Respondents

AFFIDAVIT of Dr. Parag Madhukar Dhakate, aged about 47 years, S/o Shri M. B. Dhakate presently posted as Member Secretary, Uttarakhand Pollution Control Board, Dehradun.

Deponent

I, the above-named deponent does hereby solemnly affirm and state on oath as under: -

- 1) That the deponent is presently posted as the Member Secretary, Uttarakhand Pollution Control Board, Dehradun and is competent to sign and swear the instant response affidavit.
- 2) That the above noted Original Application was listed for hearing on 16.02.2024, wherein the Hon'ble National Green Tribunal was pleased to note that following undertaking on behalf of UKPCB:

“

4. Now, the fresh action taken report has been filed by the UKPCB but in the fresh action taken report, there is no response in pursuance to the direction contained in para 4 of the order dated 07.11.2023 in respect of management of sewage, water balance and dual piping system. The direction in this regard as contained in the orders dated 26.07.2023 and 07.11.2023 has remained uncompiled even after imposition of cost by the order dated 07.11.2023.

5. Fresh action taken report at the instance of UKPCB reveals that uniform action against all the defaulting hotels has not been taken. Annexure 2 to the report mentions the amount of environmental compensation imposed against the different hotels, but no details as to how the said amount has been arrived at, period for which and rate at which the amount has been calculated, have been disclosed.

6. Learned Counsel appearing for the UKPCB has prayed for further time to file a fresh report disclosing the full particulars in respect of calculation of environmental compensation and also giving the details as required by the earlier orders dated 26.07.2023 and 07.11.2023.

8. Hence, in the circumstances noted above, we grant further four weeks' time to the UKPCB to file a fresh report keeping in view the observations made above, subject to deposit of Cost of Rs. 25,000/- in the ring-fenced account of the UKPCB.

.....”

3) That in compliance of the aforesaid directions, details of calculation of Environmental Compensation (hereinafter referred to as EC) imposed against the hotels and the rate at which it is calculated was sought from Compliance & Monitoring Cell of UKPCB. As per response submitted, the details of EC calculation and EC imposed against the hotels is as follows:

- i. As per the decision taken and procedure approved by the Uttarakhand Pollution Control Board in the 23rd Board meeting, in case of violation observed, the Environmental Compensation on the industrial units/operations is calculated as follows: -

$$EC \text{ (in Rs.)} = PI \times N \times R \times S \times LF \times VF$$

PI - Pollution Index,

N - No. of days of violation,

R - Rupee factor,

S - Scale of Industry,

LF - Location factor &

VF - Violation factor

However, in case of violation observed, the minimum Environmental Compensation (per day) is also decided as follows:

Handwritten signature

Category of industry	Air	Water	Hazardous waste
Red	2400	2400	1200
Orange	1500	1500	750
Green	900	900	450

- ii. The EC on hotels in Mussoorie has been calculated as per above prescribed procedure, except two hotels where illegal extraction of spring water were reported. Based on recommendation of Regional Office, Dehradun, EC was imposed against 50 hotels out of the 106 hotels. Rest of the Hotels had applied for Consent to operative before the issuing of Show cause notice. The details of the calculation of environmental compensation of 50 hotels is being marked and filed as **Annexure No. 1** to this affidavit.
- iii. Since, the calculated amount of environmental compensation per day was found below the amount of minimum environmental compensation to be imposed, therefore, minimum environmental compensation amount per day were considered for imposition of environmental compensation in present cases. The days of violation were counted from the date of show cause notice issued by the Board till the date of compliance (application filed for Consent to the Board). In this connection, copy of report of

Category	PI for Air	PI for Water	PI for Haz
	A	B	C
Red	32	32	16
Orange	20	20	10
Green	12	12	06

Values of PI = A+B+C

b. No. of days of violation (N): Period between the days of violation observed/due date of directions' compliance and the day of compliance verified.

1.	1 to <5	1.25
2.	5 to <10	1.5
3.	10 and above	2.0

* As per latest Census of India.

