said lands.
- (4) To use water from streams etc- Liberty and power for or in connection with any of the purposes mentioned in this clause but subject to the rights of any existing or future lessees and with the written permission of the Collector to appropriate and use water from any stream, water courses, springs or other source in or upon the said lands and to divert, step up of dam any such stream or water course and collect or impound. Any such water and to make, construct and maintain any watercourse, culverts drains or reservoirs but not so as to deprive any cultivated land, villages, buildings or watering places for a livestock of a reasonable supply of water as before accustomed nor in any way to foul or pollute any stream or spring provided that the lessee/lessees shall not interfere with the navigation in any navigable stream nor shall divert such stream without previous written permission of the government.

3. Restriction as to the exercise of the liberties etc.:

The liberties, powers and privileges granted under clause 2 are subject to the following restrictions and subject to the other provisions of this lease:-

- (1) The mining operations within 45 meters of the public works etc.- The lessee shall not carry on or allow to be carried on, any mining operations at any point within a distance of forty five meters from any railway line except under and in accordance with the written permission of the railway administration concerned or under or beneath any ropeway or ropeway trestle or station except under and in accordance with the written permission of the authority owning the ropeway or from any public roads (excluding mines approach road/village roads), reservoir, canal, other public place, buildings or pillars of railway and road bridge or inhabited site except with the previous permission of the Collector or any other officer authorised by the State or Central Government and otherwise then in accordance with such instructions, restrictions and conditions either general or specific as may be attached to such permissions. The said distance of forty five meters

shall be measured in the case of public roads (excluding mines approach road/village roads), railway, reservoir or canal horizontally from the outer toe of the bank or the outer edge of the cutting as the case may be and in case of a building horizontally from the plinth thereof. The lessee shall not, in the case of mines approach road/village roads (including any track shown in the revenue record as village road), allow any working to be carried on within a distance of ten meters of the outer edge of the cutting except with the previous permission of the Collector or any other officer duly authorized by the State/Central Government in this behalf and otherwise than in accordance with such directions, restrictions and additions, either general or special, which may be attached to such permission.

(2) Permission for surface operation in a land not already in use- Before using for surface operation and land which has not already been used for such operations. The lessee/lessees shall give to the Collector of the District one calendar month previous notice in writing specifying the situation and the extent of the land proposed to be so used and the purpose for which the same is required and the said land shall not be so used if objection is issued by the Collector within one month after receipt by him of such notice unless the objection so stated shall on reference to the Government be a nullified or waived.

4. The lessee/lessees hereby covenants with the Government as following:

(1) Covenants in accordance with the Rajasthan Minor Mineral Concession Rules, 2017. The lessee/lessees shall pay royalty on the quantity of the said mineral dispatched from or consumed within the leased area at the rates specified in Schedule-II appended to the Rajasthan Minor Mineral Concession Rules, 2017: Provided that the said rates shall be liable to be revised by the Government and such revision shall apply to this lease subject to the condition that the enhancement in the rate of royalty shall not be made more than once during any period of three years.

(2) Surface rent and other payments-

(a) The lessee shall pay premium amount as specified in the Rajasthan Minor Mineral Concession Rules, 2017.

(b) The lessee/lessees shall pay for the surface area used by him/them (for the purpose of mining) surface rent equal to the land revenue payable under the Rajasthan Land Revenue Act, 1956 or any other law in force to the Land Revenue Department of State.

(c) The lessee shall, in addition to royalty, pay to the District Mineral Foundation Trust as per the rates specified in the District Mineral Foundation Trust Rules, 2016, as amended from time to time.

(3) Dead Rent-The lessee/lessees shall also pay for every year, the yearly dead rent in advance as determined, from time to time:

Provided further that where mining lease is granted with the condition that the lessee shall commence mining operations after obtaining environment clearance, in such case dead rent shall be payable after commencement of mining operations or one year from the date of registration of lease deed, whichever is earlier.

(4) Rate and payment of dead rent etc. - Subject to the provisions of sub-clause (3) above as from the day of the registration of the lease, the lessee/lessees shall pay to the Government for each year the minimum annual royalty as "dead rent" of Rs. 51,54,200/- in the office of the Mining Engineer/Assistant Mining Engineer subject as aforesaid. This provision will also apply to the payment of royalty, District Mineral Foundation Trust or any other charges. Surface rent will be deposited with the Revenue Department.

टाकर

- (5) Revised security, performance security and financial assurance- The lessee shall pay difference amount of security and performance security as per revised dead rent. The lessee shall also pay difference amount of financial assurance if area used for mining and allied activities increases.
- (6) Dump removal charges- The lessee/lessees shall pay such amount per year or part thereof to the Government for ecological restoration of mines and quarries in the said area at such time and such rate as may be fixed by the Government, from time to time.
- (7) To pay compensation for damage and indemnify the Government- The lessee/lessees shall make and pay such reasonable satisfaction and compensation for all damage, injury or disturbance which may be done by him/them in exercise of the powers granted by the lease and shall indemnify the Government against all claims which may be made by third parties in respect of such damage, injury or disturbance.
- (a) To indemnify against all claims and to pay compensation for infringement of rights of third person- The lessee/lessees shall make and pay such reasonable satisfaction and compensation as may be assessed by lawful authority in accordance with the law in force on the subject for all damage, injury or disturbance which may be done by him/them in exercise of the powers granted by this lease and shall indemnify and keep indemnified fully and completely the State Government against all claims which may be made by any person or persons in respect of any such damage, injury or disturbance and all costs and expenses in connection therewith.
- (b) To pay a wage not less the minimum wage prescribed by the Central or State Government from, time to time.
- (c) To comply with the provisions of the Mines Act, 1952.
- (d) To comply with the provisions of the Rajasthan Minor Mineral Concessions Rules 2017.
- (8) Not to injure tree- The lessee/lessees shall not cut or injure any tree in area of his/their lease without the previous sanction in writing from the competent authority.
- (9) To maintain boundary and intermediate pillars- The lessee/lessees shall at his/their own expense erect and at all times maintain and keep in repair boundary and intermediate pillars according to the demarcation shown in the plan annexed hereto and as specified in clause (iv) of sub-rule (1) of rule 28.
- (10) Not to erect buildings etc. on certain places- The lessee/lessees shall not erect any building or carry or any surface operations on any public pleasure grounds, places of worship, sacred graves, burial grounds or village sites for houses, public roads or other places which the competent authority may determine as public grounds to bring within this restriction.
- (11) To commence mining operations within six months and carry them on properly- The lessee/lessees shall commence mining operations within six months from the date of the lease to him/them and thereafter carry on such operations effectively in a proper skilful and workman like manner both as regards prevention of waste by removal of sufficient overburden careful storage of waste and drainage and as regards removal of all valuable minerals within the mine. The lessee/lessees shall work in workman like manner for systematic, scientific and environment friendly mining so as to ensure systematic development, conservation of mineral deposits, protection of environment and safety of man and machinery.
- (12) Accounts- The lessee/lessees shall keep correct accounts showing the quantity and particulars of all minerals obtained from the mine, detail of mineral sold or dispatched, and the number of persons employed therein and also complete plans of the mine and shall allow any officer of the Department at any time to examine such accounts and mine plan and shall furnish him with such information and return in respect of aforesaid matter as he may require.

- 940 294
- (13) Abiding by Rules- The lessee/lessees shall abide by all existing Acts and rules enforced by the Government of India or the State Government and all such other Acts or rules as may be enforced, from time to time in respect of working of the mines and other matters affecting safety, health, environment and convenience of the lessee/lessees or of the public.
- (14) To allow facilities to other mineral concession or permit holders- The lessee/lessees shall allow existing and future mineral concession or permit holders of any land which is comprised in or adjoins or is approachable by the land held by the lessee/lessees, reasonable facilities for access thereto.
- (15) To allow entry of officers- The lessee/lessees shall allow any officer of the Department or any other officer authorised by the Central or State Government in this behalf to enter upon the premises comprised in the lease for the purpose of inspecting the same and abide by instruction issued by him from time to time regarding the conservation and development of minerals and the related matters.
- (16) Building erected by Lessee- The lessee/lessees may erect on the area granted to him, any building required for bonafied purpose and such building shall be the property of the Government after the expiry of the lease or earlier determination or surrender of the lease:
- Provided that the provisions of this clause shall not be applicable for lessee/lessees of mining lease for mineral bajri (river sand);
- (17) To report accident and discovery of any other mineral- The lessee/lessees shall without delay report to Mining Engineer/Assistant Mining Engineer concerned or any other officer authorised by them any accident which may occur at or in the said premises and also the discovery on or within any of the lands of mines demised by the lease of any minerals whether minor or otherwise not specified in the lease.
- (18) Grant/working of newly discovered minerals- Where subsequent to the grant, any new mineral is discovered, the lessee shall not win and disposed off unless it is included in the lease or a separate lease is obtained. If lessee does not apply for inclusion of such mineral, lease may be terminated and new lease shall be granted through e-auction.
- (19) To hand over possession of protected area- If any area out of the lease area is declared as a protected area under the Ancient Monuments Preservation Act 1904 (Central Act VII of 1904). The lessee will have to deliver the possession back to the State Government without claiming any compensation for that area.
- (20) Liberty to determine the lease- The lessee/lessees may at any time determine this lease with immediate effect by giving a notice in writing to the State Government or to such officer or authority as the State Government may specify in this behalf and shall pay all rents, water rates, royalties compensation for damages and other moneys which may then be due and payable under these presents to lesser or any other person or persons and shall deliver these presents to competent authority and then this lease and the said term and the liberties. Powers and privileges hereby granted shall absolutely cease and determine but without prejudice to any right of remedy of the lesser in respect of any breach of any of the covenants or agreement contained in the presents.
- (21) Cancellation- The lease shall be liable to be cancelled if the lessee/lessees ceases to work the mine for a continuous period of six months without obtaining written sanction of the competent authority.
- (22) Pre-emption- The Government shall have the rights of pre-emption at current market rates over all minerals lying in or upon the lands demised by the lease and shall be indemnified by the lessee/lessees against claims of any other party in respect of such minerals.

941 295

(23) Consequence of non payment of royalty- The Government shall determine the lease after serving a notice to the lessee to pay the dues within thirty days from the date of the receipt of notice and forfeit the security amount if the dead rent or royalty or dump removal charges are not paid within thirty days next after the date fixed in these presents. The Government shall have the right at any time after serving the above notice to enter upon the said lands and to distrain all or any of the minerals or movable property therein and shall carry away, distrain or order the sale of property so distrain or so much of it as will suffice for satisfaction of the rent or royalty of dump removal charges and all costs and expenses occasioned by the non-payment thereof. These rights shall be without prejudice to the right of the Government to realise all its dues, under the Rajasthan Public Demand Recovery Act, 1952 (Act No. V of 1952) or Rajasthan Land Revenue Act, 1956 (Act No. 15 of 1956).

- (a) Consequence of breach of other covenants- In case of any breach on the part of lessee/lessees of any covenant or condition contained in the lease whether contained in this clause or any other clause of this lease, the Government may determine the lease and forfeit the security amount and take possession of the said premises or in the alternative may impose payment of a penalty as specified in Schedule-IV. Such action shall not be taken unless the lessee/lessees has/have failed to remedy the breach after thirty days' notice.
- (b) Delivery on termination of lease- On expiry or earlier determination of the lease the lessee/lessees shall deliver up the said premises and all mines (if any) dug in respect of any working as to which the Government might have sanctioned abandonment.
- (c) (i) Determination of lease in the public interest- The Government may determine the lease if the Government considers that the minor minerals under the lease are required for establishing an industry beneficial to the public.
- (ii) Determination of lease for the aforesaid purpose shall not be valid unless six months notice in writing has been given by the Government to the lessee/lessees. Such notice need not however, be given in war of emergency.

(24) In the schedule area, the lessee shall give preference in employment, to the tribals and to the persons who become displaced because of the taking up of mining operations.

(25) Employment of Foreign nationals- The licensee/licencees shall not employ, in connection with the prospecting operations any person who is not an Indian National except with the previous approval of the Central Government.

5. Further covenants of the lessee:

The lessee/lessees hereby covenant/covenants with the Government as follows:-

(1) The lessee/lessees shall, when mandated by the Government, provide and at all times keep at or near the pit head or each of the pit heads or in nearby cluster area at which the minerals shall be brought to bank, a properly constructed and efficient computerized weighing machine and shall weigh or cause to be weighed thereon all the said minerals, from time to time, brought to bank, and exported and converted and also the converted products. The lessee shall at the close of every day cause the total weights, ascertained by such means of the said minerals raised, sold, exported and converted during the previous twenty four hours, to be entered in the books of accounts maintained by the lessee. The lessee shall at all times during the term of the lease, permit the Government to employ any person or persons to be present at the weighing of the said minerals as aforesaid and to keep accounts thereof and to check the accounts kept by the lessee.

(2) To allow test to weighing machine- The lessee shall at any time or times during the term of the lease, allow any person or persons appointed in that behalf by the Government to examine and test every weighing machine to be provided and kept as aforesaid and the weights used therewith

942 296
In order to ascertain whether the same are respectively correct and in good repair and order. If upon any such examination or testing, any such weighing machine or weights shall be found incorrect or out of repair or order, the Government may require that the same be adjusted, repaired and put in order by and at the expense of the lessee. If such requisition is not complied with within fifteen days after the same has been made, the Government may cause such weighing machine or weights to be adjusted, repaired and put in order at the expense of the lessee. If upon any such examination or testing as aforesaid, any error is discovered in any weighing machine or weights to the prejudice of the Government, such error shall be regarded as having existed for three months prior to the discovery thereof or from the last occasion of so examining and testing the same weighing machine and weights, in case such occasion is within the said period of three months, and the lessee shall pay the royalty accounted for accordingly.

(3) Not to obstruct working of other minerals- The lessee/lessees will exercise the liberties and powers hereby granted in such manner as to cause no unnecessary or reasonably avoidable obstruction or interruption to the development of any working within the said lands of any minerals not included in this lease and shall at all time afford to the Central and State Government and to the holders of mineral concessions in respect of any such minerals within any land or any minerals within any land adjacent to the said lands as the case may be, reasonable means of access and safe convenient passage upon and across the said lands, to such minerals for purpose of getting, working, developing and carrying away the same provided that the lessee/lessees shall receive reasonable compensation for damage or injury which he/they may sustain in consequence of the use of such passage by such lessees or holders of mineral concessions.

(4) Forfeiture of property left more than three months after determination of lease- If on expiration of lease or earlier determination of the lease or after the date from which any surrender by the lessee of a part or parts of the said lands under the provision contained in sub-clause (20) of clause 4 of this lease becomes effective, there remain in or upon the said land of the surrendered part or parts thereof as the case may be, any engines, machinery, plants, structures, tramways, railways and other work erections and conveniences or other property which are not required by the lessee/lessees in connection with his/their operations in those parts of the said lands they shall become the property of the Government and may be sold or disposed of in such manner after period of three months from the date of expiration or earlier determination of the lease the Government may deem fit without liability to pay any compensation.

(5) Exemption of royalty for tenants- No royalty shall be charged on minor minerals required by the tenant for any bonafid purposes as specified in rule 75 of the rules.

6. Further covenants of the lessee:

The lessee/lessees further covenant/covenants with the Government as follows:-

(1) Interest- The lessee/lessees shall pay to the Government simple interest at the rate of fifteen percent per annum on all amounts outstanding against the lessee/lessees under this lease, whether as dead rent, royalty, surface rent or otherwise.

(2) Maintenance of mines etc. in good order- The lessee/lessees shall keep throughout the terms of his/their lease all mines, building, engines, machinery and other mining plants in good repair and working order.

(3) Taking ballast etc. for leased area only- The lessee/lessees shall take out and use ballast, khandas and rubbles from his/their quarries for his/their bonafid use in the leased area only and shall pay royalty for minerals so used.

(4) Delivery of samples of rocks etc- The lessee/lessees shall deliver to or permit to be taken by the representative of the Government a sample or samples of all rocks found on mines or raised and all intermediate and finished products sold on intended for sale by the lessee/lessees.

(5) Security of pits and Shafts and not to be taken up- The lessee/lessees shall properly secure pits and shafts and will not without permission in writing of the Mining Engineer, will fully close, fill up or choke any mine or shafts.

(6) Setting apart land for public purposes- The lessee/lessees shall when required by the Government so to do, set apart land for public purposes and Government may occupy the same whenever it thinks necessary of expedient but Government will, so far as is compatible with the objects aforesaid, select the land so as not to interfere with the mining operations of lessee/lessees and will from time to time pay to the lessee/lessees such sums of money expended in buying surface rights over any of the lands so set apart and cost of removal of any work carried there on and for any loss or damages caused to the lessee/lessees by any interference in the mining operations.

(7) (a) Abstaining from entering occupied land- The lessee/lessees shall abstain from entering on the surface of any occupied Government land or of any private land comprised within the leased area without previously obtaining the consent of the occupant in writing.

(b) The lessee/lessees shall abstain from opening any new quarry or depot in the leased area without the previous sanction of the Mining Engineer, Assistant Mining Engineer concerned.

(8) Not to obstruct road etc- The lessee/lessees shall keep open and in no way obstruct any road path or way by any means whatsoever.

