.....RESPONDENT

N.D.O.H-1.12.2025

REPLY ON BEHALF OF AMBER ABBAS S/O NAYYAR KAZIM I.E
RESPONDENT NO. 4

MOST RESPECTFULLY SHOWETH:

PRELIMINARY OBJECTIONS:

1. That at the outset, the Respondent No-4 submits that the present Original Application is not maintainable either on facts or in law, as the allegations against Respondent No. 4 are speculative, unsubstantiated, and based solely on assumptions. No concrete, verified, scientific, or adjudicated evidence has been placed on record to establish any direct causation, negligence, breach of statutory duty, or violation by these Respondents. The attempt to impose liability merely due to the occurrence of an unfortunate accident is impermissible in law.
2. That the Respondent No-4 further submit that the tragic incident dated 19.05.2024, resulting in loss of lives, was accidental in nature due to negligence of the workers over there. The Respondents themselves have suffered severe mental, financial, and reputational hardship due to the incident. However, the mere occurrence of an accident cannot be treated as proof of negligence. The Applicants have not produced any expert, technical, forensic, or scientific

②

report identifying the cause of explosion or attributing fault to the Respondents. Mere contents of an FIR or newspaper report cannot constitute substantive evidence in proceedings under the National Green Tribunal Act.

3. That the official report dt. 18.9.24 of the Fire Officer, Bijnor, U.P records that the explosion occurred due to the negligent act of the workers/deceased themselves. The report states that friction was generated by a broom used during cleaning, triggering ignition and causing an explosion. This clearly establishes that the immediate cause of the explosion was human error by the workers and not any lapse attributable to the respondent no. 4. Even the incumbent SP City in his media brief has also stated that the fire occurred due to the negligence of the workers .

4. That the respondent no. 4, being the owner of the factory has a valid licence from DM office which was valid upto 31.3.28 to manufacture firecracker upto 150 kg , had no role direct or indirect in the cleaning operations being carried out by the workers at the relevant time and he was also not available on the day of incident at his factory. Such operations, including choice of implements and day-to-day handling, were managed by the workers themselves. The Respondents had taken all reasonable safety precautions and operated strictly within the regulatory framework. Contrary to the allegations, the respondent no. 4 had ensured all statutory compliances and safety measures, including:

- a. Adequate water supply i.e water tank and water pipes within the premises
- b. A valid licence issued by the District Magistrate under the Explosives Act.
- c. Installation of 14 fire extinguishers across the premises.
- d. Storage of explosive material was well below the permitted limit of 150 kg under the licence, .Photographs attached for kind perusal as **Annexure - 1 (colly)**

No authority has ever issued any notice, inspection remark, or complaint alleging breach of these requirements.

That the allegation of storing explosives beyond permissible limits is wholly unsubstantiated. No measurement report, seizure memo, or expert inspection supports this claim. The scale of the explosion cannot retroactively be used to infer excess storage unless and until explosive experts quantifies the nature of explosion with the quantity of material available at the place of incident.

5. That the FIR and chargesheet are merely investigative documents and do not establish liability. No judicial authority has found the respondent no. 4 guilty of any offence under the IPC or the Explosives Act, nor has any authority concluded breach of licence conditions.
6. That the contention regarding Consent to Establish (CTE) and Consent to Operate (CTO) under the UPPCB is misconceived. No such requirement was ever communicated or enforced for this category of licensed firecracker units. No notice or order of deficiency has ever been issued. Any lapse in regulatory monitoring lies with the authority, not the respondent no. 4
7. That the judgments cited by the Applicants, including OA No. 44/2021 (**Virudhunagar Blast Case**), are distinguishable. Those matters involved illegal storage, absence of licences, and repeated violations, none of which are applicable here.
8. The Hon'ble Supreme Court in the *Virudhunagar Fireworks Blast matter* recently set aside an NGT order on the ground that no proper notice or hearing had been given to affected parties. The Court held that suo motu or otherwise, the NGT must issue notice and provide opportunity of hearing before passing any order. This principle squarely applies to the present matter where liability is sought to be fixed without proper adjudication or expert determination.

9. That without prejudice to the above submissions, the respondent no. 4 submits that although an explosion in a firecracker unit may incidentally result in smoke, fire, and temporary environmental disturbance, the claim being pressed by the Applicants in the present Original Application is purely for compensation arising out of the death of workers. Such claims fall squarely and exclusively within the jurisdiction of the labour Court/ Employees' Compensation Commissioner under the Employees' Compensation Act, 1923, which is a special statute specifically enacted for adjudicating compensation payable to workmen or their dependents for injuries or death arising out of and in the course of employment. The Applicants cannot be permitted to maintain parallel claims before two different forums for the same relief and the same cause of action, which amounts to double recovery, and is impermissible under law. The Assistant labour commissioner vide letter 21.11.25 has given notice to the respondent No-4 to give compensation to the deceased in the above blast. Copy of the notice with its true typed and translated copy is annexed herewith as **Annexure 2 (Colly)**.

