DEPARTMENT OF ENVIRONMENT(GNCTD) & ORS. ....RESPONDENTS

STATUS REPORT BY WAY OF AFFIDAVIT ON BEHALF OF THE  
RESPONDENT MUNICIPAL CORPORATION OF DELHI (MCD) PURSUANT  
TO ORDER DATED 05/12/2023 OF THIS HON'BLE COURT.

Affidavit of Sh. Pijush Kumar Banerjee s/o Sh. Sunil Kumar Banerjee aged about 55 years, Deputy Director(Horticulture), South Zone, Municipal Corporation of Delhi, on behalf of MCD.

I, the above named deponent, do hereby solemnly affirm and declare here as under:-

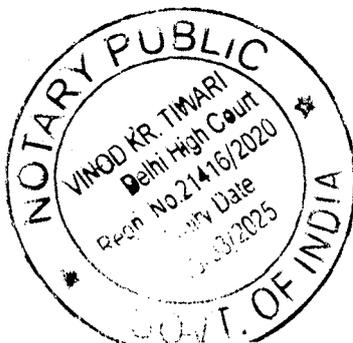

1. That I am presently working as a Deputy Director (Horticulture), South Zone, MCD and am fully conversant with the facts of the case on the basis of the record maintained and made available in this regard and as such am competent to depose and swear the present affidavit on behalf of respondent Municipal Corporation of Delhi (MCD).
2. That the instant report / affidavit is being filed pursuant to order dated 05/12/2023 of this Hon'ble tribunal.
3. That at the outset the answering respondent craves leave of this Hon'ble Court to file the instant status report with the liberty to file detailed affidavit / reply if need arises or the Hon'ble Court direct to do so.

4. That regular pruning within a residential society is imperative for multifaceted reasons. Firstly, it safeguards residents from potential property and building damage by mitigating risks associated with adverse weather conditions such as storms or high winds. Furthermore, trimming trees near residential structures, such as balconies, prevents overgrown branches from blocking sunlight and fresh air, and ensures adequate clearance and helps in proper light penetration and ventilation. Moreover, it acts as a preventive measure against insects and pests entering houses, ensuring the overall well-being of residents.

Pruning is also crucial for fostering the regeneration of trees, promoting healthier growth and longevity. Additionally, it enhances air circulation within a tree's canopy, reducing the risk of fungal infections and creating a healthier environment for plants and animals. Proper pruning enables sunlight to reach lower branches and ground cover, supporting the growth of understory plants and improving overall ecosystem health. The practice also contributes to maintaining the structural integrity of trees, preventing the development of weak or imbalanced, lopsided branch structures. Ultimately, pruning contributes to the healthy development of trees, preventing overcrowding and ensuring that plants grow in a balanced manner.

5. That Hon'ble High Court vide its order dated 29.05.2023, in W.P.(C) 2317/2023 titled as "Prof Dr Sanjeev Bagai & Ors. vs. Department of Environment, Govt of NCT of Delhi" through its Principal Secretary (Environment and Forest) & Ors., set aside the guideline issued by the Department of Forests & Wildlife which permitted the civic agencies to engage in regular pruning of branches of trees with a girth up to 15.7 cm without specific prior permission of the Tree Officer. The relevant Para 14 of the said order is reproduced below for ready reference:

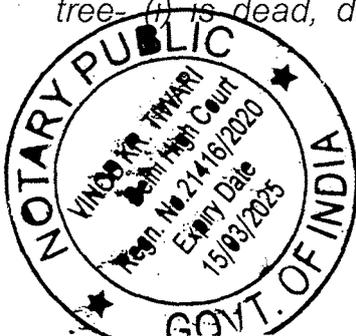

"14. Under the Act there is no sanction for the 15.7 cms girth of a tree branch to be cut. Therefore, this figure is incongruous with the statutory requirements as mandated under sections 8 and 9 of the DPT Act. The so-called permission granted under the Guidelines seek to over-reach the statute. The Guidelines, are in conflict with the DPT Act, they are arbitrary and illegal. Consequently, the permission for pruning, presumed to be or granted under the Guidelines would be of no consequence and shall always be nonest. Therefore, the Guidelines permitting regular pruning of branches of trees with girth up to 15.7 cm without specific prior permission of the Tree Officer are hereby set aside. The only permission that can be granted for pruning, etc. is under section 9 of the Act."

The copy of the above stated order dated 29.05.2023 is enclosed as **Annexure-A (Colly)**.

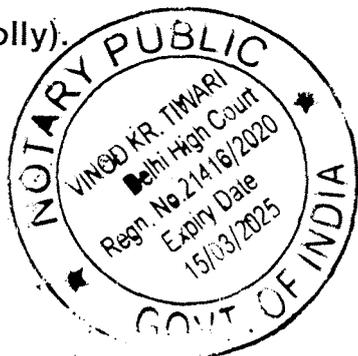

The permission for pruning is granted as per section 9 of the DPTA Act, 1994 which is reproduced below for clarification:

"9. Procedure for obtaining permission to fell, cut, remove or dispose of, a tree.-(1) Any person desiring to fell or remove or otherwise dispose of, by any means, a tree, shall make an application to the concerned Tree Officer for permission and such application shall be accompanied by attested copies of such documents as may be prescribed in support of ownership over the land, the number and kind of trees to be cut, their girth measure at a height of 1.85 meters from ground level and the reasons thereof, copy of sajra showing clearly the site and khasra numbers of the property. (2) On receipt of the application, the Tree Officer may, after inspecting the tree and holding such inquiry as he may deem necessary, either grant permission in whole or in part or for reasons to be recorded in writing, refuse permission: Provided that such permission may not be refused if the tree- (i) is dead, diseased or wind fallen; or (ii) is silviculturally mature,

provided it does not occur on a steep slope; or (iii) constitutes a danger to life or property; or (iv) constitutes obstruction to traffic; or (v) is substantially damaged or destroyed by fire, lightning, rain or other natural causes; or (vi) is required in rural areas to be cut with a view to appropriating the wood or leaves thereof, or any part thereof for bona fide use for fuel, fodder, agricultural implements or other domestic use. (3) The Tree Officer shall give his decision within sixty days from the date of receipt of the application: Provided that no permission shall be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of one hectare at a time. (4) If the Tree Officer fails to communicate his permission on request within the period specified under sub-section (3), the permission referred to in section 8, shall be deemed to have been granted. (5) Every permission granted under this Act shall be in such form and subject to such conditions, including taking of security for ensuring regeneration of the area and replanting of trees or otherwise, as may be prescribed."

6. That Prior to the above referenced order dated 29/05/2023 of the Hon'ble High Court of Delhi, the Horticulture Department of the Municipal Corporation of Delhi (MCD) followed the aforementioned guidelines issued by the Department of Forests & Wildlife, Government of NCT of Delhi, vide letter no. F.No.8(193)/CF/TA/07-18/Part file/18-19/8473-80 dated 01/10/2019 for regular pruning of branches of trees with a girth up to 15.7 cm. Additionally, for light and heavy pruning of branches larger than 15.7 cm, the department sought prior permission from the Tree Officer/Dy. Conservator of Forests, Department of Forests & Wildlife, as per the said guidelines. The circular containing guidelines is enclosed as **Annexure-B** (Colly).

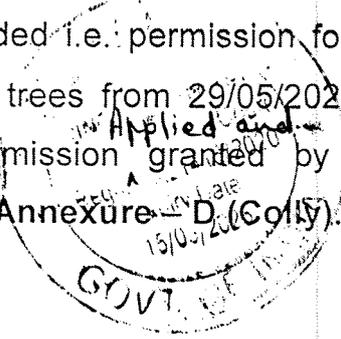

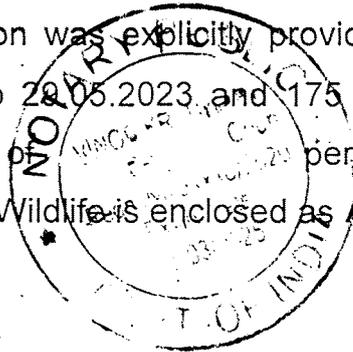

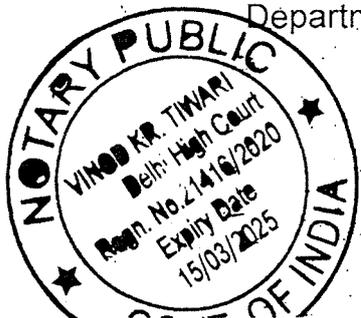

7. That after the setting aside of guidelines by the Hon'ble High Court vide order dated 29.05.2023, any form of pruning, irrespective of size, is now done with the prior permission from the Forest Department, and consequently, pruning activities are conducted in accordance with the revised protocol as per section 9.
8. That in view of direction given by this Hon'ble Tribunal vide order dated 05.12.2023 in the present O.A., the details of number of trees for which permissions were granted by Department of Forests & Wildlife, GNCTD for pruning of trees in Delhi to MCD from 21/12/2022 to 05/12/2023 are tabulated below:

S. No.	Name of Zone of MCD	No. of trees for which permission granted by Forest Department	Pruning Status
1	Central Zone	3510	Done
2	West Zone	1532	Done
3	Najafgarh Zone	2143	Done
4	South Zone	5786	Done
5	Rohini Zone	1084	Done
6	Civil Line Zone	76	Done
7	City S.P Zone	239	Done
8	Narela Zone	1176	Done
9	KarolBagh Zone	196	Done
10	Keshavpuram Zone	1349	Done
11	Shahdara(S) Zone	754	Done
12	Shahdara(N) Zone	3090	Done
<b>Total:</b>		<b>20935</b>	

The list in this regard is enclosed as Annexure – C (Colly).

9. The aforementioned list encompasses the permission granted by the Department of Forests & Wildlife for the Vasant Vihar area, comprising 178 trees for which permission was explicitly provided i.e. permission for 03 trees from 21/12/2022 to 29/05/2023 and 175 trees from 29/05/2023 to 05/12/2023. The copy of permission granted by the Department of Forests & Wildlife is enclosed as Annexure – D (Colly).

10. That it is further clarified any act of pruning of trees which have taken place in 82 parks in the past has been as per the guidelines for pruning of trees under the Delhi Preservation of Trees Act Issued by department of Forests & Wildlife GNCTD. After passing of the order 29.05.2023 by the Hon'ble High Court the permission of pruning irrespective of the size is now carried out prior permission from the Forest Department.

