BEFORE THE HON'BLE NATIONAL GREEN TRIBUNAL, PRINCIPAL BENCH, NEW DELHI

ORIGINAL APPLICATION NO. 392 / 2022

IN THE MATTER OF:

PRASOON PANT AND ANOTHER ...APPLICANTS

VERSUS

UNION OF INDIA AND ORS. ...RESPONDENTS

REPLY ON BEHALF OF M/S AJAY ENTERPRISES PRIVATE LIMITED TO THE ORIGINAL APPLICATION FILED BY THE APPLICANTS

MOST RESPECTFULLY SHOWETH:

PRELIMINARY SUBMISSIONS / OBJECTIONS:

1. At the very outset, it is most respectfully stated that the present reply is being filed by M/s Ajay Enterprises Private Limited being a Company duly incorporated under the Companies Act, 1956 and having its registered office at 8th Floor, Eros Corporate Tower, Nehru Place, New Delhi-110019 (hereinafter referred to as the "**Company**" for short). The Company is engaged in the business of real estate development and development of integrated townships, construction and sale of flats.

   The Company is responsible for the development and construction of a Group Housing Colony namely "**Eros Sampoornam**" (impleaded as Respondent No. 12 in the present application) at its Plot bearing No. GH-01,

Sector-2, Greater Noida (U.P.) (hereinafter referred to as the "**project**" for short). The present reply filed on behalf of the Company may be treated to be a reply filed on behalf of Respondent No. 12 ("Eros Sampoornam") also.

It is submitted that the present Application filed by the Applicants herein is not maintainable since the Applicants have not shown any grounds whatsoever to substantiate the assertions and averments contained in the present Application under reply. Furthermore, they have not been able to bring on record even an iota of proof to substantiate the averments made in the present Application. It is stated that the present Application is woefully silent on how the Applicants, in the facts of the present case, are entitled to any of the relief(s) as prayed for in the present Application. Lastly, the Applicants have not placed on record any cogent evidence, which would enable this Hon'ble Tribunal to adjudicate upon the matter at hand, and pass any directions, much less substantive findings qua private respondents, i.e. builders/developers/project including the Respondent No. 12 herein and have not been able to show as to how they are affected owing to the actions of the Company developing the project.

2. It is further submitted that the present Application filed before this Hon'ble Tribunal contains nothing but bald and baseless claims, unsubstantiated assertions and are more particularly directed at government agencies, rather than the project developed by the Company. Moreover, the present Application filed by the Applicants contain nothing but self-promoting claims and assertions based on incomplete /partial knowledge. A perusal of various

paragraphs of the Application under reply would categorically make it abundantly clear that the Applicants, rather than being concerned about the public well-being and being environmentally conscious concerning the alleged problem of groundwater extraction are rather treating the present Application as nothing more than a publicity stunt. It further appears that the Applicants had merely preferred bald and unsubstantiated claims which clearly show that the Applicants are only interested in self-promotion and victim-playing. Moreover, there is no indication whatsoever in the entire application, which would shed light into the competency of the Applicants to prefer the present Application.

It would not be out of place to mention herein that from a mere reading of the contents of the Application, it is abundantly clear that the Applicants had not undertaken any research whatsoever prior to filing of the present Application, and they themselves are not clear on the facts of the present matter. Furthermore, a perusal of the relief(s) claimed in the Application would readily clarify that the relief(s) sought are primarily against the government agencies and not against the Respondents.

3. It would be pertinent to mention herein that the averments and assertions contained in the present Application are not directed at the project of the Company and as would be seen from the records placed before this Hon'ble Tribunal, none of the government authorities have imposed any penalty nor they have claimed compensation from the Respondent No. 12. It is reiterated that the records placed before this Hon'ble Tribunal would readily

evidence that none of the government agencies appointed by this Hon'ble Tribunal, including inter-alia, the Joint Committee and UPPCB have found any evidence of illegal extraction of ground water, or installation of borewells at the site of the project. In fact, the Joint Committee appointed by this Hon'ble Tribunal had in its report dated 07.10.2022 categorically returned a finding that no borewell was found to be installed in the project. Hence, the blanket assertion of the Applicants that the Respondents No. 9-40 are illegally extracting ground water through installation of illegal borewells, prima facie falls flat on the face of it. It is therefore, clear that the Applicants have not come with clean hands at the time of filing of the present Application before this Hon'ble Tribunal. Furthermore, without prejudice, it is stated that nowhere in the Application have the Applicants referred to any findings or documentary proof to show that ground water is being allegedly illegally extracted at the project developed by the Company.