(9) Not to obstruct working of other mineral- The lessee/lessees shall in the event of his/their declining to take a lease, permit the Government or other persons duly authorised by the Government in that behalf to enter into the leased area and to conduct prospecting and mining operations thereon in respect of minerals or other substance other than बजरी (name of mineral) but the Government will so far as is compatible with the objects aforesaid, select the land to be so set apart and appropriated in such a manner as not to interfere with the mining operations of the lessee/lessees and will indemnify the lessee/lessees for any loss or damage caused to the lessee by any interference with the mining operations.

(10) To allow free use of tanks, water courses etc, to the public and Government. The lessee/lessees shall abstain from all interference with and allow to the public and the Government the free use of tanks, water courses, places of worship, scared graves, burial grounds and village sites for houses which may be existing or may hereafter be set apart or appropriated as herein before provided on the leased area.

(11) Not to use land for other purposes- The lessee/lessees shall not cultivate or use the land save for the purposes of the lease.

(12) Not to enter upon or commence operations in forest land etc.- The lessee/lessees shall not enter upon or commence any mining operations in any forest land under special protection comprised in the leased area except after previously obtaining permission in writing of the competent officer.

(13) To respect water rights and not to injure adjoining property- The lessee/lessees shall not injure or cause to deteriorate any sources of water, power or water supply and shall not in any other way render any spring of stream of water unfit to be used or do anything to injure adjoining lands, villages or houses.

On removal of stock of minerals on expiry or determination of the lease- The lessee/lessees shall on the termination or earlier determination of the lease remove within three months all extracted minerals from the premises of the leased areas. All extracted minerals in the said lands left over and disposed after three months of the termination or determination of lease shall be deemed to be the property of the Government. Provided that in case of mining lease of mineral bajri (river

[Handwritten signature]

उप पंजीयक, बोकड़ी

सहायक खनि अभियंता
खान एवं भू-विज्ञान विभाग
राजपुर

sand), the lessee shall not have any right to remove any stock of bajri after the expiry of lease period or receipt of the order of determination of the lease.

944

298

(15) Service of notice on lessee- The lessee/lessees shall at all times have at the lease area a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the officers of the Department or the Government may be delivered, if there be no such Superintendent or agent on the leased area, the Government shall be at liberty to treat any other person present there as such agent and to serve all notices and other documents upon the said person or in the case of there being no such other person as aforesaid, then by affixing such notice or documents on some conspicuous portion of the mining block.

(16) Supply of stones to the Public- The lessee/lessees shall not unless prevented by reasonable cause e.g. collapse of the quarry etc. to the satisfaction of the Government, fail or neglect or delay to supply बजरी (name of mineral) to the public at pits mouth within reasonable period of 7 days (to be specified). In the event of unsatisfactory supply by the lessee/lessees to local public the Mining Engineer/Assistant Mining Engineer with the approval of the Director, may allow the consumers to quarry/extract with their own arrangement in the leased area outside the existing quarries or depots and the lessee/lessees will not be entitled to any royalty on this account but the same will be payable to the Government.

(17) Employment of qualified person- for the purpose of carrying out mining operations in accordance with the approved practices:-

- (i) a whole-time mining engineer or the person possessing I Class Mine Manager's Certificate of Competency issued by the Director General of Mines Safety and geologist, where mining operations are carried out by deployment of heavy mining machinery for deep hole drilling, excavation, loading and transport, or where the average employment exceeds one hundred and fifty per day.
- (ii) a whole-time mining engineer or the person possessing II Class Mine Manager's Certificate of Competency issued by Director General of Mines Safety, where mining operations are carried out by deployment of heavy mining machinery for deep hole drilling, excavation, loading and transport, or where the average employment exceeds seventy five per day.
- (iii) in case of any other mine, a person having degree in mining or diploma in mining with two year's experience in mining operations or Geologist or the person possessing foreman's certificate of competency issued by the Director General of Mines Safety;

Provided that in case where area of lease is up to one hectare and mining is carried out only by manual means, the person having qualification mentioned in clause (i), (ii) or (iii) may work for a maximum of fifteen leases or fifty quarry licences, provided that all such mines/quarries are located within a radius of hundred kilometers: Provided further that if any doubt arises about the lease covered under clause (ii) or (iii) above it shall be referred to the Director for its decision whose decision shall be final. Explanation: The expression 'average employment' means the average per day of the total employment of the mine during the preceding quarter (obtained by dividing the number of man-days worked by the number of working days).

The Lessee shall inform the Government of any change in his immovable property and its value within a period of fifteen days from such change.

Calculation of royalty, assignment of tax and recovery of dues:

It is hereby further agreed between the parties hereto as follows:

- (1) The royalty payable hereunder shall be calculated on the quantity dispatched from or consumed within the leased area as per the rates specified in Schedule-II of the Rajasthan Minor Mineral Concession Rules, 2017:

945 299
(2) The lessee/lessees shall not assign or part with the possession of the leased area or any part thereof except in the manner permitted by rule 27 of the said rules.

(3) Without prejudice to any other mode of recovery under any provision of this lease or any law, all amounts falling due hereunder against the lessee/lessees may be recovered as arrears of land revenue under the law in force for such recovery.

(4) The lessee/lessees shall duly and regularly pay to the competent authority all taxes, cess and local dues in respect of the leased area, said minerals or the working of the mines.

8. If in any event the orders of competent authority are revised or cancelled by the appellate authority or by the State Government in pursuance of the proceedings under Chapter XI of the Rajasthan Minor Mineral Concession Rules, 2017 or under any other provisions of the said rules, the lessee/lessees shall not be entitled to compensation for any loss sustained by him/them in exercise of the powers and privileges conferred upon him/them by these presents.

9. If in any event the orders of the Government or any other officer empowered under these rules are revised, reviewed or cancelled by the appellate authority or court of law, the lessee/lessees shall not be entitled to compensation for any loss sustained by the lessee/lessees in exercise of the powers and privileges conferred upon him/them by these presents.

10. In the event of the existence of a state of war or of emergency (of which existence the Government shall be sole judge and a notification to this effect in the Rajasthan Gazette shall be conclusive proof), the Government shall from time to time and all times, during the said terms have the right (to be exercised by a notice in writing to the lessee/lessees) forthwith to take possession and control of the works, plant, machinery and premises of the lessee/lessees situated on the said lands or meant for use in connection with the said lands or the operations under this lease, during such possession or control and the lessee/lessees shall confirm to and obey all directions given by or on behalf of the Government regarding the use or employment of such works, plants, premises and minerals: Provided that fair compensation which shall be determine in default of agreement by the Government shall be paid to the lessee/lessees for all loss or damages sustained by him/them by reason or in consequence of the exercise of powers conferred this clause: Provided further that the exercise of such powers shall not determine the said term hereby granted or affect the terms and provisions of these presents further than may be necessary to give effect to the provisions of this clause.]

11. Security and forfeiture thereof.

(1) The Government may forfeit the whole or part of the amount deposited by the lessee/lessees as security under this lease in case the lessee/lessees commits/commit a breach of any covenant to be performed by the lessee/lessees under this lease.

(2) Whenever the said security deposit or any part thereof or any further sum deposited with the Government in replacement thereof shall be forfeited under sub-clause (1) or applied by the Government in satisfaction of any dues of the Government under this lease (which the Government is hereby authorised to do) and the lessee/lessees shall immediately deposit with the Government such further sum as may be sufficient with the inappropriate part thereof to bring the amount in deposit with the Government upto the limit as mentioned in Rule 19.

(3) The rights conferred by this clause shall be without prejudice to the right conferred on the Government by any other provision of this lease or by any law. (Plan with boundary marks of demarcation report to be annexed)

In this lease unless the context otherwise requires:-
(1) 'Department' means the Department of Mines & Geology, Rajasthan.

(2) 'Director' means the Director of the Mines & Geology, Rajasthan for the time being and includes any officer authorised by him to perform any of his functions.

आदेश

श्री भरत सिंह पुत्र श्री शिवदयाल सिंह शेखावत, निवासी 336, मोहन नगर बी, बी.जे.एस. कॉलोनी, जोधपुर (राज.) के पक्ष में सहायक खनि अभियन्ता, सावर के क्षेत्राधिकार में जिला अजमेर की सहस्रील चोकडी से निकलने वाला खनिज बजरी क्षेत्र 1025.70 हेक्टेयर का खनन पट्टा स्वीकृति हेतु मंशा पत्र (एल.ओ.आई) शासन के समसंख्यक पत्र दिनांक 20.03.2013 से जारी किया गया।

माननीय सर्वोच्च न्यायालय द्वारा Petition (s) for Special Leave to Appeal (c) No (s) 34811/2013 नवीन रमा बनाव राजस्थान राज्य एवं अन्य में पारित आदेश दिनांक 16.11.2017 से राज्य में खनिज बजरी के समस्त 82 खनन पट्टों/अस्थाई कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से रोक लगा दी गई। माननीय सर्वोच्च न्यायालय के उक्त निर्णय के अनुसरण में निर्देशालय द्वारा पत्र दिनांक 17.11.2017 से खनिज बजरी के समस्त खनन पट्टों/अस्थाई कार्यानुमति क्षेत्र में खनन कार्य तुरन्त प्रभाव से बन्द कराये जाने के निर्देश दिये गये, जितकी पालना में उक्त खनन पट्टा क्षेत्र में खनन गतिविधियां तुरन्त प्रभाव से बन्द कराई गई। परन्तु उक्त मंशा पत्र के तहत मंशापत्र धारक द्वारा दिनांक 01.11.2014 से स्वयं ही खनन कार्य बंद कर दिया गया।

मंशा पत्र धारक द्वारा अस्थाई कार्यानुमति की शर्तों एवं सविदा का उल्लंघन किए जाने पर शासन आदेश दिनांक 15.09.2017 से मंशा पत्र एवं अस्थाई कार्यानुमति सहित आवेदन पत्र निरस्त किया गया। मंशा पत्रधारक द्वारा माननीय उच्च न्यायालय, जयपुर में विशेष अपील संख्या 419/2018 प्रस्तुत की गई। विशेष अपील संख्या 419/2018 में माननीय उच्च न्यायालय, जयपुर द्वारा निर्णय दिनांक 07.05.2022 को द्वारा माननीय उच्चतम न्यायालय निर्णय दिनांक 11.11.2021 के तहत नियम 5(a) में किए गए संशोधन के दृष्टिगत 3 माह में निर्णय करने के निर्देश दिए गए। शासन द्वारा इस निर्णय के विरुद्ध अपील नहीं करने का निर्णय लिया गया है।

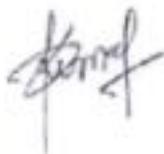

शासन के पत्र दिनांक 14.10.2022 के द्वारा मंशा पत्र अस्वीकृति आदेशों को अकारण करते हुए बहाल करने तथा माननीय उच्चतम न्यायालय के निर्णय दिनांक 11.11.2021 के निर्देशानुसार खनिज बजरी के वार्षिक खनन की अवधि से शेष अवधि तक, डाईज-नॉन अवधि वाली खनन कार्यवाही किये जाने का निर्णय लिया गया।

अतः, निर्देशालय के प्रस्ताव दिनांक 27.03.2023 के अनुसार श्री भरत सिंह के पक्ष में डाईज-नॉन पीरियड की अवधि दिनांक 02.11.2014 से दिनांक 28.12.2018 (4 वर्ष 01 माह 26 दिवस) तक मानते हुये खनन पट्टा स्वीकृति आदेश की पालना में कायदा संभलाने जाने की दिनांक से 4 वर्ष 01 माह 26 दिवस तक की अवधि के लिये मंशा पत्र को बहाल करते हुए राजस्थान अध्यान खनिज विद्यालय नियमावली, 2017 में अंकित नियमों एवं प्रक्रियाओं तथा समय-समय पर हुये संशोधनों के अधीनस्थ नियम शर्तों पर एतद्वारा स्वीकृत किया जाता है-

1	खनिज	बजरी
2	क्षेत्रफल	1025.70 हेक्टेयर
3	प्रकार	दिनांक 20-12-2013 से 28-12-2018 तक

सहायक खनि अभियन्ता

सकेगा।

- 7 पट्टा सविदा पंजीयन के उपरान्त संबंधित प्रदूषण नियंत्रण मण्डल से कन्सेन्ट टू आपरेट प्राप्त कर प्रस्तुत करना होगा तभी खनन कार्य की अनुमति जारी की जायेगी।

ट :-

1. अनुदानी राजस्थान अप्रधान खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत सविदा निष्पादन हेतु स्वीकृति आदेश प्राप्ति की तिथि से 3 माह की अवधि में अंतर प्रिमियम राशि, वार्षिक स्थिर भाटक, प्रतिभूति राशि, परफोरमेन्स प्रतिभूति राशि, वित्तीय आरवात्तन की राशि व निर्धारित राशि के नॉन ज्यूडिशियल स्टाम्प पेपर प्रस्तुत कर सविदा निष्पादन करायेगा।
2. अनुदानी को सविदा निष्पादन से पूर्व अस्थाई कार्यानुमति के तहत कार्यानुमति की शर्तों के अनुसार किये गये खनिज के निर्गमन का अधिशुल्क निर्धारण अनुसार समस्त बकाया जमा करानी होगी। बकाया न होने पर ही सविदा निष्पादन कराया जायेगा।
3. अनुदानी द्वारा अब तक प्रिमियम मद में जमा समस्त राशि यदि प्रिमियम राशि से कम है तो अंतर राशि जमा करानी होगी एवं अधिक राशि जमा होने पर रिफण्ड/समायोजित की जायेगी।
4. अनुदानी द्वारा एल.ओ.आई. की अवधि बढ़ाने हेतु अब तक लेट फीस के रूप में राशि जमा कराई गई है। वह समस्त राशि रिफण्ड/समायोजित की जायेगी। क्योंकि खनन पट्टे की अवधि अस्थाई कार्यानुमति की तिथि से मानी है।
5. अनुदानी द्वारा संविदा प्रपत्र प्राप्त होने की तिथि से 2 माह की अवधि में सविदा का पंजीयन करा प्रस्तुत नहीं करने पर जमा प्रिमियम राशि, प्रतिभूति राशि व परफोरमेन्स प्रतिभूति राशि जब करते हुये राजस्थान अप्रधान खनिज रियायत नियमावली, 2017 के नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिसंहृत (रिवोक) कर दिया जायेगा।
6. अनुदानी द्वारा सविदा निष्पादन हेतु राजस्थान अप्रधान खनिज रियायत नियमावली, 2017 के नियम 21(1) के तहत वांछित पूर्तियां कर 3 माह की अवधि में सविदा निष्पादन नहीं करने पर बिना किसी पूर्व सूचना के जमा प्रिमियम राशि, प्रतिभूति राशि परफोरमेन्स प्रतिभूति राशि जब करते हुये नियम 21(4) के अन्तर्गत स्वीकृति आदेश को प्रतिसंहृत (रिवोक) कर दिया जायेगा।
7. खनन पट्टा पंजीयन से पूर्व कार्यानुमति की शर्तों के अनुसार राशि जमा करायेगा (प्रिमियम राशि को छोड़कर) जो स्थिर भाटक में समायोजित किया जायेगा। यदि उपरानुसार जमा राशि स्थिर भाटक से कम है तो उक्त अंतर राशि अलग से जमा कराई जायेगी। परन्तु स्थिर भाटक से अधिक जमा होती है तो उक्त अधिक राशि को अधिक अधिशुल्क में माना जायेगा।

(2)