1. At joint request, the petition is taken up for disposal.
2. This writ petition impugns the order dated 19.01.2023 passed by the National Green Tribunal ('NGT') in Original Application No. 911/2022. Mr. Vivek Sibal, the learned Senior Advocate for the petitioners seeks directions apropos the procedure adopted for pruning of trees under the Delhi Preservation of Trees Act, 1994 ('DPT Act') and the Guidelines for Pruning of Trees dated 01.10.2019 ('Guidelines'). The latter have been framed under the Delhi Preservation of Trees Rules, 1996.
3. He submits that the impugned order permitting pruning of trees, on the basis of the Guidelines is erroneous because such pruning is permitted without prior approval of and without even a site inspection or assessment of the tree(s) concerned by the relevant authority namely, the Tree Officer/Deputy Conservator of Forests ('DCF'). The Guidelines and the impugned order permit private parties/entities to prune trees even on land owned by the government (i.e. the MCD, DDA and PWD).
4. He refers to the judgment dated 16.03.2017 passed by the NGT (Western Zone) Bench, Pune in *Mr. Pradeep Indulkar vs. Municipal Corporation for the City of Thane and Ors.* in Application No. 157/2016 which has analysed a similar provision of law, regarding pruning of trees, under The Maharashtra (Urban Areas) Protection and Preservation Of Trees Act, 1975, and has discussed the issue as under:

“ ...

13. *The plants are thus inalienable component of*

9

'environment'. It is well known that plants, particularly, the trees, contribute generously to the environment in terms of maintaining delicate environmental balance, particularly, in terms of ambient air quality, and provide succor and shelter to other living creatures. The preamble to the Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975, reveals that the Act has been enacted to make better provisions for trees in the urban areas in the State by regulating felling of trees and providing for plantation of adequate number of new trees in those areas. The Act recognizes need for making better provisions for protection and Preservation of trees in the urban areas in the State in the face of growing urbanization and industrialization accompanied with indiscriminate felling of large number of trees in the urban areas. Thus, the object of this enactment to protect and preserve trees needs to be kept in mind while interpreting its provisions. It is correct that 'preservation of trees' as per Section 2(c) of the Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975, includes 'other operations of survival and propagation of trees' and term "trimming or pruning" is nowhere defined in the said Act, but going by the Dictionary meaning 'trimming/pruning' involves 'cutting' as can be seen from the relevant text in the Oxford Dictionary of English, 3rd Edition, quoted hereunder:

Prune: verb [with obj] trim a tree, shrub, or bush) by cutting away dead or overgrown branches or stems, especially to increase fruitfulness and growth. Cut away (a branch or stem) in this way prune back the branches. Reduce the extent of (something) by removing superfluous or unwanted parts: the workforce was pruned. Remove (superfluous or unwanted parts) from something: Eliot deliberately pruned away details. Trim: verb (trim, trimming, trimmed) [with obj] 1. Make (something) neat or of the required size or

10

*form by cutting away irregular or unwanted parts;*

14. Section 2(c) of the said Act defines the phrase to 'fell a tree' in the following words: Section 2. .... (c) "to fell a tree" includes burning or cutting or [in any way damaging a tree;] On summarizing this definition, one can easily perceive that any act of damaging a tree amounts to felling of a tree. If trimming/pruning of a tree is done without taking a decision as to what wanted and unwanted parts of the tree are and what would be good or bad for proper growth and/or survival of the tree, it will do harm/danger than good to the tree. It is, therefore, essential before trimming/pruning is done to take an informed decision as to whether such trimming/pruning would in any way damage the tree and to what extent the tree can be trimmed or pruned without causing such damage.

15. The extracts of scientific literature produced before us by the Applicant points out, that trimming is a most common activity that is undertaken routinely on ornamental trees for maximizing their benefits. Vide Ex. 'N1' a literature on essay titled as 'Pruning Mature Trees'. This literature further suggests that over pruning is dangerous inasmuch as it is one of the worst and most common mistake in tree maintenance vide Ex. 'N-1'. Reading of excerpts from the literature produced on 'Pruning Do's and Don'ts', 3rd edition, (Ex 'K-1') makes available the following material observations: "Regardless of the state of life, there is no harm in removing the portion of branches that are dead, broken, spilt, dying, diseased, or rubbing against each other. However, indiscriminately removing branches with live foliage can reduce tree health and encourage development of weak structure. Anytime live branches are removed, some live wood transitions to non-living wood behind even a well-executed pruning cut. This

Page 4 of 21

*must be balanced against the improved structure that results from structural pruning. Removing a few small diameter branches typically has little effect". Dangers of over Pruning: 1. Large or Profuse Cuts Lead to Decay Any cut made on a tree is a wound that must be healed. The fewer cuts made the better, smaller cuts throughout the tree's life are better than large cuts that should have been made many years ago when the tree was small. One large poorly made cut or too many cuts in the wrong places can ruin a tree for life.*

17. Section 8 of the Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975, stipulates restrictions on felling of trees in following terms: 8. (1) On and after the date on which this Act is brought into force in any urban area, notwithstanding any custom, usage, contract or law for the time being in force, no person shall fell any tree or cause any tree to be felled in any land, whether of his ownership or otherwise, (2) If [any person, including an officer of the urban local authority or an officer of the State Government or the Central Government, proposes] to fell a tree, he shall apply in writing to the [Tree Authority] for permission in that behalf. The application shall be accompanied by 3[the description of the tree and] a site plan, indicating the position of the tree required to be felled and the reasons therefore. [(3) (a) On receipt of such application, the Tree Authority shall cause the Tree Officer to personally inspect the tree and hold enquiry and submit a report to the Tree Authority within a period of thirty days from the date of receipt of such application. Adequate public notice shall be given by the Tree Officer by advertising in local newspapers as well as by affixing a notice on a conspicuous part of the tree that is required to be fell. Thereafter, the Tree Authority may give permission with or without conditions or refuse it, within a period