LF will be 1.0 in case of unit is located >10 Km. from municipal boundary.

LF will be 1.0 for city/town having population <1 million.

LF is 2.0 for notified Ecologically Sensitive Area.

- f. Violation factor (VF): It is taken as given below:
- If the unit is having adequate treatment facility, which is operational but due to some technical fault, it is not working properly and values of prescribed parameters found exceeded the VF will be 1.0
 - If the unit is not having adequate facility for treatment of pollution then VF will be 1.25

- iv. If the unit is not having pollution control facilities then VF will be 2.0
- v. If the unit is neither consent to operate nor applied for the same and in operation with any default (i to iv) then VF will be 0.5 + value for point I to iv.

Copy of approved Environmental Compensation regime is being marked and filed as **Annexure No. 3** to this affidavit.

- 4) It is pertinent to mention that in compliance of the direction of Hon'ble NGT dated 21.04.2023, EC has been imposed on two hotels located in Mussoorie namely M/s The Savoy, Library Bazar, Mussoorie and M/s Jaypee Residency, Mussoorie, because of the illegal withdrawal of water. The details of the EC imposed is as follows: -

- i. **M/s The Savoy, Library Bazar, Mussoorie:** As per Joint Committee report dated 20.08.2022, in the month of April 2022, about 56 KLD of water supply was done through the tanker. According to NBC 2016 BIS water consumption for hotels (4 Star and above) excluding laundry, kitchen, stall and water bodies has been fixed at 320 Litre/per head/ day. Considering the double occupancy, this quantity comes to 640 Litre/day/room. About 56 KLD of the water is supplied by the hotel through tankers, which is equal to the water consumption of about 87 rooms. Therefore, as per the order of Hon'ble NGT dated 21.04.2023, environmental

compensation of Rs. 50,00,000/- was imposed against the hotel.

It is imperative to state that UKPCB vide demand notice dated 13.02.2024, directed M/s Hotel Savoy to deposit the amount of EC. However, M/s Hotel Savoy challenged the said EC before the Hon'ble High Court of Uttarakhand in WPMS No. 676 of 2024. The Hon'ble High Court vide order dated 13.03.2024, dismissed the writ petition on the ground that the matter is pending before the Hon'ble NGT. Furthermore, the Hon'ble High Court of Uttarakhand granted liberty to M/s Welcom Hotel The Savoy to approach the Hon'ble NGT. Copy of order passed by Hon'ble High Court of Uttarakhand is being marked and filed as **Annexure No. 4** to this affidavit.

- ii. The said hotel has filed Appeal No. 18/2024 (I.A. No. 132/2024) before the Hon'ble NGT. The Hon'ble NGT heard the said appeal on 20.03.2024 and issued the following directions:-

"...3. Issue notice to the respondent who may file its response within three weeks from the date of receipt of notice by e-mail at judicialngt@gov.in preferably in the form of searchable PDF/OCR Support PDF and not in the form of Image PDF.

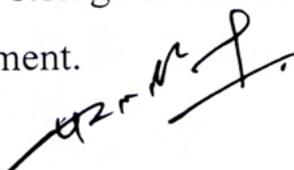

I.A No. 132/2024

5. This is an application seeking stay of the impugned order dated 13.02.2024. Considering the facts, circumstances and

the arguments advanced by the learned counsel for the appellant, we direct that subject to payment of Rs. 15,00,000/- within two weeks by the appellant with the Uttarakhand Pollution Control Board, further demand pursuant to the impugned order dated 13.02.2024 shall remain stayed until further orders... ”.

