**BEFORE THE HONBLE NATIONAL GREEN TRIBUNAL
PRINCIPAL BENCH, NEW DELHI
ORIGINAL APPLICATION NO: 1034 OF 2024**

IN THE MATTER OF

K SANJEEV DOGRA

..... APPLICANT

-VERSUS-

STATE OF HIMACHAL PRADESH AND ORS.

.....RESPONDENT

**REPLY IN COMPLIANCE OF ORDER DATED 20.03.2025 ON BEHALF
OF RESPONDENT NO. 27 IN THE MATTER OF K. SANJEEV DOGRA
V. STATE OF HIMACHAL PRADESH AND ORS. (O.A NO. 1034/2024)**

1. The present Affidavit is being filed in terms of the order dated 20.03.2025 passed by this Hon'ble Tribunal in captioned O.A No. 1034 of 2024, wherein the Hon'ble Tribunal held: *"In view of averments made in the original application and the observations made in the reports of the Joint Committee, following 11 mining lease holders and 14 stone crushers are impleaded as respondents no. 5 to 29"*
 2. That the Respondent is a licensed Mining leaseholder, who is undertaking mining operations in adherence with all the applicable rules and regulations made by regulating authorities.
 3. That the Respondent is not undertaking conventional riverbed sand mining wherein natural sand is extracted directly from the banks of the river. They are instead, extracting stone and bajra from the river bed and producing M-SAND (Manufactured Sand) which is a by-product of crushed stone.
 4. That the Joint Committee in its Final report dated 18.03.2025, made observations in response to the illegal and unscientific mining alleged by the
-

Applicants. Majority of the Illegal mining cases detected by mode of illegal extraction/storage and transportation have nothing to do with the Respondent.

5. That the Joint Committee raised the following issues pertaining to the activities of the Respondent:

A. Non-demarcation of 6 Mining leases.

B. Discharge of waste water containing silt.

C. Installation of Dry extraction cum bag filter followed by cyclone in stone crushing units.

D. Absence of retaining Structures.

6. **Para wise reply to each of the issues pointed out by the Joint Committee in respect of the activities of the Respondent are as follows:**

A. Non-demarcation of 6 Mining leases.

That the subject of Demarcation of mining leases comes under the purview of mining department. The Mining leases in question are river bed mining leases and therefore demarcation of river bed mining lease is an annual exercise conducted by the Mining Department. The annual demarcation reports of previous years are annexed in the individual replies of the Respondent.

B. Discharge of waste water containing silt

That the Respondent has installed a desilt water treatment plant for waste water discharge and the same has been verified by the Joint Committee in its Final report on page no.10.

2.3.2. *“8. It was observed during 1st inspection that stone crusher were discharging waste water containing silt directly and/or indirectly into the river. However, it was observed during 2nd and 3rd site inspection that out of 14 stone crushers, 13 stone crushers have made arrangements to desilt the waste water and also for storage for recycling by constructing earthen*

ponds. Whereas, one crusher namely M/s Bhandral Stone Crusher is using channels for settling the silt followed by pond to store and recycle the clear water. ”

C. Installation of Dry extraction cum bag filter followed by cyclone in stone crushing units.

The dry extraction cum bag filter and cyclones are installed in dry-stone crushers to control/reduce dust emissions generated from dry-stone crusher. It is pertinent to mention, that the Respondent is undertaking stone crushing by way of wet stone crusher plants and not dry-stone crusher plants. Wet stone crusher plants produce stone aggregate and coarse sand through a water-based system that does not lead to emission of dust and air pollutants. The installation of dry extraction cum bag filter followed by cyclone in a wet stone crusher plant is unnecessary and redundant. The Respondent has also provided water sprinkling systems on the periphery of the stone crusher units to curb dust emissions. The same is an inevitable and integral part of the wet stone crusher plant.

D. Absence of retaining Structures.

That the Respondent is undertaking mining of stones accumulated on the river bed. Such operations do not involve any activity that may result in unintended ejection of rock fragments/ rock projectiles, potentially causing damage to property or injury to people and therefore do not require retaining structures. That the requirement/ need of construction of retaining structures is specific to the location of the mining lease. The construction of retaining structures where it is not imperative, may disturb the river ecology. It is need based and thus the same has not been constructed when there is no specific direction.

