24	Gurugram Annexure-XXIII	375-399

**Joint Committee report in compliance of the NGT order in OA No. 68 of 2022-
Raman Sharma Vs State of Haryana.**

1. Hon'ble NGT vide order dt. 28.03.2023 has constituted Joint Committee vide para 13 of the order and the relevant part is reproduced as under:-

"13. In view of importance of protection and proper maintenance of open spaces, parks, green belts and having the factual background of the present case as reminder of one of countless such instances of conversion of part or whole of open spaces, parks, green belts in the entire State of Haryana coming up before this Tribunal, we consider it appropriate to widen the scope of the present proceedings and constitute a Joint Committee comprising of representatives of (i) MOEF&CC, (ii) CPCB, (iii) ACS/Principal Secretary, Department of urban Planning Government of Haryana, (iv) ACS/Principal Secretary, Department of Local Bodies, Government of Haryana (v) Director General, Town and Country Planning, Haryana, (vi) Chief Administrator, HSVP and (vii) HSPCB with the directions to(1) compile/catalogue information regarding all green areas/parks/green belts reserved in the respective areas of all the Municipal Bodies in the State of Haryana with requisite details as to (a) location, revenue number, boundaries, measurements etc.; (b) present status regarding plantation/green vegetation, user, maintenance, and agency deputed for maintenance; and (c) encroachments (including encroachments made by unauthorizedly constructing religious structures) made on the same with requisite details as to who made the encroachments, when and in which manner and what action has been taken/is to be taken for removal of such encroachments specifically mentioning Court cases decided/pending regarding the same; (2) to get entire such information uploaded on the website of the District Administration and Municipal Bodies for seeking public participation for protection of green areas/parks/green belts reserved in the respective areas of all the Municipal Bodies in the State of Haryana against any encroachment and also for ensuring proper use and maintenance thereof; and (3) to verify factual position of per capita green cover and assess its adequacy in view of the number of residents and give suggestions for remedial measures required to be taken for proper user, development, maintenance, protection, and improvement of such green areas/parks/green belts reserved in the respective areas of all the Municipal Bodies in the State of Haryana".

2. In compliance to the directions of Hon'ble NGT, first meeting of the Joint Committee was convened on 20.07.2024 .

3. In the first meeting it was decided that for compliance of Hon'ble NGT directions Sub-Committee will be formed at district level in all districts of Haryana comprising of following members:-

1. Commissioner Municipal Corporation/ District Municipal Commissioner – Chairman
2. DTP/ DTP (E) – Member
3. Estate Officer, HSVP – Member
4. Regional Officer, HSPCB –Member Secretary

Sub-Committee of all the districts and concerned Departments were asked to submit the information regarding green parks as per mandate given by the Hon'ble Tribunal.

4. In the second meeting of Joint Committee held on 29.07.2021, data collected by various sub committees was collected and analyzed by Joint Committee members.

Data is summarized below:

- A. The data of parks have been compiled along its revenue number and area. There are 4025 parks/green belts in Urban/ Municipal areas of Haryana and total area of the parks in Haryana is 2.18 crore Sq. Meter. The compilation of the list of all districts along with details is attached as **Annexure-1.**
- B. Compiled data of all areas of Haryana state is enclosed as Annexure-I to Annexure-XXIII for Karnal, Jind, Kurukshetra, Bhiwani, Palwal, Kaithal, Gurugram, Sonapat, Jhajjar, Ambala, Charkhi Dadri, Yamuna Nagar, Panipat, Fatehabad, Rewari, Panchkula, Faridabad, Narnaul and Sirsa.
- C. The revenue data has been mentioned for each park where ever available. In the urban sectors/private colonies the exact revenue number do not exist for individual parks and these are numbered or identified in the zoning plans with the Town and Country Planning department/ Haryana Sahari Vikas Pradhikaran (HSVP). The revenue data for 607 parks is being searched from the record by the concerned MCs.
- D. The parks are developed and green vegetation and plants/ trees have been grown in the parks. Out of 4025, the process for development of 90 parks

is under way and 3935 parks are already developed and plants have been planted.

- E. The agencies have been deputed for the maintenance in case of 3853 parks in Haryana and agencies have not been deputed so far in case of 172 parks. The process for deputing agencies for maintenance in these cases is under way and likely to be completed by the end of this year. Some of the parks are maintained by the departments at their own.
- F. The information has been uploaded on the website of concerned MC and District Administration so that public could view the data and give suggestions.
- G. There are 4025 parks in Haryana having cumulative area of 21789173 Sq. meter. The estimated present population of these urban areas is 106 Lacs. Thus the per capita area of green parks/belts comes out to be approximately 2.06 Sq. meter.
- H. There is encroachment in 10 No. parks in the State of Haryana at Panipat, Rohtak, Kaithal and Sirsa. The religious structures have been constructed in these places and the departments have been asked to pursue for the eviction of the encroachers.

5. Recommendations:-

To ensure the proper development, maintenance, protection, and improvement of green areas, parks, and green belts several remedial measures can be undertaken by Municipal Bodies/Developmental bodies:

1. The concerned MCs should be ensure the revenue number for all the parks and conduct survey to confirm the area as per revenue record and rule out any encroachment. Further, the revenue record for remaining 607 parks should be made available in time bound manner.
2. The Town and Country Planning department should make a survey and verify the measurement of green areas in private colonies to rule out any diversion of green area for other activities.

3. The encroachment from the 10 parks of Haryana should be removed immediately as this is already in the record and necessary guidelines/policy for prevention of reoccurrence of such incidents be issued.
4. Planning: Comprehensive master plan may be developed at municipality for green spaces, ensuring they are evenly distributed and accessible to all residents. In urban planning documents, specific areas may be designated for green belts and parks. This must be confirmed by the ULB/ TCP department through survey and inspections.
5. Maintenance: Regular maintenance plans may be framed for cleaning, pruning, watering, and pest control
6. Dedicated maintenance teams may be deputed in municipal area that are equipped with the necessary tools and training for maintenance and upkeep.
7. Infrastructure and Amenities: Parks may be provided with adequate facilities such as benches, walking/jogging tracks, playgrounds, restrooms, and water fountains. Arrangements may be also made for lights and security in parks.
8. Environmental Protection: Native plant species may be planted in consultation with forest department. Vigilance squad may be deputed for prevention of illegal activities and encroachment in park.
9. Community Involvement: Community participation may be increased by involving people of local RWAs in the upkeep and development of green spaces through volunteer programs. Educational programmes and events may be organized for raising awareness regarding importance of green areas.
10. Sustainable Methods: Rainwater harvesting, composting, and use of organic fertilizers may be promoted inside green park/spaces. Waste must be segregated and minimized to keep parks and green belts clean. Smart irrigation system may be used for conservation of water.
11. Monitoring and Evaluation: Local authorities may conduct regular audits and inspections to assess the condition of green spaces and by taking feedback from residents to make continuous improvements.
12. Arrangement /Development of Funds: Sufficient budgetary resources may be provided by local bodies for the development and maintenance of green spaces.

Public-private partnerships models may explored for maintenance and development of parks.

13. Regulatory Measures: Authorities must remain vigilant for enforcement of laws to protect green spaces from unauthorized construction and misuse. Strict penalties may be imposed on violators to deter encroachment of green areas..
14. Use of Technology for protection: GIS tools and drones may be used for mapping and monitoring and manage green spaces effectively.
