The collected garbage through auto tippers is being transferred to the MTS (Mobile Transfer Station) or to the nearest FCTS (Fixed Compactor Transfer Station) e.g. in Nizamuddin, Lajpat Nagar etc and thus reducing the quantum of garbage collection at H and D block dhalaos in Jangpura Extension.

**D. Integration of private rag pickers with M/s DDSIL**

A survey of all the private waste collectors collecting door to door MSW from Jangpura Extension area has been done and about 30 nos. private waste collectors/rag pickers have been identified. The route and timing of collection of waste by these rag pickers has also been prepared and auto tippers deployed additionally has been assigned the work for getting the waste transferred from rag pickers at their end points of the route. This has reduced the quantum of waste collection at the dhalao/SCPs points, thus improving the sanitation condition at SCPs/dhalaos. Identity card has been issued by M/s DDSIL, while integrating them. Gloves/ Gum Boots have also been distributed as well as their vehicles have been painted by M/s DDSIL.