अन्य शर्त :-

1. एल.ओ.आई. धारक द्वारा निर्मित की जाने वाली खनिज बजरी पर परमिट कीमत नियम 83(4) में अंकित दरों पर प्रत्येक वाहन के लिए जमा करानी होगी। इसके अलावा ईएमएफ राशि रु. 5/- प्रतिटन की दर से तथा रायल्टी की राशि शिददयुल-। में अंकित दरों पर जमा करानी होगी। उपरोक्त दरों में एमएमसीआर, 1986 में संशोधन होने की स्थिति में तदनुसार राशि जमा कराई जायेगी।
2. एल.ओ.आई. धारक को दिनांक 28 फरवरी, 2014 तक माननीय उच्चतम न्यायालय, नई दिल्ली के आदेशानुसार खनन कार्य की अनुमति दी जायेगी। यदि माननीय न्यायालय द्वारा अग्रे अधि बढ़ाई जाती है तो शासन द्वारा तदनुसार अधि वृद्धि की जा सकेंगी, जिसके लिए अनुपातिक प्रीमियम जमा करना होगा।
3. खनन पट्टा क्षेत्र से निर्मित होने वाले खनिज बजरी हेतु एल.ओ.आई. धारक द्वारा अपने स्तर पर रचना (फार्म नं. 12 के अनुरूप जाल रंग में) छपवाये जायेंगे, जिन्हें अग्रिम रायल्टी, परमिट शुल्क एवं ईएमएफ. राशि जमा करवाने के पर्याप्त संबंधित कार्यालय से मोहर लगाया कर जारी करवाना होगा। क्षेत्र के लिए गत आरसीसी टेका राशि (आरसीसी टेके में एक से अधिक लीज क्षेत्र आने पर प्रीमियम के अनुपात में विभक्त की जाकर अनुपातिक टेका राशि) के अनुसार बनने वाली मासिक किस्त के समतुल्य राशि अग्रिम जमा करवाये जाने पर रचना जारी किये जायेंगे। रचना जारी किये जाने के पर्याप्त रचना अनुप्रयुक्त रहने पर जमा राशि रिफाउंड नहीं की जायेगी। विभाग द्वारा जारी रचना के अलावा प्रयुक्त अन्य रचना अर्द्ध माने जायेंगे।
4. खनन पट्टा स्वीकृति के पूर्व उक्त रचनाओं के माध्यम से निर्मित खनिज का अधिकतम निर्यात करवाया जाना आवश्यक होगा तथा यदि कोई राशि पट्टाधारी के विरुद्ध निकलती है तो वह जमा करा बकाया नहीं का प्रमाण पत्र प्राप्त करना होगा। बकाया राशि एक सप्ताह में जमा नहीं कराने पर जमा प्रीमियम राशि जमा कर एल.ओ. आई. निरस्त कर दी जायेगी।
5. एल.ओ.आई. धारक द्वारा माइनिंग प्लान के अनुसार ही खनन पट्टा क्षेत्र में खनिज बजरी का खनन किया जायेगा। अनियमितता होने की स्थिति में जमा प्रीमियम राशि जमा कर कार्यानुमति निरस्त कर दी जायेगी।
6. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में अथवा अन्यत्र खनिज बजरी का स्टॉक एवं भण्डारण नहीं किया जा सकेगा। यदि खनिज बजरी का अर्द्ध खनन / अर्द्ध निर्गमन / अर्द्ध स्टॉक / अर्द्ध भण्डारण किया जायेगा तो जमा प्रीमियम राशि जमा कर कार्यानुमति निरस्त कर दी जायेगी।
7. एल.ओ.आई. धारक को खनिज बजरी के खनन / निर्गमन के संबंध में माननीय सर्वोच्च न्यायालय, उच्च न्यायालय, अन्य न्यायालयों, भारत सरकार एवं राज्य सरकार के आदेशों / निर्देशों की पालना करनी होगी। साथ ही खनन कार्य, सुरक्षा, स्वास्थ्य, पर्यावरण एवं जन सुविधाओं के संबंध में वर्तमान में प्रभावी अधिनियम / नियमों तथा समय-समय पर होने वाले संशोधनों की पालना करनी होगी।
8. गैर-भूमिगत नदी / नालों के क्षेत्रों में जहां पर किसी भी विभाग द्वारा अन्य कार्य क्या भीटा कायदा या अन्य किसी प्रयोजनार्थ व्यक्ति / संस्था को अनुमति दी गई है / आवंटित की हुई है तो ऐसे क्षेत्रों में एल.ओ.आई. धारक संबंधित व्यक्ति / संस्था (जिसके प्लान में अनुमति दी हुई है) / आवंटित है) की लिखित सहमति प्राप्त करने के उपरान्त ही खनिज बजरी का दोहन कर सकेगा। यदि खनन पट्टा क्षेत्रों में घातगाह

भूमि में आती है तो राजस्व विभाग (राज्य सरकार) की अनुमति के बिना खनन कार्य नहीं किया जा सकेगा।

एल.ओ.आई. धारक गैर-मुमकिन नदी-नाला क्षेत्रों में गिरने वाले प्रतिबंधित क्षेत्र जैसे स्नान, सार्वजनिक प्रयोजनार्थ कुएं, वन विभाग या अन्य किसी संस्थान द्वारा किये गये वृक्षारोपण क्षेत्र से 45 मीटर की परिधि में तथा अन्य प्रतिबंधित क्षेत्रों में खनन कार्य नहीं कर सकेगा।

- 10. एल.ओ.आई. धारक क्षेत्र में कोई स्ट्रक्चर जो कि स्थाई प्रकृति का हो या पानी का बहाव अवरुद्ध करता हो, नहीं बनायेगा। खनन कार्य हेतु उपयुक्त गहराई की बेंचेंज बनानी होगी।
- 11. एल.ओ.आई. धारक खनन पट्टा क्षेत्र में आने वाले खसतों के क्षेत्र से बाहर खनन कार्य नहीं करेगा।
- 12. एल.ओ.आई. धारक द्वारा बजरी का खनन कार्य सतह से 3 मीटर से अधिक गहराई पर एवं नदी-नालों के वाटर लेवल से नीचे नहीं किया जायेगा तथा रेल / सड़क पुल के 45 मीटर की परिधि में खनन कार्य नहीं किया जायेगा। इसकी अवहेलना करने पर राजस्थान अध्याय खनिज रियायत नियमवली, 1986 के नियम 48 के तहत अपील खनन मानक जाकर कार्यवाही की जायेगी।
- 13. एल.ओ.आई. धारक द्वारा खनन पट्टा क्षेत्र में जगह-जगह माइनिंग नहीं की जायेगी। नदी की 3/4 चौड़ाई तक की खनन कार्य की अनुमति होगी। शेष क्षेत्र में वृक्षारोपण किया जायेगा। खनन पट्टा क्षेत्र में खनिज बजरी की माइनिंग नदी के बीच में डाउन स्ट्रीम के बीच में अथवा 10 मीटर चौड़ाई की स्लाईस में की जा सकेगी। नदी की सतह पर निट्टी से 15 मीटर ऊपर बजरी छोड़नी होगी।
- 14. नदी के दोनों किनारों पर ACQUATIC FAUNA & FLORA को संरक्षित रखना होगा।
- 15. प्रत्येक 100 कि.मी. खनन क्षेत्र के बाद 50 मीटर चौड़ाई में खनन प्रतिबंधित रहेगा। खनिज बजरी के खनन के दौरान निकलने वाले खनिज ट्रेवेल / सोल्डर्स का प्रत्येक एक कि.मी. के बाद इकट्ठा किया जाकर उसकी दीवार इस प्रकार बनाई जायेगी कि पानी का बहाव अवरुद्ध न हो।
- 16. जिन स्थानों पर बजरी का खनन कार्य किया जा चुका है, उन स्थानों को नदी के उपलब्ध बहाव से ही समतल करके घट दिया जायेगा। इसके लिए बाहर का कोई कचरा / मलबा नहीं डाला जा सकेगा।
- 17. नदी क्षेत्र में खनन कार्य इस प्रकार किया जायेगा कि आसपास वीधारोपण पुनः पनप सके। खनन क्षेत्र के आसपास स्थानीय प्रजातियों के पौधों का वीधारोपण किया जायेगा। जो पौधे अनुपयोगी हैं, उनको स्थानीय प्रजाति के पौधों से वृक्षारोपण किया जायेगा।
- 18. नदी/नालों का एवं इनके आसपास जो महत्व बनी हुई है उनका प्रभाव बाधित नहीं किया जायेगा तथा उनमें किनारों का समुचित रख-रखाव किया जायेगा।

शेष शर्तें राजस्थान अध्याय खनिज रियायति नियम 1986 एवं समय-समय पर होने वाले संशोधनों के अनुसार मान्य होगी।

सविदा का निष्पादन आज दिनांक 29/12/13 को किया गया तथा टेका दिनांक 30/12/13 से प्रभावी होगा।

Sub: Grant of Consent to Establish under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- Ajmer (M.L.No-MLNo.5/2013).

Ref: (i) Your application dated 01/04/2023
(ii) Received on 01/04/2023

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Establish** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

- 1 That this consent is being granted in favour of **M/s. M/S BIHARAT SINGH SHEKHAWAT**, a Mine of **Minor Mineral** having **M.L.No-MLNo.5/2013** in an area measuring **1025.7000 Hectares** at/near Village- ,Tehsil-Kekri,District-Ajmer.
- 2 That this consent is valid for a period from **19/04/2023** to **29/03/2024**, or commencement of production whichever is earlier.
- 3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (RON)	3000000.0000 TON PER ANNUM

- 4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.
- 5 That you shall not operate the mine without obtaining **Consent to Operate** from the Board.

Registered

File No. F(Mines)/Barmer(Gudha Malani)/5330(1)/2022-2023/313-317

Order No. 2023-2024/Mines/10823

Date: 19/04/2023

Unit Id : 124,033

- 6 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other mineral(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 7 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03/02/2022 are strictly complied with.
- 8 That this consent is valid for production of Bajri(ROM) @ 30 lakh Ton per Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 9 That plantation shall be developed so as to cover at least 33% of the total land use for mining and allied activities as given in Approved Mining Plan and shall be maintained at all the time to maintain ambient air quality around the mine.
- 10 That the lessee shall submit monitoring report of Ambient Air Quality within the lease area, once in 3 months.
- 11 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).
- 12 That haul roads should be regularly graded and compacted. Regular water sprinkling should be carried out on haul roads to minimize dust generations.
- 13 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution.
- 14 That you shall not establish/operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 15 That this consent to establish shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law /act/rule/ regulation or order of MOE&F and/or any Court / Tribunal time to time.
- 16 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.

Unit Id : 124,033

- 17 That the mine shall install adequately designed rain water harvesting structure for prevention and recharge of ground water in and around the lease area.
- 18 That the mine shall not allow making any obstacles to any natural water flow i.e., natural nallah/stream carrying rain water to any water body.
- 19 This the mine shall not allow unauthorized disposal of any solid waste on land inside or outside the premises.
- 20 That this consent to establish shall be subject to compliance of direction/order passed by Courts of Law in the matter, if any
- 21 That the lessee should dump the overburden in such a manner that it does not get washed away to nearby water tanks and lakes etc. during rainy season.
- 22 That the lease shall not intersect the ground water table without permission of CGWA.
- 23 This consent shall be subject to validity of mining lease.
- 24 That Permissible mining of river bed material (Sand/Bajri) shall be limited to 30 Lakh TPA(ROM) from an effective mineable area of 1025.7 Ha. with maximum mineable depth of 1 meter.
- 25 That all other general conditions enclosed as Annexure shall be strictly complied with.
- 26 That this Consent is subject to the conditions as stated above and general conditions as stated in Annexure. Further, the mining unit will comply with the provisions of the Air (Prevention & Control of Pollution) Act, 1981 and any such conditions as may be specified from time to time by the State Board under the provisions of the aforesaid Act.
- 27 That the grant of this **Consent to Establish** is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/ unit/ project proponent.
- 28 That the grant of this **Consent to Establish** shall not, in any way, adversely affect or jeopardize the legal proceedings, if any, instituted in the past or that could be instituted against you by the State Board for violation of the provisions of the Act or the Rules made thereunder.

M/s M/S BHARAT SINGH SHEKHAWAT

Mohan Nagar, BJS Colony, Jodhpur (342006), Jodhpur

E-Mail : gudhamalanibajri@gmail.com

Sub: Grant of Consent to Operate under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your Minor Mineral Mine at near Village-, Tehsil-Kekri, District- Ajmer (M.L.No-MLNo.5/2013).

Ref: (i) Your application dated 01/04/2023
(ii) Received on 01/04/2023

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Operate** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

1 That this consent is being granted in favour of M/s. M/S BHARAT SINGH SHEKHAWAT, a Mine of **Minor Mineral** having M.L.No-MLNo.5/2013 in an area measuring 1025.7000 Hectares at/near Village-, Tehsil-Kekri, District-Ajmer.

2 That this consent is valid for a period from 19/04/2023 to 29/03/2024.

3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.

Order No 2023-2024/Mines/10824

Date: 19/04/2023

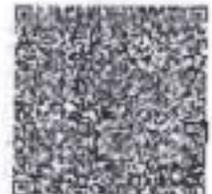

Unit Id : 124,033

- 5 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other mineral(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 6 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03/02/2022 are strictly complied with
- 7 That this consent is valid for production of Bajri(ROM) @ 30 lakh Ton per Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate
- 8 That plantation shall be developed so as to cover at least 33% of the total land use for mining and allied activities as given in Approved Mining Plan and shall be maintained at all the time to maintain ambient air quality around the mine.
- 9 That the lessee shall submit monitoring report of Ambient Air Quality within the lease area, once in 3 months.
- 10 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).
- 11 That haul roads should be regularly graded and compacted. Regular water sprinkling should be carried out on haul roads to minimize dust generations.
- 12 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution
- 13 That you shall not establish/operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 14 That this consent to operate shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law /act/rule/ regulation or order of MOE&F and/or any Court / Tribunal time to time.
- 15 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.

State Level Environment Impact Assessment Authority (SEIAA), Rajasthan
Room No. 11, Aravali Bhawan, Jaipur - 302004.

File No. SEIAA/SEAC/Raj/No.8/Project/Cat. I(a)/BII(23967)/2023-24 Inpt. Dated: 12/01/2024

AMENDMENT IN EC

This has reference to your application dated 25.10.2023 seeking amendment in EC issued by MoEF&CC dated 03.02.2022 for the project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application.

The SEIAA Rajasthan considered the Project in 5108th meeting held on 10.01.2024 and resolved to accept the recommendation of the SEAC and the following amendment is being made in the EC granted earlier vide MoEF&CC letter dated 03.02.2022 on the basis of Form-I, Form-4 and other requisite documents, subject to same terms & conditions:

S. No.	Amendments now being made
1.	River Sand Mining Project for making validity of EC co-terminus with the lease period and increase in mineable depth of mining from 1 meter to 3 meter without any increase in total mining capacity and without any increase in mineable area having, ML No.05/2013, Mine Lease Area- 1025.70 Hectares, Production Capacity- 30.0 Lakh TPA (ROM), Khaara No.- Village- Revenue of Villages, Tehsil- Kekri, District- Ajmer, Rajasthan (Proposal no. 294006) with a validity of EC may be kept co-terminus with the lease period only.

Additional Condition:

- i) MoEF&CC in the earlier granted EC vide dated 03.02.2022.
- ii) Ministry's O.M. No. 22-34/2018-IA, III dated 08.01.2019 & 16.01.2020.
- iii) Conditions as per Sustainable Sand Mining Management Guidelines 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020, SOP issued by the Rajasthan State Government for prevention of illegal river sand mining in the state.
- iv) Further, the PP will have to ensure the compliances of all the directions issued by Hon'ble Courts with reference to River Sand Mining.
- v) The PP shall submit action taken report of Compliance Report to Integrated Regional Office and RSPCB, Jaipur, within 30 days.

C. Specific Condition:

1. The validity of EC may be kept co-terminus with the lease period.
2. Permissible Mining of Bed Material (Sand/Bajri) shall be limited to 30 Lakhs TPA (ROM) from an effective mineable area of 1025.70 Hectare.
3. The project proponent shall submit the monthly production details and the compliance of the plantation of the earlier EC to Regional Office of MoEF&CC and Mining Department, Govt of Rajasthan.
4. The project proponent shall take all measures for the surveillance as proposed by the project proponent. The status of implementation with documentary proof needs to be submitted to Regional Office of MoEF&CC.
5. The conservation plan in consultation with the Forest Department shall be implemented and compliance of the same shall be submitted to Regional Office of MoEF&CC.
6. The project proponent shall implement the mitigation measure to control the impact due to transportation viz. Kaccha road, transportation of sand from villages having

L

- habitation should be avoided, regular water sprinkling (3 times a day) before transportation of mineral, plantation on the both side of this road should be completed within 1 year tracks shall not be overloaded, spillage of the mineral to be avoided, covered transportation. Implementation report with supporting documents & photographs before and after shall be submitted to the Regional Office of MoEF&CC.
7. The project proponent shall implement all mitigative measures envisaged in the Environmental Management Plan (EMP) and committed during the presentation and subsequent submissions. A separate Environment management cell (EMC) shall be created with suitable staff having relevant qualification in environment with supporting staff. Implementation report with supporting documents, test reports, geo- locations & photographs before and after and composition of EMC shall be submitted to the Regional Office of MoEF&CC.
 8. The project proponent shall implement the occupational health plan and provide personal protective equipment to all the workers (helmets, dust masks, ear muffs), provision of safe drinking water to workers, shelters for rest etc. In addition to this Occupational health check-up of all workers working in mine, and pulmonary function test for workers working in dusty areas. Implementation report with supporting documents & photographs before and after shall be submitted to the Regional Office of MoEF&CC.
 9. For subsequent period, PP shall submit fresh annual replenishment study to MoEF&CC for amendment in EC for mineable quantity and maximum permission depth for mining based on the scientific findings replenishment study. Such study shall be placed before EAC for appraisal for next three years to assess rate of deposition and accordingly, mineable production capacity a depth can be prescribed based on trends analysis, provided it is found scientifically satisfactory by EAC.

