Subject:- Action Taken Report in compliance of order dated 02.02.2021 in OA No. 607/2018 in the matter of Vinod Kumar Jangra Vs. State of Haryana & others (Haryana) by Regional Officer, HSPCB, Bhiwani Region.

It is submitted that the issue regarding remedial action for enforcement of environmental norms under the provisions of the Air (Prevention and Control of Pollution) Act 1981 (Central Act 14 of 1981) and the Water (Prevention and Control of Pollution) Act, 1974 (Central Act 6 of 1974) by the stone crushers in District Charkhi Dadri, Haryana, which are source of air pollution in the area, is pending before the Hon'ble National Green Tribunal in terms of OA No. 607 of 2018 in the matter of Vinod Kumar Jangra Vs. State of Haryana & others.

The Hon'ble National Green Tribunal vide its order dated 02.02.2021 in the matter of Vinod Kumar Jangra Vs. State of Haryana & others has passed the detailed order, the operating paras 7, 8, 9 of which are reproduced as under.

In view of above report, it does appear that there is large scale violation of law in violation of the mandate of 'Sustainable Development and Precautionary Principle? Suitable remedial measures need to be taken to stop polluting activities, beyond the carrying capacity of the environment, apart from action for the violations which have already taken place. Only such activity may be allowed which the environment can sustain irrespective of the date on which the stone crushers were set up. While taking action, the State PCB may follow the due process but the action needs to be prompt to protect the public health and environment in view of the material in the seven Member Committee. The District Magistrate, Charkhi Dadri may take prompt steps for protection of environment by taking mitigation measures in terms of the recommendations. Illegal withdrawal of ground water may be effectively stopped. Since we are only requiring the statutory authorities to take action in exercise of their statutory powers, following due process and orders of the statutory authorities are appealable to this Tribunal, we do not find it necessary to issue notice to the individual stone crushers.

The State PCB may file an action taken report of status as on 31.03.2021, before the next date, by e-mail at judicialngt@gov.in preferably in the form of searchable PDF/ OCR Support PDF and not in the form of Image PDF.

We also request the Monitoring Committee, headed by Justice Pritam Pal, former Judge of Punjab and Haryana High Court, for certain environmental issues in the State of Haryana, to visit the site on any convenient date after March 15, 2021 and provide an independent report in the matter before the next date by e-mail at judicialngt@gov.in preferably in the form of searchable PDF/ OCR Support PDF and not in the form of Image PDF. FOREST DEPARTMENT GOVT. OF HARYANA

O/o Divisional Forest Officer Charkhi Dadri

Rohtak Road, Near P.W.D. Rest House, Ch. Dadri, E-mail:-dfodadri@gmail.com

Letter No. 1239

Dated. 05-12-2020

To,

Haryana State Pollution Control Board,
SCF-32, Opp. Community Centre, Sector-13
HSVP, Bhiwani.

Subject:- Regarding re-verification of siting parameters of stone crushing units in O.A.
No. 607/2018 titled M/s Vinod Jangra Vs. State of Haryana & Ors.

Ref: Your Office Letter No. HSPCB/BHI/2020/5822 Dated: 18.11.2020, Letter No.
HSPCB/BHI/2020/6264 Dated: 27.11.2020 & in Continuation to our Office
Letter No. 1094 Dated: 09-11-2020

Regarding the above stated subject a joint inspection of the 7 stone crushing units situated at Vill. Pichopa Kalan was carried out in pursuance to the directions issued by your referenced letter. All the concerned forest deptt. Staff including Forest Guard, Block Incharge, Range Officer and the undersigned along with Halka Patwari and the owners of the concerned stone crushing units were present on site at the time of re-verification of siting parameters. The documents of each crushing unit like lease deed, Noc's obtained, site plans, sajra etc were produced by the crusher owners. On verification of documents with the revenue record by Halka Patwari the distance of crushing units as per record as well as on ground measurement from the nearest strip forest situated on the adjoining canals was found as per the required permissible limit. The Crusher owners told that during the earlier measurements they could not provide all the required documents to the Forest Officials who came for the verification of siting parameters. It is also pertinent to mention here that in absence of requisite record and crusher owners presence as well as without the help of revenue staff it was not possible to distinguish between the lease area for the crushing unit and the lease area for their office establishments etc, hence the forest staff took all the measurement from ocular estimation starting from whatever office/establishment boundary they could find on spot. Due to these reasons the possibility of variation in measurement of siting parameters can be understood. The signed field inspection report is being sent to your good office attached along with this letter.

Divisional Forest Officer,
Charkhi Dadri.