10. Even if certain environmental consequences occurred due to the fire, the NGT's jurisdiction under Sections 15 and 17 cannot be invoked to decide or award compensation for employment-related deaths, which is the exclusive domain of Labour Courts. Environmental aspects, if any, may be examined by the competent authorities under environmental statutes, but the relief of death compensation is outside the scope of this Tribunal's jurisdiction.

11. The provision for providing compensation to the deceased family in case of death of worker(s) during accident at work-place is dealt under the Employee's Compensation Act, 1923. The implementing agencies under the Employee's Compensation Act, 1923 are the concerned State Governments who are empowered to appoint 'Commissioners' under section 20 of the Employee's Compensation Act, 1923 for deciding compensation. As such, data is

maintained by concerned State Governments. The Employee's Compensation Act, 1923 has been subsumed in the Code on Social Security, 2020.

PARA-WISE REPLY TO THE PETITION

- 1) That the contents of para 1 are matters of judicial record requiring no comments. However, the respondent no. 4 does not dispute that an explosion occurred on 19.05.2024 but denies any negligence on his part as well as on the part of the operator (respondent no. 5). The activities were conducted under a valid licence and with due safety measures. The incident was purely accidental, caused by workers' negligence as recorded in the Fire Officer's report. A copy of the fire accidental report along with its true typed and translated copy is annexed as **Annexure 3**
- 2) That the contents of para 2 are matters of record; however, the applicants may be directed to give strict proof of the averments made in their petition. Respondent no. 4 expresses sympathy for the loss of lives; however, liability cannot arise in the absence of proved negligence.
- 3) That the contents of para 3 are matters of record requiring no comments. However, the allegations levelled against respondent no. 4 are denied. The contents of the FIR are not conclusive, and the sections mentioned therein under the IPC and the Explosives Act, 1884 are incorrect and devoid of merit. Due to media trial, the offence under Section 304A IPC was converted to Section 304 IPC despite the absence of intention or knowledge that the negligent act of the worker would result in death.
- 4-5)That the contents of paras 4 and 5 are matters of record. The post-mortem reports only indicate the cause of death and not causation or culpability. Even otherwise, the post-mortem reports do not indicate any negligence on the part of respondent no. 4.

6. That the contents of para 6 are admitted. However, due to media publications and media trial, the matter was converted from Section 304A to Section 304 IPC. The addition of charges is only an enquiry step before the court and does not amount to evidence of wrongdoing.
7. That the contents of para 7 are admitted to the extent that respondent no. 4 and respondent no. 5 are the proprietor and operator of the unit. The allegations of excess storage and lack of fire-fighting arrangements are denied. Adequate extinguishers and water supply were available. The Fire Officer's report identifies worker-induced friction as the cause. No government authority has ever pointed out excess storage of explosive material or lack of fire-fighting measures.
8. That the contents of para 8 are admitted to the extent that respondent no. 4 was granted licence for production of 150 kg. It is denied that the storage exceeded that limit because the material present was well below the limit. A tutored witness of the police falsely stated 10–15 quintals of material without any documents or anything to support his claim.. The remaining contents are denied.
9. That although the contents of para 9 are matters of record, they are not applicable to the present case. In CPCB OA No. 391/2024, the NGT took suo motu cognizance and formed a committee for fact-finding. In the present matter, none of the government authorities who visited the site reported any shortcomings or lapses on the part of the proprietors. On the contrary, it appears from one of the reports that sweeping of the floors by workers caused the explosion due to their negligence.
10. That the contents of para 10 are denied. Respondent no. 4 was not operating in violation of the Water Act, 1974 or the Air Act, 1981. The District Magistrate, Badaun, issued the licence only after receiving requisite consents from concerned authorities. The license has always been renewed timely since 19.05.11 seeing the good conduct of the respondent no. 4. A photocopy of the licence issued by the DM along with its true typed and translated copies annexed as **Annexure 4**.