I. **Statutory compliance:**

- I. This Environmental Clearance (EC) is subject to orders/directions of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, as is applicable.
- II. The Project proponent complies with all the statutory requirements and judgments of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
- III. The Department of Mines & Geology, Government of Rajasthan (DMG, GoR) shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
- IV. **In case the project falls within a distance of 10 Km from the boundary of a National Park/ Wildlife Sanctuary, wherein final ESZ Notification has not been issued so far, the EC shall come into effect only after the PP obtains clearance from the Standing Committee of National Board for Wildlife (SCNBWL) as per OM dated 08.08.2019 of MoEF&CC.**
- V. This Environmental Clearance shall become operational only after receiving formal SCNBWL Clearance from Ministry of Environment, Forest & Climate Change, (MoEF&CC), Government of India (GoI) subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.
- VI. This Environmental Clearance shall become operational only after receiving Forest Clearance (FC) under the provision of Forest Conservation Act, 1980, if applicable

h

- to the Project.
- VII. Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The mining activity shall not commence prior to obtaining Consent to Establish- Consent to Operate from the State Pollution Control Board.
- VIII. The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation), Act, 2015 and rules & regulations made there under. PP shall adhere to various circulars issued by Directorate General Mines Safety (DGMS) and Indian Bureau of Mines (IBM) from time to time.
- IX. The Project Proponent shall obtain consents from all the concerned land owners, before start of mining operations, as per the provisions of MMDR Act, 1957 and rules made thereunder in respect of lands which are not owned by it.
- X. The Project Proponent shall follow the mitigation measures provided in MoEF CC's Office Memorandum No. Z-11013-57/2014-LA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".
- XI. The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.
- XII. A copy of EC letter will be marked to concerned Panchayat/ local NGO etc, if any, from whom suggestion/ representation has been received while processing the proposal.
- XIII. State Pollution Control Board shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
- XIV. The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board and website of the Department of Environment, Govt. of Rajasthan, RSPCB for compliance and record.
- XV. The Project Proponent shall inform the MoEF& CC/ SEIAA for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred then mining operation shall only be carried out after transfer of EC as per provisions of the para II of EIA Notification, 2006 as amended from time to time.
- XVI. The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed/ registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the entire cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.
- XVII. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to the mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
- XVIII. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other Laws for the

h

- times-being in force, rests with the project proponent.
- XIX. No further expansion or modifications in the project shall be carried out without prior approval of the SEIAA/MoEF& CC as the case may be. In case of deviations or alterations in the project proposal from those submitted to this Authority for clearance, a fresh reference shall be made to the Authority to assess the adequacy of conditions imposed and to include additional environmental protection measures required, if any.
- XX. The EC is liable to be rejected/revoked, in case it is found that the PP has deliberately concealed and/or furnished false and misleading information or data which is material to screening or scoping or appraisal or decision on the application for EC.
- XXI. Officials from the Department of Environment, Government of Rajasthan, Jaipur; Regional Office of MoEF& CC, Lucknow, RSPCB who would be monitoring the implementation of Environmental safeguards should be extended full cooperation, facilities and documents/data by the project proponents during their inspection. A complete set of all the documents submitted to SEIAA should be forwarded to the CCF, Regional Office of MoEF, Lucknow, Department of Environment, Government of Rajasthan, Jaipur; RSPCB.
- XXII. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provision of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- XXIII. The above condition shall be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, along with their amendments and rules.
- XXIV. The PP shall obtain prior clearance from forestry and wildlife aspects including clearance from Standing Committee of National Board of Wild Life (if applicable). It is further categorically stated that grant of EC does not necessary imply that Forestry and Wildlife clearance shall be granted to the project by the concerned authorities. Proposals for forestry and wildlife clearance will be considered by the concerned authorities on its merits and decision taken accordingly. The investment made in the project, if any based on EC so granted, in anticipation of clearance from Forestry and Wildlife aspects shall be entirely at the cost and risk of the PP and MOEF & CC/SEIAA/ SEAC/ DOE shall not be responsible in this regard in any manner.
- XXV. The SEIAA, Rajasthan may revoke or suspend the Environmental Clearance, if implementation of any of the above conditions is not satisfactory.
- XXVI. The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company/ unit/ industry along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA/ RSPCB by e-mail as well as hard copy duly signed by competent person of company.
- XXVII. This EC is granted for mining of the mineral with production mentioned in the above table subject to the stipulation that the PP shall abide by the annual/ permitted production schedule specified in the mining plan and that any deviation therein will render the PP liable for legal action in accordance with Environment and Mining Laws.

L

- XXVII] The PP shall spend the various amounts in the respective heads as mentioned in Annexure G.
- XXIX. Drills shall either be operated with dust extractors or equipped with water injection system.
- XXX. Data on ambient air quality and stack emissions should be submitted to Rajasthan State Pollution Control Board once in six months. The monitoring, sampling and analysis are to be carried out by MOEF/ NABL/ CPCB/ RSPCB/ Government approved lab.
- XXXI. Blasting operations, if permitted, should be carried out only during the daytime with safe blasting parameters.
- XXXII. The PP shall carry out mining activities with open cast method. The PP to undertake underground mining only if permitted specifically.
- XXXIII. In the project related to Bajri mining the PP shall follow the 'Sustainable Sand Mining Guidelines 2016' and 'Enforcement and Monitoring Guidelines for Sand Mining, 2020' laid down by the MoEF& CC, GOI. The Bajri sand mining activity is restricted to three meters from ground level or water level whichever is less and the PP shall carry out river sand (Bajri) mining activity only manually or semi mechanized method as provided under the 'Sustainable Sand Mining Management Guidelines, 2016' and 'Enforcement and Monitoring Guidelines for Sand Mining, 2020'.
- XXXIV. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.
- 2. Air quality monitoring and preservation:**
- i. The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20.90/PCEI, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.
 - ii. Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEF& CC/ Central Pollution Control Board.
- 3. Water quality monitoring and preservation:**
- i. In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEF& CC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
 - ii. Regular monitoring of the flow rate of the springs and perennial nullahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies

- and of streams which are flowing in and around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring of water table in open dug well located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
- iii. Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
 - iv. The Project Proponent shall undertake regular monitoring of natural water courses' water resources' springs and perennial nullahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gulches shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-a-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEF& CC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz: pre- monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
 - v. Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Dissolved Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No.1-20012/1-2006-1A.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.
 - vi. Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEF& CC annually.
 - vii. Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
 - viii. The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF& CC and State Pollution Control Board.
4. **Noise and vibration monitoring and prevention:**

h

- i. The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
 - ii. The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day/night hours.
 - iii. The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs/ muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.
 - iv. The ambient noise level should conform to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.
- 5. Mining plan:**
- i. The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and top soil etc.. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O/B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/ SEIAA, which entail adverse environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form of Short Term Permit (STP), Query license or any other name.
 - ii. The Project Proponent shall get the Final Mine Closure Plan along with Financial Assurance approved from Indian Bureau of Mines/Department of Mining & Geology as required under the Provision of the MMDR Act, 1957 and Rules/ Guidelines made there under. A copy of approved final mine closure plan shall be submitted within 2 months of the approval of the same from the competent authority to the concerned Regional Office, MoEF& CC/ SEIAA/ SPCB for record and verification.
 - iii. The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-a-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEF& CC/ SEIAA/ SPCB and its concerned Regional Office.
- 6. Land reclamation:**
- i. The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by D.G.M.S w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclamation and plantation.
 - ii. The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS w.r.t. safety in mining operations shall be strictly

L

- adhered to maintain the stability of waste dumps.
- iv. The reclamation of waste dump sites shall be done in scientific manner as per the Approved Mining Plan cum Progressive Mine Closure Plan.
 - v. The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes/ clay liners/ Bentonite etc. shall be undertaken for stabilization of the dump.
 - vi. The Project Proponent shall carry out slope stability study in case the dump height is more than 30 meters. The slope stability report shall be submitted to concerned regional office of MoEF& CC/ RSPCB.
 - vii. Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.
 - viii. Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak runoff (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
 - ix. The top soil, if any, shall temporarily be stored at earmarked site(s) within the mine lease only and should not be kept unutilized for long. The physical parameters of the top soil dumps like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines framed by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of dumps. The topsoil shall be used for land reclamation and plantation purpose.
- 7. Transportation:**
- i. No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.
 - ii. The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be

installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.

8. Green Belt:

- i. The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry/ SEIAA irrespective of the stipulation made in approved mine plan.
- ii. The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
- iii. The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
- iv. The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.
- v. And implemented in consultation with the State Forest and Wildlife Department. A copy of Wildlife Conservation Plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry/ SEIAA.

9. Public hearing and human health issues:

- i. The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines. The records shall be maintained properly. PP shall also carryout Occupational health check-ups in respect of workers which are having ailments like nr, diabetes, habitual smoking, etc. The check-ups shall be undertaken once in six months and necessary remedial/ preventive measures be taken. A status report on the same may be sent to MoEF& CC/ SEIAA/ Regional Office and DGMS on half-yearly basis.
- ii. The Project Proponent must demonstrate commitment to work towards 'Zero Harm' from their mining activities and carry out Health Risk Assessment (HRA) for identification workplace hazards and assess their potential risks to health and determine appropriate control measures to protect the health and wellbeing of workers and nearby community. The proponent shall maintain accurate and systematic records of the HRA. The HRA for neighborhood has to focus on Public Health Problems like Malaria, Tuberculosis, HIV, Anaemia, Diarrhoea in children under five, respiratory infections due to bio mass cooking. The proponent shall also create awareness and educate the nearby community and workers for Sanitation, Personal Hygiene, Hand washing, not to defecate in open, Women Health and Hygiene (Providing Sanitary Napkins), hazard of tobacco and alcohol

L

- use. The Proponent shall carryout HRA for all the category of workers and thereafter every five years.
- iii. The Proponent shall carry out Occupational health surveillance which be a part of HRA and include Biological Monitoring where practical and feasible; and the tests and investigations relevant to the exposure (e.g. for Dust a X-Ray chest. For Noise Audiometric, for Lead Exposure Blood Lead, For Welders Full Ophthalmologic Assessment; for Manganese Miners a complete Neurological Assessment by a Certified Neurologist, and Manganese (Mn) Estimation in Blood; For Inorganic Chromium-Fortnightly skin inspection of hands and forearms by a responsible person. Except routine tests all tests would be carried out in a Lab accredited by NABH. Records of Health Surveillance must be kept for 30 years, including the results of and the records of Physical examination and tests. The record of exposure due to materials like Asbestos, Hard Rock Mining, Silica, Gold, Kaolin, Aluminum, Iron, Manganese, Chromium, Lead, Uranium need to be handed over to the Mining Department of the State in case the life of the mine is less than 30 years. It would be obligatory for the State Mines Departments to make arrangements for the safe and secure storage of the records including X-Ray. Only conventional X-Ray will be accepted for record purposes and not the digital one). X-Ray must meet ILO criteria (17 x14 inches and of good quality).
 - iv. The Proponent shall maintained a record of performance indicators for workers which includes (a) there should not be a significant decline in their Body Mass Index and it should stay between 18.5 -24.9, (b) the Final Chest X-Ray compared with the base line X-Ray should not show any capacities ,(c) At the end of their leaving job there should be no Diminution in their Lung Functions Forced Expiratory Volume in one second (FEV1),Forced Vital Capacity (FVC), and the ratio) unless they are smokers which has to be adjusted, and the effect of age, (d) their hearing should not be affected. As a proof an Audiogram (first and last need to be presented), (e) they should not have developed any Persistent Back Pain, Neck Pain, and the movement of their Hip, Knee and other joints should have normal range of movement, (f) they should not have suffered loss of any body part. The record of the same should be submitted to the Regional Office, MoEF& CC/ SEIAA annually along with details of the relief and compensation paid to workers having above indications.
 - v. The Project Proponent shall ensure that Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
 - vi. Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
 - vii. The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.
10. **Miscellaneous:**
- i. The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF& CC/ SEIAA/SPCB.
 - ii. The Project Authorities should inform to the SEIAA/Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.

- iv. The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MoEF&CC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
- v. A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEF&CC/SEIAA/SPCB.
- vi. The MoEF&CC/SEIAA/SPCB shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF&CC/SEIAA/SPCB officer(s) by furnishing the requisite data / information / monitoring reports.
- vii. Project Proponent shall keep the funds earmarked for environmental protection measures in a separate account and refrain from diverting the same for other purposes. The Year wise expenditure of such funds should be reported to the MoEF&CC/SEIAA/SPCB and its concerned Regional Office.

Additional conditions recommended in view of OM dated 08.08.2019 of the MoEF&CC (applicable where the project falls within a distance of 10 Km from the boundary of National Park/ Wildlife Sanctuary and outside notified ESZ):

1. The mining activity should be carried out in a manner so that the water regime/system of the sanctuary is not disturbed. The mining activity should not adversely affect any existing water course, water body, catchment etc. The PP shall while carrying out mining activity ensure compliance of the provisions of Air (Prevention and Control of Pollution) Act 1981, Water (Prevention and Control of Pollution) Act 1974 and the Environment (Protection) Act, 1986 so that the wildlife in the area is not adversely affected.
2. The processes like blasting, drilling, excavation, transport and haulage resulting into noise, should be carried out in such a manner so that such activities do not disturb wild animals and birds particularly during sunset to sunrise. The level of noise should be kept within the permissible limits.
3. The mining activity should not create any obstacle in the way of free movement of wildlife and adversely affect wildlife corridors.
4. The mineral waste/ slurry should be dumped only at the designated places only and such waste dumps should be reclaimed in accordance with the conditions of the mining plan/ consent issued by the RSPCB under the Water and Air act.
5. The PP shall cooperate with the concerned DCF, Wildlife in their efforts towards protection and conservation of wildlife in the Sanctuary/ Park.
6. The PP shall ensure that the transporter and labor employed by him should not damage flora and fauna in the ESZ and the Wildlife Sanctuary/ National Park.

Specific Conditions applicable, in the cases of violation in terms of the Notification dated 14.3.2017 and 8.3.2018 and OMs dated 30.5.2018, 4.7.2018 of the MoEF&CC :

1. The PP shall give an undertaking by way of affidavit to comply with all the statutory requirements and judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause Vs Union of India & others before grant of ToR/EC. The undertaking inter-alia include commitment of the PP not to be repeat any such violation in future.
2. In case of violation of above undertaking/ affidavit, the ToR/EC shall be liable to be

R

terminated forthwith.

3. The environmental clearance will not be operational, till such time the Project Proponent complies with all the statutory requirements and judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V's Union of India & others.
4. The department of Mines & Geology shall ensure that the mining operations shall not commence till the entire compensation levied, if any, for illegal mining, is paid, by the Project Proponent through the Department of Mines and Geology, in strict compliance of the judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V's Union of India & others.

GENERAL CONDITIONS

1. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project **Proponent** from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry / unit / project **Proponent**. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.
2. No further expansion or modifications in the project shall be carried out without prior approval of the SEIAA/Ministry of Environment and Forests as the case may be. In case of deviations or alterations in the project proposal from those submitted to this Authority for clearance, a fresh reference shall be made to the Authority to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
3. The implementation of the project vis-à-vis environmental action plans shall be monitored by MoEF Regional Office at Lucknow / RSPCB / CPCB / SEIAA, Department of Environment, Government of Rajasthan, Jaipur and this office. A six monthly compliance status report shall be submitted to monitoring agencies.
4. The EC is liable to be rejected, in case it is found that the PP has deliberately concealed and furnished false and misleading information or data which is material to screening or scoping or appraisal or decision on the application for EC.
5. The project authorities shall inform the MoEF Regional Office at Lucknow / RSPCB / CPCB / SEIAA, Department of Environment, Government of Rajasthan, Jaipur and the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
6. Officials from the Department of Environment, Government of Rajasthan, Jaipur/ Regional Office of MoEF, Lucknow, RSPCB who would be monitoring the implementation of Environmental safeguards should be given full cooperation, facilities and documents/data by the project **Proponents** during their inspection. A complete set of all the documents submitted to SEIAA should be forwarded to the CCF, Regional Office of MoEF, Lucknow / SEIAA, Department of Environment, Government of Rajasthan, Jaipur / RSPCB.
7. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provision of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory

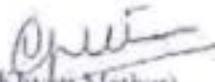

R

manner.

8. The project Proponent should advertise in at least two local Newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental Clearance and copies of clearance letters are available with the Rajasthan State Pollution Control Board and may also be seen on the website of the RSPCB. The advertisement should be made within 7 days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office of MoEF at Lucknow Department of Ecology and Environment, Government of Rajasthan, Jaipur.
9. The above condition shall be enforced among others under the provisions of water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, along with their amendments and rules.
10. The PP shall obtain prior clearance from forestry and wild Life angle including clearance from standing committee of National Board of Wild Life (if applicable). It is further categorically stated that grant of EC does not necessary imply that Forestry and Wild Life clearance shall be granted to the project and that proposals for forestry and wild Life clearance will be considered by the respective authorities on their merits and decision taken. The investment made in the project, if any based on EC so granted, in anticipation of clearance from Forestry and Wild Life angle shall be entirely at the cost risk of the PP and MOEF/SEIAA shall not be responsible in this regard in any manner.
11. The SEIAA, Rajasthan may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
12. Main haulage road should be provided with permanent water sprinklers and other roads should be regularly wetted with water tankers fitted with sprinklers. The material transfer points should invariably be provided with Bag filters and or dry fogging system. In case of Belt- conveyors facilities the system should be fully covered to avoid air borne dust; Use of effective sprinkler system to suppress fugitive dust on haul roads and other transport roads shall be ensured.
13. Periodic monitoring of ambient air quality shall be carried out for PM10, PM2.5, SPM, SO2 and NOx monitoring. Location of the stations (minimum 6) shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring shall be decided in consultation with the Rajasthan State pollution Control Board (RPCB). Six monthly reports of the data so collected shall be regularly submitted to the RPCB/CPCB including the MoEF, Regional office, Lucknow.
14. Personnel working in dusty areas shall wear protective respiratory devices they shall also be provided with adequate training and information on safety and health aspects.
15. The ambient noise level should conform to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.
16. The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA by e-mail as well as hard copy duly signed by competent person of company.