4. It is further most respectfully submitted that both the UPPCB and the Joint Committee have in their respective reports returned a finding that only few of the builders situated in Noida and Ghaziabad had allegedly installed the borewells and were found to be illegally extracting ground water. The name and details of Respondent No. 12 nowhere figures in such list. In fact, the Joint Committee specifically found that no borewell was installed in the premises of the Respondent No. 12. Hence, the present Application ought to be preferred only against those builders who had been found to be using illegal borewells to extract ground water and as such in view of the

aforesaid, the name of the Respondent No. 12 is thus required to be deleted from the array of parties. Not only that, the Respondent No. 12 i.e. "Eros Sampoornam" is not even a legal entity in the eyes of law nor any relief(s) is/are capable of being enforced against the Respondent No. 12. In view of the aforesaid, the present Application deserves to be dismissed qua the Respondent No. 12 with exemplary costs.

5. It further appears that the inclusion of the Respondent No. 12 in the present application is based solely on the arbitrary decision of the Applicants, without any discernible rationale. Treating all private projects as defaulters without considering individual circumstances, such as illegal extraction of groundwater, is highly unjust and violates the principles of fair differentiation. The present Application is, therefore, liable to be dismissed qua the Respondent No. 12.

6. Furthermore, since no relief is sought against the Respondent No. 12 and there is no finding of wrongdoing by the Committees appointed by this Hon'ble Tribunal, it follows that the present Application is not maintainable against the Respondent No. 12. Therefore, in light of the aforesaid circumstances, the Respondent No. 12 may be deleted from the array of parties.

7. It is further most respectfully stated that merely because the project is being developed by the Company in Greater Noida does not inherently grant the Applicants the right to implead the Respondent No. 12 in the present

proceedings. The Applicants are duty bound and must demonstrate valid reasons for impleadment of Respondent No. 12 in the present case.

8. The Applicants have miserably failed to demonstrate any application of reasoning in their decision to involve the private parties who are not falling afoul of the principal grounds alleged in the present application, i.e. (i) illegal extraction of ground water and (ii) illegal installation of borewells. In the most respectful submission of the Company, this Hon'ble Tribunal is required to treat the cases of builders who have been found to be extracting ground water / installing borewells as separate and distinct from cases of builders who have not extracted ground water and/or installed borewells in their projects. Therefore, these two categories of cases need to be considered individually and separately so that grave injustice is not caused to the Companies developing the projects and against whom there is no finding of alleged illegal extraction of ground water / installation of borewells.

9. That from the records already available before this Hon'ble Tribunal would categorically show that there is nothing whatsoever, which has been brought on record by the Applicants to show even a hint of wrongdoing at the project site and as such the Respondent No. 12 apart from not being a legal entity, has been incorrectly impleaded in the present proceedings before this Hon'ble Tribunal and is thus required to be deleted from the present proceedings.

10. It is further pertinent to mention herein that the present Application is not maintainable qua the Respondent No. 12 and hence the instant Original Application pending adjudication before this Hon'ble Tribunal deserves to be dismissed qua the Respondent No. 12. The records placed before this Hon'ble Tribunal would sufficiently demonstrate that the Respondent No. 12's name is nowhere mentioned in either the Compliance or Supplementary Compliance Report nor is it mentioned in the Joint Committee's Report. Further, no compensation for alleged extraction of ground water has been claimed from the Company qua its project.

11. It was further incumbent upon the Applicants to have conducted background checks and/or verified the assertions and statements mentioned in the present Application. This lack of research or due diligence is evident from the records placed before this Hon'ble Tribunal. Needless to mention, it is essential for the Applicants to verify the claims in their Application before seeking relief(s) from judicial forums and failure of which has resulted in filing an application containing assertions lacking factual significance.

