कार्यालय आदेश

स० राष्ट्रीय हरित अधिकरण में योजित ओ०ए० सं०-819/2022 अभिषेक पंवार बनाम उ०प्र० प्रदूषण नियंत्रण बोर्ड व अन्य में जनपद में स्थापित ईट भट्टों के सम्बन्ध में पारित आदेश दिनांक-18.11.2022 के सुसंगत अंश निम्नवत् है:-

2.....(i) As per the status of brick kilns in the State of Uttar Pradesh, provided by UPPCB in Saharanpur around 263 Brick Kilns have been established out of which 25 units have not applied for permission for CTO from UPPCB and closure order has been issued against them but prosecution has been launched only against 3 units and no action has been taken against majority of brick kilns operating illegally.

- (ii) the closure orders passed by UPPCB are nothing more than a paper formality. Due to failure on part of the concerned authorities in taking stringent and effective action these illegal bricks kilns are still operating at the same place just by changing the name on paper as no Khasra number is mentioned.
- (iii) brick kilns are operating very close to each other and not maintaining the distance of minimum 500 meters between them. Also, the same are established very close to the residential complex, schools, etc. The siting criteria provided under the rules is being violated by the brick kiln operators and the UPPCB has failed to take necessary action against them.
- (iv) the Secretary of the Uttar Pradesh Environment Department issued a letter dated 01.05.2020 informing about the notification of the Ministry of Environment and Forest (MoEF) dated 28.03.2020 whereby considering the public good, the MoEF has granted exemption from prior environmental clearance for certain categories of works in which brick kilns are not included. The State Government by making amendment in the Rules granted exemption to brick makers from getting prior environmental clearance for manual excavation of soil by hand digging, provided that the depth of pits resulting from such excavation or mining shall not exceed 2 meters. The State Government by making amendment in the Rules allowed the brick makers to openly exploit and harm the ecology and environment for own commercial advantage without any check. The brick makers of Saharanpur do not record the daily data of soil excavation at the project site and many kiln owners are openly violating the said rules by digging the soil for more than 2 meters and no action has been taken against them by the concerned authorities.
- (v) the brick kilns operators of District Saharanpur are using huge quantity of underground water for casting of bricks and dust suppression but they have not applied for permission for extraction of ground water
- (vi) almost all the brick kilns in Saharanpur have not converted to zig zag technology and they are operating throughout the year.
- (vii) due to operation and mushrooming of illegal brick kilns in clusters not only the air quality of the District Saharanpur has become severe but the same is also causing problem of land degradation and contamination of surface and water quality of the region. The brick kilns are operating next to Yamuna canal and causing damage to the water bodies. Discharge of untreated effluent is severely polluting Hindon River.