R

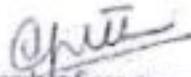

17. The Mining Department will ensure that while executing the mining Lease/LeI, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.
18. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.
19. This EC is being issued on the condition that the applied area is at a distance of more than 50 metres from the boundary of the closest forest area as stated by project proponent in Form I.

 (Khushi Mathur)
 Member Secretary,
 SEIAA, Rajasthan.

No. F1 (4)/SEIAA/SEAC-Raj Sectt/Project Cat.1(a)BI(23867)/2023-24 Jaipur, Dated:

Copy to following for information and necessary action:

1. Secretary, Ministry of Environment, Forest & Climate Change, Govt. of India, Indira Paryavaran Bhawan, Jor Bagh Road, Aliganj, New Delhi-110003.
2. ACS, Environment & Climate Change Department, Rajasthan, Jaipur.
3. Chairman, SEIAA, Aravali Bhawan, Jhalana Doongri, Jaipur, Rajasthan.
4. Member, SEIAA, Aravali Bhawan, Jhalana Doongri, Jaipur, Rajasthan.
5. Member Secretary, Rajasthan State Pollution Control Board, Jaipur for information & necessary action and to display this sanction on the website of the Rajasthan Pollution Control Board, Jaipur.
6. Member Secretary, SEAC Rajasthan.
7. The CCF, Regional Office, Ministry of Environment & Forests, RO(CZ), Kendriya Bhawan, 5th Floor, Sector 'H', Aliganj, Lucknow-226 020.
8. M's Bharat Singh Shekhawat, Address-336, Mohan Nagar-B, B.J.S Colony, Jodhpur, Rajasthan.
9. I.A., SEIAA, Jaipur with the direction to upload the copy of this Amendment in EC letter on the website.

 Member Secretary,
 SEIAA, Rajasthan.

M/s M/S BHARAT SINGH SHEKHAWAT

Mohan Nagar, BJS Colony, Jodhpur (342006), Jodhpur

E-Mail : gudhamalanibajri@gmail.com

Sub: Grant of Consent to Establish under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- Kekri (M.L.No-MLNo.5/2013).

Ref: (i) Your application dated 25/01/2024
(ii) Received on 25/01/2024
(iii) Received at Head office on 17/01/2024

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Establish** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

- 1 That this consent is being granted in favour of M/s. M/S BHARAT SINGH SHEKHAWAT, a Mine of **Minor Mineral** having M.L.No-MLNo.5/2013 in an area measuring **1025.7000 Hectares** at/near Village-,Tehsil-Kekri,District-Kekri.
- 2 That this consent is valid for a period from **07/02/2024** to **25/05/2027**, or commencement of production whichever is earlier.
- 3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

- 4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.
- 5 That you shall not operate the mine without obtaining **Consent to Operate** from the Board.

Registered

File No F(Mines)/Ajmer(Kekri)/6946(1)/2023-2024/6940-6944

Order No 2023-2024/Mines/11072

Date: 07/02/2024

Unit Id : 124,033

- 6 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other minerals(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 7 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03.02.2022 and SEIAA vide letter dated 12.01.2024 are strictly complied with.
- 8 That the rules of sand mining in river of GOI may be strictly followed.
- 9 That this consent is valid for production of Bajri (ROM) @ 3000000 Ton/Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 10 That the CTE shall be valid from the end of monsoon since riverbed mining is completely banned during monsoon months.
- 11 That the occupier/operator of the unit shall give more focus on plantation to cover 1/3 lease area under plantation. The species like Tamarind/Imli(Tamarindus Indica), Palas(Butea Monosperma), Ber(Zizipus Mauritiana), Bael(Aegle Marmelos), Mousari(Mimusops Elengi), Siris(Albizia Lebbeck), Kacchnar(Bauhinia Variegata) should be planted for better control of noise and air pollution. Copy of bills of saplings purchased should be submitted to Board's Regional Office, Kishangarh.
- 12 That all the PCM needed to mitigate the fugitive emission shall be strictly followed. It includes water sprinkling etc. The Trucks or other transportation medium involved shall be covered with tarpaulin.
- 13 That in order to reduce the air pollution due to the excavation and follow-up operation, greenbelt of necessary width at least one row at both sides shall be developed by the P.P. Since creating in such situation may be impracticable by the unit itself because of technical reason, unit shall involve Forest Department to raise the plantation. The unit may deposit the amount as per the estimate prepared by the local Forest Department and accordingly this process can be achieved.
- 14 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).

Unit Id : 124,033

- 15 That internal transport roads (Haul roads) should be Paved/Hard Surfaced using bitumen etc and compliance shall be submitted with photographic evidence by 3 months.
- 16 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution.
- 17 That you shall not operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 18 That this consent to establish shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law/act/rule/ regulation or order of MoEF&CC and/or any Court/Tribunal time to time.
- 19 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.
- 20 That the mine shall install adequately designed rain water harvesting structure for prevention and recharge of ground water in and around the lease area.
- 21 That the mine shall not allow making any obstacles to any natural water flow i.e., natural nallah/stream carrying rain water to any water body.
- 22 This the mine shall not allow unauthorized disposal of any solid waste on land inside or outside the premises.
- 23 That this consent to operate shall be subject to compliance of direction/order passed by Courts of Law in the matter,if any.
- 24 That the lessee should dump the overburden in such a manner that it does not get washed away to nearby water tanks and lakes etc. during rainy season.
- 25 That the lease shall not intersect the ground water table without permission of CGWA
- 26 That Permissible mining of river bed material (Sand/Bajri) shall be limited to Bajri @ 3000000 TPA (ROM) from an effective mineable area of 1025.7 Ha. with maximum mineable depth of 3 meter.

Sub: Grant of Consent to Operate under Section 21(4) of Air (Prevention & Control of Pollution) Act, 1981 for your **Minor Mineral Mine** at near Village-, Tehsil-Kekri, District- Kekri (M.L.No-ML.No.5/2013).

Ref: (i) Your application dated 25/01/2024
(ii) Received on 25/01/2024
(iii) Received at Head office on 17/01/2024

Sir,

In view of the details submitted vide your above referred application/ documents, the **Consent to Operate** under Section 21(4) of Air (Prevention & Control of Pollution) Act,1981 is hereby granted for carrying mining activities. This consent is subject to the following stipulations:-

1 That this consent is being granted in favour of **M/s. M/S BHARAT SINGH SHEKHAWAT**, a Mine of **Minor Mineral** having **M.L.No-ML.No.5/2013** in an area measuring **1025.7000 Hectares** at/near Village-,Tehsil-Kekri,District-Kekri.

2 That this consent is valid for a period from **07/02/2024** to **25/05/2027**

3 That this consent is valid for following mining activities :-

Mineral	Permitted Mining Capacity
1 Bajri (ROM)	3000000.0000 TON PER ANNUM

4 That the project proponent will comply with the Standard as prescribed vide the Ministry of Environment, Forest and Climate Change notification no. GSR 826(E) dated 16th November, 2009 with respect to National Ambient Air Quality standards.

Unit Id : 124,033

- 5 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other minerals(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 6 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by the MoEF&CC vide letter dated 03.02.2022 and SEIAA vide letter dated 12.01.2024 are strictly complied with.
- 7 That the rules of sand mining in river of GOI may be strictly followed.
- 8 That this consent is valid for production of Bajri (ROM) @ 3000000 Ton/Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 9 That the consent to operate granted by State Board under Air Act, 1981 vide letter no. F (Mines)/ Ajmer (Kekri)/ 6946(1)/2023-2024/318-322 dated 19.04.2023 shall be treated as null and void after this consent.
- 10 That the CTO shall be valid from the end of monsoon since riverbed mining is completely banned during monsoon months
- 11 That the occupier/operator of the unit shall give more focus on plantation to cover 1/3 lease area under plantation. The species like Tamarind/Imli(Tamarindus Indica), Palas(Butea Monosperma) , Ber(Zizipus Mauritiana), Bael(Aegle Marmelos), Mousari(Mimusops Elengi), Siris(Albizia Lebbeck), Kacchnar(Bauhinia Variegata) should be planted for better control of noise and air pollution. Copy of bills of saplings purchased should be submitted to Board's Regional Office, Kishangarh.
- 12 That all the PCM needed to mitigate the fugitive emission shall be strictly followed. It includes water sprinkling etc. The Trucks or other transportation medium involved shall be covered with tarpaulin.

**Mines (Gr.II) Department
NOTIFICATION**

Jaipur, February 28, 2017

G.S.R. 118:- In exercise of the powers conferred by section 15 of the Mines and Minerals (Development and Regulation) Act, 1957 (Central Act No. 67 of 1957), the State Government hereby makes the following rules for regulating the grant of quarry licence, mining lease and other mineral concessions in respect of minor minerals and for the purposes connected therewith, namely:-

**CHAPTER I
PRELIMINARY**

1. Short title, extent and commencement.- (1) These rules may be called The Rajasthan Minor Mineral Concession Rules, 2017.

(2) They shall extend to the whole of the State of Rajasthan.

(3) They shall come into force on the date of their publication in the Official Gazette.

2. Definitions.- (1) In these rules, unless the context otherwise requires,-

- (i) "Act" means the Mines and Minerals (Development and Regulation) Act, 1957 (Central Act No. 67 of 1957);
- (ii) "Appellate Authority" means the Government or any other authority vested with such powers under these rules or any other authority authorised by the Government to perform the functions of the appellate authority;
- (iii) "Assessee" means a person holding any mineral concession or a permit and includes any other person who is possessing, trading, processing or using minor mineral;
- (iv) "Assessing Authority" means Director, Additional Director Mines, Additional Director Mines (Vigilance), Superintending Mining Engineer, Superintending

191(42) राजस्थान राज-पत्र, मार्च 1, 2017 भाग4(ग)

(9) Transfer of lease or licence shall be permitted subject to payment of one time premium at the time of transfer and shall not be adjusted against dead rent, annual licence fees or royalty, as the case may be, as mentioned below,-

S. No.	Residual period of lease or licence	Premium
1	2	3
1.	Upto five years	Two times of annual dead rent or annual licence fee
2.	More than five years and upto ten years	Four times of annual dead rent or annual licence fee
3.	More than ten years and upto fifteen years	Six times of annual dead rent or annual licence fee
4.	More than fifteen years and upto twenty years	Eight times of annual dead rent or annual licence fee
5.	More than twenty years	Ten times of annual dead rent or annual licence fee

Provided that amount of premium shall not be more than ten lacs.

Provided further that lessee or licensee who obtained lease or licence through tender or auction shall not be required to pay additional premium amount over and above the existing premium amount.

(10) Mining lease or quarry licence granted before the commencement of these rules to a person under any category by way of lottery shall not be transferred to any other category.

(11) Lock-in period for transfer of mineral concession granted other than through auction shall be one year and subsequent transfer shall be allowed subject to condition that at least one year has elapsed since last transfer:

Provided that above lock-in period shall not be applicable in cases specified in clause (i) to (v) of sub-rule (7).

(12) Mining lease of bajri (river sand) shall not be transferred.

CHAPTER IV

TERMS AND CONDITIONS OF MINERAL CONCESSION

28. Terms and Conditions of mining lease or quarry licence.

(1) Every mining lease or quarry licence shall be subject to the following conditions:-

- (i) No person shall undertake any mining operations of any minor mineral in any area within the state except under and in accordance with these rules;
- (ii) (a) The lessee or licensee shall pay contribution to the District Mineral Foundation Trust fund as

- per rates specified in the District Mineral Foundation Trust Rules, 2016, as amended from time to time;
- (b) The lessee or licensee of lease or licence granted after commencement of these rules, shall also pay premium amount as specified in rule 4, 5, 6 and 13, and
- (c) The lessee or licensee shall also pay surface rent of government land to the Revenue Department for surface area used by him for the purpose of mining, as per the rates prevalent in the area;
- (iii) The lessee or licensee shall pay all dues in the office of such officer, in such manner, at such place and time as may be specified by the Government;
- (iv) The lessee or licensee shall at his own expense erect and at all-time maintain and keep in repair boundary pillars and marks according to the plan and demarcation report in following manner:-
- (a) each corner of the lease or licence area shall have a boundary pillar (corner pillar);
- (b) there shall be erected intermediate boundary pillars between the corner pillars in such a way that each pillar is visible from the adjacent pillar located on either side of it;
- (c) the pillars shall be of square pyramid frustum shaped above the surface and cuboid shaped below the surface;
- (d) each pillar shall be of reinforced cement concrete;
- (e) the corner pillars shall have a base of 0.30m X 0.30m and height of 1.30m of which 0.70m shall be above ground level and 0.60m below the ground;
- (f) the intermediate pillars shall have a base of 0.25m X 0.25m and height of 1.0m of which 0.70m shall be above ground level and 0.30m below the ground;
- (g) all the pillars shall be painted in yellow colour and the top ten centimeters in red colour by enamel paint and shall be grouted with cement concrete;
- (h) on all corner pillars, distance and bearing to the forward and backward pillars and latitude and longitude shall be marked;

- (i) each pillar shall have serial number in a clockwise direction and the number shall be engraved on the pillars;
 - (j) the serial number of pillar shall be the number of the individual pillar as per the lease or licence;
 - (k) the location and number of the pillars shall also be shown in the surface plan and other plans maintained by the lessee or licensee; and
 - (l) in case of forest area within the lease or licence, the size and construction and colour of the boundary pillars shall be as per the norms specified by the Forest Department in this behalf.
- (v) The lessee or licensee shall not erect, set-up or place any building or thing and shall not carry on surface operations in or upon any public pleasure ground, burning or burial ground or place held sacred by any class of persons or any house or village site, public road or other place which the Government may determine as public ground or in such a manner as to injure or prejudicially affect any building, works, property or rights of other persons;
- (vi) The lessee or licensee shall not carry on his operations in a manner that would injure or prejudicially effect any buildings, works, property or rights of other persons and no land will be used by the lessee or licensee for surface operations which is already occupied by persons other than the Government for works or purposes not included in the mining lease;
- (vii) The lessee or licensee shall give notice of commencement of any mining operations to the authorities as per section 16 of the Mines Act, 1952 and also to the Mining Engineer or Assistant Mining Engineer concerned at least one month before the commencement of any mining operation;
- (viii) The lessee or lessees shall commence mining operations within six months from the date of commencement of the lease or licence and thereafter carry on such operations effectively in a proper skilful and workman like manner both as regards prevention of waste by removal of sufficient overburden, careful storage of waste and drainage and as regards removal of all valuable minerals within the mine. The lessee or licensee shall work in workman like manner for systematic, scientific and environment friendly mining so as to

(2) In the case of an applicant in respect of whom an order of grant or extension of period of mineral concession or order of grant of contract, but who dies before the execution of deed or issuance of quarry licence, the order shall be deemed to have been issued in the name of the legal heirs of the deceased.

89. Status of pending applications.- Notwithstanding anything contained in these rules, all the pending applications except saved under rule 4 and rule 5, on the date of notification of these rules shall be deemed to have been rejected:

Provided that on and after the commencement of these rules, all applications including those rejected under the Rajasthan Minor Mineral Concession Rules, 1986 or rejected under notification dated 3rd April 2013 or subsequently restored shall be deemed to have been rejected and such applicant shall have no locus standi under these rules.

90. Stoppage of mining operations.- The Director, Additional Director Mines, Superintending Mining Engineer, Mining Engineer, Assistant Mining Engineer may prohibit mining operations and seize mineral, equipment, tool and vehicle in case the mining operations are not being carried out in accordance with the terms and conditions of the mineral concession or permit granted under these rules:

Provided that Mining Engineer or Assistant Mining Engineer shall not prohibit mining operations in any mineral concession area without approval of Superintending Mining Engineer concerned, but in case of immediate danger to mine workers or any human life, Mining Engineer or Assistant Mining Engineer may prohibit the mining operations immediately under intimation to Superintending Mining Engineer and Director, Mines Safety, wherever applicable, within twenty four hours. On receipt of such communication, the Superintending Mining Engineer concerned, shall visit the site personally and shall approve or disapprove the stoppage of mining operations with the reasons to be recorded in writing within fifteen days. Further action shall be taken as per rule 28. Such seized mineral or equipment shall only be released and mining operations shall be resumed with prior written approval of Superintending Mining Engineer concerned after rectification of breaches.

91. Survey and demarcation.- (1) The arrangements shall be made by the Mining Engineer or Assistant Mining Engineer concerned at the expenses of the lessee or licensee for survey and demarcation of the area granted under lease or licence and the survey of the area may be conducted using Global Positioning System or Differential Global Positioning System.

(2) Fee for demarcation shall be rupees one thousand and five hundred per hectare or part thereof subject to maximum of rupees fifty thousand:

Provided that demarcation fee for re-verification of boundary pillars shall be two times of the amount mentioned above.