12. That the case of the Applicants in brief, as reproduced in the Order dated 05.07.2022 passed by this Hon'ble Tribunal is against the alleged illegal extraction of ground water by various builders operating in Noida who are further impleaded as private respondents before this Hon'ble Tribunal. The Applicants have impleaded all classes of projects in Noida without verifying whether the Companies developing the said projects are illegally extracting

the ground water, as alleged or otherwise. It is submitted that the Applicants have wrongly used a broad-based ideology to implead all projects developed by the builders without distinguishing those who are using borewells and those who are not using borewells. Hence, for these reasons alone, the present Application filed before this Hon'ble Tribunal deserves to be dismissed with exemplary costs.

13. That a perusal of the records available before this Hon'ble Tribunal would show that vide order dated 15.11.2022, this Hon'ble Tribunal had directed sealing of all illegally operated borewells and recovery of compensation from those builders who were found to be illegally extracting ground water. It is submitted that the Uttar Pradesh Pollution Control Board (UPPCB) in its Compliance Report dated 15.05.2023 had stated that out of 63 projects, 41 projects were found which allegedly had illegal borewells. Pertinently, the name of the Respondent No. 12 is nowhere mentioned in the said Compliance Report submitted before this Hon'ble Tribunal. Hence, rationale for impleading the Respondent No. 12 is not clear. It is further relevant to mention herein that even in the Supplementary Compliance Report dated 30.06.2023, the UPPCB had nowhere mentioned the name of Respondent No. 12 as a defaulting entity and had further noted that 36 projects out of 61 total projects situated within Noida have valid and subsisting CTE/CTO (Consent to Establish/Consent to Operate). It is most respectfully submitted that the Company developing the project is one such entity which has a valid Consent to Establish (CTE) and Consent to Operate (CTO.). Furthermore, it

is most respectfully stated that the Company developing the project is not using groundwater but is rather using STP recycled water for construction purposes. In this regard, the answering Respondent is filing the relevant record i.e. STP water slips evidencing the purchase of water by the Company through water tankers required for construction purposes of the last two (2) years and the copies of the said STP water slips are annexed hereto and marked as **Annexure-A (colly.)**. Moreover, for day-to-day usage of residents, the Company has taken all possible measures to get the drinking water made available to the residents of the project by the GNIDA (Respondent No. 8 herein). In this regard, the Company has installed flow meter on water source provided by GNIDA and the billing for water is done on the basis of constructed area by the GNIDA. The copies of the said water bills (of the last two (2) years) alongwith water consumption record maintained through Flow meter installed for domestic water are annexed hereto and marked as **Annexure-B (colly.)**.

14. In view of the above facts and circumstances, it is clear that there is no case made out on merits as against the Respondent No. 12, much less a substantial case on merits which would entitle the Applicant(s) to seek relief(s) as sought in the Application under reply qua the Respondent No. 12. Accordingly, the present Application deserves to be dismissed qua the Respondent No. 12 with exemplary costs.

REPLY ON MERITS :

1. The contents of para I are denied for want of knowledge and the Applicants be put to strict proof thereof.

2. The contents of para II are merely informative in nature, hence the same does not warrant any express response.

3. The contents of para III save and except that which may be part of the admitted record, are denied for want of knowledge. The same does not pertain to the answering Respondent and hence no response to the same is warranted.

RESPONSE TO FACTS IN BRIEF :

4. The contents of para 1 are denied for want of knowledge. The same pertains to the personal details pertaining to the Applicants herein for which no response can be forthcoming from the Respondent No. 12. It is however, submitted that the present application is an abuse of process of law and has been filed with all ulterior motives for reasons best known to the Applicants.

5. The contents of para 2 are merely informative in nature, given that they are descriptions of the Respondents, and hence there is no response which can be forthcoming from the Respondent No. 12. It is however, submitted that the answering Respondent is not a legal entity but merely a project which is being constructed and developed by the Company. It is further submitted that the Company is not extracting ground water for construction purposes at its project site.