- iii. In furtherance of the aforesaid directions, M/s Welcom Hotel The Savoy has deposited a sum of Rs. 15,00,000/- to the Board. In this connection copy of the letter dated 27.03.2024 is being marked and filed as **Annexure No. 5** to this affidavit.
- iv. **M/s Jaypee Residency Manor, Mussoorie:** - The said hotel has supplied about 1.6 KLD (average) water through tankers, which is equivalent to water consumption of up to 03 rooms. Therefore, in pursuance of the direction of Hon'ble NGT vide order dated 21.04.2023, a minimum environmental compensation of Rs. 10,00,000/- was imposed. The hotel has deposited a sum of Rs. 10,00,000/- to the Board. In this connection copy of the letter dated 14.03.2024 is being marked and filed as **Annexure No. 6** to this affidavit.
- 5) That total water requirement for 282 hotels in Mussoorie is approximately 2258.95 KLD. It is informed that about 1715.15 KLD water is being supplied by Uttarakhand Jal Sansthan to hotels while about 543.8 KLD water is being taken from storage of rainwater harvesting. 174 hotels have made arrangement for collection and storage of rainwater and its uses to meet the deficit water requirement.

- 6) That out of 282 hotels and homestays, 156 hotels are connected with sewerage networking and contributing their wastewater to Common STPs located in various parts of city for treatment and disposal. 12 hotels are having their own Sewage Treatment Plants and treated water is being reused for gardening/ floor clearing / flushing purposes through dual piping system. Rest of the hotels have provided septic tanks for disposal of wastewater generated. These hotels are having less the 20 rooms (Green category) and requirement of individual STP is not made mandatory in these hotels, however, in case of availability of sewerage network, these unit shall connect with sewerage network for treatment and disposal of their wastewater.
- 7) That total sewage generation from hotels in Mussoorie area is about 1583 KLD, out of which 1001.64 KLD wastewater is being contributing to Common STPs for treatment and disposal while about 248.72 KLD wastewater is being treated through individual STPs and is being reused for gardening/ floor clearing / flushing purposes.

In this connection, copy of the report along with annexure of Regional Officer, Dehradun dated 19.03.2024 is being marked and filed as **Annexure No. 7** to this affidavit.

- 8) That the respondent Board on 11.03.2024 has deposited a sum of Rs. 25,000/- on account of filing of fresh report in compliance of the directions of the Hon'ble NGT in to Environmental Compensation account of the UKPCB. In this connection, the voucher of payment is being marked and filed as **Annexure No. 8** to this affidavit.

9) **Condonation for Cost:**

- i. That, it is evident from the above reply that the Board has already taken strict action against the violations reported. However, only reporting of data were missing in earlier compliance report filed by the UKPCB inadvertently and no information has been concealed by the Board, intentionally.
- ii. Therefore, in view of the above, it is requested that the Hon'ble Tribunal may graciously be pleased to waive off the cost imposed on and deposited by UKPCB, and direct for refund of the same.

10) That the deponent is a responsible Government servant having the highest regards for the Hon'ble Tribunal and orders passed by them. The deponent has always made his sincerest efforts to carry out the orders passed by this Hon'ble Tribunal in its letter and spirit and shall continue to do so in the future.

राज्य बोर्ड की 22वीं बोर्ड बैठक में पर्यावरणीय क्षतिपूर्ति के सम्बन्ध में दिये गये निर्देश के क्रम में पर्यावरणीय क्षतिपूर्ति हेतु पुनरिक्षित प्रस्ताव।

As per decision taken in the 22nd Board meeting dated 22.08.2019, revised document on Environment compensation is to be made. Accordingly, the revised document is as follows:-

Environment Compensation to be levied on Defaulting Units Not complying with the Environmental Norms

The Hon'ble National Green Tribunal (NGT), Principal Bench in the matter of OA No. 593/2017 (WP (CIVIL) No. 375/2012, Paryavarana Suraksha Samiti & Anr. Vs. Union of India & Ors. directed Central Pollution Control Board (CPCB) that:
"The CPCB may take penal action for failure, if any, against those accountable for setting up and maintaining STPs, CETPs and ETPs. CPCB may also assess and recover compensation for damage to the environment and said fund may be kept in a separate account and utilized in terms of an action plan for protection of the environment. Such action plan may be prepared by the CPCB within three months" (Flag-1).
In this context, CPCB has prepared a document on the same considering inputs from their Regional Directors and Expert Groups (Flag-2).