12

of sixty days from the date of receipt of the application. However, no tree shall be felled until fifteen days after such permission is given: Provided that, no such permission shall be refused if, in the opinion of the Tree Authority, the tree is dead, or diseased or wind-fallen, or it constitutes a danger to life or property, or obstructs traffic; and if any objection is received against such permission, the matter shall be placed before the Tree Authority for reconsideration, and a decision shall be taken within two weeks after giving a hearing to the person who has raised the objection. (b) A report of permissions granted by the Tree Authority for felling trees shall be submitted at least once in six months to the concerned urban local authority in whose jurisdiction the Tree Authority is functioning. (4) If the Tree Authority fails to inform the applicant of its decision within sixty days, from the date of the receipt of the application by it, or if the receipt of the application has been acknowledged by it within this period, from the date of acknowledgement of the receipt of the application, the permission applied for shall be deemed to have been granted. (5) Where permission to fell a tree is granted [Tree Authority] may grant it subject to the condition that the applicant shall plant another tree of the same or other [suitable local species] on the same site or other suitable place within thirty days from the date the tree is felled, or such extended time as the Tree Officer may allow in this behalf situated within that urban area, except with the previous permission of the Tree Officer. 18. In clear and unambiguous terms the law lays down that "no person shall fell a tree or cause any tree to be felled in any land whether of his ownership or otherwise situate within that urban area except with previous permission of the Tree Officer" and if any person including an Officer of the Urban Local Authority, State Govt. or Central Govt. proposes to fell a tree, he shall apply in writing to the Tree Authority for permission in that

W.P.(C) 2317/2023

Page 6 of 21

behalf. An elaborate procedure to deal with such Application is prescribed by law in the manner aforesaid. Nowhere have we found under the said Act any provision exempting the Tree Officer to give a go-by to the said provisions of law for the purposes of felling of trees which includes, in our opinion, trimming/pruning of the trees whether in routine or otherwise.

19. The public streets vest in the Corporation Respondent No.1 by virtue of Section 202 of the Maharashtra Municipal Corporations Act, 1949 and as such it is for Respondent No.1 Corporation which is an Urban Authority as per Section 2(g) of Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 to move an Application for the purposes of felling a tree on the public street, which includes its trimming/pruning as aforesaid to the Tree Authority for permission in that behalf..."

5. The said judgment also held the Municipal Corporation, Thane and the Tree Officer liable to pay environmental compensation and directed that some costs be paid. It also directed, *inter alia*, as under:

"22...

3. Respondent No.1 shall take necessary steps to ensure that census of trees adopting modern technology in digitized framework with geo tagging is duly completed within a reasonable period.

4. Respondent No.1 Thane Municipal Corporation shall evolve the procedure for dealing with the proposals of tree felling, including trimming/pruning of trees and maintaining its record keeping in view the procedure suggested by the Pune Municipal Corporation (PMC) in PIL No.93 of 2009 (Deepak Balkrishna Vahilkar

14

*and Anr. v. The State of Maharashtra and Ors.)  
within two (2) months..."*

6. The learned Senior Advocate for the petitioner states that of the four directions passed by the NGT, directions (1) and (2) were set aside and the direction (3) and (4) were upheld by the Supreme Court by order dated 30.09.2019 passed in Civil Appeal No. 8946/2017. The Supreme Court's order reads, *inter alia*, as under:-

*"...We uphold directions Nos. 3 and 4 by which Municipal Corporation was directed to evolve a fair procedure to deal with the proposal of felling of trees including trimming and pruning of trees. However, directions 1 and 2 are set aside in the facts and circumstances of the case..."*

7. The court agrees with the petitioner's contention that the methodology and rationale of the order of the NGT in *Mr Pradeep Indulkar v. Municipal Corporation for the City of Thane* should be applied in the present case as well and NGT directions nos. 3 and 4, as upheld by the Supreme Court be followed and adopted for Delhi as well. GNCTD should evolve a fair procedure to deal with the proposal for felling of trees, including their trimming and pruning.

Analysis:

8. Section 8 of the Act prohibits felling of trees in Delhi, except by express prior permission of the Tree Officer. Under the Act, permission for felling, cutting or removal of the trees is granted by the Tree Officer on an application made under section 9. The said section stipulates that permission would not be refused in the

Validity unknown

15

six circumstances enumerated therein. The grant of permission envisages the examination of: i) the trees at the site i.e. obtaining a prior view; ii) assessing the overall and specific situation obtaining at the site and thereafter iii) application of mind by the Tree Officer. In effect, for each such permission/application, a proper assessment would need to be carried out at the site.