6. The contents of para 3 are substantially wrong, incorrect and hence denied. Insofar as the project of the Company is concerned, it is vehemently denied that it is doing large-scale extraction of ground water as falsely alleged. It is further denied that prior NOC was not obtained by Respondent No. 12 from the concerned authorities at various stages of its project. As already stated in the preliminary submissions hereinabove, there is no finding of any wrongdoing against the project developed by the Company and which fact has been further substantiated by independent government authorities appointed by this Hon'ble Tribunal. Needless to mention herein that the Company has also not been asked to pay any compensation on account of any alleged extraction of ground water and rightly so since the Company is not in violation of any provisions of law and had all the necessary approvals granted by the relevant authorities for constructing and developing the project and as such the allegations to the contrary are denied. Rest of the allegations are denied for want of knowledge and the Applicants be put to strict proof thereof.

7. The contents of para 4 does not pertain to the answering Respondent and hence needs no reply. However, the allegation that '*lakhs of litres of ground water is being extracted illegally daily*'... is unsubstantiated, speculative, has no factual basis and is merely the assumption and presumption of the Applicants which cannot be relied upon at all. The Applicants have failed to provide any scientific studies, government fact finding reports or other

evidence to substantiate the grandiose statements which find mention in the para under reply. It appears that the Applicants have filed the present application only for personal gains rather than to address genuine environmental concerns.

8. The contents of para 5 does not pertain to the answering Respondent and hence no response can be forthcoming in the facts of the present case. However, the Applicants are put to strict proof in respect of the allegations contained in the para under reply.

9. The contents of para 6 do not pertain to the answering Respondent hence, no response can be forthcoming to the allegations contained in the present para. However, it is stated that the generic and oversimplified assertion made by the Applicants that '*most of the builder projects here have, been illegally extracting ground water since last decade or so without an NOC* 'is utterly false, wholly incorrect and contrary to the facts. It is submitted for due consideration of this Hon'ble Tribunal that such grandiose and vague statements without any foundation in facts or scientific basis cannot be sustained before a court of law, and certainly not before this Hon'ble Tribunal. There is no legal basis for the assertions contained in the present para, and the Applicants have not shown any scientific evidence or government documentation which would substantiate / fortify the allegations contained in the para under reply. There is no factual basis for the statements contained in the para under reply and as such the Applicants are

put to strict proof in respect of the allegations contained in the para under reply. The contents of the preliminary submissions hereinabove may be read as part and parcel of the present para and need not be reiterated for the sake of brevity.

10. The contents of para 7 does not substantially pertain to the answering Respondent and hence, no response is warranted in that regard. However, from a mere reading of the allegations contained in the para under reply, it is evident that the Applicants have a personal ego-battle with the government authorities and have utilized this Hon'ble Tribunal's platform for reasons best known to them and have simultaneously dragged the private Respondents including the answering Respondent into their personal conflict.

11. The contents of para 8 do not pertain to the answering Respondent and hence no response whatsoever can be forthcoming to the facts alleged in the para under reply.

12. The contents of para 9 do not pertain to the answering Respondent and hence no response whatsoever can be forthcoming from the answering Respondent. It is however, stated that the development and construction of the project was commenced by the Company after obtaining necessary approvals from the concerned authorities. It is further reiterated that the Company has neither extracted ground water nor installed borewells which fact is duly borne out from separate government reports. Moreover, the

record before this Hon'ble Tribunal would categorically indicate that no compensation was sought by the concerned government agencies for alleged illegal extraction of ground water by the Company at the project site and therefore, the entire contention of the Applicants is rendered otiose.

13. The contents of para 10 do not pertain to the answering Respondent and hence needs no reply. Nonetheless, it may be noted that the purpose behind filing the present Application is unclear, as several paragraphs within it seem like a publicity campaign and are not directly related to the illegal extraction of ground water.

14. The contents of para 11 do not pertain to the answering Respondent and hence no response can be warranted. However, the assertion made by the Applicants that there is an alleged co-relation between increased seismic activity due to ground water extraction is complex and can vary depending on various factors. In any event, it is stated, without prejudice, that the same cannot be answered by the Company developing the project but by an expert in that field. Moreover, these statements need to be backed by scientific evidence and study which the Applicants have not produced which can give rise to any alleged cause of action.

