40	Roorkee (NN)	NA	NA	NA	NA	As of now Agencies (Growmax Tech.) engaged for daily waste processing however still there is a GAP of around 10-20 TPD in waste processing which amount to 10-15% of GAP.	Currently, Nagar Nigam Roorkee is implementing various solid waste management projects in a ROUMT (Rehabilitation, Operation, Upgradation, Maintenance and Transfer) Mode, which is a specific Public- Private partnership for achieving the 100% waste processing. Along with this, waste to energy plant is proposed on cluster level at Roorkee, for which DPR has already been prepared.