INTRODUCTION

The district is situated between $25^{\circ} 38'$ & $26^{\circ} 58'$ North latitude and $73^{\circ} 54'$ & $75^{\circ} 22'$ East longitude covering geographical area of 8,481 sq km. Name of Ajmer is derived from Ajmer (the invincible hill). Ajmer is one of the Divisions which is further sub-divided into 4 sub-divisions namely Ajmer, Beawar, Kekri & Kishangarh and comprises of 6 tehsils & 8 blocks. Total number of villages in the district is 1022 (2001 census). Rural & Urban population of the district is 13,06,398 & 8,74,128 respectively. Decennial population growth rate of the district is 26.09% since 1991. The district is known for Khwaja Moinuddin Chisti's Dargah and religious Pushkar town, where temple of Lord Bhrama, is situated.

Systematic Hydro geological survey in the district was carried out by Central Ground Water Board from 1970 to 1980. Reappraisal hydroecological survey of entire district was carried out during 2004-05. Under exploratory programme 45 exploratory boreholes, 2 observation boreholes and 1 slim hole have been drilled. Since 1969, monitoring of water level is being carried out four times a year from 38 National Hydrograph Network Stations.

RAINFALL & CLIMATE

Mean annual rainfall (1987-2006) of the district is 453.2 mm whereas normal rainfall (1901-70) is lower than average rainfall and placed at 433.8. Almost 95% of the total annual rainfall is received during the southwest monsoon, which enters the district in the last week of June and withdraws in the middle of September. Probability of average annual rainfall exceeding 300 mm is only 90%, except at Mangliawas. However, there is 10% probability that the average rainfall exceed 600 mm. Drought analysis based on agriculture criteria indicates that the district is prone to mild and normal type of droughts. Severe and very severe type of drought is very rare and occurred only twice during 1987 & 2002 (Srinagar); 1977 & 1987 (Todgarh); & 1991 & 1993 (Vijaynagar).

January is the coldest month with mean maximum and minimum temperatures being lowest at 22.70°C & 7.60°C . Temperature in summer month, June, reaches up to 39.50°C . There is drop in temperature due to onset of monsoon and rises again in the month of September.

Atmosphere is generally dry except during the monsoon period. The humidity is highest in August with mean daily relative humidity 80%. The annual potential evapotranspiration in the district is 1565.6 mm and is the highest in the month of May (243 mm).

PROCESS OF DEPOSITION OF SEDIMENTS IN THE RIVER OF THE DISTRICT:

River or Stream and other Sand Source_ Sand has become very important mineral due to its many uses. The role of sand is vital with regards to the protection of the

PHYSIOGRAPHIC:

Ajmer District is situated almost in the central portion of Rajasthan and a part of Aravalli hill range passes for about 175 km. strike length with 25- 30 km. width, occupies the western part of the district with general NE-SW disposition trend, which forms the high steep hills and valleys. The highest point of the Aravalli range in Ajmer district reached is 869 mt. above the sea level and is the dividing point of the watershed of subcontinent of India between Arabian Sea & Bay of Bengal. Other high peaks are Taragarh (865 mt) near Tadgarh. These peaks are occupied by quartzites in general and soft rocks such as biotite schist and gneisses occupy slopes and valleys. A transverse gap at places in the Aravalli range provides communication ways, for transport and water drainage. The intensity of gaps decreases towards South West.

GEOLOGY AND MINERAL WEALTH:

Area adjoining to lease in Bhinay tehsil is occupied by migmatites & gneiss of mangalwar complex with small out crops of granite gneiss & migmatite granite, edenbergetecharnokitegranodiorite belonging to GyangarhAsindacidic rocks of Bhilwar Super group of archaean age dissected exposures of amphibiotic of jalayan mafic suit are seen introducing the schist & gneisses of mangalwar complex.

PURPOSE OF REPLENISHMENT STUDY: -

The need for replenishment study for river bed sand is required in order to nullify the adverse impacts arising due to excising sand extraction. Mining within or near riverbed has a direct impact on the stream's physical characteristics. Alteration or modification of attributes may cause an impact on the ecological equilibrium of the revering regime, disturbance in channel configuration and flow-paths. This may also cause an adverse impact on in-stream biota and riparian habitats. It is assumed that the riparian habitat disturbance is minimum if the replenishment is equal to excavation for a given stretch. Therefore, to minimize the adverse impact arising out of sand mining in a given river stretch, it is imperative to have a study of replenishment of material during the defined period.

Report aims to quantify the amount of replenishment of sand/Bajri on the basis of survey done with Differential global positioning system (DGPS) during Pre-Monsoon & Post Monsoon of River bed. After completion of the field survey mining depth should be restricted to 3 meters and distance from the bank should be 1/4th or river width and should not be less than 7.5 meters thus area falling under 3/4th part of River bed is considered as Mineable & 1/4th part under Statuary barrier determined on both side of river and sections drawn at an interval of 2000m. And modified as recommend by CEC Guidelines. Post Monsoon data superimposed over pre monsoon data and volume generated. Sampling is done between two consecutive sections to determine the Bulk density as per the guideline

of Sustainable Sand Mining Management Guidelines, 2016, and Enforcement & Monitoring Guidelines for Sand Mining 2020.

Brief process of replenishment study to estimate & establish the replenished amount of sand/Bajri in respective block/stretch:-

- Data Collection of Pre monsoon – Post monsoon status of Lease Area.
- Establishing the levels difference of Pre monsoon – Post monsoon period to establish the Occurrence for sand/Bajri in relative block.
- Quantifying the replenishment amount of sand/Bajri establishing the reserve viability in Relative block.
- Sampling is done between two consecutive sections to determine the Bulk density & Verified by competent authority.
- Geological & Mineable reserve estimated and proposal for bajri excavation made for Permissible quantity. (Mineable material per hectare area available for actual mining shall not exceed the maximum quantity of 60,000 MT per annum as per Enforcement & Monitoring Guidelines for Sand Mining 2020).

Location and Description of lease area:- Most of the data for this study has been collected at field.

Fig-2. Google Image of the Total lease Area

Latitude	Longitude
25°45'22.64"N to 25°51'24.21"N	74°59'24.01"E to 75°18'27.57"E

Replenishment study Method:-

Replenishment Study has been done with Physical survey of the field by the conventional method wherein river stretch has been demarcated with latitude and longitude provided by Department of Mines & Geology (Rajasthan).

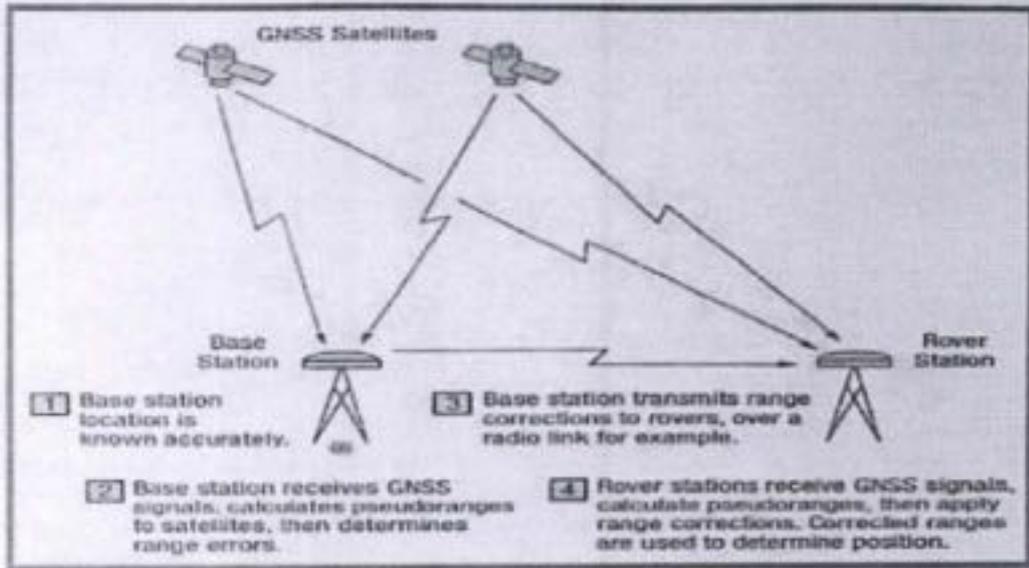

Field Survey conducted & completed in the presence of competent Authority with DGPS instrument FOIF A90, year of manufacturing 2023 on dated 09/06/2023 by Mr. Vikram, Mr. Jitendra for pre-monsoon season & post monsoon survey conducted with DGPS instrument FOIF A90 manufacturing 2023 on 13/10/2023 by Mr. Vikram, Mr. Jitendra under the supervision of Prerna Chauhan (Geologist & QP, EIA Co-ordinator).

Field Survey with Differential Global Positioning System (DGPS):-

Methodology:-

A Differential Global Positioning System (DGPS) is an enhancement to the Global Positioning System (GPS) which provides improved location accuracy, in the range of operations of each system. DGPS (Differential GPS) is essentially a system to provide positional corrections to GPS signals. DGPS uses a fixed, known position to adjust real time GPS signals to eliminate pseudo range errors. DGPS has no effect on results that are based on speed data, such as brake stop results.

Differential GPS (DGPS) requires that a GPS receiver, known as the base station to be set up, thus for pre monsoon Survey/data collection a base station has been set up on a precisely known location. Physical benchmarks has been fixed at appropriate intervals and marked as common/Fixed reference points to control the topographic survey and mining activity in pre & post monsoon period and the Reduced Level (RL) are validated from a nearby standard RL. The base station receiver calculates its position based on satellite signals and compares this location to the known location. The difference is applied to the GPS data recorded by the roving GPS receiver.

3. Fig- DGPS working processes

Establishing the Original Ground level the Databases thus generated, structured in tabulated form clearly mentioning the latitude & longitude and respective levels of all the points taken in pre-monsoon period.

The same process repeated for post monsoon while surveying with DGPS, the Databases thus generated, structured in tabulated form clearly mentioning, latitude & longitude and respective levels of all the points taken in post-monsoon period.

Thus the CSV files of pre & post monsoon data is generated to be processed further to estimate the replenished mineral resource.

Data Processing:-

The above generated file is exported to E-Survey CADD software for further processing. With the help of software the data (CSV) is processed & 3D plotlines created selecting elevation (mRL).

Interpolate of Survey Data

Interpolation is an easy way to interpolate points at any intervals using the actual surveyed data for generating Cross Sections along the longitudinal section. "Interpolate" allows obtaining values at regular intervals. It interpolates elevations at each cross-section along the longitudinal section, which may further be exported to excel for section generation. It also uses the three most commonly used and proven methods of Interpolation techniques for data processing - Straight line, TIN or 3D interpolation.

Practically, surveying at regular/accurate intervals (as directed in Sustainable Sand Mining Management Guideline 2016, and Rajasthan Miner Mineral concession Rule 2017, and.

Enforcement & Monitoring Guidelines for Sand Mining 2020) is not possible for various reasons. Thus, to obtain values at regular intervals (as per the guideline & as directed by authority), points are interpolated. This interpolation is often done manually with a lot of calculations.

Section Generation & Volume Calculation:-

Exports interpolated cross-section and longitudinal section values to excel or section generation software i.e E-Survey CADD. Further generate the section drawings from point data available in CAD drawing or levels available in Excel or CSV file. The database thus structured in a tabulated form clearly depicting the nomenclature of the section lines, latitude and longitude of the starting point, chain-age and respective levels of all the points taken on that section line.

A plan clearly mentioning the width of the river, lease boundaries, levels (MSL & RL), left under safety barriers (non mining) demarcated as restricted in consensus with Rajasthan Miner Mineral concession Rule 2017, and the provision mentioned in this Sustainable Sand Mining Management Guidelines, 2016, and Enforcement & Monitoring Guidelines for Sand Mining 2020.

Also the software generates the area & volume calculations which are based on trapezoidal method of calculation between two consecutive sections. Thus establishing the volume of reserve replenished in btw pre & post monsoon period. Reserve estimation is based on the data collection and quantification of sand transported during the monsoon season. Based on the quantification of material deposited in the river bed, working plan has been prepared/ proposed for further excavation.

The tonnage of the volume established using the Bulk density verified by the Department of Mines & Geology, Rajasthan, between every two consecutive section.

1. Sampling Procedure:-

(a) Sand Sampling:

Objective: To prepare dry sand samples from the field for various laboratory tests.

Apparatus:

- Wooden Mallet.
- Non-corrodible trays.
- Pulverizing apparatus such as mortar and a rubber covered pestle or a mechanical device consisting of mortar and a power driven rubber covered pestle.
- A suitable riffle sampler or sample splitter for quartering the samples.
- Thermostatically controlled oven of capacity 2500C.
- Balance of capacity 500 grams and sensitivity 0.01 gram.
- Balance of capacity 10kgs and sensitivity 0.5 gram.
- Balance of capacity 15Kgs and sensitivity 1 gram.

Procedure:

- One sample per 900 Square meters (30m x30m) has been taken.
- Dry the sand sample as received from the field in the air or under the sun.
- Remove the organic matter like tree roots and pieces of bark from the sample.
- Separate matter other than sand, like shells from the sand mass.
- Break the clods with a wooden mallet to hasten drying.
- In wet weather a drying apparatus may be used but the temperature of the sample during heating shall not exceed 60°C.
- When an oven is used for drying, the temperature in the oven shall not exceed 110°C.
- The amount of drying depends upon the proposed test to be conducted on the particular sample.
- The type, temperature and duration of drying of sand samples for different tests are given in
- After the specified period of drying, cool the material to the room temperature.
- Break the big clods with the help of wooden mallet.
- Pulverize the sand sample to pass through the specified sieves of the particular test to be conducted.
- Mix the entire sand thoroughly and spread on a flat surface.
- Divide the sample into four quadrants and mix the diagonally opposite quadrants.

Method for Quartering

The quartering method shall be used when splitters are not available. Quartering simply requires a quartering cloth and a stick or rod and is done as follows

Four contents from sample bucket the quartering cloth

Level sample on quartering cloth on tousing a rod

Insert rod under the middle of the quartering cloth and lift both ends of rod to divide the sample into two equal parts

1. Repeat step iii, dividing the sample in to four quarters

parts for testing.

2. If the sample is still not small enough, repeat the quartering procedure using either of the two Diagonally opposite halves

PRECAUTIONS

- Care shall be taken not to break individual grains during pulverization of sand. Sand containing organic or calcareous matter should not be dried at a temperature above 60°C.
- In the case of coarse gravels or gravelly sand quartering by forming a cone shall not be done.

(b) Specific Gravity:

DEFINITION

- Specific gravity is defined as the ratio of the mass of a given volume of the substance to the mass of an equal volume of water.
- Or more precisely it is the ratio of the density of a substance to the density of a given reference material. Specific gravity for ligaments is nearly always measured with respect to water of the offset, for gases.

Reference is air at room temp.

APPARATUS

- Density bottle
- Vacuum desiccator of size 200mm to 250mm in diameter containing anhydrous silica gel or any suitable desiccating material.
- Thermostatically controlled oven of capacity 1000cc.
- Analytical balance of sensitivity 0.001 grams.
- 2 mm IS sieve.
- A wash bottle preferably made of plastic.

CALCULATIONS

- If distilled water is used as an air free liquid, calculate the specific gravity of the soil particles 'S' from the equation

$$m_2 - m_1$$

$$S = \frac{(m_4 - m_1) - (m_3 - m_2)}{m_2 - m_1}$$

- If kerosene or white spirit is used as an air free liquid, calculate the specific

Gravity of the soil particles 'S' from the equation

$$SL = (m_2 - m_1)$$

$$S = (m_4 - m_1) - (m_3 - m_2)$$

SL = Specific gravity of the liquid used at the constant temperature.

m1 = mass of the density bottle with stopper.

m2 = mass of density bottle + dry soil.

m3 = mass of density bottle, soil and water.

m4 = mass of density bottle and water.

PRECAUTIONS

- Packing of the samples should be done properly in order to avoid any loss in transfer.
- Before sample to the laboratory, it should be ensured, that proper identification marks are present on the sample bags as well as on the labels placed on the bags. It should be written by permanent markers.
- Monitoring locations & details of samples collection will be prepared separately and send to the laboratory.
- Care should be taken that the sample is collected from deposition zone preferring and not from corrosion zone for purpose of bulk density.
- Soil should not be dried more than 80°C if there is any doubt in change of specific gravity by loss of water of hydration during oven drying.
- The largest source of error in the test is due to the difficulty in ensuring the complete removal of air from the sample. To ensure this the density bottle with soil submerged in water should be kept in vacuum desiccators.
- This test requires temperature between 22°C to 32°C and therefore shall be conducted in concrete laboratory where temperature is maintained at 27 ± 2°C.

2. List of Instruments: - DGPS, inch tap, Briston Compass, etc.

3. List of Software: - E-Survey CADD, Google Earth Pro

हेमवती नन्दन बहुगुणा गढ़वाल विश्वविद्यालय
(केन्द्रीय विश्वविद्यालय)
विज्ञान निष्णात

Enrolment No. (संश्लेषण संख्या) **G07340169** Roll No. (संख्या) **82582426**

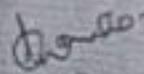

श्री/शु. /श्रीमती **प्रेम चोपड़ा** को इस विश्वविद्यालय
को **पुस्तक** से विज्ञान निष्णात की उच्चि परीक्षा में **2012** को
परीक्षा से **प्रथम** श्रेणी में उत्तीर्ण की गयी है।

HEMVATI NANDAN BAHUGUNA GARHWAL UNIVERSITY
(A Central University)
Master of Science

Mr./Ms./Mrs. **Premna Chauhan** is hereby conferred
the degree of Master of Science in **Geology** of this University
in the Examination of **2012** in **First** division.