Below is the list of cases considered for levying Environmental Compensation (EC):

- Discharges/emissions in violation of consent conditions, mainly prescribed standards / consent limits.
- Not complying with the directions issued, such as direction for closure due to non-installation of OCEMS, non-adherence to the action plans submitted etc.
- Intentional avoidance of data submission or data manipulation by tampering the Online Continuous Emission / Effluent Monitoring systems.
- Accidental discharges lasting for short durations resulting into damage to the environment.
- Intentional discharges to the environment -- land, water and air resulting into acute injury or damage to the environment.
- Injection of treated/partially treated/ untreated effluents to ground water.

As per CPCB document, in the instances as mentioned at **a, b and c above**, Pollution Index may be used as a basis to levy the Environmental Compensation. This is to mention that CPCB has published guidelines for categorization of industries into Red, Orange, Green and White based on concept of Pollution Index (PI). The Pollution Index is arrived after considering quantity & quality of emissions/ effluents generated types of hazardous wastes generated and consumption of resources. Pollution Index of an industrial sector is a numerical number in the range of 0 to 100 and can be represented as follows:

$PI = f$ (Water Pollution Score, Air Pollution Score & HW Generation Score)

Pollution Index is a number from 0 to 100 and increasing value of PI denotes the increasing degree of pollution hazard from the industrial sector.

CPCB has issued directions to all SPCBs/PCCs on 07.03.2016 to adopt the methodology and follow guidelines prepared by CPCB for categorization of industrial sectors into Red, Orange, Green and White. Uttarakhand Environment Protection has adopted the said categorization of industries based on pollution index.

After considering various factors including the policy implementation issues, CPCB has come up with following formula for levying the Environmental Compensation in instances as mentioned at a, b and c including non-compliance of the environmental standards / violation of directions.

The Environmental Compensation shall be based on the following formula:

$$EC = PI \times N \times R \times S \times LF$$

Where,

EC is Environmental Compensation in ₹

PI = Pollution Index of industrial sector

N = Number of days of violation took place

R = A factor in Rupees (₹) for EC

S = Factor for scale of operation

LF = Location factor

The table below provide the CPCB criteria for taking values of various factors in the formula and proposed values to be taken by UEPPCB for levying Environment Compensation.

CPCB Criteria for taking values of various factors	Proposed values by UEPPCB																				
$EC = PI \times N \times R \times S \times LF$	$EC = PI \times N \times R \times S \times LF \times VF$																				
<p>The industrial sectors have been categorized into Red, Orange and Green, based on their Pollution Index in the range of 60 to 100, 41 to 59 and 21 to 40, respectively. It was suggested that the average pollution index of 80, 50 and 30 may be taken for calculating the Environmental Compensation for Red, Orange and Green categories of industries, respectively.</p>	<p>It is observed that the Pollution Index is combination of Air, Water and Hazardous which consist 40% part of Air, 40% part of Water and 20% part of hazardous. Also, the value to PI be calculated on average value of PI as given by CPB. In this context, value of PI should be taken based on violation of the particular Act/Rule, which may be as follows:</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Category</th> <th>PI for Air</th> <th>PI for Water</th> <th>PI for Haz</th> </tr> </thead> <tbody> <tr> <td></td> <td>A</td> <td>B</td> <td>C</td> </tr> <tr> <td>Red</td> <td>32</td> <td>32</td> <td>16</td> </tr> <tr> <td>Orange</td> <td>20</td> <td>20</td> <td>10</td> </tr> <tr> <td>Green</td> <td>12</td> <td>12</td> <td>06</td> </tr> </tbody> </table> <p>Value of PI = A+B+C</p>	Category	PI for Air	PI for Water	PI for Haz		A	B	C	Red	32	32	16	Orange	20	20	10	Green	12	12	06

N, number of days for which violation	It is accepted by UEPPCB as such.																				