9. Currently, application for such felling of trees is made in accordance with Rule 4 of the Guidelines. The format prescribed in Form-B requires the applicant to specify for each tree which is sought to be felled: i) its girth measured at a height of 1.35 metres from ground level, ii) the intended use of felled trees, iii) the purpose of land after felling of trees, as well as iv) appreciation of the species-wise number of trees existing at the site, amongst others. For verification of the detailed data as is to be provided in terms of the prescribed format, it would require the Tree Officer to visit the site and assess the factual position.
10. There may be occasions where rare species of trees may be sought to be felled. The more solitary a tree, the greater its significance. Therefore, the responsibility of protecting and nurturing the solitary tree is far greater upon the Tree Officer and the authorities concerned. A tree is a living being. It must be given, at least a "last look" and accorded a final inspection before a decision is taken to permit its felling or sanctioning extensive amputation of its live branches. In this regard, this court has noted and directed, in its order dated 28.04.2022 in Cont.Cas(C) 851/2021, *inter alia*, as under:-

Validity unknown

“...7. The previous order shows that the Tree Officer has permitted a fully grown tree to be cut down. It was possibly about 25-30 years age having a girth of roughly 200 cms. It was abutting the road and a private land as seen in the photographs. For some reason, the Tree Officer chose not to see reason in retaining the fully-grown tree, which had been a part of the neighbourhood for decades and added to the ambience and the environment. He has permitted the cutting down of the tree. The Tree Officer will explain whether he inspected the site and assessed the tree before granting permission to cut it. It has to be borne in mind that permission is sought under the Delhi Tree Preservation Act, in which "preservation" of trees is the primary objective. The Tree Officer is repository of public faith and trust, that trees which form an essential part of people's lives are not allowed to be cut needlessly or wantonly. The statutory duty cast upon the Tree Officer necessarily requires assessment of the necessity to cut a tree for the project for which the permission is sought. A site visit would be prudent. The shortage of Tree-Officers, necessary support staff, cannot be an excuse for granting permission for cutting down trees in the city. The adverse environmental impact of such denudation is all too well-known. Compensatory afforestation if at all carried out, on the fringes of the city, far-removed from the congested areas of human habitation, where the sole decades-old-tree once stood as a carbon-sump-cum-fresh oxygen generator-cum-shade provider-cum-visual respite from the ever increasing concretization; the geographically distant and nascent compensatory plantation can hardly be of any respite or actual compensation. In any case, it will take decades for the compensatory forests to be of any reckonable benefit. In this capital city with its ever-bourgeoning populating, the cacophony of voices and rampant commercialization of every other street - robbing the residents of the familiar ambience of their residential neighbourhood, the ever-increasing motor-

17

vehicular traffic, the choking air-pollution and the ever-creeping concretization, trees hold out as welcome and assuring living entities of hope, sanity, environmental redemption and even companionship. The more solitary the tree, the greater its significance. Therefore, the responsibility of protecting and nurturing the solitary tree is far greater upon the Tree Officer and the authorities concerned. Photographs of remnants of the cut tree are reproduced hereunder:

8. In the circumstances, it would be appropriate that the Tree Officer(s) give due consideration to transplantation of each tree which is sought to be cut, before granting any further permission for cutting of trees. This would entail inspection of the trees which are sought. The reason for grant or denial of permission would have to be spelt out in the order of the Tree Officer along with photographs of each tree."

11. Since section 9(2) of the Act mandates upon the Tree Officer to inspect the tree and conduct an enquiry as may be requisite, a visit to the site is imperative for assessing the situation comprehensively. In this regard, the court has observed on 10.05.2023 as under:

*“3. With each redevelopment of a house or building, abutting city streets, if applications are moved by the land-owning agency such as the PWD, DDA, Municipal Corporation of Delhi, Cantonment Board, etc. for cutting of trees in front of private houses, in order to facilitate construction of new building/houses, and permission to cut the trees is granted simply on the averment that the trees were coming in the way of reconstruction, then sooner or later the city will be bereft of tree-lined avenues and a large part of its green cover. In a way this would be a creeping legalised genocide of trees and Delhi would soon resemble nothing but a mass of concrete. Paragraphs 9 and 10 of the aforesaid guidelines are ex facie incongruent with the provisions of the Delhi Preservation of Trees Act, 1994. In case there is an exigency for cutting down trees for large public projects or if it is absolutely necessary to cut down trees on a private entity's application, it will require the Tree Officer to personally inspect the site, assess the situation, apply his mind and if required, permit the cutting of a tree but only after having first exhausted all possibility of saving the tree and ensuring its transplantation, along with compensatory afforestation”*

(Emphasis supplied)

12. Section 33 of the DPT Act, gives powers to the Government to give directions, general or special, to the Tree Officers and other

21

officers, regarding the discharge of their functions and for effectively carrying out actions in support of the objectives of the Act. The Guidelines for Pruning of Trees are essentially an informal administrative handbook to assist the Officers of Department of Forests and Wildlife. They are not a part of any statute. They do not carry a statutory flavour or character. The sole objective of the DPT Act, is preservation of trees. The granting of permission for cutting, girdling, lopping, pollarding, etc. of trees is to be strictly regulated and such permission is not to be granted for the asking. Yet the Guidelines permit cutting/pruning of branches of trees having a girth/circumference upto 15.7 cms. How did this figure come about? What is the scientific basis for reaching that figure? What is the justification for applying the same thickness of branches to all species of trees in Delhi? Some trees may have slim trunk girth. For such specific species and otherwise too, the entire tree could well be wantonly pruned to reduce to a mere pole-like structure, as has been done to some trees in this case. Photographs of some instances of *ex facie* unjustified pruning were reproduced in the previous order dated 11.04.2023, they are reproduced hereunder too:-

13. How can there be justification for such pruning? These are glaring examples of misuse of the generous permission granted under the Guidelines to prune trees/tree branches having a girth upto 15.7 cms. Had the Tree Officer been accorded an occasion