Printed & Published by the University, Garhwal, India. 2012

Date: **09 JUN 2020**

कुलपति
 Vice Chancellor

Sr.No	Description	Area In ha.
1	Total Lease Area	1025.70
2	Mineable Area(3/4Area)	769.275
3	1/4Area Area Blocked on both side of River)	256.425

Sr.No	Description of Reserves	Quantity In MT
1	Total Geological reserves	27311746.56
2	Total Mineable reserves	20483809.92
3	Total Blocked Reserves	6827936.641

*Reserve has been calculated as per the guideline & Recommendation of Central Empowered Committee.

Conclusion of replenishment study:-

In the present replenishment study for Lease Area 1025.70ha., Tehsil-Kekri, District- Ajmer, State- Rajasthan .Pre- monsoon & Post Monsoon Survey has been conducted & Survey Data has been processed in conformity with the requirements & guidelines of Sustainable Sand Mining Management Guideline 2016, and Rajasthan Miner Mineral concession Rule 2017, and Enforcement & Monitoring Guidelines for Sand Mining 2020.Plans & sections are prepared according to the direction given in mentioned guidelines, thus establishing the replenished quantity of reserve.

The Geological Reserves /Replenishment of sand/Bajri estimate disabuse 27311746.56 MT wherein the Mineable reserve is 20483809.92MT.

This replenishment study report will help to minimize the adverse impact arising out of sand mining in a given river stretch also could help to maintain the record of changes taking place due to mining operation in future years.

The Sand Mining in the Rivers shall be solely based on the Enforcement & Monitoring

Guidelines for Sand Mining 2020 focusing on the effective monitoring of the sand mining since from the identification of sand mineral sources to its dispatch and end-use by consumers and the general public. Guidelines also support the fundamental concept, promote environmental protection, and limit negative physiological, hydro geological and social impacts underpinning sustainable economic growth. Sand mining shall be done considering the criteria of protecting the River Eco- System & Preservation of the river & its channel.

Points considered while Sand Replenishment Study:-

1. The Reduced level (RL) Measurement has been Done across following Locations:
 - 100 m Upstream of the Potential Lease Area
 - Within the Potential mine Site
 - 100m Downstream of the Potential Lease Area
 - The RL has been recorded using Differential GPS (DGPS) survey Instruments.
2. Physical benchmarks (GCP) are fixed at appropriate intervals and the Reduced Level (RL) shall be validated from a nearby standard RL.
3. The levels (MSL & RL) of the corner point are identified and safety barriers (Non-Mining) demarcated as restricted in consensus with Rajasthan Miner Mineral concession Rule 2017, and the provision mentioned in this Sustainable Sand Mining Management Guidelines.
4. Identification of Mining & non mining area clearly on plans.
5. A buffer distance /un-mined block of 50 meters is maintained after every block of 1000 meters over which mining is undertaken as directed/prescribed by the regulatory authority.
6. A barrier/blocked zone has been considered & maintained at a distance of 1 kilometer (1 km) from major bridges and highways on both sides, or five times (5x) of the span (x) of a bridge/public civil structure (including water intake points) on up-stream side and ten times (10x) the span of such bridge on down-stream side, subjected to a minimum of 250 meters on the upstream side and 500 meters on the downstream side.
7. Mining depth has been restricted to 3 meters and distance from the bank should be $\frac{1}{6}$ th or river width and should not be less than 7.5 meters.

8. Clear depiction of the nomenclature of the section lines, latitude and longitude of the starting point, chain-age and respective levels.
9. For Mine Lease having area more Than 10 ha. Such measurements should be at least at an interval of 200 m.
10. Volume has been estimated by multiplying the distance between two cross-sections with the average of net area of these two consecutive cross-sections. (With E-survey CADD software) using trapezoidal method of volume calculation.
11. Sampling has been done per 900 square meters (30 m x 30 m) for assessment of bulk density for estimation of deposition rate. Sample has been taken from zone of deposition not from erosion for assessment of bulk density.

विषय:- आपके पक्ष में स्वीकृत खनन पट्टा संख्या 5/2013 श्री भरत सिंह शेखावत वास्ते
खनिज बजरी, तहसील केकड़ी जिला अजमेर के खनन पट्टा क्षेत्र में पत्थर
झालकर बनाये गये रास्ते के सम्बंध में।

महोदय,

उपरोक्त विषयान्तर्गत लेख है कि आपके पक्ष में स्वीकृत खनन पट्टा संख्या 5/2013 वास्ते
खनिज बजरी, तहसील केकड़ी जिला अजमेर का दिनांक 03.01.2025 को माननीय एनजीटी प्रिंसिपल सैच,
दिल्ली के प्र.क.- 1145/2024 के आदेश दिनांक 19.11.2024 की अनुपालना में गठित कमेटी द्वारा
दिनांक- 03 जनवरी, 2025 को खनन पट्टा संख्या 5/2013 वास्ते खनिज बजरी, तहसील केकड़ी, जिला
अजमेर का निरीक्षण किया। मौका निरीक्षण के दौरान पाया गया कि आपके खनन पट्टा क्षेत्र में निकट
ग्राम गुलगाव में नदी के बहाव क्षेत्र में पत्थर झालकर पानी के बहाव को रोका गया है। जो Sustainable
Sand Mining Management Guideline-2016, Enforcement & Monitoring Guideline for Sand Mining-2020
व संविदा/स्वीकृति की शर्तों का उल्लंघन है।

अतः आपको जरिये इस घेतना-पत्र सूचित किया जाता है कि प्राप्ति के 30 दिवस की
अधिति में अपना पक्ष कार्यालय में प्रस्तुत करें। बाद समयावधि, उल्लंघनों के संबंध में आपके विरुद्ध
नियमानुसार कानूनी कार्यवाही अमल में लाई जावेगी। सो सूचित रहे। इस नोटिस का पूर्व में जारी किसी
नोटिस की क्रियान्विती पर कोई प्रभाव नहीं पड़ेगा। सो सूचित रहे।

Date of Complaint (दिनांक) 10/01/2025 Police Station (पोस्टाफ़िस) 03

2. Details of the Complainant (शिकायतकर्ता का विवरण):

a) Name (नाम) DASH PRASAD SHARMA
b) Relative name (रिश्तेदार का नाम) DASH PRASAD SHARMA
c) UID No. (एन.डी.एन.)
d) Nature of Complaint (शिकायत का प्रकार) धर्म के विरुद्ध
e) Landline No. (लैंडलाइन)
f) Mobile No. (मोबाइल) 91 9827197010
g) Email ID (ईमेल)
h) Address (पता)

S.No. (क्र.सं.)	Address Type (पता का प्रकार)	Address (पता)
1	Present Address	HARMADA, 47002, 03/01/2025, 03/01/2025, 03/01/2025
2	Permanent Address	HARMADA, 47002, 03/01/2025, 03/01/2025, 03/01/2025

3. Identification Details of the complainant (शिकायतकर्ता का पहचान विवरण):

a) Country of Nationality (राष्ट्रियता) 03

S.No. (क्र.सं.)	Identification Type (पहचान प्रकार)	Identification No. (पहचान नं.)
1		

4. Details of Accused (अभियुक्त का विवरण)

(1) a) Name of Accused (अभियुक्त का नाम) ADYAT DASH MATHA
b) Mobile No. (मोबाइल)
c) Landline No. (लैंडलाइन)
d) Address (पता)

S.No. (क्र.सं.)	Address Type (पता का प्रकार)	Address (पता)
1	Present Address	NAMALUR, 47002, 03/01/2025, 03/01/2025, 03/01/2025
2	Permanent Address	NAMALUR, 47002, 03/01/2025, 03/01/2025, 03/01/2025

5. Incident Details (घटना का विवरण)

a) Place of Incident (घटना का स्थान) GULGAON PS KEKRI SADAR
b) Type of Incident (घटना का प्रकार) शिकायतकर्ता ने उदासीन भाव से एक लिखित रिपोर्ट इस आशय की पेश की कि 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था। शिकायतकर्ता ने बताया कि उन्होंने 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था। शिकायतकर्ता ने बताया कि उन्होंने 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था। शिकायतकर्ता ने बताया कि उन्होंने 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था।
c) Is Date/Time of incident known (क्या घटना की तिथि / समय पता चलता है)
d) Date & Time of Incident (घटना की तिथि और समय):
From To

6. Complaint Details (शिकायत विवरण)

a) Date of Complaint (दिनांक) 10/01/2025
b) Mode of Receipt (प्रति की शिकायत)
c) Complaint Description (शिकायत का विवरण) शिकायत का पूर्ण विवरण पोस्टाफ़िस के साथ संलग्न है।
d) Remarks (टिप्पणियाँ) शिकायतकर्ता ने उदासीन भाव से एक लिखित रिपोर्ट इस आशय की पेश की कि 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था। शिकायतकर्ता ने बताया कि उन्होंने 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था। शिकायतकर्ता ने बताया कि उन्होंने 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था। शिकायतकर्ता ने बताया कि उन्होंने 03/01/2025 को गार्मदा एन.डी.एन. के अंतर्गत एक व्यक्ति द्वारा धर्म के विरुद्ध अश्लील वक्तव्य किया गया था।

Sub: Environmental clearance for "river sand Mining project (Minor Mineral)

(Khari river bed) with proposed production capacity of 30.0 Lakh TPA (ROM)

M/s Bharat Singh, located at Revenue villages of Tehsil- Kekri, District-

Ajmer, Rajasthan (MLA 1025.70 Ha) - Certified Compliance Report Reg.

Ref: Environmental clearance issued vide letter no. EC issued vide Letter No.- J-

11015/222/2013-IA. II (M) 03.02.2022.

Sir,

In reference to the cited subject, it is bring to your kind notice that the aforesaid project was Inspected/ Monitored by the undersigned on 09.09.2023 for the purpose of issuing certified compliance report of the Environmental clearance issued vide letter no. J-11015/222/2013-IA. II (M) 03.02.2022.

2. Accordingly, a detailed monitoring report along with key observations is being attached herewith for perusal and further appropriate action.

भवदीय,

ई. महेश दत्त पुरोहित Er. Mahesh Dutt Purohit
सं. निदे./ वैज्ञा. 'डी' / Joint Director (S)/Scientist-D

Copy to: -

1. M/s Bharat Singh, Mohan nagar, BJS Colony, Jodhpur (Raj.)- 342006 With directions to submit clarifications on partially complied/not complied conditions directly to the SEIAA under intimation to this office.

MONITORING REPORT

PART - I

DATA SHEET

1.	Project Type: River Valley/Mining/Industry/Thermal/Nuclear/Other (Specify)	River bed Mining Project
2.	Name of the Project	Environmental clearance for "river sand Mining project (Minor Mineral) (Khari river bed) with proposed production capacity of 30.0 Lakh TPA (ROM) M/s Bharat singh, located at Revenue villages of Tehsil- Kekri, District- Ajmer, Rajasthan (MLA 1025.70 Ha)
3.	Clearance letter (s)/OM no. and date	EC issued vide Letter No. - F.No. J-11015/222/2013-IA.II (M) Dated 03.02.2022.
4.	Location: a) District b) State c) Location: Lat/Long	Revenue villages of Tehsil- Kekri, District- Ajmer, Rajasthan
5.	Address for correspondence a) Address of concerned project chief engineer b) Address of executive project engineer/manager	M/s Bharat singh, Mohan nagar, BJS Colony, Jodhpur (Raj.)- 342006
6.	Salient Feature a) of the Project b) of the EMP	River bed mining located at Revenue villages of Tehsil- Kekri, District- Ajmer, Rajasthan having production capacity of 30.0 Lakh TPA, Area-1025.70 ha.
7.	Break-up of Project area a) Submergence forest area and non forest area b) Others	NIL
8.	Break-up of the project affected population with enumeration of those losing houses/dwelling units only agricultural land only both dwelling units & agricultural land & landless laborers/artisans: a) SC, ST/Adivasi b) Others	NIL
9.	Financial Details: (As reported by PP) a) Project Cost as originally planned and subsequent revised estimates and the year of price reference b) Allocation made for EMP with item wise and year wise break-up c) BC ratio/IRR and the year	No details provided

	<p>of assessment</p> <p>d) Whether includes the cost of EMP as shown above</p> <p>e) Actual expenditure incurred on project so far</p> <p>f) Actual expenditure incurred on EMP so far</p>	
10.	<p>Forest land Requirement</p> <p>a) The status of approval for diversion of forest land for non-forestry use</p> <p>b) The status of clearing felling</p> <p>c) The status of CA, if any</p> <p>d) Comments on the viability & sustainability of CA program in the light of actual field experience so far</p>	NIL
11.	The status of clear felling in the non-forest areas	NIL
12.	<p>Status of Construction (Actual &/or planned)</p> <p>a) Date of commencement</p> <p>b) Date of completion</p>	
13.	Reason for delay if the project is yet to start	NA

PART - II

DESCRIPTIVE REPORT ON STATUS OF COMPLIANCE TO CONDITIONS OF ENVIRONMENTAL CLEARANCE issued vide letter no. - F. No. J-11015/222/2013-IA.II (M) Dated 03.02.2022.

Part A - Specific Conditions:		
S. No.	Environmental Conditions	Compliance
1.	Project Proponent shall appoint an Occupational Health Specialist for Regular and Periodical medical examination of the workers engaged in the Project and records maintained; also occupational health checkups for workers having some ailments like BP, Diabetes, habitual smokers etc. shall be undertaken once in six months and necessary remedial/preventive measures taken accordingly. Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted. All the old age people of the surrounding villages may be provided medical facilities.	Being Complied. As appraised by unit representative, regular occupational health check-ups are being done and records were available on site. PPEs have been provided to workmen. The PP has also provided the drinking water facilities, shelters for rest etc.
2.	Project Proponent shall appoint a Monitoring Committee to monitor the replenishment study, traffic management, levels of production, River Bank erosion and maintenance of Road etc. Proponent to ensure that fluoride free drinking water needs to be provided to the villagers.	Agreed for compliance by the unit.
3.	Transport of minerals will not be done through any of the villages.	Being Complied. The transportation of material from stock pile is through covered trucks from state government approved routes. It was observed during inspection that basic arrangements to control the dust propagation in Mine area has been adopted. Roads has been compacted and water sprinkling has been done to control fugitive dust emission from road during vehicular movement.
4.	Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral and transport of minerals will be as per IRC Guidelines with respect to complying with traffic congestion and density.	
5.	Implementation of Action Plan on the issues raised during the Public	Agreed for compliance by the unit.

	Hearing. The Proponent shall complete all the tasks as per the Action Plan submitted with the budgetary provisions during the Public Hearing.	
6.	The pollution due to transportation load on the environment will be effectively controlled & water sprinkling will also be done regularly. Vehicles with PUC only will be allowed to ply. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded. Project should obtain PUC certificate for all the vehicles from authorized pollution testing centre.	Being Complied. The transportation of material from stock pile is through covered trucks from state government approved routes. It was observed during inspection that basic arrangements to control the dust propagation in Mine area has been adopted. Roads has been compacted and water sprinkling has been done to control fugitive dust emission from road during vehicular movement.
7.	Washing of all transport vehicle should be done inside the mining lease.	Agreed for compliance by the unit.
8.	Environmental Clearance is subject to final outcome of Hon'ble High Court of Rajasthan and other Court of Law, if any.	Agreed for compliance by the unit.
9.	PP shall implement the conditions prescribed in Enforcement & Monitoring Guidelines for Sand Mining 2020, as applicable for PP and also SoP issued by the Rajasthan State Government for prevention of illegal river sand mining in the state.	Agreed for compliance by the unit.
10.	Replenishment study report Central Mine Planning and Design Institute (CMPDI) has prescribed the detailed methodology for undertaking replenishment study. A copy of report is enclosed. Project proponent is requested to submit the replenishment study report in one year, as per methodology prescribed by CMPDI.	Being Complied. PP has submitted the Replenishment study report.
11.	Permissible Mining of River Bed Material (Sand/Bajri) shall be limited to 30.0 Lakhs TPA (ROM) from an effective mineable area of 1025.70 ha with a maximum minable depth of 1	Being Complied. At present the mining operations are being carried out from an effective area of about 10-12 ha. and depth of mining has been kept within 2-3 meter depth.

	meter. The permissible minable material of 30.0 Lakhs TPA (ROM) will be valid till one year from the day of issuance of the EC.	As per visual observation of approachable are no abnormal excavation of more than 2-3 meter depth was observed. The PP has submitted the Authenticated production figures from mining department.
12.	For subsequent period, PP shall submit fresh annual replenishment study to MoEF&CC for amendment in EC for mineable quantity and maximum permission depth for mining based on the scientific findings of replenishment study. Such study shall be placed before EAC for appraisal for next three years to assess rate of deposition and accordingly, minable production capacity and depth can be prescribed based on trends analysis, provided it is found scientifically satisfactory by the EAC. The placing of the study report before EAC is mandatory for initial three years.	Being Complied. PP has submitted the Replenishment study report.