15. The contents of para 12 are substantially denied for want of knowledge and the Applicants be put to strict proof thereof. The contents of the preliminary submissions may be read as part and parcel of the present para and need not be reiterated herein for the sake of brevity.

16. The contents of para 13, save and except which are informative in nature, are denied for want of knowledge. The reliance placed by the Applicants on a CSIR study is misplaced and the veracity of the same needs to be tested by this Hon'ble Tribunal. The contents of the preliminary submissions hereinabove may be read as part and parcel of the present para and need not be reiterated herein for the sake of brevity.

17. The contents of para 14 are substantially the extracts quoted from the NITI Aayog Report 2018 and hence needs no reply. Save and except what appears therefrom, rest of the allegations to the contrary are denied. The said report incidentally mentions ground water depletion and admittedly points out to the limitation in gathering data driven evidence, which forms the crux of the Applicant's case before this Hon'ble Tribunal. It would be interesting to point out that of particular interest, are several observations made in the said Report including specific notes that the ground water depletion, as alleged is occurring at the national level, and not limited to the areas of Greater Noida and Ghaziabad, which admittedly, is the territorial ambit of the present Application.

Furthermore, the report nowhere states that ground water depletion is occurring due to building activities, therefore, the grandstanding assertions made by the Applicants herein deserves to be examined afresh. The relevant extracts from the report, which point out to these factors are reproduced below, for the sake of convenience:

"... India is undergoing the worst water crisis in its history...

... Critical groundwater resources – which account for 40% of our water supply – are being depleted at unsustainable rates. Droughts are becoming more frequent, creating severe problems for India's rain-dependent farmers (~53% of agriculture in India is rainfed). When water is available, it is likely to be contaminated (up to 70% of our water supply), resulting in nearly 2,00,000 deaths each year. Interstate disagreements are on the rise, with seven major disputes currently raging, pointing to the fact that limited frameworks and institutions are in place for national water governance."

From the above, it is evident that the said report is talking about water shortage faced at the national level and the said shortage is account of various factors, such as contamination, etc. and also points to the limited scope of national water governance. Therefore, this does not mean that the report is highlighting an issue endemic to the Delhi NCR Region.

However, as dealt with hereinabove, two specific factors need to be specifically reiterated herein;

(i) nowhere in the NITI Aayog Report does it state that the ground water shortage is occurring because of alleged illegal borewell extraction; and

(ii) nowhere in the above extract above does it state that the ground water is being depleted due to construction related activities.

Hence, the very foundation and basis for the Applicant's case before this Hon'ble Tribunal requires re-examination and renewed scrutiny by this Hon'ble Tribunal. Thus, when the report itself admittedly points out to shortcomings in data collection, which factor has also been addressed by the Applicants herein, it goes without saying that the Applicants' case before this Hon'ble Tribunal regrettably stands on a thin footing. The aforesaid submissions are being made strictly without prejudice to the rights and contentions of the Company that it had obtained necessary approvals from the concerned government authorities before the development and construction of the project.

Furthermore, from a perusal of various paragraphs found in the present Application, an impression is sought to be portrayed that the information available to the Applicants herein is based on concrete and hard data-driven evidence and further backed by irrefutable scientific evidence which is not the case here.

Additionally, it is further submitted, though strictly without prejudice, that when the report itself highlights the various challenges, these challenges are faced at the national level, and not restricted to the Delhi-NCR Areas. Hence, it is clear that the Applicants are conflating and extrapolating the data to suit their own purposes which is impermissible.

18. The contents of para 15, save and except which is part of the admitted record are false, incorrect and hence denied. The allegation that private builders continue to extract groundwater with permission is a general statement made by the Applicants and the same is incorrect. It is most respectfully stated that the Company has always believed in conducting all its activities with appropriate sanctions and permissions granted by the government agencies and as such the allegations to the contrary are denied. The contents of the preliminary submissions may be read as part and parcel of the present para and need not be reproduced hereinbelow for sake of brevity.