<p>took place is the period between the day of violation observed/due date of direction's compliance and the day of compliance verified by CPCB/SPCB/PCC.</p>													
<p>R is a factor in Rupees, which may be a minimum of 100 and maximum of 500. It is suggested to consider R as 250, as the Environmental Compensation in cases of violation.</p>	<p>It is proposed that the Value of Rupee factor is 100/-</p>												
<p>S could be based on small/medium/large industry categorization, which may be 0.5 for micro or small, 1.0 for medium and 1.5 for large units.</p>	<p>It is accepted by UEPPCB as such.</p>												
<p>LF, could be based on population of the city/town and location of the industrial unit. For the industrial unit located within municipal boundary or up to 10 km distance from the municipal boundary of the city/town, following factors (LF) may be used:</p> <table border="1" data-bbox="247 1030 726 1243"> <thead> <tr> <th>S. 2	5 to <10	1.5											
3	10 and above	2.0											
<p>Violation Factor: Not given by CPCB</p>	<p>It is proposed to add a new factor called Violation Factor(VF). This may be taken as follows: -</p> <ol style="list-style-type: none"> If the unit is having adequate Treatment facility, which is operational but due to some technical fault, it is not working properly and values of prescribed parameters found exceeded then VF will be 1.0 												

	<p>ii. If the unit is not having adequate facility for treatment of pollution then VF will be 1.25</p> <p>iii. If unit is having facility but unit is found by-passing full or part of the pollution then VF will be 1.5</p> <p>iv. If the unit is not having pollution control facilities then VF will be 2.0</p> <p>v. If the unit is neither having valid Consent to Operate nor applied for the same and in operation with any default (i to iv) then VF will be 0.5 + value of VF for point i to iv.</p>

<p>In order to include deterrent effect for repeated violations, EC may be increased on exponential basis, i.e. by 2 times on 1st repetition, 4 times on 2nd repetition and 8 times on further repetitions.</p>	<p>It is accepted by UEPPCB as such</p> <p>First violation cycle means:- Date of inspection on which violation reported to the period until the noncompliance have been rectified. These number of days will be considered for First cycle of EC.</p> <p>Second Violation means:- After fist violation during the opportunity of time to rectify default, if unit again found not complied then second cycle of EC will start and so on.</p> <p>Default also includes non-compliance of closure directions.</p>																
<p>If the operations of the industry are inevitable and violator continues its operations beyond 3 months then for deterrent compensation, EC may be increased by 2, 4 and 8 times for 2nd, 3rd and 4th quarter, respectively. Even if the operations are inevitable beyond 12 months, violator will not be allowed to operate.</p>	<p>It is proposed that if the operations of the industry are inevitable and violation continues after IInd cycle of default, besides imposition of EC of IIIrd Cycle violator will not be allowed to operate.</p>																
<p>In other instances, i.e. <i>d, e and f</i>, the environmental compensation may contain two parts – one requires providing immediate relief and other long-term measures such as remediation. In all these cases, detailed investigations are required from expert institutions/organizations based on which environmental compensation will be decided. In such cases till the detailed study will not carried out by institution, the EC will be collected based on above formulas. Remaining EC will be taken after the study.</p>																	

In such cases, comprehensive plan for remediation of environmental pollution may be prepared and executed under the supervision of a committee with representatives of SPCB and/or CPCB as approved by Chairman State Board and expert institutions/organizations.

Action Plan for Utilization of Environmental Compensation Fund

The Committee discussed about the utilization of funds, which will be received by imposing Environmental Compensation. The following Action Plan is proposed to utilize the fund for protection of the environment.

When Environmental Compensation is calculated through the Pollution Index:

The amount received by imposing the Environmental Compensation to the industries / organization non-complying with the environmental standards / violating any SPCB's directions shall be deposited in a separate bank account. The amount accumulated will be utilized for Protection of Environment. The following schemes were identified, which may be considered for utilization of Environmental Compensation Fund:

- a. Industrial Inspections for compliance verification
- b. Installation of Continuous water quality monitoring stations / Continuous ambient air quality monitoring stations for strengthening of existing monitoring network
- d. Carrying out for study for Investigations of environmental damages, preparation of DPRs
- e. Remediation of contaminated sites
- f. Environment Infrastructure augmentation /capacity building of SPCB

The above proposed list may include other schemes also, depending upon the requirement.