REPLY ON BEHALF OF RESPONDENT NO 27

1. That the **Respondent No 27: M/s JV Stone Crusher Village & PO Lodhwan Tehsil Indora, Distt Kangra H.P.** is operating a Wet Stone Crusher that produces Stone Aggregate and Coarse Sand using building stones/ Bajra from the licensed mining leases.

2. That the **Respondent No.12, JV Stone Mining lease Area** was granted mining lease for an area of **04-25-33 Hectares** situated at **Khasra No: 1 and 541 Village /Mauza/Mohal/ Lodhwan, Tehsil Nurpur, District Kangra, H.P.** for excavation of building stone by way of the duly registered lease **dated 05.03.2022** executed by the government of the state of Himachal Pradesh **valid up to 04.03.2027**.
The lease deed of the Respondent No. 12 is hereby annexed as **ANNEXURE R-12/1**.

3. The said lease dated 05.03.2022 was executed in favour of the Respondent after due approval of the mining plan approved by the Govt. of Himachal Pradesh.
The **mining plan** of the Respondent No.12 is hereby annexed as **ANNEXURE R-12/2**.

4. The Respondent obtained **Environment Clearance** from the State level impact assessment authority (SEIAA) issued on **15.02.2023** under EC File No/ Identification No: **HPSEIAA/2013/203/M/s JV Stone Crusher**.

The EC of the Respondent No.12 are hereby annexed as **ANNEXURE R-12/3**.

5. That the Respondent obtained the Consent to Operate (C.T.O) dated **26.06.23** from the Himachal Pradesh Pollution Control Board which is valid till **18.04.25**.

The CTO and fresh application of the Respondent No.27 is hereby annexed as **ANNEXURE R-27/1**.

6. That the aforementioned facts with respect to the permissions obtained by the Respondent also stand duly confirmed by the report of the Joint Committee constituted by this Hon'ble Tribunal in the present O.A vide order dated 07.11.2024.
7. That the Respondent is carrying out operations of mining /excavation at the allotted mining lease site as per the terms and conditions listed in the required permissions and clearances. The annual demarcation reports are Annexed as **ANNEXURE R-12/4**.
8. That the Respondent does not indulge in any illegal, unscientific mining/Crushing or transportation of illegally excavated mining material. The Respondent is undertaking mining/stone crushing operations in compliance with requisite standards provided by the regulating authorities.
9. That the Respondent is carrying out operations of Stone Crushing using excavated stones from the allotted mining lease site as per the terms and conditions listed in the required permissions and clearances.

10. That the Respondent has installed a desilt treatment plant for waste water discharge and the same has been verified by the Joint Committee in its Final report on page 10.

11. That the Respondent is not undertaking any action resulting in diversion of river flow or causing any harm to the environment.

12. That the Respondent is undertaking stone crushing by way of wet stone crusher plants and not dry-stone crusher plants. Wet stone crusher plants produce stone aggregate and coarse sand through a water-based system that does not involve emission of dust and air pollutants. The unnecessary installation of dry extraction cum bag filter followed by cyclone in a wet stone crusher plant will choke the filter and result in improper functioning.

13. That the Respondent has provided water sprinkling systems on the periphery of the stone crusher units and is using a wet process for the production of Stone Aggregate and Coarse Sand due to which no dust emission is caused.

14. That the Mining operations of the Respondent do not involve any such activities that result in unintended ejection of rock fragments, potentially causing damage to property or injury to people and therefore require retaining structures that can obstruct rock projectiles. The construction of

retaining structures where it is not imperative, on the river bed, can interfere with the natural flow of the river and disturb its environment.