Page 17 of 21

to inspect these trees before they were pruned, perhaps the hapless trees would not have suffered their current fate. Was it examined or ascertained by the Tree Officer or for that matter by any authority, whether the branches of the many trees which were pruned, were dead, diseased, dying, split, broken or constituted a threat to life or property or obstructed traffic? Was it ascertained whether the extensive and possibly indiscriminate, cutting of branches with 'live foliage' would not adversely affect the health of the trees? Was it examined, ascertained or estimated that the trees had been or could be over-pruned? If the answer to the last question is in the affirmative, then the sequiter dangers that would afflict the health and life of the fully-grown trees should have been minimized. Was it inspected if there was concretization around the tree-trunk, which could be affecting or had compromised their health and stability, therefore, the pruning of such trees would neither be advisable nor prudent? The answer to all these fundamental and relevant questions is in the negative. The Guidelines ride roughshod over all these concerns and grant a general permission for pruning of tree branches having a girth of upto 15.7 cms. The occasion to the Tree Officer to inspect or assess the health of the trees, the necessity or justification for pruning has been sought to be scuttled and taken away by the Guidelines. What is the scientific methodology employed to measure that the pruning was done only upto a girth 15.7 cms and not beyond, is not known or specified. Evidently, it is a mere guesswork. An estimation. The Guidelines are not a statutory

25

enactment or an amendment of the statute. They cannot abridge the mandate of the statute. Even a Regulation or Rule, which are creatures of a statute cannot limit, undo or transgress the powers, objective and mandate of the statute itself.

Conclusion:

14. Under the Act there is no sanction for the 15.7 cms girth of a tree branch to be cut. Therefore, this figure is incongruous with the statutory requirements as mandated under sections 8 and 9 of the DPT Act. The so-called permission granted under the Guidelines seek to over-reach the statute. The Guidelines, are in conflict with the DPT Act, they are arbitrary and illegal. Consequently, the permission for pruning, presumed to be or granted under the Guidelines would be of no consequence and shall always be *non-est*. Therefore, the Guidelines permitting regular pruning of branches of trees with girth upto 15.7 cm without specific prior permission of the Tree Officer are hereby set aside. The only permission that can be granted for pruning, etc. is under section 9 of the Act.
15. In view of the above, no pruning of trees will be permitted in Delhi except in accordance with the DPT Act. It will be open to the respondents to frame guidelines and/or rules as may be requisite.
16. As regards, the petitioner's reservations apropos the personal observations about him in the impugned order, the court is of the view that in the light of substantive orders having been passed in this petition, the personal observations stand superseded and

26

would be of no relevance. They stand expunged. The learned counsel for the petitioner says, upon instructions, that in view of the above, he would seek to withdraw his petition before the NGT. The petitioner would always have the liberty to pursue all remedies as may be available to him in law.

17. As regards the complaints and specific grievances in this case, the learned counsel for the Tree Officer submits that he has received instructions as well as copies of the record of the proceedings on various dates before the Tree Officer. He assures the court that the matters will be expeditiously proceeded with in accordance with law.
18. In W.P (C) 12271/2022 titled *Rajiv Dutta vs. GNCTD & Ors.*, this court had directed that complainants and public spirited persons who bring to the notice of the Tree Officer, DCF, any harm to trees or breach of statute or would be "*required to be heard apropos complaint made or otherwise be kept informed throughout the proceedings.*" There should be no denial of natural justice in proceedings initiated before the Tree Officer. Therefore, apropos the conduct of *quasi-judicial* proceedings, imparting of refresher courses, to the Tree Officers, DCF would be of some assistance. The GNCTD is directed to arrange refresher training courses as maybe requisite, which would also cover the conduct of hearings through hybrid mode, e-filing of petitions, replies, etc., for the benefit of Tree Officers, DCF and other Officers of the Department, at the Delhi Judicial Academy, within four weeks of receipt of this order.

F.No.8(193)/CF/TA/07-18/Part file/18-19/8473-80

Dated: 01/10/19

**GUIDELINES**  
**FOR PRUNING OF TREES**  
**UNDER DELHI PRESERVATION OF TREES ACT, 1994**

1. The Delhi Preservation of Trees Act, 1994 was enacted to safeguard the forest area in and around NCT of Delhi and to provide for preservation of trees. The Department of Forests & Wildlife, GNCTD has regulatory control for implementation of DPTA 1994 which prohibits felling or pruning/ head backing of trees.
2. The Sec.2 (h) of DPTA, 1994 states that "to fell a tree" with its cognate expression, means severing the trunk from the roots; uprooting the tree and includes bulldozing, cutting, girdling, lopping, pollarding, applying arboricides, burning or damaging a tree in any other manner as factors causing the death of a tree. Thus it would be apparent that its implied meaning does not appear to carry any implicit connotation that pruning of trees which do not cause damage or death of a tree could be termed as a Tree Offence.
3. In the light of above, general guidelines for pruning of trees are prescribed for adherence by all concerned, so that the trees grown with great care and precision over a period of several years are not pruned recklessly leading to their untimely death (which is an offence under Section 8 of DPTA, 1994) or result in reduction of green cover of Delhi which is an essential strategy to combat pollution.
4. Pruning means cutting off or removing dead or living parts or branches of a tree to improve shape or growth. It is a horticultural and silvicultural practice involving selective removal of parts of a plant, such as branches, buds, or roots. Reasons to prune plants include deadwood removal, shaping by controlling or directing growth, improving or maintaining health, reducing risk from falling branches, preparing nursery specimens for transplanting, etc. However, the pruning cut should not be too large so as to damage the tree.
5. For the purpose of clarity and transparency to the meaning of light and heavy pruning, following would constitute as above:

Term	Branches of girth size	Permission required or not	Remarks
Regular Pruning/ General Tending	Upto 15.7 cm.	No	May be got done by Civic Agencies at regular intervals
Light Pruning	Greater than 15.7 cm but less than and equal to 40 cm.	Required	From concerned Tree Officer on submission of prescribed Form B and other documents
Heavy Pruning	Greater than 40 cm	Required	as prescribed in DPTA, 1994.