Part B - Special Conditions:**Stakeholder Engagement**

i.	In the case of private land not owned by the lease holder an Engagement affidavit should be obtained regarding consent of the concerned land owner (s) for carrying out the mining operation.	Agreed for compliance by the unit.
ii.	Stakeholder awareness and ability to raise concerns and getting it to be addressed.	Agreed for compliance by the unit.
iii.	Implementation of Action Plan on the issues raised during the Public Hearing. The Proponent shall complete all the tasks as per the Action Plan submitted with the budgetary provisions during the Public Hearing.	Agreed for compliance by the unit.
iv.	Having valid lease and all the permits is essential.	Agreed for compliance by the unit.
v.	To establish a Monitoring Committee	Reported to be complied.

	including Local Panchayat, to check on traffic due to transportation and submit an annual report on the same.	
vi.	The directions given by the Hon'ble Supreme Court of India vide order dated 27 02 2012 in Deepak Kumar case [SLPI Nos 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 may be strictly followed.	Agreed for compliance by the unit.
vii.	All the provisions made and restrictions imposed as covered in the Minor Mineral Rule, shall be particularly regarding complied with, Environment Management Practices and its fund management and Payment of compensation to the land owners.	Agreed for compliance by the unit.
Sustainable mining Practices		
viii.	No River sand mining be allowed in rainy season.	Complied. The mine was non-operational during rainy season.
ix.	To submit annual replenishment report certified by an authorized agency. In case the replenishment is lower than the approved rate of production, then the mining activity production levels shall be decreased / stopped accordingly till the replenishment is completed.	Being Complied. PP has submitted the Replenishment study report.
x.	Mining shall be done in layers to avoid ponding effect and after first layer is excavated, the process will be repeated for the next layers.	Being Complied. At present the mining operations are being carried out from an effective area of about 10-12 ha. and depth of mining has been kept within 2-3 meter depth. As per visual observation of approachable are no abnormal excavation of more than 2-3 meter depth was observed. The PP has submitted the Authenticated production figures from mining department.
xi.	To maintain safety and stability of Riverbanks i.e. 3 meter or 10% of the width of the River whichever is more will be left intact as no mining zone.	Agreed for compliance by the unit.

xii.	No stream should be diverted for the purpose of sand mining No natural water course and/ or water resources are obstructed due to mining operations.	Complied. No obstruction of natural water course / water resource was observed due to mining activity during the course of inspection.
xiii.	No blasting shall be resorted to in River mining and without permission at any other place.	The project under reference is river sand mining without any blasting and with little mechanization.
xiv.	Depending upon the location, thickness of sand, deposition, agricultural land/Riverbed, the method of mining may be manual, semi mechanized or mechanized, however, manual method of mining shall be preferred over any other method.	The project under reference is river sand mining with semi mechanised method of mining.
Monitoring the Mining of Mineral and its Transportation		
xv.	The EC holder shall keep a correct account of quantity of mineral mined out, dispatched from the mine, mode of transport, registration number of vehicle, person in-charge of vehicle and mine plan This should be produced before officers n of Central Government and State for inspection.	Being Complied. The PP has submitted authenticated production figures from Department of Mines and Geology.
xvi.	For each mining lease site the access should be controlled in a way that vehicles carrying mineral from that area are tracked and accounted for	Complied.
xvii.	Use of technology like Bar Coding, Information and Communications Technology (ICT), Web based and ICT enabled services, mobile SMS App etc to account for weight of mineral being taken out of the lease area and the number of trucks moving out with the mineral shall be made.	Agreed for compliance by the unit. At present proper record is being maintained on site for material dispatch and truck movement. Further, Basic provisions of weighment of material has been provided and PP has appraised that they are exploring the possibility for use of novel technology such as Bar Coding, Information and Communications Technology (ICT), Web based and ICT enabled services, mobile SMS App etc.
Noise management		
xviii.	Noise arising out of mining and processing shall be abated and controlled at source to keep within permissible limit.	Being Complied. Basic steps have been taken by the project authorities for abatement of noise pollution at the source but PP

		has submitted the noise monitoring report by an accredited laboratory.
xix.	Restricted working hours Sand mining operation has to be carried out between 6 am to 7 pm.	Complied. Mining during the day time has been proposed by the PP.
Air Pollution and Dust Management		
xx.	The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly.	Complied. It was observed during inspection that basic arrangements to control the dust propagation in Mine area has been adopted. Roads have been compacted and water sprinkling has been done to control fugitive dust emission from road during vehicular movement.
xxi.	Air Pollution due to dust, exhaust emission or fumes during mining and processing phase should be controlled and kept in permissible limits specified under environmental laws.	
xxii.	The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded. Wheel washing facility should be installed and used.	Agreed for compliance by the unit.
Management of Visual Impact -		
xxiii.	The mining operations are to be done in a systematic manner so that the operations shall create a major visual impact on the site.	Agreed for compliance by the unit.
Bio Diversity Protection		
xxiv.	Restoration of flora affected by mining should be done immediately Twice the number of trees destroyed by mining to be planted preferably of indigenous species.	Agreed for compliance by the unit.
xxv.	No mining lease shall be granted in the forest area without forest clearance in accordance with the provisions of the Forest Conservation Act, 1980 and the rules made thereunder.	Not applicable as forest area is not included in the mine lease area.
xxvi.	Protection of turtle and bird habitats shall be ensured.	Agreed for compliance by the unit.
xxvii.	Spring sources should not be affected due to mining activities. Necessary Protection measures are to be incorporated.	Agreed for compliance by the unit.

Management of instability and Erosion		
xxviii.	The EC should stipulate conditions for adequate steps to check soil erosion and control debris flow etc. by constructing engineering structures.	Agreed for compliance by the unit.
xxix.	Use of oversize material to control erosion and movement of sediments.	Complied.
xxx.	No overhangs shall be allowed to be formed due to mining and mining shall not be allowed in area where subsidence of rocks is likely to occur due to steep angle of slope.	Agreed for compliance by the unit.
xxxi.	No extraction of stone/ boulder/ sand in landslide prone areas.	Not applicable as the lease area is river bed and is not prone to landslide.
xxxii.	Controlled clearance of riparian vegetation to be undertaken.	Agreed for compliance by the unit.
Waste Management		
xxxiii.	Site clearance and tidiness is very much needed to have less visual impact of mining.	Complied. As appraised by the unit representative, site clean-up and scouring for visual impact of mining has been done on regular basis.
xxxiv.	Rubbish burial shall not be done in the rivers.	Agreed for compliance by the unit.
Pollution Prevention		
xxxv.	Effluent discharge should be kept to the minimum and it should meet the standards prescribed	Complied. As there is no effluent Discharge due to mining activity.
Protection of Infrastructures		
xxxvi.	Mining shall not be undertaken in a mining lease located in 200-500 meter of bridge, 200 meter upstream and downstream of water supply / irrigation scheme, 100 meters from the edge of National Highway and railway line. 50 meters from a reservoir, canal or building, 25 meter from the edge of State Highway and 10 meters from the edge of other roads except on special exemption by the Sub-Divisional level Joint Inspection Committee.	Agreed for compliance by the unit.
xxxvii.	Mining activities shall not be done for mine lease where mining can cause	Agreed for compliance by the unit.

	danger to site of flood protection works, places of cultural, religious, historical, and archaeological importance.	
Enhancement of Road Safety		
xxxviii.	Vehicles used for transportation of sand are to be permitted only with fitness and PUC Certificates.	Being Complied. As appraised by unit representative, Vehicles used for transportation have valid fitness and PUC certificates.
xxxix.	Junction at take-off point of approach road with main road be properly developed with proper width and geometry required for safe movement of traffic by concession holder at his own cost.	Agreed for compliance by the unit.
xl.	Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral; and transport of minerals will be as per IRC Guidelines with respect to complying with traffic congestion and density.	Agreed for compliance by the unit.
xli.	No stacking allowed on road side and also along National Highways.	Agreed for compliance by the unit.
Closure and Reclamation of Mined out area		
xlii.	The Project Proponent shall undertake phased restoration, reclamation and rehabilitation of land affected by mining and completes this work before abandonment of mine.	Agreed for compliance by the unit.
xliii.	Site specific plan with eco-restoration should be in place and implemented.	Agreed for compliance by the unit.
xliv.	Health and safety of workers should be taken care of.	Complied. Adequate provisions are made by PP to maintain health & society of workers.
Health and Safety		
xlv.	Transport of mineral will not be done through villages/habitations.	Being Complied. The transportation of material from stock pile is through covered trucks from state government approved routes.
xlvi.	The Project Proponent shall make arrangement for drinking water, first aid facility (along with species specific anti-venom provisioning) in case of emergency for the workers	Complied. The PP has made adequate arrangements for drinking water and first aid facility.
xlvii.	Project Proponent shall implement the	Agreed for compliance by the unit.

	Disaster Management Plan if the mine lease area is located in Seismic Zone-IV Project Proponent shall appoint a Committee to have a check over any disaster to warn workers well before for the safety of the workers. Emergency helpline number will be displayed at all levels.	
xlviii.	Project Proponent shall appoint an Occupational Health Specialist for Regular and Periodical medical examination of the workers engaged in the Project and records maintained; also, Occupational health check-ups for workers having some ailments like BP, diabetes, habitual smokers, etc. shall be undertaken once in six months and necessary remedial/preventive measures taken accordingly. Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted.	Complied. As appraised by unit representative Regular occupational health check-ups are being done and records of the same were available on site.
Monitoring the Impact of Mining		
xlix.	The Project Proponent shall report monitoring data on replenishment, traffic management, levels of production, River Bank erosion and maintenance of Road etc.	Being Complied. PP has submitted the Replenishment study report.
C. Standard Conditions:		
I. Statutory Compliance		
1.	The EC granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc. required to be obtained or standards / conditions to be followed under any other Acts/ Rules/ Subordinate legislations, etc., as may be applicable to the project.	Agreed for compliance by the unit.
2.	This Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause	Agreed for compliance by the unit.

	Conditions as may be applicable.	
3.	The project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2 nd August 2017 in Writ Petition (Civil) No.114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.	Agreed for compliance by the unit.
4.	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the project proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2 nd August, 2017 in Writ Petition (Civil) No.114 of 2014 in matter of Common Cause versus Union of India & Ors.	Pertains to State Government.
5.	The project proponent shall follow the mitigation measures provided in MoEFCC's O.M.No.Z- 11013/57/2014 -IA.II(M), dated 29 th October , 2014 , titled "Impact of mining activities on habitations issues related to the mining projects wherein habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".	Agreed for compliance by the unit.
6.	The Project Proponent -shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.	Agreed for compliance by the unit. As appraised by unit representative Water requirement will be met through water tanker.
7.	A copy of EC letter will be marked to concerned Panchayat, local NGO, etc., if any, from whom suggestion/ representation has been received while processing the proposal.	Reported to be complied.
8.	The project authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement	Complied. PP has submitted the advertisement copies published in the newspaper.

	shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.	
II. Air quality monitoring and preservation		
9.	The project proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz., PM10, PM2.5, NO2, CO, SO2, etc., as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/1, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.	Complied. The unit has established ambient air quality-monitoring stations and Ambient air quality monitoring has been done by accredited laboratory and analysis reports were submitted during the visit.
10.	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metaled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the	Complied. It was observed during inspection that basic arrangements to control the dust propagation in Mine area has been adopted. Roads have been compacted and water sprinkling has been done to control fugitive dust emission from road during vehicular movement. The unit has also submitted analysis reports from accredited laboratory.

	standards prescribed by the MoEFCC / Central Pollution Control Board.	
III. Water quality monitoring and preservation		
11.	Regular monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies and or streams which are flowing in an around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period in case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use A provision for regular monitoring of water table in open dug wall located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on six monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department/State Pollution Control Board.	Being Complied. PP has submitted the ground water monitoring reports from an accredited laboratory.
12.	The project proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly bases to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.	Complied. The unit has submitted analysis reports from an accredited laboratory.
13.	The project proponent shall undertake regular monitoring of natural water resource/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. The parameters to be monitored shall include their	Complied. The unit has submitted analysis reports from accredited laboratory regarding water quality monitoring. No obstruction of water body due to unscientific mining was observed as per the visual inspection during the site visit.

	water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEF&CC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.	
14.	The project proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEF&CC annually.	Agreed for compliance by the unit.
15.	Industrial waste water (workshop and waste water from the mine) should be properly Collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.	Not Applicable There is no industrial waste water generation during mining operation and there is no on-site vehicle workshop as all the vehicles deployed on the mine are on contractual basis.
16.	The water balance/water auditing shall be carried out and measure for reducing the Consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.	Agreed for compliance by the unit.
IV. Noise and vibration monitoring and prevention		
17.	The illumination and sound at night at project sites disturb the villages in respect of both human and animal	Being complied. As appraised by unit representative no work related to mining is being done at

	<p>population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. The project proponents must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.</p>	<p>night.</p>
18.	<p>The project proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. Should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/laborers are working without personal protective equipment.</p>	<p>Complied. Necessary steps have been taken by the unit to reduce the noise pollution at source. PPEs have been provided to workmen. Regular occupational health check-ups are being done and records were available on site. PP has submitted the Noise monitoring reports by an accredited laboratory.</p>
V. Mining Plan		
19.	<p>The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation ie. Quantum of mineral, waste, overburden, interburden and top soil etc.. No change in basic mining proposal Like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, OB & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change, which entail adverse environmental impacts, even if it is a part of approved mining plan modified</p>	<p>Agreed for compliance by the unit.</p>

	after grant of EC or granted by State Govt. in the form to Short Term Permit (STP), Query license or any other name.	
VI. Land reclamation		
20.	The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS wrt safety in mining operations shall be strictly adhered to maintain the stability of waste dumps	Not Applicable as there is no Overburden (OB) Dump in river sand mining.
VII. Transportation		
21.	No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, project proponent shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the project proponent in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centres.	Being Complied. The transportation of material from stock pile is through covered trucks from state government approved routes. It was observed during inspection that basic arrangements to control the dust propagation in Mine area has been adopted. Roads has been compacted and water sprinkling has been done to control fugitive dust emission from road during vehicular movement.
22.	The main haulage road within the mine lease should be provided with a permanent water sprinkling	Complied. It was observed during inspection that basic arrangements to control the dust

	<p>arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation off fugitive dust emissions.</p>	<p>propagation in Mine area has been adopted. Roads has been compacted and water sprinkling has been done to control fugitive dust emission from road during vehicular movement.</p>
VIII. Green belt		
23.	<p>The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna The Plan shall be approved by Chief Wild Life Warden of the State Govt.</p>	<p>Agreed for compliance by the unit. As per the records maintained by the Unit, no endangered flora & fauna in the core zone of mining lease area has been reported. The PP was advised to consult local forest department ensure the proper conservations measures of existing flora & fauna. The PP was advised to submit a detailed report of the same along with next six-monthly compliance report.</p>
VIII. Public hearing and human health issues		
24.	<p>The project proponent shall make provision for the housing for workers/labours or shall construct labour camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.</p>	<p>Being Complied. Basic facilities such as drinking water, toilet, periodical health check-up, temporary shelters for workers etc have been provided by the PP.</p>
25.	<p>The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall</p>	<p>Agreed for compliance by the unit.</p>

	be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.	
XI. Miscellaneous		
26.	The project proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of MoEF&CC.	Agreed for compliance by the unit.
27.	The project proponent should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Agreed for compliance by the unit.
28.	The project proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.	Complied. The unit has submitted last 6 monthly compliance report.
29.	A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC	Complied. As appraised by unit representative, Centralized Environmental management cell has been established under the control of senior executives. Also the PP has engaged third party competent agency for environmental management.
30.	The concerned Regional Office of the MoEF&CC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF&CC officer(s) by furnishing the requisite data/information/monitoring reports.	Agreed for compliance by the unit.
31.	The mining lease holders shall, after ceasing mining operations, undertake re grossing the mining area and any other area which may have been	Agreed for compliance by the unit.

disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.	
---	--

Concluding Remarks:

The project under reference named as Environmental clearance for "river sand Mining project (Minor Mineral) (Khari river bed) with proposed production capacity of 30.0 Lakh TPA (ROM) M/s Bharat Singh, located at Revenue villages of Tehsil- Kekri, District- Ajmer, Rajasthan (MLA 1025.70 Ha)" is a river bed mining project. The project was inspected on dated 09.09.2023 for the purpose of issuing Certified Compliance Report. Accordingly, monitoring of the conditions of environment clearance was done as narrated above.

(Manish Dutt Purohit)
Joint Director/Scientist 'D'

Sir,

Please find enclosed the Supplementary Reply, on behalf of Respondent No. 7, Mr. Bharat Singh Shekhawat, in O.A. No. 1145/ 2024, in the matter titled as Neeraj Choudhary v. State of State of Rajasthan. The matter is to be listed before the Hon'ble National Green Tribunal, Principal Bench, New Delhi on 06.11.2025.