TERMS AND CONDITIONS

A. SPECIFIC CONDITIONS

1. This 'Renewal of Consent to Operate' is only for the purpose and under the provision of Water Act, 1974 and Air Act, 1981 as the case may be, and will not construed as substitute for mandatory clearances required for the project under any other law/regulation/direction/order and the applicant shall obtain any such mandatory clearance before taking any steps to establish industry/ industrial plant, operation or process or any treatment and disposal system or an extension or addition thereto.
2. Nothing in this Consent shall be deemed to neither preclude the institution of any legal action nor relieve the applicant from any responsibilities, liabilities or penalties to which the applicant is or may be subjected to under this or any other Act.
3. The unit shall apply for further renewal/extension in the validity of the Consent, before the expiry of this 'Renewal of Consent to Operate'.
4.
 - i) The unit shall ensure compliance of Waste Management Rules i.e. Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016/ Plastic Waste Management Rules, 2016/ E-Waste (Management) Rules, 2016/Construction & Demolition Waste Management Rules, 2016 and Manufacture, Storage & Import of Hazardous Chemical Rules, 1989 and provisions made thereunder, as amended from time to time, without any adverse effect on the environment, in any manner (As Applicable).
 - ii) The unit shall made provisions for the compliance Solid Waste Management Rules, 2016 and provisions made thereunder and unit shall also not practice burning activity of solid waste/waste generated from fuel within/outside premises, to avoid public nuisance.
5. This 'Renewal of Consent to Operate' is for:-
 - i) The emissions from all sources conforming to the norms as prescribed in Schedule-I of Environment (Protection) Rules, 1986 as amended from time to time.
 - ii) Noise and Ambient Air Quality shall be maintained within Ambient Air Quality Standards for noise as specified in Schedule-III of Environment (Protection) Rules, 1986 and Noise Pollution (Regulation and Control) Rules, 2000, as amended from time to time.
 - iii) The effluent (Domestic/Industrial) shall conform to the limits as prescribed in Schedule-I or Schedule-VI or Industry specific standards of Environment (Protection) Rules, 1986 as amended from time to time.
 - iv) Sewage and sullage generated from the unit to be disposed-off in a properly designed septic tank system/Sewage Treatment Plant/ Public Sewer System (as applicable).
6. The unit shall ensure regular operation and maintenance of Pollution Control Devices to achieve the norms as prescribed in Environment (Protection) Act, 1986 and the achievement of the adequacy and efficiency of the effluent treatment plant/pollution control devices/recirculation system installed shall be the entire responsibility of the unit.
7. The unit shall ensure regular operation and maintenance of separate energy meter/flow meter for running pollution control devices and shall also maintain record with respect to operation of air pollution control device/effluent treatment plant, so as to the satisfy the Board regarding the regular operation of air pollution control device/effluent treatment plant and shall maintain log book for the monthly reading / record.
8. **CONDITIONS UNDER WATER (PREVENTION & CONTROL OF POLLUTION) ACT, 1974.**

- a) The unit shall maintain the record regarding the daily water consumption as per flow meter installed.
- b) The unit shall ensure that terminal manhole(s) at the end of each collection system and a manhole upstream of final outlet (s) out of the premises of the industry for measurement of flow and for taking samples.
- c) The pollution control devices shall be interlocked with the manufacturing process of the industry (if applicable) and the authorized outlet and mode of disposal shall not be changed without the prior written permission of the Board. Unit shall not use any unauthorized out-let(s) for discharging effluents from its premises.
- d) Solids, sludge, filter backwash or other pollutant removed from or resulting from treatment or control of waste waters shall be disposed-off in scientific manner.