6. The forest department does not get the trees felled or pruned/ head backed directly but only accords permission for the same to the owner of land on which the concerned tree is standing after due inspection/ investigation.
7. The actual pruning of the concerned tree/ trees is got done by Deputy Director (Horti.) of the MCDs/ NDMC/DDA/ PWD/CPWD (whoever is the land owning agency) of the concerned area or by the property owner himself/ herself.
8. For obtaining permission for felling or pruning/ head backing of trees, guidelines are in place for information to all and ease of Public/ Govt. agencies towards achieving their desired objective which are available on the department website "[www.forest.delhigovt.nic.in](http://www.forest.delhigovt.nic.in)".
9. If **Individuals/ General Public/ Society /RWAs** is desirous that any tree inside his house/premises is posing problems to him or the public and needs to be felled or pruned/ head backed, then he may apply for the same in 'Form B' along with photographs and number of tree/ trees in question to the DCF/ Tree Officer of his area for the permission. After inspection, the permission or otherwise is communicated to him/ her within 60 days as per merit of the case.
10. If the tree/trees for which felling or pruning/ head backing is required is standing on **Govt. land/ roads/ Parks/ govt. property in front of the house/ shop/ private property of an individual** and is posing problem to him, he has to apply for felling or pruning/ head backing of such tree on a simple piece of paper to the Deputy Director (Horti.) of the MCD/ NDMC/ DDA/ PWD/ CPWD (whoever is the land owning agency) with photographs of such tree/ trees.
11. It should neither be applied directly to concerned DCF nor Form B submitted directly which has to be filled and signed by the concerned Dy. Director (Horti) of the land owning agency. After inspection, the permission or otherwise is communicated within 60 days of receipt of such completed application/ Form B to the concerned Dy. Director (Horti), as per merit of the case.
12. If a tree is standing on **govt. land but leaning on private land/ building** and is considered dangerous and likely to cause damage to life and property, it should be informed immediately with photograph by the concerned aggrieved person. Permission is granted for its felling or pruning/ head backing within 48 hours of inspection, as per merit of the case. In case permission/ any intimation to the contrary is not received within this time, the person can go ahead and fell or prune/head back the dangerous/ leaning tree and intimate the concerned Tree Officer.(DCF) within 24 hours of such felling or pruning/ head backing.
13. There are three (3) Deputy Conservator of Forests (DCFs) who are designated as Tree Officers to look after the cases of tree felling or pruning/ head backing and accord permissions for the same, after inspections, as per merit of the case. Their respective jurisdictions in Delhi are shown in table below.

S.N.	Name of the Division	Name of the Revenue Districts	Name of the Sub-division
1.	North Forest Division	North	Model Town, Narela & Alipur
		North West	Rohini, Kanjhawala & Sarawasti Vihar.
		West	Punjabi Bagh, Patel Nagar & Rajouri Garden.
		North East	Seelampur, Yamuna Vihar & Karawal Nagar.
		East	Gandhi Nagar, Preet Vihar & Mayur Vihar.
		Shahdara	Shahdara, Seemapuri & Vivek Vihar.
		Central	Civil lines
2.	West Forests Division	South West	Dwarka, Najafgarh & Kapashera
		New Delhi	Chankyapuri, Delhi Cantt. & Vasant Vihar
3.	South Forest Division	South	Saket, Hauz Khas, Mehrauli
		South East	Defence Colony, Kalkaji & Sarita Vihar
		Central	Kotwali & Karol Bagh.

14 Pruning/ pollarding/ burning/ lopping/ applying arboricides or damaging a tree in any other manner would be considered as tree offence when, as per ocular estimation of such damage, the Tree Officer, in all his wisdom, holds that such act is likely to lead to the death of the tree, in near future.

15 If a tree standing on any govt. land/ road side/ private land/ building is considered dangerous and likely to cause damage to life or property, or hindrance to traffic signals, it should be pruned immediately by the concerned Civic Agency and informed to concerned Tree Officer within 24 hours and for which no permission is required from Tree Officer.

Member Secretary (Tree Authority)

## FORM 'B'

(See sub-rule (1) of rule 4)

The Tree Officer,  
.....  
.....

Sir,

I apply for grant of permission for felling tree/s located in the property situated in the village ..... and District ..... I furnish below the following details in support of my application:-

- i. Applicant's name and address (In block letters).
- ii. Name and address of the owner of the property (if different from applicant).
- iii. Title of the applicant i.e., whether owner/occupant of the property, etc.
- iv. Name of the village and khasra number of property.
- v. Total area of the property with description of the boundaries.
- vi. Total number of trees (specieswise) whose trunk or body is not less than 5cm in diameter at a height of 30cms from the ground and whose height is not less than one metre from the ground.
- vii. The exact area (in sq. metres) from which felling of trees for which permit is sought (description of the boundaries).
- viii. Total number of trees to be felled.
- ix. Trees to be felled are numerically numbered in paint, their girth measured at a height of 1.35 metres from ground level and their details specieswise are.
 

