

**DEPARTMENT OF URBAN DEVELOPMENT  
GOVERNMENT OF UTTAR PRADESH**

Date: 25.02.2020

**To,**  
**The Registrar**  
National Green Tribunal  
Principal Bench  
New Delhi.

**Subject:** Action Taken Report in O.A. No: 209 / 2019

Hon'ble National Green Tribunal in above O.A. No: 209 / 2019 have ordered on 05.02.2019 to file an ATR on the matter mainly pertaining to unscientific management and dumping of Solid waste in Loni Nagar Palika Parishad.

2. The point wise compliance status on the issues observed in the report of UPPCB is as following:

<b>S.N</b>	<b>Issue</b>	<b>Compliance/Action Taken</b>
1.	Continuing Dumping of Waste in the area of Ahmad Nagar Navada site.	This dumping site in Ahmad Nagar Navada was earlier used by Nagar Palika Parishad Loni for disposing waste. However, the dumping on the site has

		<p>been stopped and no fresh waste is being dumped on the site. The report of UPPCB dated 13.09.19 also concurs the same that no fresh waste is being found in inspection. For the legacy waste accumulated on the site over past years, the Nagar Palika Parishad Loni has been directed to prepare and execute plant for scientific treatment of the legacy waste as per CPCB guidelines of March, 2019 related to treatment of legacy waste. Nagar Palika Parishad Loni has prepared the DPR which is under evaluation, and it is submitted that the treatment of legacy waste work will be</p>
--	--	--

		commenced within next two months.
2.	Fresh Waste Dumping on Site Nithora Road without permission from the Board	Nagar Palika Parishad Loni has informed that, it has applied for the permission to UPPCB.
3.	Sanction of Scientific Landfill Management and Processing Facility	The state government has already sanctioned Rs. 5.31 Crore of fund for development of scientific landfill site and processing facility for Nagar Palika Parishad Loni. The Fund has been released in the year 2009 to the executing agency CNDS, UPJN. The work could not be started because of non availability and peaceful possession of the selected site to the executing agency. The district administration has been asked to resolve the issue with local populace who

		have been protesting against the setting up of the processing facility.
4	Setting up of Scientific Landfill Site and Processing Facility at Meerpur Hindu.	This site was identified for setting up of processing plant and developing scientific landfill site and fund was released by the state government for the same. UPPCB in it's report has also found that this site is away from residential area. However, due to local protest the work could not be started on the site. In compliance of Hon'ble Tribunal's order, the department has taken up this issue and asked the District Magistrate, Gaziabad vide its' letter dated 9.01.2020, 24.01.2020 & 10 February, 2020. The District Magistrate has assured that the

		<p>issue will be resolved as early as possible. Under such circumstances, it is humbly submitted before this Hon'ble Tribunal that at least three months time be allowed for resolving the issue and ensure peaceful possession of the land so that the work may commence on the site.</p>
5	<p>Transportation of Solid Waste in open vehicles.</p>	<p>It is submitted by the Nagar Palika Parishad that the waste is being collected and transported in covered vehicles. Nagar Palika Parishad Loni has contracted out the work of door to door collection and transportation to an agency. Thus it is humbly submitted that it is being complied. A</p>

		detail action plan for collection of waste as per rule has been prepared by NPP Loni. (Annexure-1)
6	Application for authorisation for developing Processing site at Meerpur Hindu.	As the land site at Meerpur Hindu is still being protested against by local populace and DM has been asked to resolve the issue, the application for authorisation shall be made immediately after the peaceful possession of the site to the executing agency for commencing the work.

3. It is submitted before this Hon'ble Tribunal that the Department is committed to ensure compliance of SWM Rules and directions of this Hon'ble Tribunal. However, it is humbly submitted before this Hon'ble Tribunal that the issue of land availability for developing scientific landfill site and processing plant is a major challenge. Often the local population is against setting up of these facilities in the area. The department has been consistently requesting District Magistrate Ghaziabad for resolving the issue and it is expected that the problem will be

resolved with help of district administration very soon so that a scientific processing facility is set up in the area of Nagar Palika Parishad Loni. In view of the efforts being made it is requested to this Hon'ble Tribunal to kindly grant three months time for starting the work of setting up of the processing facility.

**Deepak Kumar**  
Principal Secretary  
Department of Urban Development

## Detailed Action Plan of SWM Ward No-01

1	Name of the City/Town and State	Loni/Uttar Pradesh	
2	Ward Population	10298