Considering the availability of accumulated funds, SPCB will finalize the scheme, keeping in mind the priority, to utilize the funds of Environmental Compensation.

When Environmental Compensation is assessed based on actual damage to the environment by Expert Organization/ Agency:

The amount of Environmental Compensation under this case will be remediation costs, measures requiring immediate and short-term actions, compensation towards loss of ecology, etc., and will be utilized exclusively for the purpose at specific site, based on the detailed investigations by the Expert Organizations/ agencies.

A score of 7 and above is indicated as an adequate action plan, score between 4-6.5 considered as satisfactory action plan whereas a score of less than 4 is considered not satisfactory.

2.0 Environmental Compensation for Healthcare Facilities (HCFs):

$$\text{Environmental Compensation for HCFs} = \frac{HR \times T \times S \times R \times N}{N}$$

Where;

HR – Health Risk factor

T- Type of Healthcare Facility

S – Size of Health Care Facility

R – Environmental Compensation factor

N – Number of days of Violation

HR Health Risk (HR) is a number from 0 to 100 and increasing HR value denotes the increasing degree of health risk due to improper handling of BMW in healthcare facility.

Further, in any case minimum Environmental Compensation in respect to Healthcare Facility shall not be less than Rs.1200/- per day.

2.1 Deterrent Factor for Healthcare Facilities:

Incremental effect on Environmental compensation charges are given below:

Scenario	Applicable ECC
Up to 15 days from target date	Original ECC
Between 15 to 30 days beyond target date	Two times
Fails to comply in 2 nd	Two times

inspections including new violations if any	
Between 30 to 45 days beyond target date	Four times
Fails to comply in 3rd inspections including new violations if any	Four times
Beyond 60 days from target date	Closure of HCF
Fails to comply in 4th consecutive inspection	Closure of HCF

3.0 Environmental Compensation for Common Biomedical Waste Treatment Facility (CBWTF):

Environmental Compensation for CBWTFs = $PI \times S \times R \times N$

Environmental Compensation

Where;

PI- Pollution Index

S - Size of Operation

R - Environmental Compensation factor

N - Number of days of Violation

Further, in any case minimum Environmental Compensation in respect to Common Biomedical Waste Treatment Facility shall not be less than Rs. 3,000/- per day.

3.1 Deterrent Factor for Common Biomedical Waste Treatment Facilities:

Incremental effect on Environmental compensation charges are given below:

Scenario	Applicable ECC
Up to 30 days from target date	Original ECC
Between 30 to 60 days beyond target date	Two times

<i>Fails to comply in 2nd inspection including new violations if any</i>	<i>Two times</i>
<i>Between 60 to 90 days beyond target date</i>	<i>Four times</i>
<i>Beyond 90 days</i>	<i>Closure of CBWTF</i>
<i>Fails to comply in 3rd consecutive inspection</i>	<i>Closure of CBWTF</i>

7. We have heard learned counsel for the parties available before this Tribunal. We do not see any objection to the recommendations of the CPCB. No meaningful objection has been raised by any of the parties. Accordingly, the report of the CPCB is accepted. The same may be placed on the website of the CPCB for three months. All the States/UTs may take action according to the said report.
8. The States/UTs may furnish complete inventory of HCFs and BMW generation within two months and where the inventories are incomplete, the same may be completed. We place on record our disapproval of the inaction of States in furnishing the inventory studies as well as for incomplete inventories. It is regretful to note that 25% of identified HCFs have not even taken authorization from the concerned State PCBs in absence of which, monitoring of waste management is not taking place. The States which have not set up common treatment and disposal facility must do so within two months as per Rules. The States who have not furnished the information on the barcode system may also furnish such information at the earliest but not beyond two months. The States