Species	No.	Girth
- x. Purpose for which the felling of trees are intended.
- xi. Intended use of felled trees (e.g.) for sale, for domestic use, etc.
- xii. Intended use of land after felling of trees.
- xiii. Number and species of trees intended to be planted after felling (give details of arrangement for raising, planting and protecting trees).
- xiv. Name /s and address/es of the owners/occupants adjoining property/ies.

2. I am enclosing an affidavit and below mentioned papers in support of my application.

DECLARATION

I hereby declare that I shall fully satisfy and abide by such terms and conditions of the permit as may be specified therein.

Place: .....

Date: .....

Applicant's Signature

Attested copies of:-

- i. Property/occupancy documents.
- ii. Plan of the property showing the khasra number.
- iii. Enumeration list (duly signed by the applicant).
- iv. Boundary list (duly signed by the applicant).
- v. Latest jamabandi of land record issued by the Tehsildar.
- vi. "No Objection Certificate" from the concerned local body (e.g.) MCD/N.D.M.C.
- vii. "No Objection Certificate" from adjoining property owners.

(To be signed on a stamped paper in the presence of Magistrate or authority approved for the purpose)

I, ..... aged.....years, resident of ..... (locality) village ....., wife/son/daughter of ..... do hereby solemnly affirm and declare as under:-

1. That I am the legal owner/occupant of the private property known as ..... situated at ..... village ..... bearing khasra number..... of ..... boundaries of which are as follows:-

East:

West:

North:

South:

2. That I have applied to the Tree Officer ..... for permission to fell ..... trees from the aforesaid property. All the trees have been numbered with paint.

3. That there is no other owner/occupant of this property of the forest produce of this property and I hereby solemnly affirm and declare that I shall be solely responsible and answerable for any claim and litigation, if any, that may arise at any time in future regarding the ownership/ occupancy of the said future regarding the ownership/occupancy of the said property or the forest produce from the said property.

Deponent

Verification

I hereby solemnly declare and affirm that to the best of my knowledge and belief the contents of my above affidavit are correct and true and that nothing material has been concealed or omitted there from.

Verified at ..... this the ..... day of..... 20 .....

Deponent

F. No.Feb.2023/WFD/Pruning /22-23/

Dated: 09-02-23

**Sub: Permission for pruning of trees.**

With reference to your application your office letters vide Online Id-11063 received from Sh. P. K. Banerjee Dy. Director (Horti) Room No.45 Second Floor South Zone, SDMC Green Park, New Delhi for grant of permission for pruning of trees(s), it is to inform that permission is hereby granted as per details indicated below, subject to satisfaction of the term and conditions specified hereunder.

Description	Species of tree/s	Location of tree	Total No. of tree/s
Pruning of branches having girth up to 40-45 cms. Maximum of only 3-4 branches per tree.	Bakain-01 nos.	Near H. No.E-14/16, Vasant Vihar, New Delhi	01 - Nos.

- The pruning shall be carried out under the supervision of competent official of the concerned horticulture department to ensure that no exploitative pruning occurs in violation of this order and provision of DPTA, 1994
- It has also been noticed during Inspection that the root area around the trees has been cemented. It is therefore directed that an area of 6X6 fit around each tree has to be de-concretized Immediately, keeping In view directions of the Hon'ble NGT in the matter of O.A. No. 82/2013, titled Aditya N. Prasad Vs Govt. of NCT of Delhi & Ors.

Terms & Conditions

1. Permission to prune/pollard the tree/s is granted at the risk of the applicant and without prejudice to the claims of any other person/s who may be having any rights over the land of the tree/s.
2. Pruning/pollarding of tree/s shall be completed within 90 days. In the event that the pruning is not carried out within the said period, the permission shall be treated as lapsed and would require fresh request as per DPTA, 1994.
3. Material produced from pruned/pollarded tree/s shall not be removed or disposed without transport permission issued by Tree Officer.
4. The applicant shall ensure that pruning/pollarding does not result in death of the tree. In case of death of any tree resulting from improper pruning/pollarding, Tree Officer shall cause ten times the number of dead trees to be planted in the area and recover the cost of such plantation and maintenance till the time of the establishment of the tree from the applicant in accordance with Law.
5. He will also ensure the compliance of all other laws, rules, orders, and orders of the courts and master plan of Delhi, if any applicable in the case while executing this permission.
6. The landowning agencies shall ensure that wood/lops/tops arising out the pruning should find its way only the MCD crematoria in Delhi in greater public interest or as per policy of agency as decided by the Secretary/HOD/Competent Authority.
7. After the pruning is done photographs of pruned trees be submitted to Tree Officer's office.
8. The applicant shall liaise with concerned land owning agencies and carryout the work with them consent only. Any litigation shall be the sole responsibility of the applicant as permission is being awarded keeping in view the possible safety hazard.
9. A report, post pruning to be submitted by CPWD/PWD/MCD & others along with signatures of RWA members/residents of the area indicating the status of the work carried out.
10. The applicant is directed to submit the photographs with geo-coordinates of Trees proposed to be prune before and after pruning within one month in this office.