11. That the contents of para 11 are repetitive and are not being replied to again for the sake of brevity. It is submitted that there was no violation of safety norms under the relevant rules framed under the Environment Act, 1986 falling in the Schedule to the NGT Act, 2010. The remaining contents are matters of record.
12. That the contents of para 12 are denied to the extent that respondent no. 4 failed to observe obligations under the 1989 Rules. Respondent no. 4 obtained approvals only after compliance with all safety requirements including preparation of an on-site emergency plan. After being fully satisfied, the DM of Bijnor issued the requisite licence.
13. That the contents of para 13 are admitted to the extent that CPCB issued directions dated 07.11.2017 to all State Pollution Control Boards under Section 18(1)(b) of the Water and Air Acts. It is denied that UPPCB failed in its responsibilities in monitoring safety measures or storage limits at the respondent's unit
- 14-15- That the contents of paras 14 and 15 are judicial observations and pronouncements, requiring no comments. The facts of those cases are not applicable to the present matter. The committee of eight members, which inspected the site in those matters, found several deficiencies which are absent here. Hence, the Virdhunagar case has no applicability, especially as the Hon'ble High Court has set aside the NGT order and remanded the matter in OA No. 44/2021.
- 16-17 That the contents of paras 16 and 17, being legal provisions under Sections 16 and 17 of the NGT Act, require no comments. The Workmen's Compensation Act exclusively governs compensation payable to workers during working hours, and Sections 16-17 cannot override statutory provisions of that Act.
18. That the contents of para 18, being judicial observations, require no comments. The parameters laid down in OA No. 44/2021 are not applicable to the facts of the present case, which are entirely different.

19. That the contents of para 19 are denied in toto. The applicant is not entitled to compensation as determined by the Tribunal in past matters since the facts and circumstances relied upon do not apply here. The Fire Officer's report and police video footage establish negligence on part of the workers in their personal capacity who succumbed to injuries.
- 20- That the contents of para 20 relate to correspondence dated 05.07.2025 between the DM, Bijnor and the applicant. The applicant is silent on why no RTI was filed, why no follow-up was made to higher authorities, or why no complaint was made on the CM portal. The applicant has been forum-hopping despite not filing a claim under the Workmen's Compensation Act.
- 21-23- That the contents of paras 21 to 23 relate to Aadhaar card documents of the applicant and deceased, requiring no comments. The applicant must prove their authenticity during further proceedings.

REPLY TO THE GROUNDS:

Grounds A & B: That paras A and B are legal definitions under Sections 15 and 17 of the NGT Act, 2010, requiring no comments.

Ground C : That para C deals with the Oleum Gas Leak Case (M.C. Mehta). While the propositions are not denied, the facts and circumstances are entirely distinguishable from the present case.

Ground D: That para D relates to compensation awarded in the Neyveli Lignite Corporation Boiler Blast Case (OA 108/2020). The same is also distinguishable on facts and circumstances.

LEGAL SUBMISSIONS

1. Liability under Sections 15 and 17 of the NGT Act arises only upon proof of environmental damage or statutory violations. No expert or regulatory authority has found any such violation.
2. The principle of absolute liability cannot be automatically invoked in every accident involving hazardous materials; a clear causal nexus must exist, which is absent here.
3. The Respondents possessed all requisite permissions from the Licensing Authority. No directions or deficiency notices were issued by the UPPCB regarding CTO/CTE.
4. The explosion resulted from negligent handling by workers using an iron broom, as recorded in the Fire Officer's report. The Respondents cannot be held responsible for acts beyond their control.
5. The recent Supreme Court judgment in the Virudhunagar matter reinforces that liability cannot be imposed without notice, hearing, and due process. The Applicants' claim runs contrary to these principles.
6. That, the answering Respondent No. 4 craves leave of the Hon'ble NGT for filing additional reply, if required, in future.

LIMITATION:

That being a legal para, it requires no comments. However, the applicant has not approached the appropriate forum, i.e., the Workmen's Compensation Act/Employees compensation Act or before the Labour Commissioner.

REPLY TO PRAYER CLAUSE:

The last para, being the prayer clause, is denied. The applicants deserve no relief or compensation in light of past orders of the Hon'ble Tribunal and the facts of the present case. That in light of the of the above submissions, It is, humbly prayed that the

application be dismissed with directions to approach the appropriate forum. Any other order deemed fit may kindly be passed in favour of respondent no. 4 and against the applicants.

Letter No.- 2265

Annexure-2 [colly]

/Bijnor-25

Registered

Date-21-11-2025

Commissioner, Workmen's Compensation and Assistant Labor Commissioner, Bijnor.
(Notice under Section 10-A of Workmen's Compensation Act 1923)

Mr. Amber Abbas son of Mr. Nair Qasim
Resident 51/13 Rasool daran, Post and Police Station Nahtaur,
Tehsil Dhampur, District Bijnor.