9. **CONDITIONS UNDER AIR (PREVENTION & CONTROL OF POLLUTION) ACT, 1981.**

- a) The unit shall ensure port-holes, platforms and/or other necessary facilities as may be required for collecting samples of emissions from any chimney, flue or duct or any other outlets as per the specifications.
 - b) The unit shall discharge air emissions through a stack of minimum height as specified in 'Consent to Establish' and shall follow standards laid down from time to time.
 - c) For industrial furnaces and kilns, the criteria for selection of stack height would be based on fuel used for the corresponding steam generation & as per specification.
 - d) Unit shall ensure Stack height for diesel generating sets as per specification.
 - e) The unit shall ensure regular operation and maintenance of installed canopy and stack of the D.G sets so as to control the noise & air pollution in order to comply with the provision of notification No GSR-371 E dated 17-5-2002 or direction as issued by MOEF from time to time, under Environment (Protection) Act, 1986.
 - f) The unit shall ensure disposal of boiler ash/fuel ash through authorized person or within premises in a scientific manner (as the case may be) and shall maintain proper record for the same, if applicable.
 - g) The unit shall ensure regular operation and maintenance of air pollution control arrangements for control emission from its coal/fuel handling area and from handling, transportation and processing of raw material & product of the industry.
10. The unit shall ensure valid and approved on-site and off-site emergency plan, approved by the Chief Inspector of Factories, Himachal Pradesh (If applicable).
11. The unit shall ensure regular operation and maintenance of real time online monitoring equipment's and provisions for the un-interrupted transfer of data as per guidelines of CPCB (if applicable).
12. The unit shall provide adequate arrangements for fighting the accidental leakages/ discharge of any air pollutant/gas/liquids from the vessels, mechanical equipment's etc. which are likely to cause environmental pollution.
13. The unit shall plant & maintain minimum three layer of trees so far possible as per plantation guide (may be download from the website <http://hppcb.nic.in/plantationguide.pdf>) all along the boundary of the industrial premises and check air/water/noise pollution at source.
14. Any guidelines issued by the Central Government/State Government/MoEF/CPCB/SPCB/any other authority concerned, shall be binding.
15. This 'Renewal of Consent to Operate' is subject to orders on any litigation pending in any Court of Law. Any direction/order issued by any court shall be binding (if any).
16. The Board reserves the right to revoke the 'Renewal of Consent to Operate' granted to the industry at any time, in case the industry is found violating the provisions of Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981 as amended from time to time.
17. The unit shall comply with any other conditions laid down or directions issued in due course by the Board under the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981.

B. OTHER CONDITIONS

1. The unit shall comply with the conditions imposed by the MoEF/State Level Environment Impact Assessment Authority/ District Level Environment Impact Assessment Authority in the environmental clearance granted to it as required under EIA notification dated 14-9-06, if applicable.
2. The issuance of this consent does not convey any property right in either real or personal property, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of Central, State or Local Laws or Regulations.
3. Stone Crusher units shall comply with the provisions of guidelines notified by the State Government vide Notification No. STE-E(3)-11/2012, dated 29-05-2014 (If Applicable).
4. Brick Kiln units shall comply with the provisions of guidelines notified by the MoEF vide Notification No. G.S.R.233.(E), dated-15-03-2018 and by the State Government vide Notification No. STE-E(5)-6/2013, dated-07-03-2014 (If Applicable).
5. Hydroelectric Projects shall install Online Real Time Monitoring System for the measurement of 15% of minimum discharge in lean season as per orders of Court/Government. The unit shall also ensure provisions for the regular and uninterrupted transfer of data from the real time online monitoring system for 15% of minimum discharge of flow to SPCB, failing which unit shall be liable for action on account of violation of the directions issued by Court/Government/SPCB in this regard (If Applicable).
6. Unit shall strictly adhere to the capacity approved by the Industries Department/ Department of Tourism & Civil Aviation/any other concerned Authority (As Applicable).
7. The unit shall not cause any nuisance/traffic hazard in vicinity of the area.
8. The unit shall ensure that there will not be significant visible dust emissions beyond the property line.
9. The unit shall obtain and submit Insurance cover as required under the Public Liability Insurance Act, 1991.
10. Unit shall submit all the annual/quarterly returns, as per timeline.
11. The industry shall submit a yearly certificate to the effect that no addition/up-gradation/modification/modernization has been carried out during the previous year otherwise the industry shall apply for the varied consent.
12. The unit shall maintain record regarding the operation of effluent treatment plant i.e. record of quantity of chemicals and energy utilized for treatment and sludge generated from treatment so as to satisfy the Board regarding regular and proper operation of pollution control equipment.
13. Any amendments/revisions made by the Board/CPCB/MOEF in the emission/stack height standards shall be applicable to the industry from the date of such amendments/revisions.

C. SPECIAL CONDITIONS

1. The renewal of consent to operate as granted for stone crusher is subject to order of Hon'ble High Court of HP dated: 11/03/2020 in CMP No. 8459 of 2019 in CWP no. 2067 of 2019 titled as State of HP Vs Bhag Singh.
2. All PCDS as provided shall be operated and maintained at all the times and the unit shall comply with the provisions of DEST, Govt. Notification dated 29-06-2021 in letter and spirit.

By Order