19. The contents of para 16 are merely informative in nature, and hence does not warrant any response. It is however, stated that the allegations contained in the present para do not pertain to the answering Respondent, since the Company has not used ground water at its project site, but has been using STP water, as already mentioned in the preliminary submissions hereinabove. The same may be referred to and relied upon for the purposes of the present para and need not be reiterated herein for the sake of brevity.

20. The contents of para 17 do not pertain to the answering Respondent since no ground water has been extracted by the Company for its project site. The contents of the preliminary submissions mentioned hereinabove may be read as part and parcel of the present para and need not be reiterated herein for the sake of brevity.

21. The contents of para 18 are substantially matters of record and hence needs no reply.

22. The contents of para 19 are substantially wrong and are denied in toto. Insofar as the answering Respondent is concerned, it is most respectfully stated that the development and construction of the project was commenced by the Company after obtaining necessary approvals from the concerned authorities. It is again reiterated that the Company has neither extracted ground water nor installed borewells which fact is duly borne out from separate government reports. Moreover, the record before this Hon'ble Tribunal would categorically indicate that no compensation was sought by the concerned government agencies for alleged illegal extraction of ground water by the Company at its project site.

23. The contents of para 20 are substantially matters of record and hence needs no reply.

24. The contents of para 21 are substantially matters of record and hence needs no reply.

REPLY TO GROUNDS :

25. The contents of para 22 does not pertain to the answering Respondent and hence needs no reply. However, the contents of the preliminary submissions mentioned hereinabove may be read as part and parcel of the present para and need not be reiterated herein for the sake of brevity.

26. With regard to the allegations contained in para 23, it is most respectfully submitted that the Company developing the project is not using groundwater in any manner whatsoever but is rather using STP water for construction activities. Moreover, for the day-to-day usage of residents, the water is being supplied uninterruptedly by the GNIDA (Respondent No. 8 herein).

27. The contents of para 24 insofar as the same relates to alleged extraction of groundwater by the private builders, it is most respectfully submitted that there was/is no extraction of groundwater by the answering respondent for construction activities at its project site. It is most respectfully submitted that the Applicants cannot be allowed to make such grandiose and vague statements without any foundation on facts or otherwise. The contents of the preliminary submissions mentioned hereinabove may be read as part and parcel of the present para and need not be reiterated herein for the sake of brevity.

28. The contents of para 25 are substantially wrong and are denied. It is reiterated that no ground water is being extracted by the Company for construction activities at its project site and as such the allegations to the contrary are denied. The contents of the preliminary submissions may be read as part and parcel of the present para and need not be reiterated herein for the sake of brevity.

29. The contents of para 26 are substantially denied for want of knowledge and the Applicants be put to strict proof thereof.

30. The contents of para 27 needs no reply.

31. The contents of para 28 are essentially the blanket assertions made by the Applicants qua all the project proponents and the same are vehemently false and are denied. It is clear that the Applicants have not come to this Hon'ble Tribunal with clean hands and are not entitled to any of the relief(s) claimed in the present application. Furthermore, without prejudice, it is stated that nowhere in the Application have the Applicants referred to any findings or documentary proof to show that ground water is being illegally extracted at the project developed by the Company.

32. The contents of para 29 are wrong and are denied.

33. The contents of para 30 are wrong and are denied.

34. The contents of para 31 are substantially denied for want of knowledge and the Applicants be put to strict proof thereof.

35. The contents of para 32 needs no reply.

REPLY TO LIMITATION CLAUSE

The question of the present application allegedly being within the period of limitation does not arise inasmuch as no cause of action has taken place to file the present application much less "*recurring cause of action*" as has been falsely alleged in the para under reply.

PRAYER

Having regard to what has been stated above, it is therefore, most respectfully prayed that this Hon'ble Tribunal may be pleased to dismiss the present application being false, frivolous and misconceived with exemplary costs.

It is prayed accordingly.

RESPONDENT NO. 12

THROUGH

(VIKRAM BAJAJ/ DINESH GROVER)
(ADVOCATES FOR THE RESPONDENT NO. 12)