You are hereby informed that in your firecracker factory located at Gangoda Jatt Jhalu, District Bijnor, on 19.05.2024, the following 03 workers died in a severe explosion; however, you have not deposited the compensation amounts for the deceased workers' dependents in this court, which is as under.

Therefore, you are instructed to deposit the compensation amounts in the name of Commissioner, Workmen's Compensation, and Assistant Labor Commissioner, Bijnor via bank draft within one week for payment to the deceased dependents. Otherwise, recovery proceedings will be initiated.

- Attached is the detail of the deceased workers.

(K.K. Gupta)
Commissioner, Workmen's Compensation and
Assistant Labor Commissioner, Bijnor.

Labor Department

On date 20.11.2025, under the direction of the District Magistrate madam, a combined team conducted an on-site inspection of the firecracker factory located at Databat Past Jhalu, Haldaur police station, Bitta Bijnor. The factory was found closed at the site, and no work was being carried out. During the inspection, the owner of the firecracker factory, Mr. Amber Abbas son of Mr. Nair Qasim, Mohalla 51/13 Rasoolwaran, Kaswa Nahtaur, Post Haldaur, Police Station Nahtaur, Naghara Ghanpur, District Bijnor, was present.

The aforesaid firecracker factory had a fatal accident on 19.05.2024.

The names, addresses, and amount of compensation payable to the deceased workers and their dependents according to the Workmen's Compensation Act are as follows:

S.No.	Name of deceased, address, age & salary
1.	Chinku son of Anoop Kumar Harpal Singh (Father), resident of village Khari, Post Khari (Jhalu), Haldaur PS, District Bijnor, PIN-246728, Date of birth 08.05.2005, Age at time of death 19 years, Salary 106-48/- per month increased for 0.3 month.
2.	Amit son of Kulbir Singh, resident of village Gopalpur, Post Khari (Jhalu), Ghanna, Tehsil and District Bijnor, PIN-246728, Date of birth 02/04/1997, Age at time of death 27 years, Salary 106-48.
3.	Ramat Kumar Ravi son of Omprakash, resident village Gopalpur, Post Khari (Jhalu), Thana, Tehsil and District Bijnor, PIN-246728, Date of birth 10-02-1909, Salary 10648226.38.

Names of dependents and compensation amount payable under Workmen's Compensation Act:

1 - Mr. Anoop son of Mr.,

2 - Mrs. Roopa Devi, total Rs. 12,05,247.12 (Twelve lakh five thousand two hundred forty-seven rupees).

Compensation amounts specified for others similarly.

The above compensation amount is being deposited for the dependents.

Sir, upon receiving the news of the fire accident, the FS unit led by the Chief Fire Officer Bijnor and FSSO promptly proceeded to the scene near village Gangoda Jatt, town Jhalu. Upon arrival, it was observed that the firecracker factory in Gangoda Jatt was on fire. The FS unit began extinguishing the fire by pumping water from the MFE using two delivery hose pipes and water mist with high pressure through hose reels. Observing the intensity, the Chief Fire Officer instructed the FS Dhampur unit to send a water tender to the site. The FS unit continued pumping efforts to extinguish the fire continuously. The Additional Superintendent of Police, City Bijnor, along with local police, were also present. FS Dhampur unit arrived and continued pumping water from MFE to extinguish the fire. The FS units of Bijnor and Dhampur continued efforts to suppress the fire. The fire on the stock of gunpowder inside the factory was being suppressed by continuous pumping. When the MFE water finished, the diesel pump was used to pump surface water from the tubewell to the MFE, and fire suppression continued without interruption. After relentless effort, the fire was brought under control and completely extinguished. In this fire accident, raw materials used for making firecrackers were destroyed by fire. One worker, Amit son of Kulbir from village Gopalpur, Police Station Kotwali City, was found dead, and five other workers who were burnt were sent to district hospital with the help of local police and ambulance before FS unit's arrival.

This firecracker factory was run by Amber Abbas son of Nayyar Qasim, Mohalla Rasoolardar, PS Nahtaur, License number 118/2011. Investigation revealed the fire started due to friction while sweeping. After completion of investigation, the FS unit Dhampur was sent back with the crew, and as per orders, FS Bijnor unit remained present at the site. The local police sealed the firecracker cartons and took possession. After completed procedures, FS unit and crew were dispatched to FS Bijnor.

Staff/Machine Details:

1. FSSO Mr. Sheeshpal Singh
